(5) We want to further state that on the question of the assessment, that we are opposed to the continual assessment of the miners without a mandate from the rank and file and state that we prefer and will go on record to set up a machinery for relief for our striking brothers in the soft coal district, direct by the rank and file of the anthracite, so that the soft coal miners may preserve their union and working conditions. Their victory is our victory, as their union is our union.

Our union is in the greatest danger. Every honest rank and file fighter must stand by this program and fight for its realization, so we can clean out corruption in our union, restore our union once more into the hands of our membership and make it a union for which the miners in September 10, 1897 at Lattimer were massacred. Make it the kind of union they wanted it to be.

To do this, Lewis, Kennedy, and Mattey must go. In every local union, the rank and file element must organize to clean out corruption, elect rank and file members to local offices and do the same in the district and in the International.

Our position is open and clear. We speak openly to the rank and file, and will fight with them for a better, broader, and a larger program for our union.

We pledge if elected, to fight and work for the realizing of the following program.

(1) Six-hour day, five-day week.

(2) National agreement for the anthracite and bituminous miners. No division of forces in our union.

(3) No arbitration or conciliation boards in our agreement.

(4) Enforcement in full of all provisions of the present agreement, as to wages and working conditions.

(5) To abolish the special mining contract system. Expelling from the union all contractors and enforce this by strike if necessary.

(6) Wipe out all coal company corruption and influence in local unions and in our district.

Reinstate All Members.

(7) Reinstate all members and local unions which were expelled for their fight against the officials in this district and the international.

(8) Honest elections and democracy in the union.

(9) Against the introduction of machinery without the adjustment of the scale which will mean a benefit for the miners and a shortening of working hours.

(10) Equalization of work during the period of unemployment.

(11) Against the appointment of all field workers and for the election of all field workers in the district and international.

(12) The officers shall only receive the average wage of the miners and very moderate expenses.

(13) Against any reduction in wages.

(14) Relief from the rank and file, direct to the rank and file of the soft coal striking regions.

(15) Nationalization of mines.

(16) Labor Party.

(17) No shifting of taxation from the coal companies onto the workers.

(18) Full union wages for miners and all workers injured in and around the mines. Full support for families whose chief supporters were killed. For taking care of old miners, who either through old age, miner's asthma or other occupational diseases are unable to make their living. All expenses of the above to be borne by the coal companies with the union administrating same.

(19) A raise of wages for all young workers in and around the mines to a higher standard.

Solidarity of Workers.

(20) Solidarity and unity with the railroad men's organization in our common fight against the coal and railroad combination.

(21) Organization of the unorganized in the non-union bituminous fields.

(22) Education as to the aims of the labor movement of our membership.

(23) We condemn the terrorism against our brothers in District 1 leading to the deaths of Alex Campbell, Peter Reilly, Thomas Lillis and the shooting of Sam Greco and the frame-up of Sam Bonita; we lay these at the door of the special mining contract system for which Cappelini and the Lewis machine is responsible. We go on record to support and fight for the freedom of Sam Bonita, Moleski and Mendola.

(24) We declare that we will carry on an uncompromising fight against John L. Lewis and the international executive board's policy which is the policy of Kennedy and Mattey and our district executive board, as their policies in practice lead to the destruction of our union.

We stand for progressive measures and for rank and file expression as we believe that it will help in solving the problems of our unions. We ask all local unions and members to support in nominations and elections only those candidates who subscribe to this program.

FACTORY EMPLOYMENT NEAR 1921 LOW LEVEL

By LELAND OLDS (Federated Press).

Factory employment turned downward in April after two months in which it managed to climb about 2 percent above the low point of January, according to the monthly employment report of the U. S. department of labor. A decrease of 0.5 percent brought the level down 5.4 percent below April 1927. Payroll totals fell off 1.4 percent from March to a level 6.9 percent under a year ago.

The report for April shows 70 percent of American factories operating with less than a full normal force and 23 percent operating part time. Reduced forces and part time, however, are more prevalent among the smaller factories. Treating manufacturing industry as a single going concern, it is operating 96 percent fulltime, with 86 percent normal working force.

Near 1921-22 Low Level.

Factory employment is now down to within a few points of the low level reached in the 1921-22 depression. It has fallen nearly 16 percent below April 1923 and 27 percent from the high level of April 1920. Between April 1923 and April 1928 more than 1,250,000 factory workers have been permanently laid off. Since April 1920 factory forces have been reduced about 2,700,000.

The total distributed to factory workers in wages has fallen 11.3 percent below April 1923 and 31.2 percent below April 1920. Although the purchasing power of individual factory wages has risen, there has been no increase in the total purchasing power of the population dependent on factory wages. Factory wages are running $25,000,000 a week less than in April 1923 and $90,000,000 a week less than in 1920.

Factory employment fell, compared with April 1927, in every division of the country except the east north central states, where it was sustained by increased employment in the automobile industry. In New England and the middle Atlantic states employment fell 8 percent or more, while factory wage totals are down about 10 percent compared with a year ago.

HANDOUTS

UNDER a workers' government people who make remarks such as the following by Judge P. L. Lincoln, of Richmond Center, Wisconsin, will be allowed six months credit at a sanitarium to recuperate:

"We are heirs and legates to the best government ever bequeathed to any posterity. We are fortunate to live in a republic and under a government dedicated to those fundamentals of human achievement, life, liberty and the pursuit of happiness, when the greatest good to the greatest number is the guiding star."

In this respect it might be well to tell the story of the capitalist candidate who was asked what he considered the greatest object of legislation. He replied: "The greatest good to the greatest number." When asked what he considered the greatest number, he answered "Number 1."

* * *

Al in the Album

Even the toughest rooster was once a smooth white egg. The above picture taken in 1880 shows Al Smith as a boy leaning against his father's knee. In these days Al often leaned up against his father's knee in a horizontal position while his righteous parent operated the umbrella, shown left, in a decidedly vertical manner. This was because Al gave away the bananas of a neighboring fruit dealer to the boys of the baseball team in an attempt to become captain. Today there's nobody to use the umbrella on Al and he's using the banana technique with the people's money in an attempt to buy himself into the presidency.

* * *

Bagged Realtors

Twenty-one heirs of the late "Cap'n and Ma" Streeter, squatters shown above, are suing in Chicago courts for property worth $500,000,000 along the "gold coast" occupied by the richest families of Chicago. The descendants of the squatters are poor and have about as much chance of getting the return of the property from the wealthy occupants in capitalist courts as a Communist nucleus has of getting a column write-up on page one of the New York Times. Cap'n and Ma Streeter were poor and they lost everything in the capitalist courts. The only difference was that Cap'n Streeter had a lot of fun out of the fight. Life offers a lot worse experiences than going out every morning, when the sun glistens on the dewy grass, and shooting a real estate dealer in the pants. That's the way Streeter used to start his day.

Illinois Coal Mining Falling, Reports Show

SPRINGFIELD, Ill., June 12 (FP).—Coal like textiles seems to be moving south. The U. S. bureau of mines at Springfield announces that Alabama has pushed Illinois out of 4th place in bituminous coal production for April. Two other southern states, West Virginia and Kentucky, are also ahead of Illinois.

The April production was West Virginia 9,414,000 tons, Pennsylvania 9,250,000, Kentucky 4,720,000, Alabama 1,370,000, Illinois 1,270,000 tons. All large southern production is nonunion and Pennsylvania bituminous now largely nonunion. Illinois production in May averaged 500,000 tons a week. Its normal output is about 1,500,000 tons a week.

NEW NATIONAL MINE UNION

U. S. BIG BUSINESS IS SOLID FOR HOOVER AT KANSAS CITY

Mellon, Rockefeller, Butler and Morgan Crowned Hoover for Coolidge's Job

So-Called "Farm Revolt" Fizzles; Its Leaders Work With Wall Street

KANSAS CITY, June 13.—The oligarchy of big business and finance, as represented by Andrew W. Mellon, of the coal and steel group, William M. Butler, of the textile group, John D. Rockefeller, of oil, and J. P. Morgan, of Wall Street, extended its control today as the organization of the republican national convention proceeded.

This is the oligarchy which is represented in the republican party machine sense by Calvin Coolidge, who went into the White House with Warren G. Harding on Teapot Dome, Elk Hills and Salt Creek oil graft money, and by William S. ("Boss") Vare, of Philadelphia, whose campaigns for years have furnished models for the republican party in slush funding and vote buying.

Hoover Certain.

It still looked at the close of today's session as if these forces now in control of the imperialist capitalist class government of the United States, would put Herbert Hoover over as the party nominee to succeed Coolidge. Hoover has been groomed as a politician for the last eight years. There are many signs here of his "regularity," not the least of them being the fact that Vare broke the silence of the Pennsylvania delegation in declaring for his nomination. There is also the fact that Hoover men control the credentials committee 36 to 15. The permanent chairman of the convention, Senator George H. Moses, was one of the original Hoover partisans.

"If Coolidge has held any choice as to his successor among the various candidates," C. W. Barron, president

(Continued on Page Two)

HOOVER, SMITH TO BE EXPOSED

Communist Candidates to Tour Country

While propaganda is flooding the country intended to put over Herbert Hoover and Al Smith, most likely candidates of the republican and democratic parties, the true story of the forces behind the selection of these servants of big business will be told during the campaign of the Workers (Communist) Party by its standard bearers, Wm. Z. Foster and Benjamin Gitlow.

Country-Wide Campaign.

The Workers Party campaign committee is already working on a series of election campaign tours which will carry the Party candidates for president and vice-president into hundreds of cities throughout the country from coast to coast.

Millions of workers will be given an opportunity to hear in full the program of the Workers (Communist) Party. The true character of the democratic and republican parties will be everywhere explained and analyzed.

Hoover will very likely dwell largely on the filth and corruption rampant in the democratic party. The compliment will be returned to the republican party by Smith who

(Continued on Page Two)

GREEK STRIKERS SHOT BY POLICE

ATHENS, Greece, June 13.—Ten workers were severely injured today when police and troops broke up a demonstration of striking tobacco workers at Drama. One worker was killed and a number seriously injured in Athens yesterday when police attempted to break up a similar demonstration.

The striking workers are employed by the American tobacco workers. Numerous meetings are being held to protest against the action of the police and the soldiers.

WORKERS PARTY HOLDS MEETING IN KANSAS CITY

Farmer Delegation Is Ousted from GOP Hall

(Special to The DAILY WORKER.)

KANSAS CITY, Mo., June 13.—In this city where the republican party is now holding its Wall Street controlled nomination convention, the Workers (Communist) Party last night held a meeting at 7th and Minnesota Streets. The speakers, George J. Saul and D. E. Earley, stressed the fact that the republican party is the greatest enemy of the workers and farmers of the United States. A large crowd that was assembled there continually cheered the exposures of the speakers concerning the graft and anti-labor tactics of the G. O. P.

After the meeting, many signatures were obtained for the petition which will get the Workers (Communist) Party on the ballot in the state of Kansas in the coming presidential elections.

Farmers Protest Against Hoover.

Nine hundred farmers and farmer-delegates earlier in the morning picketed the convention hall with placards and banners on which were inscribed the slogans: "Anyone But Hoover;" "The 30,000,000 Farmers Don't Want Hoover;" and "We Don't Choose to Vote for Hoover." They attempted to enter the hall, but the few who managed to get in were immediately ejected. The rest were dispersed by the police.

They shouted: "Whose convention is this? Mellon's, the American autocracy's, or the American people's?"

14 STRIKERS JOIN THE YOUTH LEAGUE

New Bedford Workers Join Communist Party

NEW BEDFORD, Mass. (By Mail).—The young textile strikers of New Bedford know well who are their friends and who their enemies. This was demonstrated when 14 young strikers joined the Young Workers (Communist) League at its last meeting, held here on Friday last.

Seventy-five young workers attended this meeting in order to discuss the textile strike and the meaning it holds for the young workers.

The main speaker at the meeting was Gilbert Green, organizer for the League. He dealt with the cause and effects of the big strike of 30,000 workers, and concluded by pointing out that only by fighting and destroying the capitalist system can wage cuts and miserable working conditions be eliminated.

SPEED-UP INCREASES.

WASHINGTON, June 13. — The extent of the speed-up system in the United States is shown by a chart issued by the fedela department of commerce, in which the average productivity of the United States worker for his employer's profit is 100. By comparison the productivity of the workers of other countries is given as follows: Canada, 70; England, 66; Germany, 40; France, 33; Australia, 30.

More Contributions Needed to Save Revolutionary 'Daily'

To the Readers of The DAILY WORKER.

COMRADES:

Contributions received yesterday in the campaign to save The DAILY WORKER were $712.65. This is slightly larger than the day before, but falls far short of what is necessary.

Facing the ultimatum of creditors, under the terms of which we must complete the raising of $10,000 before the end of this week, we are compelled to point out to you that some very heroic efforts will have to be made today, tomorrow and the next day if our revolutionary organ is to be pulled out of this very grave crisis.

The receipts of the campaign up to last night are:

Last week:	Monday	$ 161.99
	Tuesday	464.55
	Wednesday	556.30
	Thursday	576.60
	Friday	695.00
	Saturday	705.77
This week:	Monday	1,660.40
	Tuesday	661.20
	Wednesday	712.65
Total to last night		$6,194.46

Comrades, we have still the urgent need to raise $3,806.64 before this coming Saturday night. This is an average of more than $1,200 for each of the three remaining days. Can you help us to make it? As we told you yesterday, the situation will be very grave if we are compelled to try to obtain further time beyond Saturday when the ultimatum expires, under the terms of which we are forced to complete the $10,000.

We hope that you will hasten your help.

The Provisional Central Committee of the Alliance for the Support of the Chinese Workers' and Peasants' Revolution in America, of San Francisco, sent $10 yesterday with these words:

> "When world imperialism is preparing fresh intervention in colonial revolts and when world capital is launching an increasing offensive against the workingclass, we must not let The DAILY WORKER, the only English daily that speaks for the workingclass and the oppressed peoples of the world, go out of existence. Our crisis, is sending this small sum and we will call organization, though itself in a constant financial upon our members and sympathizers to make their contributions to save The DAILY WORKER."

The Workers (Communist) Party of Baltimore sends $25, saying:

> "Enclosed find check for the sum of $25 for the rescue of The DAILY WORKER. We shall continue working to safeguard the only revolutionary daily in the English language. There is no room for discouragement if every class-conscious worker would only do his duty to his paper.
> S. BERGER, City Organizer,
> Workers (Communist) Party, Baltimore.

We request all comrades, Communists, sympathizers, and all workers' organizations that recognize The DAILY WORKER'S unbending fight for the cause of our class to send all possible aid immediately by telegraph, airmail or special delivery to The DAILY WORKER, 33 First St., New York City.

THE MANAGEMENT COMMITTEE.

Carrying U. S. Empire's Death-Flag to Nicaragua

American marines carrying a death-flag, symbol of their activity in Nicaragua, where they have slaughtered hundreds of natives in the effort to establish Wall Street's rule.

1,500 MORE MARINES TO GO TO NICARAGUA

WASHINGTON, June 13.—Preparations are going on here today to send 1,500 more marines to Nicaragua for the purpose of "supervising" the Nicaraguan elections in November.

Several marine and navy officials, including Major General John A. Lejeune will place the proposal before President Coolidge at a white house conference today. All indications point to the immediate granting of the request. These reinforcements will bring the number of marines in Nicaragua to 5,200, according to official figures.

The action was decided upon after the receipt of a telegram from Brigadier General McCoy, in charge of the ruthless killing of citizens in Nicaragua, asking for reinforcements. The force at his command at present, he claimed, was insufficient to wipe out the forces of General Sandino, militant leader of the Nicaraguan revolutionists.

DONATE SECOND TIME TO "DAILY"

Workers Must Increase Contributions

Many workers are not contenting themselves with contributing once to the fund to save The DAILY WORKER. Realizing that great sacrifices are necessary to ensure the continued existence of their fighting "Daily" they are contributing a second and even a third time. One such worker is S. Brener of Detroit, who has sent in his second $5 contribution and promises to try to send more.

Only by such sacrifices can The DAILY WORKER be saved. Yesterday's contributions were higher than the day before, with $712.65 received, but still far below the rate they should come in to raise the second $5,000 that The DAILY WORKER must have by Saturday.

The contributions yesterday were as follows:

Peter Buzuid, Bklyn, N. Y., $1; Peter Poskitis, Bklyn, N. Y., 25c; Meris, Bklyn, N. Y., 50c; Jankaitis, N. Y. C., $1; M. Neff, N. Y. C., $1; P. Raines, N. Y. C., $1; Ivanoff, N. Y. C., $1; Weiner, N. Y. C., $1; Kappil, N. Y. C., $1; Breen, N.Y.C., $1; Konin, N.Y.C., $2; Goreluk, N.Y.C., 25c; Liboff, N.Y.C., 25c; Bisnov, N.Y.C., 50c; Bulvydas, N.Y.C., $1; Minow, N.Y.C., $1; Sherry, N.Y.C., $1; J. Puodziunas, Cicero, Ill., $1; J. K. Stalloratis, Cicero, Ill., $1; Jakutis, Cicero, Ill., $1; A. Demikis, Cicero, Ill., $1; Ch. Seveckis, Cicero, Ill., $1; M. Butvil, Cicero, Ill., $1; A. Sideravicius, Cicero, Ill., $3; L. B. B., Cicero, Ill., $1; J. J. Kabat, Binghamton, N. Y., $3; M. Mattly, Johnston City, N. Y., $3; Minnie Kocik, Johnston City, N. Y., $3; Minnie Vavra, Binghamton, N. Y., $3; P. Balchukonis, Binghamton, N. Y., $2.25; M. Grinbyig, Bronx, N. Y., 50c; Sarah Friedman, Bronx, N. Y., 50c; Pauline Roll, Bronx, N. Y., 50c; Annie Sammerstein, Bronx, N. Y., 50c; A. Lichtman, Bronx, N. Y., $1; Nathan Gigalman, Bklyn, N. Y., $2; S. Safran, Bklyn, N. Y., $1; Sam Mailman, Bklyn, N. Y., $1; Abe Chernoff, Bklyn, N. Y.,

POWER TRUST PROPAGANDA AND "A. P."

Texas Lobby Director Is on the Associated Press Payroll

(By Federated Press.)

WASHINGTON, June 13. — Testifying under oath before Commissioner McCulloch in the federal trade commissioner's investigation of the power trust propaganda activities, June 12, William C. Grant of Dallas, Texas, director of the Texas Public Service Information Bureau since June 1. 1927, stated that he had remained "on the payroll of the Associated Press as relief editor" ever since that date. He had previously been a regular A. P. man, and was chosen by the public utilities propaganda bureau to succeed the late George McQuaide because of his wide personal influence with newspaper men.

"Do I understand," asked McCulloch, "that you are still connected with the Associated Press?"

"Yes, Judge, I work Saturday nights for them in Dallas."

Grant, as press lobbyist during the past year, "offered to the Associated Press numerous stories, many of which they have asked for and most of which they have used" dealing with public utilities.

* * *

CHIEF COUNSEL HEALY for the commission introduced in evidence a number of Grant's letters to utility men in Texas, in which Grant mentioned his relation with the A. P.

To Lynch Davidson, former lieutenant governor, Grant described his new job as publicity agent for the utilities, but said, "I am still, however, connected with the A. P. as a special writer, and

LEADERS SUMMON CONVENTION FOR SEPTEMBER 9--16

Conference Attended By Officers From All Mine Districts and Unorganized Fields

Call Upon Rank and File to Rebuild Union Which Lewis Treachery Has Wrecked

PITTSBURGH, June 13.—Declaring that the Lewis machine had wrecked the once powerful organization of the mine workers, officers and delegates from every district of the organized and unorganized fields meeting in conference here today issued a call for a national miners' convention for the establishment of a new union.

The call for the convention which is to be held in Pittsburgh September 9 to 16 at the same time sent out word to the 900,000 anthracite and bituminous miners to take control of their union, to choose delegates for the September national convention, to make plans for the organization of the unorganized and the speeding up of relief for the strikers.

Spirit of Struggle.

The conference which closed here today was one of the most earnest and determined in the history of the miners' union. Called at the initiative of the newly elected officers of district 5, there were in attendance officers and representatives from district 2 of Pennsylvania, from districts 1, 7, and 9 of the anthracite, from Ohio, Illinois, Indiana, Kansas, West Virginia, Colorado, Kentucky, from the formerly unorganized districts of Westmoreland County in Pennsylvania, from unorganized West Virginia districts and from other unorganized sections.

John Watt, well known mine leader, was chosen chairman of the meeting. Pat Toohey was made secretary. One of the principal tasks of the conference, besides the issuance of the September convention call, was the election of a national organization committee composed of representatives from every district in the union, officers of district 5 and in addition, John Watt and Pat Toohey.

The convention call points out that the Lewis machine took over the great and powerful mine union which had slowly been built through the sacrifices and courage of the miners, but which ever since Lewis took control has been going down until it has been

(Continued on Page Two)

NEW EXPOSURES IN GRAFT RING OF NY AMALGAMATED

Hillman Asks for Only Three Resignations

In addition to further astounding disclosures of malodorous details in the graft system which has hitherto been functioning smoothly in the New York Joint Board of the Amalgamated Clothing Workers Union, the expected action of President Hillman in asking the resignation of three associate officials was also made public yesterday.

Choses Scape Goats.

As was reported, Hillman, yesterday, chose his scape goats and, with gestures of horrified surprise, thru the columns of the socialist Daily Forward, requested the three officials of the Knee Pants Union vacate their positions at the receiving end of the elaborate graft apparatus developed under his leadership in the union.

Not only did Hillman fail to ask the higher-ups to quit their jobs, but his public request that the three men resign did not even cast a questioning glance at the Beckerman machine controlling the Joint Board, without whose knowledge the graft system could not have functioned.

The uncovering of all this sewage brought to light further proof that the machine in the Joint Board received graft for providing workers for the scab open-shops, and then contracted to receive more graft for providing this scab contracting shop with work. A boss willing to come across discovered that he could have at his disposal a machine that would bankrupt his rival. Wages in back pay and other forms were confiscated instead of being turned over to the workers who sweated for it.

WATSON BACKED FORGERY, CHARGE

INDIANAPOLIS, June 13. — The name of James E. Watson, Ku Klux Klan senator from Indiana and a candidate for the republican presidential nomination, has once more been smeared with mud as the result of a charge that he helped to finance a plot to file a false affidavit which yesterday led to the conviction of Earl Klinck, ex-lieutenant of D. C. Stephenson, former head of the Indiana Klan.

J. E. Watson

The charge was made by Thomas H. Adams, of Vincennes, in a telegram to William M. Butler, chairman of the republican national convention at Kansas City.

Klinck was today sentenced to serve one to three years in the state prison and fined $100 and costs for forging the name of William Rogers to an affidavit purporting to retract the testimony of Rogers, given in 1926, to the effect that Senator Watson carried an "imperial passport" issued by the klan. It is declared that Klinck is being used as a scapegoat to shield Watson.

NATIONAL GUARD TO LEAVE MINES

Strikebreakers Fail to Drive Workers Back

(Special to The DAILY WORKER.)

COLUMBUS, Ohio, June 13. — The last of the Ohio National Guard "observers" who have been on duty in the eastern Ohio strike area since last September will be recalled not later than June 20, by authorities at Columbus, it was announced here today. The last excuse of the national guard to continue as watch dogs of the coal operators collapsed when the militia closed its relief kitchen early in May of the current year.

Despite the closing down of the kitchens, which were forced to shut down because the workers in other industries refused to have their money administered by the same hands which turn machine guns against the miners, a dozen "observer" officers remained in the field. These were active in directing the attacks of county police forces against mass picket lines which moved effectively before a score of mines in eastern Ohio. The need of the miners is becoming increasingly acute. Funds should be rushed to the National Miners Relief Committee, 611 Penn Ave., Pittsburgh, Pa.

STREET CLEANER KILLED.

WILKES-BARRE, Pa., June 13.—Israel Smith, aged 71, a street cleaner of this city, died yesterday from injuries received when struck by a machine while working at East Market and State Streets.

WORKER KILLED ON JOB.

WHEELING, W. Va., June 13. — Jack W. Blond, 24, a cable splicer for the C. & P. Telephone Co., was killed when he fell from a telephone pole at Warwood. His grip had been loosened when his hand received an electrical shock.

Mass Picketing Vital in Philadelphia Hosiery Strike, Correspondent Says

SPIRIT OF MEN FIRM IN FIGHT ON MILL BOSSES

Ajax, Emmet, Federal Factories Still Out

(By a Worker Correspondent)

PHILADELPHIA, Pa. (By mail). —The hosiery strike here in Philadelphia is being bitterly fought by the workers against the capitalist exploiters. At the Ajax Mill picketing is going on, but to be effective both ends of the street ought to be picketed as the present line with only a few pickets on duty gives the boss and the scabs a false impression of the workers' fighting spirit. Mass picketing at all mills affected by the strike is what the bosses fear.

Boss Attack.

The present strike is the result of a serious attempt by the capitalist owners of the hosiery mills to slash wages and speed up the men. This attack on the workers for the purpose of lowering standards of living and forcing them to operate more machines, so that the bosses can have more profits while the workers who lose their jobs are forced into the ranks of the unemployed, this attack on the workers at the Federal, Ajax and Emmet mills, is the answer of the bosses to the collaboration proposal endorsed by the union leaders whom Mitten commends.

Capitalist Tools.

The workers have got to show the damn fiendish exploiters that they intend to fight them against the destruction of their unions. The workers effected by this strike see now that the capitalist tools, the judges who issue injunctions against the strikers at the bosses' command, and the police are ready to serve their masters in beating up and arresting the strikers, however peacefully they may be picketing.

Mass picketing must go on in this strike and the workers in all industries must co-operate with the strikers, as the capitalist owners of the hosiery mills are determined to crush the hosiery workers and smash their union. The bosses realize that the workers must and will win if mass picketing goes into effect.

Ex-Servicemen.

Some of the strikers are Americans who fought in the last war and are now forced to fight again, this time against those who are causing the arrests and clubbing of workers who are striking against the heavy conditions of slavery imposed on them. It is an inspiring sight to see these American men and women, denied liberty by force and injunctions, clubbed, terrorized, struggling against their oppressors, the hosiery bosses.

The slogan of the hosiery strikers must be mass picketing and the organization of the unorganized.

—W. C. P.

LOBBY DIRECTOR ON "A.P." PAYROLL

School Heads Use Trust Publicity

(Continued from page one)

whenever there is anything I can put out for you I shall be glad to do so."

* * *

SCHOOL principals throughout the state were solicited by him to ask for free supplies of "educational" pamphlets he issued, dealing with electricity, gas, street railways and telephones. Of 1,000 highschools, 350 responded, and he sent out 82,000 pamphlets. Some 600 addresses were delivered before highschool classes in the year, by his speakers. Professors from four colleges and universities were sent to a conference of the National Electric Light Association Committee on cooperation with higher educational institutions, at the expense of his group.

(Continued from page one)

can be expected to deal largely in oil. Much publicity will be given to their utterances, but there will be a "gentleman's" agreement not to expose each other as agents of the ruling class of America which is even now planning new conquests in foreign lands at the cost of fresh heaps of slaughtered American workers, dressed in the uniforms of American imperialism.

Only Working-Class Party.

The candidates of the Workers (Communist) Party, Foster and Gitlow, are the only ones interested in exposing the fact that the republican party with Hoover and the democratic party with Smith, are the agents and tools of the American capitalist class. Both will exert every possible effort to enlist the workers in the class struggle, and to rally them in a fight to establish a Workers' and Farmers' Government in America.

Big Business Speaks

William M. Butler, chairman of the republican national committee at Kansas City, where big business is engaged in choosing the likeliest tool to do its work for the next four years. Butler controls some of the largest textile mills in New Bedford, Mass., and heads the bosses' association which is attempting to starve out the 27,000 mill slaves that are striking against a 10 per cent wage slash.

BIG BUSINESS IS BACKING HOOVER

Mellon and Rockefeller His Supporters

(Continued from Page One)

of the Wall Street Journal, telegraphed his office for publication yesterday "it has been clear all along that he was most inclined toward Hoover."

Wall St. Likes Him.

This means that Wall Street was most inclined toward Hoover.

The highly press-agented farm "revolt," as was predicted, was derailed by the republican standpatters. The farm plank in the platform which the Mellon-Butler-Hoover-Coolidge group will put through the convention will carry enough pro-agriculture language to consolidate the republican ranks among the bankers, manufacturers and employing farmers in the Mississippi Valley.

"As far as Indiana is concerned we are all for the ticket," Senator Robinson, a leader in the agitation for the vetoed McNary-Haugen bill, said today. "We are all republicans."

Governor A. G. Sorlie, of North Dakota, who led one of the farm delegations to Kansas City, also said all talk of a bolt had evaporated.

Several hundred agriculturalists with a band paraded here and finally demanded entrance to the convention hall but at a word from the pro-Hoover sergeant-at-arms of the convention the Kansas City police force drove them away from the door.

It may be that Vice-president Charles G. Dawes, of Chicago, or Senator Curtis, of Kansas, may be nominated for vice-president as a further gesture for farm support, although Ambassador Alanson B. Houghton, of New York, is being urged to offset the effect of the expected nomination of Gov. Al Smith, of New York, by the democratic party.

The permanent convention organization is to be installed tomorrow.

BRITISH TEXTILE LOCKOUT LOOMING

MANCHESTER, England, June 13. —The action of the textile workers in serving notice on the owners of the textile mills in the Oldham area, that they will not spin cotton prepared by the newly hired non-union labor, may lead to a lockout in the entire factory district of Oldham, dispatches declare.

The situation was precipitated by the owners of the Ace Mill who attempted to produce work with non-union labor. This attempt of the bosses was met by an immediate strike by the other workers in the mill, resulting in a complete shutdown.

Chicago Workers Plan Matteotti Memorial

CHICAGO, June 13. — The Italian workers of this city have arranged a memorial meeting to honor the memory of Giacomo Matteotti, Italian revolutionist, murdered by the fascist government of Mussolini. The meeting will be held on Friday, at 7.30 p. m. at the Bowen Hall, Hull House, corner Halsted and Polk Sts., Chicago.

The speakers include Antonio Presi of the anti-fascist alliance; Professor Robert Morss Lovett of the University of Chicago and Attorney Cairoli Gigliotti.

DYER OFFICIALS HIRE GANGSTERS TO RULE UNION

Blackjacks, Knives and Clubs Feature "Visit"

(By a Worker Correspondent)

On May 11, a group of progressive cleaners and dyers held a meeting at 347 East 72nd St., New York City. A number of uninvited guests came to this meeting. Among them were Sam Weintraub, business manager of the Cleaners, Dyers and Pressers' Union, local 17797; A. Hammer, president of the union, and Sam Goldberg, business manager of local 813, of the International Brotherhood of Teamsters and Chauffeurs. This uninvited group, without much to do, thereupon proceeded to attack and beat up the members present with blackjacks, knives, clubs, and other implements.

This resulted in injuries to many of the members. Two were taken to the hospital and others were treated privately. The above named union officials were arrested.

On June 2, this gangster case was postponed for the third time at the fifth district magistrate court, by Magistrate Goodman.

The officials of the Cleaners, Dyers, and Pressers Union, utilizing the forces of corruption and graft, succeeded in obtaining a postponement of the prosecution of the gangster officials. This postponement was not requested by William Karlin, attorney for the corrupt officials, and was earnestly opposed by the counsel for the assaulted victims of the officials' gangsterism.

This prevention of the administration of justice is indicative of the extent to which these self-styled officials would go in order to prevent themselves from submitting to the consequences of their crime. Their yellow tactics of gangsters are consistent with their corrupt tactics in buying the means of prosecution. The case was postponed until two days after the time of the election of the officials for the coming term.

At the last nomination meeting of the union held on May 28 at the Union Hall, 151 Clinton St., over 50 union members in good standing were not admitted into the meeting hall. No opponent nominees were allowed at the nomination meeting, to make possible the renomination of the gangster clique.

Thus we see that labor can get no justice in the capitalist courts.

—J. B.

Two Workers Hurt When Buckling Engine Derails an Eight-Car Train

Two workers were badly hurt when a Central Railroad of New Jersey engine buckled near Von Nostrand Ave. station, Jersey City, derailing the eight-car train it was pulling. Photo shows view of wreck.

BELIEVE CHANG TSO-LIN DEAD

Worker-Peasant Troops Boycott U. S. Goods

TOKIO, June 13. — Announcement of the death of Chang Tso-lin, northern warlord, has been received here from Manchurian sources. The warlord's death is the result of injuries sustained when the train, on which he was fleeing from Peking before the Nanking invasion, was bombed outside Mukden.

Chang had been dictator of northern China for more than two years.

* * *

Worker-Peasant Boycott.

SHANGHAI, June 13.—A boycott against all goods coming from the United States or manufactured by American factories has been declared by the administration of the Worker-Peasant army. It is intended to root out American manufactures in those districts controlled by the Worker-Peasant troops.

A similar boycott has been also declared against Japanese products.

* * *

Attack Wong.

SHANGHAI, June 13. — The Professors' Association of this city has issued an attack against the Nanking foreign minister, C. T. Wong, because of his action in acceding to the Japanese demands after the capture of Tsinan.

"The Cyclone Lover," New Play at Frolic, Has a Good First Act

A noisy and at times fairly interesting play called "The Cyclone Lover" is making an attempt to amuse summer audiences at the Frolic Theatre. While the play opens with a very promising first act, it decreases in interest until at the end most people sigh in relief at the fall of the curtain.

The play was written by Charles A. Bickford, a capable character actor, remembered for his remarkable performance several seasons ago in Laurence Stalling's "Outside Looking In" and in Maurice Watkins' "Chicago", and Fred Ballard, author of "Believe Me, Xantippe." If these two playwrights would discard the last two acts as they are now written and revise the play from the end of the first act, they may turn out a play they could be fairly well proud of. That is provided, the revised second and third acts equal the present first act which is a fine piece of farce comedy construction.

The plot is of practically no importance, being based on the usual slapjack stock in trade that is always brot in view at this time of the year when most plays are struggling to find an audience.

The play is about a shy young man who turns into a two-fisted fighter after he falls in love at first sight. During the progress of the play we watch how the he-man, who happens to be a Quaker, goes thru hell and then some, to save the fair maiden from the bad, bold Greenwich Village artist. Of course, in the end everything turns out for the best.

The hero of the evening is capably portrayed by Harold Elliott, who bravely does his utmost in a rather stupid role. The girl's role is handled by Emily Graham who is extremely active during the three acts. The villain is well acted by Theodore Hecht, while Al Roberts is fine in a small part. It is a pity that Mr. Roberts is not utilized more than he is. Other members of the cast include Thomas McLarnie, as the girl's father and John C. Browning as a hick judge.

—S.A.P.

CAL LEAVES FOR REST AFTER "TOIL"

Many Servants Go With Him to Oil Man's Camp

WASHINGTON, June 13. — Accompanied by a large retinue of servants, President and Mrs. Coolidge will leave tonight for a three-months' vacation at Pierce Lodge, Brule, Wisc., part of the estate of the late Henry Clay Pierce, millionaire oil man.

WILL PLAN NEW NATIONAL MINERS UNION AT MEET

Declare Lewis Machine Wrecked Old Union

(Continued from Page One)

wrecked. The convention call rings out a new challenge to the miners to take control of their unions in every district, to elect delegates on the basis of one to every hundred miners to the September convention. Unorganized fields and especially the west Pennsylvania districts are urged to fall behind the new national movement and are promised that no such betrayals as those put over by Lewis in 1922 will ever again be possible under the rank and file leadership of the new union.

One National Union.

A special call is sent out to the anthracite districts, warning the miners against so-called opposition leaders who advocate a separate union of the anthracite districts. The solidarity of the anthracite and bituminous miners is the great need of the union, the call declares.

Endorsement was made of the National Miners Relief Committee and a special appeal is made to hasten relief which is seen as one of the outstanding tasks facing the carrying on of the strike.

Stewart on Trial

WASHINGTON, June 13.—The case against Robert W. Stewart, chairman of the Standard Oil Co. of Indiana, on trial for contempt of the senate in the Teapot Dome oil graft investigation, was expected to go to the jury yesterday. Prior to the acquittal of Harry F. Sinclair of conspiracy, Stewart refused to answer questions as to the divisions of the over-night profits of the Continental Trading Co.

Chief Engineer Now Admits Full Guilt in Trial of Donetz Plotters

MAID IMPLICATED KOLODUB IN CELL WITNESS DEPOSES

Mine Owners and Spies In Constant Touch

MOSCOW, U. S. S. R., June 13.—Further evidence concerning the housemaid, Polya Boyeva, alleged to have been shot on the order of Kolodub, technician accused in the Donetz counter-revolutionary plot, was brot out by the witness, Golovtschansky, during yesterday's session of the court.

Heard Charge.

Golovtschansky was arrested by the whites as a member of the Communist Party and condemned to death by a court martial but afterwards pardoned. Polya Boyeva occupied the same cell with him during his imprisonment, the witness deposed, and he heard her statement that she had been arrested at the instigation of Kolodub.

Boyeva was shot together with a boy of sixteen.

The accused technicians, Lueri, Stoyanovsky and Sementschenko were also examined at the same session. Lueri denied his participation in the sabotage organization but admitted receiving money from the accused engineer, Sustschevsky and others.

The inquisition proved that Stoyanovsky and Sementchenko were active members of the organization altho they denied it.

Admits Full Guilt.

During the evening session the chief engineer Sustschevsky, of the Schtschertinov mine, was examined. Sustschevsky, who only admitted partial guilt during the preliminary inquiry, now admits his full guilt. The chief engineer's original statements were made by advice of his former counsel, Deiniket, but Sustschevsky has now taken a new counsel.

The chief engineer fully admitted his communication with former mine owners. He deposed that in 1921, Bychovsky brought him a letter from the former mine owner, Dvorschanschik. Bychovsky then went abroad again taking with him a letter containing news of the situation in the mines. After this a constant communication was maintained. Sustschevsky admitted receiving regular money from Dvorschanschik.

At a further session of the trial the examination of the German engineer Badstieber, was postponed owing to the illness of the defendant's counsel.

Badstieber's Life.

Badstieber describes his life as follows. After he finished his schooling he became a mechanic in the mines. He was taken prisoner by Russian soldiers during the war but returned to Germany in 1918. Since 1920 he has been with the Knapp company.

In 1926 Badstieber was sent to the Soviet Union by director Koester and worked in the Vlassovka mine. Badstieber admitted that the Knapp company had sent inferior and rusty machines to the Budovka mine. Russian experts issued a report rejecting the machines which Badstieber alleges that he signed. Koester was enraged and declared that Badstieber should not sign but should accept a commission of several hundred roubles.

During the visit of the Knapp expert, Sebold, Badstieber asserts that he complained of the machinery exported by the company. He declares that Sebold told him to mind his business and repair the machines. Badstieber obeyed.

Badstieber states that he saw no way out of accepting the machines as he did not want to be disloyal to Knapp and Germany.

"Probe" of Machado Regime Postponed

WASHINGGTON, June 13. — The congressional investigation into Cuban conditions has been postponed until next fall, it was announced today by Henrik Shipstead, so-called farmer-laborite and chairman of the subcomittee of the senate foreign relations committee, which was appointed to make this alleged probe into the activities of the reactionary Machado regime.

That the investigation may be entirely shelved is evident from Shipstead's statement that it will depend on developments in Cuba during the next few months.

Negro Bankers Swindle Savings of Own Race

MEMPHIS, June 13.—A lesson to Negro workers not to place hope for a higher standard of living and escape from the hardships of capitalism in the business men and preachers of their own race is found in the sentencing here of three Negro officers of the defunct Fraternal & Solvent Savings Bank & Trust Co. to the Tennessee State Penitentiary.

The bank, with 23,000 depositors failed through the thefts of funds by officers.

HOD CARRIERS AFFILIATE.

DENVER, June 13.—Hod Carrier's Local 720 has voted to affiliate with the Denver Building Trades Council, with four delegates.

Newsboy Shot by One of New York's "Finest"

Shot by a detective, Harry Piccaselli, a poor newsboy, is now at the Lincoln Hospital. The disablement of the boy, who aided materially in the support of his family, has placed the Piccasellis in financial straits. Photo shows Harry and his mother, who visits him daily at the hospital.

WORKERS CALENDAR

Correspondents Attention!

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

District Y. W. L. Anniversary.

BOSTON.—District 1 will hold a truck party and picnic Sunday, June 24, at Vankens farm, Cushing St., Hingham, Shenandoah, Pa., June 15; Wilkes-Barre, Pa.; Luzerne, Pa.; Hanover, Pa.; Nanticoke, Pa.; Jessup, Pa.; Pittstown, Pa.; Old Forge, Pa.; Olyphant, Pa.; Scranton, Pa.; Carbondale, Pa.

Pittsburgh District Picnic.

Shenandoah, Pennsylvania, June 15; Wilkes-Barre, Pa., Luzerne, Pa.; Hanover, Pa.; Nanticoke, Pa.; Jessup, Pa.; Pittstown, Pa.; Old Forge, Pa.; Olyphant, Pa.; Scranton, Pa.; Carbondale, Pa.

Shachtman China Lecture Tour Dates

Friday, June 15, Newark, N. J.
Sunday, June 24, Passaic, N. J. Workers' Home, 27 Dayton St., 7:30 P. M.

Loans Increase

WASHINGTON, D. C., June 13. — Loans on stocks and bonds, including United States government obligations, for the week ending May 30 were $62,000,000 above the May 23 total, according to a statement of the Federal Reserve Board from the reports of 642 member banks. Increases of $40,000,000 and $23,000,000 respectively, were shown for the New York and Chicago districts and a decline of $9,000,000 for the Cleveland district.

CHICAGO TO HOLD RED PICNIC JULY 4; GITLOW TO SPEAK

Will Be the Opening of Party Campaign

CHICAGO, June 13.—The Chicago section of the Workers (Communist) Party is preparing for a great political mass demonstration as the opening gun of its election campaign. At its picnic set for July 4, at Chernauskas Grove, 79th and Archor, Ben Gitlow, candidate for vice-president of the United States on the Workers Party ticket will speak.

Ben Gitlow.

All party units and organizations sympathetic with the Communist Party are preparing to participate en masse on this occasion. Every organization will display signs, slogans and streamers. Lambs will be roasted on an open fire ready to satisfy the hunger of the picnickers. Refreshments of all sorts will be served. Wrestling, boxing, singing, sport exercises and dancing will also be features.

GERMAN BOSSES PILE UP BIG SUM

Capital Accumulation Is 12,000,000,000 Marks

Despite the large sums that German capitalists had to pay as reparations under the Dawes plan, they succeeded in grinding out of the workers during 1927 a net capital accumulation of 7,600,000 marks.

This is the proud announcement of Agent General Parker Gilbert in the report of the reparations commission, covering the first nine months of the fourth annuity year up to May 31.

In addition, Gilbert's report states, the importation of 4,000,000,000 marks from abroad brought the total capital accumulation to almost 12,000,000,000 marks. Gilbert fails to mention that this huge accumulation of capital, as well as the war reparations, have been squeezed out of the workers in the form of starvation wages, long hours, speedup and wretched living conditions.

Prosecutor Baits Labor, Lets Criminals Go Free

CHICAGO (FP), June 13.—The record of state's attorney Robert E. Crowe, bitter anti-labor Chicago prosecutor, in failing to convict criminals is statistically exposed in a report by the Illinois Association for Criminal Justice. Eighteen times as many criminals won their freedom through conscious or unconscious loopholes in the state's attorney's control as were acquitted by juries, the records show.

Crowe spent much of his time in office hounding labor men and women on strike or framing charges on them that were subsequently shown ridiculous.

Murderers, extortionists and swindlers, big and little, get away with it in Cook County, but let a few union pickets in the dressmaking industry or a group of union capmakers gather to discuss a lockout and Crowe is Johnny-on-the-spot for the bosses with arrests and convictions.

FARMER DIES OF INJURIES.

TOWANDA, Pa., June 13. — John Bennett, 41, a farmer living near here, died in the hospital as a result of injuries received when he fell beneath a tractor on his farm.

FARMERS DUPED BY REPUBLICANS

"Insurgents'" Betrayal Should Be Lesson

(By a Worker Correspondent)

KKANSAS CITY (By Mail).—The republican convention has completely exposed the Coolidge myth of prosperity by unmasking the deep-seated crisis in the agricultural area of the country.

The republican party is going to "solve" the farm problem not by improving the conditions of the great mass of the poor and middle farmer but by pursuing a policy aiming to fool the farmers, dampen their discontent, demoralize the anti-republican movement, stop the drift of the farmers towards independent class action and ultimately secure the farmers' support for the 1928 political year—in which finance capital is trying to entrench itself for four more years. This is what the republican politicians mean when they speak of solving the agricultural problem.

The farmers of the 14 west and north-western states are the cornerstone of the republican convention politics. The whole course of the convention revolves around the question of how far the masses of the farmers will go in their opposition to the republican party, or rather to what extent the farmers have developed for independent political action.

That the discontent of the farmers has assumed gigantic proportion has become evident even if one gathers information from the reports of the capitalist papers. The latter have carried on a campaign of poisonous ridicule against any sign of independent class action on the part of the farmers. Yet they are forced to admit that such a movement exists. The trouble with the farmers is that their movement is in a chaotic condition. The leadership is in the hands of the richest farmers and the republican politicians. The following list will illustrate the character of the farm leadership. Thomas D. Campbell of Hardin, Montana, largest grower of wheat in the world; J. R. Howard, Clemons, Iowa, President of the American Farm Federation; Sherman Houstan of Mo. a big cattle feeder; Orville Bullington, of Wichita Falls, Texas, cattle raiser; Patrick J. Hurley, Tulas, Oklahoma, cotton grower. These people are heralded as "farm leaders."

It is quite natural that rich farmers and the republican politicians cannot and will not fight for the farmers. They are only utilizing the farmers movement to wrest economical and political privileges from the higher capitalist powers. At the same time these politicians will lead the farmers revolt into channels perfectly harmless to capitalism. The farmers are desperate and like a drowning man they catch a straw to support them. The overwhelming mass of the farmers is behind the McNary-Haugen bill, not because they believe it will help the poor farmers, but to them it is a symbol of opposition to the capitalist class and Coolidge administration.

Evidence that the so-called farm leaders, republican "insurgents" and "radicals," and everything that is trying to reap political fortunes out of the plight of the farmers, have begun an intensive campaign to break up the farmers' movement is aplenty These fakers are working overtime to stop the mass of the poor and middle farmers from marching upon Kansas City.

The whole procedure and horse trading at the convention reveals that the actual bosses of the convention are the Wall Street financiers. The only force that is outside Wall Street control are the revolting farmers. These constitute a grave concern to the capitalist politicians.

Helping to Improve Imperialist Flying

The latest wrinkle in planes has been invented by Thomas Thompson, 410 W. 129th St. The inventor claims that this new type plane will stop short when the propeller is reversed.

WORKERS BUYING MINERS' STAMPS

"Solidarity Certificates" Aid Relief

"Solidarity Certificates," circulated by the National Miners' Relief Committee, 799 Broadway, are bringing a fresh response from workers thruout the city, it was announced last night. Each booklet contains certificates ranging from twenty-five cents to five dollars.

After a meeting of the Culinary Workers' Culture Club held at Manhattan Lyceum yesterday, several of the members got together and took up a collection for miners' relief. $25 was thus collected.

The Bronx Council No. 15 of the United Councils of Workingclass Women, at an affair held last week, collected fifty dollars, which was yesterday turned over to the National Miners' Relief Committee.

Dr. H. G. Hoffman, of 2105 Walton street, sold his book of "solidarity certificates" within four days after receiving it. He mailed the $25 in before all the booklets had been sent out to various individuals and organizations. The Ukrainian Committee for Miners' Relief, at a concert held last week, netted $27.85 for miners' relief.

Pressure Causes R. R. Owners to Improve Cabs

WASHINGTON, June 13. — Pressure by the workers has caused an order to be given to railroad owners in northern states to equip their locomotives with cab curtains in the winter for the protection of the firemen and engineers.

The railroad owners, reluctant to improve working conditions even at small expense, induced a few subservient employes by one means or another to report that such protection from winter weather was not necessary. But the interstate commerce commission thought it expedient on this issue to hold with the overwhelming majority of the employes and ordered the companies to make the installations.

WASHINGTON MINERS' AID.

WASHINGTON, D. C.—The Youth Committee for Miners' Relief has arranged an entertainment and dance to be held at the Pythian Temple, 1012 Ninth St., North Washington, on June 15 at 8:30 p. m. The entire proceeds will go to the striking miners.

34 IN HOSPITAL FIRE IMPERILLED

3-Story Wooden Frame Had Been Condemned

Thirty-four patients at the Midwood Sanitarium, 19 Winthrop St., Brooklyn, were imperilled yesterday when a fire broke out on the top floor. Twelve of them were infants, less than nine days old. All were carried out safely, when Eleanor Anderson, a trained nurse attached to the hospital, smelled the smoke at the inception of the fire and spread the alarm.

The building, in which the fire took place is a wooden frame structure, of the kind that has been so often condemned by the city. Action on the part of the city, after the condemnation, never materialized. Although uninjured by the fire, several of the patients have suffered relapses due to the sudden exposure that their hasty rescues involved.

RAILROAD BOSSES TRICK WORKERS BY SPORT CLUBS

Organize Athletics on Company Union Lines

CHICAGO (FP), June 13.—Capitalizing the sport interest of its employes along company union lines, the Chicago & Northwestern Railway has erected a gigantic system of athletics and will mobilize 1500 employe-athletes from all over its immense mileage in a championship meet in Chicago next August.

General manager G. B. Vilas of the road is president of the C. & N. W. Railway System Athletic Association and each division is organized athletically for baseball, track, tennis, golf, swimming, trapshooting and other sports. Winners of the August meet will represent "their" railroad in the huge championship contest of the Int. Railway Association.

Railroad athletics organized by company officials are another part of the drive against genuine unionism.

100 Brazilians Are Killed by Starvation

RIO DE JANIERO, Brazil, June 13.—Advices from northwestern Brazil, which has been stricken by a drought, say that more than a hundred persons have died of starvation.

A large part of the population is abandoning the region and a great number of cattle have perished.

TEXAS BAKERS EXPLOITED.

SAN ANTONIO, Tex. (FP), June 13.—Nowhere else in the United States are bakery conditions so bad and pay so low as in Texas, the Texas State Federation of Labor convention in San Antonio was told.

WORKERS FORM UNION.

CANTON, O., June 13. — Culinary workers of this city have organized a union.

Correction

The $100 donation from the Anthracite, sent in by the Daily Worker agent, was raised by the Subdistrict Committee of the Workers (Communist) Party. This was not made clear in our article which appeared in the June 9th issue and for this reason we are making this correction.

CAMP HULIET

Build the New Miners' Union!

The conference of the executives of union districts at Pittsburgh yesterday took a step which makes history for American Labor.

These representatives of the Mine Workers are to be congratulated upon their courage and understanding of the situation before them, when they issued the call for a national convention to establish a new miners' union.

For fourteen months the United Mine Workers Union has been systematically disrupted by the concerted action of the foully corrupt bureaucracy, headed by John L. Lewis together with the open-shop coal operators. For more than a year of struggles, a weakened and broken shell of the former union has been standing in the place of the once powerful organization. The Lewis bureaucracy held on by every device to the official hulk—to what was left of the union. Having stolen the union elections three times, the Lewis machine continued to hold on by means of murder and "yellow dog" contracts. Nominally fighting the coal operators, Lewis in fact was fighting the coal mine workers of the whole country with both hands, and had not even a little finger left free to scratch at the coal operators.

Lewis, by the very nature of his profession as an agent of imperialist capitalism, could make peace with any coal operator; but he could wage only war with the masses of coal miners. Lewis and all the legion of petty office-holders who form his "army of occupation" in the Miners' Union are consistent supporters of the system of capitalist exploitation of Labor. A prominent member of the same imperialist political party to which Andrew Mellon, Calvin Coolidge, Rockefeller and Morgan belong, Lewis himself could see and think only in the terms of Mellon, the scab coal operator, Coolidge the strikebreaker, Rockefeller the creative genius of company unions, and Morgan the chief of the finance-capitalist control of the Steel Trust.

The struggle passed beyond the point where Lewis could even preserve the illusion that he was acting as "president of the United Mine Workers of America." The union, severely wounded by the earlier betrayals, was this time in the struggle in which its life was at stake.

Lewis could not support any course toward victory for the workers. He "led" the union to its death as far as he was able. Open strikebreaking which could no longer be concealed; deliberate expulsion of whole locals and even districts; support of police and troops against the miners; public organization of strikebreakers against the Colorado strike; an attempt to starve out the militant local unions by cutting them off from strike relief, while imposing the "yellow dog" agreement upon others—this course has led to the present situation where the immediate building of a new union is inevitable.

The mine workers have fought through these long years and especially the past fourteen months to save their union. Always the fight to save the union was first of all a fight against the chief strikebreaker who held the three-times-stolen office of president of the union. The fight to Save-the-Union has been one of the most heroic in the history of American Labor. It recently reached the stage of emergency district conventions for the ousting of the Lewis gang of company agents from office. In several districts this object was accomplished. The Lewis machine refused to recognize the actions of the emergency district conventions.

The new executives of the mine workers of these districts meeting Tuesday in Pittsburgh had the logic to face the present phase of the Save-the-Union struggle. Clearly they saw that the present phase of the struggle to save the union is in fact a struggle to build a powerful union where the old one has been destroyed.

The mine workers of the United States must be organized 100 per cent. They must have a powerful union embracing every mine where coal is dug. The open shop must be fought to extermination. Where Lewis has given up 70 per cent of the territory to the operators, the mine workers must fight and win back 100 per cent.

The national convention of the mine workers called for next September must perform its task of building a union where an old union has been destroyed. But the task should be well under way long before then—it should begin immediately. The strike from now on must be supported ten times more than ever before. Relief must be poured in to the National Miners' Relief Committee.

It is clear that the mine workers can organize themselves only against all agents of the operators.

The new miners' union must sweep the country and make itself the most powerful in the American labor movement.

Long live the miners' new union!

The Situation in Cleaners' Union

(By a Worker Correspondent.)

An astounding thing happened on Monday, May 28, 1928, at Clinton Hall where the members of the cleaners' and dyers' union were to nominate their candidates for the coming election of their new officials. It is customary in our organization to mail notices of the coming nominations and elections to the membership. This year I didn't receive any.

The following are significant, historic events indeed, as they never occurred in our ranks before. If I wasn't an eye witness, it would certainly be hard to convince me as to its truth. On my nearing the hall, I noticed that there were a group of men assembled, and were very much engrossed in heated conversation. I asked one of the men the cause of their meeting outside, when we had paid good money for the hall. Can you imagine my surprise when I was told they were all refused admittance?

On January 30, 1928, six of our members were expelled. The membership at large not being consulted in the matter. The six union brothers tried to acquaint the rest of us with the wrongfulness of the proceedings, but were rebuked by the corrupt officers of our union.

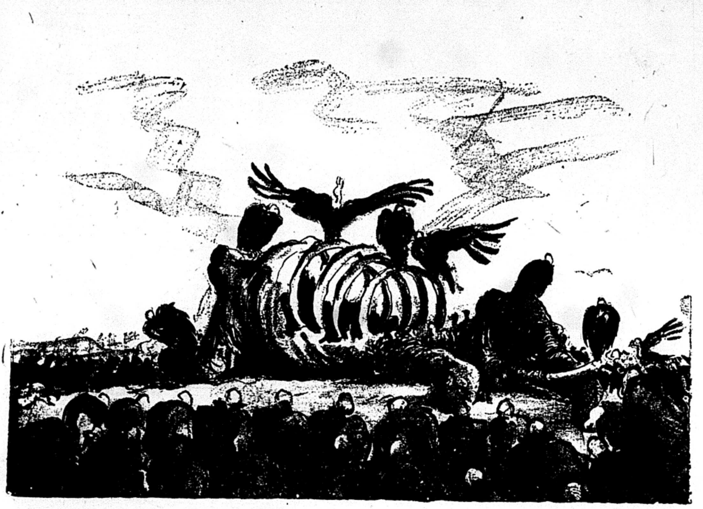
This situation caused the members to hire a hall by themselves, where they could freely discuss their problems and speak openly of anything and everything. When our corrupt leaders got wind of one of these meetings, a rowdy bunch of gangsters, under the leadership of Weintraub, Hammer, Cohn and Goldberg, broke in shouting, "Line up against the wall!" They carried knives, black-jacks, hammers and clubs. Chairs and windows were smashed to smithereens, two of our brothers were hospital inmates for some time after, a score suffered minor cuts and bruises. This occurred on May 11, 1928, and not in the dark ages as you well may think.

We held a mass meeting the Monday after at Irving Plaza where we simply discussed the reinstatement of our expelled members and nominated candidates of our own choice to represent us.

MAX ROSENBERG.

THE LINCOLN TRADITION

By Fred Ellis



The old republican party, the traditional party of abolition of chattel slavery, is dead. Its putrid corpse is food for a legion of corrupt politicians. But the elephant left a descendant—the republican party of today, party of Mellon, Rockefeller, Morgan, Coolidge and Hoover—the biggest party of imperialism—the maker of slaves.

The Challenge to Our Press

By MOISSAYE J. OLGIN.

SCRIBBLED in pencil or in cheap colorless ink; on scraps of paper torn from copy-books or picked up anywhere; with hands more used to hammer and drill than to the fragile pen; in words betraying little schooling and little knowledge of linguistic refinement—these numerous letters are full of such intense feeling, they flow from such depths of proletarian conviction, they speak a language so direct, lucid and effective, that no other documents can give a clearer understanding of what The DAILY WORKER means for the American working class.

Sold Clothes for "Daily."

"Dear Comrades and Brothers," writes Adam Getto from Bentleyville, Pa., "I am sending you $4.35 for The DAILY WORKER fund and I ask you to tell the world that the striking miners are behind The DAILY WORKER. We are striking here from April 1, 1927 and we were locked out since May 1, 1925, but this does not stop us from supporting our paper. I want to tell you how we raised the money I am sending. A group of miners known as the Vesta Group in Bentleyville had a lot of old clothing which was nothing but rags left over from what we had. This we sold to a junk man who gave us the enclosed money, and we send it immediately to save The DAILY WORKER. I want to say for the miners in Bentleyville that if they were working there would be no need of such emergency calls. Also we are asking of every worker in the United States to rally to the support of our paper. We can save it and make it larger if every one does his bit."

"I am sending $1.00 for the fund of The DAILY WORKER," writes A. Tosheff from the Herman Kiefer Hospital in Detroit. "I need money very bad myself, because I have been in the hospital for 41 months but I don't like to see our leader, The DAILY WORKER, stopped, especially now when the struggle is greater than ever before in the United States, and especially before the elections. So, comrades, and fellow workers, readers of The DAILY WORKER, I know you have given plenty already, but I am appealing to you: give all you can and some more because you know The DAILY WORKER keeps our hearts warm."

Out of Work 13 Months.

"We do not want The DAILY WORKER to be destroyed by our enemies," writes A. Turkaly from Bellaire, Ohio. "Therefore I am enclosing $2.00 and that is not all. I do my best to collect some more money. The coal strike has put us here in bad condition thirteen months. The DAILY WORKER has been our guardian in the fight. We do our best to help it as much as we can."

"Comrades, please find $4.00, two dollars to help The DAILY WORKER in its present great crisis," writes John E. Keller from Chicago, "and two dollars for a three-months sub for......(follows the name of a mining town in Kansas and an address "General Delivery"). This worker is a miner and of course in very hard circumstances. The DAILY WORKER has weathered the financial storms before and I'm sure it will again. If it does suspend, however, it will be only temporary, for the class for which it fights will yet be heard in plainer and louder tones."

"Daily" Gives Hope.

"For The DAILY WORKER to be in such a position which threatens its existence is bad enough at any time," writes George Elser from Cleveland. "But at this particular time, when the Party is just entering the biggest campaign it ever undertook, that of rallying the workers from all over the United States to vote 'Communist,' for The DAILY WORKER to cease publication would indeed be a crime to the workers. The DAILY WORKER fights valiantly to show the workers the only true path to freedom. No strike is too small, no battle too large but what The DAILY WORKER is there to give hope and leadership in order to bring it success.

Gives Week's Pay.

"If we were thrown out of work and found another position within a month, we would consider ourselves lucky. Well, let us consider ourselves unemployed for only one week and donate the week's pay to keep The DAILY WORKER aworking.

"I am enclosing my whole week's pay ($25.00) as a start, and I pledge myself (although having to support a family) that when one hundred Party members do likewise, I will send in another week's wages."

"Comrades, hold forth, help will come," writes J. Posickow from Chicago in sending in $5.00. "I firmly believe that the workers of America to whom The DAILY WORKER is dear as the only paper in the English language which fights for the emancipation of the workers, will not let it fall. We cannot permit out enemies to celebrate such a victory. Long live The DAILY WORKER!"

On Strike 15 Months.

A miner who, for obvious reasons, does not want his name to become known, writes from Dillonvale, Ohio: "I am awfully sorry to hear our fighting paper is near its crisis, but I am sending in a dollar for the ten thousand dollar fund. I would like to send more but I am one of the striking miners and have been on strike for fifteen months. I wish it was a hundred dollars I was sending instead of one dollar, as I would give anything to save the paper because I am very interested in The DAILY WORKER. I am one of the employed in the United States Coal Co. at a Bradly, Ohio, mine and I have received only $18.00 benefit in the fifteen months."

Another worker, who does not even sign his name, writes from Brooklyn, N. Y.: "Dear comrades of The DAILY WORKER, I have heard that the Daily is in danger of closing up because of a lack of funds. I hate to see The DAILY WORKER go under as it is the only daily labor paper in the country fighting for the workers and farmers under the capitalist system. So I will do my share by enclosing a dollar."

* * *

We have selected only a few of the many letters that came in with contributions in reply to the emergency appeal. The few letters disclose many important facts. They show, first of all, that The DAILY WORKER has become a necessity in the life and struggle of the workers, of large militant sections of the workers in this country. This is the best guarantee for the existence and the future growth of the Daily. There are few self-sustaining militant labor papers in the world outside of the Soviet Union. Most papers of the revolutionary class-struggle depend on the workers' aid for their existence. The old Pravda, in 1912-1914, appealed to the workers of Russia for funds, and the letters that came in from all parts of the Tsar's empire bore a striking resemblance to the letters now received by our Daily from various parts of the Wall Street Union. The workers appreciate its role. "No strike is too small, no battle too large. . . ." Herein lies the strength of The DAILY WORKER. Herein lies the strength of our movement.

Worst Exploited Give Most.

The letters show that the Daily is close to the heart of many workers in the industrial sections of the country more than anywhere else. It is no accident that a considerable portion of the letters came from striking miners. It is no accident that so many letters come from Pennsylvania, Ohio and Illinois. It is where the life-crushing wheels of the industrial mechanism turn the fastest that the voice of rebelling labor is heard the loudest.

The letters further reveal that though many of its readers and letter writers are foreign born, a fighting paper in English has become their weapon. Some of the letters were obviously written by children. The proletarian parents of these children may not have the courage or know how to write a note in English. Yet they read The DAILY WORKER. They understand that an English paper unifies the struggle of the various groups of the exploited; that, more than a labor paper in a foreign tongue for the foreign born workers of the United States, it gives class meaning to the various phases of the struggle.

"Daily" Is Political Weapon.

The workers realize the importance of the Daily as a political weapon. The elections campaign of this year is stressed in more than one letter. The venality of the capitalist press, its servility to the ruling powers, its suppression of news about labor victories the world over, its befuddling influences over the masses are vigorously contracted in the letters to the work of The DAILY WORKER.

Most of the letters came from non-partisan workers. Were they from communities alone, they would also signify great strides forward in the revolutionization of the American workers. For is not a Communist worker a first rank fighter in the class war? However, the letters indicate that the influence of the Daily, and the consciousness of the responsibility for its existence, are much more widely spread than the membership of the Communist Party.

"Daily" Achieving Aim.

Altogether the letters prove that The DAILY WORKER is increasingly becoming what Lenin told us a labor paper must be, namely: a mass organizer and mass propagandist. There is, however, one line in one of the letters that impressed me more deeply than any other. "We cannot permit our enemies to celebrate such a victory," writes a worker from Chicago. In these few words there is, perhaps, a more intensive picture of the situation than in many other more eloquent appeals. We are in an enemy camp. We are in an enemy land. The enemy is powerful. The enemy is ruthless. He wields the peoples' wealth. He wields the machinery of state. He is cunning and resourceful, omnipresent and mean. He knows we hate him, we loath his domination, we are full of revolt even if we do not know it clearly in our mind; we are great in numbers, great in strength, strong in will, but we have not come yet to realize what to do. The enemy has his agents, traitors and spies in our midst, but they appear as union officials, leaders of labor. Our enemies not only drink our life's blood in their factories and plants, but the enemies in disguise make us pay from our miserable earnings for their work of treason.

In the midst of this picture there appears The DAILY WORKER. It is unafraid. It tells the truth. It is with the worker in his daily life, in his struggle, small or big. It speaks not in the name of the officials but in the name of the masses. It defends not one group or one section, but all the working class as a whole. It organizes the workers for the struggle. It leads their class war against the most formidable enemy in the world.

Daily Holds Own.

What a picture! Talk of romance. Here is the most gripping romance in the world. American imperialism with its domination far flung over the globe on the one side; the intrepid revolutionary voice of the class struggle on the other. Untold means at the disposal of the exploiters on the one side, poverty and a chronic financial crisis on the other. The law, the court, the police, the militia, the army at the disposal of one side; persecution, blows and humiliation on the other. And still—The DAILY WORKER lives; it challenges the enemy; it predicts his fall; it helps undermine the ground under his feet. And The DAILY WORKER is strong—with the potential strength of the working class, with those enormous reserves of revolutionary energy which are beginning to come to the fore and which will in due time destroy all the enemy's power.

We are not strong yet—this very moment, but we are strong with the future battles of the working class for which it has already begun to mobilize in the coal fields, in the clothing shops, in the textile mills, in the automobile plants. We are the future. Victory is with us, for history is on our side. The enemy is doomed, for he can advance nothing if the workers understand their own interests and their own historic task.

All this is felt by the worker who puts it in such clear and simple words: "We cannot permit our enemies to celebrate such a victory."

No, we cannot permit, and we will not permit the enemy to wrest the weapon from the hands of the working class.

We will tide The DAILY WORKER over its present difficult position. We will make The DAILY WORKER live more vigorously, more fully—as the guiding banner of the revolutionary working class.

The DAILY WORKER is anchored in the hearts and lives of the class-conscious workers. With them, supported by their militant aid, the paper will continue to be what it has been—the great challange to the capitalist world.

Correction

The mine program of anthracite district 7 was adopted by 150 representatives from 20 local unions which met at Hazelton, Pa., on June 3, instead of by the Tri-district Save-the-Union committee as was inaccurately stated by the DAILY WORKER yesterday.

CHILD IMMIGRANTS.

Since 1868 approximately 90,000 child immigrants have been brought into Canada from the British Isles through the organized activity of overseas juvenile emigration agencies.

HANdOuTS

DETERMINATION to protect American institutions at any cost is seen in the fact that the wedding cake of Katherine Smith, daughter of Al, arrived at the gubernatorial mansion under police escort. Unemployed workers who are willing to labor a whole day for a chunk of bacon rind will be delighted to learn from the following lines that the wedding guests did not go hungry:

"The cake was brought to Albany from New York city on the night boat, with maitre d'hotel Malnatti of the Biltmore Hotel, donor of the three tiered creation in personal charge, aided by chefs and stewards. After the various sections of the great cake were carried to the executive mansion, Malnatti and his assistants spent all morning and part of the afternoon assembling their work of art."

* * *

THE republican party will appreciate the following words of Dr. Ely, physician of the payroll-padding expert Mrs. Knapp, who says it is unfair to regard her as guilty when everybody else in the party is getting as much or more:

"Mrs. Knapp is the victim of a frame-up. She took the rap for others. She knows far more than she told. Instead of throwing her cards on the table, she preferred to cover up others. She is the victim of a true loyalty to her party."

* * *

Views of the Big City

The above is a snapshot of the stockyards at Forty-second Ave. and Lexington Ave., showing cattle being herded into I. R. T. cars to be shipped to the Bronx. It is reported from reliable sources that the Interborough subway plans to bring in a skilled crew of Norwegian sardine packers to get more results from its Times Square factory. But no matter how tragic a ride in the subway is if you happen to be bringing home a dozen eggs the I. R. T. always provides comic relief in its quaint "Subway Sun." The latest issue of this wall newspaper contains the following joke "Fifteen years ago a nickle was worth a nickle. Now a nickle is worth only 3 cents. That is why the Interborough cannot properly pay its way on a five cent fare." This also explains why worker today is so much more able to pay a seven-cent fare. The Interborough is as logical as its passengers are comfortable.

Young Workers League Warns Against Wagner

Editor, The DAILY WORKER:

The Young Workers (Communist) League, New York district, wants to warn all labor and friendly organizations against a certain "Mr. Wagner" who claims to represent an organization known as the "International Students' Club" at 225 Broadway.

This individual made arrangements for a meeting to demand David Gordon's release, and claimed that he had obtained prominent Communist leaders to speak at this meeting. Upon investigation, it was found that the International Students' Club was non-existent; that the speakers advertized never agreed to speak, and that the whole affair was obviously intended to be used for personal gain.

On further investigation, it was also found that in the name of the organization he claimed to represent, he had obtained collection lists from the Penn-Ohio Miners' Relief Committee and from the Youth Conference for Miners' Relief. It was definitely established that he had raised funds on both of these lists but never turned them in.

This same "Mr. Wagner" obtained $36 in books from the Jimmy Higgins Book Store before that concern went out of business. The Young Workers (Communist) League at the same time warns all workers against the eavesdropping activities carried on by this individual.

TWO MINERS INJURED.

WILKES-BARRE, Pa., June 13.—Two Lehigh Valley Coal Company employes were injured this morning in separate collieries by falls of rock. The condition of each is reported critical this afternoon by the General Hospital.

CONVENTION CALL GOES OUT TO ALL MINE SECTIONS

REPUBLICAN PARTY IGNORES NEEDS OF WORKERS, FARMERS

Police Disperse Western Delegates as Bankers Ridicule Planks of Minority

Reaction Firm in Saddle Rides Roughshod Over All Appeals of Voters

(*Special to The DAILY WORKER.*)

KANSAS CITY, June 14.—With cynical disregard to the demands of millions of farmers verging on bankruptcy, with utter contempt for the crying needs of 5,000,000 industrial workers unemployed and a still larger total working at a wage below the minimum of subsistence, the leaders of the republican party, bankers, railroad magnates, corporation lawyers, under the leadership of the third richest man in the world, Andrew Mellon, secretary of the treasury, sat down today to frame the platform which will be offered to the country in the coming election campaign.

Self-Appointed Leaders.

Thirty minutes was allowed the self-appointed "leaders" of the farmers who have come to the convention to bargain away the spirit of revolt of the agricultural masses, to present their case. Cries of "No," "No," arose from banker representatives to the allotment of so much time. While these so-called farmers' representatives spoke, Mellon, sitting with the Pennsylvania delegation, drew a batch of letters from his brief case and busied himself with other business in an open show of contempt for the speaker. Other delegates left the hall altogether and did not return until the speaker had concluded.

Less than one third of the time allotted the farm speakers, it is expected, will be allowed William Green, president of the American Federation of Labor, when he appears with his so-called non-partisan political committee to kneel at the feet of this capitalist party convention to beg for crumbs for the labor bureaucrats.

Pick Candidate.

A minority report handed in by Senator Robert M. LaFollette, Jr., which made certain gestures towards farm relief and concessions to labor was voted down by the convention 817 to 267. Having rejected the demands of the more liberal elements the convention today got down to the cut and dried task of picking a running mate for Herbert Hoover who is almost certain to receive the nomination for the presidency.

Indications are that some middle western candidate will be picked for the vice-presidency as a sop to the farm populations which may not be contented with the enormous "concession" of a federal farm bureau written into the majority report of the platform.

* * *

Police Disperse Farmers.

KANSAS CITY, June 14. — The morning's session of the national convention of the republican party opened with empty seats, there being not more than one-fourth of the delegates present. Outside the hall were seated on the streets curbs the farmers and farmer delegates who yesterday were ejected from the hall and dispersed by the police.

The order of business was the report of the resolutions' committee, the chairman of which was Senator Smoot of Utah, who made the majority report. After patting the republican party on the back with the usual demagogy he spent the rest of his time apologyzing for the marines being in Nicaragua, and handing out the usual bunk about a free and impartial election being the purpose of the convention.

TRAIN WRECK IN JERSEY.

JERSEY CITY, N. J., June 14.—Two man were severely injured and ten others badly bruised and lacerated yesterday afternoon when a locomotive and a work train of the Jersey Central Railroad overturned.

COMMUNISTS TO WAGE INTENSIVE ELECTION DRIVE

Foster and Gitlow Will Visit Chief Cities

While the puppet show at Kansas City decides on which mannikin shall be the presidential candidate of big business, William Z. Foster and Ben Gitlow, candidates for president and vice-president, respectively, of the Workers (Communist) Party are preparing to carry the banner of the workingclass thruout the country.

An intensive campaign is being planned on a nation-wide scale, during which Foster and Gitlow will visit all the principal cities of the United States. The workers will be called upon to rally to the only party that is fighting for their interests and against the finance capitalism that holds them in its grip.

NANKING BOASTS LABOR BETRAYAL

Asks Recognition for Treason to Workers

SHANGHAI, June 14.—The Kuomintang, in the person of General Pai Chung-hsi, yesterday demanded recognition of the great powers because it had undertaken the task of eradicating Communism from China.

Taking possession of the Yang Tu Ting's palace in Peking, Pai Ghung-hsi, self-styled "terror of the Communists," under whose administration thousands of militant Chinese workers have been beheaded while hundreds have been thrown into the Chinese dungeons, issued this appeal to the western powers to recognize and cooperate with the Nanking government in the further suppression of the Chinese working class.

"The rest of the world does not know that the Kuomintang is the staunch bulwark against the spread of Communism in the Far East," Pai Chung-hsi declared.

1 Woman Worker Dead, 3 Others Burnt in Fire

WEYMOUTH, Mass., June 14.—One woman was burned to death and a number of other persons sustained injuries and burns in a fire which razed the Colonial Manor, an inn here, early this morning.

The dead woman, Mrs. Annie Olsen, was employed as a dishwasher by the hotel. Mary Murdock, a waitress, sustained a broken leg and dislocated shoulder in jumping from her room.

"GETTING AWAY WITH IT"

Power Trust Man Tells of "Publicity"

WASHINGTON, Jan. 14.—Additional details of the high-handed propaganda methods of the power trust were revealed here at today's hearing before the federal trade commission's utility investigation.

Hugh M. Blain testified regarding his organization, the "Louisiana-Mississippi committee on public utility information" had been sending his publication, the Public Service Magazine to legislators since 1924.

Especially illuminating was a letter introduced in evidence today which was received by Blain from Charles W. Person, secretary of the publicity section of the American Gas Association. Congratulating Blain on the publication of his publicity organ, "Miss Lou's Review," Person wrote:

"I wouldn't dare to attempt any such thing in the schools here in the [illegible]. I don't see how you get away with it."

Appeal to Labor Organizations to Save Daily Worker in Crisis

To the Readers of The DAILY WORKER.

COMRADES:—

The DAILY WORKER calls upon you to concentrate your efforts upon organizations of workers, today (Friday), and tomorrow (Saturday), to obtain donations, and to rush funds as quickly as possible to this office.

Yesterday's receipts of the campaign to save The DAILY WORKER fell very low — only $670.40 being received. An average of more than $1,200 for each of the remaining days of this week should have been the rate of receipts to meet the ultimatum of creditors, by which we are required to secure a total of $10,000 by tomorrow night. Thus far the drive has raised $6,864.86.

The receipts of the campaign up to last night are:

Last week:	Monday	$ 161.99
	Tuesday	464.55
	Wednesday	556.30
	Thursday	576.60
	Friday	695.00
	Saturday	705.77
This week:	Monday	1,660.40
	Tuesday	661.20
	Wednesday	712.65
	Thursday	670.40
Total to last night		$6,864.86

To complete the absolutely necessary $10,000, there is still to be raised $3,135.14. Can this still be raised before tomorrow night? This is a question of perilous meaning to The DAILY WORKER.

The Managament Committee is of the opinion that all efforts should be concentrated upon securing big contributions from workers organizations today and tomorrow. We ask you to do so. We are encouraged to expect some good results by such letters as the following:

> GARY, Indiana, June 12, 1928.
>
> COMRADES:—
>
> Realizing the danger of the only laboring paper publishing in English in U. S. of A., our society in the last membership meeting donated $100.00 (one hundred dollars), which you will find enclosed.
>
> GARY WORKERS' COOPERATIVE SOCIETY.

Such contributions count heavily in the total. For instance, organized Cigar Workers of Tampa, Florida, recently telegraphed to this office $290.00 for the campaign to same The DAILY WORKER. Comrades, a few quick and enthusiastic efforts such as these will save the revolutionary daily of our class.

Please rush all possible contributions by telegraph, airmail or special delivery TODAY and Saturday. Try to get as large a total as you can into this office before the ultimatum of our creditors expires Saturday night. We are confident that you will.

THE MANAGEMENT COMMITTEE.

AID NECESSARY AS DANGER NEARS

Workers Must Increase Pace to Save Paper

The outlooks once more looks black for The DAILY WORKER, with only $670.40 received yesterday to save the paper from suspending publication. This brings the total of contributions to $6,864.86, more than $3,000 short of the $10,000 that must be raised by Saturday.

Workers, do not slacken your pace now. Redouble your efforts, make every sacrifice to keep the only fighting workingclass newspaper in the English language from going under.

The following contributions were received yesterday:

Yarmolinitz Podoler, Br. 91 W. C., N. Y., $15; S. Brener, Detroit, Mich., $5; Committee for Support of Chinese Workers and Peasants' Revolution in America, San Francisco, Calif., $10; Workers (Communist) Party, Baltimore, Md., $25; E. Fitch, Newark, N. J., $10; Tom and Roy Skroza, Hartford, Conn., $5; Mildred Gaims, Denver, Colo., $2; M. Lundquist, Rockford, Ill., $1; E. Wallin, Rockford, Ill., $1; Ellis Carlson, Rockford, Ill., $1; Augruhson, Rockford, Ill., $1; Ed. Tanron, Rockford, Ill., $1; Emil Pedbeck, Rockford, Ill., $1; T. Anderson, Rockford, Ill., $1; Gust Johnson, Rockford, Ill., $1; T. Lindgren, Rockford, Ill., $1; P. Carlson, Rockford, Ill., $1; Fred Johnson, Rockford, Ill., $1; United Council of Workingclass W., Council 12, Bronx, N. Y., $5.50; Joe Mikovic, Leipsic, Ohio, $2; R. Gablen, NYC, $1; J. Berger, NYC, 50c; F. Stuart, NYC, 50c; G. Watson, NYC, 50c; Alfred, NYC, 25c; P. Beck, NYC, 50c; Abramovitz, NYC, $5; Anus, NYC, $5; Zanov, NYC, $1; Molnar, NYC, $1; X, NYC, $1; Jensen, NYC, $2; Kate, NYC, $1; Elkin, NYC, $1; Tepper, NYC, $2; Krupnick, NYC, $1; Dowhka, NYC, $5; Milgrom, NYC, $1; Melman, NYC, $1; Chobnick, NYC, $2; John, NYC, $2; Cymbola, NYC, $1; M. K., NYC, $1; Lurie, NYC, 50c; Brown, NYC, $5; Chasanowitz, NYC, $1; Etler, NYC, $2; I. Brown, NYC, 50c; Friedman, NYC $1; Silber, NYC, 50c; Roy Mraz, Massillon, O., $6; Chas. J. Corne, Kansas City, Mo., $5; Margaret Helander, Outlook, Mont., $5; Leonard Auberger, East Liverpool, O., $5; C. D. McLennan, Seattle, Wash., $2; John S. Cookerby, Los Angeles, Cal., $5; Amer. Lithuanian Workers' Literary Society, Branch 25, Baltimore, Md., $10; Chester Branch Workers Party, Chester, Pa., $5; Martha Jurva, New Castle, Pa., $10; F. Ackley, Philadelphia, Pa., $1; H. Zimmerman, Baltimore, Md., $1; Ferdinand W. Reed, Cambridge, Mass., $5; M. Kochkowski, Cleveland, O., $1; John Wild, Gloversville, N. Y., $1; Morris L. Landerman, McKees Rocks, Pa., $5; S. Hirsh, Philadelphia, Pa., $3; I. V. Stanley, Wilkes Barre, Pa., $1; Ph. Wentzel, Waverley, Mass., $1; Alex Wielachowski, Newark, N. J., $2; Ch. Homatas, Baltimore, Md., $1; G. Ignitewf, Washington, D. C., $2; G. Trusneff, Washington, D. C., $1; Victor Maki, Chester, Mass., $7; A. L. D. L. D. No. 190, Cleveland, O., $8.05; Abe Epstein, Stamford, Conn., $1; Morris Norkin, Sea Gate, C. I., N. Y., $2; S. Hadinca, Boston, Mass., $1; A. Lassila, Newport, N. H., $24; J. (Continued on Page Two)

Leaders Active in Formation of New Mine Union

John Watt (right) and Pat Toohey, two leading militants of the new miners' union which is calling a national convention for Pittsburgh, September 9-16. A call has been sent out to every organized and unorganized section in the country.

MINE CONFERENCE CONCLUDES TASKS

PITTSBURGH, Pa., June 14.—Executive officers of the reorganized districts of the United Mine Workers of America and leaders of the insurgent movement from other states, adjourned their conference late yesterday afternoon in Walton Hall, Stanwix St., to return to their districts. They will continue the campaign to take control of the locals and districts for the National Conference in Pittsburgh, September 9, which will organize a new miners' union. An arrangement committee for the National Conference will meet today to make provisions for carrying out the decisions of the conference.

One representative from each district in the miners' union and the unorganized territories together with the entire progressive leadership of district five and John J. Watt as chairman, will comprise the committee.

Discuss Situation.

In the afternoon session, delegates discussed the situation in each district, telling how locals in Ohio, Illinois, Kansas, Indiana, etc., refused to deal any longer with the autocratic officialdom. Others described how locals had been thrown out of the union because they supported progressive policies.

In summing up the work of the conference, George Voyzey, president of the Illinois district said, "Now is the time for decisive action. Under the Lewis administration, we would be forced into open-shopdom or company unionism. We have been betrayed by these false leaders too many times. Now we must all unite to unload these misleaders and build a real miners' union; a powerful, progressive organization of miners who will fight as we did in the old days before the Lewis machine split it into fragments and expelled those thousands of militants—whole locals—who dared protest against his union-wrecking policies."

According to John J. Watt, the greatest task confronting the progressive movement, is the organization of the non-union miners in West Virginia, Kentucky, Pennsylvania and where the union has disintegrated "This has been one of Lewis' most serious crimes to the union, his stubborn refusal to draw the unorganized miners into our union. We will undertake this task with all possible vigor."

REFUSE TO FREE FRENCH DEPUTIES

Communists Are Kept in Prison

PARIS, June 14.—The fight to force the release of Cachin, Doriot and Marty, Communist deputies now in prison, was temporarily halted by a tactic of Premier Poincare in the Chamber of Deputies today.

Refusing to permit discussion on the motion, Poincare won a victory by making it a question of confidence. The chamber thereupon approved the government's motion.

STEWART, BIG OIL MAN, ACQUITTED

WASHINGTON, June 14.—Following the precedent set in the trials of oil grafters and jury tamperers, Robert W. Stewart, chairman of the Standard Oil Company of Indiana was today acquitted of contempt of court.

Stewart was indicted following his refusal to answer questions put him by the senate oil committee relative to Liberty Bond oil property of the Continental Trading Company. The latter was a fraudulent concern organized for the purpose of financing the republican campaign of 1924.

GERMAN BOURSE SAGS.

BERLIN, June 14.—Wall Street cast its shadow on the Berlin bourse this week, prices slumping generally as the New York market sagged.

HISTORIC MESSAGE BRINGS NEW HOPE TO COAL DIGGERS

Districts Take Up Tasks of Building New Union As Officers Return Home

Mine Relief Assumes First Importance With Need Everywhere Growing Acute

(Special to The DAILY WORKER.)

PITTSBURGH, June 14.—Sent broadcast to every organized and unorganized mine district the call, issued yesterday by the Pittsburgh conference of mine executives, appeals to the nearly one million coal diggers in the country to muster their forces for the formation of a new mine union.

In the long document which is destined to make history for the American labor movement there is traced the record of struggles and achievement of the miners during a whole generation, ending with the treachery and wreck of the organization by the corrupt Lewis machine and the plans for the formation of a new union at the coming convention in September.

The call follows:

Pittsburgh, June 12, 1928.

To all members of the United Mine Workers of America.
Miners in the unorganized districts:
Greeting:

The time is now ripe for the rank and file miners to put a definite end to the domination of the corrupt and reactionary Lewis machine which has wrecked the once powerful United Mine Workers of America. To get rid of these false leaders and to establish an organization capable of uniting the great masses of unorganized miners and of protecting the interests of all the workers in the industry, are the purposes of the great national miners' convention which will be held in Pittsburgh, Pa., September 9-16.

The United Mine Workers of America was built by rank and file miners through a whole generation of struggle. Its history is full of heroic efforts of the miners to build it into a real union in the face of starvation, suffering, bloody assaults from company gunmen, organized attacks by the police, troops, injunctions, and courts of the government in the service of the coal operators, and all-too-often betrayals by the union's official leaders. Lattimer, Cabin Creek, Ludlow, are only a few of the glorious names in the early battles to establish the union. Nor were these struggles without success. With unbreakable solidarity and unconquerable fighting spirit, the miners slowly built the union. Gradually the organization extended its influence into almost every coal district and it brought about far-reaching improvements in the conditions of the miners. Powerful, progressive and militant, it stood at the head of the whole trade union movement.

But since the reactionary Lewis clique came into power the advance of the union has been stopped and the organization has gone rapidly downhill. Because of the criminally wrong policies of Lewis and his crowd, the union has lost heavily in membership, it has lost its one-time control of the industry, its former fighting spirit and progressivism have been swamped by reaction and conservatism. Meanwhile the improvements in wages and working conditions won in many a hard fought battle, have been gradually taken away from us by the operators. The UMWA is now practically ruined. When Lewis took hold of it only a few years ago it was a flourishing, growing, fighting union. Now it is a wreck. Lewis' reactionary policies have broken it and disorganized the miners in the face of the enemy.

Lewis' crimes against the miners, his wrong policies that have ruined our union and destroyed union conditions in the mines, are innumerable. It is a black record of betrayal of the workers and subservience to the employers. Merely to cite a few of them is to prove the Lewis regime the worst that has ever cursed any body of organized miners in the world's labor movement. Among the many union-wrecking, condition-destroying policies of the Lewis machine are the following:

1. ALLEGIANCE WITH THE COAL OPERATORS.

The Lewis leaders, the Fagans, Cappelinis, Murrays, Kennedys, Mitchels, Mattys, Macks, Halls, Fishwicks, etc., are the tools and agents of the coal operators. They belong to the same political organizations as the operators, which make up the government that attacks the miners. They usually go directly into the service of the coal operators after leaving union office. Often they are on the payroll of the employers and the union at the same time. Always they are the lick-spittles of the bosses. The Lewis regime is the very symbol as well as the product of company control of the union. It is this alliance with the operators which is the source of the reactionary policies that have wrecked the union.

2. REFUSAL TO ORGANIZE THE UNORGANIZED.

To unite the great masses of unorganized miners is a life and death problem for us. But Lewis has stubbornly refused to solve this great problem, and has sabotaged every attempt of the rank and file miners to accomplish it themselves. His agent in West Virginia, Van Bittner, tool of the bosses, is a pledge to the operators in that state that Lewis will not organize their men. Lewis betrayed the big strike of the unorganized in Pennsylvania during the 1922 national struggle, and he sabotaged the 1928 strike in the unorganized fields. Lewis' policy is to surrender the unorganized districts to the operators. As a result, the power of the union has steadily weakened, until now the whole organization is in a state of collapse.

3. STRIKE BETRAYALS.

Lewis, to gain favor with his friends the coal operators, has never hesitated to break strikes. Thus he smashed strikes in Kansas and Nova Scotia, ruining the union in those districts. Lewis' betrayal of the Fayette-Somerset-Westmoreland miners in

(Continued on Page Two)

SHOOT GREEK STRIKERS

10 Tobacco Workers Killed, 40 Wounded

ATHENS, Greece, June 14.—Determined to crush by terror and violence the quickly spreading strike of tobacco workers, police and troops today shot into a demonstration, killing six workers and wounding over 40.

The attack took place at Xanthi and was entirely unprovoked. Bitterness at the slaughter of the workers is causing the strike to spread in many cities. Yesterday cavalry charged the strikers at Drama, wounding ten.

The striking workers are employed for the most part by American tobacco firms, and principally by the American Tobacco Company.

A large number of meetings are being held thruout Greece in protest against the [illegible].

Twenty-Four Berlin Workers' Delegations Demand Amnesty Law in Reichstag

CONVENTION CALL BRINGS NEW HOPE TO MINE WORKERS

Rank and File Plan to Build Union

(Continued from Page One)

1922 was not only one of the most treasonable acts in the history of the entire labor movement but also one of the biggest disasters in the life of the UMWA. In the recent Colorado strike the UMWA officials played a strike-breaking part. Lewis' whole handling of the present bituminous strike situation, with his policies of separate agreements, reliance on corrupt politicians, and fake senate investigation, collaboration with the companies to drive out the unemployed, etc., is a record of betrayal. The general effect has been to isolate the strikers in Pennsylvania and Ohio and to enable the employers to shatter the strikers' forces at their leisure, thus undermining the whole miners' organization. Because of Lewis' criminal attitude the strike is now in a desperate situation. It faces the greatest dangers. The striking miners continue to struggle with unequalled heroism against Lewis' systematic treachery, wholesale arrests, and terrorism by the companies, police, etc.

4. Splitting the ranks of the miners.

Instead of extending the fighting front of the miners and making the demand for a national agreement to cover all miners a central policy of the union, which is now more necessary than ever in the face of the growing power of the coal operators, Lewis has systematically followed a program of dividing the miners against themselves, of narrowing down the fighting front of the union. One phase of this fatal policy was to split the anthracite miners from the bituminous miners by separate agreements expiring at different times. The five-year anthracite agreement was a crime against the miners. Another phase was the strike-breaking system of signing up some mines of a given company while the rest of its mines were permitted to operate open shop. In the present strike Lewis carried this policy of division still further by practicing a program of district and individual operator settlements. Even before the strike began he abandoned all fight for the Central Competitive field agreement. In a situation imperatively demanding a national strike. Lewis fought desperately against all efforts to spread the strike. He split the Miners' Union into bits, isolating the strikers in the key districts of Pennsylvania and Ohio and making the union an easy victim for the open shop operators. His whole strike policy has been a crime against the miners.

5. Speed-up agents of the operators

Lewis, Cappelini, Fishwick, etc., have become the speed-up agents, the slave drivers, of the bosses. In Illinois and the anthracite districts they are working hand in hand with the operators to introduce machinery and new driving systems at the expense of the workers. They disregard altogether that the job of union officials is to defend the interests of the workers at all times, not to become production experts for the employers. Thus while prosperity comes to the coal operators, conditions grow worse for the miners and the union is rapidly weakening. Lewis and his crowd want to turn the UMWA into practically a company union.

6. Betrayal of the unemployed.

The question of unemployment is a life and death matter for the miners. Never were so many of us out of work. Never was unemployment so chronic. The only way even temporary relief can be secured is by the establishment of the 6-hour day and 5-day week, and by the development of a system of government unemployment benefits. But Lewis opposes these vital proposals. Instead of this, he joins hands with the employers, demanding that 300,000 miners be forced out of the coal industry. This means they would have to starve in the general army of unemployed, which at present amounts to at least 4,000,000. Lewis also puts forward the employers' proposal for closing the so-called "uneconomic" mines and for the trustification of the coal industry. This would throw still greater masses into permanent unemployment, hasten the break-up of the union and strengthen the employers at the expense of the workers. The whole scheme is an open shop plan for the coal industry. John L. Lewis, agent of the operators, is its loudest advocate. Small wonder that recently he was publicly thanked by that big mogul of the open shoppers, John D. Rockefeller, Jr.

7. Abolition of union democracy.

Under Lewis' control the old-time union democracy of the UMWA has been completely destroyed. Elections are stolen; conventions are packed; the appointive power is autocratically used; everything is done by the crooked Lewis machine to prevent rank and file expression. The union is controlled by gunmen and sluggers closely allied to the coal companies. To accomplish any real change of leadership and policy in the UMWA through democratic procedure has become impossible. Union democracy is dead in the UMWA. The corrupt bureaucracy rules with a Mussolini-like autocracy.

8. Killing of progressivism and militancy.

The UMWA was once the most progressive union in the labor movement. It supported the labor party and industrial unionism, and it gave its active aid to every forward cause of the workers. It was an old enemy of the Gompers gang. Its splendid fighting spirit was well known in the American labor movement. But the Lewis machine has choked this progressive spirit. The Lewis program is "co-operation" with the employers, which means surrender to them. He has substituted fake "arbitration" methods for a real fighting policy. Controlling the union with gangster methods, the Lewis clique, in spite of the progressive attitude of the rank and file, have put the union on record against every progressive measure it ever stood for. They have rejected the old-time labor party policy and officially endorsed the reactionary program of supporting candidates on the tickets of the republican and democratic parties. They have flagrantly discriminated against Negroes and foreign born workers and the youth. They have degenerated the union into a supporter of the most reactionary elements in the A. F. of L. bureaucracy. They have filled the whole organization with pessimism and reaction. With its program of constant retreat, and with close support from coal operators, the Lewis gang has systematically warred against all militancy in the union, ruthelssly expelling hundreds of individuals and locals, the best fighters among the miners, simply because they have dared to insist upon a progressive, fighting policy, a real defense of the miners' interests.

9. Official graft and corruption.

The Lewis leaders are a body of self-seekers who have no other aim than to enrich themselves at the expense of the miners. Fabulous salaries, swollen expense accounts, graft from the employers, they use as means to this end. They live in mansions, while the miners suffer dire poverty in company houses and flimsy barracks. The depths of the UMWA officials' corruption were amply illustrated at the last international convention where Lewis and Murray used the packed delegations to raise their salaries to $12,000 and $9,000 yearly, although the union faced a life and death crisis. All through the long, bitter months that the Pennsylvania and Ohio miners have been starving and striking on a dollar or two a week relief money, these false leaders of labor have been drawing their enormous salaries and living on the fat of the land. From such venal, corrupt leaders the miners can only expect treachery and defeat. To get rid of them is the first condition to the establishment of a real union and union conditions in the mining industry.

The inevitable result of all these corruptions, betrayals, and wrong policies by the UMWA leadership is the present breakdown of the union. No union could survive with such misleadership. The UMWA is now rapidly decaying. Four years ago it controlled 70 percent of bituminous coal production; now it controls hardly 20 percent. And even this small control is being taken away by the present great drive of the operators. In Pennsylvania and Ohio the strike is in a most critical position after the 14 months of struggle. In Illinois and Indiana the Union is falling to pieces; the agreements being signed up are rank fakes. A similar condition exists in Kansas and other bituminous districts. West Virginia has been lost altogether, even as Colorado, Alabama, Kentucky, etc. Disintegration of union conditions and breakdown of the organization also sets in the anthracite districts; the policies of Cappelini and other Lewis agents, who have supported the infamous contractor system by a murderous reign of terror, are doing their deadly work. The Brennans and Boylans, who, while posing as progressives, refuse to fight Lewis and the basic evils in the union, are adding to the demoralization. The anthracite operators are now preparing to deliver a deadly attack against the union, either when the present agreement ends or sooner.

The only possible conclusion to be drawn from the situation is that the UMWA is falling rapidly to pieces. The Lewis clique try to explain away the breakdown of the union by blaming it upon overproduction in the coal industry. But this attempt is useless. With proper policies the union could have not only kept its position in the industry despite the coal crisis, but is could have strengthened itself. The collapse of the UMWA under the attacks of the operators and the government is the inevitable, inescapable result of the long record of treachery and reaction of the Lewis machine.

Must Build New Union.

To rebuild the collapsing UMWA into a powerful and progressive organization is impossible. We must build a new miners' union. Experience proves this. It is not possible to have the UMWA, dominated as it is by the Lewis gang, adopt the honest leadership and progressive policies necessary to save it from the destruction to which it is now travelling so rapidly. Democracy is dead in the UMWA. The Lewis officials, tools of the operators and hopelessly reactionary, hang onto the union with a death clutch, refusing themselves to undertake measures necessary to revive the union, and, with the help of the operators, blocking every effort of the rank and file to enforce the adoption of such policies. During the past two years the masses of miners, in the Save-the-Union movement, have demanded and fought for the necessary changes in leadership and policy. We have pointed out the deadly, ever deepening crisis of the union. We have carried majorities in union elections and conventions. We have held protest conferences in many districts, culminating in the great conference of 1125 delegates in Pittsburgh, Pa., on April 1st, 1928. We have initiated direct campaigns to organize the unorganized into the UMWA. We have tried to extend the present strike nationally so that it might be won.

But all our struggles to save and rebuild the UMWA have not budged the corrupt Lewis machine. This crowd of false leaders, supported by the coal operators, cling autocratically to control of the union, in spite of all rank and file efforts to dislodge them. Their policies are now more reactionary than ever. They maintain their control by terrorism and corruption. Our warnings of the dangerous position of the union have been ignored. Our efforts to elect an honest leadership have been defeated by wholesale stealing of elections. Shameful packing of the union conventions with false delegates has stripped the conventions of all rank and file expression.

Our efforts to organize the unorganized, to spread and win the bituminous strike, have been sabotaged. Our demand for a policy that would build the UMWA into an organization capable of defending the living standards of ourselves and our families has been met by organized campaigns of terrorism by the Lewis forces. Our efforts to develop the UMWA into a fighting organization have been resisted by expulsions from the union and blacklist from the industry. After the April 1st Save-the-Union Conference, many thousands of miners, many of whom have been on strike 14 months, were expelled from the union and denied strike relief. This was a strike breaking policy. The result of all this reaction and terrorism has been to disarm the UMWA in the face of the employers' attacks and to lead it to its present break up.

Mistake to Cling to UMWA.

It would be a disastrous mistake for us to cling any longer to the UMWA as the union of the miners. Locked in the death clutch of the corrupt Lewis gang and shattered by the employers' attacks, it cannot protect the interests of the miners. To depend further on the broken UMWA as our organization would be for us to sink deeper and deeper into open shop slavery. We must build a new union. We must take the situation in hand ourselves and break the control of the Lewis gang. We must organize a new miners' union, one with an honest progressive leadership and a fighting policy. In this way alone can we organize the unorganized, resist wage cuts, bring about the 6-hour day and 5-day week, relieve unemployment, and establish a national agreement for all miners. Only a new union can shatter the control of the Lewis machine. Only with a new, vigorous, powerful union can we put a halt to the open shop drive of the operators and re-establish union conditions in the mining industry, and prepare ourselves for the great struggles ahead in the industry.

To establish the new Miners' Union is the purpose of the great national miners' convention, to be held in Pittsburgh, September 9-16. The undersigned, representing the newly reorganized districts of the UMWA, and the progressive opposition in the other districts, and speaking in the name of the majority of miners, call upon all locals of the UMWA to send delegates to this convention, on the basis of one delegate for each 100 members. We also call upon the unorganized miners to hold conferences and send delegates on the same basis, thus helping the work of organizing the unorganized.

Time for Action!

We must not surrender the rank and file organization in the UMWA to the Lewis machine. We must win the locals, sub-districts and districts for the new organization and send delegates from them to the Pittsburgh Convention. Only in this way can we save what remains of value in the UMWA. Only in this way can we save unionism in the coal industry.

Miners! Now is the time for decisive action. Lewis and his whole rotten machine must go. Build a new Miners' Union. Take control of your local unions and swing them into the new organization. Come to the National Miners' Convention.

Greet Strikers.

Strikers! We fraternally greet you in your wonderful struggle for the Jacksonville scale and the right to organize in the face of the opposition of the combined operators and union misleaders. You have been systematically betrayed by the Lewis machine. We must now all unite to unload these false leaders and to build a real Miners' Union. We call upon workers everywhere to support the Pennsylvania-Ohio strike. Send all relief contributions to the National Miners' Relief Committee, 611 Penn Ave., Pittsburgh, Pa.

Anthracite miners! Stand solidly with the bituminous miners for the new union. Only such a union can abolish the contractor evil and do away with the arbitration-conciliation swindle. Beware of these false leaders who advocate the formation of a separate union of the hard coal miners. Send delegates to the National Miners' Convention.

Miners of the unorganized districts! Now is the time to organize. Lewis and his corrupt agents have betrayed you time and again. But the new Miners' Union will recognize as its first task the organization of the unorganized and will undertake this job with all possible vigor. Hold conferences and send delegates to the Pittsburgh Convention.

Workers of the whole labor movement! Support the National Miners' Convention. Our fight is your fight. Our struggle against the reactionary Lewis machine, which has wrecked our union, is part of your general fight against the whole corrupt A. F. of L. leadership, which has brought the entire labor movement into a deep crisis.

Miners, stand together!

Lewis and his whole corrupt machine must go.

Build a new Miners' Union.

Come to the National Miners' Convention.

Imperialism Gets Ready

Germany, which will be ruled by a coalition government headed by a social-democrat, isn't letting any grass grow under her feet as far as preparations for the next imperialist war are concerned. Photo shows two residents of Berlin wearing the gas masks which all German citizens are being taught to use as part of the general "preparedness" drill.

CALL IS ISSUED TO WORKERS OF U.S.A. TO SAVE BELA KUN

Labor Defense Urges Mass Protest

A call has been issued by the New York section of the International Labor Defense, 799 Broadway, to all class conscious workers and working class organizations to renew their efforts to save Bela Kun, Hungarian Communist leader, from being deported to fascist Hungary, and to demand his immediate and unconditional release.

The call, signed by Rose Baron, secretary of the New York section, states:

"The trial of Bela Kun, leader of the Hungarian proletarian revolution of 1919, has been set for June 26th in Vienna.

"Only the united pressure of the workers of the world can compel the inquisitors who will sit in judgment over Bela Kun—over the whole workingclass—one June 26th to release him. They are planning to hand him over to the Hungarian terrorists so that he may be murdered. Their plans must be stopped! Workers, working class organizations, act now! Protest, adopt resolutions demanding the immediate and unconditional release of Bela Kun! Down with international fascism! Bela Kun must be saved!"

Farm Protest Mild Ripple in Waves of Bunk at Wall Street Convention

FARMERS DO NOT CHOOSE TO VOTE FOR HOOVER
AND WE DON'T MEAN MAYBE!

Photo on left shows a view of the opening of the republican nominating convention, where big business is picking its puppet for president. On the right, two farmers carrying a banner of protest. The farmers, who were the pawns of a different set of republican fakers, were twice thrown out of the convention hall when several hundred of them attempted to enter.

Newest Sovkino Film "Station Master" Opens at Cameo

The film version of "The Station Master," the latest and newest output of the Russian Soviet studio, will have its American premiere at the Cameo Theatre tomorrow. The author of the story, Alexander S. Pushkin, is considered as one of the great Russian writers along with Dostovieski, Tolstoy, Tohekov and Gorki. He writes, as do the others, humanly and with a fine dramatic power and in the particular piece selected for picturization he displays this talent conspicuously.

Moskvin

Ivan Moskvin, of the Moscow Art Theatre interprets the title role, and he has been acknowledged both here and abroad as one of the three greatest actors this generation has produced. His unique ability at illuminating a character by attention to details is especially suited to realistic parts such as accorded him in Pushkin's creation. Every scene in "The Station Master" was made at the exact spots which the author indicted in his story and an all-Russian cast supported Moskvin who directed as well as starred. The film arrives on an American screen after having met with great success in Europe. It has been acclaimed in England, France and Germany as a masterpiece. In Germany the film was called the Russian "Last Laugh" and Moskvin's work was held by many critics to be superior to that of Jannings. The Russian studio responsible for the production was Sovkino, producers of "The End of St. Petersburg," "Potemkin" and "Czar Ivan the Terrible."

As an incidental attraction on the Cameo program there is showing "The Suicide of a Hollywood Extra," filmed by Robert Florey at a total cost of $97.

SOCIALISTS SHUN ISSUE; PREPARE COALITION MOVE

Thaelmann May Be the Next Vice-President

BERLIN, June 14.—The Reichstag opened here yesterday with delegations present from twenty-four Berlin factories representing militant labor, and the wives of numerous class war prisoners, representing their husbands and scores of others who are lying behind the walls of German jails.

The delegations of workers visited the Communist deputies, as well as the social democrats and Centrist party fractions, demanding full amnesty for all class war prisoners.

The People's Party is urging a trend to the right in Prussian politics while the social democrats have already made such concessions to the Centrists on the question of church influence in the schools that they have gone too far even for the democrats.

The workers' delegates urged the People's Party against entering the proposed coalition and demanded that the social democrats support the Communist demands. The social democratic leaders evaded any direct reply on the amnesty question.

Following the session of the bourgeois fraction to oppose the election of a Communist as vice-president of the Reichstag, the social democrats are making their attitude on the amnesty and other issues dependent upon the Communists' recognizing points of order in the Reichstag. They demand that the Communists do not oppose a candidate to Loebe and that they even vote for Loebe for vice-president.

Court Seeks Arrest of Koester, Sebold, Donetz Counter-Revolutionists

TESTIMONY SHOWS PLOTTERS URGED BAD MACHINERY

Hear Evidence of 2,500 Rouble Bribe

MOSCOW, U. S. S. R., June 14. — During yesterday's session of the trial of the Donetz plotters, the accused technician Badstieber, reported a conversation which he had with the counter-revolutionary sabotagers, Koester and Sebold. Badstieber testified that Koester hastened the acceptance of the useless Knapp machinery, fearing that the Russians might discover the plot against the Soviet administration.

Badstieber asserts that Koester abused him for his refusal to accept the machines which caused an added expense. Kusma, chairman of the acceptance committee, is alleged to have given him a bribe of 2,500 roubles.

During his trip to Germany, Badstieber heard from the Knapp employes that the machines were old and bad. Badstieber, who was then unemployed, was compelled to work for Knapp and was sent to the Soviet Union with bribes for Gorlitsky, Nikischin and Gavryuschenko.

During the month of February, more Knapp machines were erected without trials with the result that several broke down immediately.

At this point in the inquiry, Krylenko interrupted to ask if Badstieber thought that Koester and Sebold were merely money makers or whether they were also sabotaging the Soviet government.

Badstieber admitted participating in the sabotage tho against his will. Nikischin admitted the truth of Badstieber's statement.

At the conclusion of the inquiry, the court commissioned the prosecutor to find Koester and Sebold, if they are within the territories of the Soviet Union.

LOCAL 3 GANG TO STEAL ELECTION

Electrical Workers In Strong Battle

Increasing evidences that the present administration of local 3 of the Brotherhood of Electrical Workers is making plans to steal the coming election, have been increasing, according to information secured from a number of sources within the union. The officials of the union are determined to hold to their fat jobs at all costs, and have kept from meetings of the union all members capable of voicing a protest at the manner in which the officers are conducting the affairs of the union.

At the last meeting of the union, Armstrong, a union member in good standing, was forcibly ejected from the meeting by several henchmen of the reactionary clique. Armstrong came to the meeting it is known with no other intention than that of performing one of his duties and privileges, that of nominating candidates for officers in the coming elections.

Steam Roller.

The president of the union, Frank Wilson, waiting until all present officers of the union were again nominated by their henchmen, sitting in the front row of seats in the hall, immediately closed nominations thereafter. In addition all those elements that stand a chance of nomination for officers of the local in opposition to the present administration have, for "safety sake," been excluded from meetings.

Cooperation between electrical contractors and union officials to blacklist members of the union is now quite prevelant.

Paid Not To Organize.

As a reward for preventing the organizing of public utility workers, officers of the union have received compensation in the way of concessions of certain construction work employing only 200 or 300 members of the union, while thousands of utility workers doing electrical work remain unorganized. A good instance of this is a written agreement between officials of the union and officials of the New York Edison Co., which gives a certain amount of work to the union provided no attempt is made to organize the electrical workers in the employ of the company.

All honest and progressive members of local 3 have been urged to adopt the following program:

1. Democracy in the union.
2. Relief of the unemployed workers.
3. Detailed printed accounting of expenses of finances of organizing committee.
4. Effective and 100 percent organization of the industry.
5. Against keeping gangsters and police at the doors of union meetings
6. Against the autocratic dictatorship of representatives of the international.

"Labor Leaders" Grovel for Political Crumbs

The agents of finance-capital who are busy at Kansas City choosing Wall Street's favorite son to do its work for the next four years are even too busy to listen to their loyal servants, the high-salaried chiefs of the American Federation of Labor. The labor betrayers are being granted only five minutes in which to present "labor's platform." Photo above shows, left to right, William Green, president of the American Federation of Labor; John J Davis, millionaire secretary of labor; and Frank Morrison, vice-president of the A. F. of L.

WORKERS CALENDAR

Correspondents Attention!

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

• • •

Philadelphia Workers' Defense.

Shachtman China Lecture Tour Dates

Friday, June 15, Newark, N. J.

Sunday, June 24, Passaic, N. J. Workers' Home, 27 Dayton St., 7:30 P. M.

COLOMBIAN BILL HITS COMMUNISTS

BOGOTA, June 14.—A law suppressing constitutional guarantees and granting extraordinary powers to the president of the Colombian republic, Dr. Migule Abadia Mendez, until the end of July 1929, has been submitted to the congress and will no doubt be accepted as the majority of the chamber is conservative and supports the president.

As justification for this law it is said that the Communists in Colombia are preparing to overthrow the government. The bill was submitted by the conservative deputy, Rodriguez Diago, and opposed by the liberal deputies, who are fearing for their own political future.

The "Socialist Revolutionary Party" of Colombia in September, 1926 affiliated with the Third International.

DENTAL UNION REPORTS GAINS

Break in Laboratory Owners Association

Hundreds of dental mechanics have returned to work with the recognition of their union and their other demands granted, according to a statement made last night at the office of the Dental Laboratory Workers Union.

There has been a break in the Dental Laboratory Owners' Association and such members of the Association as the Gottlieb Dental Laboratory, Green & Maslov, New Era, Herman & Goldberg, Karr, Ellar, Beacon, Progress and Eastern Dental Laboratories and many other smaller laboratory owners throughout greater New York and New Jersey, have settled in spite of the association.

Among the independent bosses, the following have settled: Shapiro & Baker. Furman & Horowitz, Journal Square, Levitt, Shalita, Consolidated, Imperial, Prosthetic and many others.

During the day settlements are made at the Labor Temple, Room 32, 2nd Avenue and 14th Street.

CLOAK COMMITTEE OF 500 IS FORMED

To Organize Open Shop Cloak Trade

The steps taken by the meeting of the active members of the cloakmakers union, held here last night, and a statement of decisions made at yesterday's meeting of the National Organization Committee, were the two most important developments yet recorded this week in the struggle of the workers in the industry to rebuild their union and drive from the trade the union wrecking Sigman-Schlesinger clique.

Successful formation of the Organization Committee of 500 which was decided upon at the recent Shop Chairmen's Conference as the first step to bring unionization to the New York market, was achieved at last night's meeting of the active cloakmakers. The meeting was held in the large hall of Manhattan Lyceum, 66 East 4th St.

Charles S. Zimmerman, head of the organization department of the N. O. C., led the meeting's work of forming the committee of 500. After a short talk in which he exposed the hypocrisy of Schlesinger's "peace" statements, by citing proof of Schlesinger's continued campaign of throwing out from the shops those who had not registered.

To Choose Units.

The basic units of the Organization Committee will be formed by 10 workers headed by a captain who will be a member of the local branch of the N. O. C. A larger body of five units will be captained by a member of the N. O. C.

Joseph Borochovich, Rose Wortis and others also spoke. The chairman was J. H. Cohen, chairman of the local section of the National Organization Committee.

COMMUNISTS GET URUGUAY WORKERS MINIMUM WAGES

Capitalists Must Pay Or Go

MANTEVIDEO, June 14.—The proposition of the two Communist deputies to the Uruguayan parliament, Gomez and Wettstein, to establish a minimum salary for all workers in industry, commerce and agriculture, was accepted at the recent parliamentary session, with all votes of all fractions of the "Colorados," bourgeois liberal parties, and the two Communists against all votes of the "Blancos," the conservative party, now calling itself "Partido Nacionalista."

The proposal, which was accepted by a two-thirds majority, provided for a minimum salary of $70 per month or $3 per day for all workers in commerce and industry and government employes, and $30 per month for agricultural laborers. The Uruguayan dollar is generally a little above or at par with the U. S. dollar.

When at the first voting, the necessary two-third majority was not obtained for that part of the law referring to the government employes, as many deputies objected that that state of the budget did not permit such increase for so many government employes who have less than $70, the Communist deputy Wettstein proposed to increase the taxes on all landed property of which less than one-fifteenth is used in agriculture. This proposal was accepted, and consequently the minimum law refers also to the government employes.

The conservative deputies tried to bury the law by asking to have it passed to a commission to study the details, because the "national industry could not stand such high salaries" without disaster. The Communists answered that if the bourgeois deputies admit that the capitalist system cannot pay wages sufficient to maintain life for those who work they tell the workers that, by the admission of the conservative deputies, the capitalist system is unable to support the workers at a minimum wage and that they can have no hope in the present society and that consequently their only hope is the destruction of the capitalist system and its substitution by a proletarian society.

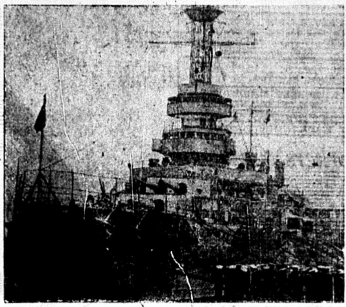
After this speech the bill was passed with a two-thirds majority.

MOCK ELECTION AT "RED" PICNIC

A mock election campaign will be one of the features of the "Red" Picnic which has been arranged by the Workers (Communist) Party, district 2, to be held at Pleasant Bay Park, June 24. A torchlight parade will follow.

The picnic committee reports a program of sports events such as has been rarely seen at radical affairs. The sports events will include a series of soccer games arranged by the Metropolitan Sports League, the Finnish Sports Club Vesa, and the Pioneers.

Dictator's Tools Inspect U. S. "Democracy"



Chilean naval cadets, who arrived in New York harbor on the training ship General Baquedano, went on shore to inspect the city. This is part of the course of training to enable them to do more effectively the bloody work of the oppressors of the Chilean workers and peasants, Dictator Ibanez.

NEGRO MEETING TO HEAR POLITICIANS

Los Angeles Gathering Opens June 27

In pursuance of its usual policy of seeking the favors and flattery of capitalist politicians, the National Association for the Advancement of Colored People, with headquarters at 69 Fifth Ave., announces that both Governor C. C. Young and Lieutenant-Governor Buron L. Fitts of California will address the 19th annual conference of the association, to be held in Los Angeles June 27 to July 3.

Lieutenant-Governor Fitts will present the Spingarn medal, awarded annually to the American Negro who is deemed to have best fulfilled bourgeois standards of distinction in some field of endeavor. Among those on the committee of award is the notorious reactionary and militarist, Col. Theodore Roosevelt; Bishop John Hurst, of Maryland; Dr. W. E. B. Du Bois, editor of "The Crisis," a liberal Negro magazine; and Oswald Garrison Villard, editor of the Nation.

Second Tourist Group Arrives in U. S. S. R.

A cable from London last night to the New York office of the World Tourists, Inc., 69 Fifth Ave., announced the arrival of the second group of tourists which had recently sailed from New York en route to Soviet Russia under the auspices of the World Tourists, Inc.

Groups, accompanied by an English speaking guide of the Soviet Government Travel Buro, and a representative of the World Tourists, Inc., are now being organized for July, August and October.

CAL QUITS HIS "TOIL."

PITTSBURGH, June 14—President Coolidge was on his way to Wisconsin this morning, bound for the estate of Harry Clay Pierce, oil magnate, on Brule River, for a three months' vacation.

Demonstrate Against Japanese Imperialism

SAN FRANCISCO, June 10 (By Mail).—Hundreds of Chinese workers voiced their protest and hatred of Japanese imperialism at a large demonstration held here the other night. More than 2,000 leaflets both in English and Chinese were distributed, outlining the fight of the Chinese workers and peasants against foreign imperialists.

Resolutions were adopted denouncing Japanese imperialism and demanding the immediate withdrawal of Japanese troops from Chinese territory. The demonstration was held under the auspices of the Alliance for the Support of the Chinese Workers' and Peasants' Revolution.

For Miners' Relief

DETROIT, June 14.—A picnic for the relief of the striking coal miners and their families has been scheduled by the Italian fraction of the Workers (Communist) Party for Sunday at Dequindre St. and Nine-Mile Rd.

MINE RELIEF IN PHILADELPHIA SHOWS BIG GAIN

Committee Doubled by New Delegates

By C. RABIN.

PHILADELPHIA, June 14.—The enlarged conference for the relief of striking miners was a huge success, 24 more organizations joining the Philadelphia Committee of the National Miners Relief. Previously 26 organizations were affiliated by regularly selected delegates. Monday night's enlarged conference more than doubled the size of the local committee, as some of the newly affiliated organizations were made up of a number of subordinate organizations, language groups, trade unions and workers' fraternal clubs.

All the delegates promised to bring in more organizations and secure many new volunteers to assist in the work now in progress in Philadelphia, such as the house to house collection, held every Saturday.

The enlarged conference was addressed by a striking miner and by Mrs. Sokol, a striking miner's wife. After these speakers, direct from the coal fields, had concluded their tales of the dreadful suffering the miners and their dependents are now undergoing, many of the delegates wept. Mrs. Sokol's stirring appeal brought many sincere promises from the workers present for immediate active help in raising all possible funds to be rushed to the striking miners.

The weekly house to house collection has now been brought up to the point where last Saturday over $200 was realized. There is no doubt that beginning with the newly planned campaign, June 23, this collection will be more than doubled.

Scores of solidarity books were distributed to the new delegates, who will sell them to their organizations.

FEDERATION TO MEET.

KENOSHA, Wis., (PP).—The Wisconsin State Federation of Labor convention opens in Kenosha July 17.

Red---
White TERROR

Nicolai Krylenko explains the nature of White Guard terror as opposed to working-class revolutionary terror in the light of ten years' experience of the Russian revolution.

The Mine Workers' Call

"We must build a new union.

"We must take the situation in hand ourselves and break the control of the Lewis gang. We must organize a new miners' union, one with an honest progressive leadership and a fighting policy. In this way alone can we organize the unorganized, resist wage cuts, bring about the 6-hour day and 5-day week, relieve unemployment and establish a national agreement for all miners. Only with a new union can we shatter the control of the Lewis machine. Only with a new, vigorous, powerful union can we put a halt to the open-shop drive of the operators and re-establish union conditions in the mining industry, and prepare ourselves for the great struggles ahead in the industry."

These words from the call, issued by the conference of executives of miners' districts, for a national convention of mine workers in September should fire the entire labor movement to action.

The call for the building of the new mine union shows clearly the path which the biggest and traditionally the most militant section of the American trade union movement must blaze for the immediate future of organized labor. The call, published in full in today's DAILY WORKER, begins with a withering indictment of the foulest machine of betrayal that the capitalist class ever possessed within a large organization of our class.

Lewis, the well-to-do business man, has made a well paying business of his control of the United Mine Workers. When hundreds of thousands of mine workers were on the verge of starvation, Lewis made the chief task of the national convention of the union that of voting himself a big salary of $1,000 per month (as well as extra money for expenses) and the second task that of expelling from the union every coal miner who showed himself an enemy of Lewis' friends, the coal operators. It is true that Lewis had a minor quarrel with some of the coal operators—but the quarrel revolved merely about Lewis' contention that the operators should employ Lewis as an agency for the suppression of the mine workers. This quarrel is subordinate—Lewis' main quarrel is with the mine workers.

It was inevitable that Lewis, the friend of the coal operators and the bankers back of the coal operators, should betray the coal miners in 1919. Then in 1922, when the Miners' Union was face-to-face with the strike-breaking armed forces of capitalist government, it was but natural that Lewis, the republican, the friend of Harding, the former member of the government's fuel administration which compelled high production of coal during the war, should break the strike for the government and the coal operators. Again in 1925, Lewis quite consistently served his life's associates when it became necessary either to marshall the mine workers for a terrific struggle or to break the strike for the benefit of "business." In the spring of last year, again, Lewis and his horde of parasites in the profession of "labor leadership" for profit, went along with the mine workers only in order to hold control of their union and to use it against them.

Lewis has made himself known to hundreds of thousands of mine workers. The machine of which he is the head will be thrown out of the labor movement—the slogan which has been ringing through the mine fields with an ever louder echo will be realized: "LEWIS MUST GO!"

The formation of the new union of the mine workers does not mean that the militant movement runs away from masses of their fellow workers left under the control of the agents of the bosses. On the contrary the call indicates that the militants will not make that old mistake, but will continue to root Lewis out of control of whatever may remain for the time being of the old organization. Locals, subdistricts and districts of the U. M. W. of A. are called upon to send representatives to the great national convention of the mine workers in September. The drive is already on for the rank and file miners to take control of their own locals everywhere and to swing them into the real union being organized. In sharp contrast to Lewis' strikebreaking, the militant movement supports to the utmost the present strike which is in desperate straits because of Lewis' treason. A great drive for the organization of the unorganized is indicated as a supremely important task. None of the Brennan type of treason in a "separate anthracite union," but a vigorous drive for the welding together of anthracite and soft coal miners into a single, nation-wide union of the mine workers, is the program set forth in the call.

Rightly the whole labor movement is called upon to support this movement. Assistance to the striking miners should be sent to the National Miners' Relief Committee, 611 Penn Ave., Pittsburgh, Pa.

The mine workers of this country are about to hold the most momentous convention of their glorious history of struggle. The new union they will form will surely be the back-bone of a revived trade-union movement.

THE PRISONER

By JAMES A. MILLER.

He paused in the endless pacing. Grey walls, cold walls. It seemed he heard something in the far corner, something that was alien to the place. He dragged himself slowly to see where it seemed to come from, but there was nothing. He resumed his pacing, backwards and forward, ceaselessly like an endless shuttle weaving the loom of fate, tireless, inexorable, dumb—time like a worn out doll was threading her way, forgotten and discarded.

The endless pacing.

The west wall with its crack running diagonally across; wall where the rats came from at night, scurrying hither and thither until he chased them away with curses he had almost forgotten how to utter. Curses that oozed with the slime of iniquitous divinities of the world without these four walls: these four walls that continually pressed in upon him, over and around him like grim, forboding ghosts, that shrieked their silence when the little patch of sunlight dried up and went to sleep. Heavenly sleep that he craved, sleep that never came.

Then began the endless pacing.

The south wall where the strange noises came from. Some ghost of old time doing its penance in the cell. He wished it would go away and never bother him again: that word again was like the walls, monotonous and gray. Gray walls, gray days, gray thoughts—

Then began the endless pacing.

The north wall where the cold winds came from in winter, the winds that froze him to the bone and made him screech until the turnkey rattled his keys at the great door and demanded silence. He wished the wind would freeze him up forever like he had read of travellers in the far north being frozen, swiftly and silently in the vast grayness—

Then began the endless pacing.

The east wall where the door was, the outlet to that vague unimaginable liberty that had been his, it seemed eons ago. The door against which he had battered his knarled fists countless ineffectual times, sending dull echoes reverberating through the silent corridors deaf to his entreaties.

Then began the endless pacing.

The dull, gray floor stained with hundreds of filthy excrements. The driveling drain that carried its fluid away to where it mattered not. The uneven cobbles worn by his and countless other feet that had worked out their penance on the tread-mill that never moved except within their swirling brains maddened by the despair of solitude.

The light faded from the little opening and the rats came from the west wall and he heeded them not; and the noises creaked teasingly from the south wall. But he was trying to sleep again and he stared at the ceiling that pressed down upon him like a weight of lead. The top of his cage that hid the sun and moon and stars. Up there they said was God; God who made man to sit in judgment over men and send them into little holes like this to die smothering in stifling grayness.

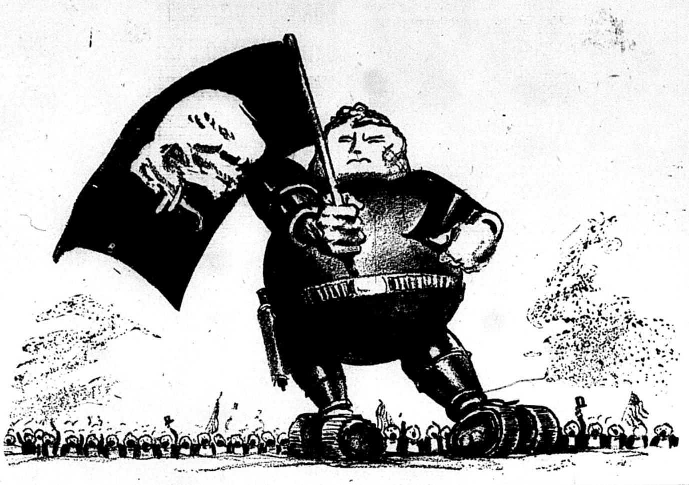
He closed his eyes and tried to sleep, but they wouldn't let him, these four walls. Then he struggled a little bit and thought of green fields in the spring and the ice coming down from the hills on the breast of the little river, but they always turned gray and the birds began singing the same eery tune of the noises. And the rushing of the water sounded so much like the rats. Then he screamed the way a rabbit does when you kill it and the turnkey made threatening gestures through the window and he ceased.

He looked at the south wall and north wall and the west and the east wall.

Then began the endless pacing—

THE CANDIDATE IS CHOSEN

By Fred Ellis



Young Workers Aid in Mill Strike

By JOE SPINNER, Young Striker.

The strike of 27,000 workers in New Bedford is now entering its eighth week of struggle. The mill owners are trying to take advantage of the slowness of the textile industry and have posted a notice of a ten percent wage cut. There have been two wage cuts previous, and the bosses thought they could get away with another one because the bosses knew that the majority of the workers were outside of any union.

The reactionary officials of the American Federation of Textile Operatives, an organization that has some two thousand skilled workers in its ranks, tried to stall off the strike, but due to the pressure of the unskilled workers and the honest rank and file in the A. F. T. O., the strike was declared.

One of the first public announcements of Mr. Batty, secretary-treas. of the A. F. T. O. was in advising the strikers to go to sleep until the strike was over, and telling them that they were tired and should take advantage of the strike to rest up. The New Bedford Textile Workers' Union saw the treachery of such advice and told the workers to pay no attention to Mr. Batty, and to come out on the picket line. The workers followed the advice of the New Bedford Textile Workers' Union, and one could notice daily the continuous growth of the picket lines. Today there are mass picket lines. As many as three hundred around a single gate. Due to the pressure of the New Bedford Textile Workers' Union, Mr. Batty has turned turtle. Now after seven weeks of strike, he is advising the members of his union to go on the picket line. These are beginning to go there anyhow. The New Bedford Textile Workers' Union has come out with a statement welcoming the members of the A. F. T. O. on the picket line, at the same time warning the workers against such leaders as Batty, who do not realize the importance of the picket line but only consent to the picket line due to the mass pressure from the strikers.

Relief Is Vital.

Early in the strike it could be seen that relief work would be an immediate necessity for all the strikers if the fight was to be won. Mr. Batty anticipating that the workers would come to his organization for relief came out with a statement to the effect that his union would only give relief to those workers who were members of his union before the strike. In plain language this meant that he would give relief to the 2,000 skilled workers only, at the same time neglecting the 28,000 unorganized workers outside his organization. He advised them to go to the citizens' and mayor's (scab) committees.

In spite of this betrayal of the great mass of textile workers by the A. F. T. O., they made appeals thruout the country for the relief of the 30,000 strikers, but only giving relief to their small group of skilled workers. When the New Bedford Textile Workers' Union saw the seriousness of the situation, they made arrangements with the Workers' International Relief to raise relief. It was agreed that relief would be given to anyone as long as he was a striker in need, and who went on the picket line. Last week the loom fixers' local of the A. F. T. O. paid out its last strike benefit of $4.00 per member, and is now advising its own members to go to the citizen's and mayor's committees for relief. The Workers' International Relief has announced that it will give relief to all workers regardless of what union they belonged as long as they go on the picket line.

S. P. Aids Fakers.

The socialist party has been giving active assistance to the misleaders of labor running the A. F. T. O. The Boston district of the socialist party recently in convention adopted a resolution supporting these bureaucrats. Mr. Norman Thomas spoke at the mass meetings of the strikers, and the S. P. has been raising relief, appealing in the name of the 30,000 workers but turning this relief over to Batty for his two thousand union members. J. Manning of the Y. P. S. L., who carries the distinguished title of "confidential secretary" of the strike committee, has been giving the bureaucrats active assistance in their fight against building a real textile workers' union in New Bedford. The S. P. by all these actions once again shows itself in its true role as the agents of reaction.

The young workers make up over 25 percent of the textile workers in New Bedford, and it therefore becomes very important that the union pay special attention to them if the strike is to be won. Due to the lack of militancy, these young workers lost all interest in the strike, but now with the growing militant policy which the New Bedford Textile Workers Union, is instituting, we find these young workers coming back into the strike movement and more and more taking an active interest in the strike. The New Bedford Textile Workers' Union in recognition of the importance of the young workers, has adopted a list of special youth demands which are as follows: (1) Minimum wage of $15 a week for all young workers. (2) Equal pay for equal work for young and adult workers. (3) Complete abolition of child labor under 15 with state maintenance for all those now working under that age. (4) No night work for young workers under 21. No overtime for young workers under 18. (5) Two fifteen-minute rest periods a day for all young workers. (6) 7-hour day, 5-day week for young workers under 18. (7) One hour for lunch and washing up on company's time. (8) Work schools for young workers under 15 and 18 on working time under union and young worker control.

The New Bedford Textile Workers' Union in the eight weeks of strike is as strong as ever. Picket lines are growing daily, and mass meetings likewise. The workers know that a real union has come to stay in New Bedford. The young workers know that they now have a union to fight for them, which is worth while fighting for. The young workers will fight like hell. They are chipping in their all to build a union of the New Bedford Textile Workers affiliated with the National Textile Mills Committee in New Bedford. All young workers' organizations are asked to support this militant struggle of these workers.

Lewis, Fishwick and Operators Combine

By ALBERT GLOTZER.

A statement issued by the Peabody Coal company, which was recently printed in the Illinois State Register thoroly exposes the present agreement between the operators and the Lewis-Fishwick machine. The statement is not only the statement of the Peabody company but is the voice of the organized operators in the state. Peabody has spoken for them and has laid down the program that will be followed by the operators in Illinois.

The content can be summarized as follows: The passing of the major part of the coal production to the unorganized fields must be dealt with. This one outstanding condition does not allow the operators here to continue paying the present Jacksonville scale of wages and still derive their enormous profits. In order to meet this competition the operators are asking the miners in Illinois to accept a wage-cut or else suffer the loss of their organization and a shut-down of the mines.

To the militant coal miners who have been fighting their corrupt officials for years, this statement is not a surprise. These miners have indicted their officials for their failure to organize the non-union fields; they have demanded a militant struggle against the operators; their cry has been, "a national agreement and a national strike;" for a six-hour day and a five-day week to solve the crisis in the miners' union.

The machine has given these miners its answer. The answer exhibits itself in the decadence of this once powerful organization, which is being bled to death by the combined efforts of the operators and the Lewis officialdom. In Illinois the Fishwick machine has signed separate agreements sending part of the miners back to work and leaving the rest unemployed. It has split the organization and has played into the hands of the operators. These agreements specify no conditions, no time limit; it gives the operators the right to abrogate them at will. The machine has issued statements declaring to the miners that these agreements were permanent. This declaration was made to the miners by Hindmarsh, Springfield sub-district president and renegade "progressive-socialist."

It would be well to quote from the Peabody statement which was published immediately after the declaration by Hindmarsh was made. The first paragraph reads:

Treachery Exposed.

"We have reopened two of our mines at Springfield under an agreement to pay the Jacksonville scale of wages TEMPORARILY."

It goes on further to say:

"We have offered and are willing to pay at our mines in Illinois wages and rates higher than those paid generally in the mines (referring to the non-union fields—AG) which now have the business that Illinois mines formerly had. We are asking our mine employees to accept only such MODIFICATION of the Jacksonville Agreement . . . This condition is not local. It applies in all the mining districts in the central western territory, which HERETOFORE operates under agreements with the United Mine Workers of America. (Emphasis mine.—A. G.)

Charges Proven.

The charges made by the rank and file are here substantiated by the voice of the operators. The operators have no one to fool, they represent only their own interests. The machine feels uncomfortable at this statement by the operators. It would rather not have the rank and file know these conditions and know that they are in league to destroy this hard fought for organization. But these conditions stand out boldly and stare the miners in the face. It confirms only again the need for taking the union from these fakers and making it the property of the coal miners rather than the property of the coal operators as it has been.

The administration is desperate. They are using every method imaginable to defeat the rank and file who are today holding their conventions to assume control over their organization. The slugging of such militants as Watt, Voyzey and Thompson at the Illinois miners' convention, the sending of anonymous threat letters to militants and their wives, and a wave of wholesale expulsion supports every charge made against the officialdom.

The officials in league with the operators make up the other side. They feel the forward surge of the miners and are squeezing all they can out of the union. Fearing that the rank and file will take control of the organization they have ordered the banks, at which the miners' money is deposited, not to allow the money to go into the hands of the local unions. They are in cahoots with the operators to turn over the check-off to the officials rather than the locals and are reducing the organization to a money agency which they bleed repeatedly. Hundreds of dollars are paid thugs to beat militants. All this in effort to stem the tide of the rank and file.

These methods will never destroy the movement in the miners' union. The struggle is not an easy one. It takes more than a day to break down this immense machine built on so huge a payroll.

But its fall is inevitable despite the combined efforts of the operators, the government and the officials.

AS WE SEE IT

By T. J. O'FLAHERTY.

WE are indebted to Secretary of Labor Davis for the opinion that the depression in the coal industry constitutes a menace to the national prosperity but he sees hope in the movement among the operators to consolidate their mines. This is the panacea proposed by John L. Lewis which will undoubtedly work out to the advantage of the operators but will throw a few hundred thousand miners permanently out of the coal industry. Messrs. Lewis and Davis should worry!

• • •

THOSE who have been worrying about what to do with ex-vice-presidents and wage earners over fifty should take heart from one of Mr. Davis's latest pronouncements. The mechanization of industry has provided the solution. Of course, our ex-vice presidents will be provided with employment more congenial than steering an automatic coal-cutting machine. Lots of oil companies need vice-presidents, particularly if the vice-presidents are clever doodle bugs. And then there are always new brands of cigars and shaving soaps to be baptised!

• • •

BUT the slave who has passed his fiftieth birthday. What about him? Let Mr. Davis speak:

> "The mechanization of industry has furnished positions for old fellows who would have difficulty finding work otherwise. Employers are learning that the old fellows are better at running machines than the young. Realizing that it is the only thing they can do for a livelihood, they are more satisfied. They are steady and not easily startled. The old fellow may not have an elastic step but he has a trained brain and a trained hand. Hard work has already largely been done away with through machines, and accidents are being reduced. Under the condition there is no reason why men should not work until they are 65 or 70 years old."

• • •

SO the millenium for the aged is here! Theirs is a bright prospect. Work until seventy! No more will men of advanced years long for the days of their youth. Instead, youth will pine for the days when the blood begins to thin and the spirit begins to falter. A youth's place will be in the home until he is fit for the machine. Unless he chooses to join the marines and shoot up Nicaragua.

• • •

THE lead in the consolidation of the coal industry is taken by the Sunday school saint John D. Rockefeller, Jr. John has already shut down several of his high cost mines and is concentrating on the low cost ones. This means more money for John and nothing at all for hundreds of his former slaves. Operators in the Monongahela Valley are following the Sunday school teacher's example. Andrew Mellon's Pittsburgh Coal Company has adopted the Rockefeller plan. Indeed Andy may be justly entitled to the credit for the innovation but, not having Ivy Lee for a press agent, not he but John D. got the publicity.

• • •

THE frame-up system is working overtime in the mining strike area. The latest victim of this system is Frank Brobb, a striking miner of Northern West Virginia. Brobb is accused of dynamiting the homes of three scabs at Triadelphia. According to reliable information the dynamite was exploded by company stool pigeons, after Brobb was inveigled to the spot. If the operators succeed in convicting Brobb a twenty year penitentiary term faces him.

• • •

IT would be well worth the trouble and the expense to comb the penitentiaries of the United States, particularly those located in the feudal areas dominated by coal and steel with a view to ascertaining how many workers are buried in them for their activities in the class struggle, without the knowledge of the labor movement, outside of a small circle of their friends. Letters come quite frequently to the national office of the International Labor Defense at 799 Broadway, New York, from workers who are buried alive in capitalist dungeons, whose fate has thus been learned for the first time. No doubt there are hundreds of such cases.

• • •

THE appearance of a group of German Communist seamen at the New York state nominating convention of the Workers (Communist) Party and the message of greeting delivered by their leader was a rousing and encouraging incident. It was a graphic illustration of the international character of the Communist movement and the strong ties that bind all sections of it together. Here is a movement that has its roots in every industry and a net-work of organization all over the world, on sea as well as on land. This is the organization, yet comparatively weak in this country, which is destined to conquer the world for the working-class. The workers of the world are uniting alright.

LEVIN [illegible] MARKET ST SAN FRANCISCO CA [illegible]

WALL STREET NAMES CURTIS TO TRICK FARMERS

MINE [illegible]IAL LEADS ATTACK ON PICKET LINE

Scabs Driven Back In Spite of Guns

(Special to the Daily Worker)

PITTSBURGH, Kansas, June 15.—Armed scabs in the pay of the Pittsburgh Coal Company escorted by a small army of thugs and gunmen today rushed a picket line of about 1,000 miners before Mine No. 14 near here in an attempt to break up the demonstration.

In the skirmish which followed six scabs are said to have been beaten up including the superintendent of the mine who led the attack.

The scabs were armed with guns blackjacks and knives and although the strikers were unarmed they gave a good account of themselves, it is reported.

The Pittsburgh Coal Company which is a Mellon company has been seeking to open at the 1917 wage scale which calls for $5 a day. While Andrew Mellon, Secretary of the Treasury is at the republican convention at Kansas City virtually dictating his will to the entire country, his coal and iron police are using every device to beat back the miners to the starvation levels of pre-war times.

ILLINOIS MINERS HOLD CONVENTION

Sub-District 9 Ousts Officialdom

CHRISTOPHER, Ill., June 15. — Over seventy delegates from 15 local unions gathered at the French Club, Christopher, Ill., in a sub-district convention embracing practically all local unions of sub-district 9, district 12. The call for the convention was issued by Gerry Allard, acting secretary, by decision of the special district convention that was held in Belleville on May 19th and 20th. The convention was called for the purpose of setting forth new policies on the same line as the district convention and to oust the reactionary machine by electing rank and file miners to the positions.

Daniel H. Slinger, secretary-treasurer district No. 12, addressed the convention and received a great ovation. He clearly outlined the immediate task of the miners of Illinois and the miners nationally.

Seek Release of Prisoners.

Resolutions for the release of the Zeigler miners and all class war prisoners, support of the Coal Digger as the new official organ, for an International Convention, etc., were unanimously adopted.

The new officers of the sub-district are: C. Atkinson, president; William Owsley, vice-president, and Arley Staples, secretary-treasurer. The Sub-District Executive Board was abolished and a more simplified means of courts organized. Each local union is to elect a member to the grievance board, this member to come directly from the pit. Each member to the grievance board is to serve only for one month and to receive the same wages as the average miner. No pay is allowed on Sunday.

The high salaries of the present reactionary officialdom was bitterly assailed and to prevent further corruption the rank and file miners are determined to adjust their organization to prevent corruption in the future.

The spirit of the convention as reflected by the discussions of the delegation was truly remarkable. One rank and file miner won a great hand when he asserted, "John L. Lewis says that there are 300,000 too many miners, these 300,000 miners say that John L. Lewis must go!"

Three Militant Miners To Speak in Cleveland

CLEVELAND, June 15.—Three of the newly elected miners union officials of the Bellaire sub-district of Ohio who have expressed their confidence in the work of the International Labor Defense are Robert Matusek sub-district president, Frank Sepich vice-president, and Andy Plechaty secretary.

They will speak at the Miners' Defense picnic, of the International Labor Defense, Sunday, June 24, at New Sachsenheim Gardens, 7001 Denison Ave.

In addition to these three speakers the program will contain music, athletic exhibitions, sports for the entire crowd, supper and dancing.

Ultimatum of Creditors of "Daily" Expires Today; Fund Short $2,418; Quick Help Needed Before 6 p.m.

To the Readers of The DAILY WORKER.

COMRADES:

Today, Saturday, June 16 is the date of expiration of the ultimatum of creditors of The DAILY WORKER. According to the terms of this ultimatum we are compelled to complete the sum of $10,000, without which the creditors would close down The DAILY WORKER before 6 p. m. today.

We have not secured the $10,000.

The total raised up to the time of going to press last night is $7,581.67. This is short by $2,418.33 of the necessary sum.

Is it possible that we can raise $2,418.33 today?

We are striving our best to raise that sum. At the same time we are negotiating with creditors in the effort to get the extension of the time for payment until Monday.

Determined at all cost not to permit The DAILY WORKER to go out of existence, and confident that YOU, the militant workers and sympathizers of our revolutionary paper, will stand by us, we must nevertheless say that the situation today is a dangerous one.

We appeal to you now to do everything in your power to secure and rush funds to The DAILY WORKER office today to the limit of your capacity before six o'clock p. m.

We will nevertheless strive to secure a postponement of the expiration time of the ultimatum until Monday. Therefore all funds that cannot be obtained today should be rushed into this office Monday morning. Last Monday was a heavy day—we received $1,660.40—perhaps this coming Monday will also be large enough to make up the necessary total. But try to make it today, as we have no assurance that we can get an extension.

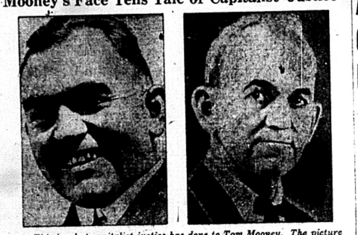
The receipts of the campaign up to last night are:

Last week:	Monday	$ 161.99
	Tuesday	464.55
	Wednesday	556.30
	Thursday	576.60
	Friday	695.00
	Saturday	705.77
This week:	Monday	1,660.40
	Tusday	661.20
	Wednesday	712.65
	Thursday	670.40
	Friday	716.81
Total to last night		$7,581.67

Comrades, please do not leave any effort undone. Send funds quick by telegraph if possible, otherwise by airmail or special delivery.

Fraternally yours,
THE MANAGEMENT COMMITTEE.

Mooney's Face Tells Tale of Capitalist 'Justice'



This is what capitalist justice has done to Tom Mooney. The picture on the left shows Mooney as he looked when arrested in 1916. On the right is Mooney after rotting for 12 years in the hell-holes of capitalism. The international Labor Defense has started a nation-wide movement to free this victim of one of the most vicious frame-ups in the history of American capitalism, who is condemned to spend the rest of his life in notorious San Quentin prison.

"FREE MOONEY" FIGHT GAINING IN STRENGHT

SAN FRANCISCO, June 15.—The agitational campaign to free Tom Mooney and Warren K. Billings, victims of the San Francisco frame-up is gaining momentum. Under the leadership of International Labor Defense, whose national headquarters are in New York City, a nation-wide protest has begun for the purpose of freeing the two workers from their cells in San Quentin and Folsom prisons.

Mooney, who was originally sentenced to die following the San Francisco explosion, had previously been active in the street carmen's union of this city and had incurred the enmity of the bosses here.

Now 47 years old, Mooney has been imprisoned for over twelve years. During that time he has become a physical wreck.

1,700 MARINES TO GO TO NICARAGUA

Makes Total Forces There 5,400

WASHINGTON, June 15.—The parley held yesterday between General Lejeune and President Coolidge to determine the sending of 1,500 more marines to "supervise elections" in Nicaragua and to continue the offensive against General Sandino, leader of the Nicaraguan revolutionists, on the request of General Frank R. McCoy, the jingo in command of the marines in Nicaragua, resulted in a decision to send 1,700 more troops to strengthen the already powerful forces.

This means that upon their arrival there will be 5,400 marines stationed in Nicaragua to carry on Wall Street's war.

This news was received here late tonight after a fake dispatch had been sent to all the newspapers stating that only 600 marines were being sent.

WINS STRUGGLE ON DEPORTATION

SAN FRANCISCO June 15. (By Mail).—Yielding to the protests of thousands of workers, liberals and students thruout the country, the Immigration Bureau has abandoned its efforts to deport H. T. Hsiang, young Chinese revolutionist and former editor of the Chinese Guide in America.

The efforts to deport Tsiang had come as a result of his militant opposition to the reaction in China and his espousal of the cause of the workers and peasants. He was defended by a Joint Defense Committee, consisting of the International Labor Defense, the Chinese Students' Alliance and the Civil Liberties Union.

BRAZIL CUTS PAY TO PREPARE WARS

Reduction of expenditures in government departments was urged by the President Luiz of Brazil in his yearly budget message with the exception of the ministries of marine, war and public works, whose appropriations must be increased by more than 6 million dollars. The increase in the expenses for war purposes is to be made by a reduction of the budget of education and the salaries of the government employees.

ARRESTS, JAILINGS CONTINUE IN NEW BEDFORD STRIKE

Whistling Strike Songs Brings Jail Terms

NEW BEDFORD, Mass., June 15. Another victim of the police phrase "disturbing the peace" which is being used by the mill barons in their attempt to terrorize the tens of thousands of textile strikers, was recorded when Elizabeth Dennele was arrested yesterday for leading a picket line of singing strikers' children.

A jail sentence of thirty days was imposed upon Bessie Katsikaros, who is charged as a second offender in the singing of strike songs and thereby "disturbing the peace."

More than forty of the most militant strikers and their leaders have been arrested and sentenced to months in jail on the charge of violating this or similar flimsy ordinances. Arrests for "disturbing the peace" were first made when the picketers shouted "scab" at the few straw bosses acting as strikebreakers. Arrests are now made of any striker caught even whistling a strike tune.

Elizabeth Denneley, who is an organizer of the Workers' International Relief, has also functioned for the New Bedford Textile Workers Union, of the T. M. C. as organizer of Children's Strike Clubs.

FALL RIVER MILL UNION CALLS MEN

Police Can't Stop Mill Committee Growth

(Special to The DAILY WORKER.)

FALL RIVER, Mass., June 15.—Giving the lie to the recently published reports in the capitalist press here and in New York that the Textile Mills Committee was compelled to retreat in its campaign to rally the textile workers here for a general strike because of police prohibition of meetings, a leaflet of the T. M. C. calling the workers to join was distributed by the tens of thousands at mill gates thruout the city.

The eagerness with which the circulars were snatched by the mill workers and the enthusiastic comment they made while reading it, shows that the sentiment for a struggle

(Continued on Page Two)

SUSPENSION THREATENS "DAILY," AID IS URGENT

Contributions to save The DAILY WORKER showed a slight increase yesterday over the previous day. But the amount received, $716.81, was still far below the pace necessary to place the paper on safe ground as it brings the total to only $7,581.67.

Large contributions are the great need now and for this purpose workers must canvass labor and fraternal organizations of all sorts. The danger signal is out. All efforts must be directed towards saving the only militant workingclass newspaper in the English language.

Yesterday's contributions were as follows:

James Bova and J. Weinberg, Buffalo, N. Y., $2; John L. Pesch, Detroit, Mich., $5; Walter M. Trumbull (collected), Maybury Sanitarium, Northville, $3; Mike Kronholm, Bryant, Wash., $5; John Steinham, Detroit, Mich., $2; Bruches (collected), Cleveland, O., $3.15; French Dye Works, Hartford, Conn., $1; A. J. Freeman, Hartford, Conn., $1; S. Luth, Hartford, Conn., $1; J. Tumer, Hartford, Conn., 50c; P. Greenberg, Hartford, Conn., 50c; Geo. Perl, Hartford, Conn., 50c; H. Slossberg, Hartford, Conn., $1; M. Bercovitz, Hartford, Conn., $1; D. Margolin, Hartford, Conn., $1; Jessica Smith, NYC, $5; G. Tuchelski, Detroit, Mich., $5; S. Akerstram, Portland, Ore., $1; B. M. Slater, Denver, Colo., $5; E. E. Dustman, Berlin Center, O., $2; M. Lindquist, Rockford, Ill., $1; Isidore Singer, NYC, $1; Swan Peterson, Vinalhaven, Me., $11.75; Frank Plotsky, Midvale, O., $1; F. Spahor, Midvale, O., $1; M. Bukovac, Midvale, O., $1; M. Sablar, Midvale, O., $1; J. Vucidvich, Midvale, O., $1; D. Kluchivsky, Philadelphia, Pa., $2; Esthonian Workers' Club, Philadelphia, Pa., $5; M. Sepp, Philadelphia, Pa., $2; Howard Wright, Toledo, O., $10; Hannah Keubbeler, Toledo, O., $1.50; W. Theo. Woodward, DeLand, Fla., $5; A. O'Hare, San Diego, Cal., $4; A. Wilins, Elizabeth, N. J., $1; Unit 5, Sec. 5 collected among the Prog. Delicatessen Un. N. Y., $7; A. Levy, NYC, $10; Blum, NYC, $1; Green, NYC, $2; Dirbach, NYC, $5; Kessler, NYC, $1; Metletz, NYC, $5; Young, NYC, $2; Flanenbaum, NYC, $7; M. O'Sullivan, Kansas City, Mo., $1; Morris L. Landerman, McKees Rock, Pa., $5; Paul Almond, Detroit, Mich., $2; Chas. Kotek, Omaha, Nebr., $5; Wm. Long,

UNEMPLOYMENT IN N. Y. GROWING

ALBANY, June 15. — Industrial Commissioner James H. Hamilton admitted today that for the month of May unemployment in the state increased 1 percent. Fewer factory workers have been employed in the industries here than at any similar period since 1921.

The commissioner reported that this increase in unemployment is chiefly a seasonal occurrence.

Up-state brick and cement plants report a seasonal increase. On the other hand the clothing and textile industries of New York City find themselves in a great slump of unemployment.

POLICE ATTACK C. C. N. Y. STUDENTS

Two Arrested; Follows Campus Protest Meet Against Ouster

TWO members of the Young Workers (Communist) League, both former students, were arrested yesterday when police charged a meeting of 500 students on the campus after Dean Daniel W. Redmond and other members of the faculty had failed to disperse 500 students of the College of the City of New York. The students had gathered to protest against the expulsion of Simon W. Gerson, president of the Social Problems Club and member of the Young Workers (Communist) League.

The two who were arrested were taken to the police station on charges of disorderly conduct, where they were later released on $500 bail each, furnished by the International Labor Defense. They are Nathan Adler, of 1205 Boynton Ave., the Bronx, and Jonah Schnissman, of 584 West 137th St., both former students of the college. The names of dozens of the protesting students were taken by the jingo professors.

Adler and Schnissman had been carrying placards inscribed with the slogans, "Working Class Students: Fight Labor's Battles in the Schools!" and "Working Class Students: Fight Imperialism!" Both placards were signed "Young Workers (Communist) League of America." Their trial was set for the night court in the evening,

BUY PUBLISHERS FOR POWER TRUST

Ginn & Co. 'Cooperated' by Deleting Books

WASHINGTON, June 15.—The Oklahoma Public Utility Information Bureau and one of the largest school book publishing concerns in the United States "cooperated" in deleting matter "unfavorable" to the Power Trust. This was revealed at today's hearing of the Federal Trade Commission's utility inquiry.

Edward F. McKay of Oklahoma testified that Ginn & Company, publishers, of New York and Chicago "welcomed" the review by the Power Trust of their manuscripts as the advertising factor in the sale and distribution of the text books.

Testimony of Fred R. Jenkins of Chicago, chairman of the committee and representative of the National Electric Light Association, and correspondence introduced showed that the utilities thought the large textbook publishers would "get in line."

JAIL NORWEGIAN PARTY EDITOR

"Left" Social-Democrats Cave in

(Special Cable to the Daily Worker).

STOCKHOLM, June 15.—Christiansen, editor of the central organ of the Norwegian Communist paper, has just been arrested and fined 500 crowns for violation of the recently enacted law prohibiting assistance to workers on strike. Other arrests are soon to follow, it is threatened. The trade unions which are helping strikers by subscriptions of one crown monthly will be penalized, it is expected.

At the party congress of the social-democratic party of Sweden the "left" wing headed by Engberg-Hoeglund has capitulated. The "opposition" abandons its main demand that the social-democratic party forms a government only when holding parliamentary majority.

The resolution is sponsored by the party leaders. On the question of "defense of the fatherland" the worker delegates demanded complete disarmament. The "opposition" capitulated and voted for social-patriotic resolution.

Strikes in India Become Frequent

AMSTERDAM, June 15 (FP).—Reports received here from Calcutta show that great strikes have been spreading in India for the past six months, due chiefly to employers' attempts to further reduce the miserable wages paid. The textile workers and many thousands of workers on the East Indian Railway lines are on strike.

MELLON MACHINE PICKED SENATOR FOR DUPE GAME

Betrayal of Farmers His Job

KANSAS CITY, June 5.—Following the juggernaut triumph of the Wall Street-Coolidge machine in the nomination of Herbert Hoover for president of the United States, the task of the machine was completed yesterday with the naming for the vice-presidency of Charles Curtis of Kansas.

As the scenes unfolded on the stage of this big hall it became clear that Curtis has been the nominee for vice-presidency picked out by the Mellon machine some time ago, and that the task of Curtis has been to hold at all cost the following and the faith of as large as possible a portion of the discontended farm elements and small-town capitalists which have been milling around the convention with anti-Hoover sentiments.

Curtis, whose leadership of the farm insurgency, had for its sole purpose the control, and not the development, of the demands of the farmers, has received his reward at the hands of the grateful politicians, by whom he is now acclaimed as a saviour.

Nominated by Senator Borah, self-styled progressive who as usual was drafted to turn the party's shrewdest trick, Curtis received the unanimous nomination of the republican delegates whipped into order by the machine leaders.

Curtis is a Mississippi valley man and it is the hope of the republican bosses that he may stem the threatening defection from the party ranks in the farming sections of the country.

* * *

(Special to the Daily Worker)

KANSAS CITY, June 15.—The nomination of Herbert Hoover and Charles Curtis with the adoption of the extreme imperialist platform by the republican national convention gives a dizzy picture of political road travelled since the Civil War toward consolidating the domination of the heavy industrialists and financiers over the working class and tenant farmers.

U. S. Steel, Washington.

In spite of the fact that the secretary of commerce of the Harding and Coolidge administrations is the heir of Coolidge and the man-higher-up to the professional slush-funding politicians like William S. ("boss") Vare, of Philadelphia, Hoover is of a different type of executive from the Taft-Harding-Coolidge brand. Hoover is an engineer and efficiency technician who, if elected next November, would relate the White House more frankly and directly than ever before to the executive offices of the United States Steel Corporation. As secretary of commerce, since his appointment by Harding in 1921, Hoover has devoted his talents to improving facilities abroad for the extension of iron-heeled American imperialism. The shadow of Hoover was beside Gen. Smedley Butler at Nanking and is now beside Brig. Gen. Frank R. McCoy in Nicaragua, where the marines are merely the bloodiest and most conspicuous expression of the incursions of American capital. So that similarly Hoover would relate the executive office of the United States Government more openly and directly than ever to the executive office of J. P. Morgan & Co.

Fascists Elated.

As soon as word of Hoover's nomination reached Rome the Associated Press correspondent at the Italian fascist capital cabled to his New York office that the nomination had "produced a generally favorable impression" there, in part because "it presaged a continuation of the policies so far pursued by the United States."

And in the spirit of fascism is a photograph bearing on the nomination published today in many leading capitalist dailies. One photograph in a half-page lay-out is of Hoover's birthplace at West Branch, Ia. This is a modest frame house with a vine-covered porch that might belong to a factory foreman in same small town today. Above this disarming photograph, however, is a photograph of Hoover's present Washington residence. There is only one human figure in this picture. And it is significant that this figure is a uniformed policeman with a club over his shoulder on the front sidewalk.

The convention was to adjourn today, with the prospect that the republican party would spend a large part of its millions of dollars of slush fund and hush fund money in the Middle West this year.

Philadelphia Hosiery Workers Still Tie Up Mills, Correspondent Writes

MASS PICKETING REMAINS URGENT NEED IN STRIKE

Bosses Confer for New Wage Slash

(By a Worker Correspondent)

PHILADELPHIA, Pa., (By Mail). The strike of the American Full-Fashioned Hosiery workers is still on at the Ajax, Federal and Emmet mills, all in Philadelphia. This is going to be a long struggle and there must be more aggression and more mass picketing. If the strikers are to win the workers at the mills affected, they will have to show the scabs that they mean business by a plentiful display of pickets.

At the Ajax mill picketing is being carried on so far from the gate that the boss has no trouble in getting scabs to come and go without realizing there is a strike on.

The capitalist owners of the mills are engaging in another conference so the workers can look for further wage cuts. They intend to get together on a national scale to take away the decent standard of living that the workers are fighting so hard to keep. They will continue their attacks on the unions, continuing their shrewd tactics as they have at the Federal mill, where a republican gang judge has issued an injunction against picketing.

Attempts have been made at several other plants here in Philadelphia to force additional machines on the workers and the workers must be made to realize that only by organizing all the men and women in the hosiery industry can they resist the speed-up and wage cuts.

The present hosiery strike is of great importance as the workers have a strong union and have built up a big membership. It behooves all the workers to stand by the rank and file in this struggle against the big bosses of the hosiery mills.

Caught With Goods

GEORGE MAYERS

MAYERS, LABOR SPY, IS EXPOSED

Pittsburgh Communists Trace Stoolpigeon

(Special to the Daily Worker)

PITTSBURGH, June 15.—George Mayers of Pittsburgh, whose picture is published above was proven to be a spy, according to an official report issued by A. Jakira, local district organizer of the Workers (Communist) Party. Bayers was under surveillance by a committee of the Workers (Communist) Party for the last two years until a complete check-up on his activities were made.

These included spying on the Workers (Communist) Party, on the Machinists' Union and several other labor organizations. He claims to have come from Toledo, Ohio, where according to his own story, he "took part" in the shopmen's strike.

Up to the time that he was exposed he was "covering" various meetings indulged in conversations with workers and then made reports to his "firm" at the Wabash Bldg., Pittsburgh. He was at one time working in various machine shops, doing some spy work as a sideline. He was preparing to fill out an application to join the Machinists' Union at the time he was "caught with the goods."

Mayers is of German descent, five feet four inches tall, and has dark brown hair.

All workers and labor organizations are cautioned against this spy.

POLICE CHARGE CCNY STUDENTS

(Continued from Page One)

where they were to be defended by Mrs. Carol Weiss King.

The meeting, which had been announced in the morning when 2,000 circulars were distributed about the college, was called to battle against the dismissal of Gerson, president of the Social Problems Club, a student organization which for many years has led the movement to abolish military training at City College.

BUNGE COAL CO. SLAVES DRIVEN 11 HOURS A DAY

Owner Dupes Injured Workers

(By a Worker Correspondent)

CHICAGO, Ill. (By Mail). — The Bunge Coal Co. of Chicago, personally managed by A. J. Bunge, an iron-fisted capitalist of the old school and reputed to be the largest independent coal dealer in this city, owning six big yards, makes huge profits every year out of the most merciless exploitation of its employes.

11-Hour Day.

It would be hard to find another firm, even in this town, which could beat the Bunge company for treatment meted out to its workers. The working day is nominally 10 hours, but is usually nearer 11. The day starts at 6 a. m. with 30 minutes for lunch. The men are supposed to quit at 5.30 but there is no end to the overtime, paid for, in the case of the common laborers, at straight time. Fifty-five cents is the wage for coal shovelers and eighty-one cents for truck drivers with ninety-one cents for overtime.

There are any number of bosses to watch every move of every worker and see that there is never any let-up in the endless shoveling of coal. Spotters and spies are sent out with almost every delivery order of size to see that not a minute is lost in unloading. The latest wrinkle is for every truck driver to be assigned a time card which he must have punched by the customer for whom delivery is being made at the exact moment of arrival and again on leaving to return to the yards. You are put on a time allowance according to the distance you have to drive and the size of your load, and if you return later than the time allowed, you will hear aplenty about it. If you happen to work one half hour overtime, no pay is given you. The full hours only are counted.

The working week consists of 60 hours, but nearly every night there is overtime work for more than an hour.

No Water to Drink.

Not even a water supply is furnished the workers and Bunge himself has been known to allow the workers to get water only with the greatest reluctance. Any worker daring to make the least protest against the inhuman conditions prevailing is instantly singled out and discharged. Hardly any man of over 35 is ever hired. They have to be young to stand Bunge's pace.

The laborers have to pay $25 to join with dues of two dollars a month, the union being No. 701, Chicago, for the coal heavers and No. 704 for the chauffeurs or truck drivers. The union does absolutely nothing about the conditions and the Chicago Federation of Labor might as well be a million miles away for the interest they take in the members. The dues, however, are always collected regularly.

One man, an old employe, had a bad accident a number of years ago and Bunge persuaded him that, instead of paying a lump sum of money, he would give him a life-time "easy job" as soon as he got better. Several months ago this life-time slave, no longer able to keep up the pace and speed-up, was fired by Bunge after working for 38 years. And he had worked hard all that time.

—COAL WORKER.

Frequently Arrested Mill Strike Leaders at Courthouse

Left to Right:—Manuel Pacheco Rapoza, Alphonse Lameiras, William T. Murdoch, John Porterun and Edmund T. Alexander, New Bedford textile strike leaders. In the bosses' attempt to break the solidarity of the strikers, these leading figures in the struggle were placed under arrest several times for "disturbing the peace" by heading picket lines. "Peace disturbance" consists only of singing or whistling labor songs on the picket line. About 40 workers have been arrested and sentenced to heavy fines and long jail terms.

FALL RIVER MILL UNION APPEALS

Police Efforts to Halt Committee Fail

(Continued from Page One)

against the wage reduction they suffered has grown by leaps and bounds since the T. M. C. came to town. This has occurred despite all the city authorities have done with the aid of the officials of the American Federation of Textile Operatives and the United Textile Workers Union.

The call for membership in the Textile Mills Committee declares in part:

"The old wage scale must come back! No compromise. Every worker must organize and be prepared to wipe out these wage cuts. Only the T. M. C. comes with a fighting plan to the workers. The A. F. T. O. officials Tansy & Co., do everything in their power to prevent a strike. The U. T. W. officials, Campos & Co. jump around and do nothing. Meanwhile, weeks go by and the workers suffer more than before.

"Over in New Bedford the Textile Mill Committee has organized the workers and is leading them in a great fight against the bosses there. We must do the same here. The Fall River workers can fight just as the New Bedford workers can. Now is the time to fight.

"The Textile Mill Committee is here to stay. It is growing stronger all the time. Each day workers are coming down to the office at 161 So. Main Street (Room 5) to sign up."

Scientists From USSR May Join in Oslo Meet

Moscow, U. S. S. R., June 15.—The government of the U. S. S. R. has recognized as possible the participation of Soviet scientific institutions in the VI International Congress of Historical Sciences to be held in Oslo in August.

The People's Commissariat of Education and the People's Commissariat of Agriculture will send five delegates to the IV International Congress of Entomologists to be opened in August in the United States. In the last congress, which was held at Geneva in 1925, the Soviet entomologists could not participate for reasons of a political nature.

"Patience" to be Presented by Play-Arts Guild at Ambassador

THE Play-Arts Guild of Baltimore, announces that its Broadway premiere of "Patience," Gilbert and Sullivan's satirical operetta has been set for Monday evening, June 25, at the Ambassador Theatre. This same production played for twenty weeks in Baltimore, the home of the Play-Arts Guild. T. M. Cushing is the director.

During the past two seasons the Guild has established a repertoire of four Gilbert and Sullivan operettas and at the present moment has another—"The Gondoliers" in rehearsal. It is interesting to note that "Patience" was their initial attempt at light opera. All the work of staging this opera was carried on in the Guild's own workshop and studio in Baltimore—and by members of the Guild's own staff.

Mary Bokee, the prima donna of "Patience," made her debut in this opera. Others having principal roles are: Gertrude Gossman, Wilma Lanyon, Margaret Gilner, Donald Kirkley, Burt Royce, Jr., John Head and Edmund Leonard.

David E. Golden, who will make his debut as a producer via "Talked About" by Martin Mooney and Thomson Burtis, is now in the throes of casting the play, which will be tried out sometime in July.

"The Silent House" passed its 150th performance last night at the Morosco Theatre.

Rachel Crothers, the well-known author and playwright, will be in charge of production for the Schubert's next season.

Amy Revere will play the Shirley Vernon part and Bobby Jarvis, last seen here in "The Desert Song," will play the Gus Shy role in the London production of "Good News."

To Report on Congress

PITTSBURGH, June 15.—J. W. Johnstone, who recently returned from the World Congress of the Red International of Trade Unions, held in Moscow, is coming to Pittsburgh to address a mass meeting to be held Wednesday, June 20 at 8 p. m., at the McGeagh Bldg., 607 Webster Ave., 7th floor. The meeting is arranged by the Pittsburgh branch of the Trade Union Educational League.

URGE WORKERS OF WORLD TO FIGHT CHINESE TERROR

Meetings Planned for Immediate Relief

(Special Cable to the Daily Worker).

MOSCOW, June 15.—An appeal to all affiliated organizations to stop the terror now raging against thousands of Chinese workers and peasants has just been issued by the Executive Committee of the Red International of Labor. The torture and slaughter of militants continued unabated, the appeal declares.

British, French, Japanese and American police have seized hundreds of workers during the past few days who are suspected of "Communistic tendencies."

An urgent cry for help has just come from the Chinese trade unions to the international proletariat. A campaign for a world-wide mass relief campaign is urged for the period between the 17th to the 31st of July to help the Chinese workers and peasants.

A Chinese emergency has been proclaimed thruout the Soviet Union, with meetings and demonstrations being arranged in many large centers. Collections of money in the shops and factories are being planned at the same time. A mighty international demonstration of solidarity with Chinese labor is urged.

Aids Soviet Citizens

MOSCOW, June 15.—The Executive Committee of the "Red Cross and Red Crescent Society" of the U. S. S. R. has published a communication on the procedure to be followed by the society for receiving and delivering information connected with inquiries regarding relatives and friends living abroad.

The "Red Cross and Red Crescent Society" will undertake to technically and materially assist citizens of U. S. S. R. in getting sums of money due to them abroad, such as heritage, life insurance premiums, etc., including help to needy citizens by way of advancing to them sums necessary for conducting their case.

Japanese Fascist Government to Inflict Death Penalty on All Communists

FORWARD AGENT JOINS FORCES WITH MINE SPY

Yellow Socialist Paper Upholds Acts

(Special to the Daily Worker)

PITTSBURGH, June 15.—The June issue of the United Mine Workers' Journal prints a statement by Julius Weisberg, Pittsburgh correspondent for "The Jewish Daily Forward," a socialist party publication, which supports the Lewis machine, in which Weisberg attacks the Pennsylvania-Ohio Relief Committee, now the National Miners' Relief Committee. To appreciate this statement, one must know about a certain Halapy.

The miners of district 5 are well acquainted with the name of Mike Halapy. This gentleman has been an official of the U. M. W. A. and in good graces with Lewis' official family. Halapy, at this moment, is alleged to be working for the Pittsburgh Coal Company, which is leading the present drive to smash the miners' union. Mr. Halapy is playing a leading role in helping the Pittsburgh Coal Company carry out its plans. But what about Mr. Julius Weisberg, where does he come into the picture?

"Great Friends."

Well, it seems that Weisberg and Halapy are great friends. On May [illegible]th and 29th the miners of district [illegible] held a convention in Pittsburgh at which Mr. Fagan, the machine president of district 5, and his entire administration were counted out of office. New officers were elected, who truly represent the rank and file, with Fred Siders at the head of the district. But again we ask what about Mr. Weisberg? It is a common truth that everyone knows two great friends when he sees them. During the entire convention these two, Mike Halapy, and Julius Weisberg were not separated for one moment. They came together, sat together, chummed together, went out to eat together and came back together. Indeed, their great friendship was so noticeable that miners who know Halapy came to the committee asking whether Halapy's friend works for the Pittsburgh Coal Company also. The Committee explained that Mr. Weisberg is the official representative of the socialist paper, "The Jewish Daily Forward."

What Is in It?

At the same time we would like to know what the relations between Mike Halapy, a stool-pigeon for the Pittsburgh Coal Company, and Julius Weisberg, the Forward representative, really are? Whatever the answer to this question may be we are certain that Mr. Weisberg and Mr. Halapy are not conspiring together to improve the condition of the miners and help build up again the miners' union.

FUR JOINT BOARD WINS IN STRIKE

While the dual right wing furriers Joint Council, established by the American Federation of Labor officials, is being torn by dissensions marked by increased bitterness, the left wing Joint Board Furriers Union is successfully carrying on its campaign to improve conditions in the shops. This has been proved by a general wage raise of $7, $8 and $9 won in a shop by 20 workers after a strike lasting three days.

The strike in the shop had been called after it was discovered that the employer, dazzled by the opportunities for greater exploitation which a shop of registered workers offered him, had ordered his workers to register in the fake right wing union. After three days of energetic picketing the firm, The Mitchell Fur Co., 305 Seventh Ave., it was compelled to ask the Joint Board for a settlement.

In the meantime the right wing group in the Joint Council, which is completely dissatisfied with the open shop conditions in the trade, are making sharper and sharper attacks against the Stetsky-McGrady clique, for having broken the once powerful Furriers' Union.

British Textile Wage Cut Parley Deadlocked

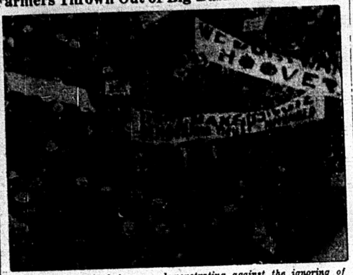
MANCHESTER, Eng., June 15.—The long drawn out negotiations going on between the employers and the representatives of the textile finishers' union ended yesterday without a settlement of the wage dispute being reached.

The mill owners still insist on a wage slash. The union officials have till now been prevented by the membership from making any concessions, under the threat of the workers to fight the reduction regardless of negotiation decisions.

GERMAN BOURSE SAGS.

BERLIN, June 15.—Wall Street cast its shadow on the Berlin bourse this week, prices slumping generally as the New York market sagged.

Farmers Thrown Out of Big Business' Convention



Several hundred farmers, demonstrating against the ignoring of their demands by the representatives of big business, were twice thrown out of the republican convention in Kansas City. The protest movement among the farmers which was captured by one set of republican politicians for their own ends, was originally advertised as mobilizing 100,000. Their demands were ignored in the republican platform. Telephoto above shows the farmers storming the hall. But the storm was controlled by fakers, who held out the false hope that the farmers might possibly gain something from the party of Coolidge and Wall Street.

WORKERS CALENDAR

Correspondents Attention!

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

• • •

Youth League Aids Strike.

BOSTON. — A special membership meeting of the Young Workers (Communist) League of Boston will take place Saturday at 7 p. m., at the Roxbury League Headquarters International Hall, Roxbury.

The New Bedford League members who are active strikers have been especially invited to attend this meeting as the question discussed will be on the New Bedford strike campaign.

• • •

Philadelphia Workers' Defense.

PHILADELPHIA. — The Downtown and West Philadelphia branches of the International Labor Defense will be reorganized Monday, the Downtown branch at 8th and Rittner Sts., and the West Philadelphia branch at the Progressive Library, 4035 Girard Ave. Thomas and Olkin will speak.

• • •

District Y. W. L. Anniversary.

BOSTON.—District 1 will hold a truck party and picnic Sunday, June 24, at Vankens farm, Cushing St., Hingham,

Pittsburgh District Picnic.

PITTSBURGH, Pa.—The third annual picnic of the Workers (Communist) Party, District 5 has been postponed from July 4 to July 8. It will be held at Nicholson Farm, Swissvale, Pa.

• • •

CLEVELAND.—Wednesday, June 20, all three sections of the Workers (Communist) Party of Cleveland will hold section membership meetings. Section 1 will meet at the Hungarian Home, 4309 Lorain Ave., Section 2 at South Slavic Hall, 5607 St. Clair Ave., and Section 3 at Workers Home. There will be no general membership meeting that night. The election campaign will be organized at the section meetings.

• • •

Miners' Relief Picnic.

DETROIT.—The Italian fraction of the Workers (Communist) Party in Detroit is arranging a picnic for the support of the striking miners Sunday, at Dequindre St. and Nine Mile Road.

• • •

On the Labor Congress.

Following are the dates thus far announced for the tour of Jack Johnstone, of the Trade Union Educational League, to report on the recent Fourth Congress of the Red International of Labor Unions.

• • •

Philadelphia, Sunday, June 17, Grand Fraternity Hall.

Pittsburgh, June 20, 607 Webster Ave.

• • •

CHICAGO.—A concert will be given by Section 4 of the Workers (Communist) Party at Freiheit Hall, 3301 W. Roosevelt Rd., this evening.

• • •

San Francisco Y. W. L. Festival.

SAN FRANCISCO.—The Young Workers (Communist) League will celebrate the sixth anniversary of the founding of the league with a demonstration at the Youth Festival, tonight, at Gymnastic Hall, 2460 Sutter Ave.

• • •

Roxbury Carnival and Ball.

ROXBURY, Mass. — The Massachusetts campaign committee for a workers' children's camp has arranged a carnival and costume ball, to be held June 23, at the New International Hall, 42 Wenonah St., here. The proceeds will go to the camp fund.

• • •

Cleveland I. L. D. Picnic.

CLEVELAND. — The International Labor Defense has arranged a picnic for the miners' defense to be held June 24, at New Sachsenheim Gardens, 7001 Denison Ave. There will be speakers, music, and refreshments.

• • •

Shachtman China Lecture Tour Dates

Sunday, June 24, Passaic, N. J. Workers' Home, 27 Dayton St., 7:30 P. M.

USSR to Provide Land For Jewish Families

MOSCOW, U. S. S. R. (By Mail). The Presidium of the All-Russian Central Executive Committee has decided to allot land for the settlement of Jewish families in the Birsk-Bidjany district, in the Amur region of Eastern Siberia. It is proposed to settle 35,000 families in that district.

The general plan, as approved by the Soviet government, provides for the migration and settlement of 100,000 Jewish families in the entire Soviet Union.

So far, over 15,000 families have been settled and provided with land.

SCHOOLS LINKED WITH UTILITIES

Extensive Propaganda in All Fields

WASHINGTON, June 15.—Texas utilities interests are thoroughly "contacted" with all colleges in their territory and are influencing them to adopt their views against municipal ownership, the Federal Trade Commission learned today in its power investigation.

C. W. Davis, of the Southwestern Public Service Association, testified that the "educational system" has been propagandized by the association, by introducing speakers of the organization into all high schools and colleges in the territory.

Examination of William C. Grant, director of the Texas Public Service information bureau, revealed an extensive propaganda campaign reaching thru newspapers, schools and the public rostrum.

ARGENTINE PAPER HITS MUSSOLINI

BUENOS AIRES, June 15.—The conservative "Razon", the most important evening paper of Buenos Aires, publishes a long article answering the threats of the fascist press of Italy, particularly the article of Arnaldo Mussolini, in the 'Popolo d'Italia', published in Milan, which attacked Argentina as an enemy of Italy because it shelters anti-fascists.

The "Razon" answers by calling the article "excessively arrogant, and inopportune" and rejects the "veiled threats" against Argentina, and the attempt to make the Argentine government responsible for the recent bombing in the Italian consulate in Buenos Aires. The "Razon" points out that such bombings are possible not only in countries which give refuge to the anti-fascists but also in the countries where they are most persecuted, as for instance in Milan.

1 Woman Worker Dead, 3 Others Burnt in Fire

WEYMOUTH, Mass., June 15.—One woman was burned to death and a number of other persons sustained injuries and burns in a fire which razed the Colonial Manor, an inn here, early this morning.

The dead woman, Mrs. Annie Olsen, was employed as a dishwasher by the hotel. Mary Murdock, a waitress sustained a broken leg and dislocated shoulder in jumping from her room.

STREET GRAFTERS IN NEW YORK CITY UP FOR SENTENCE

Tammany to Go Easy on Own Henchman

The center of activity in the Tammany street cleaning graft scandal shifts back into the Bronx County Court today, when three payroll padders are to be sentenced and two men charged with the same offense arraigned.

Although the graft operators in the Bronx will hold the center of the stage, others in Manhattan and Brooklyn will play parts in the day's graft presentation.

In Manhattan, two indictments against minor employes of the 116th Street Stable understood to have been voted by the New York county grand jury are scheduled to be handed up to Judge Morris Koenig in General Sessions this morning. The indictments, it was said, have been drawn up, but for some unexplained reason were not returned in open court yesterday according to program.

The three men to appear before County Judge Albert M. Cohn for sentence are William J. Lougheed former foreman of the Cromwell Avenue Garage, and his assistant Benjamin Stoeber, both of whom pleaded guilty to first degree grand larceny charges, and William J. Oswald, district superintendent, convicted largely on the testimony of the first two.

SEWER GRAFT NOW COVERS FIVE UNITS

Only Small Area Has Been Covered So Far

The number of units of the Street Cleaning Department in which evidences of graft in padding of emergency laborers' payrolls and forging of checks made out to fictitious laborers has thus far been discovered by the several investigations into swindling in the department today had mounted to 5, of which 3 are in Brooklyn and 1 each in Manhattan and the Bronx.

Six indictments have been found in the Bronx, 2 are expected today in Manhattan and 3 others will probably be found in Brooklyn by the end of the week.

These 11 accusations of criminality, it is pointed out by the investigators, cover only one phase of the various kinds of grafting believed to have existed for many years, and affect only a small section of the area in which according to the knowledge now in hand, swindling of public funds has been going on.

ADD PIECE WORK TO GRAFT IN ACW

In face of the recent exposures of graft in the New York Joint Board of the Amalgamated Clothing Workers' Union, Sidney Hillman, president has refused not only to halt the sellouts for graft, but is preparing another betrayal of the union membership by taking the first steps to bring into all the New York shops the sweat shop system of piece-work.

This he is doing by calling together a meeting of the executive boards of the New York men's clothing makers' locals and proposing a series of measures whereby the system of piecework would be installed in all the shops of the inside manufacturers.

Due to the intense resentment of the membership against the grafting officials of the Beckerman machine and the imminent installation of the piece-work system, Hillman may ask for the resignation of one or two minor agents of the three grafters whom he was compelled to dismiss. He refuses, however, to take cognizance of the fact that the graft ring in the knee pants trade board could not have existed without the knowledge and active assistance of the higher-ups in the Beckerman machine of the Joint Board.

Interboro Train Worker Killed in Collision

Thomas F. Gillick, 21, of 1191 Clay Ave., the Bronx, an Interborough subway switchman, was crushed to death Wednesday when an empty 10-car train he was piloting, crashed into the rear end of another unoccupied train.

The first train, operated by Peter Mack, of 1520 Park Ave. had started for the station but had stopped in the middle of the track. Gillick failed to see the signal because of the mist that hung over the elevated structure, and drove his train head on into Mack's train.

School Children Injured by Runaway Truck

A runaway motor truck speeding down Claremont Parkway, the Bronx, injured a group of children on their way to school.

Picture shows one of the injured children, Matilde Ladutschko, nine, having her leg bandaged by her brother Henry.

ASK INJUNCTION TO 'FIGHT' BOSSES

Upholstery Union Chiefs Apply for Writ

Another set of officials in the "union business" is applying for an injunction to order employers to please refrain from breaking the agreement with the union. This new "request" was made by Local 73 of the Upholsterers' Union which filed an application in the supreme court Tuesday, to restrain the Continental Upholstery Co. from sending work to the non-union Aerial Upholstery Co.

This type of "militant unionism" is a well-established practice among the bureaucrats in control of this organization. Besides giving justification for the vicious anti-labor injunctions increasingly handed out by the judges, who say that unions only shout against injunctions when it hurts them, the union membership shows that the only result of "court unionism" is the speedy exhaustion of union funds.

START NEW ANTI-IMPERIALIST UNIT

Los Angeles Conference Tonight Will Organize

LOS ANGELES, June 15.—Delegates from local trade unions, fraternal and anti-militarist organizations will meet here tomorrow to take up means of organizing resistance to the Wall Street war against Nicaragua and set up a permanent Los Angeles branch of the All America Anti-Imperialist League (U. S. Section). The conference will meet at Cleveland Hall, 730 S. Grand Ave. and is expected to attract representation of important labor organizations of the community.

The Los Angeles Central Labor Council has elected three delegates who will represent it officially. Edith Berkman is provisional secretary of the conference.

The Los Angeles Provisional Committee signing the call for tomorrow's conference includes: Pablo Manlapit Filipino labor leader; Lew Head chairman, Progressive Club; Dr. Clinton J. Taft, director, Civil Liberties Union; Robert Whitaker, co-editor Open Forum; Mrs. Genevieve Mott-Smith, vice-president, Women's International League; Dr. James Keown; E. J. Sullivan, Painters Union No. 511; J. T. Hemmings, secretary Millinery and Capmakers' Union No 26; Julius Reese, Carpenters' Union No. 1976; M. Herman, secretary, I. L G. W. U. No. 52; Mrs. Fanny Bixby Spencer, prominent anti-militarist; Mrs. Lona Ingham Robinson, president, Women's Shelley Club.

Newark Plans Collection for Miners Relief Fund

NEWARK, N. J., June 15. — The Newark National Miners Relief Committee will hold a house to house collection on Saturday and Sunday, June 16 and 17. Headquarters for the collectors will be the office of the committee at 57 Broome St., top floor, room 2. The Newark Committee, which has already sent over $2,000.00 for the miners' relief, is still carrying on its work and will carry on to help the striking miners until they force the bosses to terms.

Renewed appeals have been sent for help to the miners. The miners are literally facing starvation unless the workers keep on sending in relief. Every worker and every sympathizer is expected to report on these two days to take part in the house to house collection. All organizations should see to it that their members are present.

Child Labor Grows

Only 14 states now require children to complete the 8th grade in school before a regular work permit will be issued to them.

KATE GITLOW TO BE HONORED HERE

Veteran Organizer Back From Soviet Union

Kate Gitlow, veteran Communist organizer, will be the guest of honor at a banquet given her by the United Council of Workingclass Women at Manhattan Lyceum, 66 E. 4th St., Saturday evening, June 23. She has just returned from a six months' visit in the Soviet Union.

At the banquet she will report on the progress of working women in European countries, and particularly in the U. S. S. R.

Works on Soviet Union At Oakland Book Shop

OAKLAND, Cal., June 15.—A new lot of books dealing with the economic and political life of the Soviet Union has just been received by the Workers Book Shop, 2123 Telegraph Ave., here. These books are expected to still further strengthen the position of the Workers Book Shop as the only book store in the East Bay district where books and pamphlets dealing with the economic and political situation in most of the European countries, as well as China and the United States, can be found.

The Workers Book Shop also carries the most important books and pamphlets dealing with the labor movement in this country. The shop is open daily from 12 to 8 p. m.

Cigar Union Dwindles

ST. LOUIS, June 15. — Union cigarmakers in St. Louis, once numbering 1,200, now total 300.

MILITARISTS FEAR MILITANTS WILL AROUSE WORKERS

Proposal Follows Many Demonstrations

TOKIO, June 15.—Acting on a proposal made by the Japanese militarist cabinet, measures will be taken, it was announced yesterday, to change the punishment of members of the Japanese Communist Party convicted of "conspiring against the state" from ten years in prison, to the death penalty.

Since according to law this measure would have to wait several months until the next session of the Diet, the cabinet submitted its proposal today to the Privy Council, which has appointed a committee to "examine" it. This haste on the part of the cabinet, which desires to have the revised law promulgated immediately by imperial ordinance, is believed to be the result of demonstrations held recently thruout Japan in protest against the Japanese imperialist policy in China. The Communists have taken the lead in arousing the oppressed workers of Japan.

Soviet Scientific Body Increases Membership

MOSCOW, USSR., June 15.—At the plenary session of the central council of the section of scientific workers Mr. Oldenborg, permanent secretary of the Academy of Sciences of the Soviet Union made a report on the activities of the academy.

The fundamental work of the academy consists in the study of the natural resources and productive forces of the country, geographic and ethnographic studies, the organization of research expeditions, promotion of academic laboratories, organization of museums and scientific exhibitions. These museums and expeditions are meant not only for keeping scientific collections, but they are institutions of a scientific and educational nature.

The Academy of Sciences has connections with 1,700 geographic and ethnographic institutions. During the years of revolution, the academy organized as many as 300 research expeditions.

According to the new statute of the Academy of Sciences, approved by the government of the USSR, the total number of members will be raised at the pending elections to 85.

Capitalist Efficiency Politics

The republican convention was surely the most remarkable example that has yet been seen of efficient "trust" methods in politics.

The most colossal merger of banking and industrial interests that has ever acted with a single purpose planned the course of the convention and dictated its outcome with almost that precision which is attained in the construction of a fifty-story skyscraper in New York.

Now that Hoover is put over as candidate there are two main jobs for the great engineering concern of Wall Street to go through with—first to cover up completely, in the eyes of the masses, the fact that Hoover is manufactured in Wall Street, and, second, to nominate (at the democratic convention) a fitting alternate for Hoover with the assurance that if accidents make Hoover's election difficult the democratic alternate of Wall Street's choice will go through.

A remarkable editorial which appeared Friday morning in the string of Scripps-Howard newspapers is a model of the highly skilled journalistic lying with which this job will be completed. The 26 newspapers, including the New York Telegram, but consisting largely of the "liberal" small-town type of papers, were recently enlisted as a bloc in the service of the Hoover campaign. Obviously it was an arrangement to "sell" the fat Wall Street candidate to the Middle West where the selling could be done only by this type of paper.

Speaking of the most completely boss-controlled convention ever seen, and in which the agents of these bosses with perfect adroitness controlled and diverted the "farm revolt" into their own mill-race this editorial says:

> **Conspiracies of party bosses could not use the legitimate farm revolt for their selfish purpose. Financial interests could not kill the candidate they feared.**

Speaking of a man who for eight years conspired with the Harding-Coolidge gang as a member of the cabinet to protect the Teapot Dome plunderers, it says:

> **Hoover has come none too soon. His historic and once-proud party is rotting with corruption. His predecessors have failed to check this ravage of the vitals of government by predatory wealth, theft and sale of public resources, pollution of the polls by officials whom it has not disavowed.**

To cover up the significance of the fact that Hoover and Curtis were put over by the Wall Street "interests" and the gang of bosses the editorial says:

> **From this day forward Hoover will be under pressure from the bosses and the interests. They have fastened themselves on him. Failing to destroy him, they crawled to the winning side. Some tried to change their spots before and others during the convention. Now they claim credit for his victory. They plot to share the fruits thereof.**

And then, in recognition of the fact that Wall Street, through its certainty of nominating another agent, Smith, in the democratic convention, is insured against any losses in this election, the Scripps-Howard editorial continues:

> **Hoover, in all probability, will go out to meet a fair and worthy opponent, Alfred E. Smith. Differing in type, in heritage and in party, they share a common character and consecration to duty.**
>
> **Rarely has this nation been more fortunate in both its party leaders. Never has it needed such leadership more.**

But, registering Wall Street's policy of avoiding any unnecessary break in the continuity of the bureaucracy:

> **In this era, when the increasingly complex domestic and foreign problems of our government are those of social engineering, we believe that Herbert Hoover is better fitted by training and experience for the presidency than is Smith.**

And then the final demagogic flourish for the benefit of the small-town "democracy". Of the Wall Street "social engineer" whose function is to crush out the last remaining shreds of what capitalism calls civil liberties, to consolidate the rule of finance capital, to steer this rule through the process of expropriation of the small farmers, to fasten the open shop and gunman control over the entire labor relations of industry, and to lead the most gigantic military power of all history in world conquest, this "liberal" editorial says:

> **Will he restore civil liberties?**
>
> **Will he guard the public resources, and curb the encroachments of financial and giant power interests?**
>
> **Will he give to our farms an economic equality with industry?**
>
> **Will he mitigate unemployment resulting from maladjustments of the machine system and widen the opportunity of labor to share the fruits of its toil?**
>
> **Will he renounce the imperialism which preys upon weaker countries?**
>
> **Will he keep the peace in the family of nations by justice toward others, by patience when provoked, and by lessening the economic and political conflicts which cause wars?**
>
> **We have faith in Herbert Hoover.**

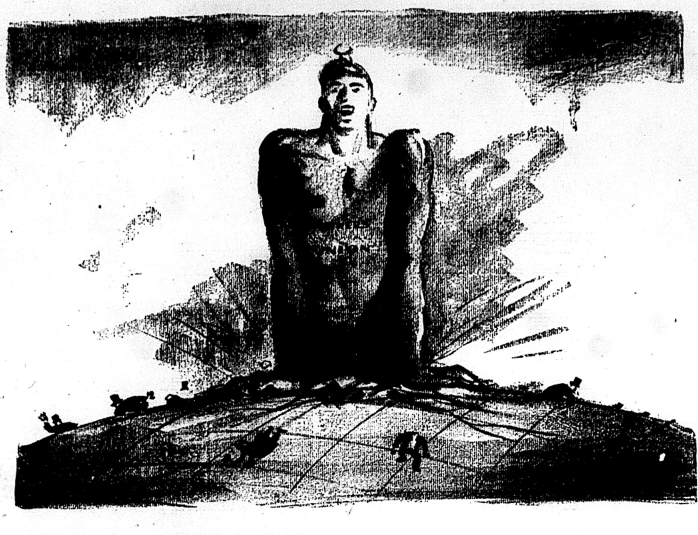
This is indeed the triumph of American capitalist efficiency. The advent of Hoover at the head of the classic political party of capitalism, is an omen for the American working class of not only the sharpest regime of strike-breaking, union-smashing and political repression, accompanied by ruthless expropriation of farmers,—but also the most efficient methods of such activities of the capitalist government ever known in history.

Hoover is capitalism's efficiency engineer. Smith is his alternate.

Vote Communist!

HAIL THE NEW UNION!

By Fred Ellis



Growth of Soviet Trade Unions

The following is from "Soviet Trade Unions," by Robert W. Dunn, published by the Vanguard Press.

* * *

THE Russian trade unions are comparatively young organizations. Capitalism got a very late start in the Russian Empire and the protective organizations of the workers were correspondingly late in making their appearance. Among the Russian trade unionists of today there are very few old workers who can share reminiscences about the early struggles of the unions as such. But you will find many who were active in the work of the Social Democratic Labor Party and who participated in spontaneous strikes before 1905 and in the difficult illegal political life of those days. If the Russian trade union leader has a "past," it will be largely a political rather than a union one. For the former was the dominant form of organization in the early days.

Beginning with the seventies and eighties of the last century the workers did resort to sporadic strikes. The leaders of these strikes were usually connected with some revolutionary party such as the Social Democrats. Such strikes, although often surprisingly widespread considering the small organization behind them, were usually crushed by the police and the leaders imprisoned or exiled to Siberia. There were thus strikes and struggles of the workers but not real unions. Mere membership in an organization was a crime. Clause 318 of the Russian Criminal Code of 1874 read in part:

"Persons accused of belonging to societies having the aim of rousing hostility between employers and workers as well as provoking strikes are liable to imprisonment for eight months with deprivation of rights and property and exile to Siberia."

In spite of this, however, there were underground workers' organizations with a political leadership. They collected strike funds and were capable, under favorable conditions, of calling widespread strikes. The mere distribution of a leaflet by such a group often resulted in a city-wide strike, even though only a handful of workers were members of the secret organization. These strikes were frequently effective in forcing the government to pass some law slightly reducing the hours of work for women and children or in getting other legislative crumbs calculated to keep down discontent.

Although the government promptly suppressed any organization that resembled a union, it permitted, under rigid supervision, the existence of mutual aid societies, credit organizations, sick and death benefit societies and similarly named fraternal bodies. These organizations were intended to have no relation to the economic or political struggles of the masses, and, if they showed any suspicious activity, were immediately disbanded by the police. Such societies were particularly popular among the printing trades.

Mention should also be made of the "legal" labor organizations sponsored by the police to combat the subversive, revolutionary influence of underground radical groups. The purpose of these police unions was to keep the attention of the working class centered on non-political and non-economic matters such as mutual aid and burial benefits. Unfortunately, however, from the point of view of the czarist government, these bodies frequently became centers for economic demands and even for strikes, and although fostered by the police to offset the influence of revolutionary groups, they ended by taking part in the agitation leading to the attempted revolution of 1905 and the labor outbreaks which accompanied it.

1905 and After.

Real unions came into existence with the uprisings of 1905. They were formed in practically every large town and city in the empire. Organizations previously underground appeared on the surface. A wave of strikes, led in part by these unions, swept the country. The revolutionary parties took the leadership in these strikes and did their utmost to strengthen and build substantial unions, making them the organs of political agitation.

The first All-Russian Trade Union Conference, composed chiefly of delegates from Moscow unions, was held in that city in October, 1905. Organizations, no matter what their names, that were "directly or indirectly fighting capital" were represented at this conference. It organized a Moscow District Bureau and a Central Bureau for the calling of a second conference which was held in 1906. This conference, with representatives from more than ten cities, reported that some 200,000 workers had been organized. It went on record in favor of continuing to form bona fide bodies independent of police persuasion. It also advocated the "one shop, one union" principal which was later to become the prevailing form of organization after 1917.

The Revolution of 1905 was drowned in blood and the labor union movement which had just gotten on its feet during the struggles was again driven underground and suffered the terrible vengeance of the monarchy. A period of severe repression set in. According to Losovsky, "The unions were prohibited from assisting strikers; they were closed down for attempting to intervene in the great strike movement; members of the executives were arrested and exiled to Siberia, funds were confiscated and books taken to the police stations; police were present at all meetings, which were closed down on the slightest pretext, and, very often, without any reason at all ...the iron fist of the victorious reaction ruthlessly crushed the labor organizations at their birth."

The czarist police reported in 1907 that it had closed down one hundred and seven unions. Some of the reasons given for their suppression shed light on the conditions prevailing under the Romanoffs. Unions and workers' societies were closed by the police for (1) Advocating strikes, (2) Participating in strikes, (3) Attacking employers in the press for discharging a union member, (4) Political unreliability of certain members of the society, (5) Participation of the members in political propaganda, (6) Distribution of revolutionary manifestos, (7) Discovery of socialist pamphlets in the dining room of a society, (8) A telegram to the second Duma promising to rise in its defense, (9) Opening of libraries without the permission of the police, (10) Passing resolutions for the celebration of the First of May, (11) Greeting the Social Democrats in the Duma, (12) Convening general membership meetings without police permit, (13) Collecting money for unspecified purposes.

As a result of this systematic suppression by the police the union movement declined, and almost disappeared from sight during the years 1908 to 1911. But in 1912 and 1913, just before the outbreak of the World War, revolutionary and strike agitation became more intense. This wave of organization was met by the government and the employers with ruthless measures of repression. Spies and provocateurs unearthed the secret meeting places of the unions. Their members were discharged and blacklists were drawn up. Cossacks rode into picket lines and demonstrations just as they had in 1905. From 1914 on, soldiers stood over the workers in the shops to prevent any organization, especially among the industries manufacturing war materials. The unions were thus practically wiped out again and it is stated that there were not more than 1,500 members in what we would call real labor unions in all Russia in the winter of 1916-1917.

(*To Be Continued.*)

Christian Civilization Has Shown Its Colors

By SCOTT NEARING

CHRISTIAN civilization showed its true colors in the African slave trade,—greed, ferocity, callous indifference to human suffering, self-righteous piety.

Scott Nearing

The Portuguese began the slave trade about 1450. At that time their merchant ships brought six or seven hundred Negroes each year from Africa to be sold in Western Europe. Slaves were still luxury. There was no considerable industry in which they were employed. For the most part they were house or body servants, adding to the distinction rather than the wealth of their masters.

* * *

After the sugar planting began to succeed the Company of Royal Adventurers Trading Into Africa was started in 1662. The Queen Dowager and James II of England both took stock in the company, which contracted to deliver 3,000 African slaves per year to the British West Indies. Under the treaty of Assiento (March 13, 1713), British traders and American colonists agreed to furnish slaves to the Spanish West Indies, who were to take 4800 Negroes a year for 30 years. In return the Royal Company agreed among other things to pay a quarter of its profits each to the Spanish and English kings.

Thus the royal houses in Europe, ruling by the grace of God, not only protected the slave trade but profited directly from it.

* * *

FOR a time the Portuguese and Spanish traders, representing the two great Catholic countries of Western Europe, held a virtual monopoly on the slave trade. During this period the Roman Church as well as European royalty were directly allied with the traffic in Africans.

The Protestant God as well as the Catholic God took a hand in the business. J. C. Spears in his American Slave Trade quotes a bill of lading of the Sierra Leone, a Yankee slaver of the middle of the 18th century, "shipped by the grace of God in good order and well conditioned" . . . rum, rood and shackles and other necessary materials for the slave trade . . . "and so God send the good schooner to her desired port in safety. Amen."

* * *

Spears tells the story of one good New England elder whose ventures on the slave coast had uniformly turned out well. He "always returned thanks on the Sunday following the arrival of the slaver in the harbor of Newport that an overruling Providence had been pleased to bring to this land of freedom another cargo of benighted heathen to enjoy the blessings of gospel dispensation."

Slavery at the beginning of the 19th century was widespread. English colonies held 800,000 slaves, French 250,000, Danish 27,000, Spanish and Portuguese 600,000, Dutch 50,000, Swedish 600. There were also about 2,000,000 slaves in Brazil and 900,000 in the United States. Christendom was building its prosperity on the African slave trade.

* * *

At this period the slave trade was important and profitable. The traders in every important mercantile country were competing for it with the active assistance of their political governments. "In Liverpool it made millions, and elsewhere in England, Europe and New England it brought prosperity not only to ship owners but to the distillers of rum and the manufacturers of other trade goods." (Phillips, American Negro Slavery.)

FROM these beginnings in the middle of the 15th century until the Proclamation of Emancipation in 1863, 400 years later, slavery was one of the principal sources of wealth among the Christian nations. Millions of Africans were torn from their homes, villages were devastated and turned back into wilderness, but the plantation owners of the Americas got their labor and the rising trading class of New England, New York and Europe their profits. Samuel Hopkins is quoted by Spears as stating that Rhode Island alone had 150 vessels in the slave trade in 1770. In 1787 Hopkins declares that "this trade in human species has been the first wheel of commerce in Newport, on which every other movement in business has depended . . . By it the inhabitants have gotten most of their wealth and reihes."

HANdOuTS

OVERCONFIDENCE in the average legionnaire's capacity for mental calisthenics is suggested in the following lines by Frederick Palmer in the American Legion Monthly:

"Among the delegates to the great political conventions will be legion members back of every candidate presented. Each legionnaire by completely divorcing his Legion self from his political self will be able to make his party's rule the better for the nation—thus holding the respect which he most prizes, that of his fellow legionnaires. As a legionnaires he may sit in only one national convention this year, that at San Antonio."

* * *

There is a campaign on foot by the militarists to persuade the sons of deceased war veterans to go to West Point and Annapolis, in accordance with a bill passed by the government. Boys who grew up without fathers may now be able to fix it so that their own sons may have the same advantages.

* * *

Swaggering pretense and insulting lies born of avarice are seen in the spacious advertising of the capitalists. Joe Cook, star of Rain or Shine, in order to raise a few extra dollars with which to buy Melachrino cigarettes, allow his name to be added to the following prize balogna:

"I thank good old Lucky Strikes for helping me to be versatile. I smoke Luckies all the time. They keep my voice clear and have never affected my wind. These are two assets of vital importance in my work. And that is why I can imitate four Hawaiians."

* * *

An infallible method of beating the ponies is by padding payrolls, according to William J. Oswald, indicted Tammany district street cleaning superintendent of the Bronx. Oswald declared that the "horses" never failed to win. Lougheed, his subordinate, agreed on the winnings but insisted on the padded payrolls as a more certain source of revenue.

Without quite saying so Oswald implied that his almost perfect record with the race horses was a result of his churchly ways. Oswald is a choir singer and regularly can be heard to warble:

"Let's all stand up for Jesus, we'll all stand up for Jesus."

Whereupon Oswald would go out to get a few more names to stand up on the payroll.

* * *

Learning Politics

Clarence Chamberlain (Right), transatlantic flyer, has recently been appointed city's air chief and will direct the construction of the city airport. In picture above one of the city officials is initiating him into the political mysteries of a metropolis and giving him lessons on how to deport himself as a political figure in a big city. Chamberlain is expected to attend the summer semester at Tammany college and take the full course in contract grafting. He may be given the privilege of having Mrs. Knapp as a private tutor for the rather knotty subject of payroll padding. He will then study at first hand the methods used in the great Bronx street cleaning experiment about which the whole world is talking. He will finish up with a post-graduate course in Queens sewer scandal. He will then be ready to take his place in the city hall. Even though he will be among more experienced men he won't have to feel ill at ease or ashamed of his ignorance.

* * *

A SUDDEN swing way from greed toward magnanimity on the part of the employing class is noted in the following virtuous words of Roe Fulkerson, labor exploiter:

"Unfortunately, many of us mistake the constituents of happiness. We think happiness consists of getting things; houses, lands, bonds, automobiles or what not. These are but dreams, airy piffle which, when acquired, become masters instead of servants."

* * *

MUSSOLINI is still running around belligerently trying to intimidate every worker in Italy into having more children. The workers are kicking.

An Italian paper has figured the cost of supporting a family of five, which Mussolini thinks should be the average. The cost of just keeping a family alive is set at $65 in American money. The average worker gets the equivalent of $32 per month. Evidently Mussolini doesn't realize that the raising of children depends on other things besides virility.

JA[illegible]N READY TO H[illegible] MANCHURIA AGAINST CHINESE

Raises Fortifications at Strategic Points, Will Close Door of Great Wall

Position Will Be Defended "At Any Cost," as Protectorate Is Announced

DARIEN, Manchuria, June 17.—Japan will hold Manchuria under a virtual "protectorate," it was semi-officially declared here yesterday and a warning amounting to a war threat was issued against any attempt to dislodge her.

The warning couched in the phrase that Japan will maintain peace in Manchuria "at any price" was issued by Yousuke Matsuoka, vice-president of the South Manchurian Railway, an official long connected with the Japanese foreign office at Tokio, and now holding a sort of unofficial post representing the Tokio government here.

Prepares for Siege.

Japan has been active during the past week strengthening a number of strategic points which she will hold against attack. Preparations for closing the Great Wall at Shanhaikwan, at the eastern end, have already been made. Other preparations against attack are being rushed frantically by Japanese military officials.

While stating that these efforts are being directed against the threatened advance of the so-called Nationalist forces which recently marched into Peking, Matsuoka's declaration raised the further question of whether Japanese preparations are in accord with understandings with other imperialist powers for cooperation against China.

Referring to the Japanese position

GOAL OF "DAILY" MUST BE REACHED

$1,676,47 Is Urgent at Once in Crisis

On Saturday the sum of $741.86 was received at the business office of The DAILY WORKER from loyal readers who have vowed to keep the paper from destruction. In spite of the generous response of the DAILY WORKER army, a considerable amount is still necessary if the paper is to remain alive. In order that the goal of $10,000 be reached—a sum which must be paid to the paper's creditors—$1,676.47 must be raised at once.

Following are the names of the militant workers, who contributed on Saturday:

Jacob Maximovich, Detroit, Mich., $5; A Group of Cloakmakers, Los Angeles, Cal., $6; Branch 5, Sec. 5, Bronx, N. Y., $13.75; Section 5, Branch 4, Bronx, N. Y., $70; Section 5, Branch 3, Bronx, N. Y., $8.75; Branch 2, Section 5, Bronx, N. Y., $14.50; C. J. Bryan, Clifton, Ariz., $2.50; Greek Fraction, Detroit, Mich., $10; Ukrainian Women's Assn., Detroit, Mich., $15; Anna Oster, Chelsea, Mass., $1; J. F. Hancock, Kenilworth, Ill., $2; Frank Schuch, Los Angeles, Cal., $2; W. P. Crow (San Pedro Nucleus), San Pedro, Cal., $10; David Applesture, Santa Cruz, Cal., $5; S. Sussman, Chicago, Ill., $1; Chelsea Mothers' League, Chelsea, Mass., $5; Sec. 6, Unit 1, Boston, Mass., $15.50; Section 1, Unit 2, Boston, Mass., $5.50; Peter Skrtic, Pittsburgh, Pa., $1; Frank Peterson, Stratford, Conn., $2; W. D. Corkey, Toledo, O., $5; C. Benson, Bklyn, N. Y., $5; R. Askinasi, NYC, $2; M. H. Powers, St. Paul, Minn., $1; Carl Pelibiaso, Massena, N. Y., $3; I. Pollack, Jersey City, N. J., $5; S. Tomshewski, Pittsburgh, Pa., $2; Riva Weissman, Bklyn, N. Y., $3; Dr. M. J. Kostrzewski, Chicago, Ill., $10; Hyman Rubin, Philadelphia, Pa., $2; Anthony Galamant, Nanticoke, Pa., $2; Wm. M. Coatley, Pittsburgh, Pa., $1; Viola Dehn, Knoxville, Tenn., $2; S. Gallen, Dorchester, Mass., $3; Mary Prosor, Newark, N. J., $7; S. Antoniades, Chicago, Ill., $3; Jos. Zemoitis, Waterbury, Conn., $5; George Sapoeru, Baltimore, Md., $2; Pete Saponru, Baltimore, Md., $2; Tommy the furrier, Baltimore, Md., $1; P. Yankoss, Syracuse, N. Y., $5; P. P. Bialys, Chester, Pa., $2; I. Ruderman, E. Orange, N. J., $1; John Lobay, Philadelphia, Pa., $3; Frank K. Onishi, Chester, Pa., $4; Joe Zenchak and Eva Lalich, Detroit, Mich., $6; I. Cataldo, Chicago, Ill., $5; A Reader, Pontiac, Mich., $2; L. Glustrom (collected), Atlanta, Ga., $21; Caliso, NYC, 25c; Vieyn, NYC, 25c; Alberto, NYC, 25c; Avila, NYC, 25c; Friere, NYC, 25c; Lopez, NYC, 35c; Casabi, NYC, 50c; Palan, NYC, 50c; Tocarras, NYC, 25c; Ponchito, NYC, 50c; Remigio, NYC, 25c; Martine, NYC, 25c; D. Manuel, NYC, 25c; Targento, NYC, 50c; Fernandez, NYC, 50c; Mon[illegible], NYC, 25c; Aurelio, NYC, 25c; [illegible]erena, NYC, $1; Tuesu, NYC, $1.40; Lithuanian Working Women's Alliance (3rd Distr.), Chicago, Ill., $10; S. M., a group of workers, Bklyn, N. Y., $5; Paul Burton, Detroit, Mich., $2; A. T. Harrington, Detroit, Mich., $2; Lillian [illegible], Detroit, Mich., $2; Joseph [illegible], Chicago, Ill., $2; Dr. Benjamin [illegible], Chicago, Ill., $5; Geo. KUN RELEASE RUMOR SEEN AS DECEPTION MOVE

World Workers Demand Prompt Release

VIENNA, June 17. — The pressure of world-wide agitation against the extradition of the Communist leader, Bela Kun, to Hungary, is believed to be responsible for a report here that Kun would soon be released. His execution by the reactionary terrorist government of Hungary is considered certain if he is sent to that country.

The report of an "expected" release, which emanates from ministerial circles here, is probably not based upon any real intention to free the noted prisoner, but is very likely only an effort of the Austrian government to quiet the agitation which has produced some embarassment to the government. It is not even claimed that the Communist leader of the Hungarian workers will be turned loose immediately, the government stating that he will first be given "a short term in prison for passport irregularities."

It is remembered here that this is an old pretext by which, many times, suspicions have been quieted, after which working class prisoners have been murdered extra-legally or given short shrift in court, facilitated by the overconfidence of the workers.

A.C.W. RIVAL SIGNS PHILA OPEN SHOP

Beckerman Is Avoiding Graft Searchlight

By signing up the employers in the largest open shop men's clothing manufacturing area in the country, the United Garment Workers' Union of the A. F. of L., severely aggravated the great "embarrassment" now being felt by the Hillman administration in the Amalgamated Clothing Workers' Union, because of the daily exposures of corruption and graft in the New York Joint Board.

The two firms, the King Kard Overall Co. and the S. Abrams Co., both employing a total of 375 workers, signed contracts last Friday with reactionary Rickert's United Garment Workers' Union. This, while not meaning very much to the workers involved, the U. G. W. being no better than a company union, becomes a source of embarrassment for the Hillman machine in the A. C. W. This is because the New York bosses always point to their non-union competitors in Philadelphia as reason for demanding more and more concessions, such as piece work and wage cuts.

Granted Boss Demands.

Instead of refusing the New York bosses' demands and beginning an organization drive in Philadelphia, the Hillman machine has granted every demand of the employers and done nothing to organize the open shops.

The last time the officials of the Amalgamated were placed in a similar position by the U. G. W. was during the negotiations for a new agreement in Rochester. At that time two firms, having pacts with the U. G. W. and one non-union shop, voluntarily granted the 40-hour week, fearing that their workers would leave them when the Amalgamated got the shorter work week into the contract they were negotiating for with the other bosses. In the meantime, they did not know that Hillman had not even argued for the 40-hour week, despite the demand of the entire membership for it.

Officials Know of Graft.

The latest developments in the graft scandal in the New York Joint

(Continued on Page Two)

Funds to Save "Daily" Short $1676; Creditors Give 3 Days

To the Readers of The DAILY WORKER.
Comrades:

Only $741.86 was received Saturday in the campaign to save our revolutionary organ. Saturday evening at 6 p. m., the time of the expiration of the ultimatum of creditors of The DAILY WORKER, we were short by $1,676.47 of the necessary funds.

In negotiations with creditors Saturday night, an arrangement was reached by which the time for certain of the payments was extended. Some payments are to be made Monday—today. Other payments can be postponed until Tuesday if necessary, and some Wednesday.

The receipts of the campaign up to Saturday night are:

Week beginning June 5:	
Monday	$ 161.99
Tuesday	464.55
Wednesday	556.30
Thursday	576.60
Friday	695.00
Saturday	705.77
Last week (beginning June 10):	
Monday	1,660.40
Tuesday	661.20
Wednesday	712.65
Thursday	760.40
Friday	716.81
Saturday	741.86
Total to last Saturday night	$8,323.53
Still to be raised	1,676.47

This shortage of $1,676.47 of the sum necessary to pull The DAILY WORKER out of this crisis which threatens its life, must be raised immediately.

Today and tomorrow are crucial days. Funds received now are twice as effective as they would be at a later date. We urge the militant workers who read The DAILY WORKER to respond as generously as possible and quickly.

Today we have made good on one promise —that we would restore our revolutionary organ to the size which has been normal in the past—six pages. We must keep this up, as it is impossible to give the workers the necessary minimum of working class news, and especially information on the coal strike and the formation of the new union of the mine workers, the textile strike, etc., with a four-page paper.

The smallness of the amount received Saturday leaves a dangerous gap. If The DAILY WORKER should fail to receive very substantial sums today and tomorrow, the resulting situation would be very precarious.

We request you therefore, to rush every available dollar that you can possibly spare, by telegraph, airmail or special delivery, to The DAILY WORKER, 33 First Street, New York.

THE MANAGEMENT COMMITTEE.

TEXTILE STRUGGLE ENTERS 10TH WEEK

Picket Lines Balk Plan to Reopen Mills

NEW BEDFORD, Mass., June 17. —Although it is believed highly improbable that there will be a concerted attempt by the 56 strike-bound textile mills to reopen, organizational activities for the mobilization of strikers to the picket lines Monday morning was the chief task occupying the attention of the Textile Mills Committee yesterday. The ninth week of strike ends today.

The picket lines are to be concentrated around the few mills that have stubbornly, though vainly, attempted to resume partial operation with a handful of secondary foremen and other straw bosses. These are the

(Continued on Page Two)

BRITISH TEXTILE DYERS ON STRIKE

Other Finishing Crafts Expected to Join

BRADFORD, Eng., June 17.—The textile dyers' union decision to strike against the bosses' attempt to install piece work and lengthen hours goes into effect immediately, despite the action of the officials of the five unions in continuing negotiations with the employers.

It is believed highly improbable that the administrations of the other unions will succeed in preventing their membership from joining the dyers in strike action. The other unions represent other branches of the cotton finishing trades.

After negotiations continuing over a long period had ended with the bosses still insisting on their demands, the dyers' representatives were instructed to stop negotiating. Due to specific instructions from the membership of all unions, the workers' agents at the parleys are forbidden to make concessions to the bosses.

Last March of American Working Class Fighter

Photograph shows last honors being paid to William D. Haywood, American Communist leader, and for many years at the head of the revolutionary labor movement in the United States, who died recently in Moscow. At the left in the photograph is J. Louis Engdahl, representative of the Workers (Communist) Party to the Communist International and formerly editor of The Daily Worker. Chinese, Russian and other workers joined in the tribute.

CARPENTERS LAUNCH MILITANT PROGRAM

Calling upon all carpenters and carpenters' local unions to rally around a militant program and to elect delegates to the coming convention of the United Brotherhood of Carpenters and Joiners of America, who will support this program, the Progressive Carpenters' Committee of this city yesterday issued a warning of the dangers which the union is facing.

"While the building industry is still near its production peak," the call declares, there is prevalent throughout the country acute unemployment." The statement traces the complete revolution which has taken place in the building industry. "Today buildings are no longer put up; they are thrown together." The use of substitutes for wood, the ready made production of parts on a large scale with the consequent elimination of workers from the industry, constitute one of the chief issues the carpenters have to face, the call declares.

A Real Program.

The National Convention of the Carpenters' Brotherhood will take

(Continued on Page Two)

SPORTS FEATURE AT "RED" PICNIC

The Red picnic on June 24th will follow the pattern of great demonstrations such as the Russian workers make of their field days. The Russian sport festivals are Olympian in the best sense of the word, encouraging the youth to develop skill and physical strength, endurance and intelligence such as the working class must have in Soviet Russia to withstand the dangers which beset the First Workers' Republic. Workers' sport festivals, race tracks and fleet

OLD MILL TOWN HANGS ON TO LIFE

Workers Face Starvation in Decayed North Carolina Village

SAXAPAHAW, N. C., June 17 (FP).—Nearly 80 years of life seem to have lent little wisdom to the cotton mill village of Saxapahaw, North Carolina. Trouble has come again to its 175 workers with the mill shut down by a broken dam. The company which took over the plant this year after two years complete closing, tried to continue with the old wood-frame dam across rushing Haw River.

But mud piled up behind and finally pressed down the rotting timbers, flooding the mill basement and stopping the two water wheels from which its electric power comes. Now only a few of the men have work repairing the dam while the rest of the village is idle—and hungrier than usual.

Less Than $2 Day Average.

When little over $2 a day is the average textile wage for the state, the average for a tucked-away place like Saxapahaw is always a little less. And the week as long—55 hours.

"Yes, it is hard on us," said a woman spinner. "We don't know when we can get back to work; maybe not for three or four weeks." With her husband working "in the cards" and the oldest son, 14, already in the spinning room, she has

(Continued on Page Two)

25 MINERS HELD FOR ATTEMPT TO ENTER OWN HALL

Lewis-Fagan Machine Officials Padlock Meeting Room, Jeer at Coal Diggers

State Troopers Round Up Miners Who Are Held in Jail Without Charge

(Special to the Daily Worker)

PITTSBURGH, Pa., June 17.—The arrest of 25 progressive miners at Avella last night and the padlocking of the hall owned by the local miners' union which has been supporting the Save-the-Union movement, is the latest proof that the Fagan-Lewis machine in the Pittsburgh district is determined to disregard the will and rights of the rank and file of the miners, it was seen here today.

Arriving at the hall for a meeting called by the local union, the miners found the hall padlocked and a group of Lewis men under the leadership of Wolcott, father of Carlisle Wolcott, International organizer of the Lewis administration. It was later discovered that Wolcott hung the lock on the entrance. The Lewis machine men jeered at the members of the Avella local, challenging them to hold the meeting in their hall.

When Preston Henderson, a Negro progressive, attempted to force the lock, knowing that the hall belongs to the Avella local, Wolcott summoned four state troopers and a number of deputy sheriffs and induced them to place Preston Henderson under arrest. When the other progressive miners protested that the hall was theirs and they had a right to open it and hold their meeting, they, too, were arrested. State police were busy last night, calling at miners' homes and arresting every person who admitted having been in front of the hall during the disturbance.

Kept in Jail.

The 25 arrested miners were taken to the Washington county jail where officials refused to grant bail or to state the charges under which the men were held. They will be confined the legal 48-hour limit without being charged, police officials announced. Wm. J. White, secretary of the International Labor Defense in the Pittsburgh district, left for Avella early today to arrange for bond and defense of the 25 men.

WHITE GUARDISTS OF MANY LANDS IN DONETZ PLOT

Former Czarist Owners Directed Sabotage

(Special Cable to the Daily Worker).

MOSCOW, U. S. S. R., June 17. — With the examination of Deter, one of the engineers accused of criminal sabotage in the huge Schachty district conspiracy against the Soviet Union, a new part of the trial was inaugurated. Upon investigation, it was learned that all evidence so far collected point to a body of foreign counter-revolutionists centering around Charkov. Dvorschanschik, the chief power in control of the former owners of the mines, was proven to have had such confidence in Deter, that he continually sent him sabotage instructions. The Soviet prosecution then went on to find that Pastuchov, manager of the mine, had continually communicated with Kusma and Schadlun in the Charkov central district.

Deter was a representative to the Charkov central conferences. He had previously been sent to the Berlin trade conference as a representative of the Donugal group. He denied, however, that he had acted for sabotage. But Matov, a member of the Charkov central committee, asserted that Deter had acted in favor of the sabotage in Berlin. Deter finally admitted that he had received money for his sabotage work from Dvorbegan. He accused Bratanovsky of being among the leaders of the saboschanschik, Matov, and other counter-revolutionaries.

The examination by Krylenko then tage organization. And Bratanovsky, like a hardened criminal, according to reports, calmly admitted his conscious villainy. He said that he was anxious to satisfy the demands of the old czarist owners, because they paid very well for the work he was doing. He admitted receiving money from French former owners. He also asserted that he had received sabotage orders from Deter. The Charkov committee commissioned Bratanovsky to form plans whereby the work of the mines would be obstructed and forced to continue idle.

Bratanovsky had a very important

McNARY JOINS IN G. O. P. BETRAYAL

N.Y. Communists Speed Election Drive

(Special to The DAILY WORKER.)

WASHINGTON, June 17. — The republican landslide of betrayal of the workers and farmers yesterday swept up and carried along another pretender to the position of spokesman for agriculture when Senator McNary of Oregon, sidetracking the equalization fee plan of farm relief, announced his support of the Hoover-Curtis ticket of Wall Street.

McNary, who was one of the chief movers in the agitation over the McNary-Haugen bill announced his own position after a conference with Hoover, yesterday.

Hypocrisy Exposed.

Notwithstanding the fact that the republican platform bluntly brushes aside farm relief and that no one expects Hoover to do any more for the farmers than he will do for the industrial workers, McNary after the meeting announced that he had found the republican candidate "sympathetic and anxious to believe in the distress of the farm population." The real purpose of McNary's meeting with Hoover became clear when Mc-

(Continued on Page Two)

URGE FIGHT ON FASCIST TERROR

Pilsudski Excesses To Be Scored at Meet

Pointing out the existence of an international terrorist system by which Mussolini attempts to intimidate anti-Fascist workers in other countries, the New York Section of the International Labor Defense, 799 Broadway, in a statement issued yesterday, calls upon the workers of New York to protest against these terrorist activities and to wage an unceasing struggle against international fascism.

The statement, signed by Rose Baron, secretary of the New York Section, follows:

"Not content with oppressing the workers and peasants of Italy and torturing and murdering all those who voice the slightest protest against Mussolini's black-shirted despotism, Italian fascism reaches out into other countries and conducts a systematic campaign of terrorism against Italian workers who pressume to oppose its blood-drenched rule.

Fascist Long Arm.

"We have had a striking example of how Italian fascism works in this country in the Greco-Carillo case, in which, thanks to the mass pressure exerted by the workers under the leadership of the International Labor Defense, the black machinations of Mussolini's agents were thwarted. But a much more subtle form of terrorism is being employed. Anti-fascist workers in this country are receiving letters from near relatives in Italy begging them to cease their opposition to fascism as they are being threatened with death by Mussolini's hangmen. Thus is the threatened murder of mothers and fathers, brothers and sisters of Italian workers in this country used as a bludgeon to beat them into submission.

Mass Meet Tomorrow.

"The workers of New York, the capitalist stronghold where fascism in Italy and other countries receives

Lewis Machine Aids Police Break Up Mine Conference in District Five

HARWICK MEETING HALL SURROUNDED BY SHERIFF ARMY

Many Conferences to Take Over Union

(*Special to The DAILY WORKER.*)

PITTSBURGH, Pa., June 17. — Cooperation of the John L. Lewis administration with the police in an effort to block the miners from taking control of their local and district organizations in preparation for the national miners convention to be held in September, is responsible for the action of the deputy sheriffs and state troopers who broke up a conference of the miners' union of sub-district 7, district 5, at Harwick yesterday, according to information received here today.

Building Union.

The sub-district conference was called for the purpose of re-organizing the sub-district to meet the progressive policies adopted by the district convention held on May 28-29 in Pittsburgh, and to elect new sub-district officials. The call for the conference was issued by Tom Myerscough, secretary of the reorganized district 5, immediately after the district convention and many locals in sub-district 1 elected delegates.

When the delegates assembled at the hall of the Harwick local union, one of the progressive locals of the Pittsburgh district, they were confronted by eleven deputy sheriffs, four state troopers and a squire who warned them that they would not be allowed to proceed with the conference.

Many Conferences.

The meeting was the first of seven sub-district conferences called to meet within a week in the Pittsburgh district in order to put the decisions of the district convention, which ousted the Lewis administration officials, into effect. Secretary Myerscough expressed the belief that Fagan, with the aid of the police, would attempt to break up the other scheduled conferences, but Myerscough declared that the progressive miners will go through with the conferences despite all interference.

McNARY JOINS IN G. O. P. BETRAYAL

(*Continued from Page One*)

Nary announced that he would have nothing further to do with any "bolt" in behalf of the agricultural week.

* * *

N. Y. Communists Active.

With the record of the republican betrayal of the workers and farmers already written in their platform and with the equally certain betrayal by the democrats only a few days off, the Workers (Communist) Party yesterday announced an intensification of its election activities.

In a statement issued by the central executive of the Party, an appeal was issued to all members and sympathizers to speed up the agitation and propaganda for the campaign.

Red Picnic Ahead.

The New York state campaign will open with the Red Picnic scheduled for Pleasant Bay Park next Sunday. This event will mark, it is believed, the greatest combined political rally and out-door outing in the history of the New York labor movement. At this political rally will appear not only nearly every important leader of the Workers (Communist) Party but there will be seen as well among the many thousands who will attend the larger body of workers who today are leading the struggle for militant policies in practically every union and who will play the leading role in the great tasks before the American working class.

Sports Will Be Featured at Red Picnic

(*Continued from Page One*)

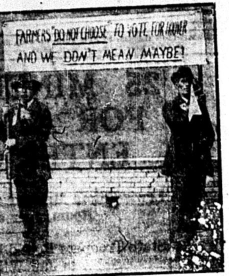
runners, endurance tests and skill in juggling and wrestling, in games and athletic matches are the forerunners of training for the Red Army. And with this the Russian workers have learned to turn their sport meets, picnics and athletic games into great workers' festivals.

The Red Picnic on June 24th at Pleasant Bay Park is to be the first sport festival of this kind. Pleasant Bay Park is being made ready for the meet, it is announced.

Trainman Killed on Car

Falling beneath a heavy roll of concrete re-enforcing iron wire on a freight car which was being backed into the New oYrk Central railroad yards early yesterday morning, William Slocum, 39, a trainman, was killed when the roll of wire toppled on him, crushing him to the floor of the car.

Farmers Get Cold Shoulder from G. O. P. Convention



FARMERS "DO NOT CHOOSE" TO VOTE FOR HOOVER
AND WE DON'T MEAN MAYBE!

After police had thrown a farm delegation out of the republican convention hall for protesting against the nomination of Hoover a sop was thrown the farmers in the shape of the Curtis vice-presidential candidacy. Photo shows members of the farm delegation picketing the convention.

CARPENTERS CALL TO PROGRESSIVES

Launch Plans for Next Convention

(*Continued from Page One*)

place in September but delegates are already being elected. The Progressive Carpenters' Committee has drawn up a program to meet not only the changes going on in the industry and the open shop drive of the employers now taking place but the attack of the union officials who during the past four years have conducted a campaign of persecution and open warfare against all progressive ideas and against progressive local unions and members.

The great majority of the members look upon the union not any more as a means of protection, but merely something that takes from them a certain portion of their wages every three months for being allowed to work in the trade. They are gradually realizing that they can obtain work without belonging to the union and are, therefore, drifting away from the Brotherhood. At the same time, the Brotherhood is securing a decreasing number of new members.

On the contrary, it is pointed out, the officers of the union are using their powers to demolish the organization even further. The charge is made that:

Record of Destruction.

"Since the last National Convention the outstanding events can be recorded: (1) In Denver the men were driven to work on the old basis after a signal victory for the 5-day week. (2) In Detroit the United Brotherhood of Carpenters and Joiners of America was smashed to keep the old administration in power. (3) In New York the District Council was given support in upholding the former officials of Local Union 2717 who were caught redhanded in stealing the funds of the Local Union. The charter of Local Union 376 was revoked on flimsy "constitutional" grounds. (4) In Chicago the steal of the District Council elections was given official approval. (5) In the San Francisco District the strike against the open shop drive was taken over by the National administration and the result was a miserable failure. (6) Throughout the country members have been arbitrarily framed up, fined and expelled because of their stand for the rights and privileges of the membership.

"The following program is proposed as a unifying platform for all progressives and we urge the nomination and election of delegates on the basis of support of this program.

Progressive Program.

"1. 5-day, 40-hour week. Weekly wages to remain the same as before.

"2. Uniform Building Trades agreements to expire at the same time and to include the clause: "ONLY UNION-MADE MATERIAL TO BE USED." All agreements to be ratified by a vote of the membership.

"3. Job control through a steward to be elected by the men on the job. This to eliminate indiscriminate hire and fire by the bosses and to eliminate the speed-up system.

"4. Joint drive with all other unions to organize the unorganized with the slogan, "A 100 Percent Organized Industry."

"5. United action with all other crafts for the enforcement of wage scales and union working conditions.

"6. For a state unemployment fund to be administered by local unions.

"7. To call a national conference for the amalgamation of all Building Trades International Unions.

"8. Mass violations of all injunctions in labor disputes, struggle against the enactment of the Federal Anti-Strike Law and for a LABOR PARTY based on the labor unions.

"9. Democracy in our union with full expression of opinions without discrimination, restoration of revoked charters and full reinstatement of all members expelled for their opposition to Hutcheson.

"10. For limitation of the powers of the general president, and for a convention every two years."

Support Appeals.

The call ends with the reminder that there are pending before the coming convention the appeals of a number of union members whose cases should receive the support of all delegates. These are the appeals of Fred Bobzin of Chicago, Bud Reynolds of Detroit, Joseph Lapidus of New York City and Local Union 376. The carpenters are urged to elect delegates who favor this program. Those who know of any grievances are requested to send information to the Progressive Carpenters' Committee, Room 311, 96 Fifth Ave., New York City.

Expel Student for "Cutting" College Chapel

BOSTON, June 17.—Demanding her reinstatement and claiming intrigue in her expulsion from Wheaton College, Miss Bertha Ludwig, of West New Brighton, S. I., has brought suit in Supreme Court for $25,000 damages. Benjamin Sanderson has been named as master.

Miss Ludwig charged that she had been expelled for the reason that the college dean and two students did not "like her." The charges against her are that she made "unnecessary noise" in her room after 10 p. m., cut chapel services, and burned incense in her room.

She was to have been graduated from Wheaton College this month.

OLD MILL TOWN HANGS ON TO LIFE

Workers There Face Starvation

(*Continued from Page One*)

no savings to live on in an emergency. Six young mouths to feed besides the parents. 15 years at this place, except during the shutdown when they became tenant farmers.

Saxapahaw's old houses are not the showplaces of southern mill men's bragging. For years nothing has been done to them. They scramble over the hillside above the mill on rutty red clay roads. Most of them have little trace of past paint coats on their plain boards. Some of the workers have tried to hide with bits of gardens and flower boxes but others stand nakedly out of the wild grass.

Decay.

True the company has promised new "covers" and "talks about bringing water to the houses." The one newly finished room shines out with its new shingles and makes its neighbors look more than ever shabby. Workers draw water from hillside springs, into which drainage from houses above seeps down —just as in old times. An old former resident sees little change in the town from Civil War days.

One old house, still occupied, he remembers sent five workers to the mill in the '50s. One went off to war with his father, a farmer. The Saxapahaw mill was one of four in Alamac county operating when the Civil War began. When it was founded in 1849 it was one of the earliest cotton mills in the south.

The mill still makes ginghams, bleaching, dyeing and finishing in its own small plant. It ships by truck to the nearest railroad, over 10 miles away. Alamac county boasts of 21 small mills similar to Saxapahaw and many of them on the same Haw river, hidden away in farming sections off the main highways.

Heflin, Klan Employe, Unhurt as Stand Falls

SYRACUSE, N. Y., June 17. — Thousands of people, gathered around a wooden platform from which Senator J. Thomas Heflin, speaking in the pay of the ku klux klan, against Al Smith, big business' alternative with Hoover for the presidency.

JAPAN READY TO HOLD MANCHURIA AGAINST ATTACK

(*Continued from Page One*)

in Manchuria, Matsuoka did not hesitate over the fact that Japanese control there was intended to be permanent. "Call it a protectorate, if you will," he said.

Embarrassing—But

"I admit this is little to put us in an embarrassing position, but Manchuria is our first line of defense," he declared further, "but there are times when a firm attitude is essential and this is one of them."

While this attitude of Japan was being enforced through the "unofficial" declaration of Matsuoka, the so-called Nationalist government made public a request of the United States government for the negotiation of a new treaty which will revise the existing agreements between the two countries. This is seen as a virtual request for recognition from the Washington government. The request is based on the recent statement by the U. S. that she would recognize any responsible government at Keking—meaning, of course, any government which would repress the working class and peasant revolutionary movement.

* * *

Bids for Support.

NANKING, June 17—The so-called Nationalist government made a further bid for the support of the imperialist powers here yesterday by promising a continued campaign against the Communists and left wing labor organizations.

TEXTILE STRIKE OPENS 10TH WEEK

Plan Big Picket Lines for This Morning

(*Continued from Page One*)

Whitman, Wamsutta, Page, Sharp and Hathaway mills. It is generally conceded that the utter failure of these plants to reopen successfully, due to the picketing demonstrations, is the only thing that discourages the bosses from attempting the gesture of a general reopening.

Admit Success of Picketing.

Even the officials of the A. F. of L. Textile Council are now using the picketing tactics of the T. M. C Formerly they had made statements to the press ridiculing the picketing of mills which their owners had said would not be reopened. This change of front was made when they saw that picketing was rallying increasing thousands of strikers to membership in the T. M. C., while the council lost continually in influence.

Jackson W. Wales, a second year student in Harvard University, who for some time has been associated with the Textile Mills Committee, pleaded not guilty to two charges of disorderly conduct. He will come up for trial Monday.

Bosses Relieved of Texas.

While the city politicians at the head of the charity boards and also of the relief committee organized by the A. F. L. union are declaring that there are no funds for strikers' relief, the city government of New Bedford announced that 22 of the city's 26 textile corporations have been granted an abatement of 1926-1927 taxes amounting to a total of $248,922.

URGE FIGHT ON FASCIST TERROR

(*Continued from Page One*)

its greatest financial support, must carry on an unceasing struggle against this modern Inquisition, which has discovered tortures more subtle and terrible than were ever dreamed of by the professional torturers of the middle ages. Fascism is confined not to Italy alone, but rages in Hungary, Poland, Spain and in other lands; with the active support of all other capital countries, particularly the United States. A blow against the fascism of one country is a blow against fascism the world over. On Tuesday, June 19 at 8 p. m., a meeting has been arranged by the Committee Against Polish Fascism to protest against the sentencing of 37 members of the White Russian Hromada Party to long prison terms in Pilsudski's dungeons. The meeting will be held in Irving Plaza, 15th St. and Irving Place. The International Labor Defense calls upon all class-conscious workers of New York to show their solidarity with the victims of fascisms all over the world by attending this great protest meeting."

Chosen by Wall Street to Fill Cal's Shoes

Photo shows Herbert C. Hoover, picked at the republican convention at Kansas City to fill the shoes of Cal Coolidge as the servant of Wall Street. Hoover's wife is shown at left.

PORCH CLIMBING NEW TACTICS OF ZARITSKY

BOSTON, June 17.—In his efforts to destroy the Boston Capmakers' Local 7, Max Zaritsky, president of the Cap and Millinery Workers' Union, shows that not only will he use the assistance of the bosses and police, but also the services of gentlemen who climb porches and enter houses thru the windows for a living.

Rifle Desks.

This was demonstrated when the left wing leaders of the Capmakers' Union here entered the union headquarters and found the doors, windows and desks jimmied open and papers strewn about in great confusion. Every available depository for records and documents had been rifled.

However, nothing more valuable than the charter of affiliation to the international was in the office. This they took.

This is the second step in the campaign of Zaritsky and his clique-controlled general executive board to break up a union that has grown powerful under its militant leadership.

After failing in attempts to remove the leadership by special elections, in which Zaritsky candidates were soundly spanked by the membership, Zaritsky tried a 'putsch' a la Mussolini. This occurred last Thursday at a union membership meeting. Zaritsky came to this meeting armed with a ukase by the general executive board which gave him the authority to remove the legally elected leadership of the union and replace it with appointees from among his own henchmen.

Fails in Coup d'Etat.

Despite the squad of police he came prepared with, Zaritsky was forced by the membership to leave the hall. With the few that followed him out Zaritsky held a meeting in another hall and announced that the handful of right wingers that met with him are now the new officials of the union. Zaritsky's latest exploit, while of an extremely low character, fails to measure up to the less spectacular and yet more vicious work he himself is doing. He is drumming at the doors of all the bosses here and is promising them alluring concessions at the workers expense — if they would but withdraw recognition from the union that receives the memberships' support.

ACW RIVAL SIGNS PHILA. OPEN SHOP

Beckerman Would Avoid Graft Searchlight

(*Continued from page one*)

Board of the Amalgamated is the statement printed in the socialist Jewish Daily Forward by A. Beckerman, in which he declares that anyone else found to be connected with the taking of graft will be driven from the organization.

Beckerman makes this statement despite the proof offered in the graft exposures that this elaborate graft apparatus could not have existed without the knowledge of the highest officials of the New York Joint Board. Beckerman is manager of the New York Joint Board.

The proof of this is found in the fact that when the graft ring took money from employers who wanted to ship cut material for manufacture in scab shops, and when they took graft from scab shops for providing them with work, this transfer of goods to and from the two sources of graft could not have been accomplished without the knowledge of the officials of the Cutters' local and of the New York Joint Board heads.

WHITE GUARDISTS OF MANY LANDS IN DONETZ PLOT

Former Czarist Owners Directed Sabotage

(*Continued from page one*)

position in the Donugal Trust Co. He stated that the majority of his fellow officers and engineers are members of the sabotage organization. He claimed that he had been elected to the Soviet after the February revolution, and because of this he claims he had the friendship of the workers. His membership in the Soviet ceased after the October revolution. He described the Charkov central body, its methods of finance, its structure, etc. The high position of Bratanovsky and the rest of the plotters in the Donugal enabled them to form an efficient sabotage.

Sent Reports to Former Owners.

The Charkov central body supervised this sabotage, and sent reports of its progress to the former congress and council of South Russian imperialist mine owners abroad. The aim of the central body, was to gain influence over trade and union leaders and arouse discontent among the workers. For this purpose it received money from the former White Guardist owners of the mines. In this scheme the French industrialists also gave financial aid. Bratanovsky stated that German firms were also involved in the financial aid for the project against the Soviet Union.

Aim Counter-Revolution.

The further examination of Bratanovsky confirms these methods and aims of the sabotage organization. He said that the central body arranged the sabotage, communicated with Paris and Warsaw anti-Soviet organizations and with the central bodies of German firms. He admitted that the aim of the conspiracy was to execute an economic and political counter-revolution with the ultimate goal of overthrowing the Soviet control of the mines.

In order to accomplish this, he stated, there had been an intensive study on the part of the treacherous organization of the Soviet economic and political situation of the Russian Communist Party. In replying to Krylenko he said that the organization had established contacts with foreign governments which had supplied the money for the venture. The central body, he confirmed, had kept both Poland and France posted on the mine situation.

The intervention and complicity of these foreign countries in the plot had greatly helped the sabotage. There had been extensive sabotage propaganda spread among the workers. Further revelations were that Bleiman, the director of the Russian department, had promised him 10,000 rubles.

LETTERS OF WORKERS WHO FIGHT TO SAVE "DAILY"

"This morning I got a job, here's my $2;" Workers, Jobless or Employed, Fired College Professor, Determined Revolutionary Organ Shall Live

A letter from one of the most savagely exploited groups of workers in the country:

Gary, Ind.

Dear Comrades:—
Enclosed find $25. The steel workers of **Gary need The DAILY WORKER, which fights for the rights of the workers of the world. This money was raised at a picnic held the other day.**

COMMITTEE OF STEEL WORKERS.

• • •

The DAILY WORKER fights against the ruthless system that scraps old and incapacitated workers without making any provisions to enable them to live. And here is how a 75-year-old worker feels about the workers' paper:

Bridgeport, Conn.

Dear Comrades:—
Please accept my little mite of $1 to save The DAILY WORKER. I wish I could give you $75; that just would be one dollar for each year of my life time since I was born in 1853. On the first of last May it was 11 years since I am out of work and never got a job as toolmaker again. Materially I cannot help you any more, but I do so by talking to the people about Communism as the only remedy to get free from capitalism.

I was glad to hear in your paper about Mrs. Parsons, widow of Albert Parsons, that she is alive yet. After the Haymarket affair, she spoke in New Haven where I resided at that time and was on her reception committee.

Fraternally yours,
ADOLPH MEYER.

• • •

Walter M. Trumbull, who together with Paul Crouch helped to form a Communist League among the American soldiers in Hawaii, is now in a sanitarium suffering from tuberculosis. The original of this disease may be traced to his experience in Alcatraz Prison, where he and Crouch spent several years for their revolutionary activity. In a letter from the sanitarium he writes:

Dear Comrades:—
Because I am at present a patient in the Maybury T. B. Sanitarium, I've been unable to make a contribution of my own, having no income.

But I have interested an employee at the sanitarium to the extent of his contribution of $3, which I enclose herewith. I may be down, but not out. I can do that much for the 'Daily.'

Yours for saving our "Daily".
WALTER M. TRUMBULL.

• • •

Philadelphia.

Dear Comrades:—
Enclosed find a check for $45 to save The DAILY WORKER. This is the third shipment of donations from Philadelphia during the last few days ($77.50, $69 and $45). I believe that at least one more check will follow this week. We must have the "Daily" and more than that —an eight-page "Daily." I am confident that the revolutionary vanguard of the workingclass of the country will fulfill its duty.

A. SOKOLOV, "Daily Worker" agent.

• • •

A sympathetic organization sends $15 and writes:

Dear Comrades:—
As a good number of our members are readers of our militant "Daily," we decided to help the paper at once. By unanimous vote it was decided to donate $15, for which you find check enclosed. We are an organization to enable workers' children to spend their vacations out in the country.

MODERN SUNDAY SCHOOL CAMP
ASSOCIATION, INC.
JACK FEURER, Secretary.

• • •

New Haven, Conn.

Dear Comrades:—
Enclosed is a check of $10 from the New Haven branch of the Workers (Communist) Party to help meet the crisis. More money will be rushed at once.

S. S. KRESAS, Secretary.

• • •

The efforts of many units of the Workers (Communist) Party has done a great deal to keep the paper alive. Street Nucleus 11. Section 4, Chicago, writes:

Dear Comrades:—
Enclosed you will find a check for $14. At the last meeting we decided that every member should give a day's wages for our revolutionary paper. The rest of the money will be sent in a few days. We are sure that every worker must do the same, because if he is able to work for the bosses 365 days a year, he must work at least one day for the paper that is leading all the oppressed against the slavery of the capitalist system.

STREET NUCLEUS 11, SEC. 4, CHICAGO.

• • •

Roxbury, Mass.

Dear Comrades:
Enclosed you will find $1 in answer to your call for money to save The DAILY WORKER. I feel very sad that I am not able to send to the satisfaction of my feelings towards The DAILY WORKER. I only wish that I could send a million times more than this meagre sum for the greatest of all causes.

M. AGLARAU.

A worker in Hanna, Wyoming, donates a day's wages:

Comrades:—
Here you will find enclosed a postal money order for $8 for The DAILY WORKER as my donation to help the "Daily" out of its crisis. This is my one day's wages donation, and I would hope that every reader, friends and sympathisers of The DAILY WORKER will do the same.

Fraternally yours,
FRANK J. VIITA AHO.

• • •

This letter speaks for itself:

Dear Comrades:—
Here is my $2 to save The DAILY WORKER, that I gladly sacrifice being unemployed for a long time. This morning I got a job and tonight I feel my legs all broken so that I think I couldn't stand up to go back tomorrow. The bosses become wolves more each year. We hope that these cruelties would end some day and I will fight on to the end.

Fraternally yours,
G. MICHELINI, a concrete worker.

• • •

Another Workers Party unit shows the way:

Pittsburgh, Pa.

Dear Comrades:—
Enclosed find $15 for The DAILY WORKER from Street Nucleus 2, Pittsburgh. I sent you Tuesday $55, Thursday $20, and now $15. This will be $90. Wishing success in your campaign,

MAX JENKIN.

P. S.—I will send more money soon.

• • •

Mingo Junction, O.

Dear Comrades:—
I have seen your appeal in the Radnik, the paper of the Jugo-Slav workers, that the DAILY WORKER needs help. We went out and collected a little from the people and we received $11. I am also sending you a subscription for six months for a worker here. I am doing the best I can to show the people the right way to organize and support The DAILY WORKER which is the only paper in the English language which is protecting the interests of the laboring class.

SOJON MIKASINOVIK.

• • •

A worker in Norwalk, O., writes:

Dear DAILY WORKER Comrades:—
Enclosed find two dollars toward sustaining our DAILY WORKER. Who would want to go back to the days of being without it? I would call that a real calamity. It is not indifference on our part that we can not respond to all of the needs of the paper, but money is so damn scarce.

But that trouble is nothing, as compared to the worries and hardships of the comrades who are making possible The DAILY WORKER. It is "the University in Print" for the workers and we must keep it at all costs. The new feature of the paper, Handouts, is a very clever little column, and we enjoy it immensely.

Best wishes to The DAILY WORKER,
ANNE HOLLAND.

• • •

Highland Falls, N. Y.

Dear Comrades:—
Enclosed you will find a money order for $2, my bit for the DAILY WORKER. I am hoping that every comrade will give some little amount toward it, so it may keep on growing, because it is the best daily paper that fights for the workers.

Long Live the DAILY WORKER.
Comrade KUCERA.

• • •

The following brief letter reveals the spirit in which workers all over the country are responding to The DAILY WORKER'S call for help:

New York, N. Y.

Dear Comrades:—
Fight on for the life of the DAILY WORKER! Here is my $2 worth of ammunition. Sorry I can't do more for my paper.

Yours for Communism.
GUIDO D'ANDREA.

• • •

From Chicago comes the following spirited communication:

Chicago, Ill.

Dear Comrades:—
Enclosed please find check for $10. I am very sorry I can't give more at present. Will try to make up for it, though, by making other comrades realize the importance of giving.

I fervently hope we'll come out all right.

Yours. M. BAUMSTEIN.

• • •

Dear Comrades:—
At the meeting of the International Branch of the International Labor Defense of Wilmington, Del., we took the question of the "Daily" up for discussion. I am glad to say that we were able to raise the amount of $16.50. The two delegates from Wilmington to the National Nominating Convention of the Workers (Communist) Party, George Newcombe, of Arden, Del., and Esther Markizon, of Wilmington, gave $2.90 each, which is the amount paid to them for expenses to the convention. This makes a total of $22.30.

Comradely yours,
ESTHER MARKIZON.

Here is a letter from a non-party member who nevertheless realizes the role The DAILY WORKER plays in the struggle of the working class:

Wellington, Ohio.

Dear Sirs:—
Please find enclosed check for $5 to help you move and weather your present crisis. I wish I could send you more. I don't belong to the party, but I would hate to see the DAILY WORKER go under, as it is the best labor paper that I have ever read.

W. LONG.

• • •

This worker calls The DAILY WORKER his "best friend:"

Dear Comrades:—
Enclosesd you will find a money order for $2 as a contribution to the DAILY WORKER.

I would be very sorry if I should have to miss my best friend. I am very sorry that I am not able to send more, but my husband has been out of work for a long time.

With the best wishes for a long life to the DAILY WORKER,

Mrs. A. NEWMAN.

• • •

Peabody, Mass.

Dear Comrades:—
You will find enclosed a money order for the sum of $10. This fund was collected by our unit, District 1, Section 7. This is only a temporary contribution, as we will try to raise more funds to keep the DAILY WORKER going.

Comradely yours,
FRANK POLISCHUK.

• • •

The following letter from Utica shows the class-conscious spirit of those who are aiding The DAILY WORKER in its struggle to weather its present financial crisis:

Utica, N. Y.

Dear Comrades:—
We know that the DAILY WORKER is in need of money very badly. We also know that The DAILY WORKER is the only workingclass paper printed in the English language. We realize that it is our duty and the duty of every other comrade to support this paper in the best way we can. We hope that other cities will pay attention to the call of The DAILY WORKER and help as much as they possibly can. Our collection tonight amounted to $22.70. Therefore we enclose a money order for that amount.

Yours truly,
LEONA RIMKUS.

• • •

Astoria, L. I.

Dear friends:—
Enclosed find five dollar bill to help along the good work. Hoping you get the rest to keep going,

Yours truly,
P. ROWLEY.

• • •

Sol Auerbach, young instructor of philosophy, was recently expelled from the University of Pennsylvania for speaking favorably of conditions in the Soviet Union. Auerbach knows that The DAILY WORKER is fighting in this country for everything that the Soviet Union stands for, and tho he is now out of a job, he has sent a contribution with the following letter:

Dear Comrades:
Here is $5 out of my last pay from the University of Pennsylvania. The one militant pivot point in the American labor movement, The DAILY WORKER, must be kept swinging.

Fraternally yours,
SOL AUERBACH.

• • •

Another letter from an unemployed worker:

Dear Comrades:
Seeing in your paper that you need funds, I am enclosing a small sum of $2. I have a family to support and have been out of work for the last 14 months. I should hate to see our paper fall, for that is the only paper for workingclass people. If I could have helped more, I would have sent you more, but I just couldn't. And if I ever get a job, I will help you the best I can!

Your sincere comrade,
PAUL DE PAWLIS.

• • •

That The DAILY WORKER is really a workers' newspaper, one that is important to and loved by the masses, is proven by the fact that very few of those who donated money to the fund spoke of pulling "you" through the crisis. Most of the letters read "I hope we will come through this crisis stronger than ever." The workers of America do not look upon The DAILY WORKER as something foreign to themselves. They identify themselves with it.

Brooklyn, N. Y.

Comrades:—
Enclosed you will find a check for $31. This money was collected at the meeting of our section 7 last night.

We hope it will help to take our Daily through its present plight.

Comradely yours,
A. SAVOY, financial secretary.

A young school girl writes:

Comrades:
The DAILY WORKER will not be suppressed if the working masses can help it. I'm a young girl, not suffering as much as others, but I am for the liberty of my class. Here is my contribution ($2.50). If I could afford more, I would send it. Some social clubs will also send their contributions thru my recommendation.

Success, and may your and my class thrive, may we see liberty for the crushed masses ushered in soon.

Comradely,
VIVIENNE ZELNICK.

• • •

New York, N. Y.

Comrades:
Please find enclosed a one-dollar bill to save The DAILY WORKER, the only workingclass paper in the English language. Please comrades hold on to The DAILY WORKER. Don't let it die and leave our enemies to rejoice.

READER OF THE DAILY WORKER.

• • •

The intensity of feeling of many of the writers of letters to The DAILY WORKER is an indication of the place the paper holds in the workers' lives. The following is a good example:

San Antonio, Texas.

Dear Comrade Minor:
In reply to your communication of June 2, notifying us about the plight of The DAILY WORKER on account of lacking funds, I am sending you a check for the amount of $15. I am hoping that all of the comrades will realize the necessity and worth of The DAILY WORKER, as the fighting organ of the working class, and help you to continue your work in the future as you have done in the past.

Fraternally yours,
J. SHAFFER.

• • •

Worcester, Mass.

Comrade:
At a regular membership meeting of Nucleus 3, Section 1, of the Workers (Communist) Party of Worcester, Mass., many comrades responded to The DAILY WORKER'S call for help. Their contributions make it possible for us to send in a check for $15.

Fraternally yours,
D. H. KAUFFMAN, secretary.

• • •

After being unemployed all winter, a worker finally got a job and immediately sent $2 to The DAILY WORKER. He writes:

Chicago.

Dear Comrades:
Enclosed you will find $2 to keep up the best paper of the workers in the U. S. A. I have not worked all winter. I got me a job now and I wish 10,000 workers would send you a dollar or two each.

I work in a freight house, pulling a truck like a mule and conditions are pretty bad here as we have the speed-up system. I will be very sorry if our paper should discontinue. I am a foreigner and can't write much. Long live Russia! Down with all capitalist governments!

J. V.

• • •

A facetious note was struck by one worker in a letter in which he enclosed $3:

Dear Comrades:

I am sending you $3 as my "princely" contribution towards the saving of the "Daily's" life.

What's the idea of squandering all the millions you get from Moscow and then go a-begging for a handout? You surely have a bunch of bum financiers in your office. Kick 'em out! (I hope Judge Panken didn't copyright that expression.)

Comradely yours,
MAX MANDEL.

• • •

Yukon, Pa.

Dear Comrades:
Shop Nucleus 1, Yukon, Pa., recognizes the grave financial condition of The DAILY WORKER at the present time. So we are sending you $4. We regret that we cannot send you more because of the bad employment conditions.

DANY LOCHEN, secretary.

• • •

Workers' organizations have responded generously to the appeal for funds to save The DAILY WORKER. The following letter is typical:

Kansas City.

Dear Comrades:
The Russian Workers' Progressive Club is sending you a money order for $25 to help The DAILY WORKER. Long life for The DAILY WORKER.

E. MICKLISH.

Denver, Col.

Dear Comrades:
Just read the headline of The DAILY WORKER: "Grave Crisis May Close DAILY WORKER Soon." I am enclosing $5 to help out a little.

MRS. ARMINTA HOAR.

The response from unemployed workers has been unusually generous and many of them have written touching letters. Here is a worker who sends $5 despite the fact that capitalist "prosperity" is denying him a means of making a living:

Dear Comrades:
I am a long time reader of The DAILY WORKER and sympathizer, but I am long out of a job and I am sorry I cannot send more help. Today I send with my wife $5 as help to the paper.

JOHN STEPHANOU.

• • •

The DAILY WORKER is the only English language newspaper that fights for the oppressed colonial peoples. Class-conscious Chinese workers have learned that The DAILY WORKER is the constant, steadfast supporter of the struggle of the Chinese workers and peasants against their native bourgeoisie and the foreign imperialists. The following letter is eloquent testimony of the sentiment of the militant Chinese workers of New York towards the "Daily:"

Dear Comrades:
Enclosed please find banknotes amounting to $11. This is the first collection of our organization to meet the $10,000 drive of The DAILY WORKER. We hope a further sum can be raised in our next membership meeting.

Hoping the fund will be successfully raised,

Yours for The DAILY WORKER,
CHINESE WORKERS' AND PEASANTS ALLIANCE. LIU TANG, chairman.

• • •

A reader makes the unique proposal that workers donate the money they spend on tobacco and cigarettes to help save the "Daily." She herself is cutting out coffee for six months and turning the money over to The DAILY WORKER.

Boston.

Dear Comrades:
I am enclosing to you to help keep the "Daily" on its legs $1. In addition, I am cutting out my usual one cup of coffee a day and agree to send the cost for six months to The DAILY WORKER. I propose that all the comrades who love their pipes and cigarettes as well as I do my coffee should cut their tobacco and send the amount to The DAILY WORKER. Today I cannot afford to buy coffee at five cents and also give that amount to The DAILY WORKER. I choose to aid the "Daily" to live and prosper.

ELLEN WETHERELL.

• • •

An unemployed Portuguese worker, living in Brooklyn, sends $2 with the following letter:

Dear Comrades:
Last year in Providence I casually came to know about our "Daily," and when I read it, I was very glad to know that we had a real fighting paper. I am a Communist by heart and principles and am 35 years old. As soon as I get employment I will join the Workers Party. And tho I am not a member, I have been working in different ways.

Enclosed find $2 to help the "Daily." Would like to send more, but am out of work.

EDUARDO TAVARES.

• • •

Dear Comrades:
Enclosed find $15 collected at an affair held by Unit 3 of Harlem for the benefit of The DAILY WORKER.

Comradely yours,
S. KRENIK, secretary.

• • •

Sixty-seven years old and out of work 16 months—yet The DAILY WORKER must be saved, and so he sends a dollar bill.

Dear Comrades:
I am enclosing you a one dollar bill which is all that I can do as I am out of work for 16 months and cannot get any kind of work. I am living in hopes that I will be able to get to Soviet Russia. Altho I am 67 years old, I am just as active as a boy and possibly I would be able to give long years of service in Soviet Russia in my trade as a tinplate worker.

I hope that sufficient support will be given in time to save The DAILY WORKER for the sake of the oppressed toilers of this and other lands, for whom it so energetically fights. Its fall at this time would be a great calamity for the oppressed.

THOMAS M. WILLIAMS.

• • •

This worker also realizes the importance of The DAILY WORKER:

Caldwell, O.

Dear Comrades:
I realize what a terrible blow the workingclass will receive if The DAILY WORKER is suspended, so I am sending $5 to help keep it alive.

STEVE MORASKY.

FIFTY RIVETERS WALK OUT IN PROTEST AGAINST DOUBLE WORK AT SUN SHIPYARDS

(By a Worker Correspondent)

CHESTER, Pa. (By mail).—At the Sun Shipyard fifty riveters have walked off the job because of a request by the foreman that they drive rivets at two cents apiece.

They have been working on "car floats" and driving face rivets at two cents each. If given the work they have been able to make $1.000 per hour.

The request that caused the trouble was that they drive the same type of rivet with two additional operations, i. e., chip the loose hanging ends and set it all the way around with riveting machine or gun.

These two operations make more than double work. Hence the walkout.

They have no committee or leader, as I can understand. I am looking for further developments.

—S.

Arrest Young Worker League Member in Kenosha, Correspondent Writes

UNION OFFICIALS FIGHT MILITANTS WITH POLICE AID

Send "Observers" to Meeting

(By a Worker Correspondent)

KENOSHA, Wis. (By Mail). — Kindly publish the enclosed statement which was issued to the hosiery strikers at the Allen-A mill in Kenosha after the events it describes had taken place.

Striker.

Something has occurred which we think is necessary to bring to your attention. It reveals the revolutionary nature of one of the strike leaders to such an extent that we know the strikers and workers of Kenosha will repudiate such actions on his part.

All of you, we are sure, will remember the monster mass meeting called by the "Committee of 1000" in the square outside the city hall last Monday, June 4th. At this meeting one of our representatives, Samuel A. Herman, was present and was asked by several workers and strikers to speak. Only after our member had been urged by quite a number of workers to speak, and it was quite evident that no one else would address the crowd, did he consent to say a few words. He called upon the workers to stand solidly together with the strikers to help them picket the Allen-A. Co., and help the strikers out financially as this was not only a strike of 330 workers against the Allen-A. Co. but a strike of the workers of Kenosha against the open shop interests of Kenosha.

Urge Arrest.

No sooner did our representative utter a few words than Mr. Harold Steele, vice-president of the American Federation of Full-Fashioned Hosiery Workers, urged the police to arrest him. To the workers who witnessed this uncalled for incident it was a startling surprise. The workers had previously known only of cases where officials of the open shop Allen-A. Co. urged police to arrest strikers. But this was quite different, a union official ordering the police to arrest a member of a workingclass youth organization, The Young Workers League. We later learned that the reason the arrest was not made was because the police feared it would result in tremendous protests from the thousands of workers present.

Hand in Hand With Police.

Why was Steele so anxious to have our speaker arrested? The Young Workers' League had issued several bulletins to the strikers to conduct mass picketing all day long and thruout the week instead of neglecting to picket the mill or engaging in occasional picketing for a half-hour at a time only two or three times weekly. We urged the strikers to picket about both mills of the Allen-A. Co. and to make special efforts to call out the unorganized, unskilled workers, who are at present working for the Allen-A. Co. and piling up profits, which the firm uses to break the strike. We pointed out to the strikers the growing number of scabs that the company has been able to hire because the strikers did not conduct mass picketing from early in the morning until the evening, thus enabling the scabs to come to the company in the morning without any picket line being present.

We called upon the strikers to force their leadership to take some militant action to win the strike. No sooner did we point these things out to the workers, than the Steele-Budenz leadership began to become alarmed. Unwilling to engage in a real fight against the Allen-A. Co., unwilling to lead the strikers on the picket line and to inspire the workers by their presence, unwilling to call out the unskilled Allen-A workers in the other mill across the street, the reactionary leadership began a campaign against the Young Workers League. They started the attack against us by slandering our organization, though they know we have a record of participating courageously in all struggles of the working class youth.

On Wednesday, June 6, while helping the strikers picket, during the noon hour our member was arrested by police in a vicious manner. The police claimed later that the leaders of the strike did not want members of our organization around the strikers. The reason is plain. The leadership is afraid that our influence will grow among the strikers. They are afraid that the strikers will demand some real militant policy from their reactionary leaders. So the leaders are resorting to the most contemptible methods used by the open shop Allen-A. Co. against the strikers by ordering our arrest.

On Friday, June 8, the Young

ing of workers at the German American Home where the lessons of the Allen-A. Co. strike were to be discussed.

It was evident that the striking knitters received instructions from the union officials not to attend this meeting, for only a few of them were present. It was apparent that some of these were observers sent in by the union officials.

The meeting presented a remarkable sight. The hall was surrounded by police. Detectives took down every word of the speakers.

Here was a convincing proof to all the workers of Kenosha how the exploiters fear the militant policies and leadership of the Young Workers League and the Workers (Communist) Party. But strange to say, side by side with the bosses', police and detectives, were the unofficial observers sent in by the union officials. At the conclusion of the meeting, these observers followed the car in which the speakers were driving, around the corner.

We are sure that all workers will condemn the united front of certain officials of the union with the Allen-A. Co. controlled police against us because we are advocating militant strike policies in order to win the strike. The rank and file of the knitters have never sanctioned such action of the union officials as are described above

We say to the union officials: Fight the Allen-A. Co. and not the militants of the labor movement.

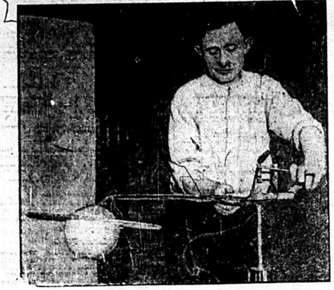
We will not be intimidated. We will continue the struggle in behalf of the heroic locked-out workers.

Our slogans remain as before:

- **Fight for the recognition of the union!**
- **Fight against the two machine speed-up system!**
- **Fight for a 44-hour week and two weeks vacation with pay!**
- **Picket in mass!**
- **Call out the unorganized!**
- **Win the strike.**

(Signed) YOUNG WORKERS LEAGUE OF AMERICA, KENOSHA LOCAL.

New Air Invention to Aid Imperialist War



Claiming that his new type plane will stop short instantly when the propeller is reversed, Thomas Thompson, above, is shown demonstrating with his model. Imperialist propaganda is encouraging the attention of the American youth in the direction of aviation in its preparations for the next war.

CALLS ON SEAMEN TO FORM STRONG UNION

(By a Worker Correspondent)

The bureau of labor statistics of the United States department of labor recently made public a statement of the results of its survey of the amounts actually paid seamen in accident settlements, comparing these with the amounts which would be payable under the provisions of the Longshoremen's Act.

Covering 1,195 cases, the investigation showed, according to the bureau, that in the 899 cases not involving litigation, the average gross settlement was $1,317.03, while the estimated net settlement was $798.22, as compared with an average estimated settlement of $821.07 under the provisions of the compensation act.

Under the provisions of the act, the usual legal fee was found to be 50 per cent, in spite of the fact that the maritime law has long provided that seamen who are sick or injured while employed shall be entitled to treatment and wages until the end of the voyage. An injured seaman is nearly always obliged to sue the company thru a lawyer.

Silas B. Axtell, who is the attorney for the International Seamen's Union and the right-hand man of Andrew Furuseth, president of the union, won notoriety recently when he was tried as an ambulance chaser. Axtell doesn't have to employ chasers, however, as the International Seamen's Union apparently is made to do the chasing for him. Nearly all injured seamen's cases handled by Axtell are never tried in court. The victim is compelled to wait, sometimes for years, and then Axtell gives him a paltry sum which he calls a settlement. Or he gives nothing at all.

One is compelled to question the honesty of a union official who would employ the services of such an attorney to handle legal affairs for the organization. We do not wonder that Axtell knocked the Soviet Union as the workers there would not stand for having such underhand methods carried on by their union officials.

When the longshoremen and harbor workers' compensation bill was introduced into congress in 1926, it included seamen as well as the designated maritime workers, but before its passage the provision relating to seamen was eliminated.

If the 96 per cent of the seamen who are unorganized would organize, their strength could settle the question of how seamen are to fare under maritime law.

JOHN STANLEY MORGAN.

OLD SCAB AIDS LEWIS WAR ON PROGRESSIVES

Fights Save-Union Movement

(By a Worker Correspondent)

YORKVILLE, O. (By Mail).—I am writing to you about a man who belongs to the John L. Lewis machine When we miners went on strike April 1, of this year, Joe Vince, a checkweigman from Butte mine went to work for the Wheeling Steel Corporation at Yorkville. He worked there for over a year as a flunkey "bossing" as we call it.

But now, as the Save-the-Union has got too strong for the reactionary sub-district officials, they have called on him to help them break the strike Sucker that he is, he quit his job at the scab hole, as the Wheeling Company is known to be, and took the job for the reactionary officers.

And now he is going around local unions, trying to get the men to sign the "yellow dogs."

Listen, my dear union brothers when Joe Vince or any other reactionary tries to get you to sign that "yellow dog," throw him out of your hall head first. Because such action is what we call strikebreaking.

This man has also refused to help the relief work. He was working a year and a half around that hole of a Wheeling Steel Corporation while we coal miners were on the picket line getting clubbed, arrested and jailed and trying to get the scabs out. Now he is going around preaching to the people that the Save-the-Union movement is trying to break the strike.

But, brothers, who is it that is trying to break the strike? It is the skunks, low down robbers, thieves traitors, and strikebreakers like John Cinque, Adolphe Pacifico, Walter Jukovich and Joe Vince.

We also want to thank the National Miners' Relief Committee for the relief they sent to Yorkville, O Please publish this so all the good union brothers will know what kind of officials we have in Ohio.

—R. J.

NAME PRESIDENT FOR REICHSTAG

BERLIN, June 17.—Fighting the Communists in the Reichstag elections, the social democratic party yesterday elected their candidate Loebe as president.

As the fourth strongest party in the Reichstag, the Communist Party is now demanding the election of Stoecker as the fourth vice-president. In proposing Stoecker, the Communist Party has rejected the conditions with which the social democrats hoped to shackle it, and is determined to put up its own nominee.

The first vice-president is to be Esser of the centrist party, while Kardoff of the German people's party is to be his second. Graef, of the national party, is the third vice-president. The social democrats had hoped to elect Gertrud Baeumer to this post.

The people's party supported Graef for the third vice-presidency, in defiance of the coalition moves of the other parties.

Moskvin Is Superb in "The Station Master" at the Cameo

At the time Moskvin appeared with the Moscow Art players in this country, he received many offers from motion picture companies to appear in a production to be made in Hollywood. There is still a well-founded report that United Artists have him under contract. He recently appeared in an old Russian film called "Polykushka" and his next appearance will be at the Cameo Theatre in "The Station Master," a Sovkino production which opens today.

In the estimate of most critics "Czar Ivan the Terrible" achieved the highest level in individual characterization. This general judgement was arrived at before "The Station Master" was seen featuring Ivan Moskvin. It is the contention of most of the well-known European critics that in "The Station Master," Moskvin creates an almost perfect cinema portrait and even the German experts considered his performance superior to that of Jannings in "The Last Laugh." In fact many of them call "The Station Master" "a Russian 'Last Laugh'."

WORKERS MERELY ASKED PAY FROM MELON "QUEEN"

Case Made to Appear Holdup

(By a Worker Correspondent)

LOS ANGELES, Cal., (By Mail).—According to reports from El Centro Imperial Valley, Cal., William Williams, alias Joaquin Ojara, 35, Melaland, was jailed recently for failure to pay wages. This is in the zone of the recent strike in the cantaloupe fields

"Strong-Armed" Wage Collectors Arrested.

Another report in The Brawley News reads as follows: "El Centro June 1.—Seven laborers accused by Miss A. Giraudo, 'cantaloupe queen,' of having forced her to write a check for wages undue pleaded guilty to the charge today before Superior Judge Finney and were given suspended sentences of 60 days in the county jail.

"Two of the group, E. C. Cruz and B. L. Lopez, pleaded not guilty and will stand trial. Miss Giraudo declared that the laborers had threatened her with guns and clubs into writing a check for $800."

Not a Holdup.

At first, the master class press made this affair look like a case of robbery, but judging from the "suspended justice" handed out by the judge, that was not the case.

The workers acted a little rough as collectors of their hard-earned money—that's all, according to information gained here. The term "wages undue" really means, it has been learned that the "queen" expected a few days of grace before making out her check But hunger has but little conscience—especially at times when the authorities and exploiters are violating every letter of the bill of rights.

—L. P. RINDAL.

Broadway Briefs

"The Case of Jonathan Drew," an English film directed by Alfred Hitchcock, will be shown at the 55th Street Playhouse the week beginning today.

Barbara Kent and Mary Nolan will play the principal roles in "The Shakedown," from an original story by Charles A. Logue. Barbara Kent has just completed "Retribution" for the British-Canadian Pictures.

Paul Fejos, Universal director, who recently completed "Lonesome," will next direct Conrad Veidt in "The Charlatan," adopted from the play by Ernest Pascal and Leonard Praskins

"By Request" New Nugent Comedy to Open at Windsor

THE first of George M. Cohan's new production of the season will open tonight at the Windsor Theatre. This is the Nugent comedy "By Request," and will have the following cast of players: the Nugents, father and son, Veree Teasdale, Grant Mills, Norma Lee (Mrs. Elliott Nugent), Harry McNaughton and Eleanor Williams. The play will be shown next week and the week after in Asbury Park and Long Branch, coming to Broadway sometime in August.

The Ring Lardner comedy, "Elmer the Great," another Cohan production, is also scheduled for tonight. It opens at the Blackstone in Chicago, with Walter Huston playing the principal role.

Cohan's musical show, "Batter Up!" will be placed in rehearsal sometime next month. Polly Walker, last seen in "The Merry Malones," will have an important role in the production.

ALEXIS DAVOR

Plays the principal role in "The End of St. Petersburg." The Sovkino film of the Russian Revolution is taxing the capacity of Hammerstein's Theatre at every performance.

Louise Groody, musical comedy star, will be one of the principal stars at the Palace this week. Others on the same bill include: Bertha Kalich, who will present "A Light From St. Agnes," a one-act drama written by Mrs. Minnie Maddern Fiske; Harland Dixon; Trahan and Wallace; George and Jack Dormonde; Ross Wyse, Jr., with Mr. and Mrs. Ross Wyse; Ed and Jennie Rooney.

Vaudeville at the Hippodrome will include: Al K. Hall, supported by Fred Dale, Lila Bay and Teddy Andre; Carl McCullough; Naomi Ray and Eddie Harrison; The Mangean Troupe; Anita and Betty Case. The feature photoplay will be "Hellship Bronson" staring Noah Beery and Mrs. Wallace Reid.

Sylvia Clark will be seen on the stage of the Broadway Theatre beginning today. Bobbie Kuhn, 1st; George Broadhurst; Charles Harrison and Sylvia Dakin and Don Cummings are the other acts. The feature photoplay will be "No Other Woman," starring Dolores Del Rio and Don Alvarado.

Famine Sweeps Through Mine Districts As Suffering Grows More Acute

WORKERS' AID IS ONLY HOPE FOR COAL STRIKERS

Suffering Grows More Acute Daily

(Special to The DAILY WORKER.)

PITTSBURGH, June 17. — Delegates and executives who attended the mine conference here Wednesday at which the call for a national miners' convention was drawn up, on returning to their home districts are faced first of all with the most acute problem of relief for the thousands of miners and their families now in the fourteenth month of the strike.

Appeals reaching the offices of the National Miners' Relief Committee are in most cases of the most urgent character picturing the most abject and acute suffering. A virtual famine is sweeping over the mine areas at a time when "prosperity" is the slogan of the big business interests of the country.

Those who issue this slogan and seek with it to continue their deception of the working class will, of course, do nothing to relieve the suffering of the miners, their wives and children. Only the workers can be looked to in this great extremity. The National Miners' Relief Committee of 611 Penn Ave. yesterday issued another urgent appeal for funds which means actually the saving of life in the mine districts.

MELON PICKERS STILL SUFFER

15 Cents a Crate Not Living Wage

(By a Worker Correspondent)

LOS ANGELES, Cal. (By mail).—Cantaloupe pickers in Imperial Valley, Cal., continue to have considerable trouble with the authorities and the growers. The masters are jailing and fining the workers on various charges.

Francisco Hermandez, one of the 10 directors of the new Mexican labor union that made demands upon cantaloupe growers for increased wages for picking, has been sent to jail to serve a six-month suspended sentence, according to the Brawley News. The reason for the jailing is said to be that he failed to carry out the judge's order to shake the dust of the Imperial Valley off his feet and leave for a healthier climate.

Organized Power Opened Jail Doors.

Seventy, or more, Mexican strikers were jailed about 3 weeks ago. Their bail were fixed at from $250 to $1000. The latter sum was demanded in at least five cases. The bail of four workers was reduced to $500. But the judge made an exception in the case of the one-armed interpreter-director, Hermandez. So, rather than stay in jail, he pleaded guilty of vagrancy and received a suspended sentence. Although the majority were unable to put up any bail, all the rest of the workers refused to plead guilty and were released shortly after with the same status as they had before the strike.

Organized power and the smell of rotten melons opened the jail doors before the trial date, June 6th.

Hermandez made a mistake by pleading guilty, it seems.

It is admitted all around that skill is necessary to handle the crop the right way, but the growers don't like to pay for expert work. Even the increase from 12 cents to 15 cents a crate doesn't create a decent wage scale. And too much speed-up makes careful grading next to impossible—even for old-timers in the picking game. Ordinary speed means small wages, and rush stands for fines, black-listing and jailing, etc.

Waiting for Exploiters.

While the workers have to go through all kinds of hardship—including extreme heat, sometimes 110 degrees or more—the exploiters are sending their women and children into cooler places for a summer vacation. It is estimated that 9000 now are on their way to coast cities and mountain resorts, etc. The workers must sweat and slave and pay the bills of the parasites.

The press and commercial bodies, etc., are boasting about prosperity. Except for the heat, Imperial county is a paradise on earth, they say.—Yes, for the idle rich! But it is a hell-hole for overworked, underpaid, persecuted and prosecuted toilers. When will the labor movement of the Southwest take hold and inject some sunshine into the lives of the workers? To ignore the Mexicans and their struggles is a ruinous policy for the workingclass as a whole in this part of the country.

No Trials for 70 Strike Leaders.

The last report reads: "El Centro, June 2. Following consultation in which Dist. Atty. Elmer Heard, Mexican Consul H. E. Torres, Dr. Louis Balech of the state labor statistical bureau and Attorney Alfred Blaisdel, counsel for the defendants, participated, charges against 70 Mexican laborers were summarily dismissed in Imperial county court today.

"The Mexicans were arrested and charged with disturbing of the peace following recent strikes in the cantaloupe fields. The date of the trials of the men was set for June 6. Blaisdel had insisted on separate jury trials for the men."

—L. P. RINDAL.

Tammany Shows Its Pay-triotism on Flag Day

In appreciation for its opportunities to wallow in graft in all departments of the city government, Tammany Hall participated in the "flag day" ceremonies the other day. In photo, John Voorhis, grand sachem of Tammany (left) with acting grand sachem T. Darlington at the Sons of the Revolution exercises at City Hall.

MORE TAMMANY GRAFTERS OUT

While sentence of those already found guilty in the Tammany street cleaning graft scandals for reasons is being postponed, three more men, all employed in Manhattan, were yesterday dismissed from the department.

The three are Henry M. Lawrence, of 57 Lexington Ave., Brooklyn, assistant foreman of section No. 3; George H. Lake, of 2 St. Andrews Place, Brooklyn, foreman of section 14; and Henry M. Gerraty, of 434 East One Hundred and Fifty-seventh St., the Bronx, foreman of section 30.

How the Grafter Hides.

Dismissal was announced by Commissioner Alfred A. Taylor, believed to be the one higher up in the graft scandal and whom Mayor Jimmie Walker has been protecting.

At the same time, Taylor announced that the three would not be prosecuted criminally. No reason was given for this stand, but it is believed that there is fear of revelations against those really responsible for the systematic steals.

For the third time, indictments said to have been voted by the New York County Grand Jury against others known to be guilty did not materialize. No reason has been given to account for the delay.

Another Delay.

Sentencing of William J. Oswald William J. Lougheed, and Benjamin Stoeber has been postponed for a week. This is but another indication of the pressure Tammany Hall is exerting to save its guilty henchmen. Attorneys for these convicted men have charged that they were only minor offenders and that those higher up are being shielded.

Trick Cuban Workers To Nicaraguan Shops

SANTIAGO, Cuba, June 17. — Promising fabulous wage rates to Cuban workers who will go to Nicaragua, an employment agency in Santiago is taking a fee of $7 each from recruits for this migration. Severe unemployment in Cuba, due to business depression, has driven many workers to gamble on the truth of the claim that in Nicaragua they will find jobs at high pay.

SOLD FAULTY MILK.

MILWAUKEE, Wis., June 17. — Dirty milk, sold here recently, resulted in a $25 fine imposed on Peter Basting, Pewaukee, in district court here today. He was arrested by health department inspectors.

$200,000,000 COAL MERGER PLANNED

One hundred coal operators of Virginia and southern West Virginia will form a $200,000,000 bituminous coal merger according to information made public yesterday.

Representatives of these open shop organizations are planning a meeting for next Wednesday at the Waldorf Astoria Hotel at which the proposed consolidation will be formally outlined.

CLOAKMAKERS TO SEND ORGANIZERS

After successfully concluding the first steps towards launching the organization of the practically unorganized cloak and dress manufacturing shops in the New York market by beginning the formation of the Volunteer Organization Committee of 500, the Cloakmakers' National Organization Committee yesterday made public decisions at its last meeting to broaden out the campaign by appointing three field organizers to accelerate the movement and coordinate the work in all cloak manufacturing centers.

• • •

Meeting Monday.

A meeting of all those registered in the Organization Committee of 500 has been called for Monday evening, immediately after work in the office of the Joint Board, 16 W. 21st St.

This meeting will concern itself mainly with the formation of basic units of ten committeemen each. Captains will also be appointed according to the original plans of the general meeting of the Committee of 500.

Charge Against Fake Wool Co. Dismissed

BOSTON, June 17. — The Federal Trade Commission announced yesterday that a complaint of the commission against the Suffolk Knitting Mills of this city, charging use of such labels as "all wool" and "100 per cent all wool" to describe sweaters containing a large mixture of cotton has been dismissed by the commission.

Says United States Is Big Drug Consumer

"The United States is the largest consumer of opium in the world, and no healthy nation uses opium to the extent that America uses it," said Miss Sara Graham-Mulhall, former deputy commissioner of the New York State Department of Narcotic Drug Control in an address of habit-forming drugs.

HILLMAN WILL NOT PROBE INTO CLOAK UNION GRAFT RING

Fires 3 Goats; Gives the Higher-Ups Whitewash

With citation of fact after fact, showing the slimy history of graft in the Amalgamated Clothing Workers Union in the past few years, the Jewish Communist Daily Freiheit editorially exposes as the rankest hypocrisy the statements of Sidney Hillman and his socialist organ the Jewish daily Forward that the Communists are the only ones attacking Hillman after the graft exposures, and that they are sorry to see those indicted for graft dismissed from the union. The Forward also declares that Hillman is being flooded with congratulations for his speedy dismissals of the three indicted officials, doing nothing about the high-ups involved.

The editorial proves that Hillman, as well as the other high officials of the Amalgamated, have known for years of an existing and a functioning system of graft and corruption, while neither investigated nor acted with speed in the matter. This was because Hillman could not maintain control without the assistance of his corrupt machine. Some of the facts cited are:

In November 1924 Hillman received an affidavit from Samuel Sekuler, former secretary of the former Section B of Local 10, containing serious charges against the officials in the childrens' clothing locals. Sekuler therein charges that special taxes had been levied on the membership and were pocketed by the officials. Hillman being among those named, that workers were fined heavily for infraction of rules and that these fines also were pocketed; that collections for sick members were made and divided among the officials.

Three contractors, Ratir, Jeffe and Farner, came with charges of extortion in 1923, against Louis Stein, the official whom Hillman has now discharged. Stein and his agents demanded money from these employers declaring to them that they needed it for election expenditures in order to beat the "lefts." Hillman did not investigate the charges of the three employers. He gave the case to the Children's Clothing Joint Board which was headed by a partner of the grafters and the man who is now the chief witness in the present graft exposure. This is B. Levy who at that time was told to investigate his own partners.

The same B. Levy, in 1927, became severely ill. His fellow officials immediately organized a benefit lottery, and sold $1,700 worth of raffle tickets. Out of this sum Levy received an insignificant amount, having been betrayed by his own fellow grafters.

Sunday, June 24, Passaic, N. J. Workers' Home, 27 Dayton St., 7:30 P. M.

LAUNCH ELECTION DRIVE AT PICNIC

Interest in the Red Picnic, which will mark the formal launching of the New York State Communist election campaign, increased yesterday with the announcement of the unusual program in preparation for the event.

The Picnic which is to be held at Pleasant Bay Park on June 24 will follow the pattern of great demonstrations such as the Russian workers make of their field days. The Russian sport festivals are Olympian in the best sense of the word encouraging the youth to develop skill and physical strength, endurance and intelligence such as the working class must have in Soviet Russia to withstand the dangers which they are yet to face.

Raise $10,000 to Aid Palestine Betrayers

An additional $10,000 has been cabled to the Histadruth (Federation of Jewish Labor) in Palestine by the National Labor Committee, which is conducting a campaign to raise $300,000 for the Histadruth in this country. The committee had previously transmitted a total of $70,000.

The money, which is being raised largely among wealthy Jews in this country, will be used by the reactionary Histadruth to further its work in behalf of the Palestine capitalists whom it is aiding in the persecution of militant Jewish workers.

Kate Gitlow to Be Honored Here

Kate Gitlow, veteran Communist organizer, will be the guest of honor at a banquet given her by the United Council of Workingclass Women at Manhattan Lyceum, 66 E. 4th St., Saturday evening, June 23. She has just returned from a six months' visit in the Soviet Union.

At the banquet she will report on the progress of working women in European countries, and particularly in the U. S. S. R.

Cedar Rapids Police Demand 8-Hour Day

CEDAR RAPIDS, Ia., (FP).—In an effort to secure an 8-hour day, the policemen of Cedar Rapids appealed to the Linn county district court for an order to instruct the city council to submit the matter to a popular vote.

Judge F. L. Anderson dismissed the petition, stating that in agreement with the city attorney he does not consider the matter is one which properly comes under the referendum statutes.

WOMEN TO HOLD SECOND MEETING IN NEW YORK CITY

N. Y. Federation Will Emphasize Relief

The second delegates' conference of the New York Working Women's Federation, to be held Thursday evening June 21st at the Labor Temple, will be greeted by a representative from the Pennsylvania mine strike area, a miner's wife who will address the federation on the role played by women in the mining strike. She will stress the acute need for a strong display of solidarity between working women engaged in other industries and the wives of the embattled miners.

According to Ray Ragozin, Secretary of the N. Y. Working Women's Federation, the dominant note of the second conference will be the question of miners' relief. This will carry on the work commenced at the initial conference of a few weeks ago, at which the federation was formed by the National Miners' Relief Committee.

WAITERS' UNITY STRIKE NEW SHOP

The Waiters' Unity Organization of 105 Rivington St., has called a strike against the Isaac Gellis Delicatessen, 1446 St. Nicholas Ave., near 182nd St., it was announced yesterday by David Siegel, secretary of the organization. The strike has been called for union recognition and for increases in wages.

The Isaac Gellis "Kosher" Delicatessen and Restaurant which is owned by Pulver and Haas, said to be members of the socialist party, advertises its goods over the Debs Radio Station, which is operated by that party.

The Waiters' Unity Organization has appealed to workers who previously have patronized the firm to be informed of the strike.

USSR Oil Exports Grow

MOSCOW, USSR., June 17.—The Oil Syndicate exported 3,560 tons of benzine and 20,350 tons of petroleum to Persia during the first half of the current economic year. In Baku the construction is being completed of new can works with a yearly production of 1,000,000 cans specially for export of oil products to the northern districts of Persia.

Norris Is Also Necessary to Capitalism

Senator Norris of Nebraska is a member of the party of finance-capital.

The republican party exists only to facilitate the business of government, the suppression of the masses, the exploitation and enslavement of the working class, the exploitation and expropriation of the farmers for the benefit of the bankers, and the furtherance of American imperialism by fire and sword (and diplomacy backed by the sword) throughout the world.

Norris is a member of the republican party.

The republican party has consistently nominated for president the candidate who most nearly represents "these ideals," as Mellon would say.

Yet Mr. Norris reacts to the Hoover nomination with these rude words:

> "The rank and file of the great republican party will be disgusted and humiliated, but the power trust, as well as the Hoovers, the Daughertys, the Sinclairs, the Dohenys, the Falls, the Smoots, the Hayses, the Lenroots, the Fesses, the Moseses and the machine politicians everywhere, will be happy and delighted.
>
> "If this program is endorsed at the polls, it will be the duty of the senate when it reconvenes in December to apologize to Power Trust Insull and his man from Illinois, for whose election he contributed more than $100,000 to seat Boss Vare, the representative of the Philadelphia political machine; to reinstate Daugherty; to apologize to Sinclair and Doheny and to pass a law returning to them the property which the Supreme Court of the United States said they had fraudulently obtained; to give a certificate of character to ex-Secretary Fall; to ask for the pardon of Miller, who has been sentenced to the penitentiary; to destroy the incriminating evidence which the investigation brought forth of the fraudulent profits of O'Neil and Stewart; to invite Blackmer to return from his hiding place in Europe and to receive him in good society with open arms; to condemn the Supreme Court of the United States for declaring that the Fall-Sinclair-Doheny deals were disgraceful and fraudulent; to call upon the Federal Trade Commission to cease its investigation wherein it is disclosing the sinister attacks upon our government by the power trust, and to ask forgiveness for all its activities in disclosing fraud and dishonesty in high official places."

Senator Norris is absolutely correct in branding Hoover with the mark of Teapot oil. But he makes some mistakes. "The rank and file of the great republican party" will not be "disgusted and humiliated." It will go to the polls and vote for Hoover.

Norris is also wrong in saying that the senate when it convenes after the election, will have to apologize to the Power Trust, to Boss Vare, Daugherty, Sinclair, Doheny, Fall, Miller, O'Neil, Blackmer, Stewart, etc., etc. The senate will not have to apologize to any of the crooks of Teapot Dome, for these gentlemen know perfectly well that the senate has done them no harm, but has protected them. None of them is in jail. The fire-works in the senate were unavoidable. If Mr. Vare was not seated in the senate, nevertheless he remains one of those who dictates the course of government and chooses the president.

But it is outrageous for Senator Norris to say that the senate will have to "call upon the federal trade commission to cease its investigation" of the Power Trust. This investigation is as necessary to the Power Trust as are the turbines of its power plants.

The Teapot Dome investigation ended with a slavish eulogy of the highest chief of oil-company corruption in the United States—John D. Rockefeller, Jr. It is immediately followed by the triumph of the same Coolidge-Hoover-Mellon gang in national politics as the representatives of "ideals."

Such senate investigations are necessary to preserve the illusions of the masses in the government of finance-capital.

Also Senator Norris is necessary. Senator Norris, member of the same republican party, is a supporter of capitalism, which means the exploitation of labor, the ruin of the farmers, the suppression and demoralization of the masses. Norris criticizes capitalism while supporting capitalism. By raving against "sinister attacks upon our government by the Power Trust," Mr. Norris, no less than Mr. Berger of the socialist party, helps to obscure the fact that the Power Trust is "our government." The merger of the government bureaucracy with the biggest banking interests together with the industrial trusts, including the Power Trust, is the United States government.

Norris is useful to finance-capital somewhat as canary birds are useful in mine-disasters. Canary birds, being very sensitive to gas, quickly give signs of the slightest danger.

The screeching of such men as Norris to the effect that capitalism can be made to reform itself so as to be beneficial to the farmers, keeps many thousands of farmers blindly trusting the capitalism which is strangling them.

And Norris is a member of the chief party of finance-capital.

Workers and farmers can make themselves effective in the fight against capitalism only by supporting the party that is opposed to capitalism.

There is only one party opposed to capitalism.

It is the Workers (Communist) Party.

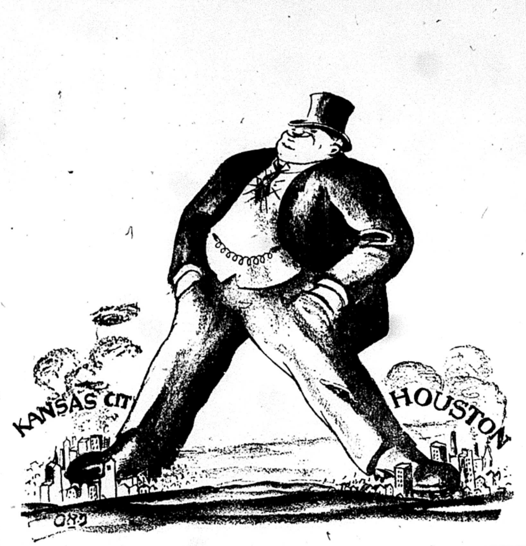
Vote Communist.

But voting will not destroy capitalism.

Join the Workers (Communist) Party and fight capitalism not only during the period of elections, but at all times and on all fronts until it is overthrown.

WALL STREET OWNS BOTH

By M. Pass



CAMP FOR CHILDREN OF WORKERS OPENS SOON

Rowing, swimming and fishing are but a few of the vacation pastimes available to the children who will attend the Workers' International Relief Camp at Wingdale, New York. A sports director will supervise athletic sports and contests on a spacious athletic field. Evening camp-fire meets, presided by camp counselors, will be enlivened by songs, games, and discussions.

Hikes and field-trips will be the laboratories for nature, study and wood-craft. The children will accumulate natural objects of interests in a special muse um corner, and contribute to a wall bulletin especially devoted to science and invention.

Each group, coming to camp for two weeks, will be given opportunity to write stories, plays and areticles for their edition of the camp magazine. Under trained instructors, they will also read and discuss juvenile literature depicting the life of the working class, or of historical interest. Plays, written or dramatized by themselves, will be presented.

American history and the struggle of the workers, their parents, under the capitalist system, will have important place in the educational program.

The low rate of $8 a week per child, barely covering the cost of the food, stamps this project as a real working-class camp. Yet the exceptional facilities and its location in White Rock mountains on a lake-site, offer vacation opportunities equalling and even surpassing those of high

HANdOuTS

The reputation of the New York police, known over the country for their brutality to strikers, especially women, will not be tarnished by the news that a Bronx detective shot a fifteen year old boy.

• • •

Any child can judge from the following paragraph in the Herald-Tribune whether it is the working man or the businessman who gets results from the senate:

"Discrimination against American interests seeking road building and drainage contracts in Greece may force the United States Senate to defer ratification of the proposed settlement of the Greek indebtedness to this country."

250 in Southern Silk Mill Go Out on Strike

Two hundred fifty workers in the Schwartenbach, Huber Company silk mill at Covington, Va., have struck against a wage cut and importation of northern labor, according to reports from Covington.

Child Welfare

Western Australia has a child-welfare department whose functions include the supervision of children placed in orphanages or industrial schools, boarded out with foster parents, or on probation from the children's courts; control of the placement of children for adoption, the payment of mothers' aid, and to unmarried mothers, and investigation of complaints with regard to ill-treatment of children. Children in institutions are required to attend school up to the age of 14, and are then trained for domestic or farming and placed in positions under supervision.

National Nominating Convention

By JAY LOVESTONE

Editorial Note—We print herewith the closing speech delivered by Comrade Lovestone at the conclusion of the National Nominating Convention of the Workers (Communist) Party. It is a summary and estimate of the Convention's deliberations and actions. It was delivered on May 27.

• • •

Let me try to sum up the last two eventful days to you delegates and workers, who have had the very good fortune to attend and participate in the deliberations of the greatest Communist convention ever held in the United States.

I have attended many conventions, Republican and Democratic, as a reporter for The DAILY WORKER, and Communist Party and Socialist Party conventions as a delegate. I have never yet witnessed so genuine, so stirring, so inspiring a scene as the one in which you comrades demonstrated your loyalty to the cause of the working class, demonstrated when the standard bearers of Communism in America were chosen by you today.

Achievements of the Convention.

Before the delegates depart, they should have a clear understanding of some of the achievements of this convention and of some of the questions this convention has answered, not only for the state and fraternal delegations, not only for our Party as a whole, but for the workers and the exploited farming masses of this country.

First of all, we have a good Communist platform—the best Communist platform that our Party has had, a Communist platform on which we can appear with pride, with confidence, with great determination to go forward towards victory.

Second, this convention serves as a splendid basis, a splendid center, to inspire, to mobilize our Party and the workers in the coming election campaign months.

Third, we have chosen sterling, model revolutionists, sterling, model standard-bearers. What more can we ask from a gathering of our Party?

Some Questions Answered

This convention has been a tremendous Communist success from every viewpoint. This convention has cleared up certain questions, I believe, for all of us. I believe this convention has answered four main questions.

Can Communism grow in America? We do not have to answer that question for you comrades and delegates here. I think that the way this convention was conducted, the way you delegates participated—the enthusiasm, the spirit, the militancy, the vigor, the determination—this is the proof that Communism can grow and will grow in the United States. (Applause).

Our Party represents the interests of the whole working class. Our Party has to date attracted to its banner, primarily the most exploited section of the working class. This happens to be largely the foreign-born workers. We are not ashamed of the foreign-born workers, we are proud of them, for it is they who have helped to build the railroads, build the ships, build the factories, which we will take back for the whole working class. (Applause).

This convention disproves one of the lies, one of the slanders, of the bourgeoisie, who say that we are not able to attract native American workers. The native American workers gathered here in our Party convention are as native as there are in the whole country. We are all workers regardless of whether we were born by accident in America or came here by choice.

Our Party is not a Party East of Chicago. Our Party is a National Party from Maine to Texas, from California to Massachusetts. (Applause).

Constructive Force.

Communism is shown by this convention as the most constructive force in the working class, despite the calumnies of the Socialist Party and trade union bureaucracy and other enemies of the working class. Any movement which starts as a movement of social progress, goes forward when it works hand in hand with the Communists. But when it deserts and attacks the Communists, and rejects the Communist leadership, it goes down.

Look at the ex-nationalist movement in China. Fifteen months ago the Chinese national movement swept terror into the hearts of the American, British, Japanese and other imperialists. Remember when our Chinese Party was the brains and heart of the leadership of the then advancing Nationalist forces. Eighteen months ago, the British imperial lion was shuddering and we did not know whether the tail was wagging the lion or vice-versa. Today the imperialists are able to insult, bully, cajole and smash at will the front of the betrayer Chiang Kai-shek. The Chinese National movement is down and out because it has deserted the Communist leadership and has become the home of the agents of the counter-revolution. Keep in mind the different treatment accorded to the Chinese masses when the Hankow concession was redeemed from the British plunderers and the recent massacre by the Japanese imperialists at Tsinan-Fu.

Socialist "Victory."

All the reward that the German workers got from the social-democratic leadership was the Dawes plan—the Dawes chain. This is the bitter fruit of the Socialist victory in Germany.

In Italy, where the Communists were defeated, we have bloody Fascism.

In the Soviet Union, where the Communists won, and where they kept the leadership and power, we have the only workers' and farmers' government in the world. (Applause).

We say to the capitalists of this country that this convention proves very definitely that we in this country have made a good start towards a national election campaign, towards pushing forward working class victory in America. The lessons and experiences learned and lived through by the workers of China, Germany Italy, the Soviet Union, are bound to hold true for the workers of the United States.

It is not an accident that we have with us here delegations of miners from Pennsylvania, West Virginia and Ohio. Where were the miners' delegations at the Socialist Party convention? The only miner at the Republican convention will be John L Lewis. The only miner at the Democratic Convention will be William Green. The miners who are worth while are coming our way. (Ap-

Let us look at the Negro masses Where are the Negro masses insofar as the Republican Convention is concerned? The paltry few that may be around this Wall Street gathering are misleaders of the Negro masses and even these are segregated because of their color. In the Democratic convention, the only welcome the Negro might get is the welcome of a lynching party. The Socialist Party? It had only one, and at that a misled Negro delegate.

The character of our Negro delegation is a tribute to the fact that the Communist Party is the only one that is ready to fight for the Negroes as well as for the other exploited and oppressed. (Applause). The most significant step in the history of our Party since its inception is the determination to go South, and to begin the difficut and dangerous task of smashing the solid South. Our Party aims not only to stop lynching, but to punish effectively the lynchers and to destroy the whole lynch system. Our Party hails and welcomes the Negroes. We are of them and for them. (Applause.)

The farmers: We have here dirt farmers. Senator Capper, a multi-millionaire newspaper owner among farmers, is the best farmer the Republican Party convention will have. There probably will be a little less wealthy farmers at the Democratic convention. The agricultural workers, together with the exploited farming masses, will yet be aroused to a mass struggle against the enemies of the workers in the cities, who are their enemies also.

Nor is it an accident that the Haitians, the Chileans, the Peruvians, —the colonial and semi-colonial masses—have sent delegates to this convention. We are their Party.

Working Class Traditions.

And it is not an accident that our Party is the inheritor of the best traditions of the American working class. Our working class has some splendid traditions—the traditions of Haymarket, the traditions of heroic strike struggles, the best of the traditions of every struggle and movement for the enhancement of social progress. We have inherited the best that was in anarchism, the best that was in syndicalism, the best that there was in the whole Socialist Party. The spirit of Ruthenberg and Debs and Haywood, the spirit of the Haymarket martyrs, the spirit of our dead leaders, and the spirit of vigorous youth coming forward, are ours today. Here is the best proof that our Party has inherited all that has been and that is most worth while in the American working class.

Last but not least, this convention has answered the question whether our Party will participate successfully in the election campaign. We, in splitting from the old Socialist Party, spurned and spat upon, reacted bitterly against the old parliamentary fakery and cretinism of the Hillquits and Bergers. In this wholesome reaction, we developed certain dangerously wrong syndicalist ideas and attitudes. This convention deals a mortal blow to these mis-conceptions. You delegates are going back to act as Leninists in this election campaign without socialist illusions and without syndicalist fears—in the most brutal, the most powerful, capitalist country. (Applause.).

On to Work and Fight!

You must go back to work. Work, work and fight! We must get on the ballot. To our Party the campaign for getting on the ballot must serve as a means of acquainting with Communism, of inspiring, of educating new thousands of working and farming masses. To Communists, getting on the ballot is an entirely different proposition from what we knew it to be and what it still is in the Socialist Party. The fight to get on the ballot should enable us to spread our ideas more widely, to distribute our literature more effectively, and to win new masses to our ranks.

We must do the small, the little things, the dirty insignificant, menial work from the very bottom. Nothing is unimportant. Even the most minute matters—this detail here and another detail there must be properly and promptly handled. You must become leaders in the Party work, in the coming campaign.

Destroy Lewis.

Our election campaign is not a separate campaign from our mining campaign. If we want to help save the miners, we must destroy Lewis If we want to destroy the corrupt Lewis machine, we must work overtime to help the miners. The same principles must guide us in the needle trades and textile campaigns. The election campaign is tied up with the fight against unemployment, against the speed-up system, against company unionism, against the labor fakers, the Socialist Party bureaucracy, the imperialist war in Nicaragua, the fight for recognition of the Soviet Union. The election campaign is a unifying campaign. We count on you to carry it out in that way. We expect you to go back to your territory and to bring back enthusiasm. Nothing is more contagious than revolutionary enthusiasm. Spread the contagion of revolutionary enthusiasm, and our Party will move forward with gigantic strides.

The work of the convention speaks for itself. The election campaign affords us a fine opportunity to build the Party. Keep this in mind above all. Our Party is the only Party, the only organization of the working class which is growing today. You have a very fine start. We want you to keep up the good pace. This convention will help usher in a new and better day for our Party. This convention is a symbol of the fact that our Party is not only a propaganda organization, not only a Party of revolutionary agitation, but is the Party of revolutionary organization of the American working class. Today our Party is the dynamic force in the American working class.

I will close with these remarks You have something to be proud of. You have participated in one of the greatest conventions of this Party of ours. To be a Communist is the highest honor, the greatest and noblest mark of distinction, that a worker can win—involving the most difficult task, the most arduous work. You are the front line fighters, the most advanced battalions of the workers. Communists must be worthy of this highest honor. We want you to be proud of our Party. We want you to fight for your Party, to love your Party, to build a bigger and better Communist Party. We know that you can, that you will do it, that you will work, that you will fight, and that we will take many a step to bring us nearer to victory for the cause of the Communist International in the United States—for the cause of the whole American working class and its allies in the decisive revolutionary battle against the Wall Street imperialists

[illegible]EEK WARSHIPS MUTINY; WORKERS FIGHT TROOPS

Thr[illegible] Pennsylvania Sub-Districts Pledge Support of Big Miners' Convention

POLICE ATTACK FAILS TO STOP ALLEGHENY MEET

Miners Enthusiastic in All Sections

(*Special to The DAILY WORKER.*)

PITTSBURGH, Pa., June 18.—Two sub-district conferences of the United Mine Workers of the Pittsburgh district endorsed the call for a national miners' convention in September to form a new national miners' union. The call was issued by the national conference of the executive officers of the reorganized districts of the United Mine Workers of America and representatives from unorganized territories and the progressive opposition movements in the other districts, held this week in Pittsburgh.

Hold Meeting Anyway.

The sub-district 7, Allegheny Valley conference, which was called to meet in Harwick on Thursday, June 14th, after it was broken up by deputy sheriffs and state troopers, met later in New Kensington with 31 delegates representing 14 out of the 18 locals in the sub-district. The conference endorsed the call for a national miners' convention and elected leading progressives as the new

MINE INJUNCTION IN WEST VIRGINIA

Nine Pickets to Face Trial Thursday

(*Special to The DAILY WORKER.*)

WHEELING, W. Va., June 18. — "You can't strike! Any attempt at strike activity will send you to jail." This is the mandate issued against miners on strike at the Elm Grove and Triadelphia mines of the Elm Grove Mining Company by the most drastic injunction issued in the present mine war. The injunction, granted to the company, names the Save-the-Union Committee which is leading the strike and 75 individual strikers. The restraining order forbids doing "anything in furtherance of the strike."

Among the actions interpreted as "furtherance of the strike" the 15 sections in the injunction name "conspiring to interfere with employes of the company, making employes break contracts of service, inducing employes to leave the mine, establishing picket lines adjacent to the mining property, congregating near the premises of the mining company, going to the homes or boarding houses of miners to induce them to leave work."

AUSTRIAN LABOR CONGRESS OPENS

Reformist Group Finds Loss in Membership

VIENNA, June 18.—The Tenth Congress of the Austrian Trade Unions opened here today, with 350 delegates and many guests from foreign countries present. Reports submitted during the session showed that there had been a tremendous falling off in membership in the five years that have elapsed since the last congress was held.

The question of trying to rejuvenate the organization was so pressing that not once during the entire session was an economic question even broached. The congress occupied itself with organizational matters, and futile plans for bringing its membership lists to a higher level, numerically.

Military Welcome

Captain Carranza, the Mexican aviator, was brought to city hall by Grover Whalen and received New York's formal official welcome from Mayor Walker.

TO SAVE THE "DAILY" $1,170 MORE NEEDED

Balance to Complete $10,000 Must Be Received Before 6 p. m. Wednesday

To the Readers of The DAILY WORKER.

Comrades:

Yesterday's receipts in the campaign to save The DAILY WORKER were $505.48.

This leaves the amount of $1,170.99 to be raised TODAY and TOMORROW. If we succeed in raising this sum of approximately $600 today and $600 tomorrow, the total of $10,000 demanded by our creditors will be completed and The DAILY WORKER, revolutionary fighting organ of the working class of the United States, will be pulled out of the worst crisis that has yet threatened its life.

The receipts of the campaign up to last night are:

Week beginning June 5:

Monday	$ 161.99
Tuesday	464.55
Wednesday	556.30
Thursday	576.60
Friday	695.00
Saturday	705.77

Last week (beginning June 10):

Monday	1,660.40
Tuesday	661.20
Wednesday	712.65
Thursday	670.40
Friday	716.81
Saturday	741.86

This week:

Monday	505.48
Total to last night	$8,829.01
Still to be raised	$1,170.99

Comrades, the danger now lies in the very low receipts that came in Saturday and yesterday. We are close to the goal, and you are urged to do all in your power to put this drive over the top with the full $10,000 which is just as necessary today as it was at the beginning of the crisis when the creditors came to us with an ultimatum in which they declared that our Communist fighting paper would be forced to close its doors unless we could secure that sum by last Saturday night.

We did not succeed in getting the sum by that time, but we succeeded in getting an extension of time which now will expire Wednesday.

We realize fully that it is our duty to cut down expenses to the lowest possible minimum. To this end we are striving to secure the printing of The DAILY WORKER on a more economical basis at the Workers Center, 26-28 Union Square, than the very wasteful basis on which it has been published in the old plant at 33 First St. Modern machinery produces more cheaply than old, broken-down machinery with its slower methods and waste of the labor-time of printers, stereotypers and pressmen.

Inspired by the splendid response with which the militant workers who read The DAILY WORKER have met our call of distress, we will do our best to live up to your trust and to utilize your help by transferring to the more economical plant. Further, we can give you a very much better DAILY WORKER if we can make the change.

The dangerously large sum of $1,170.99 remains to be made up in order to meet the creditors' terms. There can be no further extension of time. We therefore urge you to redouble your efforts to send to this office the largest possible amounts today and before tomorrow evening at 6 o'clock, the last moment of the creditors' ultimatum.

Send by telegraph, airmail or special delivery to The DAILY WORKER, 33 First St., New York.

THE MANAGEMENT COMMITTEE.

Imperialists' Holiday at Governor's Island Garden Party

Realistic rehearsals of murder featured the special military carnival and garden party held at Governor's Island, New York City, recently. The imperialists, and their women, applauded vigorously as the soldiers dashed forward in the mock charge shown in the picture. To make the carnival as gruesomely realistic as possible, pigs, sheep and chickens were requested from various growers.

U. S. SOLDIERS READ COMMUNIST LEAFLET

By PAUL CROUCH.

While a fake lawn battle supposed to represent war was being staged by the U. S. army on Governor's Island on Saturday; two thousand leaflets were distributed to the soldiers by twelve girl members of the Young Workers (Communist) League, pointing out that the "battle" is a preparation for the next imperialist war. The empty talk of pacifist tools of militarists about "disarmament," "peace treaties," etc., at the time actual war exists against Nicaragua and new wars are being prepared was pointed out by the leaflet. After an account of the growing struggle between imperialist countries, the leaflet called attention to the danger of war against the Soviet Union. It was signed by the Workers (Communist) Party and the Young Workers (Communist) League, District 2.

Read Eagerly by Soldiers.

Soldiers who received the leaflets read them carefully and put them in their pockets. Some scattered on the ground by the League members were picked up by the soldiers. Although most of them had never given any thought to these matters before, the greatest attention was given to the leaflet, which also presented some immediate demands such as increased pay and food ration, allotments for dependents, election of non-commis-

Try Politician

OSSINING, N. Y., June 18. — Fred D. Grannis, superintendent of streets of Ossining, today faced a technical charge of homicide following the death yesterday of Stanley Jones, 14, son of Mr. and Mrs. Lewis Jones, of Bell Avenue. The boy died of a fractured skull received Saturday when he was hit by an automobile said to have been driven by Grannis, who is at liberty on his own recognizance.

Fear More Floods

KANSAS CITY, Mo., June 18. — Flood warnings were issued along the Oklahoma and Kansas river valleys today following weekend tornados and rains which did property damage of $2,000,000. Heavy rainfalls Sunday had swollen streams out of banks.

Eight lives were lost in Oklahoma in a tornado Saturday night which destroyed large portions of the towns of Blair and Headrick. Several tornados swept over Kansas City night and early Sunday but no lives were lost. Several persons were injured in Twisters near Tutchinson and Emporia.

LETTERS SHOW NEED OF "DAILY"

More Support Urgent to Save Paper

Letters that continue to pour into the office of The DAILY WORKER every day tell the tale of the workers' devotion to their paper. The entire page of such letters published in yesterday's "Daily" are only a few of the hundreds that have been received.

The letters indicate eloquently what The DAILY WORKER has come to mean to the class-conscious workers of this country. Great sacrifices of all sorts have been made by the workers in order to save their "Daily" from suspending publication. But The DAILY WORKER is not yet

(*Continued on Page Three*)

THE DEATH OF ZLADIS SLOTI, MINER

Pennsylvania Coal Digger Killed by "Fall of Rock" in Mine

By ED FALKOWSKI.

TAMAQUA, Pa. (FP),—A few lamps flickered about the top of the shaft. It was quite late at night, and the ambulance waited with sullen patience. In the nearby patch women stood on their front porches, watching curiously. In each of them was the hidden thought: "Thank goodness, my man is home!"

A few barefooted kids ran to the top of the shaft to see. Slowly the rope vibrated, drawing up the cage. The ambulance doors swung open. A few grim miners in big boots stood waiting. They spoke only in coarse whispers.

At last the cage landed. Two miners were on it, their lamps flaming brightly. On the floor of the cage was a blanket-covered figure. The blanket was stained with blood, and the face of the figure was covered completely. Beneath that gray flannel blanket lay Zladis Sloti of Tamaqua.

"A fall of rock," whispered one of the miners. This little phrase explained everything. As though there should be falls of rock, and miners should be carried out in this fashion!

THEY slid the stretcher into the ambulance. Another miner came with Zladi's dinner-can, which he also placed inside the car. A mournful honk, and the ambulance was off, slowly pushing over humps of dirt and over ruts.

But before it reached the hospital, Zladis breathed his last. His right side crushed completely under a few ton of rock, he failed to reach the hospital alive. There was nothing left now but to take him home where his wife and three children would suddenly realize the tragedy that is part of the normal operation of the hard coal industry.

CALL WORKERS TO TAKE ACTIVE PART IN ELECTION DRIVE

Workers Party Call Outlines Tasks

An appeal to the members and sympathizers of the Communist movement of the country was yesterday issued by the Central Executive Committee of the Workers (Communist) Party of America urging the workers to prepare for an intensified participation in the local, state and national election campaign and especially pointing out the concrete tasks to be taken up.

The statement follows:

Intensified Campaign.

To the membership and all units of the Party!

Comrades:

We are now entering the next stage in our election struggle. It is the decisive stage of intensive agitation and propaganda for our program, our class struggle election platform, our candidates and our Party.

The National Nominating Convention, held in New York City, May 25 to 27, adopted the election platform of the Party and nominated its national candidates, Wm. Z. Foster and Ben Gitlow. It is now the task of the Party and its tens of thousands of sympathizers to bring the convention message to the toiling masses of the country. It is now the task of our entire movement to mobilize the widest possible support for our Party and against the capitalists, infusing the campaign with revolutionary consciousness and determination to struggle.

It was a great and successful convention that adopted our platform and selected our candidates. It was genuinely representative of all sec-

Torture Young Worker

The fascist Horthy-Bethlen regime of Hungary, which is in existence by grace of Wall Street, has tortured thousands of workers and peasants since it crushed in blood the Hungarian proletarian revolution. Above is Zsoltan Weinberger, one of the leaders of the Hungarian Young Communist League, who is now being tortured in one of Horthy's dungeons for his devotion to the workers' cause.

DONETZ PLOTTERS PAID BY GERMANS

MOSCOW, U. S. S. R., June 18.—The accused engineers, Vladimirsky, Potemkin, Stelbring, Vahikovsky and Yussevitch were examined in yesterday's session of the trial of the Donetz counter-revolutionary plotters.

They testified that Baschkin, the confidence man in Berlin for the sabotage group, proposed Yussevitch as the connecting link between Charkov and Berlin and Paris.

The central group at Paris gave Yussevitch and the accused engineer Matov 250,000 francs apiece for sabotage. Yussevitch was appointed to a post in Moscow which was not mentioned in the course of the trial.

Yussevitch made a number of vain attempts to deny his receipt of the sabotage money. Charkov confirmed the statement that Yussevitch was a member of the leadership of the sabotage organization.

WORKER SHOT IN STOMACH, JAILED

SAN JUAN, Porto Rico, June 18.—Suffering from a shot in the abdomen fired by a police officer, Jesus Matos, Porto Rican worker, who attacked and stabbed Antoni Barcelo, president of the Porto Rican senate, was hustled off to jail yesterday.

Barcelo, who has a long record as a Porto Rican politician, received only a slight wound in the side. He was returning from a voyage to New York where he had been awarded an honorary degree by Colombia University in recognition of his services to Wall Street imperialism.

STREET BATTLES RAGE AS STRIKE GRIPS GREECE

Report Bloody Clashes in Piracus, Saloniki

(*Special to The DAILY WORKER.*)

PARIS, June 18.—One entire squadron of the Greek fleet has joined the revolt of the workers against the Greek government, according to late despatches from Athens.

Spread of the open conflict between the workers and police and troops which the government is hurriedly calling out is reported from towns as far apart as Drama and Saloniki in the north and Pireaus, the port of Athens where bloody fighting is reported to be raging in the streets.

Hundreds of strikers in all industries have reenforced the strike. The entire water system of Saloniki is tied up by a walk-out which is depriving the city of its accustomed water supply.

The arrests of leaders by the government, as a desperate measure to stem the revolt, has only increased the rage of the striking workers.

TAMMANY READY FOR CONVENTION

Farm Revolt Brings Fear to Old Parties

Geo. Van Namee, manager of Gov. Smith's convention campaign, entrained with a party of friends for Houston today. They will arrive on the scene of the democratic national convention Wednesday afternoon six days before the convention opens.

Van Namee, who is a public service commissioner and for this reason is probably violating the law in acting in the capacity of fund gatherer and campaign manager, was accompanied by Howard Cullman, member of the port authority and Geo. C. Norton, a friend of Governor Smith.

At Buffalo they will be joined by Norman E. Mack, exposed Tammany grafter and democratic national committeeman from New York and Mrs. Mack.

"Gov. Smith will have 650 delegates instructed for him at the start of the convention and we are confident of his nomination on an early ballot," said Van Namee, who declined to predict just what ballot.

* * *

Farm Revolt Spreads.

(*Special to The DAILY WORKER.*)

WASHINGTON, June 18.—The massive republican steam roller which in the past few weeks has flattened out every real and apparent opposition to Hoover, Wall Street candidate for the presidency, is now seen to have been operated by entirely too clever maneuvers and betrayals. Even the politicians who were most elated at their great "triumph" are now asking themselves if the "victory" really extends very far beyond Kansas City.

The farming sections, it is now admitted, are up in arms not only at the complete betrayal written into the republican convention, but are enraged equally at some of their "friends" whom they originally trusted, among whom are McNary, Curtis, Borah and others.

Reacting to this pressure from the farm districts, Senator George W. Norris has bolted the Hoover-Curtis ticket and made a bitter attack on both nominees. It is clear, of course, that Norris' stand is dictated by the fact that he knows the temper of the farmers better than, for instance, Curtis and is not as confident of his ability to "put over" such a deal as was made by Borah and Curtis both of whom went over to republican reaction and more recently by McNary, who several days ago likewise cashed in to the republican political chest the following which his farm "opposition" had gathered up. The character of Norris' bolt at the same time may be seen from the fact that he is careful to announce that he will not offend the powers that be to the extent of forming a third party. It is

(*Continued on Page Two*)

Textile Barons Try Ancient Ruse--Hope to Open Strike-Bound Mill Gates

URGE INTENSIVE PARTICIPATION IN ELECTION DRIVE

Workers Party Call Outlines Tasks

(Continued from Page One)

tions of the country, all groups of the American proletariat and all phases of its struggles. Negro and white, man and woman, youth and adult, North, South, East and West, all fused into one proletarian revolutionary body for the fulfillment of the historic mission of the American working class. Mining, textile, metal, garment, marine, railroad, general transport, building, agriculture, from all working class battle-fronts they came to the convention to lay the basis for and open the election struggle of the Workers (Communist) Party.

This basis has been laid. Now, to the mobilization of the toiling masses for a successful election campaign.

Several vital immediate tasks must be accomplished in the process of mobilization.

No Slackening!

1. The placing of the Party's national ticket on the ballot of the respective states. This work was begun prior to the Nominating Convention and was prosecuted reasonably well. More effort and energy must be put into this work now. No slackening is permissible. The Party's national ticket must be on the ballot in as many states as was decided upon by the National Election Campaign Committee.

2. State and local candidates and platforms. The Central Executive Committee has been stressing continually the necessity of our Party organization placing local and state tickets, formulating partial demands for the various localities and states and integrating this work with the national campaign of the Party as a whole. We again repeat and emphasize the need of this being done. Without an energetic struggle on local issues, and with local candidates, there can be no successful national campaign and vice versa.

Local Committees.

3. Organization of local and state campaign committees. The preliminary work of organizing these committees must be completed within the shortest possible time. Without them the campaign will not begin in earnest. The respective Party units must see to it that these committees take the field immediately and open up the work of mass agitation.

4. Distribution of campaign literature. The National Campaign Committee is preparing a plan for the nation-wide distribution of the first important items of our campaign literature. These will include the election platform, the acceptance speeches of Comrades Foster and Gitlow, also a brief resume of the platform. Every Party unit must immediately organize and prepare its distribution machinery for this nation-wide canvass of the working class with our literature.

5. Mass meetings and talks. Every Party unit must immediately begin to lay plans and prepare for a series of meetings, outdoor and indoor, by neighborhoods and at factory gates, by sections and cities. National speakers will be supplied by the National Campaign Committee, which is at present also laying plans for national tours for Comrades Foster and Gitlow and many other speakers.

Campaign Fund.

6. The campaign fund. Within a few days, the National Campaign Committee will communicate to the Party units a detailed plan for the raising of the $100,000 campaign fund. This will be a vital part of our general election campaign.

Comrades! In the present struggle, we aim at establishing our Party in the minds of the working masses as the political Party of the American workers. This is a great and difficult task, but one that can be accomplished if our Party and its sympathizers will give their best to the campaign.

The masses are stirring. The high pressure of capitalist rationalization is calling forth resentment and readiness to struggle among wide masses of workers. Our Party is the only Party that can and will supply the necessary political understanding and leadership for the struggle.

The responsibilities are great. But so also are the opportunities for the building and strengthening of our Party and the awakening and organization of the mass of American workers. Let us make the maximum possible use of the opportunities.

Illinois Senator Is Involved ni Election Graft Mess, Charge

CHICAGO, June 18. — Chicago's special grand jury, investigating election crimes, late today named state Senator James B. Leonardo of the [illegible] district, and eleven other men, in the first indictments returned by the special judicial body.

The charge against Leonardo is [illegible] to murder. Five of the men [illegible] have been seized by the police.

YOUNG DAUGHTER OF STRIKING MINER DEAD FROM STARVATION

(Special To The DAILY WORKER.)

ARNOLD, Pa., June 18.—The striking miners of New Kensington and Arnold marched behind the casket bearing Helen Pomfret yesterday morning, as a last tribute to the girl who had fought by their side in the fifteen months of their struggle for union conditions and decent wages. George Pomfret, her father, was playing music and making speeches about conditions in the mining camps, in meetings in Detroit, helping to raise money for the National Miners' Relief Committee when he received a telegram telling about the death of his daughter.

Dr. Farhar of New Kensington told the coal digger that malnutrition was largely responsible for Helen's death. The coroner's certificate very conveniently declares dropsy to be the cause.

"She was working, but we could never get her to take lunch along," Pomfret said. "She'd say, 'If I take lunch, it's that much less supper for all of us. I'm no better than the strikers. We've got to share, to hold out.'"

Nine other children died before Helen. There was always too little money in the house to give them the proper care.

Mrs. Pomfret clings to her last child, a thirteen year old boy. "When he has to work in the mines, I hope it'll be under better conditions than his dad's working. That's why we're all fighting."

Helen was to be married next month to a young man she met down at the aluminum works in New Kensington, only waiting until she turned twenty.

Last Wednesday night she was rushed to a hospital. Four o'clock Thursday morning she was dead. The strike toll is mounting.

Now George Pomfret is going out to speak at more meetings in the big cities, to tell them about the fight going on in the Western Pennsylvania and Ohio mining camps, about the hunger, disease and hardships the strikers and their families are living through, and urge that contributions be sent to the National Miners' Relief Committee, 611 Penn Avenue, Pittsburgh, Pa., to help in the great fight.

Tammany Hall Is Too Busy Grafting to Repair Broken Streets

MUST WE PAY TAXES
CONTINUE DOING THIS.

Photo shows housewives along Conkin Ave., Brooklyn, repairing the streets in their neighorhood which the Tammany city government has persistently refused to mend. Broken streets are responsible for a large proportion of the auto accidents that occur in New York City. Most of the streets, the contracts for which are awarded to the friends of the city politicians, are deliberately constructed so that they give way within a few years.

VARIETY PROMISED AT "RED" PICNIC

Sports, Entertainment at Affair Sunday

For years it has been the custom for ward politicians of the capitalist parties to run clambakes and outings for their constituents where with the help of rum, brass bands and hot air they led thousands of workers into the folds. Sundays one may see these expeditions crowded into huge vans with blatant horns and banners advertising this or that district leader or ward healer.

But the election picnic arranged by the Workers (Communist) Party to be held next Sunday, June 24, at Pleasant Bay Park will not be of this character, it is announced. It will be a genuine outpouring of masses of toilers from the shops and factories of the city to demonstrate their sympathy with the aims of the Workers Party, and the support of its candidates. The affair will include sports and games of all kinds, track and field athletes, mass singing by some of the well known working class singing societies like the Freiheit Gesangs Verein, the Lithuanian Chorus, etc.

Injunction Against West Virginia Miners Issued

(Continued from Page One)

leader from Lansing, Ohio, arrested Monday following the dispersal of a strike meeting at Triadelphia, will be heard June 21.

Trial was postponed Thursday, June 14, following the release of the nine on bond. All are charged with disorderly conduct and trespassing. Eight of the pickets were arrested when a parade of more than hundred miners stormed the Ohio county jail at Wheeling under the leadership of Frank Henderson and Betty Gannet to demand the release of Guynn. The miners had rushed to Wheeling in autos and trucks. Others had "bummed" rides on the highway. Bond for Guynn, Gannet and Henderson is fixed at $500 each. Three hundred each was required for the other six.

Would Take Children.

Laura Calegari, widow of a coal digger who was killed at the Triadelphia mine three years ago, who is leading the present strike there, faces a court fight to prevent the county from taking her two children from her on false charges of neglecting them. The warrant ordering her to appear in court and show cause why the county should not take her children, names her activity on the picket line as proof of neglect.

KATE GITLOW TO GET BIG WELCOME

Fine Program Arranged for Saturday Affair

A program of unusual excellence is being arranged at the "Welcome Home" for Kate ("Mother") Gitlow by the United Council of Workingclass Women at Manhattan Lyceum, 66 E. 4th St., next Saturday evening, June 23.

Mother Gitlow has just returned from a six months' visit in the Soviet Union and will discuss the remarkable progress of women there. She will also tell of her experiences in other European countries.

Juliet Stuart Poyntz, candidate for attorney-general on the Workers (Communist) Party ticket; Bert Miller, organizational secretary of District 2, Ray Ragozin, general organizer of the United Council of Workingclass Women; and Sylvia Blecher of Local 43 of the Millinery Workers' Union will be among the speakers.

One of the highlights on the program of entertainment will be the appearance of the Konin trio.

BOSTON CAP LOCAL LASHES ZARITSKY

Vital Meeting Is Called for Tuesday

BOSTON June 18. — A scathing attack on the union-wrecking activities of Max Zaritsky, international president of Cloth Hat, Cap and Millinery Workers Union is contained in a statement issued today by the executive board of Boston capmakers' local 7. It will be distributed tomorrow in circular form.

Meeting Tuesday.

At the same time announcement was made by the leaders of the local capmakers that membership meeting will be held Tuesday evening in the union headquarters, 28 Hayward Place. The executive board requests that all members be present without fail.

The statement follows in part:

"During the six years that our local has been under a left-wing leadership, we have succeeded in establishing a record of struggle and devotion to the interests of the membership. Our local was the pride of the international and of the labor movement of Boston. Our local under the present leadership was victorious in gaining the 40-hour week, the unemployment insurance fund as well as increases of wages. Our local with this administration has commanded the full confidence of our membership, the respect and fear of the employers. The present leadership of our local has militantly protected the interests of the Boston Capmakers, participated in the struggles of the international as well as of the labor movement in general, for further accomplishments.

Trying to Destroy Union.

"Disregarding all these facts, Zaritsky and his general executive board are now trying to destroy our union, which was always on guard to enforce the union conditions gained by the workers thru years of struggle and sacrifice.

"Sisters and brothers: At this time, when the capmakers thruout the country are faced with meeting the attack of the employers and openshoppers, when we can clearly see the disastrous results brought about by the Sigman pogrom in the Cloak and Dressmakers' Union — at this time Zaritsky has started a pogrom in our union and the international.

"Why does he do it?

"This pogrom against our local was launched because we are militantly opposed to Zaritsky's attempt to force work upon the capmakers and the re-establishment of the 44-hour week. Zaritsky in collaboration with the traitor Percy Ginsburg have organized a lock-out against our Chicago brothers in order to drive them into submission to the piece-work system. Zaritsky wants to break local 43 in order to eliminate all obstacles in carrying out his criminal policy of starving out the capmakers, weakening of our union and make it possible for the employers to force their economic program of piece-work, longer hours and starvation wages upon the workers."

Negro Laborer, 89, Is Killed by Asphalt Mixer

FLUSHING, L. I., June 18.—William Alexander Jones, 89-year old Negro laborer is dead. He was killed, his body smashed beyond recognition, when he fell into an asphalt mixing machine in the plant of the Cleveland-Trinidad Paving Company at College Point, Causeway and Myrtle Ave., Flushing, today. It was necessary to take the machine apart to remove his body.

Jones had worked for the company for over 30 years. Recently he was "promoted" to work on the asphalt fixing machine.

To Confer on Camp in Grand Rapids Thursday

GRAND RAPIDS, Mich, June 18. The second conference to discuss plans for the camp of the Young Pioneers will be held Friday evening, at 7.30 at the S. & D. Hall, 1057 Hamilton, N. W. All sympathetic organizations are invited to send two delegates.

The pioneers are planning this year's camp on a much larger scale than formerly and vacations will be provided for a large number of workers' children in Western Michigan.

"MORE PICKETING" IS REPLY OF 28,000 NOW ON STRIKE

Plan Workers Offensive Immediately

NEW BEDFORD, Mass., June 18. The ruse unfailingly used by all employers whose plants are completely tied up by a strike is about to be used by the owners of the 58 textile mills, which are completely shut down by a strike of 28,000 workers. They are preparing to announce that they are about to reopen the mills with the 10 per cent wage cut order not withdrawn.

Although the great strike is entering its tenth week of struggle, the widespread attitude among the strikers toward this new development is one of ridicule; "the workers and not the bosses were the ones to say whether the mills reopen or not," they say.

Plan Big Picket Line.

While the 28,000 strikers here have the right to feel confident that the new ruse will meet with utter failure, the leaders of the New Bedford Textile Workers' Union of the Textile Mills Committee declare that all possible measures will be taken to ensure the unanimity of the workers' ranks by the mobilization of still larger picket lines.

The latest decision reveals the desperation of the mill barons, who are not accustomed to seeing the unanimous walkout of tens of thousands, it is pointed out. It was also shown that the continually falling value of the mill stocks, and the pressure of local business which has been undergoing a slow creeping paralysis, were important factors in provoking this move of the employers.

The reports have it that the dates for opening will be either June 25 or July 2, but the T. M. C. strike committee intends to throw heavily augmented picket patrols around the mills at once.

The officials of the A. F. of L. Textile Council for the first time yesterday marched in a picket line. After several days preparatory announcements they were able to muster about 45 pickets. The several hundred patrolling nearby mills under the lead of the Textile Mills Committee organizer, Fred E. Beal, later came over to join the council pickets, being received with cheers.

TAMMANY BEGINS HOUSTON FARCE

Old Parties Haunted by Farm Revolt

(Continued from Page One)

clear that the farmers have nothing to hope for here.

Resentment against Hoover is increasing rather than diminishing because of his systematic campaign to crush out all signs of farmers' grievances. The farmers remember only too well the fact that Hoover took from them about $300,000,000 a year for three years in Kansas alone through his wartime price fixing on wheat at the time when he was permitting the big bankers, steel magnates and other capitalists to reap huge harvests in war profits. Over four thousand new millionaires were created under the Hoover regime during the war days.

• • •

Again Moves To Deceive Farmers.

MINNEAPOLIS, June 18.—Farm "leaders" of the West will mark time until after the democratic national convention at Houston next week has passed into history, it was announced today by a number of so-called farm leaders who, fearing the result of a complete farm revolt, are planning additional maneuvers in behalf of their big political bosses.

Then they will assemble at Des Moines, Iowa, and agree upon a program of political action.

This was announced by Frank W. Murphy, president of the Farm Belt Association, who is in Minneapolis on his way home from the republican national convention where he set himself up as spokesman for various agricultural groups in an effort to have the McNary-Haugen plan for farm relief written into the G. O. P. platform.

"We can only wait now on the democrats. We are not sure, of course, what action they will take on the all-important agricultural question. The same program presented to the republicans will be advocated at Houston," Murphy said.

The aim is to hold back action by the farmers until their movement is exhausted.

JEALOUSY MAY HOLT FLIGHT.

HARBOR GRACE, N. F., June 18. Disheartened because her flying rival, Miss Amelia Earhart, was first to make a non-stop flight over the Atlantic, Miss Mabel Boll, of the plane Columbia, intimated today that her own flight may be cancelled. It is reportd that the Columbia will fly back to the United States.

Social Democrats and Stresemann Confer on Coalition in Secret Meeting

TO COLLABORATE WITH HINDENBURG ON MANY ISSUES

Reach Understanding With Meissner

(Special to the Daily Worker)

BERLIN, June 18.—Bargaining between the social democrats and the capitalist parties with a view to forming a coalition cabinet reached a new stage yesterday with the calling of a secret conference between Stresemann and representatives of the social democratic party.

Secretary of State Meissner expressed to the delegates the desire of President von Hindenburg for the rapid formation of a coalition cabinet.

A full understanding is reported to have been reached during the meeting between Meissner and the social democratic representatives on all questions of foreign policy, on the evacuation of the Rhineland and the navy question.

Important economic issues are also said to have been discussed.

GREEK SAILORS HELP WORKERS

Mutiny When Rushed Against Strikers

(Continued from Page One)

ing Greek tobacco workers and the police at Saloniki, Kavalla and other centers, news that the crews of a number of warships have mutinied in the harbor of Lesbos, Mytilene, threatened yesterday to bring about a nationwide conflict between the workers and the troops, which the government is calling out all over the country.

Railway service between Athens and the north, where the conflicts are raging has been suspended, following the walkout of the railway workers in sympathy with the striking tobacco workers while the government is preparing to run troop trains to the north with engineers drafted from the armed forces themselves.

Spread of the conflict thruout the entire nation in anxiously awaited here as it is expected that the rank and file of the Greek Federation of Labor will force the immediate calling of a general strike.

The crisis is heightened by the bill to declare the Greek Communist Party illegal and to make a penal offense the reading, or discussing of labor literature and to make punishable with prison terms the mere discussion of politics, economics or religion.

The Greek workers are enraged at the attempt to destroy the Communist Party which has strong roots among the laboring masses and it is believed that the passage of the bill will be the signal for a general disturbance which may result in the disappearance of the present government.

It is unofficially reported from several sections in the north that action looking towards this end has already been taken.

The federal government employes have already passed a resolution declaring for an immediate walkout of the entire civil service as soon as the illegalizing measure is passed.

The present situation was precipitated by government action in attempting to employ force against the striking tobacco workers at Kavalla. The tobacco strikers are demanding recognition of their union and government prohibition of the export of unfinished tobacco, a struggle which they have been carrying on for years with the federal government.

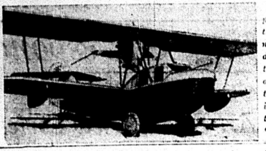
The present strike represents the first complete co-operation between the members of the two tobacco workers' unions, between which the government engineered a split, admitting one into the Greek Federation of Labor and excluding the larger union, which is under Communist leadership. The men in both unions are now co-operating and an amalgamation is expected under militant control.

CHICAGO I. L. D. PICNIC SUNDAY

CHICAGO, June 18. — A large crowd is expected at the picnic of the Chicago Local of the International Labor Defense, to be held next Sunday at Zahor Grove, Lyons, Ill.

Carl Haessler, managing editor of the Federated Press, will speak about the Mooney and Billings and the Centralia cases. Dancing at the picnic will continue far into the night and elaborate preparations for games and amusements of all kinds are being made by Hans Pedeson and Steve Rubikki, who are in charge of the affair.

With an Eye to Latin American Conquest



The Ireland amphibian, shown in the picture is a new type of plane developed under the watchful eye of American militarism. It can fly in the air, float on the water and taxi on the land.

"Maw" Guynn Leads the Mine Women of Lansing

By VERA BUCH.

LANSING, Ohio, June 18.—They call her "Mother" Guynn in these parts, but the name that suits her best is the one she had years ago back in the Cumberland mountains—just "Maw" Guynn. She is big and rugged like those mountains—rugged and strong and clean. Tall, raw-boned, white-haired, sixty-three years old, with a deep voice like a man's—a real soldier of a woman. But a soldier of the proletariat, every drop of blood in her, every thought of her mind, for the fight of the working class.

It's Maw Guynn that put the pep into the fighting women of Lansing. She led them, 51 strong—and a hundred more wanted to come but could not find trucks to go in—in the march to St. Clairsville that put them in jail that famous 24th of April. "They told us to take the children off the picket line," Maw Guynn will tell you. "And we did take them off the picket line. Then they arrested us. I was all bruised up that morning from fighting with scabs. My fingers were chewed, and my knees were all cut up, and my arms were all black and blue. Them state troopers just lined us up and marched the whole bunch of us women—51 of us—up to the jail. And we hadn't done a thing. I tell you, not a thing. A mile and a quarter in the pouring rain, and them troopers pushin' us on all the time and hollerin' 'Step on, step on!'

'They herded us in three cells, 21 of us, and the rest on the other side. We just wrang the water out of our clothes by the bucketfull. We had to sleep in turns on the iron floor, with nothing but a thin cotton blanket under us and one over us. Them cells was the filthiest thing I ever laid my eyes on. And the food! We couldn't eat a bite. A lot of garbage with roaches swimmin' in it. We sent for a big slop pail and we scraped all the food into it. Then we handed it out to the keeper. 'Here, Douglas', I says. 'If you know anybody that keeps pigs, here's something you can give him for them. It aint fit for us to eat and we aint goin' to eat it.' "

She comes of fighting stock, does Mother Guynn, Scotch-Irish, from the Maryland mountains. Her father was a miner and a Molly MacGuire. He died early and her mother took in washings to keep her log cabin home and bring up her family. Maw Guynn's brothers and uncles and sons are all miners and union men. "I was always a fighter," says Maw Guynn. "But somehow or other, I never got right out into the thing as I did in this strike. What changed me? Well, maybe it was when they put my two boys in jail that did it, I don't know. I used to always stick in the house and sew patch-work quilts. Never went out nowheres,—you just couldn't get me away from them patches. And my lands, I was sick all the time! But now that I've got out fightin' and organizin' like this, I don't know a sick day. And I don't spend time cleanin' my house, either, the way I used to. I used to think, if I didn't mop up that kitchen floor every day, something terrible would happen. But now—now I just leave everything and go out and fight. Pappy, he cleans up the place and washes the dishes. My boys don't have a clean shirt to their backs half the time, but they don't care. I just want to go out and FIGHT all the time!"

"I'm the only American woman in this town that ain't stickin' with Lewis," Mother Guynn will tell you to her sorrow. "They talk about Hunkies, but believe me, it's the Hunkies that's doin' the fightin' in this strike, and I stick with them. And if it comes to that, I think the Hunkies will have to go out and teach the Americans what's good for them."

It is when she talks to the Lewis men that Maw Guynn's best fighting spirit reveals itself. A steely gleam comes into her light brown eyes and a threatening ring to her deep voice. "You poor miserable, low-lived things," she says to them. "Do you mean to tell me you've signed over to John L. Lewis after he's robbed you and sucked the life blood out of you all these years! Just because he promised you a dollar a week more for relief. And you won't even get the dollar. I've seen the time in this strike when we didn't have a crumb of food in our house for four days together. And did John L. Lewis help us? Don't you ever come near me with any of your dirty yellow-dog Lewis papers," she shouts, shaking a powerful fist in their faces. "If you do I'll smash your face in so you'll never see again."

No yellow dog paper will ever come near Mother Guynn. She is feared by the Lewis gang in town as much as she is respected by the Save-the-Union people. We take off our hats to her, to "Maw" Guynn, the fighting leader of the mine women. Sisters of the working class everywhere, let us follow her! Let us leave our kitchens and in them our fears and sorrows of the past. Let us organize and join the fight of all the workers for the freedom of our class!

BROBB, FRAMED MINER, ON TRIAL

Machinery in Motion to Railroad Worker

WHEELING, W. Va., June 18.—Machinery in one of the most vicious frame-ups perpetrated against a worker during recent years, will be put in motion Tuesday when Frank Brobb, Triadelphia striker, appears before the Ohio county grand jury for a hearing on charges of dynamiting three houses sheltering non-union miners employed by the Elm Grove mining company.

A Pure Frame-Up.

Information which proves the charges to be a carefully engineered frame-up, is in the possession of the defense. Revelations of an elaborate spy system to keep track of Brobb's movements on the night of the blast which he is accused of having touched off, may be made by the defense at the grand jury hearing.

Brobb was arrested shortly after the explosion and beaten to a point near death by State Trooper E. W. Mazingo who attempted to force a confession of guilt from the striker. Mazingo's brutality was openly admitted by County Prosecutor A. C. Schiffler, in an interview with a defense representative.

Capitalist "Justice."

If Brobb names anyone of those who participated in framing him, he also exposes himself to charges of conspiracy and the danger of a longer jail sentence by a peculiar provision of the "Redman Act" which is part of the West Virginia penal code. By holding this threat over the defense, mining company officials hope to save themselves from being exposed. Flashlights, used to signal long distances over black hillsides to warn spies of Brobb's approach, figure in the elaborate apparatus employed in the effort to railroad the miner.

THOUSANDS OF ARMY MEN GET "RED" LEAFLETS

Young Workers Active in Many Cities

(Continued from Page One)

sioned officers, and the right to vote and to join unions and political organizations. It concluded with the appeal: "Refuse to act against the workers in strikes! Refuse to be a policeman for the bosses! Support your fellow workers in their struggles for better conditions! Fight the war threat against the Soviet Union."

In spite of the fact that the distribution covered a period of more than two hours, and that it soon became known to the officers and the military police, the League members worked so efficiently that none of them were arrested.

* * *

Youth Active in Duluth.

DULUTH, June 18.—Hundreds of leaflets were distributed by six members of the Young Workers (Communist) League to soldiers of the 125th Field Artillery regiment as they were leaving this city for summer practice at Sparta, Minn. The soldiers read them with great interest, and some revealed this by personal conversation with League members who took part in the distribution.

The leaflet ridiculed the "wonderful life" promised by recruiting officers and stated that the League has nothing so enticing to offer as the false promises of the military authorities. Then an appeal was made to the service men to read the "Young Worker" and The DAILY WORKER, which have special departments for the enlisted men and are the only newspapers really defending their interests.

* * *

Attack Militarists in Concord.

CONCORD, N. H., June 18.—Excellent anti-militarist work is being done by the Young Workers (Communist) League in West Concord and Newport, and stickers exposing the nature of the Citizen's Military Training Camps have caused much worry to the "patriotic" business men of these towns. Leaflets are being distributed to the workers showing that the C. M. T. C. is a part of the military preparations of American capitalism to use the working class as cannon fodder for the interests of their exploiters.

In July, many young workers will be taught the art of murder and subjected to capitalist propaganda in the C. M. T. C.; but nevertheless the military authorities and the capitalists are not enjoying themselves—for they see much of their work being undone by the anti-militarist efforts of the Communists.

EARHART PLANE LANDS IN WALES

Will Leave Tomorrow for Southampton

SOUTHAMPTON, England, June 18.—The airplane Friendship, which landed near Llanelly, Carmarthenshire, Wales, this morning, carrying the first woman to cross the Atlantic by air, will not complete its flight to Southampton until tomorrow morning, according to word received here tonight.

Arrangements were made this evening for Miss Amelia Earhart to continue the flight from Llanelly, but at the last moment, Wilmer Stultz, who piloted the Friendship from Newfoundland, expressed the fear that it would be dangerous to land in Southampton harbor in the dark, and the hopoff was postponed until tomorrow. The expectation tonight was that the Friendship would reach here tomorrow morning between 11 and 12 o'clock.

American Militarism's Latest Bombing Glory

The JC-4 is shown in the picture as it sailed over downtown New York to advertise the military tournament at Governor's Island. The giant dirigible is the latest ship of this type, which is especially adapted for long bombing flights.

POLICE ATTACK ALLEGHENY MEET

Miners Enthusiastic in All Sections

(Continued from Page One)

sub-district officials: Hugh Haggerty as district board member and Joe Tashinsky as sub-district organizer.

A similarly successful conference of the Cartiers Valley section, sub-district 2, held on Friday, June 15th, at Cannonsburgh, also endorsed the call for a national convention electing Frank Note as district board member and Ben Audia as organizer.

Tom Myerscough, secretary of reorganized district 5, states that the Panhandle section conference meeting today at McDonald, and the Ellsworth and Monogahela River sub-district conferences to be held tomorrow, are also expected to support the call for a national miners convention and new union.

* * *

Third District Responds.

(Special to The DAILY WORKER.)

McDONALD, Pa., June 18. — An enthusiastic and successful sub-district conference was held here yesterday at which 50 delegates were present from 17 out of 24 locals in the sub-district. The biggest locals were all represented. Great enthusiasm was expressed over the call for the national miners convention to be held in September.

Tom Ray was elected district board member and Robert Baird was elected sub-district organizer.

DOLLAR VOLUME LOWER.

WASHINGTON, June 18.—The dollar volume of business during the week ended June 2, as measured by check payments, was lower than in either the preceding week or the corresponding week of last year, according to the weekly statement of the Department of Commerce. Operations in steel plants showed smaller activity than in either prior period. The volume of new building contracts awarded averaged lower than in either the preceding week or the corresponding period of last year.

REPORT 63 DEAD IN SHIP BLOW-UP

Only 22 Members of Crew Survive

BOGOTA, Columbia, June 18. — Semi-official reports today placed the casualty list from the explosion aboard the Columbian gunboat Hercules in the Magdenela River at 63.

The Hercules belonged to the Columbian river fleet and was cruising in the river when the boiler burst, according to reports received here. Only 22 members of the crew were saved, the war ministry said. Very few bodies have been recovered.

CRISE INDEX DECLINES.

The general index of wholesale prices again declined from the previous week, but was well above the level of a year ago. Prices for wheat averaged lower than in the previous week, but were higher than a year ago, while prices for cotton and iron and steel showed no change from the previous week, with cotton prices higher and iron and steel prices lower than in the same period of last year. Copper prices averaged higher than in either period.

COLOMBIAN PHONE STRIKE RECEIVES WIDESPREAD AID

Workers Raise Money to Continue Fight

BOGOTA, June 18. — Large subscriptions raised among all sections of the Colombian working class ensure the continuance of the telephone strike which has been tying up service here for some time.

In spite of attempts of the authorities to bring pressure upon the strikers in an effort to force them back to their posts, the spirit of the workers is unimpaired, their leaders state, and no immediate settlement of the strike is seen as probable.

The officials of the telephone company are making a determined effort to smash the strike but have so far met with no success.

There is reported to be widespread popular support of the strike.

VIENNA BANISHES TWO COMMUNISTS

(Special to The DAILY WORKER.)

BERLIN, June 18. — Complete violation of the right of asylum for foreign political fugitives has been effected by the Austrian government in the banishment from that country of the Communists, Lukacs and Szekely.

Despite the fact that the charges against the two men were completely refuted, the order for deportation is being enforced.

Another Communist, Lippay, still remains in Austria, but it is feared that the authorities may take action against him at any moment. He is charged with conspiracy and violation of passport regulations.

If the government can prove that he used a false passport to cross the Austrian frontier, it is intimated that his banishment will follow at once.

ALLEN-A WORKER, ON STRIKE FOUR MONTHS, RUSHES SUBSCRIPTIONS TO AID THE 'DAILY

(By a Worker Correspondent)

KENOSHA, Wis. (By mail).—I am a knitter and have been on strike against the Allen-A Company, of Kenosha, for over four months and I have read with great sorrow that The DAILY WORKER is in need of money badly.

I will try to raise some during the next few days among my friends, as we must not let such a real workers' paper fail because of lack of money. Have talked to several of my neighbors and they have promised to send in their subscriptions immediately.

I think you can expect at least eight subscriptions and I will try my best to get more.

—A LOCKED-OUT KNITTER.

EDITOR'S NOTE—The workers of the Allen-A Hosiery Mill at Kenosha, Wisconsin, have been on strike against the company for the past four months. In spite of the terrorism which the Allen-A company has carried on, importing bands of thugs for this purpose and quartering them in the striking mill, the ranks of the strikers are perfectly firm. At present these courageous class fighters are carrying on their own struggle against a union officialdom, which has shown reluctance to call out the unorganized workers from the other mills of the Allen-A company or to organize mass picketing by which the strike can be made strictly effective.

Philadelphia Strikers Must Organize Mass Picketing, Correspondent Writes

WORKERS SHOULD GUARD AGAINST UNION OFFICIALS

Hosiery Slaves Cannot Co-operate With Boss

(By a Worker Correspondent)

PHILADELPHIA, Pa. (By mail).—The hosiery workers here in Philadelphia, like other workers in other industries, are confronted with an everlasting problem existing in most unions, the problem of leadership, the corruptness or the ignorance of the men selected to lead the workers.

The striking workers in the Federal, Emmet and Ajax hosiery mills here must be made to learn that the bosses have attacked their union in a fiendish greed for more profits. They ought to learn, too, that if all the hosiery workers were organized in an industrial union they could tie up the entire hosiery industry and could bring those officials responsible for urging co-operation with the bosses, before the rank and file and ask them why the workers should co-operate and what they would gain by doing so.

The interests of the capitalist hosiery mill owner are against those of the workers in his mill. He gains by exploiting the workers. The worker can only lose. The capitalist gains by the speed-up system, the worker loses. He even loses physically, being unable to keep up with the madly rushing machinery. Besides, his speed-up is really creating a surplus of goods so that the boss will stop manufacturing and the workers will have to go on a part time basis, while many will be forced into the ranks of the unemployed. There is the time, too, when the boss will force wage cuts on his workers. Anyone advocating co-operation with the boss, knowingly or unknowingly, is betraying the workers.

Injunctions, like that issued in the present strike at the Federal mill, are a threat against the workers whereby they are commanded to cease interfering with the judge's masters in their efforts to subject the workers to their slavery.

The bosses, and their allies among the trade union officials, hate picketing and mass picketing. But mass picketing is very effective in helping to win the strike. Organizers are paid to organize a strike and the rank and file of the strikers should see to it that the organizers do their duty.

These are all problems which the strikers at the hosiery mills now on strike in this city ought to think about and act upon if they are going to win their strike. —W. C. P.

EDITOR'S NOTE—In connection with the above it is interesting to print here what Samuel A. Herman member of the Young Workers' League of America, who was recently arrested for urging the hosiery strikers at the Allen-A mill in Kenosha to organize mass picketing, has to say about the letters which the above Worker Correspondent has been sending regularly from Philadelphia.

"Stationed here in Kenosha and participating in the Kenosha strike situation, it goes without saying that I am deeply interested in any news of strikes of hosiery workers thruout the country," Herman writes. In this connection, I want to state that I appreciate greatly the splendid write-ups on the hosiery strike in Philadelphia by the Worker Correspondent, W. C. P. I am glad to learn that W. C. P. sees clearly the reactionary nature of the leadership of the American Federation of Full-Fashioned Hosiery Workers. Whether in the Philadelphia strike against the Ajax Co. or in the Allen-A strike at Kenosha, the official leadership clearly shows this. However, sooner or later, the workers will demand that their leaders organize all day mass picketing thruout the week."

First Fascist School, Opened in Baltimore

BALTIMORE (FP), June 18.—Promoted by Mario O. Ratto, Italian consul, the first fascist military training school for small boys—the Balilla—has been inaugurated in St. Leo's gymnasium, in Baltimore. A dozen boys have been put through ordinary physical workout drill for an hour, and have been told that they are preparing themselves to help defend the United States in some time of future need.

Generoso Pavese, a former fencing teacher, and Joseph Manfre, a former lieutenant in the Italian army, are in charge.

Are you a "DAILY WORKER" worker daily?

Escape From the Heat of the Crowded Tenements

Coney Island is the refuge of thousands of workers crammed into the tenements of New York City. Here in hot weather thousands spend the entire night lying out on the each to get a breath of cool air. The bosses think Coney is a good place too. There they get back, in the form of concessions and profits, part of the miserable week's wages they pay. The picture shows a section of the beach last Sunday.

WEST VIRGINIA COAL CO. GETS AN INJUNCTION

Writ Would Prohibit Picketing, Meetings

(By a Worker Correspondent)

WHEELING, W. Va. (By mail).—Triadelphia, the scene of a recent display of working class solidarity, received another blow from the open shop operators when the Elm Grove Coal company was granted an injunction in the circuit court at Wheeling, which takes away all the rights of the miners by prohibiting picketing, meetings or speeches that will in any way interfere with the operation of the non-union mines.

The attorney for the coal company, in a carefully worded statement, prepared for the court, declared that the pickets affect the production of coal at the times. The statement, which took an hour and a half to read and had a drowsy effect on the judge, asked the judge to prohibit (so it seemed) the miners from doing anything but "peaceful breathing."

During the reading of the statement, officials of the coal company, court officials and police officers, seated on the same bench, winked at each other and seemed well pleased with the severe injunction which will prevent the miners from doing anything to improve their working conditions.

At the conclusion of the appeal for the injunction, the attorney, reading the statement, raised his voice and shouted, "In the name of the Elm Grove Coal company, I ask you to grant this injunction."

The judge, aroused from his sleep, with a stroke of his pen, granted the injunction,—the first in West Virginia.

This is the justice the workers, and now especially the miners, get from the capitalist courts. —IKE.

—DRAMA—

Moscow Art Star in New Soviet Film at the Cameo Theatre

After seeing the modern, dynamic "End of St. Petersburg" and the earlier artistry of "Potemkin," "The Station Master" with all its interesting features becomes but meager movie fare. It is interesting in its simplicity and the strict attention given in telling a story. The typical colorful views of Russian peasant life and Russian countryside are also well worth seeing.

The story, however, is over-running with sentimentality, the movie work over-emoted to painful length at times. If it isn't Pushkin that is to blame, it must be the fault of the directors—and there were two of them, one, Ivan Moskvin of the Moscow Art Theatre, also playing the leading role. Obviously the picture was made at an earlier date than the two other classics "Potemkin" and "Petersburg" and Russian films are progressing so fast the earlier work does no justice to this progress. The comparison, also, is made with two films that are not only the best ever made in Soviet Russia but among the best ever made anywhere. A fairer base of comparison would be with the recently shown "Ivan the Terrible." But even "Ivan" is far superior.

Ivan Moskvin

The story written years ago is no doubt an accurate picture of the dissipated military class of the Czar that found fresh country girls legitimate prey for their passions. And that's the story with the additional results that this has on the girl's father whom it ruins and finally kills. In this day and age it all seems unnaturally weepy and sentimental. Its purpose gone, the interest has fled with it. Yet even here, surely, there are many to whom this tragedy of Russian life in the old days will strike close to home.

Ivan Moskvin emotes and emotes thru endless feet of film which could be cut to good advantage. The photography is but ordinary and the whole production, no doubt, following the story closely, does not aid it neither by direction, scenario or camera work. It is undistinguished by any of the great features which have made the movie world turn to the latest film productions of Soviet Russia.

American Films on Program.

In contrast, other features on the program at the Cameo Theatre this week must be mentioned. An old picture of Charlie Chaplin, "The Adventurer," is being shown. It is Charlie of the old slap-stick days drawing laughs from a healthy kick in the pants to a gob of chilling ice cream down a lady's back. Crude stuff, yes, vulgar, too, but funny, comrades, screemingly funny.

Another item of unusual interest is a short film made at the cost of only $97, called "The Suicide of a Hollywood Extra." This alone is worth a journey to the Cameo Theatre. It is an extremely clever bit of movie story telling, modern to the extreme, with brilliant shots of photography, sharp edged satire and a keen sense of humor. Comparatively unimportant, it is nevertheless an illuminating comparison to the stupid pictures on which so much money has been expended. —W. C.

Miners Must Pay Police

LA PAZ, Bolivia, June 18. — The June issue of the "Bulletin of the Pan American Union" brings the following item:

"On petition of the Oruro Labor Congress an executive decree was issued on February 2, 1928, establishing in all mining centers of the Republic a mining police, to function in cooperation with the National Labor Bureau. They will be paid by a voluntary deduction of 1 per cent from miners' wages. Their duty will be to act as representatives of the miners, in which capacity they may take part in negotiations for labor contracts and the fixing of wages, investigate industrial accidents, prepare statistics, audit the investment of labor union funds, and perform other similar duties. They are expected to use their influence to maintain order among the miners, and are strictly forbidden to make propaganda against the companies and authorities."

Don Mullally, who wrote "Conscience" and "Laff That Off," will start casting this week for a new play which he will soon produce on Broadway. It is called "Wanted."

MEXICAN PEONS LIVE IN HOVELS IN LOS ANGELES

Landlords Reap Rich Harvest

(By a Worker Correspondent.)

LOS ANGELES, Cal. (By Mail).—Mrs. Anna L. Saylor, director of social welfare, reported to Governor C. C. Young recently. Concerning the terrible conditions under which a great number of Mexicans live in this city of "prosperity," her report reads in part as follows:

"California must stamp out the ground rental system which enables unscrupulous landlords to receive as much as $1800 a year income from a single acre of ground leased to ignorant Mexicans."

The survey of conditions among Mexicans shows that "many of them live huddled together in rude shacks on such acres. These shacks are crudely constructed of tin cans at old boards. And at Belvedere Gardens, 'Peon Capital of the United States,' the average is 17 to 26 children in each house."

In this and similar sections investigated, the director reported, large families are living on "almost nothing."

Conditions need to be improved also at institutions, schools and jails populated largely by Mexicans, the report stated.

The undersigned has been over the ground mentioned above, distributing El Machete, organ of the Mexican Communist Party, and he knows that the "abundance" in Los Angeles and vicinity is of the nature described above.

—L. P. RINDAL.

Geographic Body Meets

LENINGRAD, U. S. S. R., June 18.—The yearly meeting of the Russian Geographical Society was held here under the chairmanship of Professor Shokalsky. The Council of the Society elected Professor Shokalsky and Professors Kuznetzov and Kovalevsky, as well as the British savant, Hugh Robert Mill, members honoris causa. As correspondent members of the Society there were elected from among foreign scientists Mr. Grandidier, secretary of the Paris Geographical Society, Professor Romer of Lemberg and Professor Meynardus Gottingen.

NATIONAL MINERS' RELIEF WEEK TO BEGIN JUNE 25

Committee Urges All to Participate Here

As the fifteenth month of the soft coal miners' strike enters its last week, workers throughout New York will usher in National Miners' Relief Week with a mass turnout for house to house collections, mass distribution of special miners' bulletins and pamphlets, and thruout the city there will be miners' relief meetings, indoors and on the streets. From June 25 to July 1, inclusive, this relief work will mobilize as never before the great number of New York workers engaged in all industries for miners' relief work.

The week will wind up with a mass collection for miners' relief, on all the highways and transit lines and places of congregation on Saturday and Sunday, June 30 and July 1. Workers' organizations thruout the city which have before participated in the various tag day drives conducted by the National Miners' Relief Committee, will again, it is expected, enlist their memberships, and the members will prevail on their shopmates and friends to help. Other organizations, heretofore inactive, will participate.

All To Participate.

Many workers and organizations will be reached by the New York Working Women's Federation, which will have its second delegates' conference a few days prior to the opening of the relief week—on Thursday evening, July 21, at the Labor Temple. The main business of the conference will be miners' relief.

At the next federation meeting, which takes place Thursday night at the Labor Temple, 14th St. and Second Ave., plans will be completed for sending a delegate from the women's shops to the coal fields for a special relief conference there.

Nearly one hundred dollars were collected in the shops last week as the beginning of the new drive, which is to be intensified during the Mass Collection Week, June 25th to July 1st.

Included in the shop collections are $29.30 from twenty girls of Local 43, Millinery Hand Workers; $9.50 from workers in the Frank Kat Hat Co., 725 Broadway; $10 from progressive knitting workers; $6.25 collected by Ida Bernstein in a clothing shop; $2.70 from workers in the Family Dress Shop; and $3.00 from nine girl workers in a shop controlled by Local 91, I. L. G. W. U.

ELECTION RALLY IN CHICAGO JULY 4

Gitlow to Be Chief Speaker at Event

CHICAGO, June 18. — Militant workers of Chicago are making extensive preparations to receive the Workers Party candidate for vice-president, Ben Gitlow, who will speak at the opening campaign rally on July 4 at Chernauskas Grove, 79th and Archer Ave. All Party units, sympathizing workers' clubs, and labor organizations are mobilizing for a mass attendance. An interesting entertainment program is being prepared.

Soviet Union Moves To Protect Authors

MOSCOW, June 18.—The Soviet Society for Cultural Relations has organized a literary section to protect the rights of foreign authors translated into Russian and circulated in the Soviet Union, as well as the rights of Russian authors translated abroad.

USSR Aid Nobile

The Soviet icebreaker, Malyghit, which left Archangel Tuesday night, for the relief of General Nobile and his men, directing its course toward Cape Leigh Smith, carries aboard a large Junkers seaplane, with special landing gear for alighting on the ice. Another ice-breaker, the Krassin, which left Leningrad last night, is proceeding to the north of Spitzbergen.

WORKERS CALENDAR

Correspondents Attention!

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

• • •

District Y. W. L. Anniversary.

BOSTON.—District 1 will hold a truck party and picnic Sunday, June 24, at Vanikens farm, Cushing St., Hingham,

• • •

Pittsburgh District Picnic.

PITTSBURGH, Pa.—The third annual picnic of the Workers (Communist) Party, District 5 has been postponed from July 1 to July 8. It will be held at Nicholson Farm, Swissvale, Pa.

• • •

CLEVELAND.—Wednesday, June 20, all three sections of the Workers (Communist) Party of Cleveland will hold section membership meetings. Section 1 will meet at the Hungarian Home, 4309 Lorain Ave., Section 2 at South Slavic Hall, 5607 St. Clair Ave., and Section 3 at Workers Home. There will be no general membership meeting that night. The election campaign will be organized at the section meetings.

Roxbury Carnival and Ball.

ROXBURY, Mass.—The Massachusetts campaign committee for a workers' children's camp has arranged a carnival and costume ball, to be held June 22, at the New International Hall, 42 Wenonah St., here. The proceeds will go to the camp fund.

• • •

Cleveland I. L. D. Picnic.

CLEVELAND. — The International Labor Defense has arranged a picnic for the miners' defense to be held June 24, at New Sachsenheim Gardens, 7001 Denison Ave. There will be speakers, music, and refreshments.

• • •

Boston District Y. W. L. Anniversary.

District 1 will hold a truck party and picnic Sunday, June 24, at Vanikens farm, Cushing St., Hingham, Mass., to celebrate the sixth anniversary of the founding of the Young Workers (Communist) League.

Chicago I. L. D. Picnic.

CHICAGO.—The Chicago local of the International Labor Defense will hold a picnic at Zahora's Grove, Ogden and Custer Aves., Lyons, Ill., on June 24. The grove opens at 12 o'clock, noon.

• • •

Philadelphia Miner's Relief.

PHILADELPHIA, Pa. — Philadelphia Miners' Relief Conference here has arranged a picnic for July 29 at Maple Grove Park.

• • •

St. Louis Picnic.

ST. LOUIS. — The Young Workers (Communist) League will give a picnic and dance at Triangle Park, 4100 South Broadway, on July 4. Dancing, refreshment, games and athletic concerts have been planned.

• • •

Youngstown Picnic.

YOUNGSTOWN, Ohio. — The Seventh Annual International Picnic of the Youngstown Workers (Communist) Party will be held on June 24. Those wishing to attend should stop at 28 Sharon Line. "Why the Workers Party Is in the Presidential Campaign" will be the subject of a talk by a national speaker.

• • •

Cleveland Miners' Relief.

CLEVELAND, Ohio.—The Cleveland Conference of the National Miners' Relief Committee will hold a tag day on June 23. All wishing to participate should report at the South Slavic Hall, 5607 St. Clair Ave., at 2 p. m.

• • •

Hammond Miners' Relief.

HAMMOND, Ind.—A picnic will be held here at Gruener's Grove, on Shifild Ave., on June 24, for the benefit of the striking miners' relief. All have been invited to attend.

• • •

Shachtman China Lecture Tour Dates

Sunday, June 24, Passaic, N. J. Workers' Home, 27 Dayton St., 7:30 P. M.

LETTER REVEALS SHLESINGER FAKE

Further evidence has been offered by the New York Joint Board of the Cloakmakers' Union that the recent flourish of a fake amnesty made by Benjamin Schlesinger, co-partner with Sigman in destroying the International Ladies' Garment Workers' Union, was a bit of hypocrisy, in making public a letter given to a worker by his boss, which shows that the war on the cloakmakers continues unabated. Schlesinger recently declared that he is halting the attack on the cloakmakers with the one proviso that "Communists, their followers and sympathizers cannot hold office."

This letter, signed by Shapiro and Sons, 1333 Broadway, who have an agreement with the Sigman union, states that it is compelled to discharge the recipient, Martin Feldman, because the Sigman union insists upon it. The letter says, "You have been in our employ for a number of years and your services have been satisfactory." It says further, "We are fully aware of your opinions and sentiments." The employer concludes by saying that they have been forced to fire him because he refuses to register with the right wing.

• • •

Organization Units Meet Tonight.

The first meeting of the units of the newly formed Organization Committee of 500 will be held tonight in the office of the Joint Board of the Cloakmakers' Union, 16 W. 21st St., according to the plans announced by the local section of the National Organization Committee.

ELECTION DRIVE STARTED IN OHIO

To Conduct Intensive Canvass July 1-8

CLEVELAND, June 18. — The election campaign has begun in full force in "Red Ohio." Those who are directing the work believe that the Workers Party will be over the top in the amount of signatures collected long before time for filing. Already, reports show, 1,500 signatures out of the 20,000 required have been secured, and the petitions have been out for only two weeks.

Red Week for signatures will be the week of July 1 to July 8. During this week, all other Party meetings will be cancelled, and the entire Party membership throughout the state will carry on an intense house-to-house canvass in each of the cities where a Party unit exists. It is hoped that the greater part of the task will be completed at the end of the week.

In Cleveland two nuclei already have distinguished themselves by quick response, being the first two in the state. These are Nucleus 21 in Section 2, and Nucleus 34 in Section 3, who have already turned in filled lists.

Toledo has challenged Cleveland in the campaign for signatures and the South-Eastern Ohio mining section has challenged the rest of the state. In the mining section, not only Party members, but also militant miners outside the Party, recognizing the need of a real revolutionary Workers' Party in the election campaign of 1928, have taken petition lists and are circulating them among the miners.

The Young Workers League of Ohio is cooperating with the Workers' Party and all branches have taken petitions.

PittsfieldWeaversStrike

PITTSFIELD, Mass. (FP). — Hoosac Worsted Mill looms are silent due to the walkout of 46 weavers. They are demanding a substantial increase in pay, having turned down a niggardly raise offered by the company. The entire mill will be forced to shut down if the weavers do not return.

Sickness, Death Costly.

An economic loss of $15,000,000,000 annually is incurred in America through accident, sickness and death Charles H. Herty, adviser to the Chemical Foundation, Inc., told the annual meeting of the National Industrial Conference board.

DONETZ PLOTTERS ADMIT SABOTAGE

Espionage Also Part of "Mine Management"

MOSCOW, U. S. S. R., June 18.—During yesterday's session of the trial of the Donetz counter-revolutionary plotters, the engineer Sokolov, son of the general in the service of the former tsar, admitted his membership in the sabotage organization He confessed that he had worked to extend the organization and that he was active in the field of sabotage

Sokolov further testified that he worked eagerly for intervention and utilized his position as a Soviet mine manager to promote sabotage.

At the same session, the accused technician, Boyarinov, denied his part in the guilt but admitted membership in the sabotage organization. He stated that he had received three letters from the former owner, Dvorschanschik, who sent instructions for sabotage in the mines in event of war in order to hinder the defense of the Soviet Union.

Boyarinov alleges that he was offered a large bribe. He also admitted taking part in espionage activity The public was excluded from the inquiry into his espionage work.

The accused technician Nekrassov admitted receiving money thru the accused technician Schadlun.

Venezuela Exports Half of American Crude Oil

CARACOS, June 18.—Venezuela is now supplying more than half of all the crude oil imported into the United States, Department of Commerce figures show. During the first four months of 1928 the United States imported a total of 24,687,000 barrels, as contrasted with 17,192,000 barrels during the first four months of 1927

Imports from Mexico for the first four months of last year totalled 7,409,000 barrels while Venezuela furnished 5,604,000 barrels. For the first four months of this year, however imports from Mexico totalled only [illegible]19,000, while imports from Venezuela rose to 14,139,00. At the same time oil imports from Colombia increased from 2,871,000 barrels during the first four months of 1927 to 4,629,000 barrels during the first four months of 1928.

TWO FRUIT CLERK PICKETS SLUGGED BY BOSSES' THUGS

Cooperative Built Near Strike Area

Despite the vicious terror by police, thugs and injunctions continued in the attempt to break the militant strike of the retail fruit store clerks, the strikers are waging a vigorous battle. Two workers picketing the store of Oland and Weinberg, Claremont Parkway and Bathgate Ave., were brutally assailed by a squad of thugs led by Oland himself. Nathan Baumfeld was later treated for injuries in the head and M. Welshinsky for knife cuts in back. Police, though nearby, refused to take notice of the assault.

An effective answer was given by the union and its sympathizers to the attempt of the owner of the store at 933 Tremont Ave. to break the strike by an anti-picketing injunction. A workers' cooperative fruit and vegetable store was opened by the union sympathizers across the street at 936 Tremont Ave.

A general membership meeting of the entire union is to be held tomorrow night in Stuyvesant Casino, Second Ave and Ninth St. A report of the strike situation will be rendered by the strike committee. The union urges all members to attend.

PITTSBURGH WILL HEAR JOHNSTONE

Speaks on Convention of Profintern

PITTSBURGH, Pa., June 18.—The progressive workers of Pittsburgh and vicinity will hear Jack W. Johnstone, national organizer of the Trade Union Educational League, on June 20, 8 p. m., at a mass meeting in McGeagh Building, 607 Webster Ave.

Johnstone, chairman of the American delegation to the recent congress of the Red Trade Union International and just returned from the Soviet Union, will speak on the proceedings and decisions of the congress. The congress gave special attention to the labor movement in the United States, particularly to the problem of organizing the unorganized masses in the basic industries and the struggle against the reactionary American Federation of Labor leadership. The workers of the Pittsburgh district, with its many thousands of unorganized workers and the centre of the miners' struggle, have been advised not to miss this opportunity to learn the decisions of the Profintern affecting American labor.

The meeting is held under the auspices of the Pittsburgh local of the Trade Union Educational League.

Philadelphia Women To Hold Mine Aid Meet

PHILADELPHIA, June 18.—The Philadelphia Women's Committee for Miners' Relief will hold an enlarged meeting on Tuesday, June 19, at 8 p. m. at 1214 Spring Garden St. A striking miner will address the meeting, telling of conditions in the mine regions. A report of the executive meeting will be given on the work done up to the present time. Arrangements will be made for a miners' relief conference of women's organizations of Philadelphia.

SANDINO HAS 24 U. S. PRISONERS

TEGUCIGALPA, Honduras, June 18.—Twenty-four American prisoners including 18 U. S. marines are held captive by Augustin Sandino, leader of the Nicaraguan revolutionary forces. This report was brought by Esteban Pavlevitch who arrived here today from Sandino's headquarters in Nicaragua.

He also reported that Sandino won a pitched battle with marines June 11 at Zapote near Bacaye. The marines were routed and left a number of dead on the field, including their commander.

After June 14 Sandino will "no longer respect foreign properties except those owned by Spaniards and Latin Americans," Pavlevitch said.

The informant stated that Sandino has 2,000 well-armed and equipped men and that with the full development of the rainy season he expected to fight under favorable conditions.

Colombia Goes "Dry"

BOGOTA, June 18.—A law for the prevention of alcoholism was recently put into effect in Colombia. According to this law no intoxicating beverages can be sold between 4 p. m. and 8 a. m., nor on Sundays and holidays. Only one establishment selling alcoholic beverages will be allowed to every 5000 inhabitants. The loss in revenue will be compensated by indirect taxes on the consumption of native products.

Coal Worker Killed

George Kavilinski, 60, of 8126 Grand St., Maspeth, Queens, was killed last evening when, bounced off the top of a coal truck, he was crushed by a heavy chute. Kavilinski was riding on top of a truck owned by the Knickerbocker Coal Company of Brooklyn. In Forest Hills the truck struck a depression in the road and Kavilinski was thrown out. The chute fell on him, crushing him to death instantly.

COLLEGE CONTROL IS THE SCHEME OF POWER INTERESTS

Regular "Endowments" Plan Intended

WASHINGTON, June 18.—Control of colleges through permanent endowments and the placing of professors on utility company payrolls has been planned by the Power Trust, it was revealed today.

These plans were developed by responsible leaders in the industry in a written report subpoenaed by the Federal Trade Commission in its utilities investigation.

For fear to risk what one leader termed a "high-handed attempt" to control textbooks the project has been modified in some particulars but not in fundamentals, according to the commission's record.

Measures to control both teachers and textbooks in colleges are an extension of the editing and attempted rewriting of high school texts by Power lobby organizations. Other documents in the record show this editing, done by propagandists and other lesser lights, was approved by leading magnates.

It was proposed at one time the "biggest" men in the industry pass on manuscripts.

A report of a "subcommittee on program" of the National Electric Light Association's committee on cooperation with educational institutions, submitted in january, 1927, recommended engagement of "a man who is capable to make a survey of all educational institutions in this country where any course relating to the electrical industry is taught involving engineering, legal, economic or business problems."

Young Worker Killed By Scoop in Woodhull

WOODHULL, N. Y., June 18. — While his father, unable to aid him, looked on, Riley Miles, 23 years old, of Rathbone, was crushed to death by the scoop of a steam shovel near here today.

Miles and his father were both workers in the same gang constructing a bridge. The son was caught beneath the scoop as it descended.

COAL OWNERS BLAMED.

GREENSBURGH, Pa., June 18.—A coroners' jury blames coal mine owners for the recent Kinlock Mine disaster which took a toll of 12 lives. The mine was not operated according to law, and no safety devices had been installed in spite of repeated warnings, the jury declared.

Now Al Smith Will "Save the Farmers"

The democratic newspapers are generally agreed that Herbert Hoover is the most decent, the most upright and the ablest republican candidate for president. The republican newspapers are equally sure that Al. Smith is the ablest and most decent and upright democratic candidate for president.

This remarkable tone of the press of these two parties is worth thinking about. But it is the inevitable reflection of the following facts:

1. Both the republican party and the democratic party are parties of finance-capital, completely controlled by Wall Street groups which are composed in each case of almost identically the same men. Both parties have the same program, the same financial backers—and it might almost be said, the same candidate.

2. The same banking and industrial interests, merged into a colossal structure of finance-capital, have as their candidate for the republican nomination Herbert Hoover, and have as their candidate for the democratic nomination Al. Smith.

This is not so complicated as it may sound. Hoover is the perfect continuation of the Coolidge regime; he is the "heir apparent" of the present chief executive and his election would be the continuation of the unbroken line of the same administration.

But the same highest chiefs of Wall Street have had, not only a national government at Washington to maintain and control, but also a series of state governments, the most important of which is the New York State government. Wall Street has had not only its president at Washington but also its governor at Albany. The heir of the Wall Street president, and the Wall Street governor in person, are the rival candidates of the respective parties for the presidency.

Both nominees are Wall Street's choice. Never before has there been a situation in which each of the big capitalist political parties represents so perfectly the same class interests.

Hoover may be the candidate which Wall Street would prefer to elect—other things being equal. But other things might not be equal. It is conceded that the ruin of the farming population may react in such a way as to lose several Western states for the republican party. Through the clever use of a horde of shyster "farmers' friends" such as Curtis, the vice presidential nominee, Norris and others, further leftward, the Wall Street chiefs of the republican party have prevented the splitting away of any of the farming elements. Therefore, if the electoral vote of the doubtful Western states is cast against the republican party this year—it will be cast for Al. Smith, Wall Street's nominee in the democratic party.

The backers of Al. Smith are worried as to what position they ought to take (in words) on the farm question. The New York World, backer of Al. Smith, says:

> **"Democratic acceptance of what the republicans have rejected cannot be recommended for either political or economic reasons. On the political side the championship of McNary-Haugenism would alienate more votes in the East than it would win in the West."**

In practice, of course, Al. Smith's program for the farmers is the same as that of Hoover's—ruthless exploitation, foreclosure and ruin. But in words—that is another thing. The democratic politicians are fearful of making their party take on something of the color of Bryanism. The problem is to use such clever words as to make the farmers think that capitalism under the democratic party will not ruin the farmers, and yet say it in such a way as not to overstrain the sense of humor of the big Eastern lords of finance-capital.

But the program of Al. Smith no less than of Herbert Hoover is to push forward with the imperialist policies of their masters, which can have no other result than the progressive ruin of the small farmers.

And as for the industrial working class—the financial giants laugh. The program is the open shop, the destruction of the trade unions, the "hooverization" of industry at the expense of the working class.

This national election does not leave the workers or the exploited farmers without something to do. The thing for workers and farmers to do is to vote Communist, and to build the Communist Party—the only party that will and can fight capitalism on behalf of the workers and the exploited farmers.

Japanese Fascists Kill Workers

TOKIO, June 18.—The white terror had been gradually sharpening in Japan from 1923 on until the crisis caused by the earthquake brought about a sudden heightening of the class struggle.

"Heroic Deeds."

Some of the heroic deeds of the Japanese bourgeoisie are the murders of Comrade Kawai and seven other workers committed by the police, the murder of the anarchist Oosugi, his wife and brother, also committed by the police, the Corean pogroms, of which thousands of human beings were victims; the hanging of Nauba, who had made an attempt on the life of the prince regent, the hanging of the worker, Frut, who had made an attempt against the life of General Fukudu, the instigator of the Corean pogroms; and the sentencing to death of the Coreans, Paku and Kanoko, for high treason.

As part of its campaign against the workers and peasants, the Japanese government passed a number of extraordinary laws, such as the law against civil strife, the act for the preservation of law and order, which involves sentences of ten years for the least infraction, and labor legislation which permits the most thorogoing meddling by the police in economic struggles.

Fascist Organizations.

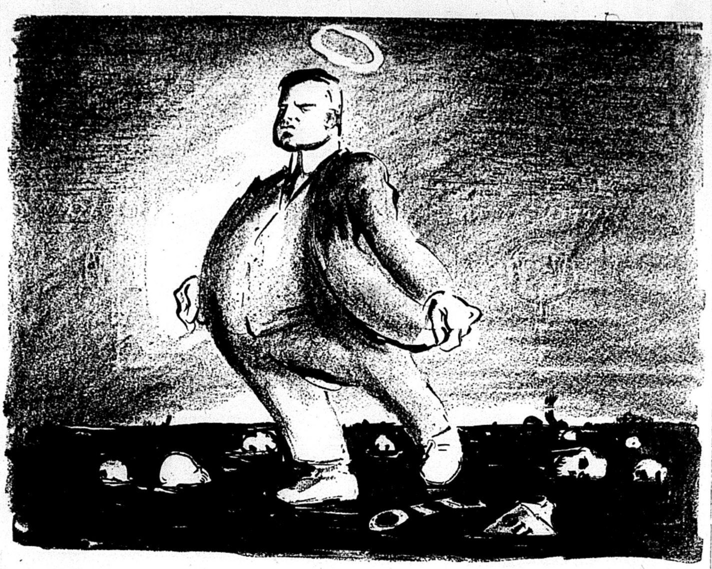
Besides these measures, the government is favoring a number of fascist organizations of which there are dozens in Japan, among others the Kokusaikai, the society for struggle against the Red peril, the defender of the imperial soldiers, the imperial youth league, the league of young patriots, and the league of patriotic women. These organizatiions take an active part in the struggle against strikes and revolutionary organizations in the shops and among the apprentices. They are chiefly active as denouncers and scab-herders.

The last few years have been characterized by the oppression of the peasant movement in Japan and the growth of oppression in Corea. During the peasant disturbances in 1926 in the Nagani prefecture, and others, 826 men were arrested, of whom 159 were charged with destroying police booths.

In 1928, as a result of the election campaign, there have been numerous arrests, particularly in the villages, where the Rodominto, which is demanding the distribution of the entire land among the peasantry, is very popular. For example in Kagawa, a small district in the island of Shikoku, over 1,000 workers were arrested The total of arrests in Tokio reached 120.

THE HOLY MAN WALKS ON THE SEA OF OIL

By Fred Ellis



Herbert Hoover, who for eight years sat in the oil graft cabinet of Harding, Coolidge, Daugherty, Fall and Mellon. But a Teapot Dome conspirator becomes a man of divine purity.

HANdOuTS

GEMS OF LEARNING

Rev. Dr. Selden P. Delany—"We are not worshipping bread and wine but the sacramental body and blood of our saviour, mysteriously present on our altars." Very mysteriously.

* * *

Rev. Dr. Harry Emerson Fosdick—"In one sense a five-hour day will put a heavier strain on the morale of the people than a twelve-hour day." Workers will take a chance.

* * *

H. F. Gresham, of Bradford, England, who has just returned from the orient—"The Red . . . soldiers . . . come from the lowest class and have no ethics of any kind to observe. There were even a few armored cars being driven through the streets by young students, who represent a dubious element in China. These students have usually been educated in England or in the United States. Unlike the Japanese young men, they do not seem to go to college to learn electrical engineering, medicine, or any specific trade or profession. They spend the greater part of their time on political theory and then come back to China, according to good information, to become agitators for some impractical political idea." Gresham then goes on to give a good description of himself, "I much prefer the merchant class."

* * *

Dr. Henry Sloane Coffin, president of the Union Theological Seminary—"There are many nominal christians and possibly some in this graduating class have no sense of being lifted or upborne by a mighty power." Ten chances to one, yes.

* * *

Bishop Ruiz of Morelia, Mexico—"It is immediately evident which are the outstanding laws which must be repealed. For instance some of the Mexican states have passed laws stating that all priests must be married. Obviously, if the Catholic church is to resume its work in Mexico this law must be repealed." The clergy's time honored privilege of promiscuity must be upheld.

Our Workers Party Candidates

What do the Communist candidates for president and vice-president in this election represent? What does their candidacy mean to the working class? The DAILY WORKER will publish in the next few days the speeches of William Z. Foster and Benjamin Gitlow in acceptance of the nominations. To begin with, we publish below the speech of Robert Minor, who was chairman of the committee on nominations, by which the names of Foster and Gitlow were placed before the convention.

* * *

Comrades:—

Your committee on nominations has reached a unanimous recommendation. The committee is quite conscious of the fact that the nominations of candidates to bear the red flag of working class revolution, the flag of Communism, in a national campaign is a very serious one. The purpose of the Communist Party in making nominations is utterly different from the purpose of the republican party, the democratic party or a so-called socialist party in choosing standard bearers. We are not choosing men or women for the purpose of administering in a smooth manner the machinery of the capitalist state. In choosing the representatives of our party to go before the masses we are choosing men or women who will mobilize the working class against the capitalist state, against the ruling class, for the overthrow of the present form of society and for the establishment of a revolutionary state—purposes utterly antagonistic to the purposes for which the American democracy, so-called, was formed.

The men and women who go out as our representatives must go out as fighting men to mobilize the workers to support the strike of the miners, to support the strike of the textile workers, to carry on a vigorous drive against the labor bureaucracy and against the bosses for the saving and for the building of our trade union movement in connection with our election campaign.

These who represent us as candidates must go out as organizers of the working class to struggle for all demands of the workers of today and tomorrow, and at the same time to hold before them the aim of our revolutionary working class movement, the ultimate emancipation of our class.

I recall, comrades, an incident of the time when we were about to found our Workers Party, when our Communist Party was illegalized by the capitalist state, suppressed into secret existence. A little group of us as delegates of our Party to the Communist International at the Third Congress in Moscow, went at midnight after a session of the congress to visit and discuss our plans with Comrade Lenin.

One of the comrades who was still somewhat afflicted with some extreme leftist views asked Comrade Lenin whether or not our Party should put into the field at an election campaign any candidates for executive and administrative offices. (The view of that comrade was that we should only put up candidates for legislative positions.)

Comrade Lenin replied to us that in his opinion the action of Eichorn in the revolutionary crisis in Germany, in taking the post of chief of police of the city of Berlin and utilizing that post to pass out arms to the workers of Berlin was the answer to our problem.

We are putting up candidates to mobilize the workers for the class struggle. In reality it is not individuals, but our Party itself, which is the candidate. At the same time we must choose standard bearers who are tried and true leaders of our class, men and women who symbolize the revolutionary traditions, who are tested and proven leaders of our revolutionary Communist Party, the Party without whose leadership success is impossible for the working class. Those candidates go into the field as marshalls, but at the same time under the discipline of the Party and subject to the iron command to carry out the will and the program of our Party.

We of the committee, without any dissenting vote or dissenting thought, without the proposal of any other names, have been able to reach a conclusion, in favor of a candidate for president of the United States and another for vice-president.

We recommend for the presidential candidate a man whose name is associated first of all in the minds of the workers with that great struggle of the working class, the steel strike of some years ago. In this man we recommend are embodied the best traditions of the old days of the socialist party when we all—the older ones among us here—were in it; embodies the best traditions of the industrial workers of the world when that too was a revolutionary organization. He embodies that great portion which used to be larger than it is now inside of the American Federation of Labor, but which the bureaucrats are trying to crush out of it,—the revolutionary workers within the American Federation of Labor; the candidate we propose is a pioneer of the Communist movement who was himself in the old underground movement of our Communist Party in the days when we were illegalized; a man whom the capitalist class tried to imprison in Michigan, a member of the Executive Committee of the Communist International; a man whose name strikes terror and fear and hatred into the hearts of the capitalist class.

For vice-president we have to recommend a veteran of the trade union struggle in the largest city of the most brutal capitalism of the world. We have to recommend a fighter, a fighter for revolutionary principles in the socialist party, in the days when John Reed and Charles E. Ruthenberg led that revolutionary body; a man who represents our traditions as a founder of the left wing in the socialist party, a founder of the Communist Party, a founder of the American section of the Communist International, who has spend long years of prison and suffering in behalf of our class' emancipation.

Your committee nominates for president and vice-president of the United States, William Z. Foster and Benjamin Gitlow.

(Tremendous Applause.)

Growth of Trade Unions in the Soviet Union

(The following is from "Soviet Trade Unions," by Robert Dunn, published by the Vanguard Press.)

* * *

(*Continued.*)

Immediately after the March revolution a council of trade unions was formed in Moscow and another in Petrograd. These councils later cooperated in calling, in June, 1917, the Third All-Russian Trade Union Conference. This conference consisted of 247 delegates representing nearly 1,000 local unions and 51 central trades councils, embracing a total membership of about 1,500,000. The conference was controlled by the Menshevik and social revolutionary groups, and confined itself to advocating heavier taxation of the capitalists, the standardization of prices of certain articles consumed by the working class, state control of important branches of industry, and similar measures. A general tendency toward coalition and cooperation with the employers also manifested itself at this conference. Nevertheless, it advocated the industrial principle of organization and established a central organization for the trade union movement.

From this time on, however, the union movement swung sharply to the left, due, in part, to the vacillation and weakness of the Kerensky government and its desire to prolong Russia's participation in the war. The growth of the Bolshevik strength in the unions was due in part, also, to the attacks of the employers and their associations on the workers. The latter became thoroughly disillusioned concerning the government and were further aroused by attacks on what they conceived to be their rights and gains under the revolution. The employers not only provoked strikes of local unions which they then proceeded to crush individually, but also used the lock-out to combat the workers' demands for an eight-hour day, increased wages, workers' control, unemployment insurance and similar legislation.

In the bitter struggles between workers and employers which continued during the summer and fall of 1917 the unions of industrial workers supported Bolshevist policies and were, in fact, the fighting force that affected the overthrow of the coalition government and the setting up of the Soviet government in the October revolution. Their strikes, their agitation and their Red Guards were the instruments through which the revolution was carried out. It was they who, under Bolshevist leadership, took over state power for the workers and peasants. With the exception of the printers, commercial and bank employees, and the higher grades of railwaymen, practically all the unions were on the October barricades.

In Petrograd, Moscow and the other industrial cities union workers were the ones who carried out the final seizure of power and the disarming of the bourgeois classes and their faltering coalition.

Immediately following the revolution the unions continued their loyalty to the new government which they had created. They were in the forefront of the struggles against the sabotage of the higher officials of industries and state institutions. They declared that strikes during the period of consolidation of the state power in the hands of the Soviets constituted, in effect, counter-revolution, and did all they could to prevent them and to settle them quickly when they occurred. Their main job then was to help the workers' and peasants' government maintain order and put down its class enemies. The unions led the movement "back to work," realizing that the factories must be kept going, under workers' control, if the working population was to be supplied with clothes and needed commodities.

"Workers' control" at that time meant ownership of the factories and workshops by the particular group of workers employed in them, but rather operation of a sort of control committee to check up on the activities of the private employer and to see that he ran his plant with the greatest possible efficiency consistent with those turbulent days. If an employer fled from the scene this committee would take over the operation of the enterprise, which war forthwith nationalized. Workers' control was thus in itself not the socialization of the factory, but in practice it often proved to be the first step in this direction. In the working out of this process the union proved to be the uniting and integrating factor, giving order and uniformity to acts of local factory committees. In the course of this important duty the unions became themselves virtually a part of the machinery of government.

The new role of the unions was discussed at the First All-Russian Congress of Trade Unions called in Petrograd in January, 1918. This congress recognized the fact that the whole question of workers' control was bound up with "the general system of regulation of national economy; that it is the basis of state regulation." It likewise decided that the trade unions could not be neutral in the struggle to establish socialism during the period of proletarian dictatorship. Consequently it passed resolutions strongly supporting the Soviet Government and expressing its desire to work with it in the tremendous task of economic construction. The congress also confirmed the action of the conference of trade unions held the previous June, that "the factory committees must become local organs of the union" and should not carry on an existence separate and apart from the union movement. Accordingly it abolished the Central Council of the Factory Committees which hitherto had played an independent role in uniting the committees of various factories. This congress also strengthened the "production principle" of organization, provided fof a further centralization of the union on vertical lines and stressed the role of the unions in the industrial upbuilding of the country.

The story of the unions during the entire period of war communism would provide material for a separate volume. Briefly, it may be said that from this time on the unions, firmly led by the Communist Party, held economic and political views practically identical with those of the leaders of the Party and the government. During the long and trying period of the civil wars the unions were practically mobilization centers, and skilled union workers from the metal, textile and other factories were the shock troops that drove back the White armies and the foreign interventionists on every front. In regions where the counter-revolutionary forces were successful for a time the unions were wiped out and their leaders shot. Whenever the Red troops won territory the unions were restored and workers' organizations helped to reestablish soviet control. The history of the unions during this period is the colorful and dramatic story of military campaigns in which the forces of the workers were finally successful over the forces of the capitalists, the land owners and the foreign armies of intervention.

(*To Be Continued.*)

Psychologists Convene

MOSCOW, U. S. S. R., June 18.—A number of prominent foreign scientists are taking part in the third All-Union congress of psychologists which recently opened in Moscow, namely professors Abderhalden, Trenrelenburg, Kraemer and Hoffmann and Haldane and also a number of Soviet scientists.

The congress will hear 180 papers on physiology, bio-chemistry and pharmacology.

AMERICAN MINE OWNER INVOLVED IN DONETZ PLOT

Krijanovsky's Conspirator, Received a Salary of 300 Rubles a Month from U. S. Capitalist

Forced to Admit His Guilt After Severe Cross-Examination by Krylenko

MOSCOW, U. S. S. R., June 19.—Engineer Krijanovsky, accused of criminal sabotage in the huge Donetz conspiracy against the Soviet Union, admitted upon examination yesterday that he had been paid a salary of 300 rubles ($150) a month by an American firm known as Stuart's, and that he had participated in the plot to destroy the coal industry of the U. S. S. R.

His admission of guilt followed a long statement against him by Prosecutor Krilenko of the Soviet Government, who had accused him of having continually backed the American Stuart firm in preference to that operated by the Soviet Union, in consideration of the monthly salary.

Following the adjournment of the trial this afternoon, the American, Stuart, in a statement to American newspaper men tried to excuse his action by asserting that he had merely paid the Soviet engineers "in strict accordance with the terms" of their contract, and for nothing more.

CONFER ON PLANS TO FOOL VOTERS

Hoover, Curtis Meet; Borah Backs Ticket

WASHINGTON, June 19. — Plans for spinning the great web by which millions of votes will be lured to the side of American capitalism's efficiency engineer were discussed this afternoon at the first conference between Herbert Hoover and eSnator Charles Curtis, candidates for president and vice-president, respectively, of the republican party. A formal conference will be held Thursday with the republican national committee.

Tentative plans call for an extensive stump-speaking tour by Curtis, who is expected to concentrate on the farmers.

Among those who visited Hoover at his home today were Secretary Mellon, millionaire boss of the republican party, and Senator Borah, alleged "progressive" and "insurgent" who expressed great satisfaction with the republican ticket and offered to stump in its behalf.

Smith to Pick Successor.

Al Smith will take a little time off from his personal campaign for the democratic presidential nomination to name the Tammany Hall candidate for his job as governor of New York state.

Among those mentioned as likely candidates for the Tammany reward of the governorship is Aldermanic President Joseph V. McKee, who was active in putting thru the traction betrayal and also backed the bus franchise sell-out to the Morgan controlled Fifth Avenue Bus Co.

Another possible choice is Controller Charles W. Berry, a close friend and admirer of Governor Smith and one of the most faithful servants of Tammany Hall.

MUST HEED LAST CALL OF "DAILY"

Workers Urged to Make Final Effort Today

The last call for contributions to raise the $10,000 fund to save The DAILY WORKER is out today. This will be a final test of the devotion of the class-conscious workers of this country to their fighting "Daily." Only $475.10 was received yesterday, leaving 695.89 still to be raised by 6 o'clock this evening.

Workers, what will be your answer? After so many heroic sacrifices, you must not fail at the end!

The following contributions were received yesterday:

Lithuanian Fraction, $69; J. B. Collins, NYC, $15; 3E 3F, NYC, $4; T. Sturgis, 2E 1F, NYC, $4; Frank Rosetta, NYC, $2; Clara Friedberg, NYC, $3; May Helfgott, NYC, $2.25; J. Lithinsky, Brooklyn, N. Y., $10; May Helfgott, NYC, $6; F. Grossman (shop collection, N. Y.), $4; Love, NYC, $1; 2A 1F, NYC, $1; 2A 1F, J. Cooper, NYC, $1; 2A 1F, [illegible] Cooper, NYC, $1; 2A 1F, S. Solomon, NYC, $1; 2A 1F, Takis, NYC, $3; 2C 1F, NYC, [illegible]; C. Zahn, NYC, $2; J. [illegible], NYC, $1; I. Lerner, NYC, $1; [illegible], NYC, 50c; Russian Ukrainian [illegible], N. Y., $17.50; Henry [illegible]

MILL COMMITTEE DEFIES BARONS TO OPEN PLANTS

Continue Court Terror Against Pickets

NEW BEDFORD, Mass., June 19.—Responding to the news made public yesterday that the cotton manufacturers' association "threatens" to reopen the 56 mills shut down by the strike of the 28,000 textile workers here, the New Bedford Textile Workers' Union of the T. M. C. issued a statement declaring that they would welcome this challenge of the mill barons. "We would then prove that the employers could not get enough men to break ranks as would be required to operate a single plant," the statement says. The announcement that the employers intend to "open" the gates was made in the bosses' trade journals.

Fine Picketers.

Elizabeth Donneley, representative of Workers' International Relief, and the organizer of the children's strike clubs of the Textile Mills Committee, was fined $20 on the usual charge of disturbing the peace, which consists of singing or even whistling on the picket lines.

Jackson Wales, Harvard student, and New Bedford resident, who several months ago aligned himself with the Textile Mill Committee and participated in the picketing under their leadership, was fined $20 on each of two counts of "peace disturbance." He appealed, after being forced to provide $600 in sureties. Another "disturbing the peace" charge was added to the large number accumulated by William T. Murdoch, secretary of the union. He and thirteen others also appeared for trial in the criminal session of the Supreme Court Thursday.

Picket Mills.

The Textile Mills Committee picket leaders yesterday led over 350 strikers in a picket demonstration that encompassed the Hathaway, Page, Sharp, Gosnold and Wamsutta Mills. The mills committee picket line merged itself with the 50 pickets brought out by Textile Council.

PASSAIC MEET TO AID MILL STRIKE

Plan Tag Day for New Bedford Relief

Answering to the call sent out by the New Bedfordr textile strikers, 60 delegates, representing 32 organizations in Passaic, gathered in the Polish People's House on Monroe St. and organized a New Bedford Relief Conference in Passaic, as a permanent machinery to solicit funds for strike relief.

Gustav Deak, organizer of the textile workers in Passaic, who has just returned from New Bedford, gave a report on the strike situation, and urged the delegates to organize the mill workers to collect and rush funds to the strikers. The conference then unanimously adopted a plan proposing the holding of a tag day in Passaic on July 7.

A resolution calling upon all organized labor in the city to assist in and contribute to all relief raising plans was also unanimously carried.

Dam Burst in Canada

VANCOUVER, B. C., June 19.—A huge irrigation dam is reported to have burst at Kelowna, B. C., this morning, inundating several large fruit ranches, washing out the side of a mountain for a half a mile and swamping the Kettle Valley railway tracks where the waters took out several hundred yards of trackage and tied up the Vancouver-Nelson line traffic. No buildings were reported to have been in the way of the flood.

Fund to Save the Daily Worker Lacks $695, Must Finish Today

To the Readers of The DAILY WORKER.

Comrades:

Yesterday's receipts in the campaign to save The DAILY WORKER were $475.10.

Today is the last day allowed by the ultimatum of creditors under the terms of which these creditors refuse to continue the mechanical production of The DAILY WORKER unless we complete the raising of the $10,000 before tonight.

As these words are being written a message was again delivered from these creditors who insist on an answer to the question whether this is to be the last issue of The DAILY WORKER.

Our reply is: No! This is not going to be the last issue of The DAILY WORKER. The splendid response of the militant workers determined to save their revolutionary paper must be successful. The DAILY WORKER must live and fight.

We have come within less than $700 of the total of $10,000 which we are obliged to have raised before the end of this day.

The receipts of the campaign up to last night are:

Week beginning June 3:	
Monday	$ 161.99
Tuesday	464.55
Wednesday	556.30
Thursday	576.60
Friday	695.00
Saturday	705.77
Last week (beginning June 10):	
Monday	1,660.40
Tuesday	661.20
Wednesday	712.65
Thursday	670.40
Friday	716.81
Saturday	741.86
This week:	
Monday	505.48
Tuesday	475.10
Total to last night	$9,304.11
Must raise today	$695.89

This $695 we are sure the militant working-class friends of The DAILY WORKER will contribute before this day is done. The office will remain open tonight until the balance is received. Today we urge all comrades, sympathizers, working class friends to do their best to carry us over the crisis.

New York City comrades and friends are urged to bring the funds directly to the office (the office in the Workers Center at 26-28 Union Square) of The DAILY WORKER. All others are urged to rush funds by telegraph, air mail or special delivery to The DAILY WORKER, 33 First St., New York.

THE MANAGEMENT COMMITTEE.

CAR STRIKE FOR UNION RIGHTS

Demands Include 8-Hour Day

NEW HAVEN, Conn., June 19.—Tramway transportation throughout central and western Connecticut will be tied up if the Connecticut Co. continues its refusal to recognize and deal with the street car men's union. A strike vote has authorized officers to call out thousands of trolley men as soon as international headquarters at Detroit gives its approval.

Recognition of the union, arbitration of the demand for the 8-hour day and a voice in the disciplining of employes are leading demands. Car men in Meriden, Hartford, Middletown, Stamford, Derby, Waterbury, Norwalk and New Haven are involved.

STRIKE AGAINST "LIBERAL" RULE

Communists Defend Swedish Workers

STOCKHOLM, June 19.—Despite protests, including a strike, by the labor movement, and vigorous opposition by the Communist Party, the liberal government has driven through parliament its two bills establishing an industrial court and making compulsory the exact observance of all labor agreements now in existence.

These collective agreements are to be made effective by a special court of 7 members, whose decisions will be final. No suspension of a collective agreement is to be permitted, even over a dispute as to what the agreement means.

Elections next fall will give the workers a chance to show how deeply they resent this harness.

Again Report Death of Chang Tso-lin

LONDON, June 19.—A Central News dispatch from Tientsin tonight stated that the Mukden authorities have officially announced the death of Chang Tso-lin, former dictator of the Chinese northern government.

Chang Tso-lin was reported injured during his trip from Peking several weeks ago when he left with his forces at the approach of the nationalist forces.

Back From Soviet Union

Kate Gitlow, militant leader of American women workers and secretary of the United Council of Workingclass Women, who has just returned from Soviet Russia, where she spent six months studying the conditions of the Russian working class.

'Mother' Gitlow Tells of Role of USSR Women

Six months in the Soviet Union have been six months increasing revolutionary inspiration to Kate Gitlow, secretary of the United Council of Workingclass Women and one of the leaders of the class-conscious women workers in this country.

Mother Gitlow as she is known is back in Ne wYork now after what she terms one of the greatest experiences in her life. Leaving New York in the latter part of October to attend the 10th Anniversary of the first workers' and peasants' republic as the delegate of the United Council of Workingclass Women, she remained for six months, studying conditions there and particularly the conditions of the workingclass women.

Socialism Being Built.

Her eyes glowed with enthusiasm as she sat in the office of The DAILY WORKER yesterday telling of her trip. "The spirit of the workers and their faith in the Soviet government are beyond belief," she said. "There is absolutely no doubt that socialism is being built in the Soviet Union The first impression that one gets everywhere is that this is a workers' country where the workers rule and

(Continued on Page Two)

MINER SMOTHERED BY FALL OF COAL

Operator Neglects Safety Provisions

(Special to The DAILY WORKER.)

WILKES BARRE, Pa., June 16. (By Mail).—News was received here today of the death of Anthony Morishus, a coal digger of Minersville who was smothered by a fall of coal while at work at the Thompson Colliery.

Rescue squads were sent to the scene but were too late to save his life. Insufficient supports to the roof and improper safety precautions by the company are believed to be the cause of the accident. Morishus was 35 years old and unmarried.

RUSH PLANES FOR NICARAGUA "POLL"

Officers Will Command Sections; Rush Bomber

MANAGUA, June 19.—Following the report that a fifth army bombing plane is on its way to this country from the Anacostia air station in the United States, plans are being perfected for rushing the operation of the electoral machinery in preparation for the approaching elections.

General Frank R. McCoy, American supervisor, under whose command the lections will virtually take place, has arrived in Nicaragua and had his first conference with president Diaz shortly after. Definite announcement was then made that the American marine officers will act as departmental heads during the balloting.

To Kill 48-Hour Law in Louisiana Legislature

NEW ORLEANS, June 19.—The bills introduced in the state legislature here, restricting the working hours of women to 48, are expected to get short shrift since it was learned that the Association of Commerce has signified its desire that these bills be killed.

The chamber of commerce also turned thumbs down on a measure which provides that employers pay 20 per cent of lawyers' fees in suits to collect back wages. Boss control of governmental machinery is so arrogant here that they don't even pretend to hide the hatred of labor.

MELLON SCABS KNIFE A MINE PICKET

Coal Diggers Force Demand for Expulsion of Strikebreakers

(Special to The DAILY WORKER.)

PITTSBURGH, Pa., June 19.—While Raoul Daniel of McDonald, Pa., is in Mercy hospital here recovering from knife wounds inflicted by three scabs of the Pittsburgh Coal Company who attacked him near his home late last week, workers of McDonald are clamouring for the expulsion of all strikebreakers from the country.

Octavio Ourago and a man known as Almadarez, attacked Daniels after the latter asked them to join the strike as they passed him in the road. The men turned on the striker. One plunged a knife into Daniels' neck and another thrust into his abdomen. The third assailant is unknown.

THE demands of McDonald workers that steps be taken to remove all strikebreakers from the vicinity proved fruitless when county authorities protested that they had no power to act in the matter. Still indignant over the unprovoked assault, workers are insisting on action. The two knife-wielders are under arrest.

MINE CONVENTION COMMITTEE CALLS FOR LABOR'S AID

Chairman Watt Predicts Lewis Will Get Knock Out Blow at September Meeting

Appeals to Workers to Support Coal Diggers in Difficult Task of Building Union

(Special To The DAILY WORKER.)

PITTSBURGH, June 19.—Calling upon the labor movement as a whole to make the miners' struggle its own, John J. Watt, chairman of the National Miners' Convention arrangements committee, and one of the leaders of the movement for a new mine union, yesterday issued a call for support in making the coming mine convention a success.

Rank and File To Act.

The time has arrived, the statement declares, when the rank and file in the miners' union must take matters in their own hands. The betraying policies of Lewis and his treacherous clique has crippled, beyond repair, the once powerful miners' union. At this moment the hundreds of thousands of miners in this country are at the complete mercy of the coal operators. Quick action is required to save the miners from the misery and slavery which faces them.

On June 12th, a conference of the recently elected executives of Districts 5, 6 and 12, and other nationally known miners was held in Pittsburgh, Pa. The result of this conference was the issuing of a call for a national miners' convention to form a new powerful union in the mining industry, to be held in Pittsburgh, Pa., on September 9-16, 1928.

Representative Convention.

Every worker must realize that it is of utmost importance that every local union of the crippled United Mine Workers of America is represented at this historical convention. It is also very essential that the miners of the unorganized territories, so treacherously betrayed by Lewis, be well represented at the convention.

This convention must be made a huge success. This convention will give the knockout blow to the entire rotten Lewis machine. A successful national miners' convention, and the organization of a clean and strong miners' union, will mean new hope and life to the entire working class of this country.

Difficult Task.

But to accomplish this is a difficult task. A great deal of organization work has to be done and much money is needed. Already the reactionary forces of the Lewis machine, with the assistance of the state troopers, deputies and coal and iron police, have started a campaign of terrorism against the progressive forces in the mining fields. Mass meetings and conferences are being broken up and the miners clubbed and arrested.

Workers! Come to our aid. This fight is your fight also! Without the aid of the entire working class we are doomed to fail. We promise you that nothing will stop us to bring this struggle to a successful conclusion. You must give us your support. We need funds at once.

Send help to Convention Arrangements Committee, 119 Federal St., N. S., Room 411, Pittsburgh, Pa.

JOHN J. WATT, Chairman.

STRIKE IN GREECE SPREADS WHILE FIGHTING RAGES

Government Despatches More Troops

PARIS, June 19.—Admitting that the situation thruout the country is crucial for them, the Greek authorities, in spite of a severe censorship, yesterday indicated that martial law has been proclaimed in all sections where street fighting is going on, troops have been called out, and that a number of warships are being rushed to Lesbos, in the island of Mytelene, where a squadron of the fleet has mutinied in support of the striking tobacco workers and others.

While almost no news is being permitted to filter thru the rigorous censorship, which the government has clamped down, reports that the seamen have joined the general walkout of all industries have been substantiated.

Spreading thruout the country from the Piraeus to northern Macedonia, the general strike is bringing all sections of the workers out in a militant movement, which is unusual for its spontaneity. Actual call for a general strike has not yet been issued but it is thought that the spontaneous walk-out of the workers will force the leadership of the Federation of Labor to act today.

Reports of casualties due to the fierce fighting between the police and the workers in the struggles of yesterday and two day's ago are being completely suppressed, but it is believed that they may have been considerable.

FRANC STABLE AT LABOR'S EXPENSE

PARIS, June 19.—The stabilization of the franc promised by Poincare will be realized Saturday according to a decision of the French government, but at the expense of the workers.

The present exchange value of the franc is slightly above four cents instead of its normal rate of nineteen cents. This means that to satisfy the interests of French bankers and foreign creditors the French workers must permanently accept their wages with money less than one-fourth its face value. The French workers are living under a terrible system of exploitation and now they are assured of an indefinite continuation of their condition by the "stabilization" program of the Poincare government.

Peril of Italia Crew Is Growing More Imminent

LONDON, June 19.—The position of the Nobile party was described as extremely dangerous in a central news dispatch received from Kings Bay this afternoon. The dispatch said that fissures are growing in the melting ice pack upon which the explorers sought refuge.

Many Killed in Mexico

MEXICO CITY, June 19.—An unknown number of peons are reported to have been killed and scores are suffering as the result of the earthquake which is shaking half a dozen Mexican states.

Tuxtutepec, in Oaxaca, felt seventy-two shocks in twenty-four hours crashing many buildings and endangering many lives.

To Try Dirigible Flight.

LONG BEACH, Cal., June 18. — Dr. Hugo Eckner, noted as a builder of Zeppelins, will attempt a dirigible flight from Friedrichshafen, Germany, to this city in July, according to news reaching here today. The distance between the two cities is approximately 10,000 miles.

BERKELEY PICNIC ON NEXT SUNDAY

BERKELEY, Calif., June 19.—An unusually attractive program and entertainment and talks is promised for the annual DAILY WORKER picnic to be held at Neptune Beach next Sunday, June 24.

Thousands of militant workers of Berkeley and adjoining cities are expected to attend. The "Daily" picnic is one of the most popular events of the year.

Leninist Athletic Club Wins From Luxemburgs

BALTIMORE, Md., June 19.—After a hard fight watched by 800 people at the Cooperative Shore of Baltimore, the Lenin Athletic Club defeated the Luxemberg Athletic Club in a well-played game to the score of 5 to 1.

Isaacs and Rankin starred for the Leninists, while Marshall and Botkin performed well for the Luxemberg A. C.

JOBLESS PAINTER A SUICIDE.

Abraham Rabowitz, 48, an unemployed painter, committed suicide by slashing his throat with a knife yesterday in the bathroom of his home at 246 Clinton St.

Mrs. Rabowitz said that her husband had been despondent for weeks because he had not found work.

Piece Work System Is Shown as New Source of Graft in the Amalgamated

"SCRIP" IS SYMBOL OF THE PEONAGE AMONG THE COAL MINERS

(Special to The DAILY WORKER.)

PITTSBURGH, Pa., June 19.—Two hundred and fifty non-union miners of the Sonmon Shaft coal company in Sonmon, Central Pennsylvania, will receive their next pay in "scrip," or company money, it was reported here yesterday to the National Miners Relief Committee.

"Scrip," little brass tokens, which are worthless except in company-owned stores, is a symbol of the peonage of the miners, and they so consider it.

The announcement follows on the heels of the third wage-cut made by the company since the beginning of the year. Daymen at the diggings are receiving $5 a day. Loaders are paid for net tonnage though they load cars which are designed to hold three gross tons. None of the loaders knows the exact pay he receives for a ton.

Unable to trade elsewhere, miners paid in scrip must pay exorbitant prices at the company stores. The mine management is generous with advances to employes between pay-days, which come only once in two weeks. The miners often find themselves with no money and in debt to the company when pay-day comes. An attempt to leave town under such circumstances means a beating and a jail sentence.

ANT CAMPAIGN IS ORGANIZED BY POWER BARONS

Reveal Nation-Wide Drive in Schools

WASHINGTON, June 19. — A giant campaign by organized electric power and gas interests to seize control of the country's entire educational system, clearing the way for domination of economic and political action, was disclosed yesterday.

The immediate object is to instil "sound" doctrine into all Americans from the child of seven to "political, legislative, administrative and regulatory bodies."

To this end propagandists of these interests are "in contact with school and college students in more than 30 states," re-enforced by powerful pressure upon textbook writers and publishers and the hammering home of "sound" ideas in thousands of columns of free newspaper space.

Of such overpowering proportions is this movement that one of the leading propagandists boasted that in a few years he and his fellows would "create for the first time in the long history of mankind, a definite, sound school of economic thought, not only among economists, but amng all the people."

These disclosures were made in a hitherto secret document supoenaed by the trade commission, reporting in fullest detail the proceedings at a meeting of 19 directors of the propaganda activity gathered together from all sections of the country.

This document is considered in official quarters a master key to propaganda activities which for eight years past, in mounting volume, have flooded with material what the power interests demanded should be thought.

It throws wide doors the commission has opened little by little, and summarizes and interprets — in the language of the power spokesmen themselves—reams of written reports which have gone into the commission's record piece-meal.

The extravagant prophecy that the first "sound school of economic thought" in history was to be set up was made by J. B. Sheridan of St. Louis, director of a network of propaganda in Missouri which has reached out to virtually every section of the country. He will be a witness in the investigation tomorrow.

The power interests delegated to this man, the task of reviewing the textbooks on civics and economics used in all parts of the United States, to find out what was being taught that they did not want taught, and how to have it "eliminated."

His accomplishments and his aims were set forth at the meeting described in the document. It was held during the seventh annual convention of the American Gas Association in Atlantic City in October, 1925, with many utility leaders sitting in with the propagandists at their session.

Since that time, the commission's record shows, hundreds of thousands of dollars have been poured into propaganda work, and every form of it has been extended.

Bomb Injures Seven In Detroit Building

DETROIT, June 19.—Seven persons were injured today when a bomb exploded in the corridor of the County Building here. The bomb was discovered in a lavatory and carried into the corridor where it exploded while several people were throwing water on it. Three men seen running from the scene were arrested.

U. S. Militarism is Proud of Him

Capt. Emilio Carranza is being employed by American and Mexican interests to play the role formerly given to Col. Charles Lindbergh. Carranza's recent flight from Mexico to the United States reflects the growing understanding between the big business interests of both countries which led to the neutralization of the oil legislation. The picture shows Major-General Hanson Ely, notorious militarist, with his hand affectionately embracing the Mexican fladgling.

WORLD TOURIST PRAISES U.S.S.R.

Cites Value of Soviet Union for Americans

"Russia is still a closed book to the millions in America, and a sensible method of building up a firm basis of friendship between these two great countries, is closer personal contact and the sweeping away of distorted pictures of each other's lives," said M. Maurice, a director of the World Tourists, Inc., of 69 Fifth Ave., New York City, who spent the past winter in Soviet Russia securing the renewal of the contract given to the World Tourists, Inc. to arrange tours thruout the Soviet Republics in cooperation with the official travel bureau of the Soviet government.

"No country has more beautiful natural wonders or greater treasures ot art than Russia," continued Maurice. "One can within a week, brouse thru the sub-tropics of Tiflis and Crimea, travel thru the scenic marvels of the Caucasas and trek the rick soil of the Volga district."

The World Tourists, Inc., at once visualized the tremendous tourist possibilities of this vast country and was the first company to bring this field of unusual tours and interest to the American people.

DEGREES FOR POLITICIANS

HANOVER, N. H., June 19.—Former Secretary of War Newton D. Baker and United States Senator George H. Moses were among those receiving honorary degrees today at the 150th annual commencement at Dartmouth College. They were awarded the degree of Doctor of Laws.

KILLED BY TRAIN WRECK

ONTARIO, Cal., June 19.—One man was killed and two others are believed to be dead as a result of the derailment of a Southern Pacific fast freight train, one half mile west of here today.

DONN BYRNE DEAD

CORK, Ireland, June 19.—Donn Byrne, short story writer and novelist was found dead today by his secretary beside his overturned automobile.

"BUILD THE CAMP" STAMPS NOW OUT

W.I.R. Builds Vacation Place for Children

"Build-the-Camp" stamps to aid in the building of the new children's camp of the Workers' International Relief are now ready for distribution, it was announced last night.

The fund to establish and maintain this workers children's camp must receive immediate support, if the project to invite non-paying children of strikers and unemployed workers is to be carried out, it was stated.

"Build-the-Camp" stamps come in twenty-five, fifty and one dollar denominations. It has an attractive green-tinted woodland picture of a camper's tent out of which six healthy youngsters peep merrily. These stamps are to be sold to those labor organizations and individuals who realize the importance of providing the children of the working class with a camp where they may vacation in an atmosphere friendly to labor.

Those interest may apply for the stamps at the Workers' International Relief Headquarters, Room 604, 1 Union Square, New York.

Plan General Strike in Bogota; Phones Tied Up

BOGOTA, June 19.—In spite of assurances by representatives of the British telephone company that they will grant the wage increase for which their operators have been on strike for some weeks, the strikers are going ahead with preparations for a general strike and boycott, in view of a breaking off of negotiations by the company.

The walk-out of the telephone workers, which has tied up telephone communications in Bogota for some time and has caused considerable losses to the British interests has had the full support of all sections of the Colombian workers. A recent drive to raise funds for the continuation of the strike brought about an unusual demonstration of solidarity with the strikers.

SOVIET WOMEN PLAY BIG ROLE, SAYS K. GITLOW

Banquet for Veteran Leader Saturday

(Continued from Page One)

where the power of the bourgeoisie has been destroyed.

"The workers and the poor peasants accept the leadership of the Communist Party and refer to it as 'Our Party,' even tho they themselves may not be members. And the Soviet government is a government under which women have equal rights, both political and economic, with the men. The condition of the women and children is the special care of the government. The maternity law excuses women from work two months before and two months after the birth of the child with full pay. After she returns to work, the mother is permitted to take one and a half to two hours off daily to nurse her child. The government also provides clothes for the infant and hospital care is free. Nurseries for children are attached to the factories.

Educational Program.

"A wide and intensive educational program," continued Comrade Gitlow, "is carried on among the working women and the workers' wives as well as among the peasant women. This work is carried on by the Communist Party, chiefly thru the women comrades. The results are truly remarkable. Only those who have known as I have the condition of the working and peasant women of Russia before the Revolution can appreciate the tremendous change that has taken place. Women who five years ago were illiterate, unable to read or write, are now active on workers' newspapers and are writing leaflets and pamphlets.

"I met an old peasant woman who is now 68 years old and has learned to read and write only within recent years. This old peasant woman is the author of a pamphlet on the homeless waifs in Soviet Russia which has had a tremendous circulation."

Attended Womens' Conference.

Comrade Gitlow attended a number of women's conferences during her stay in the Soviet Union. She was one of the speakers at a conference of factory women's delegates at the 10th anniversary of the Soviet Union. This gathering was also addressed by Clara Zetkin, Krupskaya and by a number of rank and file factory women. One of the most interesting meetings she attended was an All-Russian conference of the writers and readers delegates of a working women's newspaper, held in Moscow on International Woman's Day, March 8. This paper has a daily circulation of 200,000 and has 4,000 women worker correspondents.

Comrade Kate Gitlow will probably have more to tell of her experience in the Soviet Union when the militant women workers of New York officially welcome back this veteran of more than 30 years in the American revolutionary movement. The welcome will be in the form of a banquet that has been arranged by the United Council of Workingclass Women for Saturday evening at 6 o'clock at Manhattan Lyceum, 66 E 4th Street. A large crowd is expected at this affair.

Flies Across Atlantic

Amelia Earhart, the first woman flier to successfully cross the Atlantic Ocean. Hopping off from Newfoundland, the airplane Friendship, in which the flight was made, landed in Wales less than 21 hours later.

MORE JOBLESS IN SHOE INDUSTRY

WASHINGTON, (FP), June 19. — Unemployment is worse in the shoe industry this month than in May, according to the mid-June report of the U. S. Employment Service, which always is optimistic. Seasonal slackness of activity is given as the reason why shoe workers have been laid off in great numbers.

New England cities in general show a "surplus of labor" in many lines, while the middle western states report better employment in the automotive industry and in farming and road work. Textile centers report no improvement.

Significant of the permanency of unemployment in America, as machinery has replaced man-power, is the report from Anderson and Kokomo, Ind., among other towns: "All plants were in operation throughout the month, but the volume of employment was not great enough to absorb all resident workers."

MAYOR RETREATS FROM Y. W. C. L.

Workers Put Stickers on Recruiting Signs

CHICAGO, June 19.—Anti-Militarist activities of the Young Workers (Communist) League here have aroused the wrath of Major Edmund R. Andrews, who is wondering what he can do about the matter. Following a bitter denunciation of the league and hopes of finding those who have "defaced" army recruiting signs with posters exposing the military preparations, which was published in the capitalist press here, the major received an official letter from the league. The District Organizer, Leon Plott, challenged Major Andrews to a public debate on the subject: "Resolved, that the C. M. T. C. is against the true interests of the American youth."

The letter from the youth league stated that "failing to accept the challenge will be interpreted by us as an unwillingness on your part to defend a weak case and we will do our utmost to make this known to the youth everywhere."

The major, who has just been so anxious to find members of the league, made a quick retreat when about to meet one in flesh and blood, and refused to accept the challenge.

STONE CUTTERS' UNION IN SUIT

Blackstone Comp. Asks $300,000 Damages

Following the precedent set in the New Bedford stonecutters case of last year which denied workers the right to refuse to work on non-union materials, another company has filed suit against the stonecutters' union for refusing to handle their non-union products. The company is the Blackstone Company of New Haven, which has filed suit against all organizations of the Stone Cutters' Union, both national and local, for $300,000.

The company, according to reports, has already secured federal injunctions against the union.

BOSSES OPENLY ADMIT CHANCES FOR CORRUPTION

Hillman Is "Blind" to Rich Pickings

An extremely clear connection is being established, between the imminent introduction of piece work in the men's clothing industry, which the union officials are enthusiastically putting thru over the protests of the tailors, and the recent exposures of a deeply intrenched system of graft in the New York Joint Board of the Amalgamated Clothing Workers' Union.

Even employers are beginning to admit openly their fear that the system of piece work will be used as a inexhaustable source of graft by the corrupt machine controlling the workers organization. It is even admitted that the graft disbursments along this line are by no means in the future, information being available to the effect that first payments have already been made.

While all this is going on President Hillman is still conducting what he terms "an unrelenting investigation." Despite all his "probing" it is stated that he also knows of officials in the administration who are on the payroll of the Contractors' Association.

There are also individuals in the union administration who are at the same time partners in certain clothing manufacturing firms. Officials have been known to receive appreciative "gifts" not only from individual employers, but from an employers' association as a whole. Heads of the machine, it is further learned, have been sent on lengthy and enjoyable vacations, paid for by money given by doting bosses.

With all those facts easily available to Hillman, the "holp president" still continues to declare that he is dilligently digging for "evidence" of misbehavior.

Another interesting fact: At the recent convention of the A. C. W. in Cincinnati, the 300 delegates to the convention were accompanied by about 700 "guests." These were the paid officialdom, who did all necessary arranging for the maniacal horn-tooting and hammer-banging demonstrations that remained the outstading achievements of the convention. It was now brought to light that the money necessary to pay for the numerous parties and banquets, inudlged in by the machine "guests" from New York, came from a so-called voluntary tax of one hour's work levied on the workers here. Faced with convincing arguments by the Beckerman officials, that the job would be forfeited, most workers decided to "volunteer" the one hour tax.

SLAVES IN BYNUM'S COTTON YARN MILL

"I'm So Tired," Complains Girl Worker in Carolina Village

BYNUM, N. C., June 19. (FP) — "This is a cheap place," exclaimed an 18-year old night worker in Bynum's cotton yarn mill. "They won't put electric lights in the houses or do anything much for you. And they don't pay as much as some other places."

With electric street lamps nearby, she thought the J. M. Odell Manufacturing Company could put lights into its village houses. Only the super's house has electricity. The workers and under-bosses have to use coal oil lamps.

Tired.

"I'm so tired," the girl complained wearily. "Tending 14 sides (spinning) is hard work." She had worked from 6.20 p. m. to 5.40 a. m., the previous night and was up at noon. "Can't sleep any more after I'm once awake," she said listlessly, slumping into her chair. "I hate cotton mill work—not going to do it all my life, if I can help it."

This girl, with her two sisters working day shift, are the chief support of their family. The mother works as "midnight hand" from 6.20 p. m. until 12 or later, until she makes what she thinks she should for the shift. The day workers, one 21 and the other 16, go on at 6.20 a. m. and quit at 6.20 p. m., with one hour out for lunch. Night workers get only 20 minutes out for eating at midnight.

All Are Slaves.

The father, carpenter, finds work in his line scarce in the cotton mill village. So he tends the vegetable patch, chickens and pigs and does most of the cooking. The son, 12, has two more years at the county school before he will be taken into the mill.

"None of us has ever had any high school," the 18-year old girl said. Her oldest sister, now married, had started work at 13, and the rest at 14. She coughed harshly, although she had no cold.

• • •

BYNUM is another of the south's little country mills. North Carolina especially has many of them. It is on the same Haw river which gives power to Saxapahaw mill farther up. The Bynum mill was established in 1888. Its village is set on the steep hillside in blocks, most of the houses gray inside and out, or drab tan, and of similar pattern, with sheet iron roofs. Water has to be drawn from the half dozen pitcher-pump wells, Toilets are rough outhouses.

For a month the Bynum mill has been on short time—four days a week. It gives the workers a chance to catch up with their sleep but it does cut their earnings. The bright young spinner who speeds to tend 14 sides boasts that she can make up to $4 a night occasionally. Her weekly pay envelope is much fatter than the $2 plus daily average for southern mill workers. Her own sisters make considerably less as winders—$2.25 a day when they are lucky.

Bynum hasn't even a movie. The nearest is at Chapel Hill, the university town 12 miles away. The mother is pleased at this "because the children want to go every day, when one's near."

Police Believed To Be Preparing Wholesale Persecution of Cuban Workers

MACHADO PLOTS CAMPAIGN WITH SECRET SERVICE

Forged Documents to Figure in Arrests

HAVANA, Cuba, June 19.—Wholesale arrests of leading workers are expected as the result of reports which have been made by the Havana police to the Cuban government. The police representations were made directly to president Machado.

Preparations for a countrywide drive against all militant and progressive labor organizations and leaders is believed to be contemplated by the Cuban authorities acting under the directions of president Machado. Dozens of forged documents implicating leading workers in revolutionary activity are reported to have been prepared by the police, and a general persecution is on the cards.

The chiefs of the secret and judicial police and of section 1 of the municipal police of Havana have been in secret audience with Machado and details were elaborated at that time for the campaign of terror, it is intimated.

The maneuver of the Cuban government is merely the last of a series which have resulted in the murder, [illegible]ding, jailing and deportation of scores of workers and their leaders.

RELIEF WORKER IS FINED $37.20

Arrested for Talking to Miners

(Special to The DAILY WORKER.)

WHEELING, W. Va., June 19.—Phillip Schatz, publicity assistant for the National Miners' Relief Committee who was arrested by a state trooper when he attempted to interview miners on the picket line before the Triadelphia number two mine of the Elm Grove Mining Company, was fined $37.20 by Justice of the Peace Wickham, Thursday, June 14. Schatz was charged with disorderly conduct and trespassing.

O. B. Pryor, superintendent of the mine near which Schatz was arrested, testified against the relief representative on both charges. Schatz paid the fine in lieu of serving a total of 40 days in jail.

Professor Urges Relief.

(Special to The DAILY WORKER.)

LAKE GENEVA, Wisc., June 19.—"How many present here have contributed even one dollar for the relief of the striking coal miners in the bituminous field?" This challenge to the avowals of active interest in Labor problems made by college students was hurled by Jerome Davis of Yale University, Thursday. More than 1,000 students assembled here at the annual conference of the Students Association.

Davis, an associate professor of sociology at Yale, was invited to address the conference on the relationship of the labor problem to industry. Besides advising students interested in labor questions to study conditions in the shops and industrial establishments of their fathers, the sociologist pointed to miners' relief as a fruitful avenue for work and study. "These miners need help," Davis told his audience, "and anyone interested in the labor movement will feed them as well as engage in dispassionate sociological study.

Urges Sale of Certificates

(Special to The DAILY WORKER.)

PITTSBURGH, Pa., June 19.—"Press the sale of Solidarity Certificates," is the word from Alfred Wagenknecht, director of the National Miners' Relief Committee, 611 Penn Avenue, Pittsburgh, Pa. "With the institution of a campaign of police terror in West Virginia unequalled during the present strike, with new stories of privation coming to our office every day, the workers all over the country must not only talk solidarity. They must prove it with efforts never before equalled by a relief movement in this country," Wagenknecht declared.

Carnegie Steel Company Worker Dies of Injury

PITTSBURGH, June 19.—Antonio Pucci, 44, of 8 Duquesne Ave., Duquesne, died in the West Penn Hospital early yesterday from pneumonia resulting from a compound fracture of the right leg suffered on May 31 when he was caught in a bolt-cutting machine at the Duquesne plant of the Carnegie Steel Company, according to a coroner's report.

PRINTING TRADES CONVENE JULY 23.

GLENS FALLS, N. Y. (FP).—The 32nd annual convention, New York state allied printing trades council, meets in Glens Falls, July 23.

Conspirators All; but Wall Street Finances the Plot

The three men shown in the picture are three of the instruments by which Wall Street has seized upon Nicaragua for the purpose of exploiting its resources and enslaving its people. The last step in this process is to be the American marine-supervised elections by which the American interests intend to retain their grip on the country. From left to right the men are Brigadier-general Logan Feland who commands the marines that occupied Nicaragua. Next is Adolfo Diaz, American supported president, who connives at American seizure of his land. Next to him is Frank R. McCoy, deputized by the American interests to supervise the election.

Imperialists Get Big Profits From Panama

PANAMA, June 19.—The tremendous profits of American imperialism in Panama is revealed by official figures just made public here. They show that the American rule of Panama has brought receipts to the American government of $25,974,572, which is expected to be increased to $29,000,000 before June 30.

This tremendous profit is only the direct revenue to the American government and does not include the tens of millions made by the United Fruit, mining corporations, and other sections of American imperialism here. This income explains the interest in the internal affairs of the Panamanians and in "law and order" which will keep the workers here submissive slaves.

HIRE WICKERSHAM IN THE SOVIET SUIT

Bank of France Would Like U.S.S.R. Gold

PARIS, June 19. — George W. Wickersham, formerly Attorney-General of the United States, has been employed as attorney by the Bank of France in its suit for $5,200,000 in gold sent to New York by the Soviet government last February and later returned to Europe.

The suit of the Bank of France merely demands the money and interest since March 5, but omits all reference as to why they claim the money. This is because that following the first claim, it was pointed out that the gold was not the same as deposited with the Czarist government by the Bank of France before the Revolution. Then the bank took the position that it had a right to any gold from the Soviet Union.

The suit evidently is intended as propaganda against the Soviet Union as the gold has been returned to Moscow.

Amundsen Fails to Arrive at Kings Bay

LONDON, June 19.—The non-arrival of Capt. Roald Amundsen, Norwegian polar explorer, at King's Bay this morning led to the belief that he may be trying to make a direct flight from Norway to the ice floe upon which Gen. Nobile and his companions sought refuge after the wreck of the Italia, said a message from King's Bay this evening.

Amundsen and Lieut. Dietrichsen hopped off in Commander Guilbaud's French seaplane at Tromsoe, Norway, yesterday. It was understood that they would land at King's Bay to refuel before starting for the ice field.

THREAT AGAINST YOUTH LEAGUE

Fears Communists Will Abolish "Aristocracy"

WASHINGTON, June 19. — The fight against the Citizens' Military Camps and other war preparations by the Workers (Communist) Party and the Young Workers (Communist) League has caused the militarists and reactionaries of this city to "see red." A spokesmen for these elements has written a letter to the League warning the young workers that they must not become too dangerous to the capitalist system, unless they wish to arouse the "American patriotism which is a dangerous force."

"Do not try our people to far," the letter continued. "When the time comes perhaps we can speak and act in no uncertain manner. Our creed and watchword — Trust in good but keep your powder dry! And by the lord, we shall keep that powder dry. There is no place for those who stick posters up at school doors in the effort to influence the minds of pupils against everything they should be taught to respect and love."

Just what children "should" respect and love is told by the writer of the threatening communication. The letter continues: "As long as the United States exists as a nation, I pray with all my heart that we shall never lose an aristocracy!"

The letter states: "I would sooner see this land go down like Atlantis of old than in the hands of those who are trying to substitute the red flag of the Commune for our own splendid banner."

Instead of accepting the warning and decreasing their efforts, the Communist youth league has challenged the writer of the threat to a public debate.

RELIEF DIRECTOR APPEALS FOR AID

Urges Larger Sale of Certificates

(Special to The DAILY WORKER.)

PITTSBURGH, Pa., June 19. — "Money thus far realized from the sale of solidarity certificates is encouraging, but the actual sums are not enough to feed the thousands of miners starving in their fight to save their union and the whole labor movement," declares Alfred Wagenknecht, relief director for the National Miners Relief Committee.

Solidarity certificates were issued by the central office of the national relief organization two months ago. The certificates, sold in denominations from 25 cents to $10, symbolize the necessity of unity between coal diggers and workers in other fields of production as the only protection against the open shop and crushing wage-cuts for both. One hundred thousand books of solidarity certificates, each with a total value of $25 are now in circulation, according to the relief director. "Every certificate in circulation should be sold immediately," Wagenknecht declared, "and the money forwarded to headquarters."

Two Injured When Plane Hits Building in Ohio

COLUMBUS, Ohio, June 19.—Two men were seriously injured last night when their airplane struck an apartment building and then crashed in an adjoining open space.

The men are Captain Kelley and Harry J. Neil. Both today were reported to be in a serious condition, although doctors said that they might recover.

The plane, a government machine, ripped off one corner of the building and then crashed in the open lot.

FRENCH ARMIES INVADE MOROCCO MOUNTAIN LAND

Start New Campaign Against Moors

ALGIERS, June 19.—An army of 45,000 French soldiers has carried the French campaign against the Moroccan tribes into the Atlas mountains and occupied a number of startegic positions. The immediate objective of campaign is the control of the sources of water used by the populations in the lower regions.

Plans have been made for the French invaders to halt at their present positions before continuing the campaign against the Chleuhs, the tribe of Moorish warriors against whom the present drive was chiefly directed.

Declining to risk a pitched battle against the vastly superior French forces, the Chleuh tribesmen have retreated farther into the desert and are believed to be waiting a more favorable opportunity for stopping the French advance when an atempt is made to push beyond the fortified posts in the mountains.

The movement of the French armies is considered as a final effort on the part of the French government to subdue the regions of Morocco which have so long withstood its power, particularly the Chleuh tribes.

'PROGRESSIVES' AVOID ISSUES

WASHINGTON, June 19. — Senators Brookhart of Iowa and Howell of Nebraska, progressive republicans, decline to say what they think of Herbert Hoover or the republican platform. Howell has been renominated by his party this year and will devote his attention chiefly to reelecting himself. He is a close associate of Senator Norris in the fight for public ownership competition with the power trust.

Brookhart says he will wait to see what the democrats do at Houston. He is interested primarily in farm relief and public ownership.

God Must Accept New Religion Forms of Turks

ANGORA, June 19.—Religion must be in harmony with the economic conditions and the worship of god a la mode, according to the Turkish dictator, Mustapha Kemal Pasha. An order has been issued that Turks in the mosques must wear shoes and sit in pews like the modern capitalist countries Mustapha Kemal is trying to imitate.

That god must submit to modern conditions is shown by the order to use organs and choirs instead of the droning of the priest, although music was specifically forbidden by Mohammed.

Hundreds Homeless Following Tornado

ST. LOUIS, June 19.—As a result of the tornado in Oklahoma, 300 families were reported homeless, 440 families were reported as requiring immediate aid, and the number was expected to be increased to 700 before long, according to William Baxter, in charge of the red cross division office here.

Reports here indicated the tornado centered its fury in the towns of Blair, Headrick and Snyder, besides damaging numerous farm homes and crops.

Plan His Overthrow

What is alleged by police to be a plot against the existing government of Ecuador has resulted in the arrest and jailing of a number of army officers. The men are said to belong to the "military league," which is charged with fostering the conspiracy. The picture shows Dr. Gonzalo S. Cordova, the recently elected president of Ecuador.

JAIL ECUADOR ARMY OFFICERS

"Conspiracy" Charged by Police

QUITO, Ecuador, June 19.—A number of high Ecuadoran army officers are in jail today as the result of the discovery by the police of an alleged plot to overthrow the existing government. The army officers had engineered the conspiracy, the police state.

The men were arrested immediately after their accusation and were at once stripped of their commands and thrown into jail.

The government is reported to be greatly alarmed over the discovery of the plot, which is the second thus reported since the election of Dr. Gonzalo S. Cordova, the new president of Ecuador.

The police allege that no civilians took part in the plot but that it was work of army officers organized in the "Military League."

Mexicans Deport American Smugglers

MEXICO CITY, June 19.—By orders of President Calles, 12 foreign merchants, including Americans, will be expelled from Mexico tomorrow for complicity in the contraband smuggling operations of Gen. Jose Alvarez, former presidential chief of staff. They will be placed aboard a Vera Cruz train tonight.

UNEARTH FRESH ARMS SHIPMENT PLOT IN TYROL

Rifles Were Destined for Fascist Groups

PARIS, June 19.—A fresh attempt by fascist organizations to supply arms to similar groups in another region has been brought to light with the discovery by the Viennese police of a consignment of military rifles destined for a Tyrolese arms dealer named Mattezi.

The consignment, which was registered as "hunting pieces," was at first allowed to pass thru the East End station until police discovered the presence of several hundred modern army rifles.

Mattezi is being held for false declaration while the Austrian government is going thru the motions of an investigation to find out more about the Tyrolese fascist groups for which the arms were being shipped. It is believed that they are operating against the Austrian government for union with Italy.

Central Europe is just recovering from the alarm caused by a somewhat similar incident, the discovery at an Austrian depot of a shipment of arms from Italy destined for the Hungarian government.

Man Found Murdered

WHITE PLAINS, N. Y., June 19.—The body of an unidentified man was found submerged in the Bronx River Parkway at the Woodland Ave. bridge here. Examination revealed that the man had been slain by a blow on the head with a club and the body then thrown into the Bronx River.

One Year of the
COMMUNIST
Twelve copies for
$2.00

We have on hand a limited number of complete files of the official theoretical organ of the Workers (Communist) Party for one year.

PICKETS CHEER AS BEAL AND 200 TEXTILE MILL COMMITTEE STRIKERS JOIN THEIR LINES

(By a Worker Correspondent)

NEW BEDFORD, Mass. (By mail).—The New Bedford textile strike is now 10 weeks old. Members and sympathizers of the textile mill committees have consistently picketed the gates of the mills every day during the strike.

The picket lines would form at the different mill gates and, at the close, march in body to headquarters on both sides of the city, where leaders of the T. M. C., Beal and Murdoch, would address the meeting. This would take place twice a day. William and Binns of the A. F. of T. O. and U. T. W. urged the workers under their control to stay in bed as the best method to win the strike. However, their members protested so strongly against this decision that these misleaders were forced to come out to urge at their mass meetings the necessity of picketing. So today for the first time in nine weeks 47 of their members picketed in front of the Pemequit mill. Two hundred of the T. M. C. pickets came on the line and joined with them, led by Fred E. Beal and Ellen Dawson, and were met by wild applause. Frank J. Manning led the Textile Council pickets.

Batty arrived by machine and joined the end of the line for one round and went back to the machine. Great crowds watched on the side lines as the cry went up that Beal and Batty were to be on the picket line together.

—JOSEPH G. PACHECO.

Textile Mills Committee Has Won Strikers' Trust, Correspondent Writes

FALL RIVER WILL JOIN IN WALKOUT SOON, HE SAYS

Fight on Wage Cuts, 53-Hour Week, Spreads

(By a Worker Correspondent)

NEW BEDFORD, Mass. (By mail).—The rationalization of industry, the Dawes-plan and the general European competition, the extension of the industry to the southern states, have all had their effect in putting the textile industry in a state of chronic crisis. Since the war, the history of this basic industry is the story of one wage cut after another. The average weekly wage of the cotton mill workers, according to the bureau of labor statistics for 1926, show male $17.48, and female $15.89. Since then, because of more wage cuts, the average has been lowered considerably. The young workers in the industry receive as low as $7 and $8, and the children even less.

Workers Militant.

The above conditions are not a result of the lack of militancy of the textile workers. These workers have struggled heroically, one need only mention the Lawrence, Paterson, and Passaic strikes, but because of the continued betrayal of the A. F. T. O. and the U. T. W., have remained unorganized helpless victims to the onslaught of the bosses. It is because of these betrayals and sellouts, linked together with the extensive spy system in the industry, that created an attitude of wariness and general mistrust among the workers. However, the persistent and unscrupulous attacks of the bosses have given the workers no other alternative but to fight. To the extent where even the reactionary A. F. T. O. has been forced into struggle, altho betraying at the earliest possible moment.

The present struggle of the 28,000 textile workers in New Bedford must therefore be viewed from the general situation. Because of the lack of faith in unions, and because the field is divided between the reactionary A. F. T. O. and the new militant Textile Mills Committee, we find that this strike has thus far more or less assumed the character of a lockout. The "Batty outfit," afraid of struggle, and anxious to stand up to their splendid record of betrayal, told the workers to "stay home and sleep." However, today in the tenth week of the strike one can clearly see the growing influence and strength of the New Bedford Textile Workers' Union, affiliated with the Textile Mill Committees, and with this, the growing spirit, determination, and militancy of the workers.

One Mill, One Branch.

The workers are fast learning that the New Bedford Textile Workers' Union under the leadership of Murdock, Beale, and Weisbord, is the only organization that fights for their interests, and that has seriously undertaken the task of uniting the industry and organizing the unorganized. Instead of having as its panacea the "Lewis and Batty" theory of "too many workers in industry," this union is marching forward under the banner of "One mill, one branch. One industry, one union."

The bosses, realizing the growing menace of this new organization of struggle, and seeing the picket lines gradually change the entire complexion of the strike, have become worried. The conference between the mill representatives and Batty behind closed doors no doubt laid the basis of the betrayal, and worked out ways and means of first crushing the N. B. T. W. U. They know very well that as long as this union continues to grow and spread courage and solidarity in the ranks of the workers betrayal is impossible.

The aim of the bosses is "no compromise." In accordance with this aim their strategy is to smash the union and with it the resistance of the workers. The following are the tactics of the mill owners: (1) Arrest and imprison all strike leaders. (2) Use the press as a means of isolating the union, and breaking the support of its followers and sympathizers. (3) Create dissension within the ranks of the N. B. T. W. U., demoralizing it from within. (4) As soon as expedient issue injunction against picketing.

One need not go very far to show these tactics in action. The jail sentences looming before Murdock, Beale, Porter, and others, is a sign of the attempt to remove the leadership from the field, and to demoralize the picket line. The reading of the New Bedford Mercury, Times, and Standard for the past week shows the malicious intents of the press. The most assiduous action, however, has been the attempt to create inner dissension which was for a time used by stool-pigeons and spies working within the ranks of the union. However, in all of these attempts to crush the union, the bosses did not reckon with their host.

Wins Confidence.

The union has well counteracted all these attacks of the mill owners, and proved itself worthy of the confidence of the workers. The union, by the obvious attempt of the spies to destroy it from within, has only been strengthened, for all sincere workers can see thru this trick. The union has weathered the storm thus far, but it has a thorny and rocky path to travel before victory.

One of the healthiest factors in this new movement in the textile industry is the militancy and leadership shown by the young workers. In New Bedford, where the struggle is sharpest at this moment, the young workers play an integral role. Some of the finest fighters and leaders of the union are young workers. It is these young strikers that guarantee that whether the strike is won or lost, a strong militant union will stay in New Bedford.

In Fall River, where the A. F. T. O. refused to go on strike after its membership voted for strike by an overwhelming vote, the Textile Mill Committees are preparing the ground for the coming battle. The rise of the Fall River workers is inevitable, it is only a matter of time. In this center of gravity also the young workers are in the foreground. They have not had the sad experiences and gone thru the betrayals of the older workers. They have less dependants, and they are so much more exploited, that this section of the textile workers is by far the most militant and aggressive. Not only in Fall River, but in Providence, Taunton, Pawtucket, and thru the entire field one can see the start of a real textile union, and here as in New Bedford, the guarantee for the organization of the unorganized, for abolition of the wage cuts, for abolition of the 53-hour week, lies in the hands of the young workers. It is they who are laying the foundation for a militant mass textile workers' union.

—GILBERT GREEN.

Type of Strike Appeal Issued to Lumber Workers

NOTICE OF STRIKE At Schafer Bros. Shingle Mill

Montesano, Washington.

This is a strike based on the following points:

1st. Wage reduction on three machines, equal to $1.00 to $1.50 per day. Slugging of a sawyer by the foreman, Bob Shores.

2nd. Re-instatement on job of a sawyer whose work was up to grade but was dismissed to place a man on job who refused to work under a union card.

3rd. This is a strike to prevent disorganization of a union crew by introducing on the job of a man who is unfair to Union Labor.

YOUR HEARTY SUPPORT IS EXPECTED TO WIN THIS STRIKE

Above is a reproduction of the strike handbill issued to the workers of the Schafer Brothers Lumber mill who are striking against their bosses in the heart of Washington, one of the most reactionary states in the Union. The handbill was sent us by the Worker Correspondent whose letter appears below.

LUMBER WORKERS TIE UP WASHINGTON MILL

(By a Worker Correspondent)

MONTESANO, Wash. (By mail).—Owing to the strategical position of the workers in the Schafer Brothers' shingle mill, they have a good chance of winning their strike.

This is the same town where the members of the I. W. W. were brought in from Centralia under armed guard and tried by a jury that had been warned by the respectable ruffians of law and order, made up of lumber barons and business men and their lackeys the American Legion, that unless they brought in a verdict of guilty they would never leave the courtroom alive.

I am, of course, referring to the Centralia case of 1920.

The workers of this state have not forgotten the affair but they have already thrown down a challenge to the lumber barons again.

—T.

ELY, LEWIS TOOL, RUNS AS MONTANA BOARD MEMBER

Has Been in Mine for Years

(By a Worker Correspondent)

ROUNDUP, Mont. (By mail).—Renegade Stephen Ely is again seeking favors at the hands of progressive miners of Montana. Posing as a progressive he is trying to force the Lewis faction into line, and at the same time trying to play ball with the progressives.

"Fence Fixing."

Ely has been away from the pick so long that he should not be qualified to run for office in Montana. But a good subservient tool of the "Lewis machine" easily secures an organizer's commission near an election time when the machine needs some "fence fixing" done.

Ely as an organizer, as such, claims he is entitled to a place on the ballot irrespective of how far he has drifted away from knowledge of conditions.

Running for international board member from Montana, Ely is touring the mining camps of Montana trailing with Neil Ferry and Van A. Bittner, two members of the United Mine Workers, who are here in the interest of Senator Wheeler's candidacy.

They Know Steve.

The boys in Montana, knowing Ely to be a staunch Coolidge supporter, are wondering just what kind of a game "Slipper" Stephen is playing and how he will square himself with his copper-collared friends in Montana. Realizing that there is a doublecross in the offing, the progressive miners of Montana are being warned to be on the lookout for slippery Steve since his schooling in the Lewis machine has taught him the ways and means of gaining his personal ends as is demonstrated by his state federation fiasco.

Ely is the president of the Montana State Federation of Labor, by the grace of manipulation, and it is often said that since his ascendancy to this position, the state federation has been in a sorry state of affairs.

Rumor has it that he will be unseated at the coming convention to be held at Roundup, Montana, June 26th, 1928, if someone does not become so subversive as to sprag the wheels of honest expression.

—S. J. M.

JANITOR WANTED; 20 APPLICANTS AFTER EACH JOB

Lucky Men Put on Half Rations

(By a Worker Correspondent)

LOS ANGELES, Cal. (By mail).—A little army of 150 men will be employed as janitors in the new city hall. The salary rate calls for $100 to $115 per month. Official reports show that 3,000 applications had been received a week ago. Undoubtedly, the number of candidates has greatly increased by this time.

For examinations before the civil service commission, the applicants will be assigned to various places, including a number of school buildings, for the two hours of written work.

To be eligible, the applicant must be between 21 and 55 years of age, a citizen and a voter. He must be physically fit. He must have resided in Los Angeles at least one year, soldiers, sailors and marines excepted, and must have had a year's experience at janitor work "or aggregate, including work in marble, tile, furniture or vacuum cleaner jobs," or similar work.

Well, 150 jobs and 3,000 job-seekers. That means 20 men in line for each job. The number of applicants may be doubled before the examination takes place. In that case 40 workers will compete for each of the 150 jobs. When the qualifications, mentioned above, are taken under consideration, 40 to 1 or even 20 to 1 is a very high percentage against the workers and in favor of wage-cutting interests of every description. Suppose, for the sake of argument, that every man in this city between the age of 21 and 55 was given a chance to try his or her luck before the civil service commissioners, the number of applications would no doubt be 50 times 3,000 or 150,000. Such a figure would give a fair illustration of the labor situation in this city of fallen angels, invisible government and the greatest crime center in the world, according to a vice-crusading morning paper.

Janitors on Half Rations.

The so-called living wage in this country is about $2,200 a year. So this Mayor Cryer's oasis of abundance" places its $100 to $115 a month janitors on a little more than half rations—the starvation point.

The invisible government is well organized. Janitors and other victims of the present day society of special interests ought to do the same. The process of cleaning up a rotten society is a far more important job than the polishing of marble and brass, etc., in a master class institution like the new $9,000,000 city hall—with its 400 feet high tower pointing, hypocritically, towards the heaven of our missionized soup-house keepers, too numerous to mention.

City Jobs to Pay More.

On May 25 the city council raised the salaries of 247 city employees of a "higher" class. On May 31 came the turn for a raise to 800 technical men and 1,100 laborers. The latter men were granted a raise from $5.75 to $6.00 a day. The lowest paid workers were forgotten altogether by the mayor and the efficiency director. The city council, however, increased their wages, on June 1, from $4.75 to $5.00 a day. So this class of workers are now better off than the janitors. How long will the "dust-eaters" in the city hall stand for it?

Fear was expressed in the city council that the lowest paid city workers may join the forces of organized labor. The Los Angeles Times is keeping a close watch on the "dangerous" situation.

Cooperatives in Soviet Union Are Expanding

MOSCOW, U. S. S. R., June 19.—A summary of the most important work of the consumers' cooperatives of the Union of Socialist Soviet Republics during the last 3 years shows these societies had 7,120,000 members, of whom 3,529,000 belonged to rural organizations in 1924, whereas in 1927 the total membership had grown to 15,075,000, of whom 9,026,000 were rural members.

Poor peasants predominate among the present shareholders. The cooperatives supplied rural people with [illegible] per cent of their purchases in

Worker Dies in Tank of Boiling Chemicals

Struck by a swinging bucket yesterday in the Bronx repair shop of the New Haven Railroad, James Reilly, an employee, plunged to death in a tank of boiling water and chemicals. Fellow workers were forced to drain the vat to recover the body.

The cauldron was used for cleaning grease from motor parts, which were lowered into it in buckets suspended from a crane. Reilly was standing at the edge of the tank when the bucket struck him, toppling him over. Reilly, an employee of the road for the past 24 years, is survived by four children.

Child Injured in Fall

His skull fractured by a fall down a 35-foot deep subway excavation near his home, Donald Pezzutti, 3, of 85 Sixth Ave., is in a serious condition today in St. Vincent's hospital. He crawled through a guarding fence and dropped through an airhole in the [illegible] roof.

DRAMA

"Elmer Gantry", "Jarnegan" Scheduled for Early Showing

AMONG the new productions listed for next season and scheduled for early opening here are "Jarnegan" and "Elmer Gantry."

Patrick Kearney made the dramatization of the Sinclair Lewis novel, which Joseph E. Shea will present at the Playhouse Monday, August 6. The play is now running in Cleveland. The Jim Tully story "Jarnegan" was adapted by Charles Beahan and Garret Fort, and is scheduled to open at the Longacre Theatre the week of September 3, after a tryout in the suburbs.

Charles Hopkins has a new play by T. C. Murray titled "The Blind Wolf," which was recently produced by the Abbey Theatre, Dublin. Murray's "The Wheel of Fortune" and "Autumn Fire" were produced here some seasons back.

"The Lawyers' Dilemma" by Seaman Lewis will be produced by S. L. Simpson at the Belmont Theatre on Monday, July 9. Stanley James will head the cast.

The 10 per cent government tax on theatre tickets costing $3 or less will be discontinued in legitimate theatres on Friday, June 29.

Jocelyn Lee has been signed by Universal to play an important role in "The Night Bird," Reginald Denny's comedy of the prize ring, which was written by Frederic and Fanny Hatton.

Milton Sills is next to play a railroad man. "The Wrecking Boss," written by Frank L. Packard, will be started upon completion of the current Sills' film, "The Barker."

Asher, Small and Rogers plan to make a film of "The Revolt of Modern Youth," by Judge Lindsey, as a sequel to "Companionate Marriage," on which they are now working.

"Batter Up!" is to be the title of the musical production which will be launched by George M. Cohan as soon as the Nugent play, "By Request," is out of the way.

DOLORES DEL RIO.

In "No Other Woman" the screen feature at the Broadway Theatre this week.

John Cumbefland has been engaged for the new Chopin operetta, "The Charmer." Mr. Cumberland was recently seen in "Furies" with Laurette Taylor, and in "Pickwick."

"Annabelle's Ancestors," a comedy by Frank Russell and Julian Thompson, is being placed in rehearsal by Oliver D. Bailey, lessee of the Republic Theatre. This will be the first play that Bailey has produced in some years. It will open on June 25.

Grace George, it is said, is considering a plan to produce a season of plays in New York next season, the organization being similar to that which she sponsored some dozen years ago at the Playhouse. During her year as an actress-manager she put on such plays as Langdon Mitchell's "The New York Idea," James B. Fagan's "Earth," and "Captain Brassbound's Conversion" and "Major Barbara," by Shaw.

POLICE DRAWN IN N. Y. AMBULANCE CHASER INQUIRY

Worked With Corrupt Lawyers and Doctors

Policemen work hand in hand with negligence and injury case attorneys and corrupt physicians, according to testimony rendered yesterday in the ambulance chasing investigation.

Detailed notes were taken while five witnesses before Supreme Court Justice Wasservogel declared that policemen that came to their aid in accidents had asked them if they "wanted a good lawyer."

The injured are said to have been directed to Albert Schlact, of 150 Delancey St.

The testimony of other witnesses showed that Schlact, as well as many other lawyers involved in the huge graft, had taken fees in excess of those ordered by the court in infant ones, and that he had also settled cases without obtaining court orders permitting compromise settlements.

* * *

An investigation of ambulance chasing doctors, blood-brothers of the legal shysters recently exposed in supreme court, is indicated in an article on the medical practice written by Sol Ullman, deputy attorney-general of New York state, for the Panel, the official publication of the Association of Grand Jurors of New York County.

He said that recent disclosures have established that a so-called "ring" of physicians has been in league with a number of ambulance-chasing lawyers. These physicians, who generally received as part of their compensation part of the settlement or recovery in negligence claims or actions, were at all times ready and did make false statements, false affidavits and false certificates.

In many cases the physicians who had not seen the alleged injured testified concerning fictitious injuries. They were invariably ready to perform any act required of them in

DECLARE STRIKES IN 2 CLOAK SHOPS

Call All Cloakmakers to Picket Duty There

The cloak manufacturing shop of Shapiro and Sons, 1333 Broadway, which was reported in these columns yesterday as having discharged a worker for his refusal to register in the Sigman cloak union, was declared on strike yesterday by the Joint Board of the Cloak and Dressmakers' Union. Also, beginning with this morning, the shop of Bresaler and Friedman, 104 W. 27th St., is also declared on strike for dismissing two workers for refusal to register.

The strikes in these two shops are the first shots to be fired by the Joint Board in the newly launched offensive to rebuild a workers' organization in the cloak and dress manufacturing industry in New York. Due to the "reorganization" started 19 months ago by the socialist officialdom of the international union, the trade was driven into a chaotic condition, it being completely swamped with open shops.

Had Fired Worker.

The first mentioned firm had dismissed Martin Feldman, an active union member, because of direct orders from the Sigman office, which threatened to call a strike if the boss continued to employ him unregistered. The employer sent the worker a letter admitting therein, since he was an able mechanic, that he would not have been dismissed but for the insistance of the right wing union. The Joint Board in calling a strike demands his immediate reinstatement and the reestablishment of union conditions, which the Sigman union permitted the boss to dispense with.

The strike called in the other shop is for similar reasons.

Call to Picket.

In calling the strike the Joint Board appealed to the active union members to report for picket duty before the buildings where these shops are located. Cloak and dressmakers are asked to report early. It is also pointed out that the shop of Shapiro and Sons has two entrances, the most important one being the employees' entrance, 137 W. 35th St. and not the Broadway entrance.

Committee of 500 Meets.

The chief work of the meeting of the Committee of 500 held last night at the Joint Board headquarters, 16 W. 21st St., was a discussion of ways and means to be adopted in launching a drive to organize the majority of shops in the trade, which is now non-union. The strike calls reported above received particular attention at the meeting. The problem of assigning the members of the Committee of 500 to their respective units of ten each, which was begun before the meeting, was also completed yesterday. It was also decided to recruit additional volunteers for membership in the committee.

OIL OUTPUT INCREASES.

Oil production in California last week averaged 847,500 barrels, an increase of 1,500 daily.

Plane in Which Wilkins Flew Across Polar Wastes Arrives in New York

Photo shows the Lockheed-Vaga monoplane in which Capt. George Wilkins made his flight to the polar north, as it arrived in New York on board the Bergensfjord. Wilkins discovered new land in the ice-covered wastes.

TAMMANY CLEARS OWN DEPARTMENT

Rogers Gives Whitewash to Smith Fences

(Special to The DAILY WORKER.)

ALBANY, June 19.—Once more an "investigation" has been made to serve the cunning purposes of the politicians—this time of the Tammany graft Governor, Al. Smith, whom the republican politicians tried to embarrass last year through the revelations of corruption in the administration of the workmen's compensation bureau.

In the announcement yesterday of the results of the "investigation" by Lindsay Rogers, special Moreland commissioner appointed by Smith to investigate the department of labor, are seen the results of a republican and democratic deal to hush up a graft scandal which the republicans were at first intent upon making public.

The workmen's compensation law is being honestly administered, Rogers declared in his report. Charges of fraud are unsubstantiated and there is no evidence to show any employe of the bureau has been corrupt.

Last winter the industrial survey commission, a republican-controlled organization dominated by the open shop interests of the state carried out a series of investigations calculated to expose the widespread graft in the compensation payments by the insurance companies. As a matter of fact, numerous instances were uncovered by Henry D. Sayer who is the executive secretary of the survey commission, but the purpose of the "investigation" was to discredit the compensation laws and to prepare for changes in the interest of the employers and the private insurance companies. This fact was at the time exposed by the DAILY WORKER.

Following this first step the members of the industrial survey commission, Senator James S. Truman, chairman of the commission; Jasper W. Cornaire, another member and Sayer, issued a series of statements to the press charging widespread graft in one of Al. Smith's departments. Thereupon Smith instituted his "investigation" into the department. The meaning of this move soon became clear to the members of the industrial survey commission each of whom, and especially Sayer, had more than a little to hide themselves.

Governor Smith appointed his personal friend, Lindsay Rogers, to do the trick for him. Rogers was originally professor at Columbia University, later he served Smith well as the creator of the infamous governor's commission report in the needle trades issue, still later he became the "impartial" chairman in the cloak making industry and finally was rewarded by the bosses by being made executive chairman of the Skirt and Dressmakers' Association of this city, a job which he still holds. Rogers began the job for Al. Smith.

Thereupon the three republican "investigators" for the open shop interests and the insurance companies promptly denied any knowledge of graft in the department and repudiated their interviews to the press, although one after another of newspaper correspondents swore on the stand to the accuracy of the reported interviews.

The report now issued by Rogers, right hand man of Al. Smith, head of Tammany graft, completes the circle and ends the deal. Ten counts have already been made public in Rogers report each of which whitewashes the department of labor under which the compensation claims are handled. Everything is thorough and good according to Rogers, in spite of the fact that thousands of working men yearly are cheated by insurance lawyers of their real claims, kept waiting endlessly and deprived by others of large rake-offs for "services."

Bronx Cooperative Will Be Scene of Banquet

Section 5 of the Workers (Communist) Party will hold a banquet on Friday, at 8.30 p. m. at the United Workers Cooperative Restaurant, near the Allerton Avenue station, the Bronx, to celebrate the installation of the new section executive committee. Part of the proceeds will be donated to The DAILY WORKER.

ANTHRACITE MINERS OPPOSE MISLEADERS

By B. K. GEBERT.

John L. Lewis, the misleader of the United Mine Workers of America, after the conference with the whole officialdom of District one, from his capital in Indianapolis, issued a statement in which he gave full support to the District President, Rinaldo Cappelini, the tool of the contractors and coal companies, to the little Mussolini of the anthracite and repudiated the special district convention held recently in Scranton. Messrs. Brennan, Harris and McGarry, who controlled the convention and who fought only against Cappelini and did everything to prove they were loyal to Lewis, were condemned by Lewis. Lewis showed that he cannot tolerate anybody who questions his policy.

Brennan and company did their best to prove that they are for Lewis. They ejected from the convention hall George Papcun, the leader of the Save-the-Union movement. They condemned the rank and file movement. Yet this was not sufficient for Lewis.

Action Predicted.

John L. Lewis' fullest support to Cappelini and condemnation of the action of the special district convention of District one was a natural result of his policy. This outcome was pointed out by the Save-the-Union forces, but Harris, McGarry, Brennan could not see it; they were sure that Lewis would recognize them as they believe that they can better deceive the membership than Cappelini and therefore serve Lewis more faithfully.

But Lewis cannot stand even for such demands as those which would eliminate the contractors from the mines and expel them from the union, because he has based himself on the contractors in the anthracite. He cannot stand for the shortening of hours, (the convention demanded a 6-hour day, five-day week). Because Lewis is for the coal baron's policy of eliminating 250,000 miners from the industry, Lewis can never agree to a policy of restoring to membership those whom he expelled from the union. Lewis cannot stand for improving working conditions and raising wages for the young miners. All these demands Brennanites were forced to accept by the pressure of the Save-the-Union forces.

Upholds Murder.

Lewis is for Cappelini, who is for the contractor system, which is responsible for the deaths of such militant rank and file leaders as Alex Campbell, Peter Reilly, Thomas Lillis, the shooting of Sam Greco, the frame-up of Sam Bonita and Steve Mendola. For deaths of these militants both Lewis and Cappelini are responsible.

Lewis is the arch enemy of the mine workers, a friend of the bosses; so is Cappelini. Cappelini knows his boss and knows how to serve him. The Brennanites who say that Cappelini is bad but that Lewis is different, fought against those who exposed Lewis. Now the Brennanites seem to be discouraged and cannot understand why Lewis does recognize them?

But Lewis understands very well that Brennan, Harris and McGarry will serve him even when they are condemned and they will fight against the best interests of the miners.

Lewis warned the Brennan forces not to call the special convention and to withdraw from the activity "before it is too late." The convention was called in spite of Lewis and Cappelini. Brennan went thru with the convention because he was afraid of being pushed aside by the rank and file if he did not call the convention; he figured that by calling a special convention controlled by them, he could best serve Lewis; otherwise, they believed, the Save-the-Union forces would go through with the convention and overthrow not only Cappelini but Lewis as well. The Brennanites did their best to serve Lewis and now they are not recognized! What a tragedy for these fakirs.

Afraid of Effect.

Lewis cannot recognize rump convention in District one for another reason; this would justify the special conventions already held by the rank and file in Districts 12, 6, 5, 2 and in other fields where the district machine has been overthrown and Lewis ousted.

Having failed to get recognition from Lewis, the Brennanites are proceeding with another "wise policy," go to the courts to fight for the establishment of themselves as officials in the District. They are going to the capitalist courts on the ground that at the convention 81 out of 139 locals were represented; a majority of locals and this convention did elect new officers. But courts are in the hands of the capitalists, and Lewis and Cappelini are the servants of the bosses, so courts will not recognize them. What next?

One More Plan.

The Brennanites have one more smart policy and this is an independent union of anthracite miners. In this policy they will get the support of some coal companies and capitalist politicians. This move will be betraying not only the miners of the anthracite but of the soft coal as well; it will be simply a company union.

The rank and file in District 1 must realize what the policy and aims of the Brennan, Harris, McGarry forces means to them; they must militantly resist the Lewis-Cappelini machine as well as Brennan-Harris-McGarry. They are all serving the same masters, only in different ways. Practically there is no difference between them.

We must repeat the words from the statement issued by the Save the Union Committee to the special district convention and to the membership:

"Join with the brothers of other districts in an effort to oust Lewis-Kennedy-Cappelini machine in our union.

"Beware of those who fight against Cappelini and the contract system by attacks against the very ones who are the most militant fighters in the district against Cappelini, against corruption and against the contract system.

"Miners take control of your union."

This is the program of the Save-the-Union Committee; these are the aims of the rank and file of the anthracite. To achieve this the miners must take control of the local union and the district. They must organize in every local union a group of the Save-the-Union supporters who stand on a program and will fight against the coal companies, contractors, Lewis, Cappelini, Harris, Brennan, McGarrys, and the part of the Cappelini machine represented by Boylan and Kmetz, who are uniting at the present time with the Brennan forces for their own interests and to fool miners once more as to their fake opposition.

Rank and File Leaders.

Leaders of the miners in the anthracite will come from the rank and file who will base themselves on the program of the Save-the-Union Committee and will fight for the interest of the whole membership. It has been sufficiently proven that this is the only way for the miners to take control of their union from the hands of politicians, bosses' servants, betrayers and arch enemies.

The task before the left wing is to expose the Brennan-Harris-McGarry group, to show to the rank and file that they are the enemies of the miners, parading under a fake cloak of progressivism.

Fight For Relief.

Fight for sending relief from the anthracite miners directly to the striking miners of the soft coal, to the National Miners' Relief Committee and not a penny to the Lewis machine. To send money to Lewis means to strengthen the Lewis machine in fighting against the miners of the soft coal and the anthracite.

The left wing must put up a militant fight against conciliation board and against the whole offensive of the coal companies. The left wing must organize a Labor Party.

The left wing in the anthracite must strengthen itself organizationally; it must become clear as to its aims in the present situation. Organize blocs of the left wing in every local because this is the only way it can successfully carry on the fight against the murderous Lewis-Cappelini machine.

Grand Jury in Chicago Returns 16 Indictments

CHICAGO, June 19.—Sixteen indictments naming twelve men were reported ready to be returned to Chief Justice Brothers by the Special Grand Jury now investigating the crime wave in Chicago. The indictments are the first results of an inquiry, financed by one group of Chicago capitalists, into murder, kidnapping, slugging and ballot irregularities, financed by other rich men, in recent elections.

The first batch of indictments was understood to be the outcome of the Grand Jury's inquiry into the murder of Octavius Granady.

5 TAMMANY MEN HELD IN STREET CLEANING GRAFT

Smith's Tool Refuses to Act

Five street cleaning department officials of Manhattan were yesterday indicted in the second forced round-up of the great $200,000,000 Tammany graft scandal as a result of which there has been involved mayors, street cleaning commissioners, superintendents, foremen and others more remotely connected with the department and involving, it is believed, even the Tammany mayor, Jimmie Walker, who at one time compared himself in honesty to some of those now implicated in the graft.

The five indicted are attached to Stable D in East 116th St., who recently have been doing "clerical" work in extensive payroll operations. They are James Purchio, forman of the stable, Albert A. Allen, assistant foreman, Charles Hoffmeister, assistant foreman, John Tyrell, driver and John Maher, stableman.

All five were named in one bill charged with the violation of the penal code. Judge Donellan, before whom they were arraigned in general sessions, fixed bail in each case at $1,500.

Numerous names on the lists made up at the stable never received the wages credited to them but the money was as in other cases turned over to those "higher up."

Max Schmillowitz, section foreman and James Gevlin, who were indicted last week, pleaded not guilty today before County Judge Cohn. Their case will probably come up next week for trial

Gasoline has been known to have been stolen from city supplies, other city supplies have disappeared, trick specifications have been tolerated, payrolls padded, city automobiles have been used for private purposes, supervision has been avoided, records falsified, but still old Tammany, new Tammany does nothing but cover up its trail.

ZARITSKY RAPPED TACTICS AT MEET

Call Local 24 Members to Bryant Hall

Thousands of circulars flooded the millinery manufacturing district yesterday, calling upon the millinery workers who are members of local 24 of the Cloth Hat, Cap and Millinery Workers' International, to attend a mass meeting held at Bryant Hall, Sixth Ave. and 42nd St. to hear how and why their international officials are causing the destruction of their organization.

Beginning a few months ago, President Zaritsky and the general executive board under his control, decided to emulate the tactics of the right wing head of the cloakmakers' union, Morris Sigman. They began a campaign of removing from positions of leadership in the organization all officers disagreeing with his policy of installing the piece-work system and relinquishing the 40-hour week to the 44-hour week demand of the employers.

The rank and file committee of operators and cutters, which sponsored the meeting, explained this among other things as the real reason for Zaritsky's attempts to remove the militant leadership of the Millinery Hand Workers' Local 43, the Chicago Capmakers Joint Board and the Boston Capmakers' Union.

CENTER BARBERS TO AID "DAILY"

Workers Urged to Come to Non-Tip Shop

In order to aid it during its present fight for existence, the Non-Tip Barber Shop at the Workers Center, 26-28 Union Square, will contribute 25 per cent of its income to The DAILY WORKER during the present week, it was announced last night.

The shop is located on the second floor of the Center, and is a neighbor of the "Daily" business office and the district office of the Workers (Communist) Party. It is one of the most modern and sanitary in the city, and five barbers are in constant attendance.

Especially for this week, and in order to accommodate readers of The DAILY WORKER, the barber shop will be open from 8 a. m. until 8 p. m., instead of the customary hours.

All readers and friends of the "Daily" are urged to patronize the shop and thus give material assistance to the paper.

CLAIM ARBITER CHOSEN.

MEXICO CITY, June 19.—Prof. M. Sindball, of the University of Copenhagen, has been named arbiter of the Mexican-American General Claims Commission.

Workers' Calendar

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

Sunday, June 24, Passaic, N. J. Workers' Home, 27 Dayton St. 7:30 P. M.

EARTHQUAKE IN MEXICO.

MEXICO CITY, June 19.—Hundreds of houses were damaged or destroyed by a series of 32 earthquakes in the state of Oaxaca yesterday according to advices from the city of Oaxaca this afternoon.

DRIVER OF TAXI DIES FOLLOWING POLICE ASSAULT

Tammany Fails to Act in Violation

Samuel Zorn, for 14 years a taxi driver, and one of four cabmen who, police claim, they mistook for gunmen during a hold-up on May 28 of the Actors' Inn, died at Bellevue hospital following a severe beating administered to him by Officer Hertz of the East 5th St. police station.

Zorn is the second driver to die as the result of this hold-up and of the Tammany police practice of beating up and slugging workers at will, without waiting to find out if the taxi driver whom he suspected had anything to do with the hold-up. Upon reaching the scene the officer took out his gun from his holster and started firing point blank at the innocent hackmen.

Beat Up Drivers Also.

Not satisfied with the deadly effect his gat had on the drivers, Hertz, with the aid of patrons began to club up the cabmen, altho they offered no resistance and were trying to explain that a mistake had been made and begged the cops to stop firing and clubbing them.

Louis Mishkin, a taxi driver and formerly a garment worker, also shot by Hertz, died a few hours after being transferred to the hospital. Isidore Temes received a severe beating and was seriously wounded. Harry Halpern, the fourth driver, escaped with a few scars and bruises.

The bandits who held up the place approached in a touring car and forced the drivers, who were hacking in front of the inn, to remain in their places.

Families Destitute.

As a result of the shooting Zorn's and Mishkin's families are left destitute and friends of the dead hackmen are raising a fund for them.

No action has been taken against Officer Hertz by the Tammany police commissioner, Warren, although Hertz had violated the order from the police commissioner's office that policemen must first give warning by firing a shot in the air before firing directly at any person.

HOUSE WORKERS GO ON STRIKE

Protest the Dismissal of Superintendent

Twelve striking employes of the twelve-story apartment at 645 West End Ave. picketed the place today while scabs worked in their places.

Yesterday the entire staff of employes, elevatormen, porters and doormen walked out in protest against the dismissal of Robert Jensen, superintendent. Joseph Freidman, owner of the house, was threatened with strikes in his other buildings.

These Ocean Flights

Across the Atlantic flies a woman in a frail shell on wings. Across the frozen top of the world flies another plane. The lighter-than-air ship, Italia, wanders or lies in the perpetual ice of the Arctic. An airplane flies from California to Australia.

Almost within the life-time of a single man, the means of travel has been developed from the horse-drawn wagon and the sail ship used by the ancient Phoenecians to the degree that makes possible a 22-hour trip by air from the Western hemisphere to the Eastern.

At the same time within human society there has begun the process of the most violent and fundamental transformation that has ever been produced by history—the transformation of human social organization by revolution from hereditary absolute monarchy and capitalist class republicanism to the overthrow of these old forms and the establishment of the Soviet form of state ruled by the formerly enslaved classes. This also has begun rapidly—the first stage being accomplished in a revolution from absolute czarism to proletarian dictatorship in the largest of the world's nations within a single year.

* * *

What will be the effect of these trans-oceanic flights—made at this particular period—upon the course of human history?

The social revolution will, of course, ultimately claim the entire heritage of all attainment in science, in the knowledge and the control of nature, in the developments of mechanics and engineering by which man becomes the master of distance, of climate, of life.

But these present scientific and engineering conquests are being made, not in an abstract world, but in the same world in which the whole of human society is divided into classes. These classes are in violent antagonism, the class struggle determines the whole course of history—revolution and counter-revolution flame throughout the world and take as fuel all that exists in human affairs.

The flights across the oceans and over the frozen top of the world cannot be taken out of relation to these all-controlling social struggles of the classes.

The highest point in the development of air travel was reached in the struggles of imperialist nations in the world-war for the conquest of the globe by the various imperialists. Unquestionably the first large-scale use of the knowledge developed from ocean flights will be in the transport of fleets of heavy-laden bombing planes.

If the conquest of the Arctic for air travel is made in early time, there is no wild stretch of the imagination in the picture of monster fleets crossing the North-polar regions for quick military attack upon that which expresses all that is hated by United States imperialism—the Union of Socialist Soviet Republics.

The conquest of the air in general will be the heritage of a human race when it is emancipated by revolution. But the conquest of the air by the imperialist nations and at this time, in the period of imperialism and the proletarian revolution, means the danger of even more ghastly suppression of the masses of all the world.

Lindbergh in the abstract might be called "the flying fool" the reckless hero conquering the skies "for mankind." But in the world as it is, Lindbergh is the imperialist acrobat leading the way for the death-machines of United States imperialism; those who fly the Atlantic are blazing the trail of war for the attempted conquest of Asia; the adding of a thousand miles to the radius of a war-plane (and all planes are potentially war-planes) means a further step toward enemy objectives in the bloodiest of all wars which is coming.

But in this world of concrete facts not all nations are capitalist nations. In the Union of Socialist Soviet Republics the unequalled creative power turned loose by revolution bends its attention also to the development of air travel. Scientific and machine development are spurting forward at a speed never before known. If the degree of machine development inherited from the old czarist Russia was of a low level, the released energies of the liberated proletarian class have a capacity undreamed of by the enemies of revolution.

It is the great good fortune of the working masses of all countries that during this period there exists the powerful proletarian state which also fosters the technique that will be used by it on the side of the exploited masses of the world in the all-embracing conflict that is coming.

All workers in capitalist nations should understand, however, that the "Lindy" and "Lady Lindy" heroes of the imperialist governments are developing a means of warfare against the working classes of all nations.

LABOR ENEMY IS HOOVER'S LEADER

WASHINGTON, June 19 (FP).—Harry Wardman, leading non-union building contractor in the national capital, is treasurer of the Hoover-Curtis club of the District of Columbia, which was organized by machine republicans as soon as the 1928 ticket was announced.

The Building Trades Defense League recently circularized the entire country with protests against the letting of the contract for the $500,000 new British embassy in Washington to Wardman. The scab builder is English-born, and is frequently shown honor by the ambassador, Sir Esme Howard.

MORE WORKERS ARE KILLED ON JOB

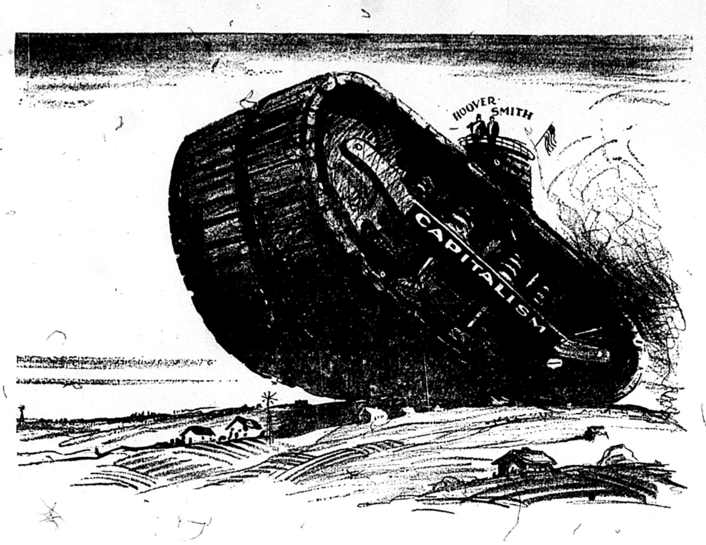
The number of workers killed at their occupations during May has increased greatly over the figures for April, according to the New York State Department of Labor. In April 145 such workers were killed. In May 191 were killed.

Of this number 8 were electrocuted, coming in contact with live wires. Thirteen were killed in falls; twenty-three other deaths followed injuries received in falls.

The workers killed during May left 101 widows, and 94 children and 36 other dependents.

DOWN ON THE FARM

By Fred Ellis



Foster's Acceptance Speech

Comrades: It is a very great honor offered me, when the Workers (Communist) Party asks me to be one of its standard-bearers in the national presidential elections. In accepting the nomination for president, I do it with full appreciation of this honor. By the fact that it is deemed I can be of service to the Party in such a role, I feel that I am a thousand times repaid for such efforts as I may have put forth in the course of my experience in the struggles of the workers. All I can say is that it will be my best ambition in the coming campaign, and in the years of work before me in the class struggle, to be worthy of this great honor conferred upon me by our Party.

A Wonderful Convention.

Comrades, as we live through this wonderful convention, we must realize the great progress our Party has made. What wonderful enthusiasm, what a splendid fighting spirit. Here we have a fine delegation of militants in the class struggle, from almost all the states, from all the important industries. This shows the grip our Party is getting amongst the very best elements in the American proletariat. This convention marks a new stage in the growth of our Party.

In the recent elections in Germany, in France, and in Poland, the Communist Parties showed greatly increased strength, and I am certain that our Party in the coming elections will also register an important increase in strength over the showing we made in the national elections of 1924. (Applause.)

Party Plays Leading Role.

Since 1924 our Party has had much mass experience. We have played a leading role in all the important struggles of the American working class, in the mining, shoe, needle, textile, and other industries. Every effort of the workers in the direction of a labor party has found us in the forefront. We have led the fight against imperialism. During these struggles, we have created around our Party a large body of sympathizers, and in the coming election period one of our principal tasks must be to mobilize these workers politically in favor of our platform, and behind our candidates. It is not enough that these workers follow us in strikes and general wage movements. We must also teach them to actively accept the leadership of the Workers (Communist) Party in its broad political struggles. We must draw these workers into this general political campaign, and induce them to vote for our candidates. We must draw them into membership in the Workers (Communist) Party. These are among the basic tasks confronting us in the present election campaign.

Our Revolutionary Purpose.

We are not going into the national election campaign solely for the purpose of getting votes. It is of course important that we register the extent of our Party's support in the working class by mobilizing the maximum number to vote for our candidates. It is also important, should the possibility present itself in any of the state or local elections, to elect Communist candidates, so that they can utilize the legislative bodies as a forum wherefrom to acquaint the workers with the iniquities of capitalism and the necessity of the Communist program. But we also have other, bigger objectives in the national election campaign. Our aim must be to arouse the class consciousness of the masses in a political sense and to mobilize them for struggle on all fronts. Vote-getting is only one aspect of this general mobilization of the workers.

Our Party, different from the socialist party, creates no illusions amongst the workers that they can vote their way to emancipation, that they can capture the readymade machinery of the state and utilize it for the emancipation of the working class. On the contrary, we must utilize this campaign to carry on a widespread and energetic propaganda to teach the workers that the capitalist class would never allow the working class peacefully to take control of the state. That is their strong right arm and they will fight violently to the end to retain it. The working class must shatter the capitalist state. It must build a new state, a new government, a workers' and farmers' government, the Soviet Government of the United States. (Applause.)

No Communist, no matter how many votes he should secure in a national election, could even if he would become president of the present government. When a Communist heads a government in the United States—and that day will come just as surely as the sun rises (Applause) — that government will not be a capitalist government but a Soviet government, and behind this government will stand a Red Army to enforce the dictatorship of the proletariat. (Applause.)

As to Immediate Demands.

Our convention has just adopted an election platform. This platform outlines a whole series of immediate measures, advocated by us to relieve unemployment, low wages, long hours, discrimination against the foreign-born, women, youth, Negroes, etc. I shall not, in the brief time at my disposal, review these demands. What I wish to say about them now is that we must lay great stress on these demands during the campaign. It is not enough that we simply put forward our revolutionary slogans. We must also organize and lead the workers in their everyday struggles against the most acute evils under capitalism. Our platform demands point the way to do this.

But on the other hand, we must not put forth our immediate demands in the sense that they of themselves make for the emancipation of the working class. In all our agitation around these demands we must emphasize the absolute necessity for the proletarian revolution. Our strategy is to utilize these immediate demands to educate and organize the masses in preparation for the final revolutionary struggle, which will abolish capitalism altogether. Reliance upon immediate demands would lead us merely to reformism. Our Party is a revolutionary Party. It aims not simply to ease conditions a bit under capitalism for the workers but to abolish capitalism altogether. (Applause.)

Permanent improvement in the conditions of the workers under capitalism is impossible. The inevitable crises born of the contradictions in the capitalist system of production and distribution, deepening and sharpening as world capitalism goes into its period of decline, and marked by chronic unemployment and organized attacks on the workers' living standards by the employers and the state, sweep away like chaff such reforms as may have been secured by the workers during the periods of capitalism's upward swing. The only way the workers can permanently better their conditions is by wiping out capitalism altogether and by laying the basis of a socialist system in which the capitalist principle of the exploitation of the great masses of producers for the benefit of a relatively few owners of the industries shall be unknown and where the workers will receive the full social value of what they produce. All this, and the whys and wherefores of it we must tell the workers in our election campaign.

Reformism Futile.

The working class of the world has had a vast experience with reformism and it all goes to show the utter futility of such reformism. All the conquests, all the little improvements in wages, hours, and working conditions that were secured by the reformist policies and organizations in Germany, England, France, etc., during the upward period of development of capitalism in these countries, in the pre-war days, were swept away with one great sweep in the breakdown and decline of European capitalism in the post-war period. About all that is left now of that period is a reactionary leadership, which after betraying the workers in the world war and defeating their revolutionary efforts just following the war, remains fastened upon the organizations of the workers and which now stands as one of the principal obstacles in the way of the emancipation of the working class. Although we advocate actively our immediate demands, we must always do it in this sense: that the workers should fight and struggle for these demands in the present period but that they must educate and organize themselves to put into effect eventually the full Communist program—the abolishment of the capitalist system itself and the establishment of a Workers' and Farmers' Government.

On the other hand—if limiting ourselves simply to a program of immediate demands would lose us in the swamp of reformism, failure to put forward such demands would condemn us to sectarianism. It would cut us off frrom the masses. It would make it impossible for us to participate in the actual every-day struggles of the workers and thus to educate, organize and lead them. The Workers (Communist) Party is a Leninist, Marxist Party. It knows how to participate in the daily struggles of the workers, even for the smallest demands, and it knows how to utilize all these struggles to develop class consciousness, organization and revolutionary leadership among the masses and thus to begin their mobilization for the eventual overthrow of capitalism.

Our Many Tasks.

The Workers (Communist) Party does not go into this campaign simply for the purpose of getting votes or merely to propagate our general Communist program. We enter the election campaign to further all our Party tasks, mobilizing the workers for struggle on every front. And in this period of militant American imperialism, of crisis in the labor movement, of widespread depression in industry, we have many and great tasks. History does not ask us whether we are a big Party or a little Party when it thrusts these tasks upon us. Small though our Party may be at the present time it must go forward bravely and energetically to the accomplishment of these tasks, however great they may be. I shall touch briefly upon some of the more important of these problems.

* * *

(Comrade Foster's speech of acceptance will be continued in tomorrow's DAILY WORKER. In the next instalment he describes the Communist Party's attitude to problems facing the working class.)

British Dyers Threaten Strike

MANCHESTER, England (FP). By Mail—In cotton, wool, silk and jute, workers and bosses are at swordspoints, with lockouts, strikes and protests flying thick through Lancashire and Yorkshire. At Nelson 16,000 weavers have been locked out in every mill because workers at one mill struck against the discharge of a women. In Yorkshire, wool dyers are on the verge of strike to gain collective piece work or higher time rates. They have been operating without an agreement for six months.

In Macclesfield, an important silk center, women workers complain that they are forced to go to work at 6.30 a. m. and must work 50 to 55 hours a week, in place of the agreed 48. Tuberculosis is making heavy inroads among their children. Public medical officers blame it on the need of mothers taking their babies from warm beds in early morning hours to place in nurseries while they work. Women in the silk mills, through their union, are trying to get 30 shilling ($7.50) minimum wage.

In Glasgow jute mills, operatives complain through the jute and flax workers' union that employers are nibbling at the 48-hour week by adding 15-minute periods both in the morning and at noon to work periods.

A Lancashire wide lockout of 500,000 cotton spinners to force a 12½ per cent wage cut and to increase the working hours above 48 was only avoided when the Federation of Master Cotton Spinners split badly on the issue. The mill barons in the American yarn section spinning coarser counts, voted 66 per cent for the lockout.

In a big mill at Oldham, cardroom workers quit because a woman was fired, and other workers served strike notice, as they refuse to handle non-union carded yarn. Oldham masters are threatening a district-wide lockout, similar to Nelson's.

Eighty thousand dyers in the Bradford district are on the verge of a strike for a new agreement increasing wages. Friction between several of the unions involved has delayed strike action.

HANdOuTS

Rear Admiral William A. Moffett, desk chief of the navy's air forces, is apparently satisfied with the lucrative graft offered by militarism. He is determined that his son will not go without the advantages of swashbuckling corruption. His offspring, George H. Moffett, graduated last week from the U. S. Naval Academy.

* * *

Understanding of the complications of modernism by the magazine Times is indicated by the statement that the Boulder Canyon Dam bill has not been passed due to "the difference in the culture of Arizona and California-rancher v. realtor." It might be added that a million dollars spent by a highly organized power trust in corrupting senators, bribing newspapers and spreading propaganda has some small bearing on the matter.

* * *

Inability of the republican politicians to completely submerge the relationship between oil and government is seen in the fact that one of the delegates to the G. O. P. convention is William Samuel Fitz Patrick, Kansas. Fitz Patrick is chairman of the Prairie Oil and Gas Company, whose previous chairman James E. O'Neil was caught in the oil scandals and departed without leaving an address. This indication of the wedding of oil and government that is wished compares to the invisible part as a periscope compares to the rest of a submarine.

* * *

A rotting carcass will draw a lot of strange birds. Among the delegates at the republican convention are Joseph Schenck, the movie producer and William H. Vanderbilt, Newport society devil.

* * *

The renowned worm fisherman and hobby-horse cowboy Cal Coolidge will have fourteen house servants at his summer home in Brule, Wisconsin. In order that he won't wander off the grounds and get lost or fall down and bend his nose he will be guarded by ten detectives and sixty infantrymen from Fort Snelling.

* * *

Toiling Royalist

"Oh Mama, who is the man in the white pants?"

"That's Frederick Wilhelm, darling."

"Does he work at Childs'?"

"No, Adolph. He's the former crown prince of Germany."

"Well, why is he posing like that?"

"He's playing tennis."

"Is that all they can use him for?"

"No. He can still draw a few dollars from American women when he's exhibited at a soiree."

"He wouldn't be a very good show. I'd rather go to Forty-second Street and see the flea circus."

* * *

The Griest Bill, reducing mail rates for newspapers has been passed. A senator must co-operate with a newspaperman if he wants to get his name in the paper.

* * *

Desire of the republican party to win purity at any cost is apparent in the fact that it has hired four preachers to pray for it at its convention. In order that there will be no doubt about making connections with God, four different denominations have been employed.

Borah Seeking a Fat Reward for Treachery

WASHINGTON (FP).—Sen. Borah, who last December announced himself spokesman of the progressives, and that Norris was their presidential candidate, and who turned up in Kansas City as a Hoover manager, is expected to be offered the secretaryship of state if Hoover should win. He is expected also to drop the idea of Russian recognition.

CAL'S SON GETS "SHEEPSKIN."

AMHERST, Mass., June 19. —Among the seniors receiving graduating degrees from Amherst College today was John Coolidge, son of the president. His future plans were not announced. Last year he got into the headlines by engaging in a boxing bout in the college "gym."

Attorney General John G. Sargent, a member of the Coolidge cabinet, was awarded the honorary degree doctor of laws by Amherst, as a reward for his services to American capitalism.

M[illegible]L STRIKERS SLUGGED, JAILED IN POLICE ATTACK

New [illegible] Explosion in Open Shop Coal Mine Kills Five and Injures Fifteen

FOURTH ACCIDENT IN PIT OWNED BY FORMER SENATOR

Failure to Rockdust Is Cause

(Special to The DAILY WORKER.)

MORGANTOWN, W. Va., June 20.—Five miners were killed, and fifteen injured, one probably fatally early today when a gas explosion rocked the National No. 1 mine of the National Fuel Company, open shop operators of National, near here, early today.

Of the twenty-two men in the night shift of the mine only two escaped unhurt when the blast let go, two miles from the pitmouth.

"Scab" Senator.

The scab mine is owned by former U. S. Senator Davis Elkins, millionaire republican clubman of New York and Morgantown, and J. B. Hanford another open-shop capitalist. The gas explosion which occurred this morning as a result of the willful failure to rockdust the mine is the fourth explosion which has occurred here during the last seven years.

Of the fifteen injured some may not survive having been severely burned. The injured were taken to the Morgantown hospital.

Explosions and rock falls in open shop mines during the past month have resulted in the death of nearly three hundred coal diggers, the largest toll being that of over two hundred in West Pennsylvania. Evidence is accumulating that the open-shop operators, increasingly indifferent to the lives of the miners, are violating every safety precaution. A so-called "investigation" which was due to follow the Pennsylvania disaster has thus far failed to materialize.

FIGHTING STILL ON IN GREECE

Official Censorship Is Concealing Facts

ATHENS, June 20.—With clashes continuing between the workers and the police in many sections of Greece, the whole country is eagerly waiting for the declaration of a general strike.

In spite of the effort of the Greek government to create dissension in the ranks of the strikers reports that the strike is spreading thruout the country have been received from various sections yesterday.

The government has not succeeded in detaching various unions by making independent settlement with the individual unions.

Estimates of the dead and injured during the fighting which is still going on are not yet available owing to the extreme censorship which the government is maintaining, but it is known that they are heavy, especially in the north where pitched battles have been announced in some cities.

No information can be obtained concerning the mutiny of the seamen at Lesbos as the government is taking repressive measures with the greatest secrecy.

NOBILE GETS AID FROM AIRPLANE

ROME, June 20.—Major Maddelena has succeeded in reaching Gen. Nobile's camp on the ice off the north coast of Spitzbergen where he dropped supplies attached to a parachute from his Savoia—Marchetti seaplane, according to word received direct from King's Bay tonight. Although planes have been searching the ice floes off the Spitzbergen coast Maddelena, according to this dispatch, was the first to locate the refugees' camp and assist them.

General Nobile, utilizing the small radio outfit salvaged from the wreck of the Italia, directed Major Maddalena to the floating ice where the crew of the dirigible are stranded.

Maddalena dropped 650 pounds of food supplies, and then returned to Kings Bay, reaching there at 12:30 o'clock.

NEW SPANISH FLIGHT.

BARCELONA, Spain, June 20.—Ilario Martinez today began training for his forthcoming fight with Joe [illegible]

MILITANT WORKERS GAVE $9,639 TO "DAILY"

Revolutionary Organ of Working Class Will Live to Fight in the Class Struggle

To the Readers of The DAILY WORKER:

Comrades:

Last night marked the end of the time given us in which to raise the fund of $10.000 to save The DAILY WORKER in a crisis which threatened its life. During the past sixteen days the question of closing down the press faced us several times. Tuesday night at 10 o'clock it was uncertain whether Wednesday morning's DAILY WORKER would come out. Yesterday afternoon at 5:45 it was uncertain whether today's paper would appear.

The DAILY WORKER is not dead. It lives and will continue to live and to fight better than ever before. It will grow bigger and stronger. It will do so because you, as we are absolutely sure, will support it, fight for it, build up its circulation and help it in all ways on all occasions.

The Management Committee believes that constant appeals for money, when avoidable, are not healthful for the Party and the militant labor movement. In the campaign we have very nearly raised the total sum needed. We needed $10,000. You gave us $9,639.36. Although this is $360.64 less than the sum required by the ultimatum of creditors which precipitated the crisis, the Management Committee has decided to make no more public appeals, but to manage, through loans and postponements of some payments, to await further receipts which we are sure many friends and comrades will contribute in the near future.

At the same time it is absolutely necessary to reduce expenses to the lowest minimum.

We must not give way to undue optimism. The summer months are ahead of us, and these are always hard months.

Our plans are now to reorganize the whole printing arrangements of The DAILY WORKER, changing the place of publication to the more economical printing plant at the Workers Center, 26-28 Union Square, and to change the size of the pages to the full standard newspaper size. This will mean not only a better newspaper for you, but also the opportunity to obtain advertising which will ease the financial burden.

Comrades, we are conscious of the magnificent spirit with which you, the militant workers and sympathizers, have responded to the appeal to save the only daily organ of our class in the language of this country. We pledge ourselves to do all in our power to deserve your trust.

The DAILY WORKER is quite sure that you will stand by your revolutionary organ and will continue to help us overcome all the obstacles ahead.

Fraternally yours.
THE MANAGEMENT COMMITTEE.

BRENNAN PLANS NEW TREACHERY

May Try to Separate Miners

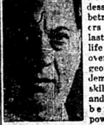
(Special to The DAILY WORKER.)

SCRANTON, Pa., June 20.—The first step towards what is believed to be a plan for a separate anthracite miners' union has been taken by the Brennan-McGary-Harris forces which yesterday issued a statement which they hope will be accepted as a defiance of Lewis. The statement is in reply to the recent letter of Lewis which declared that the recent reactionary Brennan convention was "illegal." The Lewis reply is called "insulting" by the Brennan gang.

So far the Brennan-McGary-Harris misleaders who have been expelling rank and file miners from their meeting in approved Lewis style have been crawling on their knees before Lewis in the hope that they would be accepted by the arch union-wrecker in the place of Cappelini. Now it is believed, they may attempt to form a separate union of the anthracite but the rank and file miners, it is known, will refuse to follow any policy of separation from the bituminous miners.

BARONDESS, LABOR BETRAYER, DEAD

Joseph Barondess, labor renegade, Zionist demagogue and insurance agent, died Tuesday at Mount Sinai Hospital following an operation. He was 65 years old.



Barondess

A founder of the cloakmakers' and actors' union and once one of the most popular and powerful labor leaders among the Jewish workers of New York, Barondess systematically betrayed the workers and during the last 20 years of his life he openly went over to the bourgeoisie, where his demagoguery, his skill at flattery and obsequiousness before those in power soon made him a popular figure in the Zionist and Jewish welfare movements.

Barondess' official break with "socialism" came in 1907 when the pressure of competition made it less lucrative than it had formerly been. He resigned from the socialist party, declaring that the American Federation of Labor could do more for the workers. His career since then has been one of bitter opposition to every progressive tendency in the labor movement and support of the union-smashing policies of the Jewish Daily Forward.

U. S. AUTOMOBILES FOR SPAIN.

BARCELONA, June 20.—One ship from the United States today brought 500 American-made automobiles for sale in Spain.

Slug Strike Leader

Fred Beal, laborer, militant leader of the New Bedford textile mill strikers. Police beat up Beal yesterday while he was leading the strikers on the picket line.

ALEX BAIL WILL TOUR 3 STATES

Communist Organizer to Speak in Many Cities

Alex Bail, organizer of the New England district, is at present engaged in an extensive tour for the mobilization of all Workers (Communist) Party resources in the election campaign, and for the support of the New Bedford Textile strikers.

Organizers on Job.

In addition to his tour, which covers the states of Rhode Island, Massachusetts and New Hampshire, special organizers have been placed in the field to concentrate on certain sections. Toive Mantyla has been assigned to work in Maine, New Hampshire and Vermont; John Hurwitz has been placed in charge of the campaign in New Hampshire, Sam Wynn in Vermont, and James Kangas in Maine. Rhode Island is now being industriously canvassed to procure signatures for the petition which is expected to place the names of Wil-

(Continued on Page Five)

EARTHQUAKE IN CANADA.

VICTORIA, B. C., June 20.—Residents of Victoria felt a slight earth tremor at 7:37 a. m. today while breakfasting. The center of the disturbance appeared to be in the Strait of San Juan De Fuca, close to Victoria.

WOUNDED NEGRO LYNCHED BY MOB

Begs for Mercy as He Is Dragged from Hospital

HOUSTON, Texas, June 20.—Automobile parties composed of early-arriving delegates to the democratic national convention left several hotels here today to visit the scene of the murder of Robert Powell, 24 year old Negro, lynched early this morning.

• • •

HOUSTON, Texas, June 20.—The body of Robert Powell, 24-year-old Negro, was found hanging from a bridge about eight miles from here today.

The body, suspended from the floor of the bridge by a rope was found by two detectives who were following at a discreet distance behind the gang of eight unmasked men who kidnapped the Negro from the Jefferson Davis Hospital here at 3 o'clock this morning.

Powell had been charged with the fatal shooting of a city detective, A. V. Davis, last Sunday. Powell was suffering from a bullet wound in the stomach and was being treated at the hospital.

According to the story of Jackson McCarter, Negro attendant at the hospital, eight men entered the ward where Powell was lying. They tied the wounded man's hands and feet, and as they did so he cried: "Lord have mercy on me." Delegates to the democratic convention are believed to have witnessed the hanging.

Worker Arrested for Distributing Leaflets

Quick action on the part of the International Labor Defense thwarted another attempt of police to jail a militant worker for distributing leaflets.

Benjamin Sturm was arrested early Monday afternoon on 37th St., near Sixth Ave., while distributing leaflets calling millinery workers to a meeting held last night in Bryant Hall. He was taken to the 30th St. police station, but the New York Section of the I. L. D. immediately secured his release on bail.

After a hearing before Judge Flood in Jefferson Market Court yesterday morning, the case was dismissed. Sturm was defended by Jacques Buitenkant, representing the I. L. D.

IRON WORKERS WIN STRIKE.

BOSTON (FP).—Structural iron workers are signing a new agreement for $1.37½ an hour after a short strike.

Leads Illinois Miners

One of the leading militants in the growing plans for a new national mine union is George Voyzey, new head of district 12. Voyzey was counted out in the 1924 election by the corrupt Lewis machine.

SPORT PROGRAM AT RED PICNIC

Communist Event To Be Held Sunday

An army of athletes is preparing for the big red sports carnival which will be one of the principal features of the Communist Election Campaign Picnic which to be held next Sunday, June 24, at Pleasant Bay Park.

Among the contestants will be the crack team of the Metropolitan Sports League, the Hungarian Workers' Sports Club which is a champion of the first division of this league. Among the stars who will participate in the game will be the following who have gained reputation in this field of sports: Vinze, Takacs and Ojelbam. Other participants in the tournament will be the famous girl teams, Rosa Luxemberg "B" and Rosa Luxemberg "A." These teams have gained a nationwide reputation for their prowess.

The Armenian Workers Educational Clubs report that all arrangements have been perfected for an excellent program of Caucasian folk songs, rendered on Persian instruments of unique make. The club will also give a number of vocal selections.

The district office of the Workers Party reports considerable difficulty in handling the rush for tickets, but arrangements are being made to extend the facilities at the park to accommodate the enormous crowd which is expected.

"RED ESSEX" TO LEAVE HERE TODAY

Burke, Perlman to Visit 14 Counties in State Election Drive

This morning and old "Essex" automobile will leave from the district office of the Workers (Communist) Party at the Workers Center.

Stocked with Communist literature it will be driven thruout New York State by Donald Burke and George Perlman who will speak on the vital issues facing its workers in the factories.

This is part of the great Communist state election drive which was inaugurated with the New York nominating convention held here on June 10. At that time William F. Dunne was chosen to be the state's gubernatorial candidate, Robert Minor its candidate for U. S. senator and Juliet Stuart Poyntz, the candidate for attorney-general, with Lovet Fort-Whileman as candidate for state comptroller.

Fourteen counties will be visited by Burke and Perlman and thousands of workers will be addressed from the "Essex." Leaving New York this morning, the tour will extend up the Hudson, touching numerous industrial centers.

Included among the cities to be visited are: Yonkers, Carmel, Putnam County; Poughkeepsie, Dutchess County; Hudson, Columbia County,

(Continued on Page Two)

SERB PREMIER SHOT TO DEATH

Attacked Fascist Treaty With Fascists

BERLIN, June 20.—It was reported from Belgrade late tonight that the Cabinet will resign tomorrow.

• • •

BERLIN, June 20.—Pavel Raditch, one of the leaders of the Croatian peasant Party, is reported to have been shot to death, according to advices from Belgrade.

Three others were seriously wounded. They are Stefan Raditch, another leader of the peasant party; Dr. Pernar and Dr. Basaritch, all members of the Chamber of Deputies.

Stefan Raditch had just made a fiery speech in which he accused deputies of the government party of urging ratification of the Nettuno treaty with Italy from personal motives. Suddenly shots rang out from the gallery. Pavel Raditch jumped in front of Stefan to protect him. A second later he dropped with a bullet in his body.

Buniza Racic, a government party deputy, who had fired the shots was immediately seized by the police and arrested. Leaders of the opposition party made formal demand that the cabinet resign to prevent further trouble.

The Nettuno treaty has been hanging fire for two years. It was signed by representatives of the two powers but never ratified by the Jugoslav parliament owing to widespread opposition. It gives wide concessions to Italians residing in Jugoslavia.

FLOOD PERILS MARYLAND TOWN

Hagerstown Reservoir May Burst, Is Fear

HAGERSTOWN, Md., June 20.—A huge reservoir, holding 100,000,000 gallons of water, towered threateningly over the towns of Edgemont and Greensburg today, while workers strove to divert the small creek that feeds it.

People living in the two towns were ordered to leave their homes yesterday, when it was feared that the reservoir would burst.

A six hour cloudburst changed the creek into a torrent, while all rivers in the section had risen nearly above their banks. The water in the storage reservoir had reached the 11-foot stage, six feet higher than the spillway.

All bottom lands surrounding Hagerstown have been flooded and the Potomac River rose two feet within an hour. The tracks of the Baltimore-Ohio Railroad in several sections have been flooded, and transportation has been seriously handicapped.

Trans-Atlantic Fliers Make Flight to Bremen

BERLIN, June 20.—Escorted by 50 planes and greeted by a salute of 30 guns, the crew of the German trans-atlantic airplane Bremen arrived here this afternoon from Bremen in the sistership Europa.

TEXTILE PICKETS PROTEST AT JAIL; ASSAULTED ANEW

Others Imprisoned and Heavily Fined

NEW BEDFORD, Mass., June 20.—Scores of workers were beaten and slugged, three women and six men were arrested, when a large squadron of imported police, led by Police Chief McLeed, charged a picket line of 700 striking textile workers, because they voiced their protest at the brutal manhandling of their leaders, Fred E. Beal and A. Dawson, whom the police had previously singled out for arrest. This took place yesterday at the Wamsutta Mill gates.

As the nine arrested pickets were carried to the station house after the police onslaught at the mill gates, the hundreds of textile strikers began to picket the police station in protest. Again a force of police charged the workers with drawn clubs, severely injuring many. Three of the police were injured when the workers defended themselves.

Ever since the textile mills committee began to lead large picket lines around the factories the police carried on a continual terror of numerous and repeated arrests of the picket leaders, hoping thereby to discourage the workers from continuing their demonstrations. Directions given to the pickets in a louder voice, singing or strike songs, or merely whistling, was sufficient excuse for arrest, and for the vicious Massachusetts judges to sentence the strikers to long jail terms and heavy fines.

In arresting Beal and Dawson today, the police head, McLeed began

(Continued on Page Two)

TAMMANY MOVES ON TO HOUSTON

Hoover Prepares Big Money Squad

(Special To The DAILY WORKER.)

HOUSTON, Tex., June 20.—The iron hand of the Wall Street powers that be, without which no capitalist candidate for the presidency can be nominated on either ticket, is seen here in the steady gathering in of elements behind the naming of Al Smith on an early ballot.

Without principles on the basis of which to rally any opposition to the big business candidacy of the Tammany Hall governor, the forces which appear to be seeking Smith's defeat are drifting helplessly. The nearest approach to a platform against Smith is that of the drys, who are as divided among themselves as the ranks of the petty business class itself. Senator James A. Reed of Missouri, another wet, has been losing ground in the attempt to build an opposition without a platform and merely on the slogan, "Against Al Smith."

The result is that Tammany Hall

(Continued on Page Three)

WORKERS DONATE IN BIG DAILY DRIVE

Additional Donations Expected

Contributions received yesterday totalled $335.25, leaving the fund $360.64 short of the $10,000 goal. The list of contributions follows:

J. Holmin, Chicago, Ill., $2; Hungarian Barber, So. Bend, Ind., $1.16; K. J. Mallinstrom, So. Bend, In., $2.50; John H. Farrell, Detroit, Mich., $5; A. T. Larrington, Detroit, Mich., $1; E. B., NYC, $3; Harry Barab, Newark, N. J., $4; Finnish Workers, Club of W. Allis, Wisc., $22.50; Saml. Goldberg, Philadelphia, Pa., $3; Wm. Meyerson,

(Continued on Page Three)

FIND BOY'S BODY.

Last Friday, Victor Laterra, 13 years, of 25 Henry St., was playing along the East River docks in a bathing suit. He disappeared, and early yesterday his body was found off pier 31 at Pike St.

Police Again Beat Up Hindu Seamen on Board Standard Tanker Comeric

ATTACK SAILORS FOR WANTING DAY OFF SHORE LEAVE

This Is Second Assault Within Few Weeks

For the second time within the past few weeks the Hindu firemen and seamen of the Standard oil tanker Comeric have learned that police clubs are always at the service of their American masters.

The tanker, moored at 10th St., Long Island City, is a typical floating dungeon, where the miserably underpaid and overworked slaves of the Standard Oil Co. are kept virtual prisoners.

The beating of the crew yesterday came again as the result of their desire to have a day off on shore. The men have sailed around various parts of the world, stopping at 14 ports, and have never been given a single day off. Finding the men in a temper that would brook no further refusal of their demand, Captain Abe Livingston, the master of the vessel, sent out a call for police. Swinging their clubs viciously, the preservers of "law and order" soon beat the firemen and seamen into submission.

Two of the crew, Ebhramanollo, a fireman, and Munaradan, boatswain's mate, were arrested. Both were suffering from fractures and numerous bruises.

"ESSEX" LEAVING IN N. Y. CAMPAIGN

Signatures Needed for Election Drive

(Continued from Page One)

Albany, Albany County, Troy, Rensellear County, Saratoga, Saratoga County, Schenectady, Schenectady County, Catskill, Green County, Kingston, Ulster County, Monticello, Sullivan County, Newburgh, Orange County, Haverstraw, Rockland and Rockland County.

Commenting on the tour of Burke and Perlman, Rebecca Grecht, state campaign manager of the Workers (Communist) Party, said:

"The first and most important thing that must be done in order for the Party to participate in the elections next fall is tha it be placed on the ballot. To do this, the Party must get 100 signatures of voters in every county of the state. The two comrades leaving on tour have lists of all readers of The DAILY WORKER in these counties, and will call on these readers for assistance in getting petitions signed.

"They will also hold street meetings in every sizeable town. They will sell literature and get subscriptions for the 'Daily.' All readers are urged to make preliminary arrangements in order to make these meetings a success."

Daily Worker-Freiheit Picnic in Los Angeles

LOS ANGELES, Cal., June 20. — All the workers of Los Angeles have been asked to prepare for the press picnic to be held here soon for the benefit of the DAILY WORKER and the Freiheit. Preparations on the part of the arrangement committee are in full swing. Novelties and entertainments have been arranged to make the picnic a success. Every worker in Los Angeles is expected to attend, according to a recent statement.

Coolidge Hears Sermon on the "Frugal Life"

Calvin Coolidge attended the congregational church at Brule, Wis., the first Sunday after his arrival at the "modest" summer White House. Coolidge who has a personal staff of nearly 100 at the million dollar estate of the late but not lamented Henry Clay Pierce, oil pirate, listened to a sermon on "The Frugal Life." On the left of the famous statesman is Dr. John Taylor, pastor of the church, and on the right is Dr. R. E. Bayes.

POLICE ASSAULT TEXTILE PICKETS

Many Textile Strikers Are Slugged and Jailed

(Continued from Page One)

to slug Dawson so that he began to bleed from the mouth. In the onslaught that followed Antone Ceviceras, a striker, had his head split open.

This attack is indicative of the campaign of the police terror preparatory to an attempt on the part of the bosses to reopen the mill gates. It indicates that the mill barons by this stunt will only succeed in demonstrating that not enough strikebreakers could be obtained to resume production in one of the 8 plants shut down.

John Walersyzak, a vice president of the New Bedford unit of the textile mills committee was arrested yesterday afternoon while leading the line at the Hathaway Mills, for "disturbing the peace."

In addition to the $40 fines imposed the day previous on Jackson W. Wales, a Harvard student active on the picket line, a new sentence of two months in jail was imposed on him on another count of the same charge. He appealed to the superior court. His bail was increased to total $1,100. Four other strikers had their cases continued. The International Labor Defense is providing funds and attorneys for the strikers.

French Experts Plan New Gas War Defense

PARIS, June 20. — In preparation for the next war the French academy of medicine is making a detailed study of defenses against gas and other chemical attacks. Ten experts were appointed for this work to submit practical proposals for war emergency.

That the civilian population will face a helpless and devastating death from a chemical attack in the next war was reported by the international red cross commission which met in Brussels in January. The means of urban defense for a new war are totally inadequate it is reported.

Rebel Poetry Night at Labor Temple Tuesday

The Labor Temple Poetry Forum organized and directed by Anton Romatka, has arranged a Rebel Poetry Night, to be held on June 26, at 8.15 p. m. at the Labor Temple, 14th St. and 2nd Ave.

Many poets who have contributed to the radical press have been invited to read from among their own work. Among these are Henry Reich, Jr., David Gordon, Adelph Wolff, Herman Spector and many others.

Seamen from Germany Here Fight Tyranny

HOBOKEN, N. J., June 20.—Ten years of German "republican" or social-democratic rule in Germany have left seamen's conditions the same as under the kaiser. So charge hundreds of seamen from a score of German ships lying in harbor in Brooklyn, Manhattan and Hoboken.

Under a call of a committee from the steamer "Tirpitz," they met in a Hoboken hall and laid plans for a fight against the medieval discipline and conditions which exist at the present time. Incidentally, they are still governed by laws which began, "We, Wilhelm, by grace of God, etc." They will demand a new seamen's law.

Only 8,300 of the 50,000 German seamen are organized although 11,000 officers are fully protected by their own associations.

SCHOOL IS AIDING FASCIST TERROR

The opening of the first Italian fascist school in Baltimore is characterized as a further intrenchment of fascism in this country and an extension of the international system by which Italian fascism terrorizes militant workers, in a statement issued last night by the New York section of the International Labor Defense, 799 Broadway. The statement, signed by Rose Baron, secretary of the section, declares:

"Sponsored by the Italian consul, a fascist military training school for young boys has been started in Baltimore. This marks an important advance of fascism in this country, the establishment of a training ground where during the next few years hundreds of boys, in their most impressionable years, will be filled with the murderous doctrines of Mussolini and converted into loyal terrorists.

Future Blackshirts.

"This school will really be an extension of Mussolini's international terrorist system. American born children will be trained into special agents for intimidating and framing up anti-fascist workers in this country.

U. S.-Italy Solidarity.

"The announcement of the establishment of this first fascist school follows shortly after the sentencing of 37 members of the Italian Communist Party to long years of hard labor in the hell holes of Mussolini. It indicates the complete solidarity that exists between the government of the United States and the government of Italy."

NO "BUSINESS AS USUAL" IN ENGLAND

Economic Stagnation Gets Worse While Population Increases

By SCOTT NEARING (Fed. Press).

"BUSINESS as usual" was to be reestablished in Great Britain within 6 months of the end of the war. This remains an unfulfilled wish of the British business class. Not since 1880 has there been business as usual in Great Britain. Especially since 1920 the British ruling class has found itself face to face with an economic stagnation which grows more pronounced with the passing years.

Figures are now available for British production the first 3 months of 1928. During these three months in 1913 British mines produced 72,000,000 tons of coal. For the same months of 1927 coal production was 68,000,000, for 1928 65,000,000. Pigiron production first 3 months of 1913 was 2,565,000 tons, first 3 months of 1927 1,677,000 tons, first 3 months of 1928 1,704,000 tons. Exports of cotton yarn (in millions of pounds) were first 3 months of 1913 53, 1927 49, 1928 45. Cotton goods (millions of yards) were first 3 months of 1913 1,826, 1927 1,015, 1928 1,051.

Food Exports Rise.

Coal, iron and cotton are three great staples of British industry. In none has business been reestablished on the prewar basis.

Meanwhile food exports rise. Great Britain imported 22,000,000 hundredweight of wheat the first 3 months of 1913, 26,000,000 in 1927 and 26,000,000 in 1928. The British bill for imported meat was 12,000,000 pounds the first 3 months of 1913, 24,000,000 pounds sterling the first 3 months of 1928 (1 pound, $4.86).

Imports of iron, steel, tin and copper are greater in the first 3 months of 1928 than in the first 3 months of 1913. The imports of petroleum the first 3 months of 1913 were 114,000,000 gallons. In the first 3 months of 1928, 466,000,000 gallons.

Britain is losing her world markets. The story is told in her shrinking exports and in her failure to recover her trade during the economic war after the war.

Population Increases.

As British agricultural production shrinks, British population is increasing. Year by year more food must be imported. British resources are failing. Minerals, fuels and industrial raw materials must be imported in larger quantities even in the face of diminishing exports of finished commodities.

What is the answer of British capitalism to this disturbing economic situation? The files of 504 companies which published their accounts in the first quarter of 1928 show a 15 percent jump in net profits. The net profits were 61,800,000 pounds in 1928, 53,600,000 in 1927. In miscellaneous industries the ordinary dividend rate for 1928 was 14.2 percent against 13.5 percent for 1927. For textiles the dividend rate remained stationary at 13 percent; in shops and stores it rose from 15 percent to 17 percent, in iron, coal and steel it rose from 2.6 percent to 4.1 percent.

Miners, railway workers, textile workers have suffered wage cuts, increased working hours, increased intensity of labor and a rising ratio of exploitation. The excuse has been the failure of British markets. Meanwhile the British capitalist class exacts an increasing return on its investment.

Great Britain is the mother of capitalism. 40 years ago the British capitalists passed the zenith of their prosperity. Since then they have been driving down living standards while they forced up returns on capital.

STEEL MAGNATES FORM HUGE U. S. EXPORT COMBINE

Centralization of the Industry Complete

Alliance between the U. S. Steel Corporation and the Bethlehem Steel Corporation was effected yesterday thru the proposed organization of the Steel Export Association of America, a body formed to gain control of America's $160,000,000 annual steel trade abroad, and to offset foreign competition.

Application was made yesterday to the Federal Trade Commission under the Export Trade Act for authority to form the new association, which will monopolizo and control an outlet for from 75 to 80 percent of the rolled steel and other products shipped out of this country annually.

Further centralization in the control of the steel exports in the United States was indicated yesterday when it was learned that if the new association should be approved by the Federal Trade Commission, the independent producers of the United States, which control 20 to 25 percent of America's steel exports, would form a similar association.

FAMILY EVICTED BY COURT ORDER

Mrs. Louis Mishkin, whose husband was shot and killed on May 28 by a policeman who "thought he was a bandit," has been evicted by court order, together with her four children who were left destitute thru the criminal negligence of the police, from her apartment at 1140 Eastern Parkway, Brooklyn. Hannah, 17 years old, her oldest child, who is seeking a job as a stenographer, said yesterday that no help had been given her family by the city.

The total number of innocent persons killed by the reckless handling of guns on the part of the police is mounting steadily.

Graft in Roadbuilding Results in Accident

Rough spots on the Albany Post Road near Peekskill, N. Y., has caused six accidents in the last few weeks. Above, its latest victim, after turning complete somersault. Five occupants were sent to the hospital. Faulty construction is a routine matter inasmuch as it makes more frequent the necessity for road-building contracts with its gravy.

Hundreds Will Die July Fourth for "Patriotism"

By PAUL CROUCH.

WHILE soldiers in the army get only $21 per month and must buy their own tailor made uniforms, the government is planning to burn up $8,000,000 in fireworks July 4th, in efforts to arouse the "patriotic" spirit and prepare for new imperialist struggles.

Not only will huge fortunes be spent on noise while unemployed sleep on benches or join the army to avoid starvation, but the government is planning to offer hundreds of lives on the alter of Mars. Because of the intensive preparations, it is probable that the deaths will far exceed last July 1st when 200 lives were lost and 5,000 injured in nationalistic celebrations.

During the celebration of another "patriotic" occasion, "Independence Day," last year, 195 were killed and 3,179 injured. Among those murdered in honor of American imperialism were sixteen young children.

PILOTLESS PLANE FOUND.

With her left wing crushed and showing signs of having crashed into the ocean, a seaplane bearing the department of commerce markings HR-43 today was reported adrift 83 miles east of Ambrose Light and about 25 miles south of Long Island. No signs of pilot or crew were found by the freighter Heffron, which reported the derelict.

DANCING WAY TO PUBLICITY.

If one or more of the 16 couples who were still wearily shuffling away in the dance marathon here at noon today can last it out until after 8 o'clock tomorrow night a new world's record for derby dancing will have been set. Only about one of every eight couples who started in the grind remained as the 230th hour was passed at noon today. The present record, 262 hours, was set recently at New Kensington.

NEW INJUNCTION PROHIBITS TALK IN MINE FIELD

Miners Ordered Not to Address Scabs

PITTSBURGH, June 20. — Coal justice unlimbered itself of another injunction yesterday which breaks the record of restrictions thus far made against coal diggers by preventing them from speaking to scabs.

The new injunction has been granted to the McClane Mining Company in a preliminary order issued by Judge Gray of Common Pleas court and applies especially to the Treveskyb mine but will be extended, attorneys for the company declare, to a number of other mining concerns in whose behalf the McClane Company carried on the action.

The injunction does not restrict picketing as such, but prevents the particular acts which constitute picketing, such as meeting together, before the mine, speaking to scabs, displaying signs, and other such acts.

What I Saw in China
by TOM MANN
For the past three years the Chinese masses have been struggling for freedom from the clutches of Imperialism.
Everyone nowadays is either talking or writing China.
Tom Mann, "grand old man" of the British labor movement, contributes his observations after a stay of six months in China with the International Workers Delegation.

French Communist Party Convention Demands Increase of Mass Activity

URGES MOVE TO INCREASE TRADE UNION CONTROL

Districts Will Support Semard

(Special to The DAILY WORKER.)

PARIS, June 20.—Following the convention of the Paris district, the national convention of French Communist Party has opened here in the midst of great enthusiasm.

Reporting on the situation confronting the Party, Semard, leading French Communist, pointed out that there is no catastrophic crisis now impending, but indicated the increased difficulties abroad.

Fight "Rationalization."

The speaker declared that stabilization of the franc affords a fresh basis for offensive in the form of rationalization causing an aggravation of the class struggle. He pointed to the numerous strikes in the past few months.

"The Communist Party must draw the correct conclusions for a united front for the purpose of influencing the social democrats," Semard urged. "There must be fewer negotiations among the heads and more work among the rank and file of the social democrats." he asserted.

He further urged the necessity of consolidating the work of the Party and its organization in the industrial centers. "We must collaborate to secure the Communist Party a leading role in the trade union movement," Semard declared.

Maintaining an opposition to the election tactics of the French Communist Party, Renaud Jean asserted that the shop nuclei are functioning poorly. He urged the formation of street nuclei and proposed a spread of theoretical propaganda.

Strengthen Nuclei.

Speakers from all the districts overwhelmingly disagreed with Renaud Jean. They proposed the strengthening of the factory nuclei at combatting of the overestimation of the importance of parliamentary success and a misunderstanding of tactics.

The conference has showed itself to be unanimous as regards the strengthening of the Party.

SEEK TO REGISTER THE FOREIGN-BORN

New Trick Is Devised to Put Over Law

WASHINGTON, June 20. — Alien registration, which organized labor looks upon as the first step toward espionage and persecution of labor agitators who happen to have been born abroad, is now being sought under a new pretext by Secretary of Labor Davis. The bureau of immigration in his department announces that beginning July 1, it will issue "identification cards" to all new immigrants. Hitherto, only Chinese have been presented with these cards upon entering this country, except that they have recently been issued to aliens who daily cross the Mexican or Canadian border.

Each year since Davis became secretary of labor he has urged that congress enact an alien registration law, requiring every alien now in the United States to register before a federal official, and to report at least once a year. Organized labor defeated this scheme in committee in the senate and house, pointing out that it would enable anti-labor employers to trace the records of their workers and to persecute them if they sought to improve wages or other conditions in industry.

THIRTY KILLED BY EXPLOSION

MEXICO CITY, June 20. — The death list from a boiler explosion in a public bath house in the southern quarter of this city reached 30 today when four more bodies were recovered in the wreckage. Fifty persons were injured.

The explosion was due to excessive steam pressure. According to the police the workmen in charge of the boiler were guilty of negligence.

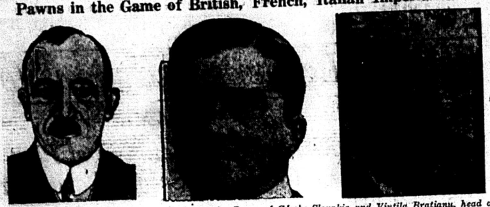
The bath house was located in a section of the city inhabited by the poorer class.

FINE HOMES FOR RICH

LOS ANGELES, Cal., June 20.—Mae Murray. Blonde film star, who claims she was bilked in paying $50,000 for a $25,000 home today was awarded $32,295 damages against Jack Donovan, cowbody actor and architect.

The "house that Jack built" was filled with purported antiques, few of which were very old, the actress complained.

Pawns in the Game of British, French, Italian Imperialism



From left to right in the picture are Premier Benes of Czecho-Slovakia and Vintila Bratianu, head of present terrorist Rumanian government. Next to them is Admiral Horthy, notorious executioner of scores of Hungarian workers. Czecho-Slovakia, Rumania and Jugoslavia, obeying the nod of the British imperialists, have hastily convened a conference at Bucharest

PRIVATE KILLED IN ARMY DRILL

Bullet Rewards Service to Militarism

PEEKSKILL, N. Y., June 20. — Edward Greisbach, 22, of 516 West 162nd street, New York City, a private in Company "E," 102nd regiment of engineers, N. Y. N. G., is dead today. He died in Peekskill hospital here last night from a rifle bullet wound received on the rifle range at the national guard encampment near here on June 7.

Griesbach, working in the target pits during the state rifle matches, was struck at the base of the skull by a bullet which had recocheted from a stone in the back-stop of the pits. When taken to the hospital it was found he had a fracture of the skull.

LEWIS URGING MINERS' RETURN

Tries to Collect Aid Tho He Gives None

(By a Worker Correspondent)

SLICKVILLE, Pa. (By mail).—I'm writing these few lines for The DAILY WORKER to show all miners and workers how Lewis is trying to organize the miners for a "victory."

Today two ladies came from New Kensington to solicit money for the striking miners. They had credentials from the Kinlock local union. We asked one of them whether she represented the Save-the-Union Committee or the Lewis gang. They answered they were from the United Mine Workers, from Lewis' side. Then I asked whether they give money and food to all the strikers. They said Lewis takes care of it all. So I asked how it was that Lewis stopped all relief from going to locals like Harwick and Renton and other places in Districts 5 and 6 in Ohio where miners are on strike for a union. I said that Lewis and his gang were sending "relief" only to his supporters in the various locals of the districts. He stopped relief for strikers even before April 1. By cutting the relief Lewis tries to starve us into becoming scabs.

The women answered that the Save-the-Union Committee was payed by the coal operators.

"Yes, paid by clubbings for their fine work for the miners," I said, "arresting our leaders all the time."

Lewis is responsible for this trouble because he betrayed us in 1921 and '22. He's doing the same thing now by signing individual district agreements and making even local contracts. How can we win the strike this way? Our slogan is "united we stand, divided we fall."

These ladies told us to chase Lewis out after we won. So I said that if she wanted Lewis out she should join the Save-the-Union side, throw him out and select men who will lead us to victory. Then we wouldn't have such fights and betraying policies but one national contract and a good strong Union. I asked them to help us. But they replied, "Go back to work! You are making a mistake by striking with the Save-the-Union Committee. Go back, if you can get the job back."

All brothers can see how Lewis is organizing the miners, telling them to go back to work. His policy is to organize us into slavery. We appeal to every miner and worker in the country to promise that he will not allow John Lewis nor the operators to make scabs of us. But we need help, food and clothes, because we are starving as we fight. The only relief we get is from the National Miners' Relief Committee, 611 Penn Ave., Pittsburgh, Pa. We want nothing from the faker Lewis, we want all workers to help us in our big struggle.

—A. E.

Colombia Workers Win

BOGOTA, June 20.—The workers in the British telephone Co. have won an increase in wages after a strike of about two weeks. The agreement was signed yesterday. Late last night the telephone service of the city was renewed.

Oil Protests Smashed By Spanish Fascists

MADRID, June 20. — The suspension of any newspaper publishing the facts concerning the quality of petrol is threatened by the Spanish petrol monopoly, it is reported today.

There is a nation-wide protest against the low grade petrol. The government is taking extreme measures to silence all complaints.

Foreign and Spanish officials have been able to secure petrol from abroad through diplomatic permits.

LITTLE ENTENTE OBEYS POWERS

Benes Proposes Danube Federation

PARIS, June 20. — Representatives of the little entente, the loose group of countries comprising Czecho-Slovakia, Jugo-Slavia and Rumania, met yesterday at Bucharest for the avowed purpose of discussing Danubian tariff revisions but for the covert purpose of discussing the power of the Italian government in Central European affairs.

Foreign Minister Benes, of Czecho-Slovakia. has proposed the formation of a commercial Danube federation, consisting of Czechoslovakia, Austria, Jugoslavia and Rumania. Hungary, it is stated, will be admitted when the Hungarians "give up their offensive tactics."

'PARTY ORGANIZER' FOR JUNE IS OUT

Interesting Articles in New Issue

The May-June "Party Organizer" has just come off the press. This magazine is devoted to the exchange of experiences of the Workers (Communist) Party in the field of organization work.

The May-June issue contains the following items: 1. An article dealing with the organization of mass meetings, outlining the important activities which must be followed in the organization of these meetings. 2. Our immediate tasks in the election campaign. 3. An article dealing with our work in the miners struggle. 4. The building up of our factory nuclei and the need of greater attention to the inner life of these nuclei. 5. The strengthening of our Party apparatus. and many other articles.

As there are only a small number of copies left, orders should be placed immediately with the National Office, 43 East 125th St., New York City.

WALL ST. LOAN FOR COLOMBIA

BOGOTA, June 20.—Following the suspension by special decree of the president, of legislature infavorable to American petroleum interests in Colombia, a loan of $13,000,000 from the New York firms, Hallgarten & Co. and Kissell, Kinnicut & Co. has been granted to the administration. This loan was authorized yesterday by the government.

The Colombian press is implying that American interests secured the suspension of the oil laws and that the persistent persecution of Colombian workers is due to American influence.

Huge Submarine for American Imperialism

PROVINCETOWN, Mass., June 20—The V-A, World's largest and most recalcitrant submarine, is learning how to go down today on the measured course off this Cape Cod town. The V-4 was brought down here several weeks ago and passed its surface tests, but refused to dive.

The addition of some 30 tons of lead to the weight of the Leviathan of the depths was expected to help the submersible to sink, so it was added.

She will dive today, with her added weight, quite near the spot at which the S-4 was sunk with the loss of forty lives last December.

CATHOLICS PLAN RETURN TO POWER WITH OBREGON

Way for the Hierarchy Is Made by Morrow

MEXICO CITY, June 20.—It is becoming more certain that General Obregon, at the dictation of ambassador Morrow of the United States, has arranged for the return of the priveleges of the Catholic church to take effect as soon as he becomes President of Mexico.

Further confirmation was given to the settlement between Obregon and the Catholic church arranged by the American ambassador by a half-hearted denial issued today by the only presidential candidate, in reply to angry protests from the workers who do not wish a return to the domination by the church and the interests it represents.

In his statement, Obregon expressed regret that the catholic hierarchy had failed to work with the government and to "heed changes," "and that they failed to co-operate in the evolution of the republic's social condition."

TAMMANY MOVES ON TO HOUSTON

Big Business Lines Up Behind Smith

(Continued from Page One)

with a history of graft, corruption, bribary, betrayal and worse, extending in increasing volume from the day of the founding of the American Republic, may yet be given an opportunity of moving the headquarters of its happy hunting grounds from the New York burlesque house on 14th Street to the White House at Washington.

• • •

Much Stir in Tammany.

Mayor Jimmie Walker, who yesterday visited his favorite barber shop for his most approved hair cut and shampoo, issued particular instructions to his pet manicurist, stocked up with several more suits of clothes, some of them full dress, in preparation for his departure for Houston where he will direct the campaign of Al Smith on the floor of the convention. "Traction" Jimmie, it is reported will go by automobile—whose make has not yet been announced, but it is rumored that the Equitable Coach Company has offered to set aside a bus for the mayor in appreciation of the bus franchises which Walker put over for them.

Another of the Smith managers will be U. S. Senator Robert F. Wagner, who with Smith during the days when both were in the state legislature were known as the "Murphy Gold Dust Twins"—they do Murph's dirty work. At present Wagner's relations with the traction interests are no less cordial than those of Walker and Smith.

• • •

WASHINGTON, June 20.—Herbert Hoover today completed his campaign organization, leaving only the formality of ratification here tomorrow by the special committee of 24 designated by the republican national committee, before the army of crusaders takes up the task of capturing by purchase and otherwise the presidency for the favorite Wall Street candidate.

To draw pay as a cabinet member and at the same time to spend one's time in outside work is, of course, not considered bad "form"—provided the work is done in the interest of the ruling bankers and politicians.

Shot in Parliament

After he had finished a fiery speech in the Jugoslav parliament against the ratification of the treaty of Nettuno with Italy, Stefan Radic, leader of the Croatian Peasant Party, shown in the picture, was shot and seriously wounded by a member of the government opposition. Another leader of the Croation Peasant Party, Pavel Radic, was seriously wounded.

POWER CZAR HAS TITLE TO MAINE

Insull Grabs State Thru Hale Nomination

PORTLAND, Me., June 20 (FP).—Samuel Insull, proprietor of Illinois and other fat bailiwicks, has added Maine to his power empire through the victory of Senator Hale at the recent primary over Governor Grewster for the republican senatorial nomination, tantamount to election. Fought by the entire republican machine, by nearly every newspaper in the state, Brewster went under by a 2 to 1 majority for the Insull-owned Hale.

The first immediate result of the Maine election will be the repeal of the Fernald law prohibiting the export of electrical power from Maine. Insull has gained control of the best Maine waterpower sites and desires to exploit them by selling the power to the rest of New England.

ASKS WARSHIP TO FIGHT STOWAWAYS

COLOMBO, Ceylon, June 20. — A wireless message asking for a warship to aid in quelling "eight desperate stowaways" has been received by the British cruiser Enterprise from the Australian commonwealth liner Jervis Bay, which left Adelaide June 9 for London.

Examine Children for W.I.R. Summer Camp

Physical examinations by a physician for admittance to the Workers' International Relief children's camp at Wingdale this summer are now being held at the Co-operative Health Center, 1800 Seventh Ave. At the rate of ten a day these examinations are being given without charge to the children. At camp a nurse will oversee the physical well-being of the children.

To provide for these necessary features of a camp for children of working class parents, organizations and individuals are urged to support the "Build-the-Camp" fund. Collection lists and stamps can be obtained at the Workers' International Relief headquarters, Room 604, 1 Union Square, New York.

BRITISH TEXTILE UNION ON STRIKE; 4,000 MEN OUT

Others May Follow, Report States

(Special to The DAILY WORKER.)

LONDON, June 20.—Four thousand British textile workers went out on strike yesterday in the counties of Lancashire and Yorkshire alone, according to a report from Manchester.

The strike follows a conference of the mill owners and leaders of the trade unions who have been attempting to arrange agreements with the individual mills and companies.

Only one of the six textile unions is on strike, but the strike feeling is reported to be strong among the rank and file of the other unions and it is intimated that action may be taken in the next few days.

REMUS, KILLER, GRAFTER, FREED

Released to Shield the Higher-Ups

COLUMBUS, O., June 20.—George Remus, self-confessed slayer of his wife and millionaire head of a notorious bootleg graft ring, was released today from the Lima State Hospital for the criminal insane by decision of the state supreme court.

The release of Remus marks the final chapter of one of the greatest travesties of "justice" which the courts ever staged. Remus was acquitted of murder several months ago in a trial in which, acting as his own counsel, he was permitted to make use of all sorts of sensational circus stunts in order to hamstring the jury. After the trial he was given a sanity hearing, declared "dangerous" and sent to the Lima State Hospital.

That the entire trial and the confinement of Remus to the state hospital were merely gestures to placate "public opinion" is now more evident than ever. Complete freedom for Remus is his reward for permanently holding his tongue about widespread prohibition graft in which many high officials are involved.

POLICEMAN BRIBED; FIRED.

BAYONNE, N. J., June 19.—Patrick Whalen, a police officer of this city, was discharged yesterday for having accepted a bribe of $20, and failing to summon to court a man and woman in a parked automobile. Two other policemen, James Connelly, and William Gibson, were fined 5 months' and 3 months' pay respectively on a charge of fighting hospital employes.

BUSINESS AGENT STEALS CREDIT FOR UNIONIZING JAMISON REFRIGERATOR DOOR COMPANY

(By a Worker Correspondent)

CHESTER, Pa. (By mail).—The Jamison Refrigerator Cold Storage Door Company has gone union.

The business agent took the credit of turning the trick which made this shop of 26 men union after it had been non-union for about 32 years.

The rate for union shop is 87½ cents in this district but the business agent compromised with the employer and signed them up for 80 cents.

A brother union man informs me that the credit should not go to the business agent, as the Jamison Cold Storage Door Company has a large plant in Baltimore which is union and has made lots of money by catering to union trade and sells goods with the union label. Also this shop had to become union and the business agent let them pull it over with a reduction of 7½ cents per hour.

The business agent is really secretary-treasurer of the district council, and while he has had that job for seven years, he wants it again. The last two years he has had opposition which he resents very much.

The night of the nomination, the 26 new members were brought in and they voted solid for yours truly. These men could have been brought in two weeks sooner, I am informed.

The job is safe for another year, because he has no opposition.

—S.

Mine Correspondent Sends Save-the-Union Leader's Questions to Lewis Tool

VOYZEY RECALLS NESBIT'S LITTLE SLUGGING PARTY

And the Black Eye He Was Presented With

(By a Worker Correspondent)

SPRINGFIELD, Ill. (By mail). — I'm sending you a copy of an open letter which George Voyzey, the fighting leader of the Save-the-Union forces in this field, sent to the traitor of a Lewis henchman, Mr. Walter Nesbit. It speaks for itself. —S.

Mr. Walter Nesbit,
Mine Workers Building,
Springfield, Ill.

Mr. Nesbit:

I have this day received your charges and to me they are a good joke. But they do give me a reason to write you an open letter.

I have been wondering what occupation you will follow when you are kicked out of that office—and out you are going. Hoda and Hindmarsh are small pebbles and are both ready tools to be used for any slimy program and your program is slimy enough to prove their qualifications.

I have been wondering, Walter, if you have told the membership about your slugging party at Belleville, where you left a gang of sluggers with expectation of doing a good job on Freeman Thompson, J. J. Watt and myself.

Dear Walter, have you told the membership how you organized those sluggers and how you arranged them in front of a restaurant in Belleville and how you came in to speak to Watt to advise him to leave because there was a gang going to give us a slugging, and have you told the membership that you were surprised when Watt refused to recognize you. And dear Walter, have you told the membership how you signaled the sluggers to charge into the restaurant, and Dear Walt, have you told the membership how surprised you were to see your gang of sluggers retreating when they seen it was too hot. And my dear Walt, have you also told the membership how gallantly you came to your sluggers' rescue when the tide was turning, and how you happened to have the Save-the-Union label put on your eye. And have you told the membership, dear Walt, how you found the city police so quick, and how you brought those officers into the restaurant and told them to put us under arrest. And have you also told the membership how surprised you were when one of the managers of the restaurant compelled the police to also arrest two of your sluggers. They sure played a dumb part when they did not run clean out of the county, did not they Walt?

And have you told the membership how much of their money you had to pay to hire those sluggers. It was a hard break, was it not, Walt, that two of them were compelled to stay all night in jail, and Walt, you should have stated to them, when you were organizing, that if they should be caught that they should keep their mouths shut. You know, Walt (yes sir), one of them, the famous butter and egg man, admitted that he was paid and the other one was sore as a wet hen because you had not paid him the full amount, as he stated that he was doublecrossed and fooled, because he did not get the full amount of "kale." And my dear Walt, have you told the membership how early you were down to the hall the next morning to get your bosom friends out of the "callaboose."

And Walt, possibly you have told the membership that you tried your best to get the proprietor of the restaurant to place charges against us, and was not you sad Walt, when the manager stated that he could not think of doing that because those fellows acted as gentlemen and they were justified for their action when they were being attacked. And Walt, have you also told the boys who pay dues and assessments, that you payed for all the broken furniture, dishes and etc. in the restaurantthat amounted to $75.

It really is hard to explain, Walt, first you told Watt to leave and when he refused, you remember, you stated that you would not be responsible, and then you came to their rescue and a beauty of an eye. Later you called police, and later yet, you got your friends out of the city jail, and still later you paid the full damages of furniture broken in the restaurant.

And Walt, again you caused me to wonder how are you going to turn this in? As expenses, as taxi, or train fare? Or will you just load it on the miscellaneous?

And Walt, I wonder how long you think you can carry on your silly program. I have been around the coal-camps quite a lot these last few weeks and I find you are about as popular as a snake and your wisdom is the equal of an ox. You and Little Harry surely don't think you can go on long with your wrecking policies. I notice you have paid the boys at Old Ben No. 8 in West Frankfort $10 a week commissary because they are out demanding the Jacksonville scale. How much have you paid the other boys who are out demanding the same scale of wages? They will have to be paid, Walt! And where will the money come from? You could not get more than $50,000 of a mortgage on the mine workers' building that you and your friends, Frank and Harry, paid $75,000 for.

You can not last much longer, Walt. Your ship is sinking and the membership is building another one much more substantial and, Walt, they are going to see to it that no other set of pie-counter experts are ever going to get control of it to run it on the rocks.

Yes, Walt, you and all those petty followers of yours are being dumped to oblivion with you. You are on the down hill run to the slimy pool of death. Your program is gaining more momentum each hour to your end, so to you and your kind bye-bye.

—GEORGE VOYZEY.

Steamer Penetrates Upper Allegheny River

The steamer Kittanning, an engineering vessel, has succeeded in navigating the upper reaches of the Allegheny. It is 31 years since a steam driven vessel has been able to travel so far upstream. The unusually heavy freshets made possible this feat which interested thousands of people lining the shores and bridges. Pittsburgh, on the lower part of the stream, is one of the greatest inland ports in the world.

AUERBACH IS HAILED AS AID IN STRUGGLE

(By a Worker Correspondent)

PHILADELPHIA, Pa. (By mail).—The mass meeting here on June 7, protesting against the ousting of Professor Sol Auerbach from the University of Pennsylvania was more than a success. It proved to the very many who attended that the workers are ever willing to stand by those who have an education and who will fight hand-in-hand with the workers.

Professor Auerbach, like Scott Nearing and Juliet Stuart Poyntz and others, felt the ruthless wrath of the capitalist class. He told the truth regarding conditions of the workers' fatherland, the Soviet Union. For that he was expelled. He mentioned what is being kept from the workers in America.

He said that the workers in the Soviet Union have far more foresight than the Americans and better able to create a society where life is worth living and do not live in such a capitalist society as in America where a few rich live on the labor of millions of workers. There they know they are building a society for themselves, but the workers in America work only to make the rich richer and for a very little bread for themselves.

In view of this the working class appreciates such people as Auerbach because they have knowledge of workers' needs and can direct the workers well in their daily struggles. We welcome those who "betray" their own class, the bourgeoisie, and join to make an end to unemployment, wars, etc. These brothers are willing to sacrifice their very existence in order to help the workers in their struggles.

When a Sol Auerbach shows sympathy to the working class ideals, our capitalist owned universities expel him. They are afraid of their existence. But the workers will always gladly receive them in their own ranks and work together with them for a workers' and farmers' government, a co-operative system of society.

—W. C. P.

WORKERS CANNOT AFFORD TO WED

Marriage Bureau Clerk Calls It "Queer"

(By a Worker Correspondent.)

PHILADELPHIA, Pa. (By Mail).—According to George W. Miller, the chief clerk of the marriage license bureau in this city, the usual rush of lovelorn couples to secure marriage licenses has failed to materialize. Compared with previous Junes, the decline in the number of permits is very marked.

Mr. Miller, as becomes all good Vare-Mellon republicans in this, the citadel of Coolidge "prosperity" buncombe, probably reads the "Inquirer" and the "Evening Bulletin." He therefore does not know what is the reason for this unusual state of affairs.

He says, "No, there aren't as many people wanting to be married this June as in other Junes, and that's queer. Well, I don't know what causes it. People are funny."

However, the workers in this city who walk daily through the streets for miles for unattainable jobs know. To them there is nothing funny about it.

People simply cannot get married, because they do not have any work and workers cannot subsist on love alone. Something more substantial is needed, bread, meat, a roof over every loving couple's heads and things to wear, including shoes, in order to walk the streets looking for a job.

And besides, the fee at the marriage license bureau is $2.50, payable in cash only, and it's really surprising how many people cannot spare that small amount these days.

C. RABIN.

Mystery Connected With Roald Amundsen Flight

PARIS, June 20.—Ministry of Marine officials said this afternoon they had never been officially notified that Rene Guilbaud and Capt. Roald Amundsen had hopped off at Tromsoe in Guilbaud's French seaplane.

"The seaplane is still at Tromsoe so far as we know," it was announced. "We have never received any official notification that Guilbaud hopped off. We have asked the French consulate at Tromso to forward a detailed report."

SPIKE COMPANY SPORTS AS TRICK

CHICAGO, June 20 (FP).—The big publicity balloon sent up by the Chicago & Northwestern Railroad on its employe athletic system has been pricked by the local board of System Federation No. 12, Chicago. The company had boasted of mobilizing 1,500 athletes from its employes in a huge championship meet in Chicago in August. Baseball, track, tennis, golf, swimming, trapshooting and other sports were on the program.

Now the unionized shop crafts in Chicago have declared, at their monthly meeting, that they are opposed to the athletic association sponsored by the company. Various reasons were given. Some delegates branded it as smelling of company unionism. Some charged that the employes would pay for the equipment but the company would arrange the meets. This might compel the union teams of the company's shops to play against teams of non-union roads.

The federation also took a crack at the widely heralded safety committee of the Northwestern in which co-operation between masters and men is publicly emphasized. The unionists are strong for safety but they passed a resolution demanding that their representatives on the committees be elected by the men instead of appointed by the company.

The Northwestern is one of the roads that has adopted the Baltimore & Ohio plan of co-operation between management and the shop unions.

3 CHILDREN BURN TO DEATH

MILWAUKEE, June 20. — Three children of Mr. and Mrs. Albert Geier were burned to death in their home here today when the mother left them alone for fifteen minutes making a trip to a bakery.

WORKER BURNED ON JOB; COURT SWINDLES HIM

"We Don't Pay for Scars," They Say

(By a Worker Correspondent)

On December 28, 1926, while working for the Manhattan Bed Co., 1053-65 Metropolitan Ave., Brooklyn, N. Y., I was trapped in a fire because the bosses put me to work in a small place with a gasoline tank. When the fire started I was unable to escape.

For 35 days I lay as dead in the Greenpoint hospital. Then I was discharged from the hospital because it had no more room for me. After this the Aetna Life Insurance Co., 100 William St., N. Y., took care of me.

At the end of a week the insurance carrier declared me able to go back to work. But I was not able. When my case came up for hearing at the Compensation Bureau, they, too, said I was fit for work again and the case was postponed for a final adjustment. I protested that I was not able to do my work. I couldn't do what I used to do before. But they refused to listen to me, showing that they don't give a damn about the workers who are forced to carry injuries from work for life. I will be one of these.

On April 19, 1928 my case came up for final adjustment. They decided to give me the same award they fixed the first time. And this was nothing. I protested that I wanted compensation for the permanent scars on my hand, face and chest. Because I protested, they called a policeman and forced me from the hearing hall.

—A. DE LUTIS.

—DRAMA—

Richard Herndon's First Play 'Caravan', Set for Labor Day

Ralph Cullinan's new play "Caravan" is all set for early production, according to an announcement sent out by Richard Herndon. This will be his initial production of the new season, and is scheduled to open at the Klaw Theatre, Labor Day. The play deals with gypsy life.

On August 20 "Caravan" will have a tryout performance at the Boulevard Theatre in Jackson Heights, followed by a week's run at Werba's Brooklyn Theatre, ere coming to the Klaw. George Marion and Kate Mayhew head the cast.

"The Silent House," now playing at the Morosco, will be transferred next Monday night to the Shubert Theatre.

"Hello Sue," a musical comedy, with all-colored cast, opened at the Alhambra Theatre Monday night. Russell Lee wrote the book and lyrics and Sandy Burns the music.

"Patience," Gilbert and Sullivan's merry satire, which was previously announced in these columns for the Ambassador, will open instead at the Theatre Masque next Monday. Mary Bokee and Donald Kirley will play the chief roles.

A screen version of "Danger Street," Harold McGrath's novel, is now in production under the direction of Ralph Ince. Warner Baxter, Duke Martin, Frank Mills, Bob Perry, Harry Allen Grant and Ole M. Ness are in the cast.

LOUISE GROODY

The noted musical star is headliner at the Palace Theatre this week, appearing in a miniature musical show.

WORKER IS STILL IN PRISON UNDER SYNDICALISM LAW

Leo Ellis, of I. W. W. in Folsom Prison

REPRESA, Cal., June 20 (FP).—By an oversight the Federated Press reported that all the criminal syndicalism prisoners in California had been released. Leo Ellis, an I. W. W. sentenced in Stockton to 2½ years, is still in Folsom prison. His time is up Sept. 19. He belongs to the agricultural workers' section of the I. W. W.

Though the I. W. W. will all be free with Ellis' release, Tom Mooney at San Quentin and Warren Billings at Folsom remain behind the bars, having put in over 10 years in the penitentiary and several years in jail while on trial and awaiting sentence.

"Big Alex," A. F. of L. Lieutenant, on Trial for Attack on Fur Worker

THUGS WERE PART OF RIGHT WING'S TERROR CAMPAIGN

Witnesses Tell About Cowardly Assault

"Big Alex Fried" and five of his associates, who together assaulted Meyer Fineman, a fur worker, while he was walking in the fur manufacturing district last January 31, were suddenly called to trial yesterday in part 6 of the general sessions court, before Judge Collins. "Big Alex," who spent several years in prison for burglary, is the first assistant to Edward McGrady of the A. F. of L. in its campaign of destruction of the furriers' union. The trial will be continued today.

The day in court was ended after witnesses for the injured fur worker had testified to the cowardly methods used by the six thugs in waylaying Fiveman and stabbing him several times in the back. Lena Greenberg and Regina Herbst, two fur finishers, testified as eyewitnesses to the fact that while five of the thugs held Fineman, "Big Alex" stabbed him in the back. Dr. Silverman, a physician, testified that Fineman had been under his care for a long period due to the seriousness of his wounds. The worker's blood-stained and slashed clothing was also placed in evidence.

In picketing the jury, Samuel Markewitz, A. F. of L. Joint Council lawyer who is defending the six thugs, asked the prospective jurymen whether they are in sympathy with the Soviet Union. At the trial Markewitz was also compelled to admit that the chief defendant, "Big Alex Fried" served a term in jail for burglarizing a jewelry store in Massachusetts. The other five sluggers are J. Schiffrin, A. Reiss, M. Moskowitz, Harry Plitt and Moe Passman.

WOMEN RESPOND TO MEETING CALL

NY Women Federation Conference Tomorrow

The first delegate conference of the New York Working Women's Federation, to be held in Room 42, Labor Temple, 14th St. and Second Ave., tomorrow at 7.30 p. m., will be representative not only of organized trades, but of women from unorganized industries who were attracted to the first meeting, at which the Federation was formed.

The present conference will decide on the best means of showing solidarity with the striking miners, and lay plans for raising relief funds for the strike zones in Pennsylvania and Ohio.

Indications for an enthusiastic meeting are evident, judging from the number of delegates who have responded to the call. The Federation plans to use the delegate conference method as one means of reaching women in the shops and factories.

* * *

United Council Issues Call.

The executive committee of the United Council of Workingclass Women, thru Ray Ragozin, organizer, last night issued a call to all the councils of the organization to send delegates to the first delegate conference of the New York Working Women's Federation, to be held tomorrow at Labor Temple.

DEMAND RELEASE OF TOM MOONEY

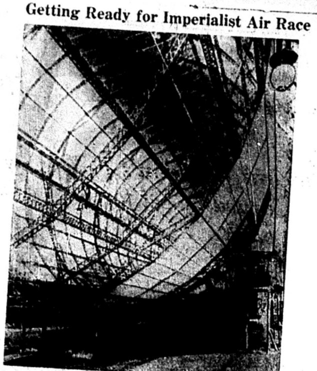
Milwaukee Unionists Ask for Release

MILWAUKEE, June 20 (FP).—On motion of the machinist delegate the Milwaukee Federated Trades Council went on record for the release not only of Tom Mooney and Warren Billings, but for the Centralia loggers sentenced to 25 years' imprisonment for defending themselves in the I. W. W. hall against armed attack by the American legion in 1919.

Meeting of Pittsburgh Workers Party July 1

PITTSBURGH, June 20.—An important general membership meeting of the Workers (Communist) Party of Pittsburgh and surrounding towns will be held Sunday, July 1 at 2 p. m., at the Labor Lyceum, 35 Miller St., here. The meeting was originally scheduled to be held on June 24th, but had to be postponed for one week because it conflicted with several affairs.

Getting Ready for Imperialist Air Race



Racing across the Atlantic by air is the latest stunt to boom imperialist flying. Photo shows the finishing touches being put on the German dirigible LZ-127, which will race with a rival British dirigible across the ocean.

RELIEF WEEK TO RALLY WORKERS

June 25 to July 1 Set for Intensive Drive

With plans for the National Miners' Relief Week being put into action, and the mobilization of workers' clubs and individual workers for participation in the intensive relief drive of the week of June 25 being organized, the National Miners' Relief Committee at 799 Broadway, held an executive meeting last night to make final arrangements for the drive.

At the conference were represented the Hungarian, Greek, Lithuanian, Polish and Russian Committees for Miners' Relief, all of whom reported a fine response to the relief mobilization call sent out through the various language newspapers. The National Miners' Relief Committee and its section and language committees are emphasizing the importance of shop collections during the week, to be preceded by the distribution of special miners' relief literature in the shops.

The worker gathering the largest amount of relief funds during the drive will be rewarded by a trip to the strike area, and the organization most active will receive a banner made by striking miners' wives.

ARREST 35 CLOAK WORKER PICKETS

Thirty-five cloakmakers picketing the shop of Shapiro and Sons, 1333 Broadway, which was declared on strike Monday morning by the Joint Board of the Cloakmakers' Union for dismissing a worker who had refused to register in the right wing union of Sigman, were arrested yesterday morning, and received suspended sentences when they came up for trial later before Magistrate Flood in Jefferson Market Court.

At the second of the two shops declared on strike for similar attempts at dismissals, a gang of thugs sent by the right wing union to act as escorts to strikebreakers, were driven away by the workers on strike and by the other cloakmakers who answered the call of the Joint Board for picket duty. This firm is Dressler and Freedman, 104 W. 27th St.

These are the first of a series of strikes in the newly launched offensive of the workers in the industry for the rebuilding of their organization under the leadership of the National Organization Committee. The local section of the N. O. C., thru its Volunteer Organization Committee of 500, plans a campaign to organize the open shops in the trade.

Cleveland Dance for Young Workers School

CLEVELAND, Ohio., June 20.—The Grand Bazaar and Dance of the Young Workers League of District No. 6 will be held on June 23, at the Finnish Hall, 1900 West 25th Street at 8 p. m.

All admission tickets are numbered, and the holder of the lucky number will be presented with a New Ford Coupe. Hundreds of workers from all parts of the state will participate in the bazaar and drawing.

The affair is being given for the benefit of the Young Workers Training School, which is to be held this summer at Ashtabula, O.

FUR BLOC JOINS FIGHT FOR UNION

Hold "Mass Caucus" in Webster Hall

"A mass caucus" was the official name of the mass meeting of 1,700 fur workers held last night at Webster Hall, 11th St. and Third Ave. under the auspices of a body that calls itself the "Progressive Bloc of the Furrier's Joint Council." Beginning with this meeting, its spokesmen declared, the bloc officially comes out in the open in a struggle for the reestablishment of one union for the fur workers, which will again regain union conditions in the trade. Due to the establishment of a Joint Council by the A. F. of L., the Joint Board was greatly weakened, resulting in almost complete open shop conditions in the trade.

To Join Fight.

Hyman Sorgin and J. Winnick, leaders of the progressive bloc, read an official statement which concludes by saying: "The bloc is officially organized after seeing that the struggle between the Joint Council and the Joint Board has resulted in the complete destruction of union standards."

After the speakers made clear that by this action they did not intend to organize a third union in the industry, a resolution read by Winnick was passed by a unanimous vote. The resolution, after recounting the history of the disastrous struggle, made these demands of the International Union and of the A. F. of L.:

Make Demands.

1. That the workers be again re-united into one union; that all discriminatory measures aimed against workers of the trade for their political opinions, or for their party affiliations, be completely abolished. 2. Honest elections be held, thru which all workers will choose their administration officers and representatives. 3. That one union be established for the restoration of union conditions, and for the honest protection of the workers' interests. 4. That an immediate declaration be made by the Joint Council that the struggle is at an end and that a call be speedily issued for a conference of all warring sides in order to realize the demand of the workers for one union.

RED PICNIC WILL DRAW THOUSANDS

The "Red Picnic" to be held on Sunday at Pleasant Bay Park is attracting thousands of workers of this city and the vicinity. The picnic promises to be one of the biggest gatherings ever held here, according to a statement issued by the arrangement committee.

Among the features of the picnic will be proletarian sports and games, mass singing of revolutionary labor songs.

Reports from various parts of the city show an unusual rush for tickets.

Lawyer Admits $50,000 Fake Mortgage Charge

Nathan B. Finkelstein, lawyer, of 675 West End Ave., pleaded guilty to grand larceny in Brooklyn County Court yesterday. He will be sentenced on September 10.

The lawyer sold more than $50,000 worth of fake mortgages to 200 clients. He promised to make good the money, but so far has failed. More than 100 women appeared in court against him.

BISCUIT COMPANY SPEED-UP CAUSES DEATH OF WORKER

Was Mangled by Dough Mixing Machine

(By a Worker Correspondent)

A young worker, a Spaniard, employed as a dough mixer in the huge National Biscuit Company plant on Ninth Avenue, was crushed to death Monday, when his arm was caught in the dough-mixing machine. For several months previous to his death he had been employed at the 10th avenue plant of the company. This is one of the results of the speed-up here.

He had been transferred to his new position only last week to take the place of an experienced dough mixer. The reason for this was that experienced men receive $37 a week, whereas he, as a novice, was paid less than $30 a week. He did not know the work, and placing him in this new position resulted in the dismissal of an older worker, and in his subsequent death.

Discovered by Workers.

No one was near him when the accident occurred. It was discovered by a fellow worker almost an hour afterward. The fire department had to be summoned to extricate his mangled body from the huge vat in which the dough was churned. Even if the accident had been discovered immediately, he could not have been saved, workers said, because the power applied to the machines is so great that even after it is turned off the machine continues to revolve for three minutes.

The fact of the worker's death had been kept secret by the National Biscuit Company for two days before the workers learned of it. Now that his death has been discovered, the company is determined to keep his name from the press, and so far has succeeded in doing so. He was a young man, who had been married for less than a year. His death leaves destitute a young widow, who is soon to give birth to a child.

Workers Not Surprised.

All the facts brought out by this accident are no surprise to the workers in the plant. It is common knowledge amongst the workers employed by the National Biscuit Company that experienced men are fired as soon as a younger inexperienced man can be procured to fill his place. In so doing the lives of hundreds of men are placed in jeopardy every year, and the means of living taken away from hundreds of older men. This, since it saves money for the National Biscuit Company, has been adopted as the regular tactics of the company, in spite of the loss of life involved.

FREE LECTURES AT BOOK SHOP

Oakland, San Francisco Forums Attract Many

OAKLAND, Cal., June 20.—Popular free talks every Friday evening are a feature of the Workers Book Shop, with headquarters at 2123 Telegraph Ave. The talks deal with the latest important books, which are thoroughly discussed.

The Sunday evening open forums which are being held in San Francisco and Oakland are proving highly successful. The San Francisco forum is held at 1212 Market St. and the Oakland forum at Fraternity Hall, 708 Peralta St., West Oakland. Well-known speakers talk on important workingclass questions, after which they are discussed from the floor.

HOLD PICNIC IN PHILA. SUNDAY

PHILADELPHIA, June 20.—Arrangements are going forward for the joint picnic of the Workers (Communist) Party and the Parents Council of the Pioneers to be held Sunday at Strawberry Mansion Park.

The picnic is being arranged for the purpose of financing the immediate work of the Party in connection with the election campaign and as a means of contributing to the fund of the Pioneer Camp.

The Women's Work Committee of the Party is cooperating with the Parents Council in preparing a program of amusements and a fine "feed." All workers are urged to attend. No admission is charged. Refreshment tickets can be secured in advance or at the park from members of the joint committee. To get to the picnic, enter Strawberry Mansion Park at the Cumberland Avenue entrance.

WORKERS CALENDAR

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

* * *

District Y. W. L. Anniversary.

BOSTON.—District 1 will hold a truck party and picnic Sunday, June 24, at Vanikens farm, Cushing St., Hingham.

* * *

Pittsburgh District Picnic.

PITTSBURGH, Pa.—The third annual picnic of the Workers (Communist) Party, District 5 has been postponed from July 4 to July 8. It will be held at Nicholson Farm, Swissvale, Pa.

* * *

Roxbury Carnival and Ball.

ROXBURY, Mass. — The Massachusetts campaign committee for a workers' children's camp has arranged a carnival and costume ball, to be held June 22, at the New International Hall, 42 Wenonah St., here. The proceeds will go to the camp fund.

* * *

Cleveland I. L. D. Picnic.

CLEVELAND. — The International Labor Defense has arranged a picnic for the miners' defense to be held June 24, at New Sachsenheim Gardens, 7001 Denison Ave. There will be speakers, music, and refreshments.

Sunday, June 24, Passaic, N. J. Workers' Home, 27 Dayton St., 7:30 P. M.

PROBE $16,000,000 TAMMANY GRAFT

Brooklyn Contract Made by Street Head

Inquiry into the Brooklyn Ash Removal Company the dealings of which have already revealed evidences of shady transactions in its contracts with the city, is scheduled to take place some time this week, possibly today, if Commissioner of Accounts, James A. Higgins, can be pushed or frightened into carrying out the investigation. Higgins has been doing his best to protect his Tammany colleagues.

Head of the street cleaning department, Alfred A. Taylor admitted yesterday his connections with the framing of the $16,000,000 contract made with this company last April but contended that most of the agitation was "unwarranted."

One of the directors of the company is the notorious James E. Gaffney, former Tammany Alderman and exposed at various times as one of the chief grafters of the wigwam. He was one of the right-hand men of Richard Croker and Charles F. Murphy in the days of "honest graft."

Attacks against the $16,000,000 contract last April brought out the fact that hundreds of thousands if not millions of dollars of Tammany graft is involved.

HALT INCREASE FOR TEACHERS

Rule That $1,200,000 Fund Is "Illegal"

The special appropriation of $1,200,000 by the board of education for "supermaximum" salary raises to 6,000 specially qualified school teachers cannot be "legally" distributed, according to an opinion handed down by corporation Counsel Nicholson.

The money was intended for teachers who have special aptitudes, or possess university degrees or credits for special courses. But Nicholson said that the education law provides for "supermaximum" salaries on the basis of length of service, but "makes no provision for special training."

11 GO TO TRIAL IN BRIBE PLOT

9 City Officials and 2 Contractors Accused

ELIZABETH, N. J., June 20. — Nine city officials and two contractors went on trial today charged with conspiracy, bribery and extortion in the administration of the affairs of Linden, N. J.

John J. Gall and Otto Cock were indicted for conspiracy to get the contract to supply cinders to the city and former Councilman Edward Wallace and Councilman Frank Kubiak were charged with having conspired with them.

Wallace and Kubiak also were alleged to have accepted a bribe of $500 in the appointment of a city auditor. City Auditor John F. Meakin of Roselle Park, N. J., was indicted, charged with giving them and Thomas Archipley, president of the city council, $500 to get his job. Archipley also was alleged to have extorted $100 in connection with the issuance of a city permit.

Building Inspector Joseph W. Kugler, City Tax Collector Herbert D. Banta and Councilmen Stephen Pekar, Daniel Schulhafer and Charles Hill have also been charged with "misconduct in office."

Union Offices for Rent at New Workers Center

Offices suitable for trade union offices are available at the new Workers Center, 26-28 Union Square. Others are suitable for dentists, accountants or artists, it is announced. Space will be divided to suit the individual tenant, according to P. Amron, manager of the Center, who can be reached by calling either Stuyvesant 1201 or Stuyvesant 8100.

SPEAKING TOUR OF ALEX BAIL TO COVER 3 STATES

Other Organizers Have Been Placed in Field

(Continued from Page One)

liam Z. Foster and Benjamin Gitlow, Workers (Communist) Party candidates for president and vice-president respectively, on the ballot, as well as a full state ticket headed by Edward Theinert for governor and James P. Reid for senator.

Will Visit Many Cities

The following is a list of cities which Bail will visit on his tour. All party members have been asked to attend the meetings in their city. A call has been issued advising all workers who wish to join the party in any of the cities mentioned below, to get in touch immediately with the district office, 38 Causeway St., Boston, Mass.

Thursday, June 21, Worcester, Mass.
Friday, June 22, Providence, R. I.
Saturday, June 23, Fall River, Mass.
Sunday, June 24, D. E. C. in Boston.
Monday, June 25, New Bedford, Mass.
Tuesday, June 26, Brockton, Mass.
Wednesday, June 27, Norwood, Mass.
Thursday, June 28, Council in Boston.
Friday, June 29, Quincy, Mass.
Saturday, June 30, Newton Upper Fall, Mass.
Sunday, July 1, Finnish District Picnic.
Monday, July 2, Lynn, Mass.
Tuesday, July 3, Peabody, Mass.
Wednesday, July 4, Boston Daily Worker Picnic.
Thursday, July 5, Boston, Council Meeting.
Friday, July 6, Lanesville, Mass.
Saturday, July 7, Haverhill, Mass.
Sunday, July 8, Lawrence, Mass.
Monday, July 9, Lowell, Mass.
Tuesday, July 10, Nashua, N. H.
Wednesday, July 11, Wilton and Milford, N. H.
Thursday, July 12, West Concord, N. H.
Friday, July 13, Lebanon, N. H. (Enfield.)
Saturday, July 14, Newport, N. H.
Sunday, July 15, Keene, N. H.
Monday, July 16, Gardner and Hubbardston.
Tuesday, July 17, Fitchburg and Ashburnham.
Wednesday, July 18, Maynard, Mass.

Dates for Maine and Vermont will be announced later.

MANY QUAKES IN MEXICO

MEXICO CITY, June 20. — The Ministry of Commerce and Labor, after a study of the recent earthquake phenomena, declared today there had been 200 seismic disturbances in the republic since Saturday night, most of them in the states of Oaxaga and Guerrero. In the states of Puebla and Oaxaca earth tremors continue.

A Negro Hangs at the Door of the Democratic Convention

The hanging of Robert Powell within eight miles of the door of the convention hall at Houston is an "appropriate" preliminary to the opening of the democratic national convention.

The little business men of the convention city in which the stalwart democrat, Al Smith, will receive the nomination for the presidency, in the words of one capitalist newspaper correspondent, "are proud and excited, and they don't want anything to go wrong. Probably nothing will go wrong."

In the same issue of the same paper is printed an account of the abduction of a wounded Negro boy and his murder by hanging within eight miles of the Sam Houston Hall where the democracy will assemble, the act being committed by eight murderers who did not take the trouble to mask their faces as they drove their victim through the streets of Houston with a rope around his neck.

Indeed "nothing went wrong."

The young man, accused of keeping up his side of a gun fight with a white detective, both men being wounded, was taken from the "Negro ward" of the Jefferson Davis hospital and hanged from a bridge.

The petty capitalists who form the leading stratum of the democratic party in the Southern states, will approve fully of the "decoration" for the coming convention. The body of a murdered man, with a face that is black, swinging in the breezes within a pleasant afternoon automobile ride of the convention hall will delight the early-arriving democratic delegates. It might do much to unify the convention—the Ku Klux Klan on the one hand, and Tammany Hall on the other. Behind the superficial phenomena of klanism and Tammany, of course, are the real elements that must bring about the unity of the democratic convention: these are the power of finance-capital of Wall Street on the one hand and the vast herd of petty business interests of the South. The democratic party of the South, in its composition, still contains the vast majority of the small business elements. It is controlled at the top, and manipulated as a machine, by the Wall Street bankers who made Al Smith governor of New York. The practically certain nomination of Smith is the expression of this control of the party by the highest powers of Wall Street.

Why does the body of the young Negro man hang at the door of the democratic convention? Because the interests of capitalism in the South are served by keeping the working class and the working farmer class sharply divided into race divisions. Segregation, disenfranchisement, exclusion from trade unions, social inequality—and lynching, of Negroes, are a business necessity to the small business class which makes up the "democracy" of the South.

• • •

The republican convention did not have a Negro hanging by the neck at its door; it only needed to go so far as to keep the Negro delegates segregated.

The position of the two big parties of capitalism is the same on the Negro question. If the republican convention hall was not "decorated" with a Negro's dead body, it is partly because the convention was held further north where outward show of fashion is not so extreme, and because convenient occasion did not offer.

The republican party, which, in the South, used to be miscalled the Negro's party, is through with the Negro.

This is because the interests of capitalism as a whole coincide with the special suppression of the Negro workers and farmers—and even the suppression and disenfranchisement of the Negro small business class.

• • •

It is interesting to note the actions of the so-called socialist party in this connection. That party, also supporting capitalism, carefully refrains from interference with the racial segregation issue in the South "because if we take in the niggers, the whites won't join." This is its practice, though its pretense (in the North) is otherwise. We recall the sturdy defense of the Ku Klux Klan that was made in the socialist party convention four years ago, as well as the weazle words with which that party now evades the Negro question.

• • •

Take it from any angle, no political party can defend the cause of the Negro masses in the United States, unless that party faces the revolutionary connotations of such a course. Only a party that represents the interests of the most suppressed and exploited sections of the working class and farmers can speak and act unqualifiedly for the Negro against all discrimination, for full social, political and all other forms of equality. Any party that does this will be classed as "the nigger party" by the petty capitalist class and the section of labor aristocracy which follows the lead of capitalism. No party could, for instance, champion the dictatorship of the proletariat without facing the certainty of rule by workers' councils composed of Negro workers as well as white workers.

The only party that champions the Negro to the full limit in actions and program, accepting gladly all that is involved thereby, is necessarily the revolutionary party of the working class—the Workers (Communist) Party.

The only party that did not have, at least figuratively, the body of a lynched Negro hanging at the door of its national convention is the Workers (Communist) Party.

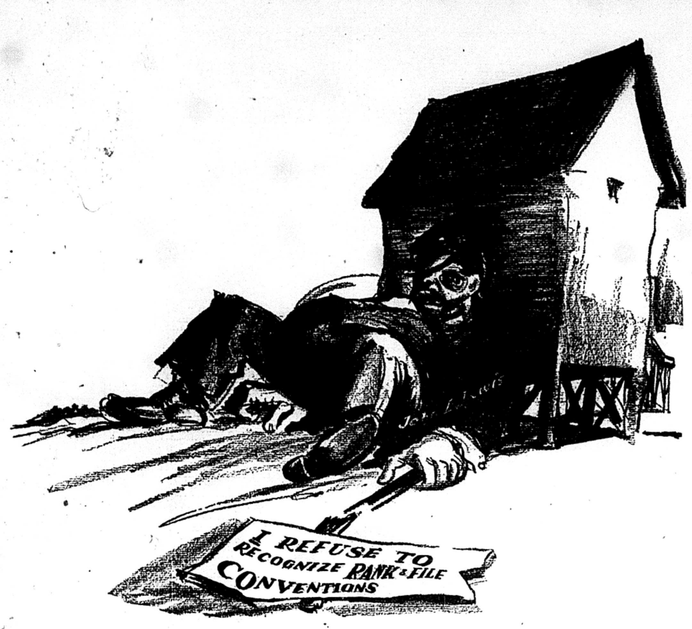
White workers and Negro workers! Vote Communist!

Workers of all races, unite! You have nothing to lose but your chains—and your ropes!

Join the Communist Party.

A BLACK EYE

By Fred Ellis



I REFUSE TO RECOGNIZE RANK & FILE CONVENTIONS

HANDOUTS

GEMS OF LEARNING

W. D. Mahon, President, Amalgamated Association of Street and Electric Railway Employes of America—"Capital, with its autocracy, must be curbed. Labor, with its curbed and chained power, must be freed; and our belief is that the way to bring about the proper labor and economic condition is to harness, through co-operative organization, labor and capital into a united team of industrial democracy, and through co-operation, each having its own organization, standing squarely upon its rights, with the provisions of arbitration, make them work even, each pulling its share of the burden and receiving its full share of the products produced, keeping in mind the public and their respective relations to the same in such a manner as to always keep in sight the fact that true success depends upon equal justice and the rights of all classes concerned."

Mr. Mahon should know that you can't team up any two horses. How would he like to plow a field with a white mare and Cal Coolidge's electric pony.

• • •

King Dykeman, President Kiwanis Club of Seattle—"I am honored to be the elected president of the Seattle Kiwanis club during the international convention year. . . . I reflect the feeling of every member of our Seattle club, of every Kiwanian in our great and truly international district, when I say that we welcome you with our whole hearts. The heartiness of our handclasp is only indicative of the warmth and love that glows within us." **It might be added that the profits of Kiwanian storekeepers are considerably boosted during convention periods.**

• • •

"Americana" of Pittsburgh writes in to inform us of the progress in the mechanization of the patriot-manufacturing business of the American jingoists. He clipped the following ad from the catalogue of I. Robbins and Sons, 203 Market street, Pittsburgh: "177-27 Musical Toilet Paper Distributor—When the paper is pulled the music starts to play 'The Star Spangled Banner'. A splendid creation, size of board 8½ by 5 3-8 inches, white enameled with strong holder, nickeled finish. A real musical instrument. A big hit. Each $4.50."

Americana suggests that if I. Robbins and Chas. S. Fletcher joined hands they would be able to make a nation of patriots.

• • •

Shylock's Agent

The above tintype is S. Parker Gilbert, the world's best known bill collector. He is agent-general of reparations and since he's been in Germany he's made a lot of friends. The railroad owners have been doing him a lot of favors and in return he's decided they must have a big boost in rates. As a favor to the working class Gilbert has increased hours, heightened the speed-up and slashed wages.

Foster's Acceptance Speech

(*Continued From Previous Issue.*)

THE WAR DANGER

One of our principal tasks in the coming election campaign is to arouse the workers to the danger of a new world war. Never was such a war more imminent. This danger manifests itself from various directions. The developing attack of the great imperialist powers upon the Soviet Union; the growing rivalries between the various imperialist powers for markets and world domination, especially between the United States and Great Britain; the attacks on the colonial and semi-colonial countries, as for instance, on China and Nicaragua at the present time (from the audience: "and Haiti"), yes, and Haiti too, and many other countries—all these tendencies, all these developments are pregnant with the danger of a fresh world war. A world war may start from any of these, and when it does come, the previous war will seem in comparison a pink tea affair.

Today we confront unprecedented preparations for war, armaments without parallel. Did you read in the papers, just a day or two ago, about the gas explosion in Hamburg, when a supply of gas was accidentally released, poisonous enough to have wiped out the entire poeple of Hamburg? Only a fortunate combination of circumstances prevented the gas from going, with frightful effects, into the most densely populated sections of the city. The militarist program that the world imperialists are developing provides for gases, armaments, instruments of war, more deadly and upon a more gigantic scale than ever before in the history of the world. And the whole thing is developing towards a climax in the sharpening antagonisms that I have just briefly indicated.

Imperialist Armaments.

All this great massing of armaments, these gigantic preparations for war, are being carried out under a marvelous camouflage of peace. Since the Versailles Treaty was signed we have been treated to an almost constant series of "peace" conferences, "disarmament" conferences, "anti-war" conferences, a whole stream of them. Yet at the end of all these years the armaments are greater than ever before in history and the war danger grows more and more imminent. The latest pseudo-peace maneuver for covering up the preparations for war by the imperialists originates nowhere else than in the United States. What I refer to is the so-called Kellogg proposal to outlaw war.

It is just a few months ago since the Soviet Union came forward with a proposition to abolish armaments all over the world. This created a great sensation. Among the masses of workers of the world the feeling grew that only the Soviet Union was serious in its proposals for world peace. With their militaristic program thus exposed in its nakedness, the capitalists had to do something to counteract the Soviet Union's proposition. The first attempted answer to the Soviet Union was that made by the British delegation at the conference where the disarmament proposal was made. And what did the British delegation say in substance? It was an answer of old-time diplomacy, an answer of the naked iron fist. That Great Britain does not agree with the Soviet Union's proposals for world peace; that she declares world peace to be a chimera, that the proposals for disarmament are impossible, and that she intends to maintain her armies and navies.

Race For Armaments.

This was the answer of Great Britain. But the United States, the leading imperialist country in the world, has a much more skillful answer to the Soviet Union than that. What does America say? She says through the mouth of Kellogg, "Let us outlaw war; let us come together and agree that there shall be no war." And the leading capitalist countries of the world are accepting this hypocritical proposal of America. What does it all mean? It means simply that under the slogan of "outlawing war" the world imperialists will continue their race for building up their armaments and preparations for world war. This deceitful hypocritical slogan is thrown out to blind the eyes of the masses, to make them think that the capitalists are really trying to stop war. The United States, highly expert in fooling the masses, has put out some clever slogans for covering up its war aims. The Kellogg proposal to "outlaw war," which is being endorsed by reformists all over the world, including the socialist parties, is perhaps the most skillful scheme ever set afloat since the days of Wilson's famous slogan: that the Allies were fighting the world war "to make the world safe for democracy."

To expose the real meaning of Kellogg's proposition, to fight against the vast war plans of the United States, to arouse the American working class against the militaristic program of American imperialism, to mobilize the workers against the war in Nicaragua, against the whole program of imperialist aggression in Latin America, in China, and the militarization of the workers in this country—these are basic tasks of our Workers (Communist) Party, and they must stand in the very forefront of our election campaign.

Defend Soviet Union.

Especially in this connection must we undertake to mobilize the masses of workers in defense of the Soviet Union. Today the Soviet Union advances with giant strides. It is making tremendous progress in building its industries, in establishing a socialist commonwealth in the face of the most tremendous difficulties. The very existence of the Soviet Union is a menace to the capitalist order the world over. It is an inspiration to the workers of the world, a living proof of the feasibility of the proletarian revolution. The capitalists of every country are determined to destroy the Soviet Union at all costs. They want to wreck its working class government and seize its great natural resources. And now, under the leadership of Great Britain and with most active participation by the United States, slowly, systematically they proceed with their mobilization of forces. They are awaiting the opportune time to strike at the Soviet Union with all their massed power.

Fundamental to the success of their attack on the Soviet Union will be to keep the world's workers demoralized and inactive while the counter-revolutionary struggles are being carried on. The capitalists depend on the social democratic parties of the world, who identify the workers' interests with those of their respective capitalist classes, to help them cut the Soviet Union to pieces. In the revolutionary upheavals in the years following the world war, it was the socialist parties that beat back the rising tide of proletarian revolt and preserved the capitalist system in Europe. The capitalists believe that the socialists will once more be able to deliver a master betrayal of the revolution, that they can hold back the working masses while the capitalists deliver their carefully prepared attack against the Soviet Union.

War On Capitalism.

But this time the imperialists are reckoning without their host. No longer have the social democratic parties their former undisputed leadership of the working class. In the last few years, in all the important countries, revolutionary Communist parties have been built up. They have sunk their roots deep among the masses. Under the leadership of the Communist International they are mobilizing their forces. The power of this great movement constantly grows. When the international capitalist class, when the imperialists of the world, assisted by their social democratic lackeys, deem the time opportune and strike at the Soviet Union the blow they are now preparing, they will wake up to a crushing defeat. When that war begins, the Communist International and the millions of workers thruout Europe and other countries that follow its lead will not simply adopt a defensive policy, they will not merely seek to withhold their government attacks from the Soviet Union. On the contrary, they will put into effect the great Leninist strategy. They will turn the imperialist war against the Soviet Union into a civil war of the workers against capitalism. They will destroy the capitalist order and begin the building of the proletarian society. (Applause.)

WILLIAM Z. FOSTER

ECONOMIC DEPRESSION—EMPLOYERS' OFFENSIVE

Comrades, the United States is now in the midst of an industrial depression. American imperialism, embarrassed with the enormous masses of commodities produced by millions of super-speeded workers, is not able to dispose of these products. The workers, paid only a fraction of what they produce, cannot buy them back. The employers cannot sell them abroad. Many industries have been closed down. At least four million workers are unemployed at the present time. American capitalism, with all its power and with all the boasts of its defenders that it has found the formula of continuous prosperity, shows that it, too, is possessed of the weaknesses, and contradictions of capitalism in other countries. It also is subject to crisis. Many signs indicate that we are on the eve of a serious industrial depression.

The employers, quick to take advantage of the situation, are making a great drive against the living and working standards and organizations of the workers. They aim at developing a working class, docile, speeded up, and a tool in their schemes of world imperialism. Wage cuts have been widespread in the industries, especially among the armies of unorganized, unskilled workers. For the moment the organized skilled workers have mostly escaped the wage cuts, but their turn will come later. The employers forge ahead with their open shop drive. Wherever the workers resist they are confronted with an unprecedented use of the government against them, injunctions, troops, gunmen, etc.

Labor in Fighting Mood.

The workers are becoming increasingly in a fighting mood, especially is this true of the great masses of semi-skilled and unskilled workers in the basic industries who have suffered most from wage cuts, speed-up and unemployment.

The strike of New Bedford amongst the textile workers, the Haverill shoe strike of a few months ago, the Oshawa strike among the automobile workers, indicate their growing militancy.

General Motors Strike.

Perhaps most of you have not heard of the Oshawa strike of some four thousand workers of the General Motors Corporation in Canada. This strike, although a small one, was very significant and an indicator of conditions prevailing widespread in American industry at the present time. The automobile workers for years were among the best paid workers in the United States. But recently their wages have been repeatedly cut, they have been speeded up enormously; unemployment has borne down upon them; in short their former relatively favorable conditions have been taken from them to such an extent that a growing spirit of resistance is spreading among them, in Canada as well as in the United States. The strike of the Oshawa workers is a signal of the growing discontent among the great masses of automobile workers. The automobile industry has been held up, not only in this country but all over the world, as a most decisive achievement of American capitalism; as the industry in which American capitalism, with a formula of mass production and high wages, had laid the basis for a contented working class. Yet we see that under the weight of wage cuts, speed up, unemployment and generally worsened conditions the privileged automobile workers are being forced down to such a position that sentiment for organization and struggle is rapidly developing among them.

And what is true of the automobile workers is becoming the case in the various other basic industries. There the workers have been confronting wage cuts and similar conditions. A fighting mood develops among them. Undoubtedly they will wage many important struggles in the near future.

Price 3 Cents

NANKING RAIDS USSR CONSULATE IN NORTH CHINA

[illegible]RS PARTY PLANS SERIES OF ELECTION PICNICS

Fight to Put Candidates on the Ballot

A series of election campaign picnics at which national and local Communist candidates will appear are being planned for the summer months by the Workers Communist Party.

Benjamin Gitlow, vice-president nominee on the Communist ticket, will speak at a picnic in Chicago on July 4th.

On July 4th, Robert Minor, editor of the DAILY WORKER and the Party candidate for senator in New York state will speak in Baltimore.

Milwaukee is arranging one on July 8th at which, it is expected, Gitlow will appear. Final arrangements for the latter affair have not been completed.

Huge "Red Picnic"

What is expected to be the biggest affair of its kind ever held in New York City is the "Red Picnic" organized by the New York district of the Party for next Sunday, June 24th. It will be held in Pleasant Bay Park.

Since the great national nominating convention and the return of the delegates to their homes, there has been a quickening of Party activity throughout the country and hundreds of new connections have been made for the Communist movement. Despite the difficulties placed in the way of a working-class political party getting on the ballots, the comrades everywhere are bending to their tasks with the result that in nine states the required number of signatures have already been filed with the state authorities.

Utah Party Meeting

A general meeting of Party members will be held in Salt Lake City, Utah, on July 8th. Five hundred names are necessary in Utah to place a candidate on the ballot. Each of the names must be sworn to before a notary which places a heavy financial burden on the party.

On his return to his home in Phoenix, Arizona from the nominating convention, William O'Brien started a campaign to get subscriptions for the DAILY WORKER and is now busy getting out election campaign petitions.

BAIL TO TALK IN PROVIDENCE, R. I.

To Speak in 3 States on Organizing Tour

PROVIDENCE, R. I., June 21.—Alex Bail, organizer of the New England district of the Workers (Communist) Party, will speak here tomorrow night as part of the tour which he is conducting to mobilize all the Party resources in the election campaign and for the support of the New Bedford textile strikers.

Bail is at present on a tour of various cities in Rhode Island, Massachusetts and New Hampshire. In addition, special organizers are also in the field in charge of the work in certain sections.

Election work in Rhode Island is at present concentrating on securing the required number of signatures to place the names of William Z. Foster and Benjamin Gitlow, candidates for president and vice-president of the Workers Party respectively, on the ballot, as well as the state ticket. Edward Theinert is candidate for governor and James P. Reid for senator.

Bail's itinerary is as follows:

Friday, June 22, Providence, R. I.
Saturday, June 22, Fall River, Mass.
Sunday, June 24, D. E. C. in Boston.
Monday, June 25, New Bedford, Mass.
Tuesday, June 26, Brockton, Mass.

(Continued on Page Three)

SETTLE LEATHER STRIKE.

UTICA, N. Y., June 21.—The strike of togglers at the Barnett Leather Company has been settled. A number of the men have already returned to work. The rest will return within a few days.

FLOODS IN WESTERN N. Y.

BUFFALO, N. Y., June 21.—Floods, caused by terrible rainstorms today, destroyed thousands of dollars worth of property, suspended school and business activities, greatly harmed crops and washed away the tracks [illegible] in western New York.

To Defend Workers

Unlike the United States, military training in the Soviet Union is in the interest of the working class, and the role of the Red Army is to defend the freedom of the workers against world capitalism. This young soldier will fight the Chamberlains and Mussolinis of the future.

TAMMANY TRICKS RULE IN HOUSTON

Party of Murphy Graft Plays Both Sides

(Special to The DAILY WORKER.)

HOUSTON, June 21. — Old Boss Murphy is dead but his policies lives on at Houston. "Divide and rule," "play both sides" and other famous maxims of the man who for two decades was the leader of the Tammany grafters are being put into practice here in the preliminaries to the democratic convention.

One of the typical devices of playing to both sides was witnessed here yesterday in the publicity on the prohibition issue given out by Norman E. Mack, one of the leaders in the Smith band of strategists.

A Speech With a Purpose.

Mack unburdened himself of a fiery tirade against prohibition. Holding no public office, the oft-exposed Tammany grafter has nothing to lose from taking the stand for which he was undoubtedly chosen.

Today before a whole group of [illegible] leader of the Smith campaign, called Mack on the carpet and "forced" him to repudiate his views and to declare they were not those of Smith.

[illegible] men who desire their beer may smile to themselves in the cunning conviction that Mack made a "slip" and has really spoken openly what Smith secretly intends to carry out. And the drys will have some straw to grasp at in the repudiation by Smith of the militant wetness of Mack. It need only be added that no such long tirade as was issued by Mack could have taken place without the complete understanding of the campaign managers.

Boss Murphy again was seen to live in the declaration of the Smith forces in the matter of choosing a vice-president. Everyone knows, of course, that if Smith is the nominee he will be practically all-powerful in choosing his running mate. Nevertheless, the voice of Murphy was today heard to say from the lips of Van Namee: "The convention will decide." This pleases the young hopeful politicians and adds to the "democratic" illusions which the Smith forces are peddling about.

Textile Strike Leader Faces Army Court Martial

BAIL IS DENIED TO YOUNG WORKER IN U. S. GUARD HOUSE

I. L. D., Y. W. L. Launch Huge Defense Drive

NEW BEDFORD, Mass., June 21.—The United States Army has been called to the aid of the textile operators in their efforts to break the strike here.

John Porter, a weaver, Vice-President of the Textile Mill Committee and organizer of the Young Workers (Communist) League was turned over to the military authorities day before yesterday and is being held in prison denied the right of bail.

He is to be court-martialed for having left the army last year, after becoming conscious of the role of soldiers in fighting their fellow workers.

Finger-Print Porter.

The role of the military authorities in opposing the workers and the determination to use every means to get militant leaders of the masses behind bars is shown by the fact that the finger-prints of Porter, after his arrest for participation in the strike were compared with those who had left the army without discharges though the chances that he had been in the army were small.

Porter is being held in the military prison at Fort Rodman, and from there he will be sent to Fort Adams at Newport, R. I., or to Fort William, where he will be "tried" by a general court-martial composed of army officers specially selected for this purpose by the military commander of the post.

Efforts will be made to deny all civil rights and the War Department does not permit its victims to present any evidence in appeals to civil courts.

The intervention of the army in the effort to imprison Porter and to prevent him from participation in the textile strike follows repeated arrests for his militant struggle for the workers by civil authorities, and recently he was sentenced by Judge Frank A. Milliken to five months in jail. He was on bail pending appeal.

Among the crimes of Porter, as reported in the capitalist press of New Bedford, was that of collecting funds for the striking workers.

Entered Army As Boy.

Porter entered the army when hardly sixteen years of age, and was illegally accepted by the military authorities because of their desire for more cannon fodder. At that time he had no knowledge of the role of the army in defending imperialism and enslaving the working class. But for Porter the service proved to be a school, and within two years he began to realize the purpose for which he was being used. At this time, however, he did not know that the task of militant workers in the army is to expose the true nature of capitalist militarism to his fellow soldiers so that they will fight against the exploiters.

• • •

I. L. D. Defends Strike Leader.

The International Labor Defense has taken up the defense of Porter. legal defense will be given at the court-martial, and the working class throughout the country will be rallied for the greatest struggle against the military machine ever known in this country.

Soldiers are denied the constitutional right of bail and are forced to do hard labor while awaiting trial, often for many months. This is being done in the case of Porter, and for the first time the unconstitutional

(Continued on Page Two)

SECURE "DAILY," IS CALL

Must Insure Paper's Life for the Summer

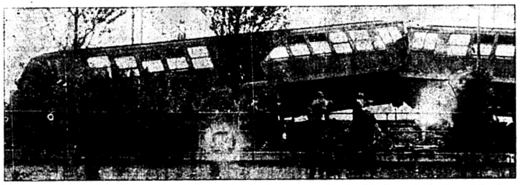
Contributions which continued to come in yesterday for the drive to save The DAILY WORKER brought the total up to last night close to $10,000. $301.55 was received yesterday.

However, much more than this amount must be raised if the existence of The DAILY WORKER is to be secured over the summer months. Summer is usually the most difficult period of the year for the "Daily," with the income from advertising and other sources falling off sharply. The $10,000 which has been so generously raised by workers thruout the country is necessary to meet creditors' bills. The workers must prevent another such crisis from occurring during the difficult summer months. And they must see to it that The DAILY WORKER remains six pages.

The DAILY WORKER has not as

(Continued on Page Two)

Wooden Subway Trains Endanger Lives of Hundreds of Bronx Workers



Wooden cars on the Interborough Rapid Transit lines have again placed in jeopardy the lives of hundreds of the city's workers. Photo shows two I. R. T. trains which telescoped late Wednesday night when they crashed on the elevated structure on Morris Park Ave., near the E. 180th St. station. Had any lives been lost, the company, as is its practice, would undoubtedly seek to shift the blame to the overworked and underpaid slaves who operate the lines. Merely as a gesture, the Transit Commission has on numerous occasions "ordered" the I. R. T. to replace its wooden cars, but the company has, with characteristic arrogance, refused to pay the slightest attention to it.

INCRIMINATE FOUR MORE IN THE HUGE DON BASIN PLOT

Gorletzky Proven Chief in Sabotage

(Special Cable to DAILY WORKER.)

MOSCOW, U. S. S. R., June 21.—Gorletzky, one of the most prominent leaders of the huge criminal sabotage conspiracy against the Soviet Government, was today examined here on charges of his having been implicated in the plot. Gorletzky was a high-salaried mines director before the revolution, hated by the workers under his supervision. After the revolution, he became an active counter-revolutionist, and supported the cossack white-guardist, Krasnov, against the Soviet Union.

When questioned by the prosecution, Gorletzky told the court that socialism "is a Utopia that has no chance of ever being realized." It was revealed during the course of his examination that he had seized every opportunity that came to him to damage and defile the Soviet Union. In such counter-revolutionary activities, his last position, that of director of the mechanization department, gave him an unparalleled position in spreading such venom.

Gave Bribes.

The accused technician Tschinokal, an assistant of Gorletzky's, tried to shield him at first, but afterward admitted a mechanization sabotage involving several million rubles. Gorletzky also continued to deny his guilt, in spite of his open statement in court concerning the practicability of a socialist state, in spite of his own counter-revolutionary record that stamps him as one who would naturally become implicated in such a conspiracy, and in spite of the fact that most of the engineers accused with him in the same plot, designate him as the first to join and be active in the sabotage. He was also confronted with others of the accused, the testimony of all of whom incriminate him. All swore that they had received both money and sabotage instructions from him.

It was revealed that he had done immeasurable damage to the Soviet mines, by wrecking good machinery and getting useless machines.

Germans Implicated.

Later testimony in the trial brought to light the fact that Kasarinov and Tschinokal, both accused engineers, and members of the traitorous commission headed by Gorletzky, had negotiated with Knapp in Berlin, after they heard in Berlin that Knapp was perfectly ready to pay bribes to them. Gorletzky was proven to be on intimate terms with Knapp, together with engineers Koster and Sebold.

Colleges Get Cash for Imperiailst Flying

The board of trustees of the Daniel Guggenheim fund for the promotion of aeronautics has authorized appropriations totalling $339,000 to the University of Washington, the Harvard University graduate school of business administration and the Massachusetts Institute of Technology to further the study of aviation, it was announced yesterday by Harry F. Guggenheim, president of the fund.

KANSAS MINERS CALL SPECIAL CONVENTION

(Special To The DAILY WORKER.)

ARMA, Kansas, June 21.—Charging that the Lewis-Burr-Skahan machine of District 14 has brought the mine union to the verge of destruction nearly forty officers and representatives of local unions and sub-districts have sent out a call for a special convention to be held here on July 1 at which a program will be worked out to meet the crisis in the union to place the organization back into the hands of the rank and file miners.

The convention call is addressed also to miners of Missouri, Iowa, Oklahoma and Colorado who are urged to send fraternal delegates. Credentials to the convention are to be sent to Everett Cook at Mulberry, Kansas.

The call in full follows:

Rank and File Speakers.

To all Local Unions and
Members of District 14,
United Mine Workers of America
Greetings:

The rank and file of District 14 is hereby calling a special convention of District No. 14 of the U. M. W. A. to convene Sunday, July 1, 1928, 10 a. m., Eagles Hall, Arma, Kansas.

The purpose of the convention will be to work out a program to meet the deep crises which have been

(Continued on Page Two)

PHILADELPHIA TO HOLD RELIEF DAY

PHILADELPHIA, June 21.—The Philadelphia Committee of the National Miners' Relief has more than doubled its active workers, the largest collection yet made in the weekly house to house collection will result this saturday, June 23, it was announced by the committee.

Six stations have been selected by the committee, where comrades and sympathizers as well as all class conscious workers desirous of assisting the courageous miners by volunteering to collect from house to house, will receive instructions, collection lists and boxes.

Every Philadelphia worker is expected to show up at 1 o'clock Saturday afternoon and transform into action his sentiments towards the striking miners.

The stations will be located as follows:

1. 4035 Girard Avenue (Progressive Library).
2. 2926 Gordon Street (Strawberry Mansion Workers' Club).
3. 125 W. Oxford Street.
4. 1208 Lasker Street (Italian Progressive Institute).
5. 2nd and Cambria Streets (Kensington Labor Lyceum).
6. 8th and Ritner Streets (S. Phila. Workers' Club).

POLICE AIDED LYNCHING

Murder "Annoys" Houston Democrats

(Special to The DAILY WORKER.)

HOUSTON, Tex., June 21.—At least one, and possibly more members of the Houston police force took a leading part in the lynching, here yesterday, of Robert Powell, 24-year-old Negro. His body had been found hanging from an old bridge about eight miles from the city.

Powell had been dragged from a cot in the hospital ward where he lay dying following an exchange of shots with a city detective, Davis, who shot into a crap game in which a group of Negro youths had joined.

Police in Line-Up.

This morning the witnesses to the kidnapping in the hospital were confronted with a whole watch of the police force at headquarters in an effort to discover just how many police were parties to the lynching.

While some of the local papers

(Continued on Page Two)

FASCIST FLEET MENACES GREECE

Workers and Police Are Still Clashing

ATHENS, June 21.—Arrival at Phaleon of an Italian squadron of twenty-two units, including battleships, is arousing the strongest resentment among all sections of the striking Greek workers who see in the move an attempt of the Italian government to overawe or, if necessary, to crush the strike which the Greek workers have been carrying on despite the bloody attacks of the police.

Spread of the general strike continued yesterday with hundreds of workers coming out in trades hitherto unaffected by the walk-out. The civil service workers, who have remained at their posts, are threatening to strike immediately, and seamen, railroad workers, harbor workers, and many others have joined the general strike.

While fighting between workers and police is known to persist in various sections of the country, the government is maintaining the strictest censorship and very little information concerning the actual events has been permitted to leak thru. The number of casualties are still unknown.

Only 6 of Italia Crew Safe; Amundsen Lost

LONDON, June 21.—Reports tonight from the ice breaker Braganza, off the north shore of Spitzbergen, that the arctic ice has begun to split hastened the efforts of the relief expeditions that have been undertaken to rescue the 16 men now lost in the icy wastes. While six members of the crew of the Italia have been located and are in danger, ten others have not been heard from in more than a month. Now it is also feared that Roald Amundsen and five companions who went to Nobile's rescue in a French seaplane have also met disaster.

Paris reports today announced that two warships had been ordered to Spitzbergen to aid the search for the Amundsen-Gilbaud party.

NEW OFFENSIVE AGAINST SOVIET OFFICIALS SEEN

Imperialist Powers Help Incite Raid

SHANGHAI, June 21.—In a raid which recalled that on the Soviet consulate here some time ago, police, operating under the orders of the Nanking general Fu-Tso-yi, yesterday invaided the consulate of the Soviet Union at Tientsin, according to despatches from that city.

The invaders occupied the consulate for several hours, overturning desks and ransacking cabinets in their efforts to find the quantities of arms which they declare Chinese Communists had secreted in the consulate premises.

Consul Grigoriev produced nine loaded revolvers, the only weapons in the consulate, which are kept for the purpose of defense against attacks by Russian white guardists in China.

The Chinese officials admit that they found neither arms nor Communist propaganda.

The raid is interpreted here as the first of a series which are scheduled to do for the diplomatic and commercial agencies of the Soviet Union in northern China what the Nanking police carried out in the southern offices at an earlier date.

It is believed that the Tientsin raid will be followed immediately by raids on the Soviet offices in other towns. British newspapers here have commended the raid.

"A. P." FAITHFUL LACKEY OF TRUST

Sends Out Much Power Publicity

WASHINGTON, June 21.—Further evidence that the Associated Press has been acting as propaganda agency for the power trust was revealed today in spite of much soft-pedalling in the investigation being conducted by the federal trade commission.

The spotlight turned on Missouri today with J. B. Sheridan, secretary of the Missouri Committee on Public Utility Information, testifying as to the readiness and efficiency of the Associated Press in serving the power interests. A letter was produced in which Sheridan told George McQuaid, of the Texas Publicity Bureau, that the Associated Press in Missouri "sends out practically everything we give them."

About 13 Missouri newspapers, Sheridan said, printed every power trust story sent to them by the Associated Press. Since 1926 an average of one story a week has been distributed in this way, he declared.

• • •

WASHINGTON, June 20.—A tale of power trust bribery of newspapers through advertising and public school

(Continued on Page Five)

$200,000,000 COAL MERGER IS NEAR

Secret Conference Is Working Out Plans

Plans for the formation of a $200,000,000 bituminous coal merger announced recently advanced another step yesterday when representatives of a number of open shop operators of West Virginia met in a secret session at the Waldorf Astoria and listened to reports of engineers who have made an appraisal of the properties to be included.

The companies included in the deal which will include the producers of 35,000,000 tons of coal yearly, are the Consolidated Coal Company, the John D. Rockefeller, Jr. interests, and the Coolidge interests of Boston, owned by a relative of Calvin Coolidge, the president, in addition to a number of other companies of lesser importance.

One Hundred Thousand Miners Face Actual Starvation, Relief Body Says

KANSAS MINERS WILL TAKE OVER UNION ON JULY 1

Special Convention Call Goes Out

(Continued from Page One)

brought upon the union by the incompetence and corruption of the Lewis-Burr-Skahan administration, to place the union in control of the rank and file and to remove the bankrupt officialdom.

The miners' union faces destruction at the hands of the coal operators. The Lewis-Burr-Skahan administration through their incompetence have rendered assistance to the operators. In District 14 our union is no more than a semi-company union. The operators dictate conditions and do not pay the scale in many cases, with the Lewis machine doing nothing to remedy this.

The Pennsylvania Ohio miners have been on strike for over 14 months fighting off the attempts of the operators to crush their union. They have been left alone to fight this battle. The separate agreement of Illinois, Kansas, and other temporary agreements of various kinds signed up by the officialdom without giving the members a chance to vote on the separate agreement has given away all conditions won through the hard struggles of the past.

Machine of Betrayal.

The Lewis-Burr-Skahan machine will not call a special convention, to consider the emergency in the miners' union and to take the necessary steps to remedy it. They are doing all in their power to pacify the members, expel the militant leaders of today's struggle, and collaborate with the operators.

Picketing of the rank and file "led" by Skahan while strip pits and mines work under separate agreement is betrayal of the miners by the officials.

President Lewis and Secretary of the U. S. Treasury Mellon both support Hoover. Lewis, the "labor leader," joins hands openly with Mellon, the scab coal operator.

The District 14 special convention called by this committee will elect temporary officers from the rank and file who are for the rank and file, and who will take care of the interest of the rank and file. The special District Convention must work out new policies in line with the interest of the members. It must help win the Penn-Ohio strike, take concrete steps in the Kansas strike, to fight for a national agreement, to fight against wage cuts, to fight for the organization of the unorganized, to fight for the six hour day and the five-day week.

Rank and File Acts.

Throughout the organized districts the rank and file have held conventions and are taking over their unions. In Illinois, Indiana, Ohio and Penn. the miners have already registered their majority opinion behind the militant left wing of the U. M. W. A., the Save the Union Committee. It is up to the miners of District 14 to take control of their union and oust the Lewis machine. The miners of the southwest have been betrayed by the Lewis policy. Our convention, our call, is the battle call of the Southwest miners against the operators, the Lewis machine and their company union.

The rank and file demanded a special convention. The rank and file are calling a special convention. Miners of Missouri, Iowa, Oklahoma and Colorado, who have been betrayed by the Lewis machine should send fraternal delegates to the convention. Send your credentials to Everett Cook, Mulberry, Kansas. If your union does not hold a meeting before the 24th, call a special meeting at once.

Fraternally yours,

Everett Cook, Mulberry, Kan.

Robert Ramadge, Franklin; James Hunter, Arma; Frank Pernott, Arma; James Bousfield, Gross; Chas. White, Crowburg; Tom Wakefield, Mulberry; Amie Martier, Franklin; Joe Brasso, Mulberry; William Verren, Arma; William Cusic, Englevale; Geo. MINER'S FAMILY, STARVING, LOSES ITS TINY SHACK BY FIRE

PITTSBURGH, Pa., June 21. — The family of Mrs. Eva Kempa, of Library, Pa., which includes seven children, is in dire need of help. Mrs. Kempa's husband has been on strike for three years as have most of the miners in this town. The family, reduced to utter destitution by the strike, was living in a little two-room shack which it had built.

Three months ago the shack in which the Kempas lived was destroyed by fire. A bed, used by three of the younger children, barred the only door to the hovel and Mrs. Kempa was seriously burned when she climbed through the window after she had helped all her children to safety by the same route. Mrs. Kempa's husband was also severely burned. Every stitch of clothing owned by the striking family was destroyed in the blaze. They were given some clothes by neighbors.

Mrs. Kempa has written for help from the National Miners' Relief Committee. "Don't let my man go back to work now," she pleads. He has been holding out for three years and to go back now would be to lose these years of fighting." The relief committee can do nothing for Mrs. Kempa and thousands of families like hers unless the workers in other sections of the country give liberal sums of money and continue to give. All funds should be sent immediately to the National Miners' Relief Committee, 611 Penn Ave., Pittsburgh, Pa.

SECURE "DAILY," CALL TO WORKERS

Must Insure Existence During Summer

(Continued from Page One)

yet been able to print the names of all those who responded to the call for funds. During the next few days we will publish those names that still remain unprinted. Among organizations that have responded to the appeal of the "Daily" was the Freiheit Singing Society and Mandolin Orchestra of Chicago, which has sent $12.85 and promises to send more. The Chinese Workers-Peasants Alliance in America of Philadelphia contributed $105. A letter to the "Daily" from this organization says in part:

"We clearly understood the saving of The DAILY WORKER was to save the spirit of the revolution, which is even more important than the saving of our own lives. At the present time most of us are out of work, but to keep the revolutionary fire burning we must make every sacrifice to save The DAILY WORKER, the vanguard of the militant struggle."

This spirit must be kept up during the next few months. Keep The DAILY WORKER going during the summer. Help it to become a better and more powerful organ of the class-conscious workers of this country.

WARSAW, June 20.—Premier Pilsudski of Poland today christened the airplane in which Polish aviators Kubala and Idzikowski will try to fly from Paris to the United States, the "Marshal Pilsudski."

Company "Stool"

JOSEPH DE LACROCE
Labor Spy

DE LACROCE IS EXPOSED AS SPY

Reported Mine Workers to Bosses

(Special To The DAILY WORKER.)

PITTSBURGH, June 21.—Joseph De Lacroce, who has also gone under the name of Delacroce, has been exposed as a labor spy, according to information given out by A. Jakira, district organizer of the Workers (Communist) Party of District 5.

De Lacroce, who residence is at 1017 Western Ave., N. S. Pittsburgh, has been working among the miners, and the coal diggers especially are warned against him.

De Lacroce is tall, middle aged, dark complexion, speaks several languages, including Italian, English and some Slavish.

He was under surveillance by a committee of the Workers Party for several months. The information received shows that he has been traveling around the mining towns of West Virginia, Ohio and Penn. for the last few years. Last year he spent most of his time in and around Pittsburgh, especially Castle Shannon. He has posed as a bootlegger and as an agent, but all along was engaged in spying on the miners. He visited various labor meetings and was reporting to a coal company detective agency at the House Bldg., Pittsburgh.

Textile Leader Faces Army Court Martial

(Continued from Page One)

method of depriving military prisoners will be made a test case.

Habeas Corpus proceedings are to be made at once on the grounds that Porter is entitled to bail unless he has been sentenced and the sentence finally approved.

In civil cases, when bail cannot be furnished, prisoners awaiting trial cannot be forced to do hard labor But the militant striker will do work under guard of soldiers with shot guns.

Workers in every city will becalled upon to rally to the defense of Porter against the efforts of the army to stiffle labor with bayonet rule.

• • •

Youth League to Aid Porter.

The Young Workers (Communist) League has announced plans for huge mass protest meetings all over the country to demand the release of John Porter, textile strike leader active organizer of the League in New Bedford.

HOUSTON POLICE AIDED LYNCHING

Democratic Delegates Are "Embarrassed"

(Continued from Page One)

were making sanctimonious apologies for the lynching just before the opening of the democratic national convention, citizens of Houston remained calm, contented in the "job," and even expressed surprise for the editorial comment.

Press "Indignant."

Delegates to the convention, bored by the absence of excitement, had visited the scene of the lynching in groups. Automobiles that had brought the delegates were lined up as they viewed the dangling body of the murdered Negro youth.

Righteous "indignation" flows from the editorial columns of the newspapers here, and especially is this true of the democratic organs which claim to be embarrassed because the lynching occurred on the eve of the convention.

"May the outside world not take this as symbolic of the Houston spirit," exclaims the Scripps-Howard paper, the Press. "It was not men like these who died in the Alamo. If was not craven creatures like these who fought at San Jacinto."

"Houston has been shamed before the nation," says the Chronicle, published by Jesse Jones, candidate for the presidential nomination. "The people of Houston," it says, "do not approve of this."

Citizens Not Interested.

But on the streets there is no talk of the lynching among the "respectables," apparently no interest. But Negroes gather and whisper, alert lest they be overheard.

"Bob didn't kill the cop," they say. "The police just wanted blood."

The gory details of the lynching by the proud citizens of Houston are just seeping thru.

"Stick 'em up!" the lynchers shouted as they broke into the hospital ward. Four others put the rope around the neck of the Negro youth They carried him out. "Lord have mercy!" the victim was pleading. The men were laughing and there behind was the rope trailing along.

To give an appearance of sincerity to their "indignation," Houston officials are offering the munificent reward of $250 fo rthe apprehension of each of the lynchers.

Helping to Build a Camp for Workers' Children

While the children of the bosses are at exclusive profit-making summer camps, getting the advantages of physical activity and supervised play, the workers' children spend the hot months roving in the city streets. The Workers International Relief, 1 Union Square, New York, is now building a camp for workingclass children at Wingdale, N. Y., adjoining Unity Camp. Each child will stay two weeks and the charge will be but $8 a week. Many children of unemployed and striking parents will be taken in free of charge. Photo shows workers engaged on construction at Unity Camp volunteering their services to aid the children's rest home on Sunday, their day off.

American Plan Denies Rights of Tacna Labor

SANTIAGO, Chile, June 21.—The government press here regards with favor the latest plan which is said to have been proposed by the United States in connection with the Tacna-Arica dispute between Chile and Peru.

The chief merit of the proposal is that it will abolish plans for a plebiscite and will leave the settlement to secret negotiations and private agreements between the governments of Chile and Peru. It is proposed that former Ambassador Collier of the United States be director-in-chief of the private trading involved.

WIRES APPEAL TO NEW YORK OFFICE FOR INSTANT AID

Local Committee to Hold Drive

The virtual state of famine existing in the mine districts was brought home to New York workers yesterday through the publication of a telegram sent by the National Miners Relief Committee of 611 Penn Ave., Pittsburgh, to the New York headquarters of the committee requesting an immediate remittance by air mail or telegraph of all available funds in the possession of the committee.

Actual Starvation

The wire which was addressed to Fannie Rudd, New York representative declared that hundreds of miners' families are at the point of actual starvation and are beseeching the Pittsburgh headquarters for food. No other source of relief, other than this committee is available for nearly one hundred thousand miners from whom Lewis has cut off all help because they have refused to follow his policy of strikebreaking.

The Telegram follows:

Situation Desperate

"The situation here is so critica that we are compelled to demand immediately remittance by air mail all relief money in your treasury and whatever you can possibly secure otherwise. Please show this telegram to all language relief committees and other agencies in your city which can immediately help in the task virtually of saving life. Advise them to forward funds instantly. Miners families are at the point of starvation and are beseeching us to do secure something to eat for them. Organize a drive for more funds immediately.

A. Wagenknecht, Relief Director.

YOU CAN'T EVEN SING IN NEW BEDFORD

Mill Owners' Police Break Up Children's Demonstration

NEW BEDFORD, Mass. (FP) (By mail).—Getting children to sing on the picket line is just as bad as singing yourself, the cops warned Elizabeth Donnelley. Then when the kids wouldn't stop singing, "We'll catch the boss and put him in the sauce and never let him go," the long arm of the law rang for the black wagon, pushed Elizabeth in, and gave her a taste of jail life as already experienced by 40 other cotton mill strikers.

Elizabeth, in charge of children's organization for the Workers' International Relief, for weeks has taught children strike songs, has told them of unionism, has asked them to picket with parents to help them save that $19 a week average wage against a 10 percent cut.

Curious logic used by New Bedford cops shone through in this dialogue:

"Cut out the singing, there. Shut up them kids."

"I've got a perfect right to sing."

"You've got a right to sing all right, but you got no right to disturb the peace by singing or otherwise and you got no right to make the children sing and disturb the peace. So in you go."

Jackson W. Wales, Harvard graduate student down to study industrial problems at first hand in New Bedford, is taking the complete course. They threw him in jail. Jackson made a speech to the pickets.

Twenty-Five Thousand Workers Strike in South Africa Diamond Fields

PICKET DIGGINGS DESPITE POLICE AND MINE OWNERS

Thousands Sleep in Public Buildings

CAPETOWN, South Africa, June 21.—Twenty-five thousand native workers went on strike yesterday as a result of dissatisfaction with the policies of the owners of the diamond diggings at Lichtenburg, according to a report from that town.

Lichtenburg resembled a huge refuge camp yesterday with thousands of the strikers camping in churches and other public buildings. The men have come in from the diamond fields which are outside of the town. In many cases they have brought their entire families with them.

Picketing of the diamond diggings is going on in spite of the company's effort to disperse the picket lines. Hundreds of natives have braved the growing squads of police to picket the fields.

Persistent efforts of the Industrial and Commercial Workers' Union of South Africa, the native labor organization, to join the South African Trades Union Congress have been repeatedly disregarded or repudiated by that body. The native union is reported to number more than 100,000 members.

Ex-Trooper Gets Life Term for Killing Wife

Walter McFall, former member of the State Troopers at Genesee, N. Y. the same righteous and patriotic organization used in clubbing striking workers all over the United States was sentenced in the Hudson County Court of Oyer and Terminer last night to life imprisonment after a jury, having deliberated for less than two hours, found McFall guilty of first degree murder.

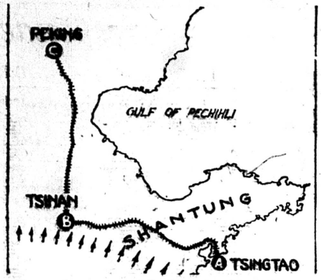
McFall shot and killed his wife, Florence Hersey McFall, in West New York last January.

Southern Floods Destroy Big Amount of Cotton

MEMPHIS, June 21.—Thousands of acres of cotton have been destroyed by the recent floods of the White and St. Francis Rivers. Nearly 1,000,000 acres of land have been flooded by the rising rivers.

Thousands of other acres are threatened if the levees which are now near the breaking point are destroyed.

Where Kuomintang Butchers Now Operate



The map shows a sector of the diplomatic and battle front of the imperialist powers and the warlords of the Kuomintang where bids are being made by the Nanking government for support of the foreign powers in crushing the Chinese working-class. The same map shows the scene of Japanese penetration of Shantung with the city of Tsinan, recently seized by the Japanese forces, and Peking recently seized by the Nanking reactionaries. Tientsin, directly southeast of Peking on the gulf of Pechihli is not shown on the map. It is the scene of yesterday's raid on the Soviet consulate.

TEXTILE WORKERS MAY REJECT PLAN

Discharge of Militant Led to Strike

MANCHESTER, Eng., June 21.—A joint central body committee composed of employers and union officials has worked out a set of recommendations to be adopted by the Nelson mill owners association and the 17,000 workers now out on strike. Even the employers' press admit that the strikers will probably refuse to accept the recommendations.

The situation developed out of the discharge of a militant worker in one of the Nelson mills. The immediate demand of the workers for his reinstatement on the job was followed by a lockout of 12,000 operatives, who then declared themselves on strike. This led 5,000 workers in the colored goods mills here to join the strike.

The recommendations of the joint committee of bosses and union officials are that the worker be not reinstated, and also that the dismissal of a worker shall henceforth not be considered cause for strike action. This action of the union heads is severely condemned by the strikers, particularly the second recommendation.

FIRE NEGRO WORKERS.

PENSACOLA, Fla., June 21.—Negro workers employed by the city of Pensacola are rapidly being removed from their positions by the mayor.

DAVIS, DEMOCRAT LEADER, FIGHTS FOR RADIO TRUST

May Be Negotiations Committee Head

WASHINGTON, June 21.—Willing to let the country see that they are non-partisan when choosing tools with which to secure private monopoly, the Radio Corporation of America and its associates have come before the federal trade commission with an imposing array of political lawyers, asking that the radio trust's complaint against them be dismissed. John W. Davis, democratic presidential nominee in 1924, signed the briefs filed by the American Telephone & Telegraph Co. and the Western Electric Co., two of the principal defendants and creators of the Radio Corporation. Davis signed for his law firm, Davis, Polk, Wardwell, Gardiner & Reed. The Polk in this firm is Frank L. Polk, assistant secretary of state under the second Wilson administration.

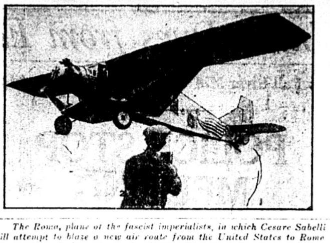
The importance of this incident lies in the fact that Davis is proposed as chairman of the resolutions committee—the platform making body—at te—the platform-making body—at Houston. As the General Electric is the original core of the electric power trust, his professional services to the power combine as well as to its offshoot, the radio trust, may be expected to continue when he reaches the convention. He will have the support, in that direction, of such power trust politicians as Senators Bruce, Tydings, Hawes, Tyson, Blease, Harrison, Ransdell, Simmons, Thomas, Joe Robinson, George, Edwards and Bayard, with Finis Garrett, floor leader in the house.

Plans to Lure Workers

HAVANA.—The increase of American investments in Cuba is leading to a demand for larger number of workers and agricultural laborers who will work at very low wages. Plans have been announced for bringing over workers from Europe, who will be virtual prisoners as they will not have the means to return and must accept such conditions as given them by American imperialists and the Cuban government. Promises will be made of land and houses—but on such terms as the government may later decide.

Efforts will be made to find illiterate workers in the Canary Islands and Northern Spain who do not know the story of Swiss farmers who came to Cuba in 1918, only to find the "agreement" repudiated by the Cuban government.

Fascists to Fly From Wall St. to Rome



The Roma, plane of the fascist imperialists, in which Cesare Sabelli will attempt to blaze a new air route from the United States to Rome this summer, is here shown in flight. The plane has been taken to Bridgeport for test flights.

SON CONFIRMS CHANG'S DEATH

TOKIO, June 21.—Chang Hsueh Liang, son of Chang Tso Lin, northern warlord, announced that his father died at 2 o'clock yesterday morning from wounds received when his train was bombed near Mukden on June 4, said a dispatch from Mukden.

• • •

Japanese-Nanking Tension.

SHANGHAI, June 21.—Following the confirmation of the death of Chang Tso Lin, northern warlord, by his son, the report that the Nanking armies are preparing to march north for a campaign against Manchuria is creating fresh tension between the Nanking regime and the Japanese government which declares that it will not tolerate interference with its occupation of Manchuria

"Call it a protectorate or what you will," one Japanese statesman is quoted as saying, "Japan intends to maintain her 'special position' in the northern province."

Arabian Cigar Workers in Palestine Strike

JERUSALEM (By Mail).—Arab workers went on strike in Haifa when the cigar factory "Mavrok" attempted to increase the number of hours from ten to twelve hours a day.

The strikers are receiving the solid support of Jewish workers in the city.

DECLARE MARTIAL LAW IN BELGRADE AFTER SHOOTING

Outbreaks Reported in Zagreb

VIENNA, June 21.—A state of virtual martial law prevailed in Belgrade yesterday as the result of the assassination of Deputy Paul Raditsch and Deputy George Basaritch, by Montenegrin Deputy Punica Ratchnitch in the Skuptchina Parliament.

Advices from Belgrade said that troops were patrolling the streets.

Violent anti-government outbreaks were reported from Zagreb, the stronghold of the Croatian Peasant Party.

A Belgrade telegraph said that the democratic members of the cabinet had decided to resign. Their resignations probably would result in the downfall of the whole ministry.

The shooting resulted from intense feeling that had been engendered by debate over the Jugo-Slavian treaty (Nettuno Treaty). This pact was before the chamber for ratification at the time of the assassinations.

Growth of Soviet Trade Unions

(The following is from "Soviet Trade Unions," by Robert Dunn, published by the Vanguard Press.)

* * *

(Continued.)

In addition to their important role as aids to the Commissariat of War during this period, the unions exercised other political and economic functions. They were represented directly in the Central Executive Committee of the government. They took the lead in organizing the Supreme Council of National Economy (frequently called the Supreme Economic Council) which operated most of the nationalized industries. They organized the central board set up to manage various industries during that period, and they had a majority of the members on these boards. They were practically supreme in the management of individual factories, having one of their men either as manager or at least as assistant manager to share responsibility with the technician in charge of the plant. They also organized the Commissariat of Labor and put one of their leaders at the head of it. In fact this department was completely under their control, at least at its central headquarters in Moscow. One of the duties of this commissariat was to enforce decisions of the Central Council of Trade Unions. Through it the unions drew up wage scales, drafted all labor legislation and directed the extensive system of social insurance. Furthermore, the union acquired great [illegible]ance in the Commissariat of Workers' and Peasants' Inspection, a supervisory organization having extensive powers, used chiefly to resist bureaucratic tendencies in the government and in state industries.

This identity with the machinery of government was accompanied by compulsory membership in the unions, while union dues were deducted from the workers' wages. The unions naturally received subsidies from the government during this period, and were not compelled, as they are at present, to rely solely on membership dues and contributions to sustain their regular budget.

Under the New Economic Policy.

With the adoption of the New Economic Policy (NEP) in 1921, the [illegible] of private trade, and the [illegible] of the governmental industry, the trade unions altered their functions considerably. They turned themselves from virtual managers of industry into defenders and protectors of the workers' rights as against those of private employers, as well as against bureaucratic tendencies in the state industries. Some of the changes that took place as a result of the NEP were the following: The unions became economic collaborators and advisers but without any direct responsibility in the management of industry. They were represented, however, on "committees for drafting the programs of the economic organizations . . . the designation of undertakings to form part of a trust . . . or to be leased, foreign business relations, the determination of branches of industry in which private capital may be admitted to Russian industry." In other words the unions were to maintain the same general interest in economic matters while giving up the very broad powers they had possessed before in this domain.

With the decrease in their economic functions and their growing importance as independent protective organizations, the unions as we have noted, put themselves on a voluntary membership basis and union dues were paid individually. At the same time they instituted the present system of voluntary collective bargaining whereby collective agreements are made after a period of negotiation between the union and the employing state trust or private enterprise. There was, also, at least when the Trade Union Congress met in February, 1922, a considerable shifting of weight to the lower branches of the unions and a tendency away from the extraordinary centralization of the period of war communism.

The introduction of the NEP also resulted in the transfer of other functions previously performed by the unions. The Commissariat of Labor, for example, took over the legislative powers of labor protection as well as the administration of labor legislation. It also assumed the role of chief arbitrator in labor disputes. Likewise the unions, from then on, acted only in a consultative capacity to the Commissariat of Education. In general it may be said that the unions were denationalized and no longer formed a part of the machinery of the state. Being thus declared free, independent and autonomous bodies, their legal status was reduced in section XV of the Labor Code of 1922. This section designated the place the unions still occupy in the economic life of the country.

The Code declares, in the first place, that the unions "may appear before the various authorities in the name of the wage earners as parties to collective agreements"; they are not liable to registration by the state, but only with the central inter-union federations already in existence. It provides that the unions shall have certain services furnished them by the state, such as Labor Palaces and specified postal, telephone and transport facilities. Other instructions in the Code concern the organization of shop committees, which we shall touch on later in discussing trade union structure. Still other provisions deal with the unions' relation to collective agreements, work contracts, rules of employment, standards of output, hours of work, rest periods, apprenticeship, remuneration, settlement of disputes and other matters some of which will be dealt with in later chapters.

In general this Labor Code defined the position and rights of the unions under the NEP and laid the basis for the steady development in their power and influence that has been evidenced since 1922.

In considering the transition from war communism to the NEP we should mention the controversy that arose in government, party, and trade union concerning the role of the unions under the new regime. Trotsky and a certain element in the unions fought to keep them a part of the government apparatus. Trotsky himself, while president of the War Council, had issued orders to the First Revolutionary Labor Army, as it was called in January, 1920. He saw no reason why the unions should not continue to be at the beck and call of the government. Lenin, on the other hand, seeing the conflicts implicit in the economic regime about to be introduced, advocated the management of the industries by the technical men appointed by the state trusts. The unions, he argued, would have their hands full for a while, at least, defending the interests of the workers both against bureaucracy in the trusts and exploitation by the private "Nepmen." He contended that the socialist state would not be built overnight, that even the "Red Director" under the new economic plan would naturally give his first thought to making a success of his particular enterprise. The unions should therefore be independent of governmental machinery and devote their primary attention to guarding the workers' interests as workers. This position was set forth clearly in December, 1921, in a statement prepared by a commission of which Lenin was a member. It said:

> "On the Trade Union, in relation to socialized concerns, rests the absolute duty to safeguard the interests of the workers, to assist in every way possible the improvement of the material conditions, and constantly to rectify the faults and exaggerations of economic bodies in so far as they proceed from a bureaucratic perversion of the machinery of the state."

Expressed in another way:

> "The chief task of the trade unions is, from now onward, to safeguard at all times in every possible way the class interests of the proletariat in its struggle with capitalism. This task should be openly given prominence. Trade union machinery must be correspondingly reconstructed, reshaped and made complete—there should be organized conflict commissions, strike funds, mutual aid funds, and so on."

This was the policy at the beginning of the NEP, and it is still the essential policy of the Russian unions. The remarkable economic development of the country since that date, and the growth in the unions, has not materially modified it.

Correction

Stefan Radic was yesterday referred to in the columns of THE DAILY WORKER as premier of Jugo-Slavia. This is an error. Stefan Radic is a leader of the Parliamentary opposition and one of the leaders of the Croatian Peasant Party.

KENOSHA STRIKE GRATEFUL FOR THE DAILY WORKER; WANTS ALL DAY MASS PICKETING

By a Woman Worker Correspondent

KENOSHA, Wis. (By mail).—I certainly appreciate your paper and the splendid write-ups it gives to our strike in Kenosha. We are putting up a hard fight but we are handicapped because our leaders will not organize mass picketing throughout the whole day and because there are a number of unskilled workers at work whom our leaders have not called out on strike.

Personally, I am getting tired of the way this strike is being conducted and hope we get some real, courageous, militant leaders who would pursue militant tactics in the strike. I agree with the bulletins given out by the "Young Workers League" calling upon the leaders to call out the rest of the Allen-A workers. Since the strike began, I notice the open-shop Allen-A Co. is increasing the number of its scabs. About 50 machines are parked on the company grounds which the scabs use to drive in to and from work and I should judge there are over 250 [illegible]. I am sure that with mass picketing we could have [illegible] many from getting in. We must demand of [illegible] real action instead of talk.

—[illegible]

Check Off Union Dues from Expelled Miners' Pay, Correspondent Discloses

WHOLE LOCAL IS THROWN OUT FOR OPPOSING LEWIS

Coal Barons Help Tools Get Money

(By a Worker Correspondent.)

BELLEVILLE, Ill. (By mail). —Time and again cases have been cited about the activity of the Lewis machine in squandering and pocketing the money of the rank and file in the miners' union. I do not, however, believe that such an incident as the following has ever been witnessed before.

In O'Fallon, Ill., Local 705 was expelled from the United Mine Workers of America because they refused to accept the expulsion of their president, Luke Coffey and other militants in the local. Their charters was revoked and now the machine is trying to reorganize the local.

The men of this expelled local are at work and since being expelled they have no connection with the U. M. W. of A. Despite this the machine pulled one of the most brazen acts when the miners received their pay this week. One of the machine men, Dick Taylor went to the company and took the checkoff from the expelled members.

The statement of James McKenna, one of the expelled members, affords an interesting picture of how they have proceeded. McKenna works for the Perry Coal Co., St. Ellen mine. His pay statement shows a weekly earning of $40.20. Further down the statement reads, $1.00 dues, $2.00 special assessment, percentage off $1.20, making a total reduction from his wage of $4.20, leaving his weekly earnings at $36.00.

The audacity of the machine has never gone so far before. When McKenna went to the company superintendent to ask why this checkoff was made since he is no more a member of the miners' union, having been expelled, the sup replied that Dick Taylor had instructions to collect a checkoff from every miner working.

Such cases can be cited at will where the machine continually pockets these huge checkoffs from the rank and file miners who have been out of work for many months.

This only leads to more dissatisfaction among the miners with their corrupt officials and lends further indictment against these fakirs.

—ALBERT GLOTZER.

Reading Cigar Factory Cuts Wages to $14

READING, Pa., (F.P.)—Yocum's cigar factory has cut journeymen's wages to $14 a week and less thru short time and arbitrary rejection of cigars. As high as 35 per cent of the men's output is "rejected." These cigars nevertheless are sold and the men cheated of their just wages.

How Fall River Mill Workers Put Over Fast One

POLICE STOP MEETING OF TEXTILE WORKERS

WHY

BECAUSE THE MILL OWNERS OF FALL RIVER AND NEW BEDFORD ARE AFRAID THAT A

REAL UNION WILL BE ORGANIZED

AND

A FIGHT FOR THE RESTORATION OF THE 10% WAGE CUT WILL FOLLOW

THEY ARE RIGHT

THE WORKERS WILL ORGANIZE AND THE WORKERS WILL FIGHT

EVEN AS THE NEW BEDFORD WORKERS ARE DOING

Watch For Our Next Meeting

Above is the reproduction of a handbill issued to the Fall River textile workers by representatives of the Textile Mills Committee. Enraged and alarmed that at last a real militant organization, the Textile Mills Committee, has appeared to lead the exploited textile workers to victory against their masters, the Fall River mill owners had the police stop a meeting called by the T. M. C. Working all night, the members of the Fall River Textile Mills Committee wrote and printed the above call to the textile workers. The police were amazed in the morning, as the mill workers eagerly read the leaflet.

Workers Injured in Allentown Explosion

ALLENTOWN, Pa., June 21.—A brilliant flare in the sky, accompanied by an ear-splitting blast and seven of the 10 dynamite drying houses of the Trojan Powder Co. about 10 miles northwest of this city exploded early today.

Four night watchmen, the only employes reported on the reservation have been accounted for. One of them, however, Alfred Frittinger, was hurled several feet, being dazed and shocked, but otherwise uinjured.

Claiming Innocence, Man Assails Rosalsky

John Boylan, 27 years old, yesterday leaped for the bench of Judge Otto Rosalsky, labor hating judge who last year sentenced many militant furriers to long terms in prison, when the latter pronounced a life sentence on him for having stolen $390 from a garage, a crime that Boylan claimed he had not committed.

"You're a murderer! You're sending an innocent man to prison for life, and you know it," he shouted. Policemen in the court stopped him, beating him into unconsciousness before he gave up struggling.

RELIGIOUS DOPE IS BOSSES' FOOD FOR UNEMPLOYED

Used Revivals Against Dakota Farmers

(By a Worker Correspondent)

CHICAGO, Ill. (By mail).—Whenever there is industrial depression in the country, the great tribe of preachers and peddlers of every kind of religious bunk are always to be found working overtime.

This is no accident but is part of a settled policy of the ruling class to confuse the minds of the workers, to draw their attention to "god" and thereby help them to forget the real cause of their hard times.

In Chicago, at the present time, we witness no end of revivals, visits of nationally known evangelists and the radio programs loaded to the limit with every kind of religious propaganda, even to the extent of broadcasting it with loudspeakers near the parks where people are compelled to listen to it.

Having personally witnessed a lot of the bunk I want to describe what I saw happen in North Dakota at the time of the industrial depression of 1920-21 and when the Non-Partisan League was at the height of its power and was proving a real worry to the financial bosses dominating that state and the country.

I was at Wimbledon, N. D., during the winter of 1920-21 and a presbyterian revivalist came with a company of singers and started a series of revival meetings around Christmas.

It was well advertised and altho the feeling between the farmers and business men was not very good then, they flocked from far and near to hear the "great man."

He had a magnetic personality and put the call to Jesus over so well that a great many people of various denominations were "converted." He never failed to emphasize the need of money for his great work and, when he left, it was found out that the drought-stricken, hail-struck, deflated farmers had contributed over $700 for this preacher.

He was careful in his sermons to remain neutral on political subjects but he was no sooner gone than the converts began attending churches of their own choice where the big business-minded preachers without exception preached every Sunday the rankest capitalist propaganda. "Harmony" was the watchword of the hour.

When I travelled and studied conditions in the rest of the state in the spring I found that such revivals had been held in many other places.

"Harmony."

At Wimbledon a men's club was formed "for the purpose of bringing into harmony" the businessmen and the farmers. It helped a lot in making the farmers forget for a while and play into the hands of the old gang.

Not long after the Merchants' and Farmers' Bank in Wimbledon, the farmer-controlled bank, was compelled to close its doors thru pressure from the Twin City interests. The christian big boys came from the big towns and forced the now christian farmer stockholders to give them 51 percent of the stock before they would consent to have the bank re-opened.

Farmers who had never known a mortgage were compelled in some cases to mortgage even their furniture in order to save their interest in the bank. As the farmers were for the time very much under the spell of religion there was not such an outcry as there surely would have been a year earlier.

The Triumph of Religion.

The way things turned out in North Dakota the farmers were finally "harmonized" so completely and with so much assistance from "god's" churches that they gave up their splendid struggle for better conditions and became once more reconciled to let big business dominate the life of the state.

Today they have a "non-partisan" governor who announced when he started serving his term that he desired "harmony" and there is plenty of "harmony" in North Dakota today. But there is no justice for the great masses of exploited and small farmers and workers.

Governor Sorlie has kept his word!

—N. D.

EDITOR'S NOTE—The Worker Correspondent who sent us the above letter is the author of the excellent letter on conditions in the Bunge Coal Co. of Chicago which appeared in the Worker Correspondence of The DAILY WORKER a few days ago. He has not lived in North Dakota for some time, however, and while the above letter will be quickly recognized as a thoroughly good account of how American business interests deputize their hangers-on in the religious institutions to smother revolt among the workers and farmers wherever it appears, we believe that the author overstates the success which the bosses have in this work. Far from giving up their "splendid struggle," the poor farmers of the Dakotas are today carrying on with greater spirit than ever before.

NEW YORK SEAMEN AID GERMAN CREW IN BIG PROTEST

International Club Arranges Meeting

(By a Worker Correspondent)

A remarkable example of working-class solidarity was shown by the crew of the German steamship "Tirpitz," of the Hamburg-American line, when the vessel arrived in New York.

The ship captain offered the crew of 26 one dollar each for "carefare while in port." The seamen refused this, as the captain did not give them 10 percent of their wages, to which they are entitled to under the German maritime law.

However, conscious of the fact that the law was made by capitalist ship owners for the purpose of legally enslaving them, the sailors organized a mass meeting of all German seamen in the port of New York, under the auspices of the "International Seamen's Club." Four hundred seamen attended, comprising the crews of the steamships "Stuttgart," "Hamburg," "Tirpitz," and "Berlin," as well as seamen from American vessels.

Seaman W. Muller of the S. S. Tirpitz, was the speaker. His address was greeted with rounds of applause. Following him many other good speakers took the floor. Seaman "John Doe" of the International Seamen's Club acted as chairman.

A resolution was adopted pledging support to militant organization for American seamen in their fight for a higher standard of living on the sea and for a new maritime law which will be favorable to the men who go down to the sea in ships.

JOHN STANLEY MORGAN.

DROUGHT IN PALESTINE

PALESTINE, (By mail).—There is expected to be a serious crop shortage as the result of the drought. In a number of cases portions of the crops were saved by irrigation.

Ninety-seven Dollar Art--- And Worth the Money

Two artists evidently discussed art and the movies and got an idea. It is likely they did not have any money. Which is not strange among artists—as well as among workers. But they dressed their idea with some knowledge of art, added a sense of humor, spiced it with a bit of satire and turned it into a movie which they made in a kitchen. They probably borrowed the money for the film and other necessities. It was worth it. The result, called "The Suicide of a Hollywood Extra," being shown this week at the Cameo Theatre, would shame some of the movie producers into going back to the clothing business—if they had any shame.

The sets of the picture made of card-board and whatnot, become modern phantastic glimpses of hectic New York; at times they are Hollywood, the depths of the sea, a rooming house . . . even heaven. And why not? This is a gay little satire on a modern, futuristic background. It pokes fun at the movies, the mechanical production of stars and (even tho only half-seriously) the exploitation of the movie-struck extra. And thru it all one senses the dynamic speed of the life we live.

There's nothing great about this very short picture. But it's mighty clever. The possibilities it opens for the comparatively inexpensive production of artistic movies is revealing. The sets, the photography and the acting are excellent. The characters, like characters from "R. U. R." are acted by Jules Raucourt (Hollywood Extra No. 9415) and Voya Georges (the female extra). Their speech even is mechanical, their jaws working like the bill of a mechanical duck. It fits beautifully into the grotesque scheme of the whole.

"The Suicide of a Hollywood Extra," directed by Robert Florey and S. Vorkapitch, is more than a jolly experiment. It has intelligence and a sensitive artistic feeling in the story, photography and settings. It is shown this week at the Cameo as an addition to a program which includes "The Station Master," a Sovkino production with Ivan Moskvin of the Moscow Art Theatre, and "The Adventurer," with Charlie Chaplin. And it is by far the best thing on the program. Which is saying a lot.

ADMISSION 50c.

Communist Unity and the 1928 Election

By SIDNEY BLOOMFIELD.

Our national nominating convention was the dynamite with which to blast our membership into election campaign activity. The attendance of about 400 regular and fraternal delegates, the peculiar "American" election campaign and revolutionary working-class spirit pervading the convention atmosphere showed that at least the active elements in the districts were on the march.

This convention spirit must not be confined merely to the delegates or permitted to evaporate. This spirit must grip every individual who holds a party card. Every delegate as well as the party functionaries must be part of the gigantic apparatus that will muster the entire party membership for this important struggle. The election campaign must be conducted by the entire mass of party members, not by the leaders alone.

Struggle in Unions.

In the various campaigns conducted by the party such as the miners' struggle, the fight in the needle trades, etc., certain elements became more actively engaged in that work that seemed to them of most importance. Such sectional activity is somewhat similar to the decrepit system of craft unionism and has no place in the Communist movement. Communist parliamentary campaigns are conducted with the purpose of generalizing, uniting and broadening the isolated, local and sectional struggles of the working class thus politicalizing and developing the class-consciousness of the workers.

As the class struggle sharpens Communist participation in the election campaigns become more significant and of as tremendous importance as a huge general strike that rocks the very foundations of capitalist society. In the recent election campaigns in France, Germany and Poland the Communist parties rallied such huge mass support that the capitalists of the respective countries became terror-stricken and regarded the Communist victories with the same horror as a successful general strike. The advantages gained by our participation in the election struggles can be utilized for the further organization of the masses for greater victories.

Gains in Poland.

Jewish, Polish, Russian and Ukrainian workers participated in the election campaigns in Poland. German and French workers participate in the campaigns in their respective lands. The same is true of other countries where the workers vote. The notion that only native and popular comrades are ordained to conduct the election campaigns in this country and that the foreign-born and the "humble" rank and filer is not worthy of participation is a fallacy that must be stamped out. This inferiority-complex possessed by many foreign-born workers is the result of the persecution of these workers by the capitalist class. Like Negro disfranchisement and segregation this blight can be overcome only by increased participation of the foreign-born and Negro workers in the election campaigns.

The Communist Party will break down such artificial barriers. The right and the duty to do Communist work is the right and the duty of every worker. Even sympathetic individuals and organizations as well as the working class women, youth and children must be drawn into the Communist election campaign.

CHICAGO PLANS WORKING CLASS CHILDREN'S CAMP

Organizations Hold Big Conference

A successful camp conference was held on June 1st, for the purpose of organizing a huge working-class children's camp. Quite a number of fraternal organizations were present at this conference, including the Chicago Federation of Working Women's Organizations, Chicago Council of Housewives, Lithuanian and Finnish Clubs, Russian Mutual Aid Society, Workman Circle Branches, various Parents' Councils, the Young Workers (Communist) League, the Young Pioneers of America, and quite a few others.

Many plans were introduced as to how we could make this the biggest and best camp we've ever had. This will be the fourth camp of its kind in this district, and it will take in hundreds of working-class children for a period of two weeks each.

One of the important proposals brought up by some of the delegates was that of including in this year's camp children taken from the coal fields of Southern Illinois. This was taken up very enthusiastically by all the delegates present, and plans are already being made to bring groups of miners' children to the camp.

An executive committee was elected where the detailed work of the camp will be discussed.

In Chicago, where we have to combat the influence of 10,000 Boy Scouts, [illegible] to speak of the camps of the Y. [illegible] C. A. and others of like character, we are going to have quite a job on our hands to counteract all this anti-workingclass propaganda. However, with the plans outlined, at least a goodly portion of the working-class children here will have an opportunity to go to a camp and get a real working-class training, besides, of course, a splendid vacation.

REVEAL POWER TRUST POISON

Documents Show Wide-Spread Propaganda

(Continued from Page One)

propaganda was unfolded before the Federal Trade Commission today in lurid terms that put fiction to the blush.

At every point it was confirmed by official documents subpoenaed from files of power propagandists and by sworn testimony.

J. B. Sheridan of St. Louis, whose letters indicated that for nearly five years he had been at war with himself over the methods of the men he served, supplied both the documents and testimony. At the end of two hours his face was strained, his voice had dropped almost to a whisper, and he appeared on the verge of a breakdown.

In the subpoenaed letters and reports Sheridan demanded that Carl D. Thompson, a famous Chatauqua speaker who advocated public ownership of utilities, be "annihilated," and set powerful machinery of money and influence in motion to bring that about.

He acclaimed a project promoted by E. C. Deal of the Electric Bond and Share Company, never before disclosed, to seize control of the Boy Scout movement of the country and build up among the citizens-to-be a "friendly attitude" toward the power interests and their methods.

He circulated through his Missouri utility propaganda bureau a pamphlet which taught thousands of school children that the great electric power, light, and street car companies were owned by "widows and orphans."

He rejected openly and flatly the notion he and other power propagandists spent hundreds of thousands to spread from end to end of the country the thought that the man who favors municipal or state ownership of a utility enterprise is a "Bolshevik."

In letters subsequently taken from Sheridan's files, "lying, trimming, faking and downright evasion of trust" were attributed to "some of the so-called big men in the industry" with whom Colton had been working.

Sheridan testified that the movement to brand all those who disagreed with the utility leaders as "Bolsheviks" was launched at a utility men's meeting in New York last year.

Plan Excursion of Phila. Young Workers

PHILADELPHIA, Pa., June 21.—An excursion arranged for the benefit of The Young Worker, official publication of the Young Workers (Communist) League, will take place on July 7. Boats will leave the piers from Front and Chestnut Sts., at 8 a. m., 10 a. m., and 2 p. m. Tickets should be bought in advance at the headquarters of the League at 1214 Spring Garden St.

Amundsen and Crew Believed Lost in Arctic

Flying to the Arctic wastes in an effort to rescue Nobile and his crew, Capt. Roald Amundsen, famous Arctic explorer, and four of his companions are now believed to be lost. Photo shows the four men who accompanied Amundsen. They are, left to right, Gilbert Brazy, mechanic; Emile Valette, radio operator; Commandant Rene Guilbaud, pilot; and Naval Lieutenant Albert Cuverville.

TAILORS LOCKED OUT, BETRAYED

Hillman Is Jeered as Local Meeting

In the midst of the graft disclosures now being laid bare in the New York Joint Board of the Amalgamated Clothing Workers Union, two significant events have taken place in the last two days. One is a lockout of the childrens' jacket makers; the other is the latest demand of the employers that piece work be permitted even in the shops of the contractors.

When the workers in the childrens' jacket manufacturing industry came to work Tuesday morning, they were informed by their employers that they were locked out until the leaders of the Amalgamated Clothing Workers Union here gave them permission to make a general reduction in wages. This, they said, was due them because the union officials had allowed wage cuts in all other crafts of the industry.

"Piece Work For Contractors"

The representatives of the New York Clothing Manufacturers' Exchange yesterday made a demand at the conferences for a new agreement—that Hillman and the other leaders of the corrupted Amalgamated, grant the contractors of the large manufacturers the privileges of introducing the sweat-shop system of piece-work. The union officials had voluntarily granted this hated system of production to the larger bosses despite the vehement opposition of the entire membership.

As a result of the lockout another section of the membership of the Amalgamated, according to the sentiment bitterly expressed by many tailors, yesterday, now have the opportunity to enjoy the fruits of the policy of the graft system's leaders, in allowing bosses, individually and collectively to put over wage cuts and other such privileges — for a "consideration."

Jeer Hillman.

This, and far franker sentiments were expressed at a meeting of the locked-out workers held Tuesday night, and which also went on record as having greeted the entrance of their President Hillman with jeers and catcalls. At this meeting, rank and filers openly declared that not only was it the bosses who were responsible for the lockout, but also the machine in control of the union here, which has granted boss after boss permission to reduce the workers' wages.

Where is was too difficult to put over a wage cut, or too obviously a sell-out, the graft ring, members charge, would see to it that a lockout was made. In this manner the officials would receive less blame for capitulating to the bosses' demand for a wage reduction.

Know of Graft.

As to the demand of the employers' agents at the negotiations for a new contract, workers in discussions see themselves "between the devil and the deep sea." Even if Hillman will not grant the bosses' demand for piece work in the contractors' shops, they argue, they will get that permission individually. In support of this, they refer to the statements made public yesterday that Hillman knows of the fact that there are agents of the graft ring already on the payroll of the bosses' associations and individual firms who want piece work privileges.

GUARD "PROBE" OF ELECTION FRAUD

Lawyer Beaten Up in Chicago Inquiry

CHICAGO, June 21.—Extra guards were provided today for prosecutors, witnesses and members of the special grand jury conducting a so-called investigation into crime and election frauds, following an attack last night on Attorney Samuel Epstein, connected with the prosecution.

Epstein was set upon and slugged by gangsters in the very shadow of the criminal court building, where the special grand jury is in session.

The sluggers attempted to seize important memoranda dealing, it is said, with evidence in connection with the pre-election murder of "Diamond Joe" Esposito, a Deneen political worker. The attorney's papers also included a list of men who are to be indicted, it was said.

TWO MORE CLOAK SHOPS ON STRIKE

Cloak Picket Arrested; Held in $500 Bail

The newly inaugurated offensive of the cloak and dressmakers for the re-establishment of a union over the heads of the Sigman crew gathers momentum daily, as more shops are declared on strike by the left wing Joint Board Cloakmakers' Union. In addition to the two already tied up by strikes, the Classy Cloak Company, 553 Eighth Ave., and the Coat Craft Company, 247 W. 37th St., were also declared on strike.

At the buildings where all these shops are located, large picket lines marched back and forth despite the concentration of police who have made many arrests. The other two shops are Shapiro and Sons, 1333 Broadway, and Dressler and Freedman, 104 W. 27th St.

J. Benkal, a cloakmaker, was arrested while picketing the latter shop. He was later freed on $500 bail pending trial in the Jefferson Market Court later.

The Classy Cloak Co. had locked out its entire shop of 40 workers, in an effort to escape Joint Board control. The Coat Craft Co. had discharged eight workers for refusal to register in the Sigman scab union.

The Joint Board appeals to all workers, realizing the necessity for struggle in order to regain the union standards destroyed by the right wing and the employers, to join in the picketing of the shops this morning.

25 EDUCATORS TO LEAVE FOR USSR

Dr. Scott Assertion Is Branded "Nonsense"

Twenty-five American educators will sail this Saturday for the Soviet Union where they will spend the summer studying its educational institutions and methods. They will go to Gothenburg, Sweden, and then proceed to Leningrad by rail. Prof. John Dewey of Columbia University is chairman of the delegation which is making the visit under the auspices of the American Society for Cultural Relations with the U. S. S. R.

The society last night, thru its secretary Lucy G. Branham, characterized as "utter nonsense" the statement by Dr. Walter Dill Scott, president of Northwestern University, that he declined to join the delegation because he felt he would be expected to praise the Soviet Union.

CONVICT WEALTHY BROKER IN FRAUD

Percy Jay Fuller, wealthy stock broker, and promoter of schemes to place Grand Duke Cyril on "his rightful throne in Russia" and of making gasoline from garbage, is reported to have been taken to the Bellevue hospital last night in a "serious condition," a few hours after he had been convicted by a jury in federal court on all four counts of an indictment charging the use of the mails to defraud.

His private physicians announced that he was "suffering from gastritis and convulsions." Doubt, however, was expressed by several of his victims, who habe become rather skeptical of these sudden illnesses that invariably attack wealthy criminals after they have been convicted.

Boss of Tammany Grafters on Trial

John M. Phillips, so-called Queens "sewer pipe king," is scheduled to go on trial in the Brooklyn federal court today on indictments charging income tax evasions. The government claims Phillips owes $746,957.51 taxes on his income for the years 1924, 1925 and 1926.

Woman Found Dead in Tub of Boiling Water

Mrs. Catharine Cabell, 40 years old was found dead in a bathtub filled with boiling water in a room adjoining her own in the Manhattan House apartment hotel, 137 Hicks St., Brooklyn, yesterday morning.

McGRADY OUSTS "BLOC" LEADERS OF FUR WORKERS

4 Thugs Who Attacked Militant Released

Isidor Winnick, business agent, and J. Strauss, L. Elster and A. Abramowitz, delegates to the right wing Joint Council of the International Furriers' Union, have been suspended as officials by the McGrady clique in control of the Joint Council for sponsoring a "mass caucus" held Tuesday night in Webster Hall. At the mass meeting the four had aligned themselves with the masses of fur workers who are demanding the re-establishment of one union in the trade.

To Ignore "Suspension."

The suspended officials had predicted at the mass caucus meeting that the "Forward" clique in power at the Joint Council would in all probability take steps to get rid of them because they brought into the open the factional struggle they have been carrying on for many months. Winnick is also a vice president of the international union.

The belief prevalent is that the suspended functionaries of the McGrady union will refuse to recognize their suspension on the grounds of illegality, and will insist upon their right to hold their offices.

* * *

Four Thugs Released.

Four of the six thugs employed by the right wing Joint Council, who were on trial in General Sessions, Part 6, for knifing Meyer Fineman, a fur worker, had the charges against them quashed by Judge Collins before the case went to the jury. The trial of "Big Alex" Fried, ex-burglar and A. F. of L. agent in the destructive attacks against the furriers' union, and Harry Plitt, Fried's assistant in assaults on workers, is to be continued today.

Fried spent a few uncomfortable moments on the witness stand yesterday, when he was compelled to admit under cross-examination that he had served three years and six months in prison for burglarizing a jewelry store in Boston. Otherwise he came well provided with witnesses as to his "good character." Harry Weckstein and M. Bader of Bader and Eisenberg, fur manufacturers, obligingly testified to that. Two cloak manufacturers came to testify that the eye-witnesses of Fried's brutal assault were "mistaken." They said that Fried was in their shop at the time, making a "loan" of $100.

POSTPONE CASES OF TWO STUDENTS

Both Are Members of Young Workers League

The cases of Jonas Schiffman, 13 years old, of 84 East 137th St., and Nathan R. Adler, 19 years old, of 1204 Moynton Ave., the Bronx, both of whom are members of the Young Workers (Communist) League, were postponed yesterday by Magistrate Stern, of the Morrisania Court. They were arrested last Friday in a demonstration held on the campus of the College of the City of New York to protest against the expulsion of Simon W. Gerson, member of the Young Workers (Communist) League, president of the Social Problems Club of the college, and leader for several years in the fight against military training in the college. Magistrate Stern said that the court decision concerning their guilt, had not yet been "arrived at." The youths are both former students of the college.

The actual reason for their arrests was that both of them were members of the Young Workers (Communist) League and carried placards during the protest meeting calling upon the students to fight the teaching of imperialism in the schools. The "official" charge against them, as made by Professor Frederick Skene, one of the most persistent jingoes of the City College Faculty, is disorderly conduct, and the fact that they took part in the demonstration on the campus when they were not enrolled as students in the school.

SHOE WORKERS TO HOLD UNITY MEET

A general membership meeting of all organizations that participated in the shoe workers' unity conference, will be held tomorrow at 8 p. m. at Lorraine Hall, 790-792 Broadway, Brooklyn.

The unity conference, which consists of many shoe organizations and groups, including the Shoe Workers Protective Union, locals 53 and 54; Associated Shoe and Slipper Workers of Greater New York; Boot and Shoe Workers' Union; Children's Shoe Workers' Union; Lasters and Woodheelers' Group; and the Unity Committee, which is made up of a shop crew, has successfully completed its organizational preparations.

WORKERS CALENDAR

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

* * *

Grand Rapids I. L. D.

GRAND RAPIDS, Mich.—The International Labor Defense of this city will hold a "Free Tom Mooney and Warren Billings" Picnic on June 24, at the United Workers' Co-operative Camp, 6 miles past Bostwick Lake on M-44. Those who go are advised to watch for the signs directing them to the place.

* * *

Paperhangers of Boston.

BOSTON.—The Paperhangers' Union, local 258, will inaugurate a campaign for new members to extend over a period of 3 months, June, July and August. The initiation fee has been reduced from $100 to $25. The local calls upon all organized paperhangers of the city and vicinity to join the union and help to organize the non-union workers. The local union meets at the district council headquarters, corner Washington and Dover Sts., Boston.

* * *

District Y. W. L. Anniversary.

BOSTON.—District 1 will hold a truck party and picnic Sunday, June 24, at Vanikens farm, Cushing St., Hingham.

* * *

Pittsburgh District Picnic.

CLAIM THOMPSON TOOK CITY MONEY

CHICAGO, June 20.—Mayor William "Big Bill" Thompson, ardent patriot and leader of the Chicago swindling gang that for all the years of his administration has been robbing the workers of Chicago, was yesterday ordered, together with two of his gang associates, George F. Harding, city treasurer, Michael J. Flaherty, and other lesser gangsters, to return to the city the sum of $1,732,279.23, swindled from the city during the Thompson administration.

It is charged that this sum was paid in fees to real estate "experts" under the first Thompson administration.

D. A. R. Jingoes Try 2 Insurgent Members

WASHINGTON, June 21.—Mrs Helen Tufts Bailie of Boston, and Mrs. Mary P. Macfarland, of Mountain Lakes, N. J., members of the Daughters of the American Revolution, were on trial before the National Board of Management of that organization today, on charges of "conduct disturbing the memory of the society."

Nineteen members preferred the charges, signed by Mrs. George Thacher Guernsey, honorary president general and others. They are based on pamphlets and speeches of the two in which they protested against the D. A. R. blacklist of speakers, supplied to the organization by Fred Marvin, notorious labor baiter.

Hunt Lawyer in Probe In Ambulance Chasing

Efforts were being made yesterday to learn the whereabouts of Frank Rosenblum, a lawyer, whose office is at 5 Beekman St., revealed as the attorney to whom a number of doctors have been referring negligence cases in the ambulance-chasing inquiry. He is wanted for examination in the inquiry conducted by supreme court Justice Wasservogel.

MINERS' RELIEF WEEK JUNE 30

All Labor to Take Part in Big Drive

New York workers are mobilizing their forces for the most intense drive for funds conducted by the National Miners' Relief Committee,—to wind up with mass collection days on June 30 and July 1.

In answer to a brief and urgent telegram from the Pittsburgh strike area, the National Miners Relief Committee of 799 Broadway is spurring its activities for the National Miners Relief Week of June 25th to July 1st. Special literature is being printed for circularization among shop workers, calling on them to organize shop committees for miners' relief to take wekly collections in the shop.

On Saturday and Sunday, June 30 and July 1, thousands of workers in New York will finecomb the city with collection boxes and solicit money for miners' relief and for the defense fund of the Mineola prisoners, under the auspices of the National Miners' Relief Committee and the Joint Defense Committee. The proceeds of the two-day special drive will be divided between the two committees—75 percent to the Miners' Relief and 25 percent to the Joint Defense.

Fired, Kills Son and Chokes Self With Gas

NEWARK, N. J. June 20. — Mrs. Florence Wilson, of 252 Summer Ave., Newark, is in a critical condition at the Newark City Hospital and her 8-year old son, Leonard, is dead today as a result of gas poisoning.

The boy died on the way to the hospital. It is believed Mrs. Wilson became despondent because she was discharged yesterday from her position as waitress in a Newark restaurant.

TAMMANY DODGES GRAFT CONTRACT AS PROBE IS OFF

"Investigator" Again Postpones Hearing

The expected attempt to cover up the details of the $16,000,000 "bargain" contract with the Brooklyn Ash Removal Company took place yesterday before Commissioner of Accounts James A. Higgins, who is doing the "white-washing" act for Mayor Jimmie Walker.

In the so-called investigation which has already been postponed three times, everything depends upon how nearly the real nature of the contract is disclosed. Commissioner Higgins yesterday again let it be known that the contract would receive his attention "in the near future."

Tammany Breaks Ranks.

The contract was opposed by Aldermanic President McKee when it came before the Board of Estimate last spring and for reasons of his own he has sought to separate himself from the several millions of graft which the Tammany politicians are said to have put over in this instance.

Controller Berry, who has been holding up $300,000 of payments due the company in the terms of the contract with the city yesterday announced that the amounts had been paid and that he had become satisfied with the terms of the contract. Just what brought about this unusual expression of confidence at this moment was not indicated.

Under the terms of the contract, which became operative on April 1, the Brooklyn Ash Removal Company is to build three incinerators at a cost of $1,000,000. These will be subject to recapture by the city on expiration of the five-year contract and payment by the city of seventy-five per cent of the original cost—that is, if by that time legal action does not prevent.

When it was developed through evidence taken at Commissioner of Accounts Higgins' open hearings that work on these disposal plants had not been begun, Comptroller Berry held up payment of $260,000 due on last year's contract and approximately $40,000 due for work performed this year.

Brooklyn Mine Relief Conference Monday

Many organizations of Brighton Beach, Coney Island and other sections of South Brooklyn will hold a joint conference to decide on activities for the striking miners' relief, Monday, June 25, at 1373 43rd St.,

CHICAGO WORKERS!
"FREEDOM FOR MOONEY AND BILLINGS"
PICNIC
At ZAHORA'S GROVE, Ogden and Custer Avenues, Lyons, Ill.
SUNDAY, JUNE 24th, 1928
Come out and have a jolly good time with the friends of Labor Defense. Grove opens at 12 noon.— Refreshments — Games — Contests — Prizes — Dancing. — CARL HAESSLER, Editor Federated Press, will speak on "Mooney and Billings and Centralia Cases."
How to get there: Ogden Ave. car to end of line. Take bus or walk half mile west to Grove.
AUSPICES: LOCAL CHICAGO, INTERNATIONAL LABOR DEFENSE.

Red--- White TERROR
Nicolai Krylenko explains the nature of White Guard terror as opposed to working-class revolutionary terror in the light of ten years' experience of the Russian revolution.

Death of Chang Tso Lin

Chang Tso Lin started out as a simple chief of an armed band of thieves and cut-throats, living by the petty gains of sacking villages, stealing cattle and looting shops. But Chang Tso Lin learned the way to the larger opportunities of the trade of banditry and murder. Imperialism has better use for Pershings, Joffres, Hindenburgs and Chang Tso Lins than to let them waste their talents on stealing chickens.

Chang Tso Lin, the bandit, became Chang Tso Lin the warlord; the cut-throat became the "civilizer," the looter became the "savior of China from Communism" on the pay-roll of more than one imperialist foreign power.

The revolutionary masses of China will rejoice that this murderer is dead. But the masses of China must not think that the passing of this defeated general out of the picture will greatly affect the situation. There are still the "gentlemen-bandits," Messrs. Chiang Kai-shek, Fu Tso-yi and other ex-nationalists, who rule, pillage and murder the Chinese people for the pay of the imperialist foreigners.

Chinese workers and peasants, with the support of international working class, must strengthen their own iron batallions, and must build up the influence and leadership of their Communist Party—these being the only means of driving the imperialists and their hired bandit-generals into the sea.

Speak Easy, Mr. Mack

Norman E. Mack, democratic national committeeman of Buffalo, talked too much.

He said:

> **"Take the Province of Ontario in Canada, for instance. Millions of dollars have been spent in that province by American people, principally for liquor. The people in the states of Michigan, Ohio, Indiana, Illinois and New York spend a great part of their time and money imbibing the liquors so easily obtained in Canada in the various provinces. It is absolutely criminal for this country to lose the tremendous amount of money to foreign nations simply because of prohibition....**
>
> **"Governor Smith believes that if any state desires a certain alcoholic content of beverage, that state has the right to determine that content."**

Of course this is a true picture of the mind of a very large section of the smaller business men in the democratic party. That's just the trouble. Mack ought to know better, just before a party convention in which success can be measured by the skill used in lying to the masses.

Mack is "repudiated" by Al Smith's campaign manager for telling the world in outright plain English what Al Smith is hinting to his prospective followers in the lower layers of the capitalist class. Many of the latter are against prohibition for exactly the reason that Mack gave, but in this capitalist society anti-prohibition views must be handled on the "speak-easy" plan, just as prohibition whisky is handled.

But whatever impression Smith is boot-legging around to the effect that his election would mean an end to the spree which the official gunmen and graft-taking bureaucracy of Volsteadism are enjoying, the fact is that Smith, if elected, will do just exactly the same thing in regard to prohibition that Hoover would. Smith's personal views cut very little ice for this high-ball. His political actions would be precisely those actions dictated by his masters, the big business and banking interests of the country, who are also Hoover's masters.

Big employers, and consequently the dominant stratum of the ruling class, are for prohibition because it aids them in the exploitation of labor. Capital wants to control the personal lives of the workers, so that they will be more efficient slaves.

Al Smith wants votes, so he speaks for the petty business class, but he will do what big capital wants him to do when it comes to acts.

The working class should, of course, fight against alcoholism. But intelligent workers cannot support the attempts of capitalism to foster upon them an even greater control over their lives, and certainly not the attempt to govern their actions during the few hours outside the slave-pens of the bosses. The workers should fight against the maintenance of the piratical crew of spies, gunmen, grafters and petty tyrants which constitutes the prohibition enforcement arm of government.

Railro d Workers Decrease

The railroads reported fewer workers in every department in March than they had on their payrolls in March, 1927, according to the monthly wage statistics of the interstate commerce commission. Every department of railroad work also showed a reduction compared with a year ago in the average number of hours per working day.

March marks the regular annual expansion of railroad working forces, particularly in the maintenance of way department. This year the carriers took on 18,036 additional men, of whom 14,610 were maintenance of way workers. The only other important increase over February was 2,686 train and engine service workers added to the payrolls.

The commission reports 1,626,907 workers employed by class 1 railroads in March, compared with 1,730,661 in March 1927 and 1,816,479 in March 1923. Railroad workers have been reduced 104,254 or 6 percent in the last year and 190,072 or more than 10 percent in the last five years.

During March the railroads paid $237,634,118 in wages, compared with $249,655,580 in March 1927 and $255,447,764 in March 1923. In the course of five years speedup tactics have reduced the spending power of railroad workers as a group $17,813,646 or about 7 percent.

As a result of the speeding up the railroads reduced the average number of freight carmen from 91,694 in 1924 to 80,026 in 1927 in spite of considerable increase in traffic. This is typical throughout the industry, particularly in shop work. More production with fewer workers is the rule in railroading as in manufacture.

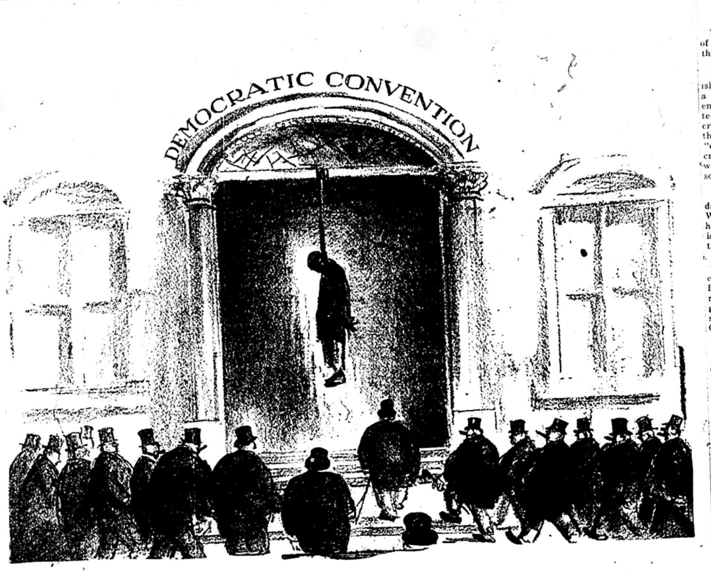
By Fred Ellis



Foster's Acceptance Speech

(Continued From Previous Issue.)

THE CRISIS IN THE LABOR MOVEMENT.

In this situation the reactionary trade union leaders have proved themselves absolutely incapable of organizing and leading the masses. They refuse to fight the bosses. Their aim is to become the industrial drivers of the bosses, to speed up the workers. Their aim is to company-unionize the trade unions of the United States, and to become the personnel managers of the employers. Under the leadership of this reactionary bureaucracy the trade union movement of the United States, built by seventy years of bitter struggles by the workers, is being gradually destroyed.

Now it is not too much to say that under the combined efforts of the employers' offensive and the leaders' treachery, the American trade union movement is in a death crisis. It is in danger of being either wiped out completely or so deeply degenerated in the direction of company unionism as to be of no value to the workers. Loss of members, loss of militancy, loss of control in strategic industries, restriction of the unions to skilled workers—this is the experience of the American trade union movement. With its antiquated structure, craft policies and reactionary leaders, the trade union movement is unable to stand in the face of the great open shop attack by trustified capital. The craft union movement, hopelessly antiquated, is slated for destruction.

Reactionary Labor Leaders.

As the trade union movement goes more deeply into the crisis we find that the trade union leaders turn more and more to the right. The latest example of this policy, fatal to the development of organization amongst the workers, fatal to a successful defense of the workers' standards of living, was the surrender of the Street Carmen's Union to the Mitten Plan of Philadelphia. Here was a direct amalgamation of trade unionism and company unionism. Such is the program of the American Federation of Labor [illegible] the conservative independent unions. It is the ideal of the misleaders of labor. This is their fondest desire—to bring about an agreement with the capitalists so that the trade union leaders can turn the trade unions into company unions and use them as instruments for the exploitation of the workers. Then, although the interests of the workers would be sacrificed, the group interests of the labor bureaucracy would be conserved.

In Coal Industry.

Another example of policy which I may briefly cite to indicate the general tendency of the labor leaders to the right, is what is taken place in the coal industry. John L. Lewis has several points in his program. One was that instead of a militant campaign to organize the unorganized miners in West Virginia, he demanded the removal of the railroad rate discrimination in favor of the West Virginia mines against the mines in the Pittsburgh district. This, he declared, would win the strike and solve the union's problems. But now this rate discrimination has been abolished and who have been the gainers—the Pittsburgh Coal Company and the other big coal companies in the Pittsburgh district who are fighting the miners. That first point of Lewis' was capitalist in character.

Lewis has a second point in his program, equally capitalistic. This is that the industry shall be monopolized, the "uneconomic" mines closed down and 250,000 surplus miners driven out of the industry. Now we seem to be on the way also to have this point accomplished. The recent announcement by the Rockefeller interests that they will close down many of their "uneconomic" mines and turn loose into the surfeited labor market the surplus miners from the shut-down mines, is the beginning of the acceptance of the second proposal of John L. Lewis. In fact, Rockefeller publicly thanks Lewis for his assistance to the capitalists in monopolizing the industry.

Who will profit by such a procedure? Will the miners gain by it or the coal operators? It does not require much analysis to show which. What will happen in the Rockefeller properties and in the other districts where similar plans may be put into effect? The operation of the "uneconomic" mines, so-called, constitutes a sort of division of work amongst the great body of miners. What work there is is spread over most of the workers. But now the proposal is to throw large numbers of these miners into unemployment altogether and to give the others relatively steady work. The displaced miners will be thrust into the great army of the unemployed, there to starve. They have that alternative. Or, they may try to stay in the industry and compete with the workers who have jobs and in this way serve as an industrial reserve army to break down the conditions of the miners as a whole.

Lewis Is Bosses' Man.

Lewis, instead of organizing the unorganized miners and making a fight to establish the 6 hour day, 5 day week, and thus to re-absorb the unemployed miners and to protect their interests during the impending reorganization and trustification of the coal industry, acts as an efficiency expert of the operators by cooperating with them to close down the uneconomic mines at the expense of the miners. His policy sacrifices the interests of the workers and protects those of the capitalists. The whole thing is an open shop proposal. It means more economy in production, elimination of competitors, and hence more profits for the employers. It means starvation for hundreds of thousands of miners, the breakdown of wage and working standards, and the ruin of the U. M. W. A. It is such policies as this, with the union leaders acting as the agents of the bosses, that are liquidating the unions.

The socialist trade union leaders are proving themselves as reactionary as the old A. F. of L. leadership. In fact they are often taking the lead in the movement to the right, of surrender to the employers. The standards of production of Sidney Hillman were among the first signs of real company unionism in the American labor movement. It was the socialist trade union leaders in the needle trades who intensified the struggle against the left wing in the unions to the extent of splitting the organizations. In the needle trades they are the champions of piece work, of a "union management cooperative") and the whole employer program of devitalizing and company-unionizing the trade unions. The socialists are every bit as incapable of leading the workers in this crisis as the most reactionary fakers of the American labor movement.

The Struggle of the Coal Miners.

The debacle now taking place in the United Mine Workers of America is a basic expression of the crisis in the labor movement, a conclusive example of the absolutely incapacity of the present leadership of the trade unions to organize and lead the masses. The U. M. W. A., which just a few years ago controlled 80 per cent of production in the bituminous fields, has been reduced by the loss of district after district, to where it now controls not more than 20 per cent of the bituminous production. In the present strike the employers are destroying three of the key sections of the U. M. W. A. and thereby destroying the base of the whole union. All the heroic struggles of these miners have not been able to avail them against the treachery of their leaders in the face of this great attack by the employers. The present miners' strike is the most important strike in the history of America. Bound up with this strike is the very life of the old trade union movement. The breakdown of the miners' union in this struggle throws the whole trade union movement of the country into jeopardy.

It is not my point here today to dwell upon the heroic struggle of these miners, as it has been very much discussed during this convention. The rank and file miners seem to realize the tremendous significance of the strike. They have fought for 14 months against the coal operators, against the government, with a heroism unparalleled. One of the things, comrades, that we must do with all our vigor when we return to our various districts, is to mobilize all our forces to gather every possible dollar of relief for the brave coal miners of the strike districts. This relief money we must not send to the American Federation of Labor or to the U. M. W. A. where it would be used for the shameful purpose of paying the huge salaries of John L. Lewis and his labor grafter friends (which run to $12,000 a year) while the striking miners starve. Send it to the National Miners' Relief Committee in Pittsburgh which will use the money for actually feeding the impoverished miners who are out on strike. (Applause.)

The hope and promise of the coal industry is the growing revolt of the rank and file miners. More and more they are learning the futility of Lewis' policies, and realizing that such policies can only lead to the loss of their union conditions and the liquidation of all union organization. The Save-the-Union movement, with its historic slogans of "Lewis must go" and "Workers, Take Control of Your Union," is the greatest upheaval ever known in the American labor movement. From among the ruins of the U. M. W. A. wrecked by the treachery of the Lewis regime, the rank and file miners are building a new organization, one which, animated by a spirit of class struggle, will organize the great mass of miners and lead them victoriously against the operators. Our Party may well be proud of the role played by it in the present great struggle of the miners. (Applause.)

The present great task of our Party is to organize the millions of unorganized workers and lead them in struggle against the employers and the state. With ever larger numbers of unskilled and semi-skilled workers developing more militant moods, under the pressure of wage cuts, speed-up, etc., the possibilities for mass organization and mass struggles become brighter. In the strikes of the workers in the coal, textile, needle, shoe and other industries during the recent period, our Party has played a central role. No big strikes take place now in the United States without the Communists taking a decisive part. But in the still bigger struggles not far ahead our Party will have to play an even more decisive role.

The organization of the unorganized, the unification of the great masses of unorganized exploited workers, is our basic task in the industrial work and we must further that task with all our forces. Some may ask why it is that during a political campaign we talk about organizing the unorganized. This is because our Party is not merely a Party of vote-getters. It is a revolutionary Party of struggle. It organizes the workers for the fight on every front. It is especially in the election campaign when we have the ear of many thousands of workers that we must drive home to them the fundamental necessity of building great mass organizations in the industries.

More than ever it becomes necessary for us to take the lead in the formation of new unions in the industries. The old unions have been wiped out of many industries and have become hopelessly decrepit in many more. The reactionary leaders will not organize the unorganized. This is the task of the left wing. We must not limit ourselves to the old unions. We must be the champions, the leaders in the formation of new unions among the unorganized industries. Here we must place the great emphasis of our efforts to organize the unorganized.

But does this mean that we shall desert the old trade unions? By no means. The Communists will never surrender the control of 3,000,000 organized workers to the reactionary leadership of the A. F. of L. (applause.) We will fight to save, to build up, and to revolutionize all those trade unions which possess a mass character and real vitality. We will give active support to the TUEL and to all kinds of left opposition movements in these organizations aiming to revolutionize them.

The present situation teaches us this: the old trade unionism is going. American imperialism with its monopolized, highly mechanized industry, mass production, speed-up system, company unionism, open shop drive and ruthless use of state power, is too much for traditional craft unionism. The old unionism is being crushed and liquidated. A new and more revolutionary unionism is being born. It will be industrial in form and founded principally on the semi-skilled and unskilled in the trustified industries. It is a basic task of our Party to lead in the foundation of this new unionism.

(To Be Continued.)

HANdOuTS

GEMS OF LEARNING

The newspapers put the acquittal of Stewart on the front page as though it were news.

* * *

The apt attention which the British House of Commons pays to getting a food supply for the millions of unemployed is indicated by its keen interest in the debate on the new Prayer Book. The evangelical position on the proposed changes is that they "encourage adoration of the consecrated bread." What the jobless are worrying about is, where they can get some.

* * *

Philadelphia was described yesterday as a "workingman's paradise" by William H. Taylor. This judge of heavenly conditions for workingmen is President of the Philadelphia Electric company.

* * *

Golfers and other proletarian readers of the Milwaukee Leader, Victor Berger's socialist paper, should get a real thrill out of this editorial paragraph: "You no longer hear vocal sympathy for the horny-handed. Golfers don't need any sympathy."

* * *

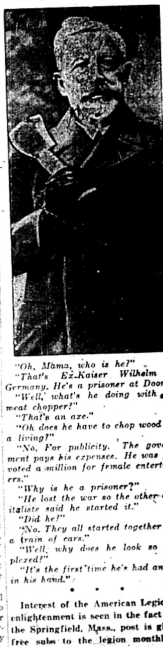
Slight lack of confidence in the American workers' ability to resist Communist ideas is indicated by the Providence Journal which ends up a 500-word editorial on the Workers (Communist) Party with the sentence, "The Workers Party will do well if it polls as many votes as it did in 1924. It does not deserve to do even as well as that for it is based on the attempted transfer of Russian revolutionary ideas to this side of the world where there ought to be no congenial soil for them."

* * *

Working class organizations shou not fail to snap up the bargain advertised in the following note from the Kiwanis Magazine: "The International Committee on Kiwanis education has prepared a splendid set of slides of the activities of Kiwanis. Accompanying them is an interesting and informative lecture. Slides and lectures are obtainable without cost except postage from Chicago and return."

* * *

Thinks He's Working



"Oh, Mama, who is he?"

"That's Ex-Kaiser Wilhelm of Germany. He's a prisoner at Doorn."

"Well, what's he doing with the meat chopper?"

"That's an axe."

"Oh does he have to chop wood for a living?"

"No. For publicity. The government pays his expenses. He was just voted a million for female entertainers."

"Why is he a prisoner?"

"He lost the war so the other capitalists said he started it."

"Did he?"

"No. They all started together like a train of cars."

"Well, why does he look so perplexed?"

"It's the first time he's had an axe in his hand."

* * *

Interest of the American Legion in enlightenment is seen in the fact that the Springfield, Mass., post is giving free subs to the legion monthly to ministers, judges, clubs and fraternal organizations.

* * *

Self-hypnotism of some American editors is shown by this sentence from an ad for the Scripps-Howard newspapers carried in a New York magazine: "Their editors listen to no commands." The real ruler of the press, however, is suggested by the last word of the sentence which followed: "And their readers form what is perhaps the most closely-knit and responsive body of buyers available to the advertiser."

* * *

It is difficult to tell whether Cal Coolidge's movement is progressio or retrogression. He has just bee elected honorary president of the senior class at Amherst college. If this keeps up he will soon be monito in a school for boys and a little late someone will hand him a bottle with a rubber nipple.

MASSACHUSETTS JUDGES JAIL MILL STRIKE LEADERS

BARRICADES UP IN STREETS OF CROATIAN CITY

Troops Kill 4, Wound 43 in Fighting

VIENNA, June 22.—Street fighting, with the erection of barricades, followed the attempt of the enraged crowds to storm the Italian consulate at Zagreb yesterday as a result of the shooting of Stefan Raditch by a government deputy, dispatches from Belgrade report.

A violent outbreak of political fighting in which four persons were killed and 43 seriously wounded occurred at Zagreb. The outbreak resulted after the assassination of two Croatian peasant deputies in parliament at Belgrade on Wednesday, Paul Raditch and George Basaritch.

The bodies of the slain deputies arrived at Agram this morning and were received by a huge crowd, said a dispatch from Belgrade. The burial will take place on Saturday.

The Croatian (opposition) newspaper Noosti, published at Agram, charges that the assassinations "resulted from the plotting of a corrupt clique at Belgrade who sought to do away with the strongest leaders of the campaign for political independence for the Croatians."

This newspaper demands that separate and independent states be created for the Croats, Slovenes and Serbs. At the present time all these states are part of the Jugo-Slavian kingdom.

NEED FUNDS TO SECURE "DAILY"

All Groups of Workers Reached by Paper

That The DAILY WORKER is reaching workers in all parts of the country and in all trades is evident from the letters that have been received from militant workers in answer to the Daily's appeal for funds. The letters also show that The DAILY WORKER is not the paper of any particular section of the workingclass, but of all the workers, skilled and unskilled, employed and unemployed, native and foreign-born.

The results of the campaign for $10,000 to save The DAILY WORKER also shows that the most savagely exploited workers those that feel most intensely the brutality and oppression of the capitalist system are the readiest to come to its aid in time of need.

Striking Miner's Letter.

A striking miner of Dilonvale, O., writes as follows:

Dear Brothers:

I have read in the last few days that our paper is in very grave danger of going out of existence. It would be a very great blow to the workers of this country. I wish that all the workers would rally to save their only fighting paper. You know how long we have been on strike, so I cannot afford to send much. I am sending $2. I am 19 years of age and know that there is a great fight before us. For this reason The DAILY WORKER must be saved, because it is a very effective weapon.

JAME JURSIK.

But not only among the miners, who are waging such a determined fight for a new and stronger union.

(Continued on Page Two)

FEDERALS ROUT REACTIONARIES

MEXICO CITY, June 22.—Ten Federal soldiers and 21 counter-revolutionary soldiers led by Pedroza, Y Vega, a priest, were killed Wednes- in an eight-hour battle near La [illegible] in the state of Jalisco, according to Guadalajara dispatches to Excelsior.

The battle, in which 300 federal troops took part, was described as one of the hardest fought of the two years of warfare against the catholic hierarchy in the state of Jalisco.

Thirty Federal soldiers were wounded in the battle, while the number of counter-revolutionaries wounded could not be determined.

Will Speak in Chicago

Ben Gitlow, vice-presidential candidate of the Workers (Communist) Party, will be the principal speaker at a campaign rally and picnic arranged in Chicago for July 4.

ELECTION RALLY AT CHICAGO PICNIC

Affair on July 4 Will Mobilize Workers

CHICAGO, June 22.—Preparations are rapidly going forward for making the great campaign rally and red picnic, to be held here July 4, the occasion for mobilizing all the militant workers of Chicago around the slogans and candidates of the Workers (Communist) Party.

The rally and picnic which will be held at Chernauskas Grove, 79th and Archer Aves., will mark the launching of the election drive in this district on an intensive scale, with all the campaign machinery put in motion for reaching every section of the workingclass.

Ben Gitlow, candidate of the Workers Party for vice-president, will be the chief speaker at the affair. Delegations from a large number of sympathetic organizations, including Chinese, Mexican, Philippine and Negro groups, will greet Gitlow. Max Bedacht, Workers Party candidate for U. S. Senator from Illinois, will act as chairman.

CONFESSION IN TEXAS LYNCHING

First Attempt to Hang Powell Failed

HOUSTON, Tex., June 22.—A voluntary statement was made today to the authorities here by A. B. Wheeler of this city confessing that he was one of the group which kidnapped Robert Powell, 24-year-old Negro from the Jefferson Davis Hospital and lynched him about eight miles from Houston Wednesday night.

The young Negro was dragged from a cot where he lay dying following an exchange of shots with A. W. Davis, a local detective.

Wheeler said that the first attempt to hang Powell failed when he struck the ground. He said the victim was lifted back on the bridge after the rope was shortened and pushed off a second time.

While Wheeler named six others as members of the lynching party, he "discreetly" refrained from revealing the identity of the one or more policemen, who, it is generally suspected here, took part in the hanging of the young Negro.

Feeling of irritation at the untimely lynching of Powell, due to the nearness of the democratic national convention, is still evident in several of the democratic newspapers. It is expected that indictments against Wheeler and the other participants will be sought by the district attorney in order to make convincing the pretended wrath of some of the Houston citizenry.

FLOOD WATERS DROPPING

KANSAS CITY, Mo., June 22.—Rivers which flooded lowland areas in southern Kansas and Oklahoma earlier this week were reported dropping today. Kansas wheat farmers have started threshing despite territorial rains.

LINDBERGH FLIES FAST

DETROIT, June 22.—Charles Lindbergh took off in his Ryan monoplane here late last night and flew east, his destination unnamed. He hopped off unaccompanied. It is believed that he is headed for New York.

Begin Fight to Free Strike Leaders From Army Jail

INCREASED FARE SCHEDULE FILED BY SURFACE LINE

Al Smith Is Connected With Move

The New York traction trust and its ring of supporting politicians yesterday opened fire on a new front in its war for an increased fare. News that the Third Avenue Railroad Company, the company which is controlled by Wm. F. Kenny, principal contributor to Al Smith's campaign fund, golf-partner and old crony of the Tammany governor, has filed a schedule for a seven-cent fare was announced by the New York State Transit Commission at noon.

Immediately securities of all lines in the city soared on the stock market in anticipation of the coming fare increase and in the confidence, apparently, that the Tammany Hall presidential aspirant was agreeable to the move.

Other Companies To Follow.

The Third Avenue Railroad Company filed the new schedule on behalf of the Dry Dock, East Broadway and Battery Railroad, one of its subsidiaries. The new schedules call for a seven-cent fare beginning with July 24. It is known that the move by the Third Avenue Company is a preliminary to a city-wide filing of similar schedules by other lines.

The company has followed the precedent set by the Interborough Rapid Transit Company which last February filed its seven-cent fare schedules for an increased fare later granted by the federal statutory court and finally taken to the supreme court for final decision in October. The same claim for the increase, a plea that the present fares are "confiscatory," is known to be at the basis of the new demands. Whether or not the increase will be granted will be decided at a meeting of the New York Transit Commission next Wednesday, it was announced by James B. Walker, secretary to the Commission.

Smith Owned By Traction

The New York traction trust to which the whole Tammany administration in the city, the republican controlled legislature at Albany and particularly Al Smith are known to have sold out is planning for its final campaign to secure an increased fare and put over its so-called unification plan which will undoubtedly cost the workers hundreds of millions of dollars. The plan is scheduled to reach its climax immediately after the coming election.

It is known that the whole scheme was due to have been put over late in 1926 except that a temporary conflict between the B. M. T. and the

Fourteen Killed in Swedish Train Wreck

STOCKHOLM, Sweden, June 22.—Fourteen people were killed late today when the Northern Express was wrecked near Bolinas. Two locomotives were overturned and four coaches telescoped.

The dead included the engineer and the fireman of the express train.

COURTS OBLIGE BOSS

In order to avoid paying the charges for a $1,000 bail bond Nathan Ressler, who is out on bail for a year under charges of burning his fur dressing factory in order to get insurance, requested yesterday in Supreme Court and was granted permission to reduce his bail to $10,000. Fur strike pickets recently were held on as high as $25,000 bail for walking up and down a sidewalk.

Returns to U. S. S. R.

MAXIM GORKY

Maxim Gorki Is Acclaimed in the USSR

(Special to The DAILY WORKER.)

MOSCOW, June 22.—"Alexi Maximitch, do not go back to Sorrento, we will create here for you the necessary conditions for rest and work."

This is the plea addressed to Maxim Gorki, Soviet Russia's favorite writer, by thousands of workers here.

Following an absence of over six years due to illness, Gorki returned to the U. S. S. R. and has received universal acclaim.

Beloved by millions of workers here not only for his great artistic works, but also for his consistent loyalty to the first Workers' and Peasants' Republic, Gorki has been showered with the highest honors in the possession of the Soviet government and the U. S. S. R. trade unions.

The progress of Gorki's special train from the frontier was a triumphal parade, with tens of thousands shouting their affection. The reception in Moscow was a fitting climax. Bucharin for the All-Union Communist Party and Anatole Lunacharsky for the government were in the forefront, and beyond them a waving, hurrahing mass of workers.

"A few more days like this," Gorki told a convention of railroad workers next day, "and I fear I shall die of joy."

Gorki's appearance anywhere, the mere rumor that he might be in a place, is the signal for crowds and more crowds.

25 EDUCATORS GO TO U. S. S. R.

To Study School Methods in Workers' Republic

The first American educational delegation to visit the Soviet Union will sail this noon on the "Drottningholm" for a Swedish port. It includes twenty-five of the most prominent educators and writers on education in America, and will be under the general leadership of Dr. John Dewey, of Columbia University, who is already in Leningrad.

The delegation will make a study of the new educational system of the Soviet Union at the personal invitation of Lunacharsky, Commissar of Education, and under the auspices of the American Society for Cultural Relations with Russia. It is entirely unofficial, members paying their own expenses through Russia, according Miss Lucy Branham, secretary of the society which organized it.

The itinerary of the delegation provides for a two-weeks' stay in Moscow and vicinity, five days in Leningrad,

LAUNCH HABEAS CORPUS STRUGGLE TO FREE PORTER

League Statement Calls on Workers' Aid

Preparations were made today for one of the greatest campaigns in the American labor movement to force the release of John Porter, the textile strike leader who was arrested early this week in New Bedford by the military authorities.

It is expected that Porter will be brought to trial before a court-martial of army officers within a short time because of his desertion from the army last year after realizing the role of capitalist militarism against the labor movement.

No reliance will be placed on the "justice" of courts-martial, and it is realized that mass protests of the workers is the only force which can make the War Department set Porter at liberty.

The Young Workers (Communist) League, of which Porter is an active organizer, has announced that it will conduct a nation-wide drive for the textile striker, and that huge protest meetings will be held in cities throughout the country. Also, all labor organizations are called upon to join in the campaign. Workers are requested to send resolutions and letters and telegrams of protest to the War Department demanding the immediate release of Porter, who is a military prisoner as a result of his textile strike.
participation in the New Bedford

The International Labor Defense is preparing the legal defense of Porter and will participate actively in the drive to obtain his freedom.

. . . . Habeas Corpus . . . .

The first legal step in the case is an application for writ of habeas corpus, as the constitutional right of the prisoner to be released on bail is being denied.

It is the rule of the army to hold prisoners without bail, but this illegal custom will be challenged in the drive for Porter.

• • •

In a call issued today by the National Executive Committee of the Young Workers (Communist) League, all workers organizations are called upon to join the fight for the release of John Porter.

The statement follows:

The arrest of John Porter, a textile strike leader and organizer of the Young Workers (Communist) League, is a challenge to the workers and especially to the youth of America. It is the beginning of the intensive use of the army for the purpose for which it is intended—the suppression of strikes and all efforts against the exploiting class.

"As the class struggle becomes more acute the dictatorship of capitalism is forced to throw off the mask of democracy and use armed force to keep the masses enslaved. Young workers are being led into the army and navy, and the "Citizens Military Training Camps" where they are not only taught how to kill in the interest of their masters but also are subjected to patriotic propaganda with the purpose of keeping their minds blind to their role against their own class.

"The use of the military authorities in the textile strike after the civil government had failed to force the strikers back to work shows the immediate menace of militarism, and the court-martial of Porter is a challenge which the young workers in particular must take up.

"The Young Workers (Communist) League, the vanguard of the militant young workers of America, calls on all workers and labor organizations to

BRING ON THE "PROSPERITY," PLEASE

Two Can't Live on Pay of One in Carolina Cotton Mill Village

By ESTHER LOWELL.

HILLSBORO, N. C. (FP), June 22.—Two people can't live on the pay of one in the cotton mill village of Eno, adjoining Hillsboro, N. C. At least one old couple has made that finding. The old man, still upstanding and strong from generations of farmer stock, has only $7 left in his pay envelope after the rent money is taken out.

True the rent is low, as his wife **says, 56 cents a week for their two-**room house. That's 25 cents a room plus a few cents for electric light. And unlike some companies, the Eno mill lets its workers use lights or current for ironing at any time of day or night.

Wife in Mill

Since short-time has come, several months ago, the wife has gone into the mill. While her husband works in the shipping room she irons down selvage edges and earns, when she **gets a full day's work, $2.10. Last** week she had only two days work. They work 10½ hours a day and only four days a week now. They fear the mill will "stand" for a whole week at July Fourth, cutting off their meagre earnings entirely.

The woman spoke of having to see a doctor. When asked if the company didn't supply one, or at least a nurse, she answered:

"No, the company don't give you nothing, except your pay, and not

(Continued on Page Two)

Textile Leader Jailed

William T. Murdoch, leader of the Textile Mills Committee of New Bedford, Mass., which is conducting the struggle of the 28,000 textile workers against the mill bosses, must serve a sentence of two months imposed upon him recently. This is the verdict announced yesterday by the Massachusetts Superior Court. Murdoch, jailed constantly since the strike began, was arrested on the customary charge of "disorderly conduct" when conducting a huge picket line in front of one of the mills.

MINE FAMILIES FACE DISASTER

Cave-ins Take Toll of Many Lives

SCRANTON, Pa., (F.P.).—Only the miner fights death beneath the surface in hard coal mines. But above his entire family may be entombed with barely more than a second's warning in one of the many cave-ins that make life exciting in Scranton. Large parts of the city cover abandoned mine workings.

Three families rushed to the street when a cave-in threatened to demolish their house within a stone's throw of the 1925 disaster when five persons were killed. Last year a boy was killed near the same spot when a foundation wall toppled over on him, due to the sinking of the earth. The other day, while working near the site of the latest cave-in, a miner in his garden would have been sucked into the earth had he not clung to a fence. A large pothole suddenly appeared.

• • •

WILKES-BARRE, Pa. (FP).—What a whale of a difference a few experts make. Engineers employed by the country assessor found powerful Glen Alden's coal lands to be worth $8,000,000. Experts employed by Glen Alden's "modestly" deprecated this figure and said the lands were worth but a paltry $2,000,000—so far as taxation is concerned.

Glen Alden and other companies make dummy sales of coal lands at nominal prices in order to establish low values for the county assessor, judges were told.

KENOSHA BOSSES ASK FOR TROOPS

Bosses Frantic as Mill Strike Gains

KENOSHA, Wis., June 22.—The open shop Nash Motor Company's flunkeys, who are the city and county authorities here, yesterday sent a demand to Governor Zimmerman that he immediately send State troops to Kenosha to crush the bitter six-month-old strike being conducted by the full-fashioned hosiery knitters of the Allen, A. Company.

Meanwhile fifty deputies have been added to the sheriff's force, after seeing that the things hired and heavily armed by the open shop interests here, were being fearlessly fought by the strikers.

Many strikers have been brutally slugged and even shot by the hirelings of the Allen-A mill owners, but in spite of this and additional elaborate strike-breaking machinery, such as anti-strike injunctions, the workers militant struggle is forcing the bosses to resort to desperate measures. **Tens of thousands of workers in other trades have participated in demonstrations of sympathy.**

MURDOCH GETS 2 MONTHS; BEAL, 11 OTHERS ON TRIAL

1,200 Strikers Picket Wamsutta Mills

BOSTON, June 22.—**A special meeting of the National Textile Mill Committees will be held this coming Sunday afternoon at 8 p. m., 38 Causeway Street, here for the purpose of considering the immediate steps to be taken in the textile industry.**

This meeting will issue a call for the immediate national organization of all textile workers.

The heroic struggle of the 26,000 textile workers in New Bedford, the growing restlessness of the workers in Fall River, the feelings of the workers in Rhode Island, in Paterson, Passaic and the other textile centers all demand that national action be taken and immediately for the formation of a national organization.

• • •

NEW BEDFORD, Mass., June 22.—With a cynical brutality surpassed only by their own colleagues in the state, the Massachusetts judges presiding in the Superior Court here, set about doing the bidding of the mill barons by jailing all the militant leaders of the strike of 28,000 textile workers here.

William T. Murdoch, secretary of the New Bedford Textile Workers Union, the local unit of the Textile Mills Committee, was sentenced to serve two months in jail when he lost his appeal from the decisions of the lower courts. His was the first of the 13 appeal cases to come before the Superior Court, and the undisguised viciousness of the court makes it apparent that all other appeals will meet the same fate.

The case of Fred E. Beal, Textile Mills Committee organizer, is the next to be heard. Nearly all the appellants have additional sentences to serve for leading the picket lines and

(Continued on Page Two)

WEAVERS IN FALL RIVER ON STRIKE

Average Wage of $12.50 Causes Walk Out

FALL RIVER, Mass., June 22.—With weavers of certain cloths in the Flint Mills here getting an average of $12.50 a week, and the refusal of the mill owners to discuss the wage question with the officialdom of the United Textile Workers Union, with whom they have an agreement, the 125 weavers in the plant walked out on strike yesterday, and demanded a raise in wages.

The action of these workers can be used as a guage of the sentiment ment among the 25,000 workers in Fall River, who were compelled to suffer several wage slashes in the last year. During recent months the American Federation of Labor union and the independent reactionary union have exerted all their power in preventing the workers in joining the New Bedford general strike, the two cities being almost adjoining. Strike votes have been stolen, police have been used to prevent meetings and other activities of the Textile Mills Committee from bringing out the workers in a struggle for the attainment of livable conditions. All this, however did not succeed in driving out the T. M. C.

Call Meet to Discuss Proposed Auto Merger

A powerful corporation with assets approximating $160,000,000 will be established with the proposed member of the Studebaker and Pierce-Arrow Motor Car Co., it was stated yesterday.

Lewis-Fishwick Machine Moves to Force Illinois Miners Back to Work

OFFICIALS URGE REVISED SCALE; NEW AGREEMENT

History of Betrayal Is Pictured

(Special to The DAILY WORKER.)

HERRIN, Ill., June 22.—What is seen as a back to work move inspired by the Illinois operators acting together with the Lewis-Fishwick machine, is the demand made public yesterday of the officials of the local mine union for "a release from the present policy pursued by the administration of John L. Lewis, international president" in the matter of the existing wage scale.

The resolution condemns the present day wage basis for mechanical mining devises for the coal miners of the state and demands that a contract on a tonnage basis shall be set up. It also demands that the policy committee be assembled with the object of releasing the Illinois district from the present "agreement." The machine pretends the miners who are employed are operating under the Jacksonville scale, but actually the pay is much less.

There appears to be no doubt that the move is to be used by Lewis as a means of abandoning even the semblance of continuing the strike and to throw the blame on the miners themselves.

The Lewis-Fishwick machine was recently ousted from the control of the organization and the union taken over by a rank and file district convention at which George Voyzey, militant mine leader was chosen president.

* * *

SPRINGFIELD, Ill., June 22. — Increased activities are manifest amongst the Illinois rank and file coal miners in their struggle for control of the local unions, while the old Fishwick administration is more openly coming out for wage cuts. This represents two lines of activities heading for definite and decisive clash. They have been expressed in the special sub-district conference held by the rank and file members, on the one side, and on the other by the recent meeting held by the district executive board, sub-district officials and scale committee of the Fishwick administration held at the American Annex Hotel in St. Louis, Mo.

The special sub-district conventions held gave particular attention to organizing for the coming elections, and to take over all offices down to the local unions.

Wide Representation.

The first convention held in the Staunton sub-district had a representation of forty-six delegates coming from nine local unions representing thirteen mines. The next special convention was held in the Belleville sub-district with thirty-nine delegates present. The third convention of the Franklin county sub-district held at Christopher, Illinois, had a total of seventy-two delegates present. Similar special conventions are being held in all the rest of the sub-districts.

At the meeting of all the officials of the Fishwick administration about one hundred being present, the whole desperate situation of this officialdom became apparent. Trained in treason to the working class, but now having reached a point where the movement which will finally eliminate them has grown by leaps and bounds, they are falling out amongst themselves. A serious break is developing between the Fishwick administration and the national Lewis administration.

Fishwick Opens.

At this meeting held by all these deposed Illinois officials at the American annex hotel in St. Louis, Mo., Mr. Fishwick opened by calling for reports on the situation in the various sub-districts. The reports made were uniform in character: "Only a fraction of the men working, none of whom are on full time; great dissatisfaction amongst the rank and file miners bordering on open rebellion. The Save-the-Union movement is everywhere." This was the gist of the report made.

Like chickens without a head they were going around in circles. They did not seem to have great fears of the wage cuts threatened by the operators, but they did fear this movement. In fact the only remedy they could offer to save themselves and their salaries was to accept the wage cut.

"But", said one official, "Kentucky will further reduce wages; then wages will be so low that high dues will be impossible, and salaries could not be paid."

The policy of uncompromising fight side by side with the Pennsylvania and Ohio strikers was never mentioned. These old traitors had no solution for the problem. In saving the union they had no actual interest except insofar as their own salaries were concerned. They could, of course, as "respectable" fakers consider any of the real solutions for the union's existence proposed by the Save-the-Union Committee.

Operator's Step.

This meeting marked one further step of the campaign of the Peabody Coal Company for a wage reduction in the Illinois coal fields. Both the campaign as well as the policies of this meeting were directed by Fishwick's old friend and fellow traitor Frank Farrington, who is on the Peabody Coal Company's payroll drawing $25,000 a year. The meeting showed only one definite action, namely to call upon Lewis to call the national policy committee together "to draw up a uniform scale for Illinois."

Meanwhile the installment of loading machines, mechanical devices in every Illinois mine of any size is creating a constant problem for the coal miner and increasing the deepgoing dissatisfaction, whereas previously loaders could load not more than twelve tons of coal a day. One of the big loading machines in the southern Illinois mine, operated by nine men, is now capable of loading a total of 423 tons a day. This means 47 tons per man for which they receive a wage of $8.40, while the Jacksonville scale called for a tonnage rate of $1.08 a ton. Thus, the loading machine means a drastic wage cut, and hence displacement of labor power and consequently increasing the great unemployment.

The coal miners are tired of a union which does nothing whatever to solve these problems, but merely retaliates upon the militants by mass expulsions. 137 progressives were recently expelled in the Belleville sub-district, 22 in the Springfield sub-district. These are some of the reasons that the fight of the rank and file members led by the militants for complete control of the union is constantly gaining in volume.

LABOR IS CHEAP ON SIXTH AVENUE

Thousands of High School, College Graduates on Slave Market

By FEDERATED PRESS.

STEP right up, Mr. Boss! Take your choice here from thousands of eager youngsters, fresh from high school. $12 too much? Well, here's a bright young kid, well dressed too, polite and with a fine diploma in his hand. $9 a week. The kid will pay me his first week's salary. Next, please.

SO it goes on the New York office slave market, where practical employers are selecting the cream of high school graduating classes to train into clerks, salesmen and minor executives. Plenty of bookkeepers and typists for $12 to $18. Experienced office workers are knocked down for $20 to $25. With thousands milling about the employment offices, they grab eagerly at $20.

UNIVERSITY graduates are also in demand along the Sixth Ave. market. $20 is enough to bring a horde of likely-looking young fellows fresh from the campus and ready to work late at night down in Wall St., keeping up with the avalanche of stock market speculation. Brokers dangle indefinite bonuses to "reward" them for extra labors.

"Boy Wanted;" a Jobless Army Answers Advt.

SEVERAL hundred young boys stood outside of 80 E. 11th St. yesterday morning and fought to get to the entrance. Police appeared and after shaking up several of the boys, they were formed into a line stretching around Broadway.

An ad inserted in a morning newspaper by the Eureka Leather Goods Co., of 80 E. 11th St., asking for an office-boy, had brought down this army of unemployed boys, some of them out of jobs for months, many in shabby, bedraggled clothes, others looking as if they had hardly entered their teens—all of them after one job.

One of them got the job. He was momentarily happy. The others went away, downcast, discouraged, to beg again at the doorsteps of the bosses for a few crumbs of the Coolidge "prosperity."

TEACHERS LEAVE TODAY FOR USSR

Dewey Heads Delegation of 25 Educators

(Continued from Page One)

ten days in Odessa, and four days in Constantinople. Some of the members plan a general survey of the entire system, and others will make special investigations of their own, Miss Branham said. American educational experiments and practices, many of them initiated by members of the present delegation, have been widely adopted in Russia, she pointed out.

The delegation will land at Rothenburg, Sweden, and proceed to Leningrad by rail, where it will be met by Dr. Dewey, Dr. Stephen P. Duggan, Lucy Textor, and Dr. and Mrs. J. McKeen Cattell, who went to Russia last month.

The members of the delegation are: John Dewey, Columbia; J. McKeen Cattell, Lotus D. Coffman, president University of Minnesota; Donald J. Cowling, president of Carlton College; Evelyn Dewey; Dr. Stephen Duggan, Institute of International Education; Fola La Follette, City and Country School; Robert H. Gault, professor of psychology, Northwestern University; Mary L. Hinsdale, professor, Grand Rapids College, Michigan; Florence Holbrook, University of Chicago; Parke R. Kolbe, president, Brooklyn Polytechnic Institution.

Joshua Kunitz, College of the City of New York; Kenneth G. Matheson, president, Drexel Institute; James K. Norris, Massachusetts Institute of Technology; George D. Olds, president emeritus, Amherst College; Kurt E. Richter, New York University; Emily A. Stein, James Monroe High School, New York; Lucy Textor, Vassar College.

Thomas Woody, University of Pensylvania; Katherine D. Blake, former president of the Principals' Association; Lucy Gwynne Branham, Secretary American Society for Cultural Relations; John Barry, special writer.

EDITORS BRIBED BY TENNESSEE POWER BARONS

Schools Flooded With Publicity

WASHINGTON, June 22.—The complete cooperation that exists between the power trust and the press was once more established when it was revealed today that Hugh Doak, president of the Tennessee Press Association and editor of the Manchester Times, is in charge of all the publicity of the Tennessee power Newbern, who assists Doak in the trust. This was revealed by Guy P. work, in his testmiony before the federal trade commission.

Newbern also charged that a system of polite bribery is used by the power interests to secure newspaper publicity. An average of $18,000 a year is spent on publicity by the Tennessee trust, he said, and a large portion of this goes to entertain editors at luncheons and dinners.

A total of 21,246 news columns and 4,644 editorial columns has been obtained by the power interests since November, 1927, Newbern stated. Most of this material was supplied by the trust itself thru its publicity department.

Newbern also said that propaganda pamphlets supplied by the National Electric Light Association had been distributed in the schools of Tennessee. Ten thousand sets of three pamphlets each were placed in schools and libraries and sent to newspapers and state officials during 1927.

Bring on the Prosperity in North Carolina!

(Continued from Page One)

much of that."

Eno mills was established in 1896. Its village for 450 workers runs down the gully behind the mill and up the ridges beyond. The plain board houses are fairly well built but very much in need of painting. Cement walks have been put in to hurry feet that would otherwise lag in the slippery clay paths. Bucket-dip wells serve the workers water—one well to 25 or 30 families.

Mill children are taken through the fourth grade in the village school and then must go uptown to Hillsboro, a mile or more, for higher grades. But most of them go into the mill at 14. "There's a little girl in the shipping room can't be over 13 or 14," said the old man.

Hillsboro's boast is of its antiquity and of Lord Cornwallis' presence in revolutionary war days. But its two cotton mill villages—Eno and that of the much smaller Belle Vue Mfg. Co. —are poked off in a corner against the big hill. Travellers on the main highways never need see the straggly mill section.

HOLD COUNTERFEITERS

Five alleged counterfeiters, arrested Thursday night in a raid on a printing shop at 1064 Willoughby ave, Brooklyn, were arraigned before U. S. Commissioner Epstein, Brooklyn, yesterday.

Chiefs of Tammany Ring Headed by Boss Olvany Leave for Houston

The Tammany delegation, silent as Boss Murphy, left for Houston Thursday to extend the operations of Tammany Hall, if possible, to a national scale. From left to right, in the photograph are Daniel L. Ryan, David H. Knott, Joseph Johnson, George W. Olvany, James F. Eagan, John F. Carew and Charles L. Kohler. The real boss of grafting Tammany Hall, as is well known, is not Olvany, but Al Smith.

NEED FUNDS TO SECURE "DAILY"

All Groups of Workers Reached by Paper

(Continued from Page One)

but also among workers in the most reactionary unions is The DAILY WORKER gaining a foothold.

A Chicago worker on the Baltimore and Ohio Railroad, who requests that his name be withheld writes:

Dear Comrades:

The workers on the Baltimore and Ohio Railroad must be prospering. At least if we believe the stuff that is handed out through the monthly magazine. I know that there are workers who have been in service on this road for years who are only drawing $23.60 a week, so I don't see where the prosperity comes in for the workers.

Find enclosed $1 to help the 'Daily.'

It is contributions such as these from workers living in all sections of the country, representing a great variety of trades, that helped to save The DAILY WORKER during the grave financial crisis which it has just passed through. The crisis is past, but the existence of The DAILY WORKER still remains insecure. Practically all of the nearly $10,000 raised by the militant workers of this country has gone to meet pressing financial obligations. This means that at any moment The DAILY WORKER may find itself in the midst of a new and even more serious crisis.

Secure "Daily" for Summer.

Contributions received yesterday were less than $100 and indicate a serious falling off in support. The summer months are ahead of us, the most difficult months of the year from a financial viewpoint. The existence of The DAILY WORKER must be guaranteed for these months. By the time the summer has been successfully passed, The DAILY WORKER will be moved into a more economical printing plant, we will be a larger and more effective working-class newspaper. Help us reach that road with your contributions. Save yourselves the great financial and nervous strain of another sudden crisis which might prove fatal to the "Daily." Prevent future crises by sending funds NOW.

The following is another list of militant workers who helped to save The DAILY WORKER:

Richard Bjorkbacka, West Concord, N. H., $6; Camp Trombenick, Glenham, N. Y., $31; C. Davidson, N. Y. C., $1; S. Gostin, N. Y. C., $1; Jennie Silverman, B'klyn, N. Y., $5; Sam Lambrojo, Bronx, N. Y., $5; J. Manicardi, West N. Y., $4.50; F. Shuster, N. Y. C., $1; I. Birnbaum, N. Y. C., $1; Charles Hedrich, Roxbury, Mass., $5; Anthony Karbel N. Y. C., $2; Chas. Kristofik, Cabridge, Mass., $6; I. Zilich, Keisport, Pa., $5; S. Aro, Schnectady, N. Y., .25; M. Elo, Schenectady, N. Y., .25; S. Kran Schnectady, N. Y., .25; F. Elo, Schenectady, N. Y., $1.25; A. Hautala, Schenectady, N. Y., .25; G. Sala, Schenectady, N. Y., .25; M. Miller, Schenectady, N. Y., .25; E. Bjers, Schenectady, N. Y., .25; V. Ahonius, Schenectady, N. Y., .25; F. Matson, Schenectady, N. Y., .25; E. Savola, Schenectady, N. Y., $1.50; V. Sparre, Schenectady, N. Y., $2; J. Solminen, Schenectady, N. Y., .25; F. Blomqvist, Schenectady, N. Y., .25; U. Auri, Schenectady, N. Y., $1; H. Lindstrom, Schenectady N. Y., $1; H. Drugge, Schenectady, N. Y., .25; H. Ahontur, Schenectady, N. Y., .25; V. Raulala, Schenectady, N. Y., .75; K. Keskinen, Schenectady, N. Y., .75; Ulgi Callegaro, Drumheller, Alta, Canada, $2; Artemis Stavianudakis, Thermopolis, Wyo., $1; Floyd Ramp, Roseburg, Oregon, $5; L. E. Seneyy, Rossland, B. C. Canada, $10; Dr. Leon Henri Goldberg (collected) Bronx, N. Y., $3.75; Vincent Sirola, N. Y. C., $1; H. A., a worker from Brooklyn, N. Y., 21; Martin Sellers (collected) Pittsfeild, Mass., $2; J. C. Criss, Lyman, Wash., $5; J. M. Lucos, Worcester, Mass., $1; D. Jusius Worcester, Mass., .25; J. Dekanis, Worcester, Mass., .25; K. Yaivada, Worcester, Mass., .25; H. Stankus, Worcester, Mass., $1; P. [illegible], Worcester, Mass., .25; V. Tumahis, Worcester, Mass., $1.50; J. [illegible], Worcester, Mass., .50; J. Sakauskas, Worcester, Mass., .50; J. Nowalas, Worcester, Mass., .25; K. Kruzdis, Worcester, Mass., .25; J. Karsokas, Worcester, Mass., .50; J. Gustaitis, Worcester, Mass., .25; J. Mathaweed, Worcester, Mass., .25; K. Polish Priest Hired to Keep Workers Quiet

(By a Worker Correspondent.)

WEIRTON, W. Va. (By Mail). — The superintendent of the Weirton Steel Co. has paid $1,000 to an immigrant Polish priest to come here to preach to the Polish workers so that they will not interfere with the bosses' profits or participate in any industrial organization work which might take place at Weirton.

—P.

FEDERAL PRISONS CROWDED

WASHINGTON, (FP) June 22.—Federal prisons, located at McNeil Island, Wn., Leavenworth, Kans., and Atlanta, held twice as many prisoners, in June, as those prisons were planned by their builders to hold. The Department of Justice, announcing this congestion, predicts that there will be a further over-crowding when the federal courts begin to grind again in the autumn.

TRACTION LINE SEEKS 7c FARE

Tammany, Republicans in on Deal

(Continued from Page One)

I. R. T. over the control of the new city subways and the resulting scramble between Walker and Smith held up the deal. Now all forces are in harmony and they are now merely stalling until after election.

William F. Kenny, contractor, and millionaire traction owner, who controls the Third Avenue Railway, contributed $70,000 to Smith's campaign fund all "for love of Al," he declared. Kenny and Smith last winter went to the south together on the famous pilgrimage to spread Tammany Hallism in the land of Dixie.

Truck Driver Injured in Brooklyn Accident

Wet pavements caused a triple automobile collision and injuries to four persons yesterday at Rugby Rd., and Ditmas Ave., Brooklyn.

A light truck crashed into two heavier trucks and overturned. The driver, Francis E. McKinney, was taken to the Kings County Hospital with a collarbone fractured.

JAIL LEADERS OF TEXTILE STRIKE IN NEW BEDFORD

Murdoch, Union Head, Gets Two Months

(Continued from Page One)

thereby "disturbing the peace."

The 13 defendants came into court yesterday wearing red carnations in their buttonholes. An order by the court to remove them and an attempt by the attendants to carry out this order met with strikers' complete defiance. They continued to wear the flowers in court.

Despite the knowledge that their union leaders are unable to appeal further to avoid going to prison, the striking textile workers, led by the rank and file picket captains, conducted what is admitted even by the capitalist press to be one of the largest and enthusiastic picketing demonstrations yet held since the strike began on April 16.

1,200 Picket Mill

More than 1,200 strikers gathered last night at the gates of the Wamsutta Mills, where a squadron of police attacked the picket line a few days ago, and sang strike songs while patrolling the plant. The shouting of strike slogans and the singing of songs went on continually, despite the fact that the police expressly prohibited this. Nearly all the arrests to date were so-called "peace disturbances" caused by singing and whistling.

* * *

NEW BEDFORD, Mass., June 22.—Four men and two women striking textile workers, picketing the factory gates of the Wamsutta Mills, were arrested this morning after they had defended themselves against a new attack on the picket lines by police. A picket demonstration was also held at the Nonquitt Mills where the owners and their straw bosses vainly trying to open the mills with a handful of imported scabs.

10,000 Belgian Longshoremen Follow Belgenland Dockers Out on Strike

PARIS COMMUNIST CONVENTION HAS SECOND SESSION

Political, Economic Situation Discussed

(Special Cable to the Daily Worker).

PARIS, June 22.—The political and economic situation in France and the consequent tasks of the French Communist Party were discussed at yesterday's session of the national conference of the Party.

The delegates unanimously rejected Renaud's condemnation of the Party's electoral tactics. Speaker after speaker declared that the tactics were understood where explained, and protested any revision of the organization.

Chasseigne and Berlioz, reporting on conditions thruout the country, declared that there is no improvement in the economic prosperity of France. This is proved, they asserted, by the increasing class consciousness of the masses of French workers.

Bernard, of the Political Buro, upheld the Party's policies while admitting the general disregard of the danger of opportunism.

Speaking for the Youth League, Billoux addressed the convention on the need of combatting Party passivity. He declared that opportunism can be conquered by the co-operation of the Party leaders and not by distrust.

Jacob then urged the intensification of united front activity by helping the workers in their daily demands.

Presenting the trade union report, Monmousseau attacked the dangerous reformist delusions of class collaboration which are supposed to be for the workers' advantage, owing to increased production.

In spite of the efforts of the reformists in the labor movement, he pointed out, strikes are now more aggressive than ever. He further declared that anarcho-syndicalism must be wiped out, while the organization of the industrial districts must be speeded up.

Monmousseau also asserted the necessity of combatting the errors of the Paris district on the questions of leadership in the trade unions.

DON PLOTTERS DENY CHARGES

Others Show Machines Were Useless

MOSCOW, U. S. S. R., June 22.—During yesterday's session of the trial of the engineers accused of counter-revolutionary activities in the Donetz coal fields, Krylenko stated that the public prosecutor had received a declaration on oath from the technicians, Koester and Sebold, of the Knapp company.

Both of the technicians denied the story of the accused engineer Badstieber. Sebold maintains that the Knapp machines were in excellent condition, irreproachable.

The prosecutor then read a document from the Knapp firm stating that the machines sent to the Soviet Union were the equal of those sent to France and Belgium. Krylenko declared that the machines sent the Soviet Union were not in good condition, notwithstanding.

Sebold has written the prosecutor offering to surrender to the court. The court has complied and withdrawn the arrest warrant against the technician on his promise to remain in the Soviet Union until the end of the trial.

The German engineer Hobe also offered evidence showing the sabotage activities of the Russian engineers, while the German mechanic, Krischevsky, confirmed the statements that the Knapp machines at the Vorovsky mine were useless.

TO HOLD PICNIC IN PHILA. TOMORROW

Joint Affair to Spur Election Drive

PHILADELPHIA, June 22.—Arrangements are going forward for the joint picnic of the Workers' (Communist) Party and the Parents' Council of the Pioneers, which will be held Sunday, at Strawberry Mansion Park.

The picnic is being arranged for the purpose of financing the immediate work of the party in connection with the election campaign and as a means of contributing to the fund of the Pioneer Camp.

FLYER KILLED

LEBO, Mass., June 22.—Flying in the teeth of a high wind, Wayne G. Neville, an experienced mail pilot on the Kansas-Dallas liner was killed instantly today when his plane crashed into a field six miles southeast of Lebo. The plane caught fire after it struck the ground.

Amundsen, Norwegian Explorer, Lost Hunting Fascist Flyer

Above the plane in which Ronald Amundsen, noted Norwegian explorer set out to rescue General Nobile, the Italian flyer who was recently found after his airship, the Italia, had landed in the arctic wastes. No word has been received from Amundsen since his flight.

STANDARD OIL BARONS CLEAN UP MILLIONS

By LELAND OLDS, (Federated Press).

How Standard Oil millionaires' millions multiply while they amuse themselves with such diversions as subsidizing a republican national administration is illustrated by the increase in the value of the Pratt trust fund analyzed in a recent issue of the Wall Street Journal. According to the journal's figures this fund, with a market value of $2,743,000 when it was created in December 1920, now has a market value of $4,109,569. If stock dividend shares turned over to the beneficiary are included the present market value rises to $4,711,331 an appreciation of more than 70 per cent in 7 years.

The trust was created by Herbert L. Pratt, now president of the Standard Oil Co. of New York, for the benefit of his wife. Pratt provided that the income from the trust should go to his wife and that on her death the principal should be divided among her 5 children. Today Mrs. Pratt is getting an annual income of more than $213,000 from the fund and from her share of the stock dividends declared on securities held by the trust.

Could Support 500.

This part of Mrs. Pratt's income alone would provide 100 families with a living wage according to the standard set by the U. S. department of labor. If there were no other wealth coming their way the 5 children would undoubtedly become millionaires on Mrs. Pratt's death with an assured income of more than $40,000 apiece whether they work or not. And they represent the third generation from the original Charles Pratt who as a Rockefeller associate founded the Pratt fortune.

The securities forming the original principal of the trust, with their market values in December 1920, were:

Pratt Trust, Dec. 24, 1920	Per Share	Total
1,000 shares Illinois Pipe Line	$157	$157,000
2,000 shares Ohio Oil	265	530,000
1,000 shares Prairie Pipe Line	180	180,000
2,000 shares S. O. of California	290	580,000
10,000 shares S. O. of Indiana	66	660,000
2,000 shares S. O. of New York	318	636,000
Grand total		$2,743,000

Increase Wealth.

These are all Standard Oil stocks and have consequently experienced their share of the stock dividends and split-ups which have characterized Standard Oil history since 1920. In 1921 Standard of California split its stock giving the owners 4 shares for 1; in 1922 Standard of New York did the same. In 1922 the trust received in stock dividends 6000 additional shares of Ohio Oil or 300 per cent, 16,000 additional shares of Standard of New York or 200 per cent, 8000 additional shares of Standard of California or 100 per cent, 2000 additional shares of Prairie Pipe Line or 200 per cent stock dividend and 10,000 shares of Standard of Indiana or 100 per cent. In 1926 there was another 25 per cent stock dividend by Standard of New York.

In the intervening years the trust disposed of its holdings in Illinois Pipe Line, purchased over half a million dollars worth of bonds and 500 additional shares of Standard of California. Out of stock dividends it turned over to Mrs. Pratt 985 shares of Prairie Pipe Line, 1771 shares of Standard of California, 1825 shares of Standard of Indiana and 1045 shares of Standard of New York.

After all these changes the securities forming the principal of the fund in June 1928, with their market values were:

Pratt Trust, June 4, 1928	Per Share	Total
18,000 shares Ohio Oil	$62.50	$500,000
15,118 shares S. O. of California	58.50	884,403
16,000 shares S. O. of Indiana	77.00	1,232,000
26,000 shares S. O. of New York	36 13	939,250
Bonds		548,000
Cash		5,916
Grand total		$4,109,569

In addition the stock dividend shares turned over to Mrs. Pratt have a market value of $601,762.

This trust is small compared with the billions made out of oil. It represents only a part of Mrs. Pratt's property, only a part of what she and her children will inherit. But its brief history shows clearly how the rich are automatically getting richer.

AUSTRIAL LABOR REFORMIST MEET

VIENNA, June 22.—The Congress of the Austrian Trade Unions yesterday accepted, without any debate on the subject, Otto Bauer's report on the political situation. Bauer declared that the post-war crisis of capitalism is completely over. His report on rationalization "proved" the necessity of forming a strict regulation of working hours, but, as usual, no corresponding demands were formulated. Every speaker narrowly defended the interests of his own trade and attacked industrial unions.

THE MODERN SCHOOL

ATTACK BRITISH LABOR PARTY

Appeal for Workers' Conferences

LONDON, June 22.—A manifesto attacking the present tendencies in regards to class collaboration in the labor movement, has been issued by the labor leaders, A. J. Cook and Maxton.

The manifesto after declaring against cooperation of the workers with the British capitalists, lays down the principle of an unceasing war against capitalism and asserts that the workers can win the products of their labor only by their own efforts.

The manifesto further condemns the view that the Labor Party should be a national and not a working class party.

The calling of rank and file conferences for the expression of the workers' views concerning the present policy is also urged. No concrete differences with the Labor Party are stated in the manifesto, however.

The London Daily Herald, organ of the British Labor Party, in a leading article violently condemns the manifesto.

The capitalist press, while hailing what it interprets as a split in the ranks of the British Labor Party, is alarmed lest the move turn out to the advantage of the Committee.

Four Applicants for Each Harrisburg Job

HARRISBURG, Pa., (F. P.), June 22.—Of 10,500 applicants for jobs at public employment agencies last month, but 25 per cent could be placed, asserts the Pennsylvania Department of Labor. 41 per cent of the applicants were women.

450 workers were killed in industry during the month and 36,426 were injured. 4,400 serious injuries were reported from hard and soft coal mines.

WORKER-PEASANT TROOPS DISARM REACTIONARIES

Nanking, Japan Draw Closer

CANTON, June 22.—Worker-Peasant troops operating in the northern part of Kwantung province have disarmed the reactionary general, Hu Feng-chiang, according to reports reaching this city from the interior.

Reports of the success of the Worker-Peasant armies continue to arrive here, stating that the spread of the influence of the troops is gradually being extended to include large sections of northern Kwantung and Kiangsi where they are said to be especially active in the neighborhood of Nanchang.

* * *

Strife Between Workers

SHANGHAI, June 22.—News of the growing strife among the Nanking and the Kuominchun warlords, and the understanding that the former are arriving at with the Japanese government is reflected in various reports reaching Shanghai from Peking.

The struggle between the northern warlords reached an acute stage when the soldiers of Feng Yu Ssiang, rival of the Nanking government in the race for the possession of Peking, disarmed the troops of the Nanking general, Pai Chung-tsi. The incident has caused deep resentment among the warring factions.

At the same time, a calculated co-operation between the governments of Nanking could be seen in the announcement that the Japanese fleet is to be withdrawn from the Yangtse.

This announcement follows the report that a meeting called by the Teachers and Students Union in Peking had been dispersed by the police and troops.

Army Chief, a Smuggler

General Jose Alvarez, former chief of staff in the Mexican army, is facing trial as a smuggler. Together with a well-known actress, he is accused of smuggling several thousand dollars worth of silks and fine stuffs.

DIAMONDWORKERS STILL ON STRIKE

Government Anxious to Crush Walkout

CAPETOWN, June 22. — South African native workers continued to stream into the town of Lichtenburg yesterday from the diamond diggings just outside where a strike involving 25,000 was declared two days ago.

Most of the strikers, many with their entire families, have left the diamond fields with all their possessions and have now no place to stay. Hundreds of the diamond workers are being temporarily housed in the town hall, in a number of churches and other available buildings. Their suffering, owing to the abrupt march, is in some cases considerable.

The police of the South African government are on hand and are threatening to take extreme measures to suppress any action the strikers may take in the course of meetings and demonstrations.

The government is reported to be thoroughly alarmed by what it regards as one of the most crucial situation in years.

EXPECT SEAMEN MAY JOIN HUGE HARBOR WALKOUT

Police Fail to Smash Meetings

ANTWERP, June 22.—Following the strike of the dockers discharging the grain cargo of the British Red Star liner, Belgenland, here, ten thousand longshoremen have joined in a huge walk-out that is threatening to tie up all domestic and foreign shipping in the principal Belgian port. The Belgenland was compelled to sail without unloading her entire cargo.

The walkout of the stevedores followed the refusal of the Red Star officials to accede to the demand of the dockers for a wage increase. The men unloading the big British ship walked out unanimously and were shortly afterwards followed by thousands along the waterfront.

A heavy fog hung over the Scheldt yesterday and as meetings of the strikers gathered in the narrow quays and streets, the police attempted to disperse the strikers. They were booed and hissed by the longshoremen and sympathizers.

Every effort is being made by the strikers to bring out the seamen who are sympathetic. Leaders of the harbor workers declare that the seamen will be out within the next few days.

Labor Called Upon to Support Servicemen's Struggles Against Military Czars

ARMY DEMANDS ARE ISSUED BY YOUNG WORKERS

Y. W. C. L. Fights for Rights of Soldiers

By PAUL CROUCH.

The Young Workers (Communist) League has taken up the struggle for the rights and interests of the enlisted men. The National Executive Committee has officially issued a program of demands. All servicemen and all labor organizations are called upon to fight for the realization of these demands.

The League does not wish to give the illusion that any considerable improvement of the condition of the servicemen is probable under the capitalist system, and the fight for these immediate demands will be linked up with the struggle for a workers' and farmers' government which will free both the civilian workers and those in the military service.

The demands of the Young Workers (Communist) League as issued by the National Executive Committee follows:

1. 50 percent increase in base pay for privates and 25 percent increase in base pay for non-commissioned officers.

2. $1 a day food ration for all soldiers. Election of mess sergeant and inspection of commissary accounts by the men.

3. Government allotments to dependants in addition to soldiers' pay.

4. Tailor-made uniforms furnished free by the government. Laundry and all other necessities to be furnished free.

5. Maximum duty of 8 hours daily, including guard duty.

6. Abolition of K. P., civilian employes to be hired by the government for this work.

7. No restrictions in passes for soldiers off duty.

8. Abolition of restricted districts.

9. Use of salute only in line of duty.

10. Soldiers not to be restricted from any part of military reservation and to have free use of all recreational facilities including tennis and polo.

11. No compulsory special duty without agreement of soldier.

12. Right of union men joining service to retain union affiliations. Right of specialists to join unions of their respective trades.

13. The right to vote for soldiers.

14. The right to join labor and political organizations and to attend meetings.

Free Speech.

15. Free speech and the right of soldiers to select their own reading matter.

16. Abolition of general court martial with civil trial for serious offenses (ex.:—general court martial applies to sentences over 6 mos.) Substitution of trial by elected jury of soldiers for summary and special court martial.

17. Regular furloughs for all soldiers without discrimination inclusive of those in the colonies, with pay in advance. Right of soldiers in colonies to spend furloughs there if wishing.

18. Non-interference of officers in personal affairs of soldiers including right to marry without officers' consent, etc., etc.

19. Right of all soldiers to wear civilian clothes at any time when off duty.

20. Election of non-commissioned officers by the men.

21. No use of army in strikes at home or in the colonies.

Refuse to act in strikes!

Refuse to be a policeman for the bosses.

Support your fellow workers in their struggles for better conditions.

Refuse to act as a policeman for Wall Street!

Support the colonial peoples in their fight for freedom!

Fight the war threat against the workers' and farmers' government of the Soviet Union!

National Executive Committee,
Young Workers (Communist) League.

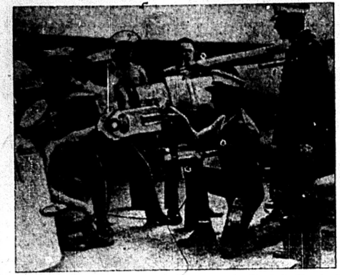
SERVICEMEN!

The DAILY WORKER is the only daily newspaper in the United States defending the interests of the men in uniform. At all times The DAILY WORKER fights for the servicemen in their struggles against the harsh treatment they are forced to endure, and is pages are open to their opinions.

Every Saturday, a section of The DAILY WORKER is devoted to letters from servicemen, articles on their problems and news of importance. In the future, many letters will be published from soldiers and sailors of Great Britain, France, Germany, Mexico and other capitalist countries; and letters from Red Army soldiers will be of great interest.

Servicemen! You come from the working class. Your place is in the class struggle by the side of your fellow workers! The DAILY WORKER belongs to both civilian workers and to the workers in uniform. Read the newspaper of the working class and write for its pages!

Getting Ready for New Imperialist Wars



Above target practice of the [illegible] of the U. S. S. Maryland. The sailors are being trained for service to protect the investments of United States capitalists.

SOLDIERS AND SAILORS TELL OF CONDITIONS

Editor, The DAILY WORKER:

Your paper is the very thing we need for the sailors. I enjoy reading the letters from the servicemen, but don't see enough letters from the navy. Why don't you print more material about the life of the "gobs"?

Now, I've got a kick to make against some of your articles. Some of your writers seem to think we are enemies of the workers but that isn't so. We have just one reason for being in the navy, and that is to get three meals (however so poor) per day and a dry (sometimes) place to sleep.

I don't think any of us would wish to fight against our fellow workers. But I can't say much for the work we are doing at present—that of playing war to bluff the Chinese and Japanese into heeding the demands of our masters. We would refuse to do that if someone was able to point the way. Don't tell us what we are doing—but what we should do about it.

SEAMAN.

U. S. S. New Mexico.
June 2, 1928.

Editor, The DAILY WORKER:

I just got a copy of The DAILY WORKER from another soldier here, and I wish to say that the story about our conditions here is just like conditions we have here. It was read with the greatest interest by all the soldiers in my company.

We are glad to see that at least one newspaper is honest enough to tell the truth about the army.

Will you please send sample copies of The DAILY WORKER to ———— and to ————?

I would like to tell you some news here that might interest other soldiers.

Last month 38 soldiers from my post, Fort Davis, were sent to the Gorgas Hospital here with ptomaine poisoning. It is the result of the bum food we get down here, and I wonder if the people in the United States could do something about it.

One of my buddies, Pvt. John J. Schench, of the 14th Infantry, a fine young fellow, found conditions down here so bad with no hope of getting away that he put a bullet through his brain. He had been down here for four months—but in this hell hole that seems like a lifetime.

We are not permitted to go to most parts of the cities in Panama, can not wear civilian clothes, and must be in bed before 11 o'clock. Life in the army anywhere is bad enough, I guess, but words can't describe this place. Am trying to save money to buy out and once away from this place, no more "seeing the world for me."

BUCK PRIVATE.

Fort Davis, Panama.
June 10, 1928.

BRITISH SAILORS DIE FROM TUBERCULOSIS

By WILLIAM RUST

(Secretary of Young Communist League of Great Britain.)

A little known naval grievance has been just brought to light which shows that life in the great British navy is far from healthy. Those people who imagine that "life on the ocean wave" produces boys of the bulldog breed will be staggered to learn that in the British navy, which rules the waves, the percentage of deaths due to tuberculosis is double that among the civil population.

More Disease in Service.

In the navy 2.19 per thousand men suffer from the disease and the death rate is 34 per 1,000. In the army the figures are respectively .91 and .12 per thousand. The figures for the civil population are 1.52 and .17 per thousand.

The number of tuberculosis cases in the navy is all the more amazing in view of the fact that the tests for admission to the navy are extremely severe, only one out of every 10 of the would-be recruits are accepted.

Why Tuberculosis?

Why is it that this dread disease is rampant? Sir Bertram Falle M. P. was compelled to admit in parliament that the conditions under which men had to live on board ship were conducive to tuberculosis. It would be interesting to find out the extent of tuberculosis among the officers. We could then test the different effects of cramped quarters and spacious cabins.

Bad Food a Factor.

Bad food is also a factor. Medical officers' reports state that the great majority of naval sickness is due to stomach troubles and bad teeth.

The admiralty not only does nothing to stamp out tuberculosis, it also does its best to get out of paying a pension to men invalided out with this complaint. Even such an high officer as Rear-Admiral Beamish says, that there is considerable dissatisfaction in the navy with the manner in which invaliding out of the service is conducted. An exceedingly small proportion get either pension or gratuity. Generally the Medical Survey Board makes out that the unfortunate victim had the complaint before he joined up. Hundreds of men, broken in health, are being thrown on the stones without a penny recently.

These facts were brought to light in the house of commons by the tory M. P.'s representing ports. They are only concerned with vote catching and now having satisfied their consciences nothing more will be heard from them. The labor M. P.'s are just as bad or even worse. Last week, when the naval estimates were considered, they spent so much time advising the generals and admirals how to improve the technique of modern warfare that they forgot all about voicing the sailors' grievances. In fact the order which further limited the political rights of sailors was issued by the labor government.

This order was a bad blow at the lower deck for it is only by means of political activity that bad conditions can be changed.

That there is a growing demand in the army and navy for full political rights explains the small concession in a new regulation issued by the government this week as follows:

(a) In the event of a parliamentary election every facility should be given to officers and soldiers to record their votes.

(b) No political meetings are to be allowed within barracks and within camps, nor is canvassing in quarters to be allowed.

(c) Subject to (b) there should be no restriction on officers and soldiers attending political meetings in or out of uniform, whether in the vicinity of their quarters or no, always provided that the unit commander may use his discretion to forbid officers or soldiers to attend such meetings in cases where he has reason to expect that discipline may be prejudiced, or urgent military duties interfered with.

In clause (a) the order says "That the soldiers shall get 'every facility.'" In clauses (b) and (c) the generals take good care to withdraw the most important facilities.

In view of the approaching general election the Young Communist League is intensifying the campaign for full political rights for soldiers and sailors on equal terms with the civilian population.

Demands for Servicemen.

In the "Soldiers' and Sailors' Programmes" the Communist Youth puts forward the following demand:

"The right to join political parties and to organize branches of these parties in the army and navy, and the right to attend political meetings and demonstrations. The right of all men over the age of 21 to be elected to parliament and other bodies.

VETERAN TELLS OF MURDERS IN U. S. HOSPITAL

Forced to Sign Stories of "Good Treatment"

The story of how veterans are beaten to death, forced to sign statements that they had been well treated, and compelled to work without pay are told in a letter to the Veterans' Bureau by Patrick Connell.

The charges of Connell are admitted by the silence of the Veterans' Bureau, which refused to answer the letter.

In his letter Connell tells of how before his discharge the authorities wrote letters to his relatives in his name, though without his authorization, requesting money for his return home, in spite of the law that the Veterans' Bureau should furnish transportation. He goes on to tell about the brutalities he witnessed during his stay in the hospital.

The letter continues:

Pittsburgh, Pa.

I was forced to labor at the hospital for 660 days. I was there about 690 days all told. I reported Dr. Baines to the Veterans' Bureau at Atlanta, Georgia, in December 1926. They told me I would be allowed $2.60 a day while at the U. S. V. Hospital No. 62. But I never got a penny for the 22 months' work I did there.

Dr. Black, your medical advisor, wrote my attorney telling him that I said I was treated good at that hospital. I was forced to write what Dr. Thompson directed, or get killed, after I came back from Atlanta in December. He claimed I got him in wrong when I reported Dr. Baines to the Veterans' Bureau. He forced me to do as he directed. Dr. Whitmeyer had 5 big attendants beat me up in ward No. 6 for refusing to labor without pay.

Men Beaten to Death.

I also had the dates when they beat up some of the patients. And, too, when I saw men beaten to death. They died after the beating they got. One man was beaten in ward No. 9 under Dr. Walton, in the evening about 8:30 P. M. The next morning he was carried out dead.

Now, I saw 690 days of this. You trust the doctors; they are officials. But Dr. Baines knows everything that goes on. He knows the veterans are beaten to death and he is responsible.

I would sooner spend the rest of my life a prisoner in Portsmouth Naval Prison than to be a patient in a Veterans' Bureau Hospital. During the war I worked in hospitals and I have an idea of how a patient should be treated.

Yours,
PATRICK CONNELL.

DRAMA

THE ART OF MOSKVIN ON STAGE AND SCREEN

WHEN the Moscow Art Theatre was causing critical rhapsodies here a few years ago, one of its outstanding artists, Moskvin, came in for a special share of vigorous acclaim. His portraits ran the gamut of characterizations from his superb delineation of Czar Feodor and the gentle, verminous, old pilgrim in the "The Lower Depths" to the heart-wringing picture of the infinitely lowly, inadequate, intimidating Shegiryovi in "The Brothers Karamazov."

It is too much, however, to expect such an outstanding stage actor to contribute anything of merit to the screen as it is rare for an artist in the speaking drama to do anything first rate on the screen, but Moskvin upset this theory with the astonishing and almost perfect performance which he gave in "Polykushka"; as one critic said of his art in this film "he (Moskvin) says more to us with his little finger than many actors can express with every part of their body including the palate. It is black magic to watch the manner which the short, stumpy fingers of this little player begin to spell out a message of cheer, despair and enunciation. I believe whole-heartedly that it would be a fearful task for us to match Moskvin."

Now comes Moskvin with another outstanding creation in Pushkin's "The Station Master," a Sovkino production, which is having its American premiere at the Cameo Theatre.

His art may be generally characterized as a genial illumination of life, full of that unseen wealth and of that passionate truth that we see in the pictures of Memling and Brugge. Moskvin is not interested in the heroes of life but in its victims. His penchant is for the man who is ill-treated and insulted by existence, and particularly a man who silently bears these insults. With his remarkable naturalistic pathos, Moskvin catches all the minute details of the hysterical and twitching movements of the soul oppressed by a series of life's situations.

His portrait of Pushkin's "The Station Master" is brilliant in its wit and pathos. We are not treated with the usual "character achievement." His portrayal of the old postmaster whose sequestered life is suddenly torn from its moorings by an unforseen and seemingly harmless episode, he gives to the screen one of its most delicate portrayals of a kind, noble and simple human soul.

EVA LE GALLIENNE

Who will take a fling at vaudeville next week, opening Monday afternoon at the Palace Theatre.

Universal will synchronize its production of "Uncle Tom's Cabin." The Movietone or Fox-Case method will be used.

CALL FOR NATION WIDE DRIVE TO RELEASE PORTER

Young Workers League Challenges Militarism

(Continued from Page One)

join in the fight for the immediate release of Porter and the struggle to defeat the military machine of reaction in the first real battle. Porter symbolizes the struggles of the working class youth.

"Our fight must be carried into the ranks of the armed forces. The servicemen should follow Porter's example in joining the struggle of the workers and while learning how to shoot they must learn who to shoot in the struggle between the exploiters and exploited. They should not leave the army, however, but should win over the masses of young workers in the army to the causes of the workers.

"Fight for the Release of Porter!

"Stop the use of the army as a strike-breaker!

"Unity betwen soldier and civilian workers!

"A united front for the freedom of Porter—for the fight against capitalist militarism!"

National Executive Committee,
Young Workers (Communist) League.

Joint Board Calls Fur Workers to Force Pay Increases, Shorten Hours

USE STOPPAGES AS WEAPON, CALL TO WORKERS SAYS

Only Way to Give the Jobless Work

While the last few days' developments in the fur industry have shown that the right wing union of the A. F. of L. is torn by a factional struggle which has burst into the open, the Joint Board of the Furriers' Union is proceeding with the campaign it mapped out for the regaining of the union conditions destroyed by the right wing and the bosses. A circular issued by the Joint Board and distributed to the workers yesterday, called upon the workers to take immediate action to secure the July raises in pay, the enforcement of the 40 hour week and thereby work for the jobless. The leaflet follows in part:

The wages have been cut more than fifty per cent. The cutters, operators, nailers and finishers are now getting $30 and even $40 less than they got in 1926 despite the fact that they are now producing twice as much work. Hundreds of thousands of dollars are weekly stolen from the workers to fill the pockets of the bosses. Cost of living and rent have not become cheaper; only the fur workers became cheaper. Why?

Because your ranks were broken and your union wrecked.

One strong united union, under the leadership of competent, devoted and militant workers will restore the union conditions, will put an end to the merciless exploitation in the shops, increase the wages, curb the appetites of the greedy manufacturers and reestablish the furrier's self respect and pride.

A July increase for every worker under all circumstances.

The first week in July all furriers get increases in wages. This has been the trade practice for many years; and the bosses were long ago forced to recognize this practice. Only last year the workers did not receive their rightful July increases because last year the council scab agents sold out to the bosses the July increases as well as all other union conditions.

A July increase for every worker without any exceptions or else shop stoppages.

Don't postpone. Don't be misled by empty promises of your boss or foreman or of the scabs in your shop. Act at once. Now there is already work in the trade. Forge the irons while they are hot.

Don't allow yourselves to be misled by the fake maneuvers or empty threats from the scab council. If necessary be ready and mobilize your power for a general stoppage to wrest from the bosses an increase for every worker.

You can force the bosses to return to you a large part of the slashed wages, and you can rout your enemies only by means of united, courageous and determined action. This will be your first step in adopting united mass pressure, which will restore higher wages and the 40 hour week. This will mean jobs for the unemployed and will restore all other union standards in the shop.

BARE BURGLARIES OF "UNION" AGENT

Denies Robbing Store; Says "It Was Actress"

"I was wrongly accused of burglarizing a jewelry store in Boston," whined "Big" Alex Fried, who was commissioned by the American Federation of Labor to lead the war of destruction against the Furriers' Union. "It was the house of an actress, and not a jewelry store," he asserted. This was the climax at the trial of Fried, who led a squad of thugs to knife Meyer Fineman, a fur worker.

Although there were six assailants of the furrier, four of them were dismissed by Judge Collins, who is presiding at their trial in general sessions, part 6.

Samuel Markowitz, lawyer for the right wing union, who is providing money for the defense of the sluggers, is trying to obtain Fried's release by proving that it is a frame-up because Fried refused to obey the order of I. Shapiro, of the Joint Board to join the Trade Union Educational League. This absurd tactic was adopted in order to scare the judge and the jury.

The case was summed up in yesterday's session in court, with the judge scheduled to charge the jury tomorrow. Markewitz's summing up was almost completely a speech condemning the militant leaders of the Furriers' Union, the rest of the speech was devoted to explaining away Fried's years in jail for burglary as mere youthful transgressions. He marshalled proof that he is a good boy now, pointing out that many manufacturers thought very highly of him.

WORKERS CALENDAR

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

* * *

Grand Rapids I. L. D.

GRAND RAPIDS, Mich.—The International Labor Defense of this city will hold a "Free Tom Mooney and Warren Billings" Picnic on June 24, at the United Workers' Co-operative Camp, 6 miles past Bostwick Lake on M-14. Those who go are advised to watch for the signs directing them to the place.

* * *

Paperhangers of Boston.

BOSTON.—The Paperhangers' Union, local 258, will inaugurate a campaign for new members to extend over a period of 3 months, June, July and August. The initiation fee has been reduced from $100 to $25. The local calls upon all organized paperhangers of the city and vicinity to join the union and help to organize the non-union workers. The local union meets at the district council headquarters, corner Washington and Dover Sts., Boston.

* * *

District Y. W. L. Anniversary.

BOSTON.—District 1 will hold a truck party and picnic Sunday, June 24, at Vanikens farm, Cushing St., Hingham,

Pittsburgh District Picnic.

PITTSBURGH, Pa.—The third annual picnic of the Workers (Communist) Party, District 5 has been postponed from July 4 to July 8. It will be held at Nicholson Farm, Swissvale, Pa.

Cleveland I. L. D. Picnic.

CLEVELAND. — The International Labor Defense has arranged a picnic for the miners' defense to be held June 24, at New Sachsenheim Gardens, 7001 Denison Ave. There will be speakers, music, and refreshments.

* * *

Boston District Y. W. L. Anniversary.

District 1 will hold a truck party and picnic Sunday, June 24, at Vanikens farm, Cushing St., Hingham, Mass., to celebrate the sixth anniversary of the founding of the Young Workers (Communist) League.

* * *

Chicago I. L. D. Picnic.

CHICAGO.—The Chicago local of the International Labor Defense will hold a picnic at Zahora's Grove, Ogden and Custer Aves., Lyons, Ill., on June 24. The grove opens at 12 o'clock, noon.

* * *

Philadelphia Miner's Relief.

PHILADELPHIA, Pa.—Philadelphia Miners' Relief Conference here has arranged a picnic for July 29 at Maple Grove Park.

* * *

St. Louis Picnic.

ST. LOUIS. — The Young Workers (Communist) League will give a picnic and dance at Triangle Park, 4100 South Broadway, on July 4. Dancing, refreshment, games and athletic concerts have been planned.

* * *

Youngstown Picnic.

YOUNGSTOWN, Ohio. — The Seventh Annual International Picnic of the Youngstown Workers (Communist) Party will be held on June 24. Those wishing to attend should stop at 28 Sharon Line. "Why the Workers Party Is in the Presidential Campaign" will be the subject of a talk by a national speaker.

* * *

Cleveland Miners' Relief.

CLEVELAND, Ohio.—The Cleveland Conference of the National Miners' Relief Committee will hold a tag day on June 23. All wishing to participate should report at the South Slavic Hall, 5607 St. Clair Ave., at 2 p. m.

Hammond Miners' Relief.

HAMMOND, Ind.—A picnic will be held here at Gruener's Grove, on Shifild Ave., on June 24, for the benefit of the striking miners' relief. All have been invited to attend.

* * *

Astoria Hungarian Workers' Dramatic Club.

ASTORIA, L. I.—The Astoria Hungarian Workers' Dramatic Club will hold a Goulash Picnic on June 24, starting at 10 a. m. in the Astoria Small Wood. Those who wish to attend will meet at the Hoyt St. station from 9:30 to 10 a. m.

* * *

Highland Park, Ill.

The Workers Party of Highland Park, Ill., will hold a picnic for Miners' Relief on Sunday, July 8, at Zahnle Grove. Refreshments, games, dancing will feature.

* * *

Shachtman China Lecture Tour Dates

Sunday, June 24, Passaic, N. J. Workers' Home, 27 Dayton St., 7:30 P. M.

PIECE WORK FOR ACW CONTRACTOR

Officials to Permit It, Boss Paper Avers

Despite loud protestations now current in the Socialist Jewish daily Forward, to the effect that the Hillman administration in the Amalgamated Clothing Workers Union will not grant piece work to the contractors, an employers trade journal yesterday made public the fact that in the negotiations for a new agreement now going on between Hillman and the bosses, the union officials will probably permit piece work for "some" contractors.

The particular contractors referred to are those doing work for the manufacturers' association. When the larger employers demanded, as was reported yesterday, the piece work privilege for their contractors only, the Hillman machine declared that "under no circumstances will they grant piece work to any but 'responsible employers.'" Now the bosses' papers, in reporting the progress of the negotiations, say that "the labor group show a willingness to consider means of encouraging large production with permanent contractors," meaning, that the encouragement will be given by granting piece work.

The bosses' paper then admits that it will be difficult to build a machinery whereby piece work will be permitted on work done for the members of the bosses' association, while week work will be enforced when the same shop turns to the work of other manufacturers.

New developments which deepen the misery and intensify the exploitation of the mens' clothing workers occur daily, as the misleaders of the graft-infested Amalgamated Clothing Workers Union speed up their plans to help the bosses install the sweat shop system of piece work.

Colleges Get Cash for Imperiailst Flying

The board of trustees of the Daniel Guggenheim fund for the promotion of aeronautics has authorized appropriations totalling $339,000 to the University of Washington, the Harvard University graduate school of business administration and the Massachusetts Institute of Technology to further the study of aviation, it was announced yesterday by Harry F. Guggenheim, president of the fund.

Lewis Fearful Over Anthracite Mine Fight

SCRANTON, Pa., June 22.—John L. Lewis, union worker of the Mine Workers is following closely Rinaldo Cappellini's fight to retain the presidency of District 1.

Cappellini, unseated by a convention decreed illegal by Lewis, is carrying the fight into local unions to persuade them not to pay per capita to the officers just elected. The possibility of an independent anthracite union is seen. Murder of three progressive mine leaders at Pittston because of their fight on the contract system precipitated the uprising.

$3,000,000,000 AUTO MERGER PLANNED

Third Huge Combine in Last Two Days

MACKIMAC ISLAND, Mich., June 21.—Another move toward the centralization of the control of industry in the United States was made today when delegates to the Automotive Equipments Association of Chicago voted unanimously to merge with the Motor Acessory Manufacturers' Association of New York. The merger was described as one of the largest manufacturing organization combines in the automotive history of the United States and Canada.

More than $3,000,000,000 in trade volume and almost 200 separate, business organizations and trade activities covering every part of the civilized world are involved in this merger, which, following close upon the huge coal and steel mergers in the past few days, indicate the rapid passing of the control of the world's industry under U. S. domination.

MILLINERS PICKET DESPITE ARRESTS

Neither the strike-breaking activities of the right wing officials of the International Cloth Hat Cap and Millinery Workers' Union, nor the police terror of arrests and beatings can prevent the members of the Millinery Hand Workers Local 43, from massing in large picket lines daily around the 11 shops which locked out their members for refusal to obey the order of the International chiefs, to drop their membership in Local 43 and register in Local 24.

The two pickets arrested Wednesday night, Dotty Newman and Francis Schwartz, were released yesterday on $500 bail each for trial on July 10th on charges of disorderly conduct. The bail was fixed by Magistrate Flood in Jefferson Market Court.

The millinery union had declared strikes in many more shops that tried to assist President Zaritsky in his attempt to dissolve Local 43, but many of them had capitulated after the membership of the Local, nearly all of whom are young girls, had crippled production in their shops by militant picketing tactics.

* * *

Excursion Arranged.

The Social and Educational Club of the Millinery Hand Workers Local 43 announced yesterday that arrangements have been completed for the union's excursion to Camp Nitgadaiget on Sunday, July 1. The club sends an invitation to all workers to take the opportunity of going on an excursion that will have features seldom equalled in attractiveness. They conclude the assurance that at least 500 girls, members of the union, will take part in the excursion. Added to this there will be a banquet dinner at the camp dining room. The boat ride will be on the Central Hudson steamer "Benjamin Odell, which will dock at the Battery Park pier. All those going on the excursion will meet at Battery Park 8 o'clock on the morning of July 1st.

EXAMINATIONS START FOR W.I.R. CHILDREN'S CAMP

Urge Support From Workers

Physical examinations by a physician for admittance to the Workers International Relief's Children's Camp at Wingdale this summer are now being made at the Co-operative Health Center, 1800 Seventh avenue. At the rate of 10 a day these examinations are being given without charge to the children. At camp a nurse will oversee the physical well-being of the children.

To provide for these necessary features of a camp for children of workingclass parents, organizations and individuals are urged to support the Build-the Camp Fund. Collection lists and stamps can be obtained at the Workers International Relief headquarters, Room 604, 1 Union Square.

"MOTHER" GITLOW TO BE WELCOMED

Fine Program Arranged for Banquet Tomorrow

Kate Gitlow, veteran of more than thirty years of struggle in the labor movement of this country, who has just returned from a visit to the Soviet Union, where she spent six months studying the conditions of the Russian working class, will be welcomed back by the workers of New York City at a huge banquet to be held tomorrow evening at 6 o'clock at the Manhattan Labor Lyceum, 66 E. 4th St.

The United Council of Working Class Woman, which has arranged the banquet, announced yesterday that the most elaborate preparations had been made for this affair that have ever been made in the history of the organization. Artists in every field have been invited to entertain those present. Most notable of those will be the Konin Musical Trio. Speakers have also been procured.

ONTARIO LUMBER WORKERS STRIKE

150 Men Strike for Pay Increases

TORONTO, Can. (By Mail).—The Lumber Workers Industrial Union has declared a strike at the lumber camps of Faure & Krokback, Commee, Ont. The strike affects 150 workers.

The rates paid the men were $7 per eight-foot cord peeled.

The strikers are demanding increased rates. The demands are: $8 for eight-foot peeled, $5 for four-foot peeled, $5 for eight-foot rough and $3 for four-foot rough.

The strikers appeal to all lumber workers to stay away from the strike area and so help them to win the strike.

FAT JOB FOR CULBERTSON.

SUPERIOR, Wisc., June 21.—President Coolidge today appointed William S. Culbertson, Emporia, Kansas, to be ambassador to Chile. At present Culbertson is minister to Rumania.

Claim Graft in Order to Shorten Pushcarts

Pushcart men in Orchard street have been informed that they will be expected to have pushcarts no longer than 54 inches by tomorrow. The reason for this new limit in length was given as "a step to make room for an unencumbered space of ten feet around each fire hydrant."

The pushcart traders are objecting on the ground that this latest move is only a ruse, the real cause being, in their opinion, that those in charge of the allotment of space in the downtown district want to increase the total of the money they take in graft from workers. More pushcarts, they insist, will mean more money for the grafters.

CONDEMN C.C.N.Y. FOR EXPULSION

Gerson's Reinstatement Demand of Youth Club

Condemnation of the expulsion of Simon W. Gerson from C. C. N. Y. and a protest against the throttling of student opinion was voiced at a special membership meeting of the Fort Morris Youth Club, an organization composed of students and young workers of the Bronx, last night at the Lower Bronx Labor Center, 715 East 138th Street. The following resolution was passed:

"Whereas we, the Fort Morris Youth Club, feel that the expulsion of Simon W. Gerson from the College of the City of New York is 'an attack on the rights of students to fight military training and the right to hold independent political opinion, and

"Whereas, we realize the necessity of youth organizing against the danger of the next war,

"Therefore, be it resolved, that we condemn Gerson's expulsion as an effort to throttle student opinion and the organization of youth against the war danger and that we demand his immediate reinstatement at C. C. N. Y. with full privileges of a student, and

"Be it further resolved, that we send this resolution to the metropolitan press, to the faculty and board of trustees of C. C. N. Y., to organizations of students at C. C. N. Y. and to Mayor Walker."

* * *

Hank Rosner, vice-president of the Social Problems Club of the College of the City of New York, and right-end on the varsity football team, has been indefinitely suspended from the college by order of the faculty, it was learned today. This supension will delay his graduation for a year.

After the protest meeting, held last Friday, against the expulsion of Simon Gerson, president of the organization of which Rosner was vice-president, during which Nathan Adler, 19, of 1204 Boynton Ave., the Bronx, and Jonas Schiffman, 18, of 84 East 137th St., both members of the Young Workers (Communist) League, were arrested, Rosner applied for admission to the summer school of the college, because he needed two more points to receive his degree. His application was returned with a note informing him of his indefinite suspension, with a postscript added to the effect that if he "acts like a good boy from now on," the faculty would "consider" his reinstatement.

SEAPLANE HUNTS AMUNDSEN

BERLIN, June 22.—A powerful seaplane, fully equipped for arctic flying, was held in readiness today to hop off for King's Bay as soon as its assistance was required by the commander of the supply ship Citta Di Milano. The plane was placed at the disposal of the Nobile relief workers by Lufthansa, Germany's great commercial air company.

GIANT PICNIC ON SUNDAY TO DRAW MILITANT LABOR

Party Planning Similar Events Thruout U. S.

None of the militant workers of New York will remain in the city this Sunday.

They will all be at Pleasant Bay Park, where the Workers' (Communist) Party has arranged the great "Red Picnic," one of the banner events in the present election campaign.

Not only will it be one of the great working-class demonstrations of the year, excelled only by the monster May Day demonstration held last month at Madison Square Garden, but it will be a day of merriment and comradeship for thousands of workers.

Indicative of the spirit of the affair will be the old-fashioned torchlight parade with a band and banner, with the candidates of the capitalist parties burned in effigy. Cal Coolidge will be ridden on a rail, and with him will be the new gold dust twins, Herbert Hoover and Al Smith.

From thousands of lusty throats will resound the words of the "International" and comradeship will be the keynote of the political holiday next Sunday.

Party Leaders There.

The principal candidate of the Workers Party in the coming national and state elections will be there, and will participate not only by outlining briefly, the issues facing the American workers in the campaign, but will also join in the merry-making activities of the day.

Proletarian sports and games and a musical program will feature the "Red Picnic." Mass singing of revolutionary songs will precede and conclude the various contests that will be staged.

The "Red Picnic" will follow the great demonstrations such as the Russian workers make of their field days. Workers' sport festivals and relay races will be on the program.

Other participants in the tournament will be the famous girl teams, Rosa Luxuemberg "B" and Rosa Luxemberg "A."

The Freiheit Gessangs Verein and Lithuanian Chorus will contribute a rich and varied program, an dthe Armenian Workers' Educational Clubs report that all arrangements have been perfected for an excellent program of Caucassian folk songs, rendered on Persian instruments of unique make. The club will also give a number of vocal selections.

CHICAGO "NEEDLE WORKER" HAS FETE

On Friday, Saturday and Sunday, June 29, 30 and July 1st, the Chicago needle trades workers will celebrate the first anniversary of their fighting organ, "The Needle Worker."

Meals, amusements and dances will be prepared for those three evenings in the Workers Club rooms, 2736 W. Division Street. Hundreds of workers are expected to attend the celebration and indirectly strengthen the financial basis of their paper.

No Word Yet from Amundsen Expedition

KINGS BAY, Spitzbergen, June 21.—No word has yet been received from Captain Roald Amundsen, who with four companions left Tromsoe, Norway, Monday night to rescue the Nobile expedition and who are now believed lost in the Arctic wastes.

General Nobile, whose publicity stunt for Italian fascism ended in disaster, is now safe together with five companions. They are believed to have sufficient provisions to last until rescued. Attention now centers on the ten other members of the Nobile expedition, of whom there is as yet no trace, and on the lost Amundsen rescue party.

TAMMANY RING GETS $5,000,000

Wrecking Market for Trucking Firm

Charges that Tammany Hall and Governor Alfred E. Smith, in particular, have deliberately wrecked the city wholesale terminal markets in the interest of the United States Trucking Corporation of which Smith for two years was head, were made yesterday by William Bullock, director of the City Affairs Bureau of the republican county committee.

Facts Verified.

While made in the interest of republican propaganda these accusations have long been known to be correct, it was declared yesterday in informed quarters. The wrecking of the city market, it was charged, has enabled the trucking corporation to obtain a monopoly on supplying the city supply of food which yearly totals over $5,000,000, and which would otherwise have come in by direct rail connections at a great saving to the workers.

Harry N. Taylor, president of the trucking corporation, denied the truth of the charge. Smith's activities in connection with the company of whose board of directors he was chairman are, however, well known. In the fall of 1926, for instance, the Tammany governor vetoed a bill for a tunnel to Staten Island under the Narrows in order that the trucking company might keep hundreds of thousands of dollars of trucking which otherwise would have been diverted.

Mayor Walker and Tammany Hall for two and one-half years have been conducting a persistent propaganda against the food terminals. They have crippled the Bronx market, which they found built when they took office. Not only have they failed to open that market but they have turned over nearly fifty-two acres of the city's land for railroad purposes to the New York Central.

Salaries of Teachers Law, Report Proves

WASHINGTON, June 21.—Salaries paid to elementary teachers in cities of 100,000 population and over range from a low minimum of $950 annually to a maximum of $3,504 annually, according to the United States Bureau of Education. New York City, according to the statement, has the highest maximum. This maximum, however, is paid to an infinitesimal fraction of one per cent of teachers in the United States.

Don't Cast a Scab Vote!

The activities of John L. Lewis in trying to break the strike in the coal mines of the Mellon interests, and his efforts to get the mine workers to vote for the presidential candidate of the big finance-capitalist party of which Andrew W. Mellon is the leader, are quite consistent.

Scabbing and underhanded treachery intended to destroy the organizations of the workers, and to defeat their strikes, are tricks that the miners have learned to expect of Mr. Mellon's flunkey, Lewis. But these same workers generally fail to understand the connection between recruiting strikebreakers as Lewis did, to break the Colorado strike while Rockefeller's troopers were murdering coal miners there, and Lewis' advice to workers to support the political party of Rockefeller.

Millions of American workers do not see this. Yet they must begin to understand that the government of the United States and the state and local governments within his country are governments of, for and by the capitalist class. They see that the capitalists pay for the political parties which control the government, but they do not see that the capitalist get what they pay for. Millions do not yet understand that a member of the working class has no more business belonging to a political party of the capitalists than he has to belong to an open-shop association or any other scab agency of the bosses. Many workers still fight the boss heroically on the picket line—and then vote for the boss' political party at the polls.

The labor fakers and shyster politicians make this profession of blinding the workers and encouraging them to continue this suicidal process one of their chief tasks. Bill Green and John Lewis are past masters at this swindle. Hillquit and Berger, Norman Thomas and Jim Maurer, the "socialists," are doing the same thing in a somewhat more disguised manner. They tell the workers to vote for the "socialist" party, but at the same time they see to it that their so-called socialist party supports the capitalist state. The socialist party is another capitalist party, adapted by Hillquit, Thomas & Co., to catch voters in the interest of the capitalists.

Democratic labor leaders, republican labor leaders, socialist party leaders, all say to the workers that the government is, and can be, above the classes. While the federal and state governments are shooting and jailing workers, issuing injunctions and policing the bosses' plants against strikers, the workers are led by these charlatans to think that the government is "impartial."

The capitalist government of Reading, Pa., for instance, is composed of Jim Maurer and his fellow socialist party leaders of that city—and the first act after being elected was to promise the capitalists to "protect" their "property rights" as never before, against the workers in any strike that might come.

Lewis advises workers to vote for the political party of the scab boss Mellon. Other labor fakers will advise the workers to vote for the party of the traction trust, the Wall Street-Tammany Hall candidate, Smith. The socialist party fakers ask the workers to vote for capitalism by voting for the Reverend Norman Thomas who rejects the revolutionary Marxian principles and accepts capitalism, and for Maurer who promises the capitalists to help break strikes.

All of these, who advise the workers to vote scab, are enemies of the working class.

The workers must be reached in this electoral campaign as never before in this country with the agitation which will teach them to vote as they strike—for their own working class cause against the capitalist class and against capitalism.

Workers and exploited farmers! Leave the Wall Street parties! Leave the strikebreakers' parties! Vote as you strike! Vote Communist! Join the Workers (Communist) Party!

An Alarmist Professor

STANDING ROOM ONLY? By E. A. Ross, Ph. D. Century Co.
Reviewed by SCOTT NEARING.

THIS is a book into which the author has crammed dire predictions of unchecked population increase with its consequences in hardship, poverty, famine and premature death. Malthus in his most alarmist mood was an optimist in comparison with Professor Ross.

Malthus predicted a geometric increase in population with a much less rapid increase in food supply. His positive checks on population included war, disease and famine. In his time, however, disease and famine still continued to play havoc with people in all parts of the world.

* * *

Ross points out that within the last 50 years birth rates have been depressed by various birth control methods. During the same years, however, the advances in public health have reduced the death rate to such a point that the surplus of births over deaths is in many instances at least as great as it was in the time of Malthus.

What are the food possibilities of the world?

Ross quotes competent authorities to indicate that at least several times the present world population could be adequately supported on the world's available sources of food. He cites equally conclusive figures to show that, in the course of centuries, if the present rate of human increase continues, population will exceed the food supply possibilities as they are estimated at the present time.

The world population is now about 1,800 million. If the present rate of population increase continues, it will be 5,380 million in 2028; 17,040 million in 2128; 53,930 million in 2228, and 170,710 million in 2328.

* * *

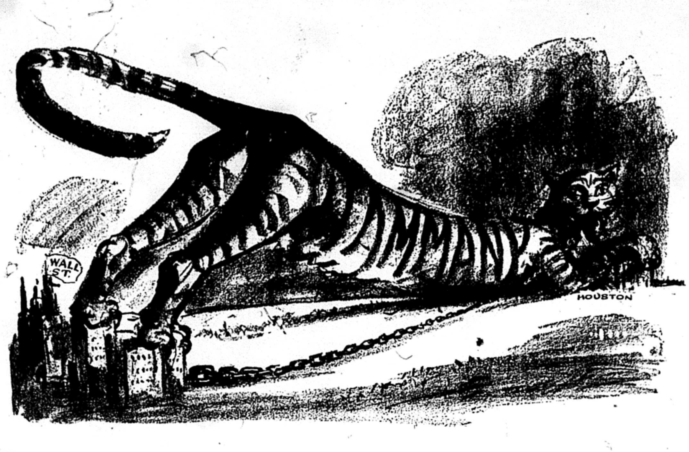
PROFESSOR ROSS'S analysis is clear and very convincing. His arguments, backed by an ample array of facts, lead to but one possible conclusion: mankind must put some rational check on the birth-rate; must regulate population increase in proportion to the possibilities of support.

The obvious next step for Professor Ross, after proving the need for limitation on population, is to outline an equally clear program for the control of birth, indicating the character of the campaign and the groups in society that can be relied upon to make the campaign effective. Social statesmanship can be content with nothing less, and Professor Ross, as a seasoned student of social affairs, must know that "scare heads" stir people up but that only simple slogans and clear-cut, understandable working programs accomplish scientific results in the field of social organization and administration.

"Standing Room Only?" is a scare head without any adequate social program. In this respect it is typical of the great majority of studies turned out from American college laboratories and libraries of social science. The case is stated, the facts are presented and there the professor stops.

"PR—R—R!"

By Fred Ellis



Foster's Acceptance Speech

(Continued From Previous Issue.)

Oppression of Negroes.

Comrades, one of the planks in our Party platform deals with the question of the oppression of the Negro race. This plank I want to emphasize here. The Workers (Communist) Party appears in the United States as the sole champion, organizer, and defender of the Negro race. Our fight is for full social, political, and industrial rights for Negroes. In all our work we must keep this phase of our Party program squarely before our eyes. In the past we have been all too inactive in this respect. But we must make this campaign the beginning of fresh efforts to unite the Negroes in behalf of their race and class interests, so that the world can recognize that the Workers (Communist) Party is really the defender and leader of the oppressed Negroes in this country. (Applause.)

At this time I shall not deal with the whole Negro question. There is only one angle that I want to touch upon now. Our election campaign will take us into the southern states. (Applause.) We have a plank in our platform on the Negro question that will arouse the most violent opposition in every element in the South that is determined to hold the Negro race in subjection. Nevertheless, we will go into the ultra-reactionary South and we will speak for the Negro. We will defend our platform. (Applause.) In the land of lynch law we will denounce lynching. (Applause.) In the home of Jim Crow, we will attack segregationism. (Applause.) The entry of the Workers (Communist) Party into the South, and the bold raising of the issue of the emancipation of the Negroes during the coming election campaign, will stand out as one of the historical events in the development of the class struggle in the United States. (Applause.)

The Political Parties.

Comrades, let me give you just a brief characterization of the various political parties. The workers have nothing to look for from the republican and democratic parties except a continuation and intensification of the hardships under which the workers suffer. Both are controlled by big capital. A list of the campaign fund donators to either party reads like a roster of trustified industry. Both represent the interests of big business. Their whole record is one of oppression of the workers for the benefit of the employers. In its policies the democratic party is as much the party of big capital, of big bankers and manufacturers, as the republican party itself. Smith is just as loyal a servant of capitalism as Hoover.

Between the two old parties there are no real issues. The issues that once divided them, the tariff, states' rights, etc., money question, etc., no longer play this role. Such differences as exist over farm relief, prohibition, religion, etc., are not differences between the old parties but of groups within each of them. The capitalists have made themselves masters of both big parties, with their miscellaneous following, and use them to further their own class interests.

The reactionary trade union officials who call upon the masses of workers to vote for the candidates of these two old parties are misleaders of labor. They betray the workers into the hands of their class enemies. They are the political lickspittles of the republican and democratic politicians, the agents of the exploiters of labor.

What is true for the workers regarding the two old parties is equally true for the poor farmers. All that the farmers can expect from the republican and democratic parties is support of the railroads, banks, meat packers, elevator combines and various other capitalistic interests robbing the farmers. Coolidge's recent cold-blooded, sneering, sarcastic veto of the McNary-Haugen bill shows the contempt with which the republican party, controlled by the great financiers of the country, looks upon the demands of the farmers for relief in their present crisis.

The socialist party is equally a blank so far as the workers and poor farmers are concerned. The socialist party, which carried the revolutionary traditions in the United States when the left wing was a section of that party, now has nothing to offer to the toiling masses but sellouts. It is an ally of the corrupt trade union bureaucracy. Its policy of betrayal expresses itself on both the political and industrial fields.

On the industrial field the socialist party makes no campaign for the organization of the unorganized masses, no struggle for amalgamation of the old trade unions, no fight against the widespread wage cuts and speed-up; on the contrary it accepts the craft union, class collaboration policy of Green, Woll, etc., to company unionize the trade unions. The socialist trade union leaders, who are the mainstay of the socialist party, are part and parcel of the corrupt dominant union leadership. They make no fight against Green and Woll but war to the death against the left wing, against every Communist in the labor organizations, against every element trying to build the labor movement and make it a fighting weapon in the interest of the workers. The socialist party is hopelessly wedded to the trade union bureaucracy and its corrupt practices.

On the political field the socialist party likewise makes no attack on capitalism. The socialist party cultivates amongst the workers every illusion and practice tending to strengthen capitalism. It preaches pacifism, class collaboration, parliamentary opportunism, capitalist efficiency socialism. It makes no effective fight for the workers' interests now, it does nothing to educate and organize them for the eventual revolution. Its impossible programs of trying to reform capitalism amounts in reality to a surrender to the present social system. Norman Thomas, the nominee of the socialist party for president, is in fact only a camouflaged defender of capitalism, a disguised supporter of the present system of exploiting the workers. The socialist party program tends to break up all real militancy amongst the workers. In a more revolutionary period it would express itself by the most flagrant betrayal of the revolution. This is amply proved by experiences in Germany, France, in every country in Europe. Had it not been for the flagrant sellout of the workers' cause by the social democratic party, capitalism would have been destroyed in Europe in the great revolutionary struggles immediately following the world war.

The proletarian party and the socialist labor party are but phrase-mongering sects. They play no part in the struggles of the working class.

Only the Workers (Communist) Party offers a program capable of organizing the workers for their everyday struggles and to prepare them for the revolution. I have already given you some broad outlines of this program. I shall not repeat what I have already said. But I must emphasize one more phase of our program. We must advocate energetically and clearly in the present campaign the formation of a labor party based on trade unions and other labor organizations. So long as the great masses of workers affiliate themselves to follow the line of the two capitalist parties, so long will they be poisoned by capitalist propaganda and so long will they be a zero politically.

The Workers (Communist) Party is the real fighter for the labor party. The socialist party, the ally of Green, Woll & Co., sabotages on all fronts the fight for the labor party. The Workers (Communist) Party makes a militant struggle to establish the labor party. But our Party has not illusions that the labor party will lead the masses to their emancipation. It will not. That is the task of the Communist Party. Inevitably a mass labor party in the United States will be filled with reformist illusions. But in the present period, when we have to break the masses from the old parties, it is a step forward. On this basis the Workers (Communist) Party supports the labor party.

Build the Party.

Now, comrades, let me emphasize a matter of basic importance for us in the present campaign. That is the building of the Workers (Communist) Party. Tremendous tasks confront our Party. I have already cited some of the most important of these. Our Party is small. Our Party is weak. But, it must be made large and strong. Our Party must be built up vastly in order to carry on the great struggles confronting it. This Party building can be done if we but proceed energetically along the proper lines. Around our Party are thousands, tens of thousands, yes, I can say a couple of hundreds of thousands of workers who sympathize in a general way with our struggle. From this great mass of workers, just awakening to the class struggle, we must draw new elements in large amounts to fill up and build our Party. In this way it can be made strong to carry out the great tasks confronting it.

The presidential elections campaign must be utilized definitely for the building of our Party, and its press. The campaign will be a failure if we do not succeed in doubling the membership of the Workers (Communist) Party. (Applause.) And all that I have said about the necessity of building the Workers (Communist) Party applies with equal force to the building of the Young Workers League. (Applause.) In every struggle in which our Party participates we find that the youth, the young workers, are playing an increasingly important role. In the industries they form a bridge between the native born workers and foreign workers. In the new unionism that is now beginning slowly to emerge the leaders will not be the old fossils and reactionary figures of the old trade unions, but new elements recruited from the youth of the country. We must build the Young Workers League. (Applause.)

Comrades, just a word in conclusion. Let us go into the election campaign in the sense that I have expressed our tasks. Let us not be discouraged by the magnitude of the problems confronting us, by the strength and arrogance of the enemy, by the weakness of our own forces. Today our Party is small and the parties of the capitalists are large and strong, but the day will surely come when the Communist Party will be the only political party in the United States. (Applause.) On that day it will be the Party of the victorious proletarian revolution. (Applause.)

In this period the American working class is relatively apathetic. But forces are at work, forces bred of the failures and contradictions of the capitalist system itself, forces that drive the workers into deeper oppression, that will one day, sooner perhaps than we realize, awaken them, radicalize them, revolutionize them and prepare them for a real attack against capitalism. Let us then build our Party in the daily struggles and in preparation for the revolution. Let us make our Party into a worthy brother of the Communist Parties of the Soviet Union, Germany, France, England, Czechoslovakia, China, and other countries, which under the leadership of the Communist International, are gradually mobilizing the working masses of the world for the overthrow of world imperialism and the establishment of the International Socialist Republic. (Applause.)

(This concludes William Z. Foster's speech accepting his nomination as presidential candidate of the Workers (Communist Party. The speech of Benjamin Gitlow, accepting his nomination as vice-president of the Party, will appear in the next issue.)

LABOR LAWS FAIL TO GET HATMAKERS PAY

(By a Worker Correspondent)

LOS ANGELES, Cal., (By Mail). Several women hatmakers have complained to the local office of the state labor commissioner that Mrs. Charity Courtright, 747 South Hill street, proprietress of a wholesale millinery establishment, failed to pay them wages. Records of complaints are on file in the labor office at 416 South Olive street.

Mrs. Mary Reed, 653 West 59th street, who claims Mrs. Courtright owes her $66, asserted that she failed to receive action through the labor office. Other claimants, who say the same thing were: Mrs. Sallie Lore, Miss Estelle Parsons, Bebe Bywater and Peggy Monton. These women, or the first four of them, also have sworn out complaints thru the city prosecutor's office, separately charging that Mrs. Courtright violated the state labor law.

"The commissioner's office admitted that Mrs. Courtright had two previous offenses," Attorney Joseph Bernstein said, "but still refused to issue a warrant for her arrest because of his retention as attorney.

"If claimants retain counsel without ever having consulted us, we cannot handle their claims," Charles F. Lowy, attorney for the labor department, declared. "This attorney came to us and demanded that we arrest the woman and collect the account. If collected he would then get his fee for work we have done. Their only course of action as far as we are concerned is through civil suit."

Mrs. Reed, answering Mr. Lowy, claims she and her co-claimants retained Bernstein when they saw others fail in their attempts to get action from the labor commission.

Although unable to pay those who have claims against her, Mrs. Charity Courtright had advertised several times for women workers, Mrs. Reed stated.

Anyhow, the case of the defendant will be heard June 21. Whether or not the court will be as charitable with Mrs. Charity, etc., as the 'labor' commission, remains to be seen.

The progressiveness of California labor laws, enacted during the governorship of U. S. Senator Hiram Johnson, can be measured by their teethlessness. —L. P. RINDAL.

HANdOuTS

According to the capitalist papers Chang Tso-lin has died again. This is seven times in two weeks which is the highest mortality rate for any one man in the history of medicine.

* * *

Emilio Carranza, aviator who flew in from Mexico received a letter of congratulation from President Coolidge. This makes the list complete. Practically everyone now has a letter from the president. If you didn't get one you should write in immediately to Washington for yours.

* * *

The embroidered knee pads for submissiveness go to Dr. Henry Noble Mac Cracken, resident of Vassar college who defends the meekness of his institution before big business in the following words:

"My mission today is to repel the baseless charge that the colleges for women are lawless, that they teem with a subversive life, that we train students against law and government and that in the words of a high official we are 'enemies of the commonwealth'. There is no place within the United States more scrupulously organized for the processes of law and government."

Suggestion as to whether he is making his appeal to the working or wealthy classes is contained in his announcement that gifts during the past year amounted to $891,686.

* * *

An illuminating contribution to contemporary economics is made by the Atlanta, Ga., Chamber of Commerce in an ad in The New York Times inviting the bosses to establish branch plants in Atlanta:

> "For production and distribution from Atlanta are more profitable—and we can prove it. You save because labor is recruited from efficient, willing Anglo Saxons. . . ."

[illegible] MINER IS F[illegible]ILTY IN DYN[illegible] CASE

Jury Packed With Mine Officials

(Special to The DAILY WORKER.)

WHEELING, W. Va., June 21 (By Mail).—Convicted in a framed-up dynamiting conspiracy in a trial in which the jury and the chief witnesses were mine officials and scabs, Frank Brbot, striking miner of Triadelphia, faces the eütreme penalty unless the mass protests of the working class can force his release.

Appeal to Prejudice

"And I ask every member of this jury as an American citizen, to bring in a verdict of guilty." With this appeal to anti-foreign jrejudice, A. C. Schiffler, prosecuting attorney of Wheeling County, closed the state's case against Brbot, who was convicted wednesday, June 20, of taking part in the dynamiting of a scab's house.

Argument on a motion for a new trial was opened Friday by Attorney Charles Roger Ahrens before Judge [illegible]itz in intermediate court. Though [illegible]bot was an active picket and [illegible]ked energetically for the furtherance of the strike, and though the majority of the state's witnesses were mine officials and scab employes, the defense was not permitted at any time during the two-day trial to introduce the strike as an issue directly involved in the case. One of the chief witnesses against the striker was O. B. Pryor, superintendent of the Triadelphia No. 2 mine of the Elm Grove Mining Company, where Brbot had been employed.

The prosecution's case was based on a confession wrung from Brbot by beating him into a state of semi-consciousness on the lonely hillside road where he was arrested.

A bit of irony flitted through the

(Continued on Page Two)

JAILED MINERS ARE RELEASED

Judge Advises Football but No Picketing

(Special to The DAILY WORKER.)

WHEELING, W. Va., June 24.—Oscar Guynn, young Ohio Save-the-Union strike leader, and the eight pickets from Triadelphia who were among the hundred that stormed the Ohio county jail here in protest against his arrest Monday, June 11 were freed Thursday, June 21, by Justice John Kindlberger. All were charged with disorderly conduct.

Most of the nine are 21 years old or younger. Squire Kindleberger advised the pickets "to confine their enthusiasm to foot-ball games in the future."

Guynn was arrested while addressing a mass meeting on private property which had been secured for the gathering. He was preceded by Frank Henderson, another young Ohioan, who had spoken for 40 minutes without molestation. When Guynn started to speak he was seized by state troopers. More than 100 strikers piled into autos and trucks and sped to Wheeling to demand Guynn's release.

The nine were defended by Attorney Charles R. Ahrens, retained by the International Labor Defense. When the strikers assembled in front of the jail and protested that Guynn had committed no offense, Sheriff Henderson ordered them to disperse. When they rfused, state troopers charged into the crowd and arrested eight including Henderson, and Betty Gannett, who had led the miners to the jail.

3 MARINE FLIERS KILLED IN CRASH

RICHMOND, Va., June 23.—Three aviators in an airplane on the way from Washington, D. C. to Nicaragua were killed yesterday when the plane made a nose dive near Bowling Field. Va. The avitors were Major Charles A. Lutz of the Marine Corps, Lieutenant H. T. Busbey and Corporal D. C. McChesney.

Major Lutz was scheduled to relieve Major Ross E. Rowell, now in charge of bombing native villages in Nicaragua.

RAILROAD ON ARCTIC COAST

What is said to be one of the oldest railroads in the world is in The Soviet Union. It was built to open up a port on the Arctic Ocean. Its northern terminus is Murmansk, 147 miles north of the Arctic Circle.

It is the only line operating dining car service in the Polar regions.

Seeks Aid for Miners

Mollie Sokol, shown in the picture, is the wife of a striking Pennsylvania miner. She is at present in New York City where she addressed an enthusiastic meeting recently. She plans to go to Philadelphia soon to carry on work for the striking miners in that city.

NEW CRISIS FOR "DAILY" LOOMING

Workers Must Keep Up Aid Over Summer

With all of the $10,000 raised by the militant workers of this country to save The DAILY WORKER already turned over to creditors to meet immediate obligations, the possibility of a new crisis within the near future begins to loom.

The importance of securing The DAILY WORKER for the summer months now becomes more apparent than ever. The "Daily" is in the position of a convalescent person, who, though he has successfully fought through his illness, is so weakened that he is in imminent danger of falling prey to some new disease The crisis of The DAILY WORKER has been successfully passed, but the "Daily" is without resources for the future and the piling up of new bills may at any moment precipitate another—perhaps as even more serious—financial crisis.

It is up to the militant workers of this country to tide the "Daily" over the summer, the most difficult period of the year. The sharp falling off of contributions during the last few days points to a danger. The DAILY WORKER ust not again face such a situation as it was confronted with only a short time ago, when its life was saved only by the generous response of workers throughout the country The eüistence of the "Daily" must be secured by a continuation of this response.

Camp Aids

That class-conscious workers are realizing this and are preparing to assure the Daily's eüistence is evidenced by a decision of the directors of Camp Trombenick, a workers' camp at Glenham, N. Y. This camp, which is ordinarily open only to members, will take in about 100 visitors over July 4 and turn over all the profits to The DAILY WORKER and the striking miners. The camp has also contributed $31.50 to the "Daily" and will send more.

Another organization that is helping to keep The DAILY WORKER going is the Workers Club of Chicago, which has sent in $75. Workers and workingclass clubs of various kinds must follow the eüample of these two organizations if The DAILY WORKER is to continue fighting in the interests of the American workingclass.

Contributors

The following is an additional list of contributions that helped save The DAILY WORKER:

New Compensation Law in Effect in Quebec

QUEBEC, June 24.—A new workmen's compensation is now in effect in the Province of Quebec Workers here state that they are dissatisfied with it. The governing commission is composed of three, with an advisory board of five. Labor sought representation on the commission, but was turned down.

6 ARRESTED BY COAST POLICE IN "RED RAIDS"

Anti-Imperialist Heads Are Seized

LOS ANGELES, Calif., June 24.—The beginning of a nation-wide persecution of Japanese and other Oriental workers is seen in the arrest of three Japanese, and the same number of American, workers in Los Angeles yesterday. It is expected that deportations will follow in the case of the three Japanese.

Following the police seizure of N. Nishimura, Y. Yamgehi and M. Kawaü, three Japanese, accused of Communist activities here, members of the bomb squad also entered the headquarters of the All-America Anti-Imperialist League at 122 West Third street, and arrested George Maurer well-known labor leader Edith Berkman, the local secretary of the All-American Anti-Imperialist League and Paul C: eiss, agent for The DAILY WORKER in the Los Angeles district.

Maurer and his companies were rushed to police headquarters where after a severe questioning, which lasted for nearly an hour, they were finally released.

The arrests are the result of the activities of the California police in running down alleged Communists and members of the All-American Anti-Imperialist League. It was in search of the latter, the police claim that they arrested the three Japanese workers.

Immediately after their raid, the police communicated with the Japanese consul, Midzusawa, who declared that his government is prepared to take extraordinary measures to assist the United States in suppressing Communism among Japanese immigrants in this country. None of the men arrested is said to be an American citizen.

Steps have already been taken to deport the three Japanese workers and it is blieved that a wholesale persecution of Japanese and other Ariental workers on the west coast is preparing.

The Los Angeles group of militant Japanese Communists is made up of farm workers and students, the police assert. Documents, which the police assert they found on the arrested workers, are being despatched to Tokio to assist the Japanese government in arresting leaders of the Communist Party in Japan.

ARMY MEN GET DAILY WORKER

Young Communists Distribute Paper

Girl members of the Young Workers (Communist) League distributed large numbers of The DAILY WORKER with the demands of the League for soldiers to servicemen Saturday evening at Battery Park. At the ferry gates, as soldiers were landing from Fort Jay on Governor's Island, the papers were given to them. Many began reading The DAILY WORKER at once and noticed the demands in their interests made by the League. A large number of the servicemen immediately expressed their appreciation and interest in the workers movement.

Many officers were nearby, as well as military police, but in spite of them the soldiers welcomed the papers and asked many questions of the League members. One asked for a number of extra copies to distribute to his fellow servicemen. Some of the officers of lower rank also began discussions with the League members.

One of the officers admitted that both the democratic and republican parties are ruled by Wall Street.

BUILDING WORKERS GAIN

JAMESTON, N. Y., June 24.—Building workers in this city are winning the five-day week. Painters plasterers and lathers have succeeded.

Arrest Militant

PAUL REISS

DEMOCRATIC MEET OPENS TOMORROW

Stage Is All Set for the Choosing of Smith

HOUSTON, Tex., June 24.—With the complete collapse of even the fake opposition of Senator James A. Reed, of Missouri, the stage is all set here for the several hundred mannikins who on Tuesday will begin going thru the motions of choosing Gov. Smith as the democratic candidate for president. Reed has declared he would support the ticket, no matter who runs.

Set against the background of the Negro lynching which occurred here several days age and which all the delegates have been finding it convenient to forget, the convention of the party that flavors its complete subservience to Big Business with remnants of southern feudalism will probably see even less "opposition" to the picked candidate than did the republican partyy convention at Kansas City.

Moody Rallies "Opposition."

At present this so-called opposition seems to be grouping itself around Gov. Dan Moody of Texas. Moody is supposedly rallying the "dry" forces, but his supporters include a number of "wets" as well. He is also being groomed as a possible running mate for Smith.

The great "issue" of the convention ostensibly centers around the prohibition plank. It is thought likely that Gov. Smith will be persuaded to modify his uncompromising wetness sufficiently to please both sides and gather in the votes of "drys" as well as "wets."

To Beg For Crumbs Again.

Having been twice thrown out of the convention hall at Kansas City, the delegation of so-called leaders of the farmers is preparing to try its luck at the democratic convention here. There is a strong possibility that the democrats will ceize the opportunity of making political capital out of the complete ignoring by the republican party of even the mild demands of this delegation by granting a few unimportant concessions in the hopes of rallying the farm vote.

While the traction interests of New York City prepare a new steal, the imminent arrival of their close friend, Mayor Walker, who will act as Smith's floor leader, is awaited here. Another Smith backer reported on his way is William F. Kenny, traction baron and contractor, who expressed his gratitude for the fat contracts that Tammany Hall sent his way by contributing thousands of dollars to the slush fund of its favorite son.

* * *

(Special to The DAILY WORKER.)

HOUSTON, June 24.—Prohibition looms as the cloak under which a number of other still unsettled feuds within the ranks of the democratic party will be fought out when the convention opens next week. Among these the issues of the Klan, Tammany, Catholicism, so much on the surface at the 1924 convention are still known to be smouldering underneath the surface. But no great fire is expected to break out.

The anti-Smith combination is making little progress, for the best of all reasons that it is unable to forge sufficient organized force against the steam-roller sent here from Wall Street to nominate its second choice for president, after Heavy Herb Hoover, candidate of the republicans.

FIRST MEDICAL SUPPLIES REACH SANDINO FORCES

General Thanks U. S. Workers for Aid

The first shipment of medical supplies sent by American workers direct to General Augusto Sandino, thru the All-American Anti-Imperialist League, has reached the army of independence in Nicaragua. This information was made known yesterday with the receipt of a letter of gratitude from General Sandino, expressing thanks to the American workers for their aid and excoriating the Wall Street government of the United States.

First Relief.

"I am happy to inform you that I have received from the hands of Gustavo Machado (who came to our encampment as the representative of the central body of the Hands-Off-Nicaragua Committee) a package containing, cotton, bandages, and other medicines to cure the wounds of our soldiers," Sandino writes.

"We are especially delighted that you, honest North Americans, manifest in this manner your protest and disapproval of the policies of aggression that the existing government of the United States is carrying on in Nicaragua.

"We know that the majority of the North American people is not responsible for the ferocious crimes that the marines commit every day in our country. Notice came to us of the meetings and public manifestations against sending the marines to Nicaragua. We well know the situation of the working class of your country, who also are the victims of the oppression of the exploiters, the same interests that are now fighting to enslave the peoples of Latin America.

"We want to transmit through you the feeling of gratitude of our army of liberation of Nicaragua to the anti-imperialist fighters in the United

(Continued on Page Two)

MENTAL DOPE FOR TRAINING CAMPS

Preachers to Help in War Preparations

It was announced yesterday by military authorities of the Second Corps Area that among the instructors at the Citizens Military Training Camps this summer there will be a large number of preachers.

For Plattsburgh camp alone, the following peddlers of mental opium have been assigned: "Rev. Dr." George C. Lonington of the Reformed Church of America, Rabbi Benjamin A. Tintner, and the "Rev. Father" William H. Hunt, Jr., of the Roman Catholic church. They will be given military titles ranging from First Lieutenant to Major.

A corporation attorney, Howard L. Campion, of Brooklyn, has been assigned as an instructor and "director of recreational facilities" at Fort Niagara, N. Y., with the rank of Lieutenant Colonel.

The officers for Plattsburg and Fort Niagara will report July 2; and those for the calvalry camp at Fort Ethan Allen, Vt., will arrive July 5.

Railway Worker, Hurt On Job, Wins Meagre Payment From Erie

WHITE PLAINS, N. Y., June 22.—A settlement for $19,500 was reached today in the $100,000 suit brought against the Erie Railroad by Runyon H. Robinson, a former railroad employe, of Mount Vernon.

The settlement was announced by Supreme Court Justice William F. Bleakley this morning shortly after the trial entered into its second day. Robinson received injuries to his left leg on August 28, 1927 when as an employee of the Erie Railroad he met with an accident in the Jersey City yards while breaking a train of freight cars. The injuries necessitated the amputation of a portion of his leg.

BEAL SENTENCED FOR PICKETING; TO "TRY" 5 MORE

Led Picket Demonstration in New Bedford in Spite of Police Edict

Plan Larger Demonstrations Than Ever; Judges Refuse Delay to Murdoch, Beal

NEW BEDFORD, Mass., June 24.—Fred E. Beal, organizer of the Textile Mills Committee, and one of the leaders of the textile strike here, was yesterday sentenced to serve 30 days in jail for leading a picketing demonstration at the gates of the Nonquit Mills. Five other strikers were arrested while picketing this mill, in defiance of police order, and are to go to trial in a few days.

The attorneys for the scores of strikers under heavy jail sentences and fines have succeeded in getting continuations of their cases till November, but the Massachusetts judges are refusing to grant delays to the two leaders of the strike, Murdoch and Beal. The strike leaders' attorneys are now attempting to appeal to higher courts for reversals and delays.

This tactic of the mill owners of jailing the strike heads is proving fruitless as the rank and file picket leaders, developed during the struggle, are leading larger and larger demonstrations to the mill gates every day.

Exceptionally large demonstrations are planned for this morning, as the demonstrations have hitherto prevented the mill owners from attempting to open the plants. The strikers strike enters the 12th week. These are already beginning to mobilize all their forces for an offensive against the bosses, who do not deny that they will try to open the mill gates July 2. Although the strong determination exhibited by the wide masses of the 28,000 on strike, shows that there will be no desertions from the ranks, the workers are prepared to prevent the importation of scabs.

Thanks U. S. Workers

General Augusto Sandino, above, is the leader of the Nicaraguan army of independence. A letter written by him to the All-American Anti-Imperialist League thanking the American workers for aid sent to his troops has just been received in this country.

2 STATES START ELECTION DRIVE

Party Campaign Now in Full Swing

DETROIT, Mich., June 24.—Carrying on the militant spirit prevailing at the National Nominating Convention of the Workers (Communist) Party iin New York City, a mass conference of the Party members of District 7 to be held in Detroit on July 1 will discuss the tasks before the membership in the coming electoral campaign.

At Detroit in the heart of the American automotive industry, the Workers' Party intends to carry its message to thousands of workers in the automobile factories of Ford's own city. A large attendance of nuclei fro mthe automobile factories is expected, as well as from other shop and street nuclei, and large delegations from out of town.

A representative from the Central Committee of the Workers' Party will report on the possibilities which the Party has thruout the country. Party members in the Detroit district are being instructed to register so that they can take an active part in the

BLAST INJURES COAL DIGGERS

Miners Must Pay for "Safety" Device

CENTRALIA, Pa. (FP), June 22.—Miners working in one gangway of the Bast Colliery confused their charge-battery wires with those of another pair of miners nearby and by accident fired the prepared shot in the breast occupied by Charles Patrovich, 44, and Frank Polaski, 34. Both were seriously injured.

The Philadelphia & Reading Co., operators of the Bast mine, recently made a sweeping local campaign to compel miners to use batteries in place of fuse when firing shots. These batterised cost $15 apiece, and the miners were expected to purchase them from the company.

The miners refused, because they prefer fuses and object to paying the $15. The company then argued that batteries were necessary because they were "safer." Batteries were said to reduce the risk of gas explosions caused by applying gas matches to fuse in gassy places. The miners took the case to the conciliation board, where it is being thrashed out.

Meanwhile two miners using batteries are blown up by other miners out in the gangway who mistook the wires. Miners regard this as convincing proof that batteries are not so foolproof as the company would have them believe. It is told among miners that the company bought a pile of junk in the shape of batteries which they want to push onto the miner by compelling him to buy the device as a safety measure.

STRIKE CLOSES THEATRE

WORCESTER, Mass. (FP)—Musicians and stage hands' strike against the Plaza Theatre has resulted in its closing for the summer.

ILLINOIS MINERS REPLY TO LEWIS

Fight New Treachery of Machine

(By a Worker Correspondent)

BELLVILLE, June 24.—The rank and file miners of Illinois will not stand idly by while the Lewis-Fishwick machine continues to work out its scheme with the operators to force a back-to-work movement.

In the resolutions demanding that President Lewis call together the national policy committee to release the miners from the Jacksonville wage scale so they may negotiate a new scale with the operators, rank and file miners who know of this scheme see the hand of the betrayers, Lewis and Fishwick. They are now trying to save their meal tickets by having these resolutions introduced in various local unions. The Lewises and Fishwicks are responsible for this fatal policy and should be made to pay for it by removing them from office for their treachery

President Fishwick admits in today's issue of the 'Illinois Miner" that the policy which he helped to put into effect is wrong and says something must be done and still he continues to expell members who fought against this wrecking policy. The miners of the country will now recognize that the Lewises and Fishwicks are the ones who should be expelled in order to build a new and powerful union of the coal miners on a national scale.

BUILDING TRADES WORKERS IN PACT

Unions in Norway and USSR to Sign Treaty

MOSCOW, U. S. S. R., June 24.—A provisional agreement has been signed by a delegation from the Norwegian Building Workers Union and the Building Workers of the U. S. S. R. regarding cooperation between the two unions.

The agreement calls for the creation of a unity committee for common struggle against capitalism, for unity of the international trade union movement and against the war danger.

It is expected that the building workers in Finland will also acede to this agreement confirmation of which will be made at some time during the autumn.

1,500 TAXI DRIVERS FIRED SATURDAY

Open Shops Kick Out Those With 'Bookings' Below Minimum

Ffiteen hundred taüicab drivers were fired without notice Saturday night for falling below their quota of "bookings."

This action, in which all of the open-shop taüi companies in the city acted as a unit, came after many of the drivers had worked as long as 16 and 17 hours at a stretch in an effort to overcome the effects of the bad weather which cut down fares below the $15 minimum required of them.

Taüi drivers throughout the city are aroused at this action of the cab companies, which comes as the climaü to a long series of persecutions in which the police have taken an active part. The minimum booking system in force in all the companies is used to drive the workers and intimidate them into submissiveness, taüi drivers say. The viciously open-shop Yellow Taüicab Co. fires all day men whose bookings are less than $60 and all night men with bookings less than $70 on a six-day shift.

The owner of a fleet of Mogul checker cabs in Harlem is reported to have blusteringly told his men: "I never fire a man. He fires himself." Paramount and Packard cab fleet owners have also been hounding their men mercilessly. In addition, constant police persecution with fines and suspensions clapped on for no reason at all and licenses frequently

(Continued on Page Two)

Paul Crouch, Ex-Serviceman, Calls Workers to Free Porter from Army Jail

MUST CAMPAIGN TO END SOLDIER STRIKEBREAKING

Real Struggle With War Department Now On

"John Porter must be released from his military prison by the power of the working class," says Paul Grouch who was himself a soldier and was sentenced to 40 years imprisonment for organizing a Communist League in the army, but was later released, after more than two years, as a result of nation-wide protests.

"The arrest of John Porter, a militant leader of the New Bedford textile strike and an organizer of the Young Workers (Communist) League, is not surprising to anyone who knows the army and the purposes for which soldiers are trained," says Grouch. "The fact that Porter is a former soldier, who realized the purposes for which he was being used and refused to be a tool of the master class any longer, will make the military authorities especially vindictive, and no mercy or justice can be expected from a court-martial.

Joined League.

"Porter did not follow a correct policy in deserting from the army but at that time he was not a member of the Communist youth league, and has just realized the role of the army against the working class. At that time he did not yet understand the importance of class conscious soldiers remaining in the army to win their comrades over to the cause of the Revolutionary workers. What he did do was to go on strike against being a strike-breaker—and every worker who is true to his own class must get behind the nation-wide drive which alone can free John Porter from a long sentence to the military prison at Governor's Island.

"The sentences of 40 and 26 years which Walter Trumbull and I received in Hawaii in 1925 was intnded as a warning to soldiers that they must not dare think for themselves and must be ready 'to do and die and not to reason why.' We were saved from life imprisonment by the organized power of the working class, and the same method can free Porter.

Why Jailed?

"The imprisonment of John Porter inan army jail is not because he is a deserter. It is because he is a militant textile strike leader who could not be forced from the struggle by five arrests and a five months' jail sentence. As a last resort, his finger prints were compared with those who have deserted from the army in the hope of finding another method of disposing of this young fighter for the workers' cause.

"If Porter is permitted to be sent t othe military prison at Governor's Island, where indescribable horrible conditions exist, it will mean that the army will increase its efforts against the workers and that its intervention in strikes will become more frequent.

Test Case.

"As the power of the class-conscious workers becomes a greater danger to capitalism, the armed forces—the last defense of the exploiters—are called upon the exploiters. We must begin now to conduct intensive propaganda to win over the soldiers who come from the ranks of the workers to their own class so that they will refuse to be strike breakers.

"The Porter case is a test case. It must be answered by the entire power of the working class—by a huge drive that will bring the War Department to its knees and release this militant young worker—who symbolizes the unity of soldier workers with civilian workers in their common struggle."

Lure West India Labor To Nicaragua to Toil On Coffee Plantation

WASHINGTON, D. C., June 24.—Labor contractors in the West Indies are being paid $7 a head for all of the workers sent to Nicaragua, according to charges made by the West Indian Workers' Federation.

Hundreds of workers have been sent to Nicaragua to work on coffee and banana plantations where they receive extremely low wages.

Tammany Toots Election Horn, Collects Graft, Leaves Streets Unpaved

While the Tammany bandwagon rides merrily along a pathway of graft to the democratic convention at Houston, residents of Brooklyn streets are compelled to resort to temporary ineffectual measures to make streets passable to vehicles and pedestrians. Above, residents tired of being ignored by Tammany repairing the street.

POWER BARONS BUY UP PAPERS

Editors Work for Trust, Evidence Shows

WASHINGTON, (FP), June 24.—Tennessee newspapers have been singularly pliant and eager to serve the private electric trust in its campaigns to grab Muscle Shoals, evidence taken by the Federal Trade Commission on June 22 demonstrated. Guy P. Newburn, former newspaper man of Memphis and Mobile, director of the Tennessee Public Utilities Information Bureau explained how this support of the newspapers was secured.

"In the first place, Newburn was a "mixer" and knew most of the influential editors in Tennessee. Then he employed as his assistant Hugh Doak, owner and editor of the most important country weekly in the state, the Manchester Times, at $225 a month. Doak had been provisional field secretary, for two years, of the State Press Assn., and now is its president. Giving dinners to editors, Newburn testified, was "part of my job." He and Doak both have an expense fund for editors.

Then there was Dan McGugin, nationally famous football star and coach of the Vanderbilt University eleven, who is also a lawyer and is publicity director for the power interests in eastern Tennessee. What editor could hesitate to print an article favorable to private ownership of power plant, when Dan McGugin handed it in?

Lobbyists Combine.

Major Stahlman of the Nashville Banner had been credited with insurgent views on the distribution of surplus power from Muscle Shoals but he came into camp. There was a conference at Memphis, too, arranged by C. A. Beasley, Washington lobbyist for the Alabama Power Co., with the late C. P. J. Mooney, editor of the Memphis Commercial Appeal, in 1926. Mooney was promptly converted to support of the Associated Power Companies' bid for Muscle Shoals, and opposed the Cyanimid bid for that giant source of power. When nine publicity agents for the power combine were summoned to Washington at the time the Associated Power Companies' bid was made, Newburn called up Mooney by long-distance phone, and arranged that the Commercial Appeal should broadcast the story which Newburn wrote for the paper's Washington correspondent.

Maintains Magazines.

This Tennessee propaganda bureau of the power combine issues a monthly magazine containing numerous attacks on public ownership. These are sent to schools, libraries and utility offices, as well as to state legislators. Newburn printed in this magazine last December an article taken from the financial column of the New York Telegram, a Scripps-Howard newspaper, wherein Ralph Hendershott, its financial editor, said of the Walsh resolution for investigation of the power trust: "Though entirely uncalled for, such an investigation would probably react favorably rather than unfavorably toward the companies in question. If nothing else, it would probably prove beyond a doubt, to a certain type of politician, that the days when they could make political capital out of attacking legitimate business enterprises are past . . . The companies should have no difficulty in proving to Congress that their business is being conducted both legitimately and ethically."

Pamphlets asserting that electric power and light companies are strictly regulated by the state governments, and that they do not earn any profits "in the ordinary sense," were purchased from the American Gas Assn., along with like propaganda as to gas and street railways, and were placed, by thousands of sets, in the high schools and libraries. Newburn wrote that his relations with the University of Tennessee were closely co-operative. He explained his pamphlets at a meeting of the State School Officers' Assn., and various executives of utility companies placed stocks of the pamphlets in the schools in Memphis and elsewhere.

In Newburn's files was a copy of minutes of the Natl. Electric Light Assn. meeting of June, 1923, at which Earle W. Hodge, Arkansas propagandist, said: "If we have any propaganda we so conceal or sugar-coat it with boosting and working for art, that it is generously entered into and gotten back of by all the chambers of commerce, civic clubs, men's and women's organizations all over the state."

Huge Worker Death Toll

Industry took a savage toll of life in New York State last month. Eight men were electrocuted through contact with live wires. Explosions burned and seared the life out of six workers. A welder and a carpenter died of burns when their clothing caught fire. One man was burned to death when a pot of flaming paraffin spilled over him. Another was burned to death when the tank car from which he was drawing gasoline caught fire. Four window cleaners met death in dizzy plunges. Five were killed in falls from ladders and scaffolds. Among 191 victims to industry were 10 women and eight children. 101 widows and 94 children were left by workers killed, according to a partial checkup.

ELECTION DRIVE ON IN 2 STATES

Party Campaign Now in Full Swing

(Continued from Page One)

primary election on September 4.

A Fourth of July picnic will be used as the opening for the campaign in District 7. All arrangements necessary for the success of this picnic is being made and the district expects a bigger turnout than ever before. The July 4th picnice is a party picnic for the purpose of raising finances to conduct our work. The July Fourth Picnic will be held at Rochester Park, between 16 mile and 17 mile roads.

Directions: By Auto: Out Woodward to Main St., thru Royal Oak to Rochester Rd., Picnic Place. By Street Car: Woodward car to Ford's, Big Beaver Bus to Park.

• • •

Connecticut Campaign.

HARTFORD, Conn., June 24.—The Communist Party campaign in Connecticut, is now in full swing. A list of candidates who are well known in the state will be submitted to the voters in the fall elections on the Communist ticket.

The job of getting the Partyy nominees on the ballot is now the main task of the Party in Connecticut. The success of the Party in mobilizing the membership for miners' relief and other capaigns is a guarantee that the necessary number of signatures will be forthcoming and that the Party will be able to establish itself more firmly than ever among the masses as the only political party of the workingclass worthy of its support.

Coal "Justice" Again Shows Teeth

(Continued from Page One)

court room as Fred H. Brinkman, assistant prosecuting attorney made the closing speeches for the state.

"The defense claims that Brbot's confessino was extorted through him by beating and that he was not responsible for any statement he made at the time of his arrest," Brinkman stormed. "Does this man look sick or injured now?" the prosecution demanded. "See him. There he sits and hale and hearty, a big, strong and capable man."

Brbot, pale from his month in prison and weak from the effects of the mistreatment he received, could sit upright in his chair only by supporting himself heavily on the table in front of him.

No Medical Care

Prison attendants admitted on cross-examination that Brbot received no medical treatment until six hours after he was brought to jail.

The prosecution capitalized the fact that Robert Chester who lived in the house damaged by the blast of which Brbot was accused, is a cripple. The non-union miner lost both legs under a slate fall in Pennsylvania thirteen years ago.

Rayon Workers Lose Eyesight After 2 Years

GHENT, Belgium, June 24.—The convention of the International Textile Workers Federation here has got no further than discussions. The most significant point reached during the debates was a formal "appeal" by the reformist leaders to the international labor office of the League of Nations to investigate conditions among the rayon workers. It is charged that the rayon workers are blinded after two or three years work.

English workers voiced their opposition to the [illegible] system, saying that it would [illegible] unemployment. Wage allowances for large families and works councils were warmly debated, and opposition to war voted. The next congress will be held in Berlin in 1931.

1,500 New York Taxi Drivers Are Fired

(Continued from Page One)

taken away has aggravated conditions beyond the point of endurance, taxi men declare.

Many of the drivers, in order to make up their minimum bookings, are compelled to put their tips on the meter and so lose a substantial source of their income. The sentiment for organization among the 60,000 cab drivers in this city is strong, reliable reports indicate, and the summary firing of 1,500 of their number, is expected to act as a spur to organization efforts.

SANDINO THANKS U.S. WORKERS FOR SENDING HIM AID

Revolutionists Receive Supplies

(Continued from Page One)

States for sending medicines, asking them at the same time to make known our opinion of the indifference of the North American people who permit the systematic extermination of a defenseless people by a country that is not officially at war, in violation of the constitution of the United States."

Carried On Horseback.

The medical supplies were sent by the Anti-Imperialist League to Dr. Turcios, Sandino's representative in Honduras, and were delivered directly to the Sandino encampment in Chipote by Gustave Machado, secretary of the Hands-Off-Nicaragua Committee of Mexico City. Machado made the perilous trip from Honduras to Sandino's camp on horseback to deliver the supplies. He was able to avoid the marines with the help of Sandino's followers.

This is the first direct communication received by the League from General Sandino. The letter will be used as a lever to spur further activities for the collection of funds for medical aid by the All-America Anti-Imperialist League.

ANOTHER ANTHRACITE MINER KILLED

John Snyder Is Hurled 70 Feet in Crash of Falling Coal

By ED. FALKOWSKI.

LAVELLE, Pa., (FP) June 24.—While the heavy hand of depression bears heavily upon the anthracite region, the miners are dark and treacherous as ever. There is a sinister humor to the illusive safety of a gangway. There is a snarl behind the silence of its lightless tunnels. There is tragedy to the patience of rotting timbers, cracking sentinels, holding up the crushing roof of rock above. And every once in a while the loose lump drops on the miner's head, as it happened to John Snyder, 26, at the [illegible] mine.

John Snyder was struck by a fall of coal and hurled down a manway 70 feet. He hit bottom, a ragged and messy shape. Tiny streamers of blood mingled with the brown sulphur water that murmured down the ditch.

Fellow workers hurried to his side—a few lamps struggling through the dark. Muffled whispers as the lights bent over the bleeding form, still quivering with the spark of life.

The company surgeon came into the mine—a bulbous gent with a medicine case. He seemed calmer than the rest—a professional gesture. Glaring eyes watched the doctor's hands as they lifted the cracked head and passed over the spot from which the blood spurted. Not a whisper. Only one miner was praying. He held his cap and lamp in his hands, his eyes piercing the collars of timber in his plea for divine assistance.

"Will he pull through," a husky voice broke the silence.

The doctor shook his head. "He's about done for—poor fellow!"

So the fellow gasped his last in the creaking gangway, surrounded by flickering lamps and whispering voices and popping eyes. Another contribution of the Anthracite to the cause of the national coal supply!

Troops Terrorize Shanghai Workers as 55,000 Now Tie Up All Textile Mills

80 FACTORIES EFFECTED BY BIG WALK-OUT

Frame-up of Chinese Spinners Is Cause

SHANGHAI, June 24.—Soldiers continued to terrorize the working class district of Shanghai yesterday as the last of the workers in the 80 spinning mills of this city walked out, bringing the total of striking textiles workers to more than 50,000 women and 5,000 men. The strike has been in process for some weeks.

Scores of workers have been joining the walk-out daily in spite of the efforts of the Kuomintang's "commission for the reorganization of the trade unions" to bring about a settlement in the interests of the authorities and mill owners. The Kuomintang has openly declared itself opposed to the strike and is trying to bring force to bear upon the trade union officials to settle the walk-out legally.

The workers struck following the arrest of two Chinese workers on charges of killing a Japanese worker in one of the mills. The charges are known to be false.

The real murderer is known to be a police sergeant who was acquitted by the mixed court of justice.

Attempts of the Nanking troops to smash the strike meetings and workers' demonstrations have proved as ineffective as the attempts of the Nanking government to force a settlement of the strike.

Palestine Communists Get Jail Terms For Protesting Whippings

TELAVIV, Palestine, June 24.—Three Communists have just been sentenced to jail terms for making public protests against the brutal whipping of prisoners.

Lipman was sentenced to 25 days, and upon his release he is to be ordered deported. Holzman must serve 30 days, and Rachel Ishefsky was sentenced to 10 days.

Aspires to Blaze German Imperialist Trail Across Atlantic

The picture shows the North Star, the plane in which Thea Rasche, German aviatrix, aspires to fly across the Atlantic this spring. The plane was bought for her by Mrs. Annie U. Stillman, wife of the former president of the National City Bank. The flight has been held up by process servers who refuse to permit her to use the plane.

INDIAN RAILWAY STRIKE GROWING

Demonstrations in Many Cities

LUCKMOW, India, (By mail).—A conference between striking railroad shop workers and the railroad officials of the East Indian R. R. who have been out for better conditions since January, resulted in a deadlock due to the arrogant attitude of the bosses.

The workers' committee presented seven demands, including recognition of the union and a 20 per cent wage raise. All demands were refused. The action of the bosses has resulted in a spread of the strike on the East Indian Line.

Big demonstrations by Indian railroad workers have taken place in many cities participated in by workers in other industries. The strikers are determined to fight to the end.

Train Dispatchers Win Wage Increase

CHICAGO, June 24.—Train dispatchers on the Spokane, Portland and Seattle Railroad have won an increase of $10 a month.

Effective May 1, dispatchers and chief dispatcher on the H. and St. L. also received a $10 a month increase. Texas and Pacific railroad dispatchers have won a $16 monthly increase.

DONETZ MINER TELLS OF WORKERS IN U.S.S.R.

(By a Worker Correspondent)

DONETZ BASIN, U. S. S. R. (By mail).—I am writing from the Soviet Union, from the Donetz coal field in the Ukraina. Not being in touch with you, I do not know what you are interested in concerning life in the USSR. All rumors and information reaching you through our emigrated bourgeoisie and the traitors of the workingclass, the social-democrats, mensheviki and social-revolutionists, are doubtless false.

6 to 8-Hour Day.

In contrast to the falsehoods spread by our enemies, we must state that the ruins of the coal mines and flooded pits, left to us by the bourgeoisie, have been recovered. They give us now a coal output of 1 million puds per month compared to 500-600 thousand puds under the capitalists. It is due to our rationalization, to the efforts of the working class and to specialists devoted to their work. The working day is not from to 12-10 hours as formerly, but from 6 to 8, and night work is seven hours.

Under the capitalists the worker knew nothing about leaves, homes of rest and health-resorts. Nowadays after having worked for five and one-half months gets a month's leave, and those who do not work underground, two weeks with pay. He has the possibility of spending his holidays in a home of rest with board free of charge, or undergoing a special treatment of the health resorts in such places, that formerly had been known by them only by rumors. Now they are used by workers at the rate of 80 percent and 20 percent employes and peasants. It can not be otherwise in the Republic of Workers and Peasants.

Medical Aid.

As to my particular coal mine, The Red Oktober, we had formerly one miserable medicine man, who treated his patients by antideluvial methods. At present we have a medical station with a medicine staff, the head physician, dentist, gynecologist and other specialists, well equipped with all means of transport to the nearest clinic. All the treatment is given to the workers free of charge and during illness the average wages are paid to them.

If a worker is hurt, he receives the average wages till his death and his family gets them till the boys are 18 years old.

In case of death, his family is paid by the coal mine. A man badly bruised or hurt to death during his work receives a two-month salary besides the sum paid by the state-insurance and the money given out for burial. There is also a medical consultation for children, where pregnant women are given advice, help, and the children are given food. The mother receives for every newborn child some money in order to buy baby clothes.

We are still developing; we still have little culture; the foreign bourgeoisie hates us and makes all kinds of mischief; it does not recognize us, and seizes our gold. Its specialists try to destroy our works. Perhaps you have read about the counter-revolution in the coal fields. Our own specialists studying in high schools have either not yet been graduated, or have little experience in practical work. There lie our difficulties, but we are growing rapidly. In our high schools preference is given to workers and peasants with industrial training.

Workers' Control.

Perhaps you will be interested to know who is controlling our mining industry. In the mining administration, the director is an old worker-miner; the manager an engineer, but his assistant is an old collier.

Our trust, Makeev's, has five works and 16 mines, with 30,000 workers employed. The Red Oktober mine, where I am working, is a part of this trust and 1,508 workers are employed there.

I am ending here, as I don't know what you are interested in concerning our life in USSR. I am sure of receiving questions from you which I shall be glad to answer and shall be happy to correspond with you.

With brotherly greetings to my American fellow-workers, from a free citizen in the Donetz valley of the Ukraina Republic.

—GLOUCHENKO.

REPORT PEASANT UNREST IN MANY CROATIAN TOWNS

Immediate Separation From Serbia Urged

BELGRADE, June 24.—Following the funeral of Pavel Radic and D. Basaricec, leaders of the Croatian Peasant Party, shot in the Jugo-Slav Parliament recently, wide-spread unrest is reported throughout the country, especially in the northwest, despatches from Zagreb state. Disturbances are reported in many smaller towns.

Two hundred thousand peasants are reported to have followed the coffins bearing the dead politicians to their graves while thousands more, who were forced to retire under the guns of the government troops at Agram two days ago, are believed to be seeking a new opportunity to [illegible] against the Serbian government.

The Croatian nationalist press is loud in urging that separation from the Sergian government be immediately effected. If separation is not granted it will be impossible for the leaders of the Peasant Party, who hav been restraining the masses of peasants in the interests of the Belgrade government, to control their peasants any longer, they intimate.

Austrian Trade Union "Leaders" Betray Walk-Out of Jute Workers

VIENNA, (By Mail).—The strike of the jute workers has been broken off after lasting ten weeks. A week ago the leaders of the trade unions declared that the conditions offered by the employers were absolutely insufficient and that no breaking off of the strike could be considered, now they have accepted these same conditions.

There is great indignation amongst the workers as the strikers demanded a wage increase of 25 per cent whereas the present conditions offer only an increase of from four to six per cent.

R. R. SIGNALMEN TO MEET

CHICAGO, June 24.—The convention of the Brotherhood of Railroad Signalmen will be held here beginning Sept. 19.

Greets Maxim Gorki

Among the leading Communists to greet Maxim Gorki on the occasion of his return to The Soviet Union is Nikolai Bukharin, editor of Pravda. The distinguished author is being beseiged with pleas to remain in the U. S. S. R. instead of returning to Sorento.

DONETZ PLOTTER OFFERS BRIBES

Imentow Had Money From Ex-Owners

(Special to The DAILY WORKER.)

MOSCOW, U. S. S. R., June 24.—Yesterday's session of the trial of the counter-revolutionary technicians accused of sabotage in connection with their work in the coal fields of the Donetz basin, opened with the examination of the fiftieth of the defendants, Bojarschinow.

Bojarschinow was formrly the rector at Dowugol. His fellow defendants charge his active participation in the activities of the counter-revolutionary sabotage organizations.

Asserting that he had worked loyally for the Soviet government, Bojarschinow admitted his knowledge of the sabotage organization but declared that he had at on time took part in its activities.

Imentow, a member of the Moscow central group of the counter-revolutionists, denied that he was a member of the sabotage organization. He admitted, however, that he had twice visitd his son who is living as a whit guardist emigre in Hamburg.

The accused engineer, [illegible], declared on the stand that [illegible] had given his money on behalf of the former mine owners now living in France, as well as to the accused technician, Sokolow.

Imentow denied these accusations although they are substantiated by statements of many of the accused.

The court has declined the demand of the lawyer Worms, summoning the engineers, Wegener and Sebold, to testify.

SEAMEN MAY GO OUT IN ANTWERP HARBOR STRIKE

Police Attempt to Smash Meetings

ANTWERP, Belgium, June 24.—The strike of the ten thousand harbor workers continued to tie up this port yesterday in spite of the efforts of the police, co-operating with the wharf and ship owners, to break up meetings and in other ways provoke the strikers to action which might give the authorities a pretext for forcibly crushing the strike.

Alarm is expressed by the officials that the strike, which began when the stevedores unloading a cargo of grain from the Red Star liner Selgenland walked out, will spread to other workers in Antwerp harbor.

The seamen are known to be completely sympathetic and pressure is being brought by the rank and file upon their officials in order to procure the calling of a sympathetic strike. The authorities are willing to go to any extreme, short of a settlement, in order to avoid a seamen's strike.

Antwerp is the largest port in Belgium and virtually the only one of any importance and the commerce of the country is practically paralyzed by the action of the longshoremen.

Leaders of the strike declare that the spirit among the men is militant and that they are capable of carrying on a long strike. It is believed, however, that the owners will be forced to grant the demands of the men shortly in order to break the existing tie-up.

Movie Operators in Calif. Win Increase

SAN DIEGO, Calif., June 24.—A three year agreement negotiated by the Movie Picture Operators' Union, calls for a six-day week with the old seven day wage.

Form Chinese Worker-Peasant Alliance

The Chinese Nationalist Party which met at Philadelphia on May 30th decided to dissolve and to immediately take steps for the organization of the Chinese Workers and Peasants Alliance. The Chinese Nationalist Party was dissolved because it had become the tool of the imperialist powers and the enemy of the workers and peasants.

The convention decided to transfer all of the documents and property of the Chinese Nationalist Party to the Chinese Workers' and Peasants' Alliance.

The complete declaration of the conference follows in full:

* * *

The Declaration of the Chinese Nationalist Party at Philadelphia, Pa., May 31, 1928.

The Chinese Nationalist Party, the product of the late Dr. Sun Yat-Sen, has been recently dominated by the tools of imperialism, such as the militerists, the dirty politicians, the compradores, the landlords and the gentry. They all, claiming to be followers of Dr. Sun, deceive others and themselves. They all, under the pretext of working for the nationalist revolution, work for the counter-revolution. Since the so-called Fourth Joint Convention of the executive and control members of the control office of the Party which was controlled by Chiang-Shin, they have definitely adopted the program of counter-revolution, established the counter-revolutionary Nationalist Government and distributed all government posts among their followers. This is to practice counter-Sun-Yat-Senism under the name and banner of the Nationalist Party! This is to destroy the glorious history of the Nationalist Party! Therefore, the Nationalist Party has become a joint organization of the tools of imperialism, or more frankly, it has been transformed into a group of traitors headed by Chiang Kai-Shih.

Non-Compromise.

The spirit of Dr. Sun's revolution is non-compromise; its aims are the destruction of imperialism, the abolition of unequal treaties and the emancipation of the oppressed; its policies are alliance with Russia, co-operation with the communists and the rendering of support to peasants and workers and its principles are the equality of nationalities, people's rights and people's livelihood. But not long ago Chiang Kai-Shih went to Japan to ask for aid from Japanese imperialism and Li Chi Sun went to Hongkong to interview the Britsh governor for a similar purpose. Recently the Nanking government yielding to the American and the Japanese imperialism, has settled with the United States the questions of the Nanking incident of 1927 by paying indemnities for American bombardment of Nanking, and withdrew troops from [illegible] to let the Japanese occupy it, [illegible] has sent representatives to imperalist powers to ask for permission of revising unequal treaties; it has broken off relationship with Soviet Russia, shot the communists and massacred the peasants and workers; it has employed the counter-revolutionary experts such as those dirty politicians like Huang-Fu, Wang Chung-Ting, etc., and those militarists like Li Tsung-Jen, Pei Tsung-Hsi, etc., and it has burdened our people with excessive taxes regardless of their well-being and simply functioned for satisfying the personal desires of the few counter-revolutionary leaders. All these are absolutely contrary to the spirit, aims policies and principles of Dr. Sun's revolution. Thus the Party is no longer the revolutionary one left by Dr. Sun, but a counter-revolutionary union of all the tools of imperialism.

Imperialist Tools.

As to the overseas branches of the Party, they are also dominated by the ignorant, senseless people who, disregarding the Party's discipline, the Party's principles and the Party's policies, only do their best to please anyone who is in power. Even the executive and control members of the new Overseas Headquarters of the Party who were, for a time, opposed to the tools of imperialism and attacked upon their counter-revolutinary wrongdoings, now has also shamelessly bowed down before the militarists, praised them to the utmost, and even gone so far as to declare: "The Nanking Government is legal and not in violation of the Party's discipline and should be recognized as the central Nationalist Government, under whose direction all Party affairs should be managed." Toward the counter-revolutionary acts committed by the Nanking Government such as the violation of Dr Sun's revolutionary spirit, principles and policies, the dissolution of all local branches of the Party, the prohibition of anti-imperialistic mass movements and the massacre of revolutionists, these same executive and control members have shown their favorable attitude and characterized these acts as "prevention of disorder." With the yielding of the militarists to the British, Japanese and American imperialist powers, they have been in agreement and cheered it as "the maintenance of good friendship with other nations." Thus it is further proved that the Chinese Nationalist Party to-day is wholly counter-revolutionary, that it has mobilized its forces against the peasants and workers, that it has become a [illegible] shield of the tools of imperialism under which they could oppress and exploit the masses, and that it has been transformed into a union of all counter-revolutionists.

Dissolves Itself.

The Chinese Nationalist Party at Philadelphia, however, has since its formation struggled for Dr. Sun's principles and policies more vigorously and uniformly than other local branches, especially when there was a tendency of the Party toward wrong directions; and has thus been admired by our revolutionary co-workers at various parts of the world. But, as already pointed out, the Nationalist Party as a whole violated Dr. Sun's revolutionary principles, and policies deceived the masses, yielded to the imperialists and practiced counter-revolution. If our Philadelphia branch sticks to the name of the Nationalist Party, it would lose its revolutionary significance, spoil its past record of revolutionary work and ruin the personality of our Philadelphia revolutionary members. It is under these circumstances that our Philadelphia branch, in its general meeting of May 30, 1928, in memory of the May 30's incident unanimously passed the resolution that the Philadelphia branch be voluntarily dissolved in order to avoid the confusion with the counter-revolutionary movement.

Our fellow-citizens in America, our revolutionary co-workers, please note that the dissolution of the Philadelphia branch does not mean the cessation of our revolutionary work. The very purpose of our joining the Party in the beginning was our faith in Dr. Sun's revolutionary principles and not our admiration for the title to its membership or for its power. While our Philadelphia branch is dissolved, this purpose is intact. Nor are we discouraged by the degeneration of the Chinese Nationalist Party into a counter-revolutionary party. For the Chinese masses—peasants and workers—still desire revolution and they are doing their revolutionary work in accordance with Dr. Sun's revolutionary principles and policies. Be it also remembered that many districts in Inner Mongolia, Chihli, Kiangsu, Shantung, Hupeh, Hunan, Fukein, Kwantung and Kwansi have already been occupied by the workers' and peasants' revolutionary forces; and their rapid progress can be fairly predicted. Our Philadelphia branch, after having passed the resolution dissolving itself, immediately adopted another resolution to the effect that the Chinese Workers and Peasants Alliance at Philadelphia be organized at once; so that in order to accomplish our revolutionary purpose we should work harder than ever to support the Chinese workers' and peasants' revolutionary movement at home, to overthrow the counter-revolutionary Nationalist Party, and to destroy imperialism and its tools—militarists, dirty politicians, compradores, landlords, the gentry and capitalists.

Fellow-citizens in America; revolutionary co-workers; if you wish to continue your revolutionary work join our Workers' and Peasants' Alliance at once.

ONE THOUSAND MEN TO BE LAID OFF AT SUN SHIP BUILDING YARDS IS LOCAL REPORT

(By a Worker Correspondent)

CHESTER, Pa. (By mail).—In a former article mailed to you and printed in The DAILY WORKER of June 7, I mentioned that the Sun Shipyard had nothing in view in the way of work as they had no hopes of the ship-subsidy bill's passing.

I do not wish to take back anything that I said at that time as I had the information from a very reliable source.

In a discussion with two men they said that two Philadelphia papers denied the passage of the above mentioned bill and another paper was in doubt about it.

At the banquet, which I mentioned, the vice-president left the impression that the work was very remote.

The report is that the yard has been employing 1,600 men but they are now going to do with 600.

This week they have only worked five days and the papers say that we have already begun to feel the beneficial effects of the passage of the Jones-White bill. As a matter of fact there is a feeling of uncertainty in every man's talk and action. I was told by one worker that he heard we were to go on three days a week.

Moral: Live on promises, business, boost prices and rents.

—S.

Textile Workers Will Protest Porter's Jailing, Mill Correspondent Writes

WILL FIGHT TO FREE MILITANT WORKER-SOLDIER

Had Been Arrested 5 Times for Picketing

(By a Worker Correspondent)

NEW BEDFORD, Mass. (By mail).—The activity and militancy of John Porter, organizer of the Young Workers (Communist) League of New Bedford, in the textile strike, has caused his arrest by the police, and his shipment to Fort Rodman. This 19-year-old Communist and leader of the textile strike, is one of the vice-presidents of the New Bedford Textile Workers' Union, and at the time of his arrest was out on $1,300 bail, having been arrested five times for leading the picket lines.

At the age of 15, John understanding very litle joined the army. Altho under age, he was taken into the army and served three years. During this period he learned that the army, instead of being the place "to build men," was merely the means of training the youth for future wars. He realized that as a worker his interests belonged with his class, and that as a soldier he was only being used by the capitalists in defending their interests against the workers.

He worked for a short period in the mills, and when the strike came he was one of the first to join the Textile Mill Committees, and shortly afterwards became one of the outstanding leaders. Porter was arrested five different times on charges of disorder knowing all the time that his fingerprints would reveal his identity. However, undaunted and unafraid, he continued to fight militantly.

On June 18 Porter was arrested for the sixth time, and this time the mill owners demanded he be sent back to his army prison. The next morning he was removed to Fort Rodman, and has been there ever since. The military authorities and the federal government have decided to make another Crouch and Trumbull case out of this arrest.

The government is determined to break this young rebel by keeping him locked up for a number of years. This is his punishment for his allegiance to his class.

The striking textile workers of New Bedford are not going to permit this plan of the government to succeed. We are going to fight with all our means, so that Porter can be brought back into our ranks, and back to the strike. The International Labor Defense is taking care of the legal ends of the case, as Porter was under age when he joined the army, and as this imprisonment is undoubtedly a result of his strike activity.

Besides the legal end of this case, all workers must immediately protest against the imprisonment of this young worker. The Young Workers League all over the country is going to hold mass meetings of protest. We must not permit the ruling class to break the spirit of John Porter. A national fight for the liberation of John Porter will be the best means of fighting against militarism, and against the courts of this country that continue to lock up the best fighters of the working class.

—GILBERT GREEN.

Leaflet Distributed at Fall River Mills

Fight the Wage Cut

Join the Textile Mill Committee.

Textile Workers:

The old wage scale must come back! No compromise. Every worker must organize and be prepared to fight to wipe out these wage cuts. Only the T. M. C. comes with a fighting plan to the workers. The A. F. T. O. officials, Sonsly & Co., do everything in their power to prevent a strike. The U. T. V. officials, Campos & Co., jump around and do nothing. Meanwhile, weeks go by and the workers suffering more than before.

Over in New Bedford the Textile Mill Committee has organized the workers and is leading them in a great fight against the bosses there. We must do the same here. The Fall River workers can fight just as the New Bedford workers can. Now is the time to fight.

The Textile Mill Committee is here to stay. It is growing stronger all the time. Each day workers are coming down to the office at 161 So. Main Street (Room 5) to sign up.

Fellow Workers:

Now is the time to join the T. M. C. The quicker we grow the quicker the bosses will take back the wage cut. The stronger we get the better we can fight. The sooner we begin to fight the better for ourselves and for our Textile brothers in New Bedford.

Don't delay! Now is the time. Come to our office at 161 So. Main Street, Room 5. Open every day: 9-11 A. M.-3-9 P. M.

And Join Up!

TEXTILE MILL COMMITTEE
FALL RIVER UNIT

Watch for our Big Mass Meeting Soon!

MAY PAY CONVICTS

BOSTON, June 24.—The State senate has passed a prisoners' pay bill, which provides for compensation to inmates of the State prison, the Concord reformatory and the reformatory for women. The measure now goes to the governor.

REFUSE TO PUT LABORERS UPON CITY PAYROLL

Los Angeles Mayor to Veto Bill

(By a Worker Correspondent)

LOS ANGELES, Cal. (By mail).—The pay of day laborers in the employ of the city of San Diego was raised a year ago from $4 to $5 a day. Now the workers want to be placed on the monthly pay-roll. An ordinance to that effect was passed recently by the city council, but vetoed by Mayor Clarrk, "in the interest of the taxpayers," he said.

Remove Mayor!

Another ordinance was drawn up, one which would decrease rather than increase the city's expenses. City fathers, headed by Councilman Dowell, argued. Mayor Clark said, however, that the proposed ordinance, if adopted, would mean an expense to the taxpayers of $45,504.75 a year. If passed, I will veto document 224704, he declared.

The proposed ordinance also provided for two weeks' vacation and Saturday afternoons off—all with full pay.

What the workers and their spokesmen in the city council will do next remains to be seen. But, in the opinion of the progressive element, the immediate task of the workers seems to be the removal of the mayor and his labor-baiting gang.

Ragged Army.

San Diego was a lively city during the free speech fight in 1912. Real estate was the stock-in-trade at that time, and real estate sharks took a leading part fighting the I. W. W., some "socialists" and even a female preacher. The writer was a commander of one of the compaines organized in San Francisco and marched to San Diego. But that more than 600 miles hike over land with a ragged "Coxey's army" is another story, one which never has been told in full.

Since those days of fights and parades, etc., under the Red Flag, San Diego has been more or less dead—no labor movement worthy of the name at all. So it is about time to start something again in that city, a seaport built up and controlled by Spreckels, a sugar king. Fight for said ordinance, vacations and Saturday afternoons off anyway!

And, then, clear-thinking sailors, and other military men visiting San Diego may even make the southern city a center for a Communist League, the status Hawaii had a few years ago.

—L. P. RINDAL.

PAINTERS GET INCREASE.

HAMILTON, Ohio, June 24.—A wage increase of 12 1-2 cents an hour has been secured by the Painters' Union.

DRAMA

The N. Y. Times Gets Worried About "End of St. Petersburg"

"THE End of St. Petersburg" hit jaded New York critics like a sweep of fresh air. They unanimously voiced their hearty approval. Swept along by the force of it they went into ecstatic eulogies that overbalanced their usual calm, critical dignity. One and all—and even the staid N. Y. Times—they bowed before the sheer wizardry of a movie product of Soviet Russia.

The crowds came: those who were tired of the usual movie drivel and especially, and in greatest numbers—workers. After all this is THEIR picture. The suffering, the struggle and the victory of their class is literally steeped in this classic — and they heard about it. So they came, saw and went away inspired to pass the word to other workers and the world at large.

The N. Y. Times senses the effect of this achievement in motion picture art. It gets worried. Praising the picture, it must warn of its implications. It must advise that the Russian and "every revolution in history has sought to justify itself by rehearsing the intolerable state of affairs that rendered revolution just and inevitable." No mention is made of the American revolution we are going to celebrate on July 4. Nor would any American movie producer dare to present it in a picture as it happened.

The N. Y. Times must sagely remind us that in Russia there were two revolutions — "the second put through by Lenin in November, 1917, was a party revolution, and its purpose was not Russian emancipation." The Bolshevik party did not give the peasant the land. "The peasant already had four-fifths of the land under the Czars and had helped himself to the rest before Lenin delivered his coup"! Don't be fooled, the Times would imply. This darn thing they are showing is mental dynamite. It is class propaganda — and obviously, not for the class for which the N. Y. Times is speaking.

Yet the workers, perhaps not even understanding the causes and the results of the Russian revolution will see the "End of St. Petersburg" and understand instinctively the logical smile of the armed worker that concludes the picture. This is what worries the N. Y. Times of course. The sheer beauty of it also, the well-knit, enthralling action are sure to keep it running on Broadway for months—of further worry for the N. Y. Times.

"The End of St. Petersburg" is propaganda." So says the N. Y. Times and so it is. You can't picture the events of the Russian revolution truthfully without it being propaganda—for the workers. It is propaganda and it is art. Even the N. Y. Times editorial writer will go this far: "As a picture and a story it impresses even those who perceive that the motive is propaganda in favor of the Soviet Regime." Must be art!

The stupid concluding sub-titles shown on the opening night have been eliminated. It was obvious to everyone they "did not belong." The action now sweeps along to a climax that brings you to the victorious smile of the worker without the interjection of the illogical sub-titles, which would, for no reason at all, remind us of "democracy." Whatever they have cut out of the picture, they could not cut out that which so worries the N. Y. Times. And that is exactly what makes "The End of St. Petersburg" worth seeing.

HIT BROOKWOOD FAKER FOR HIS "MINER" LIES

Striker Who Has Given Will Keep on Giving

SPRINGFIELD, Ill. (By mail).—Would you kindly permit me a few words in your paper in regards to "Boyd's letter" in the "Illinois Miner."

In regards to Boyd, the Wyoming stoolpigeon at the Brookwood Labor College, who in his letter in The Illinois Miner of May 5, among other things stated: "I wonder where all this money is coming from?" Then, "On the other hand if the Pennsylvania-Ohio committee paid all of this money (convention expense) then they have robbed the striking miners of what was rightly theirs and if this could be proved, it could be made into a serious charge of misusing funds, because there must have been thousands of dollars spent on this convention alone."

Now for this reactionary-howling character's information, I may state that I as an ex-member of the U. M. W. of A. have contributed over fifty dollars toward the P.-O. and Colorado striking miners, since April and I am not done with it yet.

I also know of other ex-members here in New York, who have given ten, twenty and some over seventy-five dollars for the same cause, and so we have hundreds of them throughout the country. No one of us cares in what way that money is spent. It may be for food, clothes, hall-rent, conventions or even to form a new organization, if they should find it being necessary. So what is this Wyoming-wind-jammer going to do about it?

—W. H. H.

GROWTH OF A REAL WORKING CLASS CAMP

By A. B. MAGIL.

We were going to Camp Nitgedaiget to attend the official opening of the camp's summer season Saturday June 2.

The ride up the Hudson to Newburgh was an indolent daydream. Palisades, hills and boulders are piled in my mind. Sun floats on the river, jazz music, girls struggling with a young scamp of a wind that keeps blowing up their dresses.

From Newburgh a ferry chugged its way across to Beacon and then by machine to Camp Nitgedaiget just in time for lunch. There were about 200 people at the camp, all workers vacationing or out for the weekend, seated at long tables in the spacious dining hall, talking, laughing, singing. Food was good to the tongue and plentiful.

• • •

Nitgedaiget means Don't You Worry. And looking into my soul, I can say that not once during my two days at Camp Nitgedaiget did I worry even the slightest bit. Of course, it was rather hard to keep my thoughts from wandering in a certain direction every time I glanced at The DAILY WORKER on sale at the Nitgedaiget store, with its announcement of the critical financial condition of the paper. But this really wasn't my fault and it shouldn't be counted against me.

• • •

CAMP NITGEDAIGET sprawls on the side of a hill overlooking the Hudson, its back against the low sheer mountains rising leafcovered into the east. From the top of the camp an immense stretch of river and shore can be seen, along which the eye leaps tirelessly.

Five years ago a group of workers rented a piece of ground here, set up pup tents, ate their meals under the open sky and called it a camp. Each year saw changes, improvements, growth, until now all of these 240 acres of land are owned by the United Workers Cooperative, which conducts Camp Nitgedaiget. This year 10 acres of woodland have been converted into a park and 75 bungalows have been built which, together with the 236 tents, can take care of about 750 guests. A complete community has sprung up on the side of this hill. There are a dining room with a capacity of 750, an auditorium seating 800, a store, a barber shop, a swimming pool, showers and facilities for various sports.

And the camp looks after the cultural as well as the physical well-being of its worker-guests. Lectures are a regular feature and choral and dramatic work occupy an important place in camp activities. Incidentally, the mass play in this country had its origin at Camp Nitgedaiget.

Camp Nitgedaiget was the pioneer among workers' camps in the United States. Since it was founded, similar camps have sprung up near New York City, Boston, Philadelphia and Chicago. Workers aren't always able to take their vacations in the summer months and so the camp is open the year round, with winter accommodations for from 80 to 100. And during the summer the winter house is converted into a library, reading-room and hospital.

• • •

In a current liberal weekly there is an advertisement announcing that spring has come to Camp Tamiment, the "socialist" camp, conducted by the Rand School. And the coming of spring to Camp Tamiment has brought with it a special June rate of $32 a week. I look at the other camp advertisements in the same magazine and see that the "socialist" camp has made those run by private individuals look like pikers in the matter of special June rates. Hardly any of them have such aristocratic springs coming to them.

The rate at Camp Nitgedaiget the year round (the camp is so naive as not to jimmy up the prices during the rush season) is a measly $17 a week. And the spring that comes to the camp is just an ornery $17 a week spring. And the employes of Camp Nitgedaiget, the waiters, the kitchen help, etc., have never yet gone on strike because they were being overworked and fed rotten food — as has happened at the "socialist" camp Tamiment where weary lawyers, preachers and college professors gather annually at the conference of the League for Industrial Democracy to deplore the evils of capitalism. It pays to have the right kind of springs coming to our camp.

Having once worked at a summer camp, I know the conditions that prevail at the average commercial camp. During the entire season none of us ever got a single day or part of a day off, and it was only our repeated threats to strike that compelled the camp owners to hire sufficient help to enable us to feel half-alive at the end of the day's work. And I know that the workers in the kitchen and the chambermaids were even worse off. For we waiters were, after all, labor aristocrats of the camp.

At Camp Nitgedaiget, I was informed by B. Cohen, the affable camp manager, all the workers are equal in rank and all work an eight-hour day and a six-day week. (For the waiters this usually amounts to a six or seven-hour day.) The workers are part of the camp population, eat the same food and enjoy the same privileges as the guests. Strikes? This is a workers' camp!

• • •

On Sunday evening I stood on the porch of the casino, looking out over the Hudson. The sun had set in a tide of soft warm colors and a lean ribbon of light lay flat against the western sky. Slowly the lamps on the opposite shore thrust their placid yellow faces thru the darkness, gazing out over the calm Hudson, polished to a dark brightness.

Down along the edge of the river I had seen that very morning the hovels of Negro workers, the slaves of a brick factory. Their dark defeated faces swam up in my mind as I had seen them sitting in front of their shacks, leaning in doorways, looking out of windows. And I thought as I stood on the porch of the casino at Camp Nitgedaiget: here, rubbing elbows are two phases of the workers' struggle. Below near the river are the workers still chained to their misery and defeat, fighting each other for bread, the chattel of their ruthless masters. And up above on the hill are the workers who had learned to fight the common enemy in an organized fashion and had built this camp as one of their strongholds.

Some day, I thought, the workers down below near the river will arise out of their misery and tiredness and defeat and also climb the hill.

WOMEN'S MEETING FOR MINERS RELIEF IS GREAT SUCCESS

Assure Quick Aid In Miners' Struggle

The first Delegate Conference of the New York Working Women's Federation, held Thursday evening at the Labor Temple, Second avenue, and 14th Street, responded enthusiastically to the appeal for immediate relief to the striking miners of Pennsylvania and Ohio.

One hundred and forty dollars was turned over to the National Miners' Relief Committee immediately after the striking appeal made by Mrs. Mary Nagle of Bentleyville and Mrs. Mollie Sokol of Vestaberg, both representing the Ladies' Auxiliary of the Miners' Union. Hunger, police brutalities, evictions and intimidation hold no terrors for the wives of striking miners, who have stood shoulder to shoulder with the miners on the picket line and defied the threats as well as the machine guns of the coal corporations, they reported.

Pledges Aid to Drive.

The conference pledged itself to do everything possible in the drive for relief, starting June 25 to July 1, to carry out the plans proposed by the Federation. Pauline Rogers, secretary of the Women's Committee for Miners' Relief, reporting on the plan, laid special emphasis on the need for creating shop committees for Miners' Relief, as a basis for continuing the delegate conferences of the Federation, the committees to serve as a connecting link between the shop representatives and the Federation.

Ray Ragozin, general secretary of the Federation reported on the activities since the last meeting one month ago at which time the Federation was launched. The report included a summary of the program adopted which pledged the Federation to make its major task the organization of the unorganized women, improving working conditions, social insurance, special maternity care, protection of children from industrial exploitation, the raising of demands for better schools, housing, and a clear cut policy of resisting all attempts of the employers to interfere with the workers struggle against injunctions, company unions, compulsory arbitration, co-operation and employers' welfare schemes and any other methods to restrain workers from mass action to better their conditions.

Report On Trades.

Delegates reporting on conditions in their industries included the Progressive White Goods Workers, Sylvia Blecher of the Millinery Workers' Union who urged spreading the propaganda of the Federation to build a strong, united organization; Gertrude Welsh, who reported on the activities of culinary workers in raising relief for the miners; Kate Gitlow who stressed the necessity of using the Delegate Conference as an effective means of getting industrial workers into the Federation and of carrying on the educational work to arouse their support in the drive for trade union organization. Representatives of the Women's Councils also reported on their activities in the Miners' relief campaign and expressed their confidence in the future usefulness of the Federation. Council numbers 10, 12, 17, and No. 4 were represented.

Next Meeting Aug. 4.

It was decided that the next Delegate Conference would be held on August 4 to discuss the political campaign, world imperialism and the war danger.

• • •

Mobilization for the city-wide miners' relief week which is to begin Monday and continue throughout next week has been practically completed according to an announcement at the local office of the National Miners' Relief Committee.

Throughout the week open air meetings will be held, to stress the importance of miners relief to the workers. They will be told of the national open-shop drive, of which the plan to break up the miners' union is the initial step, and warned that unless they rally to the support of the striking miners, they may themselves soon be appealing for support from labor.

Supported by Women.

At an enthusiastic meeting held Thursday evening by the Working Womens' Federation at the Labor Temple, support for the miners' week was unanimously endorsed. During the past week the Bronx Committeen have held enlarged meetings at which all the organizations affiliated with the various committees have pledged to participate in the drive by enlisting their full memberships for the activities of the week, including systematic house to house collections distribution of miners' literature, participation at outdoor relief meetings, and volunteering for the Mass Collection Days of June 30 and July 1st.

Language committees for miners' relief, have also mobilized for the drive. The Hungarian and Ukranian Committees reported last night their headquarters were being made temporary relief drive stations during the entire week, that the language societies forming the committees were co-operating fully in the matter of relief solicitors, and that special Miners' Relief parties were being arranged throughout the week by organizations and individual workers.

Other Activities.

Various Workmen's Circles are conducting affairs for miners' relief, among them Circle No. 548, Bronx, which is conducting an outing, to take place next Saturday. Women's Councils are also active in arranging parties for relief work. The Cloakmakers' Council and Council 12 will hold a tea party under joint auspices.

The National Miners' Relief Committee calls upon all workers to support the striking miners and their families.

Yellow Dogs and Spies Aid Kayser Production

BANGOR, Pa., (FP) June 24.—Julius Kayser Co. makes silk stockings by the aid of yellow dog contracts and labor spies. Ootherwise how could it keep knitters at their machines from 12 to 15 hours a day, how could it work the all day Saturday and even have them show up on Sunday?

Back in 1920 Kayser locked out highly skilled union workers affiliated with the Hosiery Workers' Federation. Now the majority of his output is exported, and the union wants to know if that is because American women are too discriminating.

CALIFORNIA PLANS DEFENSE PICNIC

Many Language Groups to Attend

SAN FRANCISCO, Calif.,—On July 4 the Branches of International Labor Defense of San Francisco, Alameda, and Contra Costa Counties will hold their Annual Picnic at East Shore Park, near Richmond. The Annual I. L. L. Picnic is becoming one of the main events in labor circles of the entire Bay Cities District. This year it will be bigger and better than ever, according to ticket sales thus far reported.

A number of language groups are making special efforts to bring out their own nationalities which will lend a distinctly international color to the Picnic. An outstanding feature will be a program of native songs and dances in costumes with balalaika accompaniment, presented by the Russian-Ukranian Workers' Chorus of San Francisco. As entertainers this group of workers has earned an enviable reputation. Sharing honors will be the offering of Madame Clare von Tobianas who will give a public exhibition of her famous Salome Dance. Her interpretation has been called the most perfect in this region. Kelly's Orchestra will supply the dance music.

The July 4th Picnic will draw all shades of the left wing and militant labor movement. Able speakers will give a workers' interpretation of the Declaration of Independence. There will be refreshments of all sorts.

To reach the Park from San Francisco, those desiring to go should take Key Route Ferry, then to San Pablo Ave., then the street car to the park. From Oakland any car to San Pablo Ave. and a transfer will take one to the park.

Tickets may be secured at Workers' Educational Club headquarters, 1212 Market street, San Francisco, at the Workers, Book Shop, 2123 Telegraph avenue, Oakland, or from members of the International Labor Defense.

JACKET WORKERS LOCKOUT ENDED

Beckerman Will Grant Wage Cut Privately

The lockout of the workers in the childrens' jacket contractors shops ended yesterday when Abraham Beckerman, head of the machine in power in the Joint Board of the Amalgamated Clothing Workers' Union, told the contractors to bring their grievances to him, giving assurances that they will be well taken care of. The lockout was declared a few days ago, with the demand that wages be cut since reductions were permitted by the union to other crafts in the industry.

The other demand made of the union by the contractors in ordering the lockout was that the union stop work of larger employers and jobbers from going for manufacture to the scab-contracting shops, since these larger employers are under control of the union and sending work to scab shops can easily be halted. This also, Beckerman promises to "correct" in spite of proof exposed in recent days that work was being sent to scab shops under the guardianship of officials of the union who received graft from both the larger employer and from the scab shops.

But the contractors who locked out the workers are nevertheless always ready to listen to Beckerman, who has hitherto treated them with generous consideration, having permitted them individually, rather than as an associated body, to slash wages with great abandon.

ELECTRICIANS GAIN.

BEVERLY, Mass., (By Mail).—Electrical workers signed a two-year wage agreement that raises rates 10 cents an hour. The new scale is $1.25.

THREE TAMMANY HALL HENCHMEN ARE SENTENCED

Tammany Henchmen May Never Serve

Three Bronx officials of the Tammany Hall street cleaning department yesterday listened undisturbed to the pronouncement of sentence upon them to Sing Sing prison by Bronx County Judge Albert Cohn, confident that, as befits good Tammany grafters, they will never be made to serve their terms. The sentence followed their conviction in the expected move by the Tammany Hall machine to cover up the real depth of the graft scandal in a "sacrifice" of several relatively minor officials.

The Victims

William J. Oswald, former district superintendent, was sentenced to serve from three to ten years; William J. Lougheed, foreman of the Cromwell avenue garage, from one and a half to three years, and Benjamin Stoeber, assistant foreman under Lougheed, one to two years.

Lougheed and Stoeber received the consideration of the court because they had pleaded guilty and appeared as prosecution witnesses against Oswald and Charles A. McGee, assistant superintendent in charge of the Bronx, who was acquitted.

As Usual

That these officials will not actually be made to serve their terms or if they do that they will receive the customary consideration accorded influential grafters with the assurance of an early pardon was confidently asserted yesterday. In the meantime those higher-ups in the $200,000,000 Tammany graft scandal are enabled to go about their regular business.

RIGHT WING ENDS CAPMAKER STRIKE

Chicago Struggle Broken By Zaritsky

CHICAGO, June 24. — After removing the leadership of the Chicago capmakers strike because of a too determined stand they took against the attempt of the employers association to install piece-work thru a lockout, the International officialdom, which assumed control of the strike, yesterday announced that no more strike benefits will be paid to the 225 strikers, thus virtually admitting defeat by the bosses' association.

At the time the progressive leadership was removed, facts were made public to the effect that the lockout was ordered by the bosses after they knew that Zaritsky was opposed to a fight against piece work, this sweat shop system of work being publicly advocated by him at union meetings. Another exposure which laid the responsibility of the lockout at the door of Zaritsky, was his close personal friendship with the manager of the employers' association, Percy Ginsberg, a former vice-president of the union.

By removing the leadership of J. B. Salzburg, progressive, loss of the strike was incurred by the right wing. It was generally known that at the time the employers' ranks were cracking, in spite of injunctions and arrests. An employers trade journal reports a union official as saying that they were unable to fight the injunction. Now the trade is 75 per cent open shop, this official admits.

INDICT CONNOLLY FOR SEWER MESS

Former Borough President, Maurice E. Connolly of Queens Borough, involved in the $29,000,000 Queens sewer scandal, who resigned under fire in the investigation into the doings of his office, was indicted today by the Special Grand Jury convened to examine the evidence that had been collected in the investigation prior to Connolly's resignation.

John M. Phillips, racing stable owner and sole maker of "lock-joint, pre-cast pipe," especially specified for him in all Queens sewer specifications, and two others were also indicted by the Special Grand Jury.

National Teachers Union To Convene in Chicago

CHICAGO, June 24.—The annual convention of the American Federations of Teachers, affiliated with the American Federation of Labor, will be held here in the Congress Hotel from July 25 to the 29. Mary C. Barker of Atlanta, Georgia, is the president and Florence Hanson is secretary.

• • •

St. Louis Picnic.

ST. LOUIS. — The Young Workers (Communist) League will give a picnic and dance at Triangle Park, 4100 South Broadway, on July 4. Dancing, refreshment, games and athletic concerts have been planned.

SEMARD SPEAKS AT FRENCH MEET

Concludes Debate at the Party Conference

PARIS, June 24.—Semard concluded the debate at the French Communist Party conference with a protest against the overestimation of the role of the peasantry in the French revolution.

"The Communist Party must recognize the dangerous reformist delusions. Opportunism must be fought and we must combat the sterile opposition," Semard said. The conference passed unanimously the theses on the political situation of the Communist Party.

(Other information about the Party conference will be found on page 3.)

N. Y. BLOCKERS GIVE MILLINERS $1,000 AS AID

Redeem Pledge to Help Fight Union Wreckers

The latest development in the struggle for existence of the Millinery Hand Workers Union Local 43 against the officialdom of the International Cloth Hat, Cap and Millinery Workers Union shows that the members of that militant local are receiving the wholehearted support of a growing section of the general organization. At a joint meeting of the executive boards of the Blockers Local 42, and Local 43, several decisions were made which spell doom to attempts of President Zaritsky and his cohorts to destroy the milliners organization.

Vital Decisions

The most important of these decisions was the one deciding that the boards of both locals 42 and 43 meet jointly in conducting the struggle against Zaritsky. It was also decided that the office staffs of both locals function together on questions of inter-local relations.

In redemption of the promise tendered by the Blockers Local 42 to the fighting local 43, that moral and financial aid will be given in their fight to maintain the union, the executive board of the blockers union yesterday presented to the Local 43 executive board a check of $1,000.

As has been a practice among the millinery workers, large picket lines turned out to patrol the shops which tried to assist Zaritsky by ordering their girls to disavow their membership in Local 43, and locking them out when they refused. The faithful (to the bosses and Zaritsky) police were also there "en masses." No arrests were reported, however, at a late hour yesterday.

• • •

Excursion Tomorrow

The members of the union now at work gave another example of devotion to their fellow members. Collections in most shops are now in full swing for a fund to buy tickets for the girls on strike, in order that they too will be able to go on the excursion to Camp Nitgadaiget. July 1. All will meet at Battery Park pier, 8 o'clock Sunday morning.

WASH. FEDERATION MEET

WENATCHEE, Wash., June 24.—The annual convention of the State Federation of Labor will convene here on Monday, July 9.

In Prison For Life On Murder Charge, Cleared

The blind-folded goddess of "justice" barely missed taking the life of an innocent man it was discovered yesterday. James Sweeney was convicted of murder early last year in connection with a mail truck robbery in Elizabeth, N. J. He was sentenced to the electric chair, but a commutation resulted in his being sent to the state penitentiary in Trenton for life.

Frank Kiekart and Benjamin Haas, now in prison on other charges, confessed recently and have completely exonerated Sweeney.

Though proven innocent, however, Sweeney will not be freed until September because his application for a pardon was "not properly drawn."

CZECH PAPER IS VICTIM OF RAID

Youth Publication Is Ransacked

PRAGUE, Czech-Slovakia (By Mail)—Today the Prague police raided the editorial quarters of the "Roten Jugendwacht," a youth newspaper. The attention of the police inspector was drawn to the fact that the search warrant referred to the rooms of the Central Committee of the Young Communist League and not to the editorial quarters of the youth newspaper. Despite this, however, the editorial rooms were searched from top to bottom for an appeal to the working youth. The appeal was not found and the police contented themselves with confiscating two thousand copies of "The Outlines of Political Knowledge."

RAISE FOR OHIO PAINTERS

HAMILTON, Ohio, June 24.—A wage increase of 12 1-2 cents an hour has been secured by Painters' Union.

SUPERIOR SCHOOL HELPS YOUTH FOR CLASS STRUGGLE

Students Will Work in Labor Movement

SUPERIOR, Wisc., (By mail).—On Monday, June 18, the Young Workers League advanced courses opened in Superior, Wis. for District 9. Twenty-five young workers from all over the district are attending this school. They come from such important sections of the district as the Iron Range, the Michigan Copper Country, from the Twin Cities, and from the Head of the Lakes cities.

The courses will last for four weeks, beginning June 18, and ending July 14. The students will be taught History of Labor in the U. S., Economics, History, The Role of the Workers Communist Party, The Role of the Y. W. L., and organizational problems.

Much energy was spent in collecting money and mobilizing the support of the labor organizations and clubs, so as to make these courses a success. Especially did the Finish workers clubs, and the Womens Section help to make these courses a reality, by raising a large amount of money for the fund.

When the courses are over, and the students return to their home towns, it is expected that each will be able to carry on organizational and educational work in his part of the district, and thereby help to build a larger and better Young Workers Communist League in district 9.

Traditional Party of Slavery Meets at Houston

The collapse of the anti-Smith forces at the opening of the democratic national convention is the collapse of a lame and blind petty-capitalist opposition to the Wall Street masters of that party.

In its historical origin chiefly a party of the owners of chattel slaves, the democratic party was split at the time of the Civil War and became the outright and unqualified party of Slavery. Defeated in the bloody struggles of 1861-65, it became the party of the bankrupted Southern land-owners. From this position, curiously enough, it swung to a short career as the party of petty-capitalist debtors with room in its ranks for some agrarian discontent.

The transition from Bryan to Wilson was the transition of the democratic party into the direct control of the biggest banks and trusts. American capitalism is traditionally "republican," but it was under the leadership of Wilson that American capitalism made its sharpest and furthest development into imperialism, the final flower of capitalism.

Since Wilson the democratic party has been one of the two parties whose apparatus is controlled directly by the highest masters of Wall Street.

The Wall Street leaders can afford to permit still a little "liberal" demagogy on the part of democratic politicians, and this "liberal" stuff is still blindly associated with something vaguely supposed to be beneficial to labor and to farmers. But the Smith-led democratic party is only serving Wall Street the better if it succeeds in this swindling demagogy.

The democratic party, traditional party of Slavery, is completely in the hands of the most reactionary forces of Wall Street, and is as much a party of wage-slavery and the open shop as is the republican party.

So far there is no "viewing with alarm" from either the republican or the democratic camps. The press of the democratic party is filled with benevolent smiles for Hoover, while the press of the republican party gently praises the "great and good" Al Smith.

It will be a "gentlemen's campaign" as between Smith and Hoover.

Neither the election of Hoover nor the election of Smith will be a defeat for Wall Street.

If the socialist party should receive a large vote, the upper strata of the American ruling class would only smile indulgently. The "liberal" capitalist newspapers would even speak with favor of this little flunkey-party to the big bourgeoisie.

The only possible defeat for the financial masters of the United States in this election, will be a large vote for Communism. The only chance that any capitalist paper can "view with alarm" anything whatsoever in this campaign, is that chance which arises from the plans for a vigorous, nation-wide campaign to poll a big vote for Foster and Gitlow as the standard-bearers of the Workers (Communist) Party, and a large increase in membership of the same party in connection with the campaign.

This would correctly be viewed with alarm by all capitalist organs alike as "the rise of Bolshevism" in the United States.

This is the only thing the masters of Hoover and Smith have to fear in this campaign.

It is likewise the only thing the working class and the exploited farmers have to hope for in this campaign.

Vote Communist.

The Socialist Party Sandwich

The current issue of the "New Leader" will provide the future historian of changing class forces in America some valuable data. A sort of middle class ham sandwich is being sought after by the socialists in the election campaign with the crumbs dropped from the republican larder as one layer, the leavings of the democratic party as the other layer, and a thin smear of neo-socialism in between to hold them together.

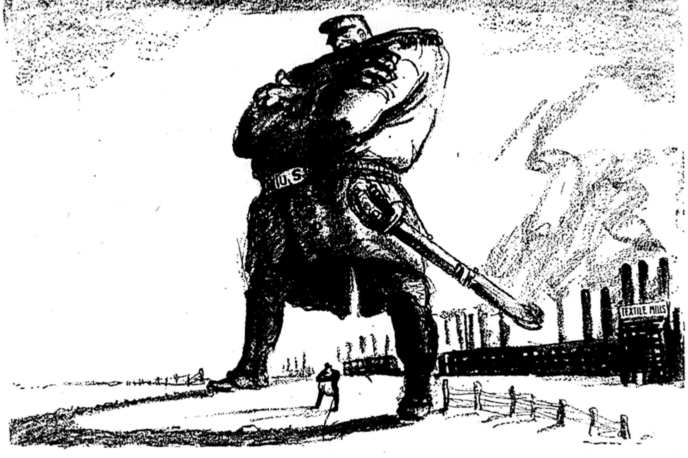
Thus the whole purpose of the "socialist" campaign is merely to capitalize the graft of Tammany Hall and the degree of reaction of the republican machine. No suggestion of any positive program; no attempt to support the various struggles waged by the working class; no pretense even of speaking for the rising force of proletarian consciousness.

Bidding for the disconcerted little shop-keepers who are rapidly being squeezed together between the upper millstone of trustified industry whose competition they are increasingly unable to meet and the nether millstone of rising overhead costs, increased rate of taxation and rising cost of living; catering secondly to those elements, progressives so-called, liberals, a small handful of intellectuals not connected with the life of the workers, a few ministers and other tender-hearted souls who find the march of imperialism a bit too hard going, the socialist party hopes to remain afloat holding on frantically to stray pieces of social wreckage.

The Reverend Norman Thomas in his weekly humorous column drives his strongest thunder at the wicked ways of the New Tammany. He condemns Heavy Herb Hoover for his connections with the power trust. But as for the actual struggle against these forces where the struggle counts, the position of the socialists can best be judged from the fact that the Jewish Daily Forward quite openly supports Al Smith; the New Leader is almost free of news of the trade union field; nothing of the mine struggle, little of the textile workers' fight and that basically unfavorable to the workers; nothing of the recent strike of the New Jersey oil workers; only contempt for the efforts of the Communists in the campaign to organize the traction workers, and only words where deeds are necessary. All of the socialist party's deeds are of the kind they resort to in the needle trades—outright strike-breaking.

THE STRIKEBREAKER

By Fred Ellis



In an attempt to weaken the New Bedford textile workers' strike, the U. S. Army authorities have seized John Porter, strike leader, whom they have thrown into an army prison as a deserter from the army.

Gitlow's Acceptance Speech

(This is the first installment of the speech made by Comrade Gitlow in accepting his nomination as Workers' Party candidate as vice-president in the coming elections.)

• • •

COMRADES:

It is a great honor to be one of the standard bearers of the only party of the exploited masses in the United States.

This convention throws out a challenge to the whole bloody capitalist ruling class of the United States.

The campaign which we are now entering is part of the war the exploited masses are waging against those who exploit them.

President Coolidge a couple of days ago declared that he was gratified at the action of the United States congress when it passed the tax bill giving a fat present to the capitalists of the United States in the form of tax reductions amounting to over $200,000,000. The particular reason for Coolidge's gratification was the fact that congress eliminated from the tax bill the provision for publicity on income tax returns. The bankers, the industrialists, the large stockholders in the United States do not want the workers and poor farmers of this country to know how much they steal and extract from the sweat and toil of the workers and farmers of the country. The Workers (Communist) Party on entering this campaign declares to the strikebreaker Coolidge, to the Ohio Gang that put Harding in power and made Teapot Dome famous, declares to the powers of Wall Street, declares to the pirates of Tammany Hall, and the plunderbund of the G. O. P. that in spite of the fact that the republicans and democrats combined in the last congress to keep out of the press the record of capitalist robbery in the United States, the Communists will do everything to write down in burning letters that will be understood, the whole bloody, crooked, contemptible and hypocritical record of the capitalist ruling class of the United States.

Record of Brutal Oppression.

The record of the capitalist ruling class in the United States is indeed a record of brutality against the working class. We have present at this convention the wife of one of the workers who was murdered together with others because he championed the cause of the oppressed and the working class. We received only a few days ago the news that a loyal fighter of the working class died in Moscow. Wm. D. Haywood was a memorable figure in the class war. For organizing the workers and fighting to improve their conditions he was persecuted, imprisoned and driven out of the country. Chas. E. Ruthenberg, one of the founders of our Party and a determined fighter against imperialism and imperialist war, was thrown and kept in prison for many long years by the capitalist ruling class.

We can recall at this time the many memorable struggles that took place in the United States, struggles in which workers were shot down like dogs. Struggles in which workers were hounded into bull pens, struggles in which workers were torn from their families and deported. These events cover pages in the history of the American class struggle. At this time when we enter the presidential campaign we must not forget that there are now behind prison bars in capitalist dungeons in America valiant fighters of the working class. Mooney and Billings are still in prison.

Remember Sacco and Vanzetti.

We must not forget that in spite of the opposition of the workers of all countries, American capitalism sent Sacco and Vanzetti, two innocent workers, to the electric chair. We must not forget that while we are living in a country of tremendous wealth, in a country which boasts it is the richest in the world, that though billions in wealth are piled up there are millions of men and women who are walking the streets looking for an opportunity to work, looking for a chance to eat, for a chance to live. We must not forget that in this country which boasts of liberty, which boasts of democracy, workers are not allowed to organize, workers are not allowed to strike, the injunction is used with effectiveness against the workers.

Oppression of Negroes.

We must not forget that in this country which claims that all peoples, all races are equal, millions of toilers because their skin is of a different color, because they are Negroes, are denied the franchise in the South, are persecuted, are treated worse than dogs and are lynched under conditions that are indescribable.

We must not forget that while on the one hand we have plenty, a tremendous display of arrogant wealth, on the other, millions of children toil in the mills, in the mines, and in the factories to pile up the fortunes for the capitalist ruling class of this country.

In this campaign we must declare that this capitalism, and the ruling class that maintains it, and the government that supports it and defends it with all its might, all this must go! The toilers, the workers and poor farmers must come into power.

This convention will be reported by the capitalist press as a red convention. We are not ashamed of the term red. This convention is a red convention. It is made up of men and women with red fighting blood in their veins.

At the present time we can point out that in one country in the world the reds are in power, the red flag flies as the flag of the country. That is the only country in which the workers and farmers have the power. In Russia exploiters have been overcome. There a system of society is now being built that will give to the toilers all the advantages that their labor and ability can provide.

Recognition of Soviet Government.

The United States Government, the government of Wall Street., the government of bankers, trusts, mergers, robbers, pirates, grafters, the government of the oil gang, etc., declared in the name of humanity that it cannot recognize a government where the working class is in power. This campaign is only an incident in the struggles between the workers, the farmers and the exploited masses with the exploiters who are in power. This struggle will have many phases, election campaign, strikes, demonstrations, parades, mass meetings, etc. One of the most important phases of this campaign will be the demand for the recognition of the Soviet Union.

If the United States will persist in its refusal of the recognition of our government, the Soviet government, we know that the time will come when the workers government in the United States—a Soviet government—will recognize Soviet Russia. (applause)

U. S. Imperialism.

American imperialism, drunk with the enormous profits that it won as a result of the world war is engaged in a very aggressive imperialist campaign. In South America, in Mexico, in Nicaragua, in Haiti and in the Philippines, the masses of toilers there are experiencing the bloody rule of American imperialism. In Asia the Chinese workers and peasants, who are engaged in a bitter struggle against the exploiters, feel the bloody hand of American imperialism.

All over the world the imperialists of the United States are fighting against the competition of imperialists of other countries. The policy of American imperialism is to drive the other imperialist powers out of the markets of the world. The result is a sharpening of the antagonisms between the imperialist powers. This aggressive imperialist policy of the United States is leading into a new world war.

The next world war will be on a more gigantic, on a more costly, and on a more deadly scale than the war we have just experienced. Linked up with the question of the breaking out of a new imperialist war is the formation of a block of imperialist nations against the Soviet Union. We enter this campaign fully aware of the great danger of war facing the working class of this country and every other country.

Our party is an international party, our party fight imperialist wars, our party joins hands with the workers and toilers of all countries in defense of the exploited and toiling masses everywhere and we declare that in the event of a war we will utilize the war to mobilize the workers, to mobilize the farmers, to mobilize the masses to make the war the burial ground for capitalism not only in this country but in every country in the world. (applause)

War vs. Soviet Union.

In connection with the subject of war against the Soviet Union, it is interesting to note that relative to the Kellogg proposal the French government declares with the British government that the proposals against wars must be considered as proposals not including the Soviet Union.

What does this mean? It means that the imperialists have in mind a war against the Soviet Union. This war has actually started. Encouraged by the hostile attitude of the imperialists against the Soviet Union paid for by the imperialists, the counter-revolution has attempted to raise its head inside the Soviet Union.

Imperialist Conspiracy.

The affair of the Donetz basin is only one initial step on the part of the imperialists to undermine the economic machine of the Soviet Union, so that the Soviet Union will not be able to supply its workers and farmers with the materials of war in order to withstand the attacks of the imperialists. Already it is to the credit of our government of the Soviet Union that it nipped this conspiracy in the bud, that the counter-revolution is crushed. We, members of the international proletariat, members of the exploited masses of the world, of the Communist Party and the Communist International, declare in the event of an attack, of a war against the Soviet Union, we will defend our country, the Soviet Union. (applause). We will do everything in our power to rout the imperialist enemies and bring about the victory of the Red Army.

We of the Workers (Communist) Party declare, to the enemies of the working class and to the capitalist government, that the objective of the revolutionary party of the working class is the overthrow of the capitalist system of society.

(To Be Continued)

HONEST ELECTIONS, IS DYERS' DEMAND

Raising the demand that an honest membership meeting be called so that the choice of the union's leadership be left for the members and not for psuedo-union men packed into a staged meeting, and appealing to all workers in the cleaners' and dyers union to come to union meetings to fight the gangster officials of the organization, the Progressive Group in the union yesterday distributed a statement to the workers in the shops, which says in part:

"The same corrupt officials who are terrorizing the membership by removing all those who refuse to be a tool of the corrupt machine from their jobs, are disregarding the demands of the membership for a new and legal nomination.

"The bosses assist the corrupt officials by removing good standing union members from their jobs who do not approve of the officials' policy.

"The same gangster oficials who nominated themselves at an illegal meeting are going to elect themselves to represent you for the coming year.

"No objection and election committees were elected at the nomination meeting. Over 50 loyal union members were not admitted to the meeting, because these gangsters fear the membership will recall a few of their betrayals. They know that we, the membership, still remember that we lost two weeks' pay in order to organize the bosses' association. We, the membership, still remember what the Effrat clique did to our regular elected Executive Board members.

"Sisters and Brothers: It is time that we show the gangster officials that the union is not their private property, that we, the membership of the union, will have our say in all the affairs of the union, with an honest rank and file leadership who will represent the will of the workers, not of the bosses' association. We want a leadership that will use our money to strengthen the union, not to hire gangsters to beat up our brothers with blackjacks and knives.

"The nomination was illegal, therefore, we, the members of the union, demand a new and legal nomination where all union members will be admitted to the nomination meeting and an honest election."

ELECTION SIDELIGHTS

By T. J. O'FLAHERTY

As these lines are written, the Tammany Tiger is getting ready to boggle up the Democratic donkey. I do not know in what light a food faddist would regard a jackass as an article or diet but it is obvious that Tammany is prepared to take the beast into its seasoned tummy with every prospect of survival without having recourse to America's national medicine, advertised on the nation's billboards.

• • •

Radio announcers are informing an interested populace that the Smith managers are willing to give native sons and favorite sons a chance to break into the headlines before the striped beast of New York's political jungles decides lunch time cannot be postponed any longer. And if the favorite sons have any ideas to incorporate in the jackass platform they can wiggle their ears and bray. They may get in unless the great god who runs both capitalist parties decrees otherwise.

• • •

Did anybody hear of McAdoo, Wilson's Crown Prince, since the ballyhoo for the Houston convention got going? William Gibbs who had his name written on every treasury note during the war — good political advertising one should judge — is all wrapped up in his night shirt and pillow case and no Kluxor is mean enough to do him the honor of mentioning his name. Jim Reed of Missouri is playing the role of the last of the Democratic Monicans to sound the tocsin of war against that capitalist by-product, corruption, but the odor from Teapot Dome and the New York Sewer Scandals has evidently plugged the olfactory organs of the fellows who fill the columns of the employers' press for the edification of the voting populace.

• • •

The New York World no longer bleats about the traditional corruption of Tammany Hall. Tammany used to be crude in its methods but it has seen the light and learned from its betters. An Alfred has come to judgment. Smith may be blocked on his way to the White House by the boys from the prairies who hate incorporated breweries and the self-styled prisoner on the Tiber, but since J. P. Morgan is the financial agent in the United States for the papacy, the catholic church, as the most powerful bulwark of capitalism, will lose less by having a believer go down in defeat than by losing a nomination. Better to have run and lost than not have run at all.

• • •

The "average person" is deeply interested in the farce that is about to be staged at Houston. His way of arriving at conclusions is interesting. One would be justified in thinking that workers would have learned within the last ten years that American capitalism functions through both pet parties and that it will not turn down a chance at making profit, no matter which set of confidence men win. Yet one hears workers talking of Al, the boy who rose from the bottom. And others with a less emotional make-up sing the praises of Hoover, the efficiency man who will make two dollars out of one after he is elected.

• • •

The Socialist Party, through its spokesman, the Reverend Dr. Norman Thomas, wails like an alley cat because of the corruption of both parties and suggests that his party alone would give a fumigated administration to the country. There is no doubt of the willingness of the S.P. to serve the capitalist system as loyally as their contemporaries in Germany are doing it today and Ramsey MacDonald did it in England, starting with the putting across of the Dawes Plan on Germany and ending when the British rulers did not need the renegades any more to fool the workers. But Thomas hasn't got a chance. Wall Street does not yet need a Ramsey MacDonald.

• • •

The Workers Communist Party alone goes to the masses in this campaign with a program which places the responsibility of organizing for the overthrow of the robber system of capitalism squarely on the shoulders of the workers themselves under the leadership of the Communist Party. The Communists do not claim that the elimination of graft from sewers and oil wells would put more food on the worker's plate or better clothes on his back. Though the worker is fleeced in every possible way that a bourgeois parasite can think of, his problem is to get control of industry and run it for the benefit of the producing classes. To accomplish this purpose he must be organized politically and industrially. Trying to clip the claws of capitalism is a futile policy. The workers who work and vote for the ticket headed by Foster and Gitlow this year will be putting their time to good advantage. They will be doing effective work for the future when the revolutionary workers will be sufficiently organized to take the governmental apparatus out of the hands of the exploiters and organize a government in its place that will represent the interests of labor on factory, farm and sea.

TRIAL OF BELA KUN WILL START TODAY

PORTER DEFIES ARMY CZARS, DEFENDS COMMUNISM

SEIPEL REGIME TO START BELA KUN TRIAL TODAY

Workers of All Lands Send Protest

VIENNA, June 25. — The trial of Bela Kun, Hungarian Communist leader, on charges of passport violation will be begun here tomorrow. At the same time the power of international labor has compelled the Austrian government to desist from its purposes in part, and intimations have been received that the Seipel government will refuse to hand over Kun for extradition by the Horthy regime.

The Viennese workers are in a state of high tension on the eve of the trial of Bela Kun and the government is utilizing their excitement to justify extra quotas of police, on the pretext that they are needed to maintain law and order.

Hamper Defense

Every obstacle has been placed by the Seipel government in the way of the defense lawyers acting for Kun. At one stage of the case, Kun's lawyer was actually forbidden to confer with him.

The trial will last only one day. This is the opinion passed about in informed circles here. The Vienna government has marshalled its agents and their evidence and is prepared to judge Kun as a Communist, though it has contrived the necessary "legal" entanglements as a basis for proceeding.

While it is believed that sentence will be quickly passed, the Austrian government has already showed its fear of the power of international labor and it is unlikely that any further attempt to turn over Kun to any other government for prosecution will be made.

KANSAS MINERS FIGHT MACHINE

Officials Arrange With Operators

PITTSBURGH, Kansas, June 25.—The rank and file miners of District 14 are putting up a heroic struggle against the combined forces of the Operators and the Lewis-Burr-Skahan machine. As soon as the rank and file became active in the district the officials follow up and do all possible to take the lead of what they start.

Lately it has become so unpleasant for the officials that a conference was called at Franklin where delegates from each local were to discuss the District situation. The Western Coal and Mining Company, the largest in the field, desires to put their mines on the 1917 basis as they have done in Oklahoma and Missouri.

As soon as the meeting was called it is known from reliable sources that the operator of one of the large mines approached the officials and some miners and asked them to accept a compromise scale between the 1917 and the Jacksonville.

If the conference had voted to accept, the officials were ready to agree, and blame the reduction on the men. However, as soon as the issue was

(Continued on Page Two)

ARREST 15 WEST AFRICAN WORKERS

PARIS, June 25.—A campaign of persecution has been begun against militant leaders of the native workers in French West Africa, the Belgian Congo and British West Africa, reports from Dagar state.

Fifteen have been rounded up by government officials and plans are being made to deport them.

CHANG AIDE DEAD.

TOKIO, June 25.—General D. Swinschort, of Colorado, a well-known soldier of fortune, who took part in many campaigns in Mexico and South America and later was advisor to Chang Tso-lin, the late Manchurian war-lord was drowned today while swimming at the Kamakura Beach here.

Japanese Police Used Against Chinese Strikers

The picture shows Japanese motorcycle troops with mounted machine guns. Troops like these are used against the Shanghai textile workers, 80,000 of whom are now on strike to protest the frame-up of a Chinese worker charged with killing a Japanese citizen. The murder is known to have been committed by a police officer.

HOLD ELECTION RALLY IN BALTIMORE JULY 4

BALTIMORE, June 25.—A picnic and rally will be held here at the Workers Cooperative Shore July 4 for the purpose of mobilizing the militant workers of this city for the national election campaign of the Workers (Communist) Party.

An elaborate entertainment program is being arranged, which will include bathing and all sorts of games. The chief speaker of the day will be Robert Minor, editor of The DAILY WORKER. Baltimore workers are showing great activity in the election campaign.

TAMMANY READY FOR FINAL BLOW

Convention Is Picture of Bankruptcy

(*Special to The DAILY WORKER.*)

HOUSTON, June 25.—A national political party so bankrupt of leadership that it is forced to accept Al Smith against its will, and so devoid of principle that Tammany Hall must become its symbol—this is the picture which the futile writhings of the "democracy" here calls forth, on the eve of the opening of the convention.

The democratic delegates have no one to offer other than Smith, so they are hurriedly scrambling to get on his band wagon. Frantic hand shaking takes place between the bone-dry representatives of the west and such soaking-wet, New York State Committeeman, as Norman E. Mack, oft-exposed Tammany grafter; between the virtuous southern colonels and the power-controlled, traction-owned George Van Mamee, public service commissioner of New York, manager of Al Smith's election campaign and chief fund-gatherer for the Wall Street candidate.

All forecasts point to the election of Smith on the first ballot. The Tammany tiger is even said to be considering how to withhold the force of his spring in order not to crush out the opposition too completely.

Leviathan Mail Robbery Larger Than Expected

All registered mail pouches consigned from New York to Berlin on the voyage of the Leviathan, completed Saturday, were rifled enroute, according to a cablegram received by postal inspectors here this afternoon. Bogus seals were used to reseal the pouches, the cablegram stated, and every envelope was neatly slit.

This discovery is expected to increase by at least 50 per cent the losses discovered Saturday when registered mail from New York to all points in Great Britain was found to have been rifled.

Chicago Trade Unions Help Striking Miners

TERRE HAUTE, Ind., June 25 (FP)—Chicago trade unions have been generous in contributing to the relief of destitute Indiana miner families, it is announced at district union headquarters in Terre Haute.

Among the donations were $100 from the laundry wagon drivers and $50 from the metal polishers, though that union is itself hard pressed by a strike and the costs of injunction proceedings assessed against it.

RED SPEAKER TO COVER 5 STATES

H. Benjamin Will Deal With Negro Question

PHILADELPHIA, Pa., June 25.—Five states, southern and central-eastern, will have an opportunity to hear the Workers (Communist) Party platform regarding the question of the Negro worker, when Herbert Benjamin, organizer of District 3 of the Workers (Communist) Party, begins his extensive tour through cities of Pennsylvania, New Jersey, Delaware, Maryland and Virginia.

This speaking tour, besides its primary purpose of making clear the Workers (Communist) Party stand on the Negro workers, will also mobilize the Party resources for the election campaign and the campaign for the relief of the striking miners. The question of unemployment will also be intensified in these cities by the presence of Benjamin.

The recent lynching of a Negro worker near Houston, Texas, before the opening of the democratic convention is a symbol of what the Negro workers in this country may expect from either the republican or democratic parties, according to a statement issued by Benjamin. "For

Continued on Page Two)

CAPTAIN STARVED SHIP STOWAWAYS

8 Imprisoned as British Liner Reaches Port

COLOMBO, Ceylon, June 25.—The Australian liner Jervis Bay, bound from Australia to England, came into port today accompanied by the British cruiser Suffolk, with eight persons aboard ship in chains.

According to the captain's statement, the eight now imprisoned aboard the ship were stowaways, who were found when the Jervis Bay was about three days at sea. Upon their being discovered the captain went on to say, they became mutinous. Statements from passengers, however, are directly contradictory to those of the captain. They say that the stowaways, upon being discovered, were immediately placed in imprisonment in a cabin, and were forced to go without food for several days. This, the passengers assert, was the cause of what the captain terms "their mutiny."

LEADERS IN JAIL, 7,000 RALLY FOR MILL PICKETING

Conference Held for Big National Mill Union

BOSTON, June 25.—A call for the immediate launching of a national organization of textile workers is being formulated here as a result of a decision made at the conference of the National Textile Mills Committee, held here Sunday afternoon, at 38 Causeway St. The heads of the T. M. C. movement, who have been leading tens of thousands of mill workers in their struggles are now preparing the official call.

• • •

Despite the imprisonment of the two leaders of the Textile Mills Committee, Murdoch and Beal, several thousands of textile strikers organized themselves under the leadership of rank and file picket captains and conducted picket lines this morning that were admittedly the largest and most enthusiastic since the strike of 28,000 workers began, 11 weeks ago today. More than 7,000 patrolled the mill gates.

Answering the severe police terror instituted in the last few days by the mill owners with tremendously intensified militancy, the strikers under the Textile Mills Committee leadership also turned out in large masses for picket duty on Saturday and Sunday. From the mill gates the thousands of strikers went each day to the union halls and lots to hold short meetings, preparatory to the daily mass meetings in the afternoon.

Instituted with the intention of

SMITH REPORT IS ANTI-LABOR

Governor's Man Urges Insurance Changes

(*Special to The DAILY WORKER.*)

ALBANY, June 25.—Further centralization of state power in accordance with the program of Governor Al Smith who is said in this respect to be carrying out the definite program of Wall Street, is seen in the second part of a report on the state labor department issued yesterday by Lindsay Rogers, Moreland Act Commissioner, named by Smith to "investigate" the department. The first part of the report was made last week.

Rogers advises the elimination of duplicating activities in the department and the centering of work under the Industrial Board instead of as present divided betwen the Industrial Commissioner and the board. More significant still is the recommendation that the administration of the compensation bureau be run by an advisory committee of insurance company representatives. While stating that the rights of this bosses' board would be only "advisory" it is believed that the move is a step in the direction of cutting away what little effectiveness still is contained in the workingmens' compensation laws.

Rogers who is a personal friend and right hand tool of Al Smith also criticizes the Industrial Survey Commission, a republican whose activities last winter forced Al Smith to institute this new "investigation."

THEA RASCHE HOPS OFF.

CURTIS FIELD, June 25.—Harried by the efforts made to delay her trans-Atlantic flight, Thea Rasche today hopped off for a Newfoundland base, the first leg of her hop to Germany, according to reports here.

U. S. S. R. PROTESTS KUOMINTANG RAID

Score Attack on Tientsin Consulate by Tools of Imperialism

MOSCOW, U.S.S.R., June 25.—The Foreign Office of the Soviet Government today sent a vigorous protest to the Chinese Embassy against the recent raid on the Soviet Union Consulate in Tientsin by police operating under the orders of Fu-Tso-Yi, traitorous Kuomintang general.

The raid, which occurred last Thursday, was a repetition of the Shanghai raid made last year. The invaders occupied the consulate for several hours, overturning desks and ransacking cabinets.

After the raid, however, Chinese officials admitted that they had found neither arms nor "Communist propaganda."

The protest sent to the Chinese Embassy by the Soviet Union Foreign Office has been transmitted by Charge d'Affaires Cheny Men-shin to the Nanking government, according to reports.

Mass Picketing: The Great Weapon of Miners

Above is a scene at No. 24 Western Mine, Arma, Kansas during a mass picketing demonstration of miners. Kansas miners are calling for a special convention July 1st to remove the corrupt officials who have betrayed district 14.

LABOR DEFENSE HITS JAILING OF PORTER

Isaac Shorr, a prominent New York attorney who has defended many labor cases, has been retained by the National Office of the International Labor Defense, 80 East 11th Street, to defend John Porter.

Shorr is leaving this afternoon for New Bedford to begin the defense of Porter.

• • •

I. L. D. Statement

The following statement on the case of John Porter has been issued by the National Office of the International Labor Defense:

"The arrest and impending court-martial of John Porter, vice-president of the New Bedford Textile Workers Union and organizer for the Young Workers (Communist) League, shows that the United States Army, at whose prison in Fort Rodman Porter is now confined, has been placed at the complete disposal of the textile barons of Massachusetts who are bending every effort to break the courageous resistance of the New Bedford textile workers.

Proved Mettle

"John Porter, although only nineteen years old, has already proved his mettle by his activities in the

BANK FAILURE IN MINE TOWN

Pits Also Shut Down; City a Tomb

(*Special to The DAILY WORKER.*)

HIMLERVILLE, W. Va., June 25.—Bankruptcy of the Himlerville Bank with the loss of $68,000 of miners' money which they have been forced to deposit there by Martin Himler, owner of the bank, and the shut-down of the mines likewise owned by the same man, has made this town in which several thousand miners live, a veritable place of the dead.

Miners and their families are literally frantic, facing almost immediate starvation. A mortgage of $25,000 on the Himlerville bank is held by the bank at Huntington, which means that practically nothing will be left for the miners when the accounting is made.

The closing of the mines preceded the bank failure.

Himler, who practically owned the town in addition, forced the miners to buy worthless lots of land on which they erected their shacks. This is another reason why they are practically bound to the town which is now like a huge silent tomb. The miners were forced to place some of their wages in Himlers' bank in order to maintain their jobs. This accounts for the $68,000 of their money in the bankrupt institution.

URGE PICNICS TO AID THE "DAILY"

Barber Shop Donates 25% of Proceeds

During the difficult summer months, the militant workers of this country who by their financial help recently saved The DAILY WORKER from closing down, must not cease their aid. On the contrary, they must intensify their efforts in behalf of their fighting "Daily" if perhaps even more serious crises are to be avoided.

One of the ways in which working class groups can raise money for The DAILY WORKER is by arranging picnics and outings now that warm weather has arrived. All class conscious workers should immediately bring proposals for such affairs before the organizations to which they belong. They should also solicit their friends and sympathizers for individ-

3,000 POLISH IMMIGRANTS.

WARSAW, June 25.—Three thousand Polish immigrants will be sent to Peru to settle on farms.

NO WORD YET OF AMUNDSEN PARTY

Work to Repair Nobile Rescue Plane

KING'S BAY, Spitzbergen, June 25.—Gen. Umberto Nobile, who was rescued from an ice flow by the Swedish plane Upland and taken on board the supply ship Citta di Milano is not in serious condition, according to word reaching here this afternoon.

The five members of the party left behind on the ice are trying to repair the Upland which capsized in making a second landing.

So far no word has reached here as to the whereabouts or fate of the Amundsen party which disappeared a week ago.

• • •

LONDON, June 25.—Capt. Amundsen, missing Norwegian explorer, has been located by the U. S. S. R. ice breaker Krassin and plans are being made for the rescue of himself and his companions, according to an exchange telegraph dispatch from Paris this afternoon quoting an unconfirmed report printed by the newspaper L'Information.

TRY STEWART ON PERJURY CHARGE

WASHINGTON, June 25.—Robert W. Stewart, chairman of the board of the Standard Oil company of Indiana, was indicted by a District of Columbia federal grand jury today on a charge of perjury.

The action grew out of the appearance of Stewart before a senate investigation committee, his refusal to answer questions pertaining to the mysterious continental trading company, and his subsequent trial for contempt before the district supreme court, when he was acquitted. Stewart has engaged in a struggle with the Rockefeller interests for the control of the Standard Oil company of Indiana.

TEXTILE STRIKER REMAINS TRUE TO WORKERS' CAUSE

Held Incommunicado in Military Prison

BULLETIN.

NEW BEDFORD, Mass., June 25.—A huge protest meeting against the imprisonment by military authorities of John Porter, organizer of the Young Workers (Communist) League and Vice-President of the New Bedford Textile Workers' Union has been called for July 4.

The Y. W. C. L. and other working class organizations will participate in the demonstration, at which prominent speakers will be present.

• • •

By GILBERT GREEN

NEW BEDFORD, Mass., June 25.—John Porter hurled defiance at the military authorities here following his arrest and announced that he has no apologies for being a Communist and a leader in the strike against the textile barons.

"Yes, I am a member and organizer of the Communist youth league, and I am going to remain so, in spite of any sentence you may give me," was the challenge in the face of the army officers who questioned Porter.

John Porter took his militant stand in the face of a general court-martial and the certainty of a long sentence to the military prison at Governor's

(Continued on Page Two)

MINE WOMAN TO KEEP CHILDREN

Laura Calegari Put On "Good Behavior"

(*Special to The DAILY WORKER.*)

WHEELING, W. Va., June 25.—"If you keep off the picket line and turn that soup kitchen over to someone else, we'll let you keep your kids." This was the ruling of the squire's court before which Laura Calegari, coal digger's widow and strike leader at Triadelphia, appeared to answer a warrant charging her with neglect of her two children Virgil, seven, and Vera, four. The move to deprive Mrs. Calegari of her children was instituted as a means of forcing her to give up her activities on the picket line.

None of the 14 witnesses which Mrs. Calegari brought to testify to her good character and her faithfulness as a parent were permitted to testify. When the widow attempted to speak in her own defense she was silenced by the court.

"I'm not interested in anything you may have to say," the presiding justice informed her. "I can't take the word of a woman who is known to her

(Continued on Page Two)

SUB CAMPAIGN IN OHIO PROGRESSES

Excellent results are being obtained by L. Sisselman, special DAILY WORKER agent, who is now touring the Ohio district seeking subscriptions for the "Daily."

Today Sisselman will be in Conneaut and his itinerary for the latter part of June and the beginning of July includes: June 29, Warren; July 4, Youngstown; July 10, East Liverpool; July 14, Canton; and July 18, Cleveland.

Sisselman will then tour the western part of Ohio. This is the first time that the Ohio territory is being thoroly canvassed and Sisselman expects to spend an entire month there. All class-conscious workers should give him their utmost support and help spread the influence of The DAILY WORKER.

NO CURE FOR CANCER

BERLIN, June 25.—The problem of the origin, nature and cure of cancer still remains unsolved, declared Privy Councilor Dr. Blumenthal, leader of the Berlin Institute for Cancer Research, at the celebration of the 25th anniversary of the founding of the Institute. Much progress has however, been made during the last 25 years, he said, in the knowledge of the character of the cancer cell.

A. F. of L. Officialdom Grovels Before Gov. Smith at Houston Convention

MISLEADERS IN FINAL MOVE OF SECRET SELLOUT

Treachery Linked With Traction Deal

(Special To The DAILY WORKER.)

HOUSTON, June 25.—In accordance with a secret agreement known to have been worked out no less than four months ago, officials of the American Federation of Labor are here to make final arrangements to turn over whatever of labor's votes they can command, to Al Smith and the democratic party.

President William Green, vice presidents Morrison, Woll, Ryan and O'Connell, president of the Metal Trades Department of the federation, who constitute the organization's so-called legislative committee, are here to await their chance for a conference with the democratic convention resolutions committee. The same committee seeking crumbs at the heavily stocked larder of the republican convention at Kansas City last week was received figuratively with a stone. This likewise is known to have been a pre-arranged scheme in order that the A. F. of L. officialdom may more plausibly endorse Al Smith, who is expected to be nominated here tomorrow.

Pre-Arranged.

The plan to endorse Smith is known to date from the time when the New York State Federation of Labor gave its endorsement to Smith last winter. Just at that time, Green, and officials of the Amalgamated Association of Street and Electric Railways who were making a gesture at organizing the New York traction workers, made an agreement with the Tammany Hall machine to give up organizing, and not to call a strike in return for a "favorable" decision on the Interborough Rapid Transit Company injunction then pending against the federation and the Amalgamated.

Green then wired from Washington that "the time was unfavorable for a strike." The Amalgamated, in accordance with the agreement, called off the strike already scheduled, and prevented a meeting of the workers. Within a month the existing union of over 5,000 members was completely liquidated.

How It Is Done.

In due course the so-called "favorable" decision on the injunction was granted to the A. F. of L. These officials are now here to deliver the rest of the goods, their support for Al Smith. One more fact needs to be mentioned. The labor officials more than ever are adopting the policy of dividing the workers on the political field. Green and John L. Lewis are both officials in the miners' union. Lewis has come out in support of Hoover. Green supports Al Smith. The Railroad Brotherhoods support Hoover, the A. F. of L. officials support Smith.

Smith and Hoover support and are supported by Wall Street.

LAURA CALEGARI KEEPS CHILDREN

Move to Intimidate Her Fails

(Continued from Page One)

neighbors as immoral. I am ready to believe anything told me by these officers. The case is dismissed and you may have your children this time but the next funny move you make we'll take them from you," Mrs. Calegari was warned.

"Those kids that I feed in the soup kitchen are hungry," the woman strike leader says, "and I intend to feed them as long as their parents are on strike. If the National Miners' Relief Committee only continues to send us food I'll keep that kitchen going in spite of hell."

Relief and Picketing.

Mrs. Calegari is running the relief station single-handed. She feeds 65 children three times daily. The rest of her day's routine consists of two appearances on the picket line, caring for her own two children, and her little household.

Mrs. Calegari needs the help of her fellow fighters in other industries. Send as much as possible to the National Miners Relief Committee, 611 Penn avenue, Pittsburgh, Pa.

Fists May Decide the Marathon Dance Meet

Prospects that the Madison Square Garden dance marathon may wind up in a good, old fashioned fist fight with hair pulling in the clinches, were considerably increased today.

A feud has developed between couple No. 3—Tommy Nolan and Miss King—and couple No. 31, James [illegible] and Florence Carlough, of [illegible] Couple No. 31 accused [illegible] No. 3 of "stalling" and the [illegible] are all set to get their [illegible] worth when officials of the [illegible] separated the pair.

Klan Senator Performs Before Admirers

Labor Senator J. Thomas Heflin of Alabama in a "dramatic pose" before addressing a gathering of 7,000 Klansmen and Klanswomen on the campus of Upsala College, Kenilworth, N. J. Heflin has received money from the Klan for numerous speeches.

AFFAIRS TO AID "DAILY" URGED

Picnics and Outings Can Supply Needed Funds

(Continued from Page One)

ual contributions. Get busy, workers!

The Non-Tip Barber Shop of 26-28 Union Square has contributed $45 to The DAILY WORKER. This is 25 per cent of last week's proceeds at the shop.

The following are militant workers who have helped to save The DAILY WORKER:

Council 2, UCWU, New York City, $1.50; Henry Saltes, Mike Vajda, N. Y. C., $5.00; Morris Cohen, Bronx, N. Y., $1; Bella Feld, N. Y. C., $1; R. Elkin, New York, $1.50; J. Sheman, Pittsburgh, Pa., $.50; R. Horavitz, Pittsburgh, $.50; M. Goldstein, Pittsburgh, $.50; I. Berman, Pittsburgh, $.25; Mellinger, Pittsburgh, $.50; H. Feldman, Pittsburgh, $1; Madassa Subkoff, Pittsburgh, $.50; Sirotnik, Pittsburgh, $.25; Della Goldman, Pittsburgh, $.25; I. Goldman, Pittsburgh, $.50; Kaplan, Pittsburgh, $.50; Anna Frank, Pittsburgh, $.35 M. Jenkins, Pittsburgh, $.20; F. H., Pittsburgh, $1; Nick Osadeznk, Hamtramek, Mich., $1; Hungarian Slov Br. ILD, Bethlehem, Pa., $15; Mirrow, Brooklyn, N. Y., $2; C. W., Brooklyn, N. Y., $2; Lithuanian W. Literary Soc., Hartford, Conn., $10; A. T. Harrington, Detroit, Mich., $2; San Francisco, $5; A group of Full Fashioned Hosiery Workers, Ridgewood, L. I., $44; Walter P. Sukut, Chicago, $.25; S. O. Borsheim, Zahl, N. Dak., $1; Anna Coxall, Alliance, $1; Ohio Nuclei, Martins Ferry, $15; George Andrews, Camp Talbot, $2; Section 1 9F, New York, $6.50; Ellckman, Brooklyn, $1; Andrew Morinone, Chicago, $2; Lee Guen, Philadelphia, $10; Chinese W. P. Alliance, Philadelphia, $20; J. Stein, New York, $2; W. Hubelt, New York, $4; Branch 3 Sec. 7, Brooklyny, $5; Aaron Spievak, White Springs, $5; P. Grover, J. S. Vargo, Alliance, $1; T. Williams, Denver, $2; J. Dickison, Denver, $1; Otto Dudeck, San Francisco, $3; Theresa Toth, Logan, $10; Alex Kutnyak, Milwaukee, $2; Louis Lovasz, Bridgeport, $5; Paul Du Val, Murrieta, 1; D. Lockshine, New York, $2; J. Mishalow, Coney Island, $.50; Vendel Teplizky, Washington, $2; F. Chopy, Los Angeles, $4; W. P. Section 1, Cleveland, $5.59; Slovenski Robotnicky Soolok, Obdor 43, Akron, $12; P. Bokos, Waterbury, $3; V. Krasnickas, Waterbury, $2; Louis Berinhono, Jacksonville, $10; Vendel Nagy, Detroit, $5; W. Cherry, New York, 2; Victor Bertolanc, Petaluma, $1; J. A. Mohr, Detroit, $1.50; Branch 5 Section 5, Bronx, $13; K. D. Tahtieff, Juneau, $2; A. D. Boroff, Juneau, $2; Harry Benazoff, Juneau, $1; Bechir Besaeff, Juneau, $1; Alex Sakoff, Juneau, $1; M. A. Wzilihoff, Juneau, $1; Frank Seknaeff, Juneau, 1; Phielino Dzasakoff, Juneau, $.25; D. B. Temisaeff, Juneau, $1; Mike Kosoff, Juneau, $.25; Taze Tagados, Juneau, $.25; T. S. Orton, Juneau, $1; Alex Boraff, Juneau, $1; Miners Pool Hall, Juneau, 2; Evan Zaloff, Juneau, $1; Tomy Ramonoff, Juneau $2; Ivan Sakoff, Juneau, $2.

MASS PICKETING DESPITE JAILING

National Textile Union Call in Preparation

(Continued from Page One)

weeks'-long textile strike. He has already been arrested five times while leading the picket lines of the strikers. In an effort to remove him from the strike field, a 'legal' pretext was concocted against Porter to bring him before a drum-head court-martial of military officers who intend to weakening the morale of the tens of thousands out in a struggle against the wage slashing, the vicious attacks of the police on picket lines, the scores of arrests, heavy fines, and jail terms meted out, succeeded only in awakening a blaze of resentment that manifested itself by drawing into active struggle thousands who have hitherto been inactive.

It was also learned through unofficial though reliable sources that a number of policemen on the New Bedford force have been summarily dismissed for refusal to participate in terrorizing the pickets. All these are being replaced by police from Boston and other nearby cities.

That the mill owners ranks are by no means unified becomes evident from the miserable failure of the attempt of the Nonquitt mills to secure scabs. They sent agents to the house of every skilled worker with "attractive" offers to return to work.

Labor Defense Scores Jailing of Porter

(Continued from Page One)

send him to prison for the maximum sentence. Porter is being charged with desertion from the army in which he enlisted a few years ago. The same military clique who are now so determined to enforce the 'legal point' of his having left the army after having served in it for two years and two months, were not so anxious to enforce the law when Porter was taken into the service although at the time of his enlistment he was not yet of legal age, being under sixteen years!

"The International Labor Defense condemns the arrest of John Porter as a malicious attempt to use the military arm of the government in the interests of the mill barons. It calls upon all workers to oppose this frame-up that was organized to crush the New Bedford Strike. We have retained attorneys and will do all in our power to obtain the immediate release of John Porter so that he may rejoin his fellow workers in the strike and fight on for a successful conclusion and a victory for the workers."

PORTER DEFIES MILITARY CZARS; FACING PRISON

Mass Protest Alone Can Aid Him

(Continued from Page One)

Island, unless mass protests of the workers all over the country force his release from the War Department.

Disregards Personal Dangers.

Porter knows the consequences of his present stand, just as he knew the danger to himself when leading the picket line with arrest for desertion facing him.

In spite of the fact that the army had his fingerprints and that he would face serious charges if he should fall into the hands of the military authorities, Porter was one of the most active leaders of the textile strike here and was arrested five times for activities in the workers' cause. At the time of being turned over to the military authorities he was out on bail of $1,300 pending appeal on a sentence of five months in jail.

Arrested For Singing.

The arrest which resulted in Porter being turned over to the army was on the charge of singing on the picket line. He was arrested at 4 p. m. June 18. When bail was furnished at 6 o'clock, the civil authorities refused to release him, saying that he would be turned over to the Federal government. At 10 p. m., he was sent to the military prison at Ford Rodman near this city.

At Hard Labor.

While awaiting trial by general court-martial, Porter is forced to do hard labor. He is held incommunicado and representatives of workers' organizations and friends are not permitted to see him. The right of bail has been denied him by the army officers.

Mobilizing For Defense.

The preparations for defense are being made by the International Labor Defense, and the Young Workers (Communist) League of this city has issued an appeal for the support of Porter by all labor organizations, pointing out that his arrest is due to his participation in the strike, and that his imprisonment is an intervention by the War Department on the side of the textile barons against the workers.

League Re-Elects Porter.

The Young Workers (Communist) League of New Bedford has declared its complete solidarity with John Porter in the struggle with the War Department by deciding that he will remain organizer of the League here, in spite of his imprisonment.

The military authorities are preparing to give Porter a sentence, to terrorize all soldiers who are unwilling to be tools of the exploiters, and only immediate huge protests by the masses can prevent long imprisonment of the militant young strike leader.

Kansas Miners Fight Treacherous Officials

(Continued from Page One)

raised the opposition was so strong that the officials changed their tune and talked for the Jacksonville scale. The conference was also to be used by the officials to rubber stamp their policy of betrayal and to go on record against the rank and file who were calling a convention to be held July 1st at Arma.

Machine Routed

Not one word was raised against the Save the Union Committee or the coming convention. The meeting adjourned with the Burr-Skahan machine in confusion, with drunks and gunmen of the machine on hand and the rank and file of the miners disgusted with the meeting.

Little Aid for Children

WASHINGTON, (FP) June 25.—Under the new child labor law for the District of Columbia, no child under 10 years may distribute newspapers over regular routes, and none under 12 years may sell papers. The 8-hour day and 48-hour week are provided for child workers of 14 to 18 years.

READING "DAILY WORKER" IS "CRIME"

Worker Gets Summons for Leaving Paper on Park Bench

It seems to be a crime in New York City to read The DAILY WORKER. At least, this has been the experience of Nathan Kaplan of 19 Stuyvesant Street.

Kaplan, who has been unemployed for sometime, was sitting yesterday morning in Madison Square at 23rd St. and Broadway, reading The DAILY WOKER. He observed a policeman standing near him, eyeing him fiercely. Every now and then the policeman would glance at the headlines with obvious disapproval.

After finishing the "Daily," Kaplan arose to go away, leaving the paper on the bench. "Hey there!" a voice bellowed in his ear. "What d'ye mean by leaving that paper on the bench?"

Kaplan turned to meet the furious glare of the policeman. He explained to the enraged officer of the law that other persons who read newspapers in the square are in the habit of leaving them on the benches and the police never object.

Kaplan's "Crime"

But it seems that the policeman had no objections to anyone leaving the Times or the World and he accused Kaplan of leaving it there for "subversive propaganda" purposes. Then to prove that "the law" would be served, he gave Kaplan a summons and ordered him to appear in court today.

Kaplan was scheduled to receive a hearing at 9 o'clock this morning in the Fourth District Magistrate's Court, 151 E. 57th St. He is being defended by the New York Section of the International Labor Defense thru its attorney, Jacques Buitenkant.

Too Poor to Bury Her Child, Scalded to Death

Even death under capitalism is on the side of the rich. Mrs. Vincenza Palito, 271 E. 154th St., has had to suffer not only the anguish of the death by scalding of her little daughter Carmella, three years old, but the additional grief of being so poor that she cannot afford to bury her. Photo shows Mrs. Palito and her three surviving children. They are, left to right, Vincent, 10; Jimmy, four; and Josephine, seven.

CURTIS PAYS PIPER TO PLAY FOR CURTIS

(By a Worker Correspondent)

PHILA., Pa., (By Mail).—Readers of The DAILY WORKER are familiar with Upton Sinclair's "Money Writes." And even if they have never read this work, as progressive workers they would know how money writes, for this terse statement of fact is proven by every daily press except The DAILY WORKER, in the periodicals that flood the newsstands and in the books that fill the markets.

$1,000,000.

The most recent revelation in regards to the activities of the Joint Committee of the National Utilities Association, in other words the Power Trust, show that at least $1,000,000 was spent in the last three years for propaganda favorable to the gas, electric light and electric railway interests, so that they can continue to mulct the workers of this country of hundreds of millions yearly.

This money to write was spent all the way from Richard Washburn Child, former United States ambassador to Italy, for an unsigned "booklet" opposing government ownership of Boulder Dam, down to obscure text book writers who wrote "specially prepared" books for use in high schools. Of course, according to the investigation made by the federal trade commission, the "sane and sober" professors at our leading universities were not overlooked by any means, for $62,000 was spent at Harvard, $95,000 (estimated) at Northwestern University, over $12,000 at the University of Michigan, $5,000 at John Hopkins, $33,000 at Howard University, $3,000 at the Massachusetts Institute of Technology, etc., etc.

"News Service."

Newspapers were paid for "news service" reports issued by these vultures who were even successful in placing such "news" in the editorial columns of many newspapers. All this kind of rubbish is a very old story and has become rather commonplace.

But now in Philadelphia money plays as well as writes. It plays the violin, the viola, the cello, the piano and other instruments. The Curtis Institute of Music, Josef Hoffman, Director, makes this announcement:

"Beginning with the school year of 1928-29, the Curtis Institute of Music will grant free tuition to all students who qualify for admission at the regular entrance examinations. As a result of this policy, every pupil of the Curtis Institute of Music will thus become a scholarship pupil."

The Curtis Institute of Music is endowed by C. H. K. Curtis and his wife. Curtis is the multimillionaire publisher who publishes the Saturday Evening Post, the Country Gentleman, the Ladies Home Journal, the Evening Ledger and the New York Evening Post. In all of these publications money writes and writes and writes. Not satisfied with money merely writing, Curtis and his friends hope to see to it that money also plays.

Worker Talent.

At the present time in Philadelphia some of the very best talent actually have the hardihood to play before working class audiences and at workers' entertainments. These men and women of talent, often of an origin purely proletarian, enjoy doing this and do it gratis. But the Curtis Institute will see to it, if they can, that talent of the future will play with the full consciousness of an obligation to the plutocrats. For Philadelphia plutocrats are conscious that highly talented names on a program of entertainment of workers may mean much to the workers, draw many people to the workers' organizations giving the program and aid greatly in the success of many workers' entertainments.

Therefore, they would, if they could, keep "worthy" talent for themselves, in their own halls and at their own private gatherings. And in order to absolutely insure against any "independent" tendencies amongst the talents of the future, they engage in this "scholarship" form of philanthropy.

However, workers' organizations in Philadelphia are growing, and in time they will have their own institutes of music, even as now the Young Pioneers are being taught to sing and to play.

Organizations like the Young Pioneers, trained in a proletarian class conscious and militant spirit, will more than offset the alleged philanthropy of plutocrats like Curtis, with their individualistic, patronizing scholarships.

Since the Philadelphia Public Leader and the Evening Ledger devote so much space to "mouth organ" contests and the merits of the saxophone, it is a wonder that they do not add to the curriculum at the Curtis Institute courses in playing the mouth organ and saxophone. This would be in line with the cultured development of the Philadelphia bourgeois class.

—C. RABIN.

SCORE FASCIST TERROR AT MEET

GRAND RAPIDS (By Mail).—A conference to protest against the white terror in Poland was held recently in Grand Rapids at the Ukrainian Hall, 59 Seward Avenue. The call for the conference was sent out by the Russian Workers Literary Circle.

The following organizations are so far affiliated with the conference: The Russian Workers Literary Circle, The Ukrainian Workers Dramatic Circle, The Polish Branch of the International Labor Defence, and the Ukrainian Working Women's Aid Society.

An executive committee of seven delegates were elected that started to function immediately. The committee resolved to pledge its fullest moral and financial support for the defence of the White Russian, Ukrainian, and other Minority Nationalities that are being oppressed under the present system of white terror in Poland.

The committee also decided to affiliate with the National Committee against the white terror in Poland which has its headquarters in New York City, and have all speakers sent out by the National Committee to tour the country, invited to speak in this city. It was also decided that in order to raise financial aid for the defence to arrange two picnics during the coming summer to be held on July 29, and on September 23.

The Organization of a World Party
By OSIP PIATNITSKY
15 Cents
What are the various sections of the Communist International doing? Germany, France, U. S., England, Italy?
What are their achievements, shortcomings and future tasks?
B. Vasiliev, reviewing this pamphlet in the May 1 issue of the Communist International, says:
"Every active member of every Communist Party in capitalist countries must have a copy of Comrade Piatnitsky's little book among the number of absolutely necessary handbooks on everyday Party work."

BENJAMIN, RED ORGANIZER, TO COVER 5 STATES

Negro Question, Party Drive to Be Stressed

(Continued from Page One)

the first time, the Negro workers of three southern states and two central-eastern states will learn the means of their emancipation, through the support of the only revolutionary party in this country, the Workers (Communist) Party," he said.

The problems of organizing the millions of unorganized in the heavy industries of these states will be mapped out. The formation of shop committees as the first step in building up powerful industrial unions, the formation of unemployed councils for the demand of Federal government subsidy, the intensification of miners relief work — these problems will be given foremost attention. Every party functionary in the following cities has been urged to make preparations for the meetings to be held. Every class-conscious worker has been asked not to fail to attend these mass meetings. The following cities will be visited by Benjamin in his speaking tour.

Monday, June 25—Easton, Pa.
Tuesday, June 26—Allentown, Pa.
Wednesday, June 27—Reading, Pa.
Thursday, June 28—Pottsville, Pa.
Friday, June 29—Minersville, Pa.
Saturday, June 30—Shenandoah, Pa.
Monday, July 2—Wilmington, Del.
Tuesday July 3—Arden-Newark, Del.
Wednesday, July 4—Baltimore, Md.
Thursday, July 5—Baltimore, Md.
Friday, July 6—Washington, D.C.
Saturday, July 7—Richmond, Va.
Sunday, July 8—Norfolk, Va.
Monday, July 9—Portsmouth, Va.
Tuesday, July 10—Trenton, N. J.
Wednesday, July 11—Atlantic City, N. J.
Thursday, July 12—Vineland, N. J.

WHITE PLAINS MAN INSANE.

WHITE PLAINS, N. Y., June 25.—Edward A. Kendrick, of Yonkers and Manhattan, a real estate operator, who has been in the Bloomingdale hospital for mental diseases since September 25, 1927, was formally pronounced insane today by Justice Arthur S. Tompkins in Supreme Court here, on application by his wife, Mrs. Elizabeth Kendrick.

Mexican Communist Party Calls Upon Workers to Eject Union Misleaders

SAYS MORONES BETRAYED FIGHT OF OIL WORKERS

Calls CROM Struggle With Obregón "Sordid"

MEXICO CITY, June 25.—As a result of the open break between the Mexican Labor Party (PLM) and Obregón, the Communist Party of Mexico has taken a position officially of opposition to the false labor leaders and calls upon the workers to throw out intruding politicians from their organizations, to work for a united front and for a closer alliance between the city syndicates and the peasants. The manifesto of the Executive Committee of the Communist Party declares the present conflict "a sordid struggle between two political factions called Obregónism and Laborism."

Price of Treachery.

The Party points out that the Confederacion Regional Obrre Mexicana is now paying the price for previous traitorous acts towards the working class, toward independent unions, citing the breaking of the railway workers' strike last year, a policy which has resulted in the weakening of the CROM unions themselves, as in the case of the oil strike in Minantitlan. The CROM has consistently attempted to break the strikes of independent unions, and has even, as in the case of the mine workers' strikes in Jalisco, made alliances with the catholics to accomplish this end.

The Communist Party also points out the policy of class collaboration, supported by Morones, notably in the textile industry, has resulted in a weakening of the workers' organizations and has brought about lock-outs and the unemployment of thousands.

Morones is denounced for his failure to protest against the mutilations of the constitution with respect to petroleum, and the concessions made by the government at the behest of American ambassador, Morrow. The general alliance of the CROM leaders with American imperialism is vigorously denounced.

The struggle in general, is typified, not as signifying any real orientation toward the fundamental problems of the country, but a selfish struggle between the national capitalism and the petty bourgeoisie on the one hand and a small group of labor politicians belonging to even a pettier bourgeoisie on the other.

Political Rivalries.

The Party declares that Obregonism at one time represented the united front against clericalism, landlordism, and imperialism, but that the recent split reveals that for Obregón the united front now exists in his own person, and that he has called on the peasants, the middle classes and part of the upper classes to aid him. The Obregón group are not motivated by any sincere desire to destroy the false labor leadership and strengthen the labor movement but merely to destroy a strong rival political clique which interferes with their own ambitions. There are even those among the Obregonistas who wish to destroy the labor movement, reduce salaries, and abolish the social gains of the revolution.

The Party declares that Moronism is not the CROM and that the Labor Party does not represent the Mexican proletariat. Within the CROM itself are strong elements eager to abolish the parasitical and yellow leadership. The Party points out the alliances of Morones' group with American imperialism, recalling that the CROM leaders compelled the organization to parade in honor of Lindbergh, that the recent parades have carried no banners referring to American imperialism, and that the official machine of the organization is dominated by the American Federation of Labor, which is in turn but another imperialistic instrument, as exemplified particularly in Puerto Rico.

Against Division.

In view of these facts the Communist Party calls upon the revolutionary organizations to unite, to rid themselves of false leaders and support true class representatives. This is a dangerous moment for the working class, for there are among the politicians those who are working to create a new and emasculated organization, not merely to fight the CROM leaders, but to destroy the bona fide workers' organizations as well, cleverly taking advantage of the discontent of the bulk of the members of the CROM to lift themselves to political power. The Communist Party, therefore, calls upon the workers not to permit their organizations to be divided, but to work for greater unity which can be achieved by eliminating the present leaders and giving no heed to those who would foment syndicalist disunity and the formation of separatist federations. Class solidarity is the watchword of the Party in the present crisis.

The federation of labor in the states of Coahuila and Durango have withdrawn from the CROM, denouncing Morones as an agent of imperialism. Sometime ago when Morones called upon Obregón to declare his adherence to the CROM, Obregón refused and reminded Morones of the weakness of the CROM and the danger of such defections as have just occurred in Coahuila and Durango.

Delegation of Textile Workers From Erzgebirge

TEXTILPROLETEN
AUS DEM
ERZGEBIRGE!

A recent convention of the German Communist Party brought together workers from all sections of the German working masses. Nothing shows more plainly than the delegations from the mines and factories the mass character of the German Communist Party. A delegation of militant textile workers is shown in the picture. The banner reads: "Textile proletarians from the Erzgebirge."

TO PASS SEVERE ANTI-LABOR LAW

Colombia Senate to Legalize Terror

BOGOTA, Colombia, June 25.—The increasing number of successful strikes in Colombia is leading to the promulgation of severe legislation against Colombian labor and labor organizations. The latest measure, a direct attack upon militant labor, has just been submitted to the senate by a commission selected by this body from among the majority, the conservatives, for the purpose of "studying" the most efficient methods of fighting the "Communist danger."

The commission found the solution by proposing prison terms ranging from one month to 14 years for "meetings or distribution of propaganda by socialists, anarchists or Communists."

The conservatives have a two-thirds majority in the Colombian senate and there is little doubt that these recommendations will be accepted. This law is sufficiently inclusive to suppress any labor activity.

TO STABILIZE FRENCH FRANC

"Socialists" Vote With Poincaré Regime

PARIS, June 25.—Protesting that they were acting "for the good of the country" and were not supporting the government's financial policy, the French "socialist" deputies in the French chamber yesterday supported that financial policy by voting for stabilization of the franc. The final vote stood 450 to 22 in favor of stabilization, the Communist deputies being almost alone in the last struggle against the financial measure.

Covering their action with a play to the workers, the "socialists" voted with the Communists on a number of unimportant measures during the preliminary balloting. In the course of the day they introduced several amendments in favor of the small bondholders. But the final ballot found the "socialists" voting solidly with the Right parties.

ANTWERP HARBOR WORKERS STILL TYING UP THE PORT

Strikebreakers Fail to Unload Ships

ANTWERP, Belgium, June 25. — No immediate settlement of the strike of ten thousand harbor workers which began three days ago was forecast here yesterday as the men remained firm in spite of the efforts of the police to disperse the strikers' meetings and demonstrations along the waterfront.

Shipping in the largest port in Belgium is practically paralyzed and there is no immediate prospect that loading and unloading of cargoes will be resumed in the near future.

The attempts of the owners to use strikebreakers has proved entirely unsuccessful.

Belief that the seamen would join the walk-out of the harbor workers is still held here. The sailors of the port are enthusiastic in their support of the strikers and are bringing pressure to bear upon their officials to declare a sympathetic strike.

Stationery Engineer Killed in Altoona

ALTOONA, Pa., June 25.—Joseph Mann, 55, an engineer employed by the Harrison Walker Company at Blandburg, near here, was killed today when stationary engine exploded. The force of the explosion was so great that it carried both Mann and parts of the machine through the roof of the structure in which the machine was housed.

FREAK OHIO STORM.

COLUMBUS, O., June 25.—Tornadoes and storms that struck three central and southern Ohio communities, several days ago left a toll of one dead, and more than a score of persons injured, some seriously. Property damage to the extent of $750,000 was caused by the freak storm. Donald Thomas, Negro worker, was the one killed.

Mailed Hands Across the Sea; U. S., Chilean Militarists

The picture shows major-general Hanson D. Ely, commandant of Governor's Island, greeting the latest "good will" ambassador from a Latin American nation. This time it is Capt. Giulio Allardo of Chile who arrived appropriately on a naval training ship.

SCAB COAL AND TRANSIT UNITED

Both Companies Have Anti-Labor Records

The recent alliance between the yellow dog Interboro Rapid Transit Company and the Consolidated and Berwind-White coal companies has prompted an inquiry by the transit commission. Independent producers charge that the Interboro Rapid Transit disregards low bids and favors the Berwind-White combination. The reason given is that E. J. Berwind, head of the coal corporation, is also the chairman of the Interboro's executive committee, and as such, one of the directors of the huge traction trust that controls elevated and subway transportation in Manhattan and the Bronx.

The records of both the Interboro and the Berwind-White companies are notoriously anti-labor. The Interboro Rapid Transit has wrapped itself in a series of anti-labor injunctions and its workers in yellow dog contracts to keep the street-car men's union out of the subways.

U. S. BECKONS TO NEW 'PEACE' MEET

Many Latin American States Near War

The "Conference for Conciliation and Arbitration," decided upon during the Pan-American Conference in Havana, Cuba, in February, 1928, will open on December 10 in Washington. Invitations were sent by Kellogg on June 19 to all United States diplomatic missions in Latin America for delivery to the respective foreign offices. Canada is not invited. The United States will be represented by the secretary of state and Charles E. Hughes.

Many conflicting interests may clash at the December conference. Actual war danger exists between several Latin-American countries. Bolivia prepares to invade Paraguay in order to occupy the "Chaco Boreal," rich in oil fields. Chile is prepared to hold Tacna Arica, in spite of all protests of Peru. Ecuador protests against Colombia's transferring to Peru a territory which Ecuador gave Colombia under the express condition not to give it to Peru.

DIAMOND STRIKE IN SOUTH AFRICA MAKES HEADWAY

Police Intimidation Proves Failure

CAPE TOWN, South Africa, June 25.—Failure of provocative police tactics to break the strike of the twenty-five thousand native workers from the diamond diggings outside the town of Lichtenberg is arousing the authorities to a point where they are prepared to take any measures to end the walk-out.

The owners, too, it is reported, are making representations to the government, urging an immediate ending of the strike, forcibly if need be.

Hundreds of native families left the diamond fields at the time the strike began several days ago. They have since been housed in public buildings and the care of feeding and sheltering them has been taken over largely by native strike relief bodies. The suffering of many of the workers during the first few days of the strike was considerable.

Requests of the native unions to join the South African trade union federation have been repeatedly turned down.

20 INJURED IN TRAIN SMASH-UP

IOLA, Kan., June 25. — At least twenty persons were injured, three perhaps fatally, when the Rainbow Special, crack Missouri Pacific passenger train, struck a defective rail near Durand, Kan., today, sending two Pullman cars and a [illegible] a bridge into a ditch.

Seventeen of the injured were brought to a local hospital, the others being taken into Durand. Officials believed the sudden change to cool, wet weather to be responsible for the

The Voice of the Communist Movement

By JAMES P. CANNON

AT a recent meeting of the Political Committee of our Party the report of the management of The DAILY WORKER was the first point on the agenda. It was not a new subject for us. The material difficulties of our paper have become an old story.

We have to admit that the leading committee of the Party, over-burdened with duties and responsibilities, has often taken the existence of our paper too much for granted and has not always given it the direct supervision and support, technically and politically, which its place as the voice of the Party demands. This negligence has been reflected in the Party circles also and we all share the blame.

At the meeting of the Political Committee to which I have referred, however, a changing attitude was shown and a new note of interest and concern for all the affairs of the paper was struck. I was especially sensitive to this new current because I had come back from my tour of the country with a higher regard for our daily organ and a greater appreciation of its worth to the movement than I had ever felt before.

The 'Daily' In Danger.

The report of the management gave the whole committee new realization that greater attention and support from the entire Party is a life and death question for the paper. Those who were present there know that the alarming notice of danger which has again been issued to the readers of the paper is no "wolf" cry, but a statement of actual facts.

The discussion on the report naturally covered a wide field and dealt with the various aspects of the Daily, since they are all bound together and are all part of one general problem. The discussion culminated in a motion to consider the political, technical and financial strengthening of The DAILY WORKER as one of the Party's foremost immediate tasks.

This was a necessary and a highly significant decision. It is true we have passed similar motions before which remained only on paper, but the recognition of the overshadowing importance of our central organ is growing and there is reason to believe this motion will bring positive results.

It is time now, in the light of this motion and the exigencies of the moment, to review the whole questions of our leading organ openly before the Party in order that the Party membership will participate in the work of giving life and substance to the motion.

Long before we started to publish the Daily we were many times admonished by the Executive Committee of the Communist International, and by Lenin personally, that we must take up this heavy task at all costs. Lenin often said that the publication of a national, daily political organ was one of the first prerequisites for the consolidation of a real political party. His maxim that such a paper should be "the collective propagandist, agitator and organizer of the movement" is familiar to most Communists.

Our paper, despite weaknesses and shortcomings, is fulfilling this role to a much greater degree than many of us realize. Its great authority and influence is especially to be noted by one who travels the country and sees the movement as a whole. The Daily shapes the ideological unity of the Party and gives a lead to the entire left wing movement on all decisive questions, even in the farthest outposts of the class struggle and the remotest sections of our vast country.

It is needless to say that the Daily is highly valued by the Party members and is the staff of life to the militants in every field of the labor struggle. The comrades in the field are of the opinion that the paper is improving in many respects. This does not mean that they are blind to its faults. They criticize it with a freedom and often with a sharpness which one only employs toward an institution he feels to be his own.

The party members know that the staff of the "Daily" performs miracles with the resources at hand and with the inadequate support they receive. When we criticize the paper it should be understood that we are criticizing the Party. The faults of our Daily are the faults of the movement and they can be overcome only insofar as they are freely discussed and the improvement of the paper becomes the collective responsibility of its supporters. The readers of a Communist newspaper must help edit it as well as finance and circulate it.

Needs of "Daily."

In line with the resolution of the Political Committee for the political and technical strengthening of the paper I wish to set forth a few ideas of what our daily organ needs and will gain with the help of the workers who maintain it.

A stronger staff, from a Communist political standpoint, is one of the first prerequisites to the execution of the decision of the Political Committee. The staff as a whole must be nearer to the Party and, for the most part at least, have a stronger background of Party experience and political understanding. It is true that newspaper work is a trade for which certain technical qualifications are more or less necessary. It is also true, however, that Communist journalism can be successfully practiced only by those who have a certain minimum of acquaintance with the principles of Communism and the history of the labor movement. Workers can be trained for these tasks. It is easier, as a rule, to make a journalist out of a Communist than to make a Communist out of a journalist.

Worker Correspondence.

Worker correspondence — letters from workers in the shops and in the fire of struggle—are the cornerstone of proletarian journalism. We have made but little headway in encouraging and training workers to write for our paper despite the efforts which have been made. More hammering along this line, more deliberate and systematic stimulation and organization of worker correspondence is a necessity.

Our paper should have more articles of a political and general nature and should not be confined to the groove of any established "newspaper" standard. We should not fear to blaze a new trail in form as well as in substance and to make a pattern of our own. We must have more features in the paper, especially light and interesting features, as a balance to the heavier material. The tabloids which have broken away from the old newspaper models consist mainly of light features. Without copying their substance we can learn from their technique. Too much emphasis cannot be placed on this point if we really want to extend our circulation and reach new strata of workers.

The staff of the Daily is short-handed and overworked, and underpaid to a scandalous degree. The lack of material resources prevents proper and necessary division of labor.

It has already been acknowledged by the leading Party committee that the Daily has been greatly handicapped by the limited number of qualified Party representatives assigned to work on the paper. Important matters are too frequently entrusted to politically inexperienced reporters, or still worse, we depend on reports of the Federated Press, with their inevitable liberalistic bias. Our daily badly needs, in addition to the present staff, a Washington correspondent and one or two political feature reporters who can be sent out to report important events, from a convention of a political party to a strike or a labor convention, with the assurance that he will draw the correct political inferences as well as tell the story in a readable and interesting way.

The style of our paper must be such as to make every incident in the class struggle an inspiration to the workers for further endeavors. The more accurate it is in handling facts, the more the readers depend on the truth of its accounts, the better will it succeed with this aim. Issues and events of the class struggle must be played up, not played down, but irresponsible exaggeration, which defeats itself, is a fault to be avoided. A reputation for reliability is one of the greatest assets of any publication. The more the workers learn to depend on the truth of our reports the greater will our real influence grow.

A Communist paper cannot take any other journalistic form for its model, least of all in determining the make-up of its staff. Journalists employed on capitalist and reformist papers are merely journalists. They are disconnected from life and struggle and become mere functionaries of a machine without any connection with its motive forces. That is why they almost always become good-for-nothing cynics, mere craftsmen whose trade is barren words.

Bureaucracy and routine are to a certain extent inherent in the trade of journalism, but they are alien to a Communist newspaper. The staff must be directly and organically connected with general Party activities and mass struggles of the workers and the contents, style and tone of the paper must be a true reflection of this party and labor life.

Our Daily which, in spite of enormous difficulties and many shortcomings, has nobly fulfilled its role of guide and voice of the movement for more than four years, is again in the direst straits.

We know that the appeal of the management committee was prompted by imminent danger to the life of the paper and we must stake everything on the hope and confidence that the loyalty and self-sacrifice of the workers who love The DAILY WORKER will pull it through the present crisis.

For the future we must aim to put a stronger and broader foundation under the paper. The resolution of the Political Committee showed the way for this and, it is to be hoped, will lead to a closer unity of the DAILY WORKER and its editorial and business staff with the entire Party and the left movement of the workers of which it is the voice.

If the greater prominence which the affairs of the Daily is to have on the agenda of the C. E. C. as indicated in the resolution, is reflected in the Party ranks, there can be no doubt that the new resources and energies drawn into the work for the paper will firmly establish and safeguard its future.

KENOSHA KNITTER APPRECIATES "DAILY"; DENOUNCES EXPULSION OF YOUNG WORKER

(By a Worker Correspondent)

KENOSHA, Wis. (By mail).—As a striker against the Allen-A Co., I would like to let you know that I and many others here appreciate the real workers' paper, The DAILY WORKER.

I was very sorry to learn while reading in one of your recent issues that a Worker Correspondent to The DAILY WORKER, who was a member of the Young Workers League was kept out of our afternoon strike meetings. I cannot understand why our leaders would not allow a representative of such a splendid workers' paper as The DAILY WORKER, to attend.

Well, I'll end now by saying that I am sure the rest of our bunch will not approve such actions by our leaders. -KNITTER.

Class Collaboration Is Urged in "Industrial Survey", Mill Correspondent Says

TELLS OF OVER 300 ARRESTS IN HOSIERY STRIKE

'Adjustments' Are Only Boss Schemes

(By a Worker Correspondent)

KENOSHA, Wis. (By Mail)—In the May 19th issue of the weekly bulletin, "Information Service" published by the research department of the "Federal Council of Churches of Christ in America," there is revealed as clear a story of treachery of union officialdom as any that may come to light. This issue of the bulletin contains a survey of "industrial relations at the Real Silk Hosiery Mills, Inc., Indianapolis, Ind., and of the relations between employers and the American Federation of Full Fashioned Hosiery Workers in the Philadelphia district" which was conducted "jointly by the department of research and education of the Federal Council of Churches, and the Social Justice Commission of the Central Conference of American Rabbis."

Class Collaboration

Under the heading "The Policies and Methods of the Union," we learn that the "union stands for the elimination of waste and the increase of efficiency; that it will not tolerate other than a high standard of workmanship; that it advocates the maximum production; that it seeks to adjust its wage scale and hours in a way that is fair both to workers and to the manufacturers; that it makes allowances for the stage of technical development of each plant and the competitive conditions which it faces; and that it takes into consideration changing styles, the development of inventions and technique, and the necessity for adjustments which are to the mutual advantage of piece workers and employers." This is the philosophy of class collaboration with a vengeance! It would be interesting to know the exact direction of the "adjustments" that are periodically made and on whose shoulders the burden falls. Perhaps the answer can be found by this significant quotation from the survey: "although it (the union) has to look out for the welfare of the rank and file of its members, it calls upon them to make sacrifices in the interest of extending harmonious relations." So the cat is let out of the bag! Isn't it just too bad that the bureaucracy of the union "has to look out for the welfare of the rank and file of its members!" If it could just dispense with that entirely, it would perhaps call upon the rank and file members to make even greater sacrifices — perhaps to work without "remuneration" — all in the interest of extending "harmonious" relations to the fullest extent! Harmony, while the bosses are cutting wages! Prattling about even extending the harmonious relations, while the employers are slashing the living standard of the workers; To such depths sink the "labor lieutenants of capitalism" on the muddy road of class collaboration.

Nor is this all. The industrial survey continues "it (the union) asserts its readiness to arbitrate. It states that it is not merely concerned with compromising conflicting interests, but prefers to make adjustments which are to the mutual advantage to the employers and the union." And then, as if to prove that the betrayers of the workers in the unions have not yet reached a limit of treachery, the survey states: "It (the union) declares its belief that there is no need for fair-minded men to resort to strikes, lockouts, victimization of workers or the use of detective agencies for spying purposes or intimidation."

But yet, now and then, "fair-minded" men do not follow the advice of the reactionary officials, and lock out workers as at Kenosha where 330 knitters and toppers are locked out by Allen A. or again, "fairminded" men go on strike as the hosiery workers of Philadelphia are doing at present! But perhaps, only the union officials are "fairminded?" Or perhaps, cringing lackeys of the bosses! And to put the finishing touch to their subservience and bootlicking to the employers we learn according to the survey: "The officials declare that the union never has advocated any communistic doctrine and that so far as they know, none of the rank and file of the organization have done so." We are in a position to state that the officials are badly misinformed when they state "none of the rank and file" advocate communist doctrines, as, thanks to the activity of the Young Workers (Communist) League and Workers Party in exposing the treacherous policy of conducting the strike in Kenosha by discontinuing picketing and refusing to call out the unorganized unskilled and semi-skilled workers of Allen-A Co., an ever-greater number recognize the Communists as the real champions of the workers' interests. But one wonders at the miserable attempts to prove to the bosses how patriotic and loyal to the American government of injunction the union is under the leadership of such "gentlemen" as president Geiges and vice-president Steel. That the government is evidently impressed with their loyalty can be seen by the federal injunction against the Allen-A strikers in Kensha and the over 300 arrests that have been made since the beginning of the lockout on February 15th!"

Communists vs. Bureaucrats

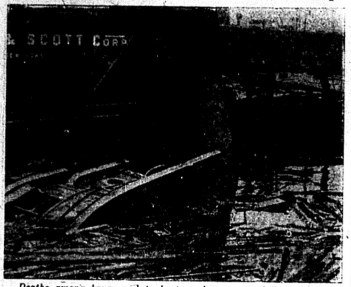
We are glad that these bureaucrats raise the issue of the "Communists." In this they are at one with the bosses, and their government, the "socialist party" leadership and the entire outfit of capitalist supporters. Locally and nationally, these labor bureaucrats betray the interests of the working-class. In Kenosha where they allow the strikers to picket occasionally, where they work hand in hand with the capitalist police, where they confine the strike to only the highly skilled workers, the open shop Allen-A Co. has been able to hire over 180 scabs and is holding out strongly against the heroic rank and file workers on strike. The Young Workers (Communist) League incurred the most bitter hatred of the union leadership by advocating militant policies. The issue on a local scale in Kenosha is between the policy of open betrayal practiced by the bureaucrats and the policy of courageously fighting for the interests of the strikers as advocated by the Communists.

And on a national scale it is likewise. The bureaucrats of the American Federation of Full Fashioned Hosiery Workers advocate class peace, class collaboration, the Mitten plan, support of the Employers Mutual Benefit Association, a company union of the Real Silk Co. The industrial survey states: ". . . The union cites the fact that its members in the Ft. Wayne plant of the Real Silk Hosiery Mills worked in harmony with the Employees Mutual Benefit Association." The bureaucrats are in favor of "adjustments," such as wage cuts and the installation of speed-up systems. They are opposed to strikes. The bureaucrats allow the bosses to impose longer hours. They refuse to organize the unskilled workers. They help transform the union into a semi-company union engaged in getting more "efficiency" out of the workers. The Communists on the other hand, vigorously oppose such methods. The election platform of the Workers (Communist) Party has the following demands:

1. Shorter hours of labor. A five-day week. A minimum of 36 consecutive hours rest in seven days.
2. Fight for high wages. Strike against wage cuts.
3. Fight for the protection of the workers from the bad effects of capitalist rationalization of the technical advances of mass production. Struggle against the speed-up system.
4. Organize the unorganized. The American working-class cannot successfully resist the power of the trusts without building up a powerful organization of workers in the basic industries.
5. Destroy company unions, abolish the B and O and Mitten plans. Eradicate trade union capitalism.
6. Save the unions from the onslaught of the bosses and the treachery of the bureaucrats. Amalgamation of craft unions into industrial unions. The present corrupt leadership must be driven out.
7. Trade union methods alone cannot wage a successful fight. Trade union struggle must be supplemented by political struggle.

SAMUEL HERMAN.

Where Tugboat Workers Had Narrow Escape



Deaths among barge and tugboat workers are a daily occurrence. Collisions and drownings take a heavy yearly toll among these men. The picture shows one sinking where the tugboat workers had a narrow escape. The tug in the picture, sank off pier 36 at the foot of Pioneer St., Brooklyn.

RUNT OFFICERS GIVEN DEGREE BY BOSS SCHOOL

(By a Worker Correspondent)

PHILADELPHIA, Pa. (By mail).—Being a worker and an ex-serviceman, I felt that I should witness the 69th annual commencement of the Pennsylvania Military College. So I went there.

There I saw Wm. L. Mellon, brother of Andrew Mellon, the world's third richest man, presented with a doctor's degree. Daniel Willard, president of the Baltimore and Ohio Railroad, was also presented with the same token of acknowledgement that these capitalist exploiters were the real heads of this school of mass murder of workers in a war which their speeches intimated is very near.

After this I saw something of which every service-man, in and out of service, knows about: I saw a sham battle. Airplanes, infantry, artillery, machine guns, battle flames, these were seen in action. Bombing planes dropped their disastrous missiles, killing workers below, while the cadets watched. These cadets are the future military flunkeys of the capitalist murderers who will give the workers in the armies of the next war orders to shoot down their fellow workers of other countries.

I remembered the awful sights of the last war. Helpless women and children were killed by poison gases. Defenseless workers were torn apart by bombs. Always new and deadlier methods of warfare were invented by capitalist engineers.

From this sham battle I could picture the next war with my children forced to participate in it. I could see them shot down and my home destroyed. This "battle" was a preparation for the horrors of the war we will soon have.

The working class must protest against and prevent a new war to be started by the imperialist exploiters. It is their duty and is within their power. We must do away with the cause of wars by taking away from these exploiters all the mills and mines and industries which rightly belong to us. As long as capitalist society shall exist the working class will be oppressed and be sent to wars to protect capitalist interests with their own lives. The workers of all lands must learn the lesson of the last war and unite against oppression and get rid of the capitalist system of society. —EX-SERVICEMAN.

POLICE CHIEF GETS MAD

The Industrial Squad, notorious for its strike-breaking activities, the Fifth Ave. and Broadway squads, were all ordered on Sunday duty by a superior for failing to arrest the gunmen who shot the dope runner, bank robber, bootlegger and bandit, Edwin Jerge, last Sunday on crowded Herald Square.

NEW YUKON GOLD RUSH

WHITE HOUSE, Yukon, June 25.—A new rush of prospectors has followed reports of a gold rush strike on Squaw creek, in the new field just within British Columbia's boundary. Big Jim and Paddy Duncan, Indians are reported by H. Chambers, a trader from Champaigne, as the discoverers.

TIRPITZ SEAMEN DENOUNCE GERMAN NAVAL ORDINANCE

Call Soviet Union Their Fatherland

(By a Worker Correspondent)

German seamen in New York harbor held a mass meeting on June 18 at 127 Hudson St., Hoboken.

This meeting was called to protest against the German seamen's ordinance and the brutal treatment accorded the seamen on vessels at sea. The German seamen's ordinance was passed under the Kaiser in 1902. It is still in existence altho Germany has been a "republic" for the past ten years.

Thru the Canal.

Before I start to tell about the meeting I will describe what happened on the S. S. Tirpitz while going thru the Panama Canal. The crew of the Tirpitz and the International Seamen's Club arranged the meeting. The story was told to me by one of the crew of the Tirpitz.

"We were going thru the Panama Canal from west to east. Near the city of Callio on the western coast, some sailors were standing on deck singing folk and revolutionary songs.

"The captain heard this and told us to keep our mouths shut. We refused because we have a perfect right to sing. We told him that there were no flunkeys there.

"Then the captain came down and asked who was singing. We replied that we had all sung.

"The captain violated a law which says that all captains must stay on the bridge when passing thru the Panama Canal.

"Seeing that we were all united, the captain wanted to scare us so he grabbed one man by the collar and asked him if he had sung.

"We told the captain to take his hands off our brother. This led to a quarrel which lasted several minutes. The quarrel ended when he decided to send one sailor and the captain to the nearest German consul.

"When they came to the consul, he tried to arbitrate the question. He wanted that particular sailor to apologize to the captain. The man refused. Then the consul himself apologized in behalf of the whole crew to the captain. The consul did this because he knew that the captain was wrong.

One Dollar Apiece.

"When the boat arrived in New York harbor, the captain gave every man one dollar apiece. The International Seamen's Club gave us a lawyer and we wanted to sue the captain for more money. Seeing that he would get the bad end of it, the captain gave us all three dollars each.

"After this we called the protest meeting."

W. Mueller, of the S. S. Tirpitz, was the main speaker. He said in part: "It is a shame for every German seaman to receive such treatment as we do. Germany is not as free as you people in America imagine. We are not allowed to sing. When you do, you are punished.

"We can change the German seamen's ordinance by organizing a strong seamen's union on a revolutionary basis. We call upon all seamen for unity in our common struggle. We call upon the German labor parties and the trade union congress to support us. We will not make any compromises with the capitalists.

"We call upon the labor fractions in the Reichstag to help us gain our demands. Do not rely too much on the Reichstag, too, for our battles will have to be fought over the street barricades.

50,000 to Organize.

Mueller compared the life of the German seamen with the Russian seamen. "In the Soviet Union they get a vacation with pay. In Germany they get nothing. Only 8.500 German seamen are organized out of a total of 50.000. The fish we eat is decayed and the meat stinks."

The speaker then thanked the International Seamen's Club for their help in arranging this meeting.

Another said that the German trade union congress is not becoming revolutionary. It is becoming reactionary.

A resolution was then unanimously adopted protesting against the German seamen's ordinance of 1902. It calls upon the German government to annul the act. Further it calls upon the labor fractions in the Reichstag to fight against the act.

The chairman then spoke in English.

Mueller then summed up. He said, "The Soviet Union is our fatherland." This was followed by long applause. He denounced the German social democratic leaders for their neglect in not organizing the German seamen. He ended by saying, "The victory is ours."

The meeting was closed with the singing of the International and the salute of the Red Front Fighters. As the seamen filed out of the hall they sang a song about Karl Liebknecht and Rosa Luxemburg. —A. B. S.

—*DRAMA*—

"The Hands of Orlac" Film Is Well Conceived Melodrama

"The Hands of Orlac" at the Greenwich Village Theatre, directed by Dr. Robert Weine, the creator of "Caligari," is an extraordinarily well conceived and executed melodrama, based on material, which if one is to trust the psychoanalysts, springs straight from the base of every person's being.

The guilt complex, the phantasy of the sinful hands, of the murdered father, the enormous force of suggestion, the power of the will, if any, to break the pattern of an ingrained habit, as well as the latest achievements of the Bertillon method and day after tomorrow's surgery, are woven into a drama which those who like that sort of thing will find perhaps as absorbing and original as "Caligari" itself.

Paul Orlac, a pianist, who loses his hands in a railroad accident, and has those of an executed murderer grafted on his wrists instead, is framed so skilfully on a murder charge that he himself almost comes to believe it. It would be a shame to tell any more of the story, or how the mystery is solved.

Conrad Veidt, as the hero, with his horrible self-suspected hands, justifies those of his fans who think him the greatest actor on the screen. Some of the other roles are perhaps a trifle over-acted. But the film as a whole is unusually well-staged and well-directed, and marks a distinctly important achievement among the dramas of its type.—R. W.

IN "VOLPONE"

Alfred Lunt, who has the important role of Mosca in the Theatre Guild production of "Volpone," Stefan Zweig's comedy at the Guild Theatre.

May Wirth, noted equestrien with Philo, the riding comedian and the rest of the famous Wirth Family has been engaged for Luna Park's Free Circus and commencing July 1st will appear daily in the new circus arena. The Gold Spot Pals visited the amusement center recently and Friday, June 29 will broadcast their impressions of Luna Park over station WJZ.

Marie Callahan, who is playing the Inez Courtney role in the Boston "Good News" Company, has been engaged for the new Schwab and Mandel musical play, "The New Moon."

WOULD A. F. OF L. CALL STRIKE TO RELEASE MOONEY?

Mexican Workers Win Right to Meet

(By a Worker Correspondent)

LOS ANGELES, Cal. (By mail).—The following appeared in the Brawley News, Imperial Valley, on June 7:

"If Thomas Mooney, San Francisco preparedness parade bomber, now serving a life sentence in San Quentin, ever gains pardon from Governor C. C. Young, it will be on merit after parole and not through organized campaigns in his behalf. Governor Young so indicated here when informed that the American Federation of Labor was planning to seek Mooney's release.

"Governor Young believes those who have been sent to prison should first gain a parole from the prison directors and then show meritoriou conduct in society that they a worthy of consideration before th seek a pardon.

"Because of this belief by the executive, little hope for Mooney's release is seen here unless he can gain a parole from the prison director."

Imperial Valley Mexicans are holding public meetings again, according to the Brawley News. At a recent gathering to welcome the new Mexican consul, Vincente R. Quijano, about 1,000 of his countrymen were present. The report says in part:

"Harmony prevailed at the meeting which was held under the auspices of the recently incorporated "Mexican Mutual Aid Society of Imperial Valley," a different atmosphere entirely from the prevailing situation a month ago when Mexican meetings were forbidden by the sheriff's orders and many were in jail for conducting similar congregations."

Well, the Mexicans went on strike and came out victors over Sheriff Gillett and the growers. Will the A. F. L. call a general strike to force the authorities to release Tom Mooney and Warren K. Billings? This is a question asked by numerous workers these days.

—L. P. RINDAL.

TRACTION MEN CALL STRIKE IN NEW HAVEN

Expect General Walk-Out Today

NEW HAVEN, Conn., June 25.—Trolley workers thruout the state of Connecticut were ready to walk out on general strike at midnight last night.

In spite of the efforts of the federal commissioner to delay strike action, the spirit of the trolley workers is militant and they had maintained their determination to strike until a late hour last night.

Refusal of the company to recognize the union or to grant wage increases has inf[illegible]ted the men, in spite of the st[illegible] J. H. Reardon, head [illegible]ecutive board, that the men are fighting solely for the right of employes to arbitrate in all major disputes.

The union has already set up relief headquarters and is prepared to care for hundreds of the strikers and their families.

It is known that the company has been hiring strikebreakers for the emergency for some time but their whereabout in city have been kept a profound secret. The strikers are frankly sceptical that the company can maintain the "efficient and adequate service" which they are promising their patrons.

The District Executive Committee of the Workers Party of America has issued an appeal to the trolley workers which says in part:

"The Connecticut Company, a Subsidiary of the N. Y. N. H. & H. R. R, a concern of Wall Street, is making every effort to break your Union.

"Your Union is an instrument in your hands, with which you are able to protect your working conditions; to shorten your hours of work, to increase your wages and to protect yourselves generally. This the Company does not like, and is using every means available to destroy your Union, thereby making the men helpless before so powerful a monster as this company is.

"The only method by which you can win your just demands, and your right to be organized is that of militant struggle. The great danger facing your Union at the present time is that your Union leaders, incompetent, afraid and unwilling to engage in a real fight, will give the Connecticut Company a long sought chance to completely destroy your organization. Instead of immediately mobilizing the entire strength of the Union for struggle against the comany the Union officials dilly-daily, only too willing to concede these demands, which are most vital to the welfare of the men.

"On Friday, June 22nd, after a vote had registered an overwhelming sentiment for strike, Mr. Sullivan, State Board President, issued an informal statement to the press. This statement revealed that, in so far as Mr. Sullivan was concerned, it was satisfactory (to him) to abandon all the demands, except the one refering to arbitration of disutes of disciplinary matters. This is in line with Sullivans action in 1927.

You Can Never Win by Arbitration.

"The only way to win your just demands is to stand solid and fight your own battle. Strike till you win the recognition of your Union, shorter hours of work, an increase of wages and decent working conditions. THESE DEMANDS ARE VITAL TO YOU AND MUST BE WON.

"The Company will recognize only power, which you must show in this present fight.

"You must rally around the slogan 'A FIGHT TO THE FINISH.' 'NO ARBITRATION. NO GIVING IN TO THE COMPANY. DIRECT FIGHT WILL WIN YOUR DEMANDS.'

"The workers and people generally of Connecticut are behind you in this struggle."

MARVIN, FASCIST LEADER, IS SUED

Fred A. Marvin, celebrated labor baiter, and leader of the notorious Keymen of America, the fascist organization recently instrumental in bringing charges in an effort to suppress The DAILY WORKER, is being sued for $45,000 by Rosika Schwimmer, Hungarian feminist and pacifist. Rosika Schwimmer alleges that Marvin issued libelous statements about her in the information service which he offers to women's clubs and other organizations throughout the country. The case will come before supreme court justice McCook.

Mrs. Schwimmer also has pending a $100,000 libel suit against the Commercial Newspaper Co. formerly the New York Commercial.

U. S. GOLD FOR FASCISTS

American bankers are supporting the Hungarian Horthy government in the form of $5,000,000 worth of mortgage bonds. Investment of American capital in Hungary will be as favorable this year as in 1927, according to reports based on the shipment of American money to Hungary in the [illegible] months of the current year.

Dog Team Sets Out Over Icy Wastes to Bring Relief to Nobile Party

A team of dogs, driven by Varming, a Norwegian, and, Van Degen, a Hollander, shown getting out over the ice from Kings Bay in an effort to reach Gen. Nobile, fascist explorer, who was lost in the Arctic.

100 MINERS TOUR OHIO FOR RELIEF

Visit Many Cities to Aid Strikers

PITTSBURGH, Pa., June 25.—Sleeping in open trucks and autos, and eating only occasional "hot-dog" sandwiches, more than 100 miners in groups of five and ten are touring Ohio as the vanguard of an army of miner-solicitors which is conducting house-to-house and store-to-store collections in every Ohio city.

The mass solicitors' movement is the result of a meeting held by the relief committees of 25 local unions in the eastern Ohio mining fields with Alfred Wagenknecht, director of the National Miners' Relief Committee. The new activity is under the direction of an executive committee headed by Jack Bell of Yorkville. James Vall, Dillonvale miner, is secretary of the committee. Miners' youth organizations, and organized groups of miners' wives, have promised to swell the ranks of the relief army. Groups of volunteers have already been dispatched to Canton, Cincinnati, Cleveland, Dayton, Akron, Youngstown, Toledo, and other cities. Two truckloads of food and $403 in cash was the immediate response of Canton workers.

One of the Canton solicitors reports a contribution of two cents from the child of an unemployed worker attracted to the miners by the unusual appearance of their pit clothes. The child had been sent for a pint of milk. The two cents was the remainder of the dime which she had been given for the purchase.

PLAN ACTIVITIES IN PITTSBURGH

Eight Subdistrict Meets To Be Held

By A. JAKIRA (District Organizer).

The struggle of the miners, the question of organizing the unorganized, the election campaign and the Labor Party, the rapid growth of the Workers (Communist) Party in District 5—these were the main problems considered by the District Plenum held in Pittsburgh several days ago. A number of representatives from the various nuclei were present in addition to the members of the District Committee, department heads and members of the District Bureau of the Young Workers League.

The work of the Plenum will be followed up by a series of eight sub-district conferences to be held in various parts of the district on July 15th. These conferences will consider the actions of the Plenum and will devote special attention to organization problems. Subdistrict executive committees will be elected at each of these conferences to carry on the work in their respective sub-districts.

Mobilize Party.

The entire district is at present being mobilized for the campaign for signatures in order to place the Workers (Communist) Party presidential candidates on the ballot in Pennsylvania. The nomination petitions are in the hands of the nuclei secretaries, and it is expected that many more signatures will be secured than it is required by the election laws of Pennsylvania.

The Workers (Communist) Party will nominate no candidates for congress or state legislature, but will support the candidates of the Labor Party. The labor parties of five counties in Western Penn, and Cambria county in Central Penna have nominated full tickets.

The Plenum also considered at length the situation in West Virginia where the Workers (Communist) Party will be on the ballot for the first time in the history of the Party. The District Committee is planning to launch an organization campaign in that state and to lay the foundation for the organization of the unorganized there.

Step Forward.

Many other problems, such as the work among the women workers, the relations of the Party to the Young Workers League, the situation in the trade union movement in this country—were given serious consideration.

The Plenum undoubtedly marks a step forward in the development of the Party in this district. All units and members are determined to double their energies in order to make it possible to put the Plenum decisions into practice. It is the aim of the district to increase its membership to fifteen hundred before the November elections take place.

New Compensation Law in Effect in Quebec

QUEBEC, June 25.—A new workmen's compensation is now in effect in the Province of Quebec. Workers here state that they are dissatisfied with it. The governing commission is composed of three, with an advisory board of five. Labor sought representation on the commission, but was turned down.

HOOVER WILL NOT WITHDRAW TROOPS

To Follow Coolidge Policies Exactly

WASHINGTON, June 25.—American marines will not be withdrawn from China, Nicaragua or Hayti while President Coolidge remains in the White House. Authoritative assurances to this effect have already been given in those countries.

If Secretary Hoover is elected president next November, American marines will not be withdrawn from China until a government appears there that will protect American property without the assistance of the armed forces of the United States. They will not be withdrawn from Nicaragua until the new president whom the Nicaraguan people elect November and his administration are firmly established. They will not be withdrawn from Hayti until the pending treaty between the United States and Hayti expires, or is abrogated by the American Congress.

Secretary Hoover has told leaders that he is just as strongly and sincerely in sympathy with the program of President Coolidge in the field of foreign relations as in the field of domestic affairs. This all important fact will be made plain in the address of acceptance which the Republican nominee for president will deliver from his home at Leland Stanford University late in July or early in August.

5,000 PRESENT AT HUGE RED PICNIC

Election Campaign Drive is Inaugurated

Five thousand workers gathered yesterday in Pleasant Bay Park on Long Island Sound to participate in the huge Red Campaign picnic arranged by the Workers (Communist) Party to inaugurate its election drive. The picnic, according to reports from those in charge of the affair, was a big success. The rain, which had lasted through the morning and part of the afternoon, failed to keep the workers away from this, the most significant affair held here this summer.

Communist sailors from the German ship Tirpitz came to the picnic carrying the red banner of the seamen's communist fraction aboard the vessel. Workers from all the trades were represented. Workers (Communist) Party members, Young Workers (Communist) League members, Young Pioneers, delegates from scores of labor organizations attended.

The workers gathered in the spacious grounds of the park were addressed by Robert Minor, editor of The DAILY WORKER, and Workers (Communist) Party candidate for U. S. senator from New York State, and by the spokesman of the German communist sailors.

The picnic came to an end with a dance in which all those who were present participated, and the initiation of the state-wide election campaign drive.

ROCKEFELLER IN WAR ON STEWART

The struggle between John D. Rockefeller, Jr., and Robert W. Stewart, Chairman of the Board of Directors of the Standard Oil Company of Indiana, for the control of the company was sharpened yesterday when Rockefeller issued a statement denying that he was taking steps to dispose of his stock in the corporation.

The Rockefeller interests made it clear that they were determined to carry on a struggle for the control of the company.

DRIVE FOR MINE RELIEF STARTS

N. Y. Workers Launch Campaign Today

This morning thousands of New York workers will launch an intensive drive for the relief of the striking soft-coal miners and their dependents throughout half a dozen states. For the past two weeks preparations have been going on, under the auspices of the National Miners Relief Committee of 799 Broadway. The drive will last from this morning to next Sunday, and will include house-to-house collections, special relief meetings by workers' organizations, open-air meetings which will emphasize the importance of miners' relief to New York workers, and will wind up with a mass collection on Saturday and Sunday.

The striking, heroic miners, now in their 15th month of resistance to the open shop onslaught of the coal operators, rely on the solidarity and support of other workers to help them win their long and bitter battle. Workers of New York, recognizing the grave consequences to the rest of organized labor should the miners lose their fight, are determined to expend every energy and make every sacrifice to help their valiant brothers of the mines win.

The National Miners Relief Committee calls on every worker in the shop and factory to do all he can to further the cause of the striking miners. Workers are urged to take up collections in their shops among their shopmates and wherever possible, to form shop committees for miners relief for the purpose of taking such collections regularly. The Relief Committee asks that workers call at its offices, 799 Broadway, for special literature to be distributed among their shopmates as a spur to relief activity.

House-to-house collections will form an important part of the week's activities. Especially will women workers be active in organizing and putting into effect such collections. For the wind-up of the week, every worker is asked to turn out with a collection box to solicit funds for the striking miners.

To make this drive effective, all beaches and nearby summer resorts will have to be severed, every transit line must have its hundreds of volunteers going through the cars, all important thoroughfares, in both residential and business districts must be canvassed by miners' relief workers. A minimum of $15,000 must be raised during the week, and this can be accomplished only by the cooperation of the thousands of New York workers.

NOBILE RESCUED WITH 5 OF CREW

Rescuers Now Looking for Amundsen Plane

LONDON, June 25.—With Commander Umberto Nobile, leader of the Italia expedition, brought to safety by a Swedish plane, and no fears felt for his five companions on an ice floe off North East land, the efforts of the rescuers were concentrated today on the hunt for Amundsen and his five companions, and the ten members of the Italia crew who are still unaccounted for.

With Amundsen in the French hydroplane were Lief Dietrichsen, a Norwegian; Rene Bilbaud, pilot of the plane, and three other Frenchmen. They are believed to have come down in the vicinity of Spitzbergen, a theory which receives credence from the fact that their radio had only a limited sending range.

• • •

LONDON, June 25.—Another SOS call came out of the Arctic today as plans were rushed to go to the aid of Roald Amundsen and his five companions lost since last Monday when they flew from Tromsoe, Norway in a French plane to search for missing members of the crew of the dirigible Italia.

LITTLE HOPE FOR MANTELL.

ATLANTIC HIGHLANDS, N. J., June 25.—Little hope is held out for the recovery of Robert B. Mantell, noted actor. For two days he has been in a semi-conscious condition at his home here and his physician, Dr. John B. Boyd, said today that his strength was slowly slipping away. Due to his advanced age—he is seventy-four—it was feared he could not survive.

TRACTION RING MOVES QUIETLY FOR FARE DRIVE

Plan Summer Session for Propaganda

Quiet preparations on the part of a number of New York City transit lines to follow the lead of the Third Avenue Railroad in the new drive for a seven cent fare are taking place, it was learned yesterday from sources close to the New York Railways Corporation, one of the largest operators of surface lines in the city.

The New York Railways Corporation is owned by the Fifth Avenue Coach Company generally admitted to be under the control of the Brooklyn-Manhattan Transit Corporation. It has also been learned that interests close to the B-M-T and particularly Thomas L. Chadbourne, attorney for the road, and one of the principal holders of stock in that corporation, have in the past year quietly been buying into the Third Avenue Railway Company and that the move started Friday by the Third Avenue surface line for an increased fare is part of a concerted drive sponsored this time by the Brooklyn subway company for a 7 cent fare.

Although members of the Transit Commission have refused to discuss their plans in regard to the new increased fare move, it became known yesterday that a hearing is planned for this summer and that the issues at stake are so important that the commissioners are planning to give up their vacations in order to help carry out the program which it is understood the traction lines must put through this summer.

There appears to be no doubt now that all forces in the city government, the transit commission under the control of Governor Al Smith, and the republican controlled state legislature would be willing to grant the traction lines a fare increase immediately were it not for the effects of such a course in the coming election.

It was pointed out as significant, in this connection, that the large capitalist papers which favor Smith's nomination on the democratic ticket have been playing down the news of the new increased fare drive in order not to embarrass the Tammany leader at the moment when he needs the help of big business most. Al Smith for over a year was the chief supporter of the plan to turn the new city-built subways over to the B-M-T, but later postponed consent when his nomination loomed ahead.

SOCIAL WORKERS LOYAL TO BOSSES

Paid Uplifters Try to Keep Poor Docile

Social workers, adept at making slim grocery orders do for distressed families of workers, formerly toiled hard to change social and economic conditions responsible for poverty and unemployment, says Abraham Epstein of the American Association for Old Age Security.

Since the war he finds their point of view changed. Nowadays they stress getting workers "adjusted to life"—which in practice means teaching them to accept quietly any deal handed them by present employer-organized society.

Unemployment insurance, mothers' pensions, health insurance, says Epstein, draw little aggressive support from paid uplifters, whose numbers increased 65 per cent from 1915 to 1925.

OPEN-SHOP MILL FIGHTS WORKERS

BUFFALO, N. Y. (FP), June 25.—Five thousand copies of the Buffalo Hosiery Worker are informing interested citizens of the vicious fining system, the long hours and the yellow dog contracts in vogue at the Milfay hosiery mill. Union hosiery workers were locked out several months ago.

The eight-page special paper reviews efforts of a citizens' committee to settle the lockout, after a full investigation had brought from them condemnation of the firm's yellow dog, anti-union policies.

Even the ownership of the mill was veiled behind dummy names to confuse the mediators. The Duffys, owners of a silk mill supplying yarn to the Milfay plant, were finally forced to admit their responsibility for the importation of thug-strike-breakers. Through contracts, the Milfay bosses are tied up with the Berkshire Knitting Mills, chief foe of the hosiery workers.

NEGRO HARLEM WORKER DIES.

Napoleon Banks, 25, of No. 620 Nicholas Ave., a Negro, died in Harlem hospital of a fractured skull sustained when he was struck Friday by a car owned and driven by Wesley Wood, of No. 42 Fordham Rd. Detectives of the West 135th Street station exonerated Wood of responsibility.

Workers' Calendar

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

• • •

Milwaukee Party Picnic.

MILWAUKEE, Wis.—The second summer picnic of the Milwaukee Workers (Communist) Party and Freiheit Workers' Club will take place July 8, at the Pleasant Valley Park, Woodlawn Ave., West Allis, Wisconsin.

San Francisco Picnic.

SAN FRANCISCO, Cal.—The branches of the International Labor Defense of San Francisco, Alameda, and Contra Costa counties will hold a picnic at East Shore Park, near Richmond, on July 4.

• • •

Paperhangers of Boston.

BOSTON.—The Paperhangers' Union, local 258, will inaugurate a campaign for new members to extend over a period of 3 months, June, July and August. The initiation fee has been reduced from $100 to $25. The local calls upon all organized paperhangers of the city and vicinity to join the union and help to organize the non-union workers. The local union meets at the district council headquarters, corner Washington and Dover Sts., Boston.

• • •

Pittsburgh District Picnic.

PITTSBURGH, Pa.—The third annual picnic of the Workers (Communist) Party, District 5 has been postponed from July 4 to July 8. It will be held at Nicholson Farm, Swissvale, Pa.

Philadelphia Miner's Relief.

PHILADELPHIA, Pa.—Philadelphia Miners' Relief Conference here has arranged a picnic for July 29 at Maple Grove Park.

St. Louis Picnic.

ST. LOUIS.—The Young Workers (Communist) League will give a picnic and dance at Triangle Park, 4100 South Broadway, on July 4. Dancing, refreshment, games and athletic concerts have been planned.

Highland Park, Ill.

The Workers Party of Highland Park, Ill., will hold a picnic for Miners' Relief on Sunday, July 8, at Zahnle Grove. Refreshments, games, dancing will feature.

EDICT HITS POST OFFICE CLERKS

No Shortening of Hours for Night Workers

WASHINGTON, June 25. (FP)—A circular issued by Assistant Postmaster General Bartlett to all postmasters, instructing them as to applying the new law granting 10 per cent additional pay to post office clerks employed at night, says that there must be no general readjustment of work to reduce the proportion performed in night hours.

The Department fought the enactment of this legislation, which was designed to place a punitive handicap on night work, so that clerks would be permitted to do more work by daylight. Originally the National Federation of Post Office Clerks tried to secure a law reducing the daily hours of clerks employed in the night shifts. The bill now means only a slight increase in pay instead of a decrease in harmful working conditions.

MANY TAMMANY MEN ARE FREED IN N.Y. SEWER GRAFT

Complete Whitewash is Expected

The "investigation" of graft in the Bronx districts of the Department of Street Cleaning by the district attorney, will end tomorrow with a "report of activities" it was announced yesterday.

The early predictions that the so-called round-up of the grafters would end in an almost complete whitewash of the guilt of all those implicated in the graft scandal at the beginning of the investigations, was proven true, when the official statement was issued yesterday by the investigators to the effect that the committee had "found graft" in the Bronx but had "little proof on which to convict anyone."

With the district attorney dropping his action in the Bronx, the probability that all those who cheated the workers of New York City by padding payrolls and swindling money in various other ways, will be exonerated of all blame and allowed to continue their crooked tactics in the future.

PALESTINE JEWS HIT DEPORTATION

TEL AVIV, Palestine, June 25.—What a large percentage of the Jewish population of Palestine considers too free use of the power to deport immigrants on slight pretexts by the immigration authorities is arousing protests in various parts of the country, according to reports received here today.

Following a mass meeting here, at which 10,000 persons protested against the proposed deportation of four immigrant families for trivial transgressions of red tape technicalities, a protest was cabled by the municipality to the Colonial Office in London.

INDIA GETS U. S. MACHINERY

American capital is slowly capturing the British industrial market monopoly in India. The United States exported $3,325,616 of the total $36,656,146 worth of industrial machinery to India, according to an official report of the Indian government imports. During the fiscal year 1926-27, U. S. imports increased over those of the previous year.

War Cloud Has Red Lining

Two events remind us of the tremendous process transforming the United States into the most gigantic and ruthless imperialism that has or ever will be known to history.

One is the action of Kellogg, the weak and hysterical little old man whom the irony of history has made into the Hannibal of American imperialism. Secretary of State Kellogg has just given to the lesser imperialist nations of the world the text of his "treaty renouncing war as an instrument of national policy." The real characcter of the "treaty renouncing war" is that of a maneuver in preparation for the bloodiest war of all history, from which the United States will attempt to issue as the master of all the world, the overlord of all colonies, the super-exploiter of all the world's toilers.

The other event has to do with John Porter, a worker in the textile mills of New Bedford, and member of the Young Workers (Communist) League, who is now occupying the attention of the war department of the United States government.

Porter joined the army when he was sixteen years old. Then he discovered what the army is. Sensing its purpose and character as an instrument of violence against the working class, and not yet ripe enough in his understanding to see that he could serve his class by doing anti-militarist work in the imperialist army itself among his fellow soldiers to make them, also, see their duty to their class, the young man left the army.

Later, Porter became an active leader of the New Bedford textile strike and vice president of the union. Seeing the role of the Young Workers (Communist) League in leading the proletarian youth in the struggle, he joined the League and soon became its organizer.

Then the military arm of the United States government proved in action what the Young Communists had taught Porter of the character of the army. Keen to do anything in their power to break the fighting strength of any body of workers engaged in struggle against employers, the army authorities seized Porter and threw him into prison for military court martial.

This case will surprise Secretary of War Dwight F. Davis and all the rest of the Teapot Dome cabinet.

The graft cabinet in Washington will be astonished to learn that this is the period when many and rapidly repeated incidents are to be expected, in which young working class men are transformed from blind tools of imperialism into conscious members of their class. They will be surprised also to learn that this case will echo around the world.

We saw the light break on the horizon in 1925, when Paul Crouch and Walter Trumbull, two young American soldiers, were court martialled for organizing the Young Workers (Communist) League among the soldiers in Hawaii.

Again we saw the signs of a new day when two United States marines left the Wall Street forces to go over to the side of the Nicaraguans, fighting for liberty under Sandino.

American imperialism cannot enter the period of imperialism without the consequences following. Slowly but surely, the currents of class consciousness are finding their way among the young men and women of the American working class.

There will be more Paul Crouches, Walter Trumbulls and John Porters, and more marines such as saw their duty toward their fellow workers in Nicaragua. Imperialism will continue its bloody course, disillusionment will follow disillusionment. Instead of individual John Porters, there will be whole nuclei of John Porters; instead of isolated soldiers there will be regiments of soldiers which come to understand that American imperialism is their enemy and the enemy of their class.

It is time to congratulate our young comrades of the Young Workers (Communist) League. These young men and women are beginning to show that they too know how to serve their class. Freed from all the paralyzing taint of pacifism, they are reaching the minds and the hearts of the youth of the working class. This youth will conquer in the final struggle.

Let the encrusted militarists rave and curse and give thunderous verdicts against Comrade John Porter.

But United States capitalism has turned the corner of imperialism, and within the shadow of imperialism there is a red army.

Farm Labor Gets $2.46 a Day

THE raw material of the country's food and clothing is produced by labor averaging only $2.46 a day or $48.63 a month, according to a report of the U. S. Department Agriculture on the wages of farm labor. The report shows that farm wages have not kept pace with the cost of living. In 1927 they purchased 5 per cent less than the wages paid farm workers in 1913 and 15 per cent less than in 1906.

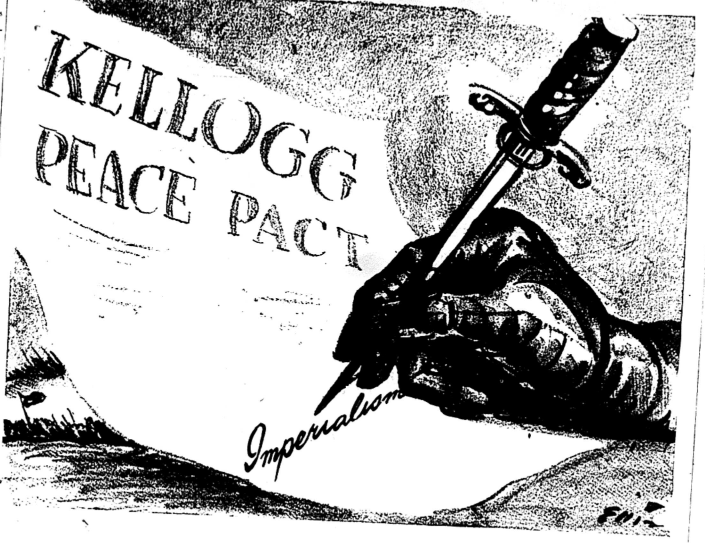
The daily and monthly wages noted are for farm workers who provide their own board. When the farmer provides the board the worker averages only $1.90 if paid on a daily basis or $34.58 a month. If it is [illegible] that these low wages apply [illegible] to hired farm labor while most [illegible] food is produced by the labor of the independent farmers themselves, it can be pointed out that the average farmer receives only about $850 for his own labor, the labor of his family and the return on his investment, and that only about half of this is in cash.

The average agricultural worker earns less than $600 a year but if we allow the average farmer any return on his investment his own wage falls considerably below that of his hired man. Here is one explanation of the lack of purchasing power for the products of industry which constantly forces curtailment of factory employment.

The average monthly farm wage of $48.63 compares with $65.05 in 1920 and $30.21 in 1913. This represents a drop of 25 per cent since 1920 to a level about 6. per cent above 1913.

CAMOUFLAGE IS AN ART OF WAR

By Fred Ellis



Gitlow's Acceptance Speech

(Continued From Yesterday)

Role of the Socialist Party.

At a time when the capitalist reaction is growing, at a time when the intensification of exploitation is increasing, what is the role of the socialist party in the labor movement?

The role of the socialist party in the labor movement is the role it demonstrated it can play so well in Germany, Italy, Poland, etc.

It is the role of the hangman of the revolution.

It is no accident that the day after the New Leader carries an attack against the textile workers in New Bedford, against the rank and file committees that are leading the strike, after it carries a vicious attack against the Communists, that Communists and the rank and file of the New Bedford Textile strike are arrested and thrown into prison.

Who is the standard bearer of the socialist party? The standard bearer of the socialist party is a sky pilot, a minister, who believes that revolution is too costly for the workers.

Well, how costly to the working class is the rule of capitalism and imperialism?

Where has a revolution taken place on the face of the earth that was so bloody as the imperialist war?

The result of capitalism is wage-cuts, unemployment, poverty, misery, frame-ups, white terror, fascism and imperialist world war.

These fruits of capitalism Norman Thomas favors, but he does not favor revolution to end all this.

The extent to which the socialist party has degenerated, its complete abandonment of the class struggle and the best traditions of Eugene V. Debs is clearly indicated in the article written by Victor Berger in the June issue of Current History.

The Honorable Mr. Berger writes as follows:

"If democracy is to survive, if the republic is to endure, we must have a political realignment. . . . And since both old parties are ultra-conservative we must have an opposition party, striving and fighting for progress."

Berger wants a political realignment. A political party of all classes. He does not want a working class party. Berger has no use for a working class revolutionary party that stands for the overthrow of capitalism. Berger is opposed also to a labor party. Berger only wants a reformist third party that fights for the vague thing progress. In other words Berger wants a "progressive" capitalist party. It is logical for Berger to maintain that the socialist party is such a party.

That the capitalists have nothing to fear from the socialist party, Congressman Berger is convinced, because he writes: "All classes will be benefited by the change." If the socialist party comes into power the capitalists have nothing to worry says Berger, they will be benefitted by the change.

Berger further writes:

"Socialism can never take root in a commonwealth that is venal. A social democracy can never be established in a nation that is rotten. More than any other citizen the socialist is interested in weeding out graft. More than any other Party, the socialist party must make it its task to unearth corruption and prevent moral decay."

No appeal here to the workers as a class to overthrow the whole corrupt edifice of capitalism. Socialism can never be established unless the rotten capitalist nation is made "clean and honest." The main task of a socialist party according to Berger is to unearth corruption and prevent moral decay. Eugene V. Debs must turn in his grave when he hears Berger state that the main task of the socialist party is to make capitalism and its government honest and to prevent its decay. The class struggle doesn't exist for Congressman Berger.

In the article on the socialist party and the 1928 election campaign, Victor Berger also makes the following statement, I will read it:

"The prime essential factor, however, is the awakening of the social genius of American people. Without such awakening a real change in our public life is impossible. Without a change in American psychology even a successful revolution will mean only a change of masters."

He continues:

"A similar instance we see in Russia where after all neither political or economic liberty was achieved."

Who does Mr. Berger want economic and political liberty for?

Have we got it in America?

Have you the right to strike? The right to vote? Do the Negroes have the right to vote? Quite the contrary. Who enjoys the economic and political liberties in the United States—Mr. Worker or Mr. Rockefeller?

Compares Soviet Russia.

The answer is very clear. Not the workers.

The Haymarkets, the Passaics, the coal strikes, the unemployment, the injunctions, the whole anti-labor strike-breaking activities of the capitalist government of the United States, its sham hypocritical class democracy is positive proof of the dominance, rule and dictatorship of the capitalists over the country.

In the Soviet Union it is different. In the Soviet Union the workers and peasants enjoy political and economic freedom.

Soviet Russia established the 7-hour day. Compared to wealthy United States, Soviet Russia is still a very poor country. Nevertheless it could afford to establish a 7-hour day. It was established without strikes, without pickets, without injunctions. Why, because Soviet Russia was established as the result of a successful revolution which crushed capitalism and set up a working class government with liberty and freedom, both political and economic for the workers and not for the shirkers.

I was a member of the socialist party over a period of 12 years. I know what is left of the socialist party. I know that the revolutionary and militant elements have been driven out of the socialist party.

I remember how I was expelled from the socialist party. A detective was planted in the central committee. The police encircled the party headquarters so as not to let us in. Now what is left of the socialist party? Where are its 100,000 members? What is left? The Norman Thomases, the Victor Bergers, the Hillquits, the O'Neals, the doctors, the lawyers, the dentists, the shopkeepers, the prostitute intellectuals, all lickspittles of capitalism. That is what is left in the socialist party. (applause)

The Communist Party out of this convention sends a clarion call to the West, to the North, to the South and to the East.

It sends a clarion call into every factory, into every mine, into every mill.

It sends a call to all workers, to all exploited, the farmers as well as workers.

It sends a call to the blacks, to the yellow races, to the whites, unite against the powerful enemy, crush capitalism, make the working class the ruling class, the Communist Party the ruling party. (Prolonged Applause.)

(THE END)

Donetz Conspirators Worked for Czarists' Return

(By Our Special Correspondent)

MOSCOW, U. S. S. R.—(By mail) Sitting at the Donbas Company trial in the Hall of the Trade Union one is struck by the complete absence of the formalism and mock solemnity with which capitalist courts reek. The trial of course is being conducted according to the rules laid down by the Juridical Code, but no one, not even the accused with the weighty charges hanging over them, appear to feel any more restraint than one feels at a business meeting.

This is a serious business meeting of course. There is not the slightest suggestion of the theatrical. There is, it is true, the big audience in the hall, and the trial is taking place on a stage-like platform. But the audience in no way obtrudes upon the platform; indeed, they would appear ot be divided from it by a transparent curtain. Only very rarely does the chairman have to ring his bell to hush a subdued murmur that ripples through the hall at a more than usually interesting incident.

The trial is being given the widest publicity, but without sensation. Almost at the very beginning of the proceedings some of the accused complained of the glare of the Klieg lights while the cinema operators were "shooting" them. The president immediately ordered that cinema and all other photographing cease and there has been none since. Thus a valuable piece of publicity was sacrificed in deference to the feelings of the accused.

Then there is something unique about the bench. Only the two supreme court judges look their part. The two assessors sit there like working men with a serious job on hand. They follow the proceedings very closely and now and again put questions to the accused or to witnesses. But the bench is dominated by Comrade Vishinsky, the president of the court. A man of unbounded charm. Of slightly ruddy complexion, his face beams with kindness and sympathy. It is his manner of approach to the accused that causes them to turn to him smilingly to explain some obscure point in their evidence.

The following is a common scene at the trial: Prosecuting counsel hotly pursues a point in the evidence of one of the accused and pours a rapid fire of questions at him. The accused is being carried off his feet. The president intervenes:

To Krilenko: "Wait a minute, let him finish his reply."

To the accused: "Do you want to say anything more on this point?"

The accused explains what he wants to say.

To Krilenko: "Have you any more questions? Please continue."

Accused Flustered.

In the course of cross examination the accused will get flustered. Seeing this the president will take up the questioning himself and with a quip and jest put the accused at his case again and then only let the prosecuting counsel continue.

The accused are defended by counsel of their own choosing, the ablest in the profession here. The German Social-Democrats demonstratively demanded to be allowed to appoint a German lawyer to defend one of the Germans accused. But they made a mistake. The Soviet court does not permit the infringement of the sovereignty of the Soviet State. The defense of the German prisoners was arranged by the German Embassy here and the best counsel obtainable have been engaged.

In addition to their counsel the accused themselves are permitted to cross-examine witnesses. After each witness has given evidence and after he or she has been examined by defending counsel the president calls upon the accused concerned to question the witness if he desires to do so. Sometimes quite a wrangle takes place between the accused and witness, one asserting, the other denying a certain point that has been made until the president pulls them up:

"Witness says you did this thing; you deny it. Very well, you must now leave it to the court to decide."

This is avowedly a class court; the court of the proletarian dictatorship; but it is a scrupulously fair one and its verdict will be determined by the merits of the case.

(To Be Continued.)

HANdOuTS

The New York State Confectionary and Chocolate Manufacturers' Association, suddenly inspired by the angel of magnanimity and good-will, announces that it will distribute five tons of candy to 12,000 orphans and crippled children in New York City institutions. This move, announces the president of the association, is prompted by a desire "to fulfill man's duty to God on earth." Of course, front page publicity in all of the papers of the country will be accepted without protest by the candy manufacturers.

What the Well Dressed Bandit Will Wear

"Oh Mama how can the man afford to dress up so much in these hard times?"

"That's John D. Rockefeller, Jr. He's got more money than you could look at with a pair of field glasses in a 48 hour week."

"How did he earn it all. He must have had steady work."

"He did. He was industrious, put in a long day and kept his mind on his work."

"What's his calling?"

"Robbing workers."

"What does he do with so much?"

"He's always spending pocket money for this or that. The other morning he decided to have the town of Williamsburg, Va. rebuilt for $5,000,000."

"Won't that make him short?"

"Oh, no, He's closed down his mines in West Virginia and will let the workers starve."

"What else does he do?"

"He goes to church."

"If he ever comes here I'll sit on his hat."

"Adolph take your feet off my back and go to sleep."

With new reports coming in each day from Queens the height of daring is reached by a commission in White Plains which recommends the construction of a new sewer.

• • •

Graft Marvel.

The smooth article pictured above is George W. Olvany, chief graft collector of Tammany Hall, the envy of every politician who ever handed out a piece of brown paper for a cigar. The City of New York never buys a paper clip or a broom handle without getting Olvany's permission and giving him his rake-off. In order to keep supporters who might be inclined to edge away, due to the aroma of corruption, Tammany each year gives their children a picnic. This year at Central Park 33,000 youngsters were giving 15,000 quarts of ice cream, 10,000 quarts of milk and five tons of crackers. The native reporters of the capitalist press referred to the affair as an "event innocent and charming." But for every soda biscuit Tammany Hall puts out it takes in a house and lot.

BO[illegible]ALLS ON[illegible]RALIA CA[illegible]ISION

Washingto[illegible]role Body Ignores Petitions

WALLA WALLA, Wash. (By Mail).—Despite the fact that it has heard the evidence in the case of the eight Centralia victims three times, the parole board of the state of Washington has again postponed a decision on the ground that the evidence is too voluminous to permit an immediate verdict.

By this action or lack of action the parole board has shown its contempt for the petitions of thousands of workers and the delegates of workingclass organizations who were present and whose request for an immediate decision for or against is ignored.

Petition Presented.

The eight class war prisoners were represented by Elmer Smith of the Centralia Publicity Committee, delegates from the Tacoma and Spokane Central Labor Councils, the Centralia Liberation Committee of Seattle and the International Labor Defense of Seattle.

Elmer Smith presented a petition for pardon signed by 2,000 residents of Centralia. He reviewed the case briefly, pointing out that seven jurors have repudiated their original verdict and have asked for the release of these workers and that a similar request has been made by the prosecuting attorney, W. H. Abel, who

ZARITSKY THROWS MEN FROM JOBS

Union Heads, Bosses Breaking Boston Local

BOSTON, Mass., June 26.—The war of destruction led by Zaritsky, president of the International Cloth Hat, Cap and Millinery Workers' Union, against the strong Capmakers' Locacl 7, here has begun in all its emviciousness, as the first of the employers began carrying out Zaritsky's request to discharge those workers not willing to drop membership Local 7 here, has begun in all its local he established. They are Jacobs Cap Co. and the Hahns Cap Co.

Jacob Miller, left wing manager of the Boston Local was ordered out of a shop where workers were dismissed, by the bosses, Zaritsky's lieutenant Herschkowitz, and a few Boston right wingers. Six workers from the shop of Hahns were also discharged, and when they did not leave the shop fast enough they were threatened with a beating by Zaritsky's agents there.

These employers enthusiastically carried out Zaritsky's lockout order, while frankly declaring that Zaritsky's dual union is far better for them. "Little Sigman" Zaritsky's agents are already acting as scab agents for the bosses, providing scabs to take the place of those dismissed for loyalty to the union.

The membership of the union is enraged over these union-wrecking tactics of the right wing. A leaflet issued by the office of Local 7 during the lunch hour called upon the workers to resist with all their power the attempt to destroy the organization whose militant policy brought gain after gain in their working standards in the shops. The circular declared on strike the two shops discharging the workers and called the membership of the union to carry on picket demonstrations at the factories. They are the Jacobs Hat Co., 7 Hudson St. and The Hahns Cap Co., 660 Washington Sq.

AMUNDSEN PARTY SIGHTED, REPORT

Explorer, Companions Seen by Seal Hunter

LONDON, June 26.—Raold Amundsen and his five companions are down on an ice flow southeast of Spitzbergen with a damaged plane, according to exchange telegraph dispatch tonight from Copenhagen. The dispatch was based on the story of an unidentified seal hunter who said he had seen the Amundsen party on the ice floe engaged in repairing the plane.

Amundsen, Lief Dietrichsen, and Lieut. Rene Guildaud and three French members of the French naval plane have been missing nine days after leaving Tromsoe, Norway, on a flight to north east land to search [illegible] members of the [illegible]

Kansas Miners Hear Report on New Mine Union

Above James Hunter, delegate to the recent executive conference held by miners from all organized and unorganized sections at Pittsburgh at which a convention call for a new national mine union was issued, speaking at Arma, Kansas. Kansas miners are calling a special convention of district 14, July 1 at which the reactionary Lewis officials will be ousted.

DISTRICT 1 MINERS FACE NEW TREACHERY

(Special to The DAILY WORKER.)

WILKES-BARRE, June 26.—The Cappellini administration in District No. 1 made its first move to expel leaders of the special district convention held recently together with the newly elected officials of District No. 1. After a meeting of the District No. 1 board, letters were sent to local unions demanding expulsion of Frank McGarry of Pittston, George Isaacs of Wilkes-Barre, Walter Harris of Parsons, who are President, Vice-President and Secretary-Treasurer elected by the special district convention.

Cappellini demands also the expulsion of John Bellfield, Edward Hogan, Frank Sobers and Joseph Dougher, district board members, and Ray Delaney of Avoca, elected as International board member. Letters to that effect were sent to the respective locals of which these men are members. It is generally believed that none of them will be expelled by their locals.

It is also believed that the next move Cappellini will make will be to

(Continued on Page Two)

STRIKING MINER AIDS THE "DAILY"

Funds Needed to Secure Paper Over Summer

"Enclosed within find $1 in bank draft to help The DAILY WORKER. Wish I could send more, but it is impossible. Am not working 15 months because of the coal strike out here.

"Anton Balazsi,
Dillonvale, O."

People who wonder how the striking miners live might also wonder how Anton Balazsi, who has been on strike at Dillonvale, O., for 15 long, bitter months, has been able to contribute $1 to keep The DAILY WORKER going.

Workers Cherish "Daily"

But such people do not understand what the "Daily" means to the militant miners. To them it is more than bread. And the miners are not alone in this feeling. Workers in every trade, of every nationality have been making similar sacrifices.

More sacrifices will have to be made if The DAILY WORKER is to continue to exist during the summer months. Summer is always the most difficult period of the year for the "Daily" and this year conditions are worse than ever because of the serious financial crisis which so nearly proved the death of The DAILY WORKER.

The acute crisis has been passed, but the critical situation still remains threatening at any moment to plunge the "Daily" into a new disaster. Only the continuation of contributions in a substantial way by workers and workingclass organizations throughout the country can avert a new crisis and secure The DAILY WORKER over the summer.

The following are additional contributions to The DAILY WORKER:

H. T. Ahrens, Spokane, $5; Alexander Miuhlberg, Elsinore, $5; Louis Hoehheim, Chicago, $2; Ed Hirch, Cincinnati, $2; Ernst Besselmann, Los Angeles, $2; Subsection 2A FD7, New York, $7.50; FD2 Subsection 2A, New York, $4; Clara Freedberg, Bronx, $1.10; TUEL, Local 2 ILGWU, New York, $7.45; Anton Loo, Bronx, Bronx, $6; P. HUNT ARGENTINE FLYER

BUENOS AIRES, June 26. — All Argentina is being searched today for Major Baldasarre, of the Argentine army, who escaped from the penitentiary in a woman's dress just as he had begun to serve a 20-year sentence for killing another officer.

Labor Fakers of West.

WATERLOO, Ia. (FP).—The 36th annual convention of the Iowa Federation of Labor, with over 200 delegates, was opened in Waterloo by Pres. J. C. Lewis. Al Smith was indorsed for the democratic presidential nomination.

SPEED-UP REIGNS AT DELAVAL CO.

Poughkeepsie Firm Has Spies Everywhere

(By a Worker Correspondent)

POUGHKEEPSIE, N. Y., (By Mail).—Working conditions in this town are rotten. The DeLaval plant pays the lowest wages and has the worst speed-up system I have ever seen.

We get only 40 to 45 cents per hour. Many get only 35 cents to start with and very few get more than 45 cents per hour. The women are very poorly paid, getting only 25 to 30 cents for work formerly done by men.

There are 2,000 employed in this plant, but we have no organization at all. They are very suspicious of one being a spy when unionism is mentioned, because the place is filled with actual company spies. Talk and you're fired.

The bosses are always trying to speed us up. They watch us to see if we can work faster. On one opera-

(Continued on Page Four)

5 Die in Explosion In Fireworks Plant

THOMPSONVILLE, Conn., June 26. — One worker and four boys were killed today in an explosion at a fireworks factory here. The blast occurred in the storage shed of the plant. The dead worker is Rosario Farno, of this city. Other workers in the plant narrowly escaped death.

LOSES FINGER IN MACHINE

Jeff Fligin, 24, of 1565 Lincoln Pl., Brooklyn, lost the third finger of his left hand this morning when it was caught in a machine in the National Garter Company, 1115 Broadway. He was taken to the New York Hospital.

"FREE PORTER," IS DEMAND OF MILL STRIKERS' UNION

Meet Here to Demand His Release

NEW BEDFORD, Mass., June 26.—An official statement was issued here today by the New Bedford Textile Workers' Union of the Textile Mills Committee, denouncing in the strongest terms the arrest of John Porter by the military authorities, as an attempt to break the strike of 28,000 textile workers.

"It is as bald as the imprisonment of the other two leaders of the strike, William T. Murdoch and Fred E. Beal," the statement says. Porter is being held in confinement by the army bureaucrats pending a court martial on the charge of being a "deserter."

Isaac Shorr, New York attorney who is a specialist in military law, having defended hundreds of cases before courts martial during the war, is en route to New Bedford to take charge of Porter's defense, it was learned today. Upon his arrival he will immediately institute habeas corpus proceedings to obtain Porter's release.

After being held incommunicado for a period, contact was finally secured with the prisoner. He issued a statement which appealed to the workers to fight for his release. He also approved the plan of the Young Workers (Communist) League and the International Labor Defense to launch a nation-wide drive to obtain mass support for his fight for freedom.

The Young Workers (Communist) League announced from its headquarters in Boston that instructions have been sent to all units of the organization to immediately organize demonstrations for Porter's release. The first one of these meetings to have its arrangements completed is the one to be held here on July 4th. Paul Crouch, an ex-soldier who has served a prison term for trying to organize a Communist League in the American troops' barracks in Hawaii, will be the main speaker. Porter's colleagues in the leadership of the great textile struggle here will also speak at the meeting.

If convicted by the court martial, a sentence of life imprisonment stares Porter in the face. The viciousness with which those who infringe on the army czars' regulations are handled provoke fears that he may be given the most severe sentence. His case is especially grave when it is considered that he is in addition one of the leaders of a great labor struggle.

AL'S PAL GRABS AT GOVT. SHIPS

Smith Backer May Get Fat Reward

WASHINGTON, June 26. — The United States Steamship Lines may be put on the auction block by the shipping board within a short time, it was learned. The board will consider the project soon.

W. E. Kenney Gets Reward

Reports here indicate that M. F. Kenney, wealthy New Yorker who is one of Gov. Al Smith's big backers, has joined with L. R. Wilder, of New York and associates in a plan plan to bid for the United States lines which include the Leviathan, and to establish a large merchant fleet.

Kenney already has made an offer to charter the lines, but no recent overtures have been made to the board by the Kenney interests.

FLIES TO SPITZBERGEN

STOCKHOLM, June 26.—Swedish aviator Lieut. Ekman left today for the Malmsett Airdrome to make a flight to Spitzbergen to join the aviators who will search for the missing Amundsen and Nobile parties.

BELA KUN EXPOSES IMPERIALIST PLOT TO ATTACK SOVIET UNION

Defies Judges of Capitalist Court as Trial Gets Under Way in Vienna

Communist Party and Red Aid to Hold Huge Protest Demonstration

(Special to The DAILY WORKER.)

VIENNA, June 26.—In a courtroom framed in guards, confronting the legal experts of the enemy which is pre-determined to sentence him, Bela Kun, Hungarian Communist leader, today stripped bare the pretence of justice which cloaks the proceedings against him and hurled defiance at international imperialism with the declaration that he had come to Vienna because he had cumulative proof that foreign powers were preparing an attack on the Soviet Union. Outside the courtroom the cordons of troops and police stood nine deep.

Point by point, the heroic Communist leader told his judges and the onlookers the steps by which the powers were preparing for the conflict while he graphically painted the fate of the workers during the next war.

From beginning to end of the session Kun maintained an attitude of composure, bringing frequent expressions of approval from the courtroom by his bearing and replies.

The Communist Party and the International Red Aid are planning huge protest demonstrations. Heavily armed detachments of police are patrolling the streets.

Protests from militant groups of workers in all countries have been received by the Seipel regime.

The Hungarian Communist Party has issued the following appeal to the workers of all countries:

Communist Appeal.

"The persecuted, secretly functioning party of the revolutionary Hungarian proletariat, the Communist Party of Hungary, sends you the following urgent message: Come to our aid immediately, determined action is necessary! Hurry to our assistance and do all you can to prevent the government of the Austrian Bourgeoisie from handing over the leader of our Party, Comrade Bela Kun, to the Hungarian murderers of workers.

To Overthrow Reaction.

"Under indescribably difficult circumstances, working under the ceaseless fire of the united persecutions of the Hungarian counter-revolution and Social Democracy, constantly suffering fresh losses, the vanguard of the revolutionary Hungarian proletariat, the Communist Party of Hungary, is fighting to rally the toilers of town and country to fight against the counter-revolutionary Hungarian regime and its backers, Italian Fascism and British reaction. Undaunted and backed by the persecutions, it is fighting to get the working masses to weaken, to undermine and to overthrow one of the chief pillars of the reactionary block in Southern Europe, Horthy-Hungary. The Hungarian working class know full well that they would thereby not only promote their own liberation, but also fulfil their international duty; the fight against the Hungarian bourgeoisie and landed proprietors, who are arming for war, is their part in the fight against imperialistic war; they are preparing the proletarian revolution in the rear of one of the most villainous lackeys of those who are agitating for war against the Soviet Union.

Save Communist Leader!

"But Hungarian Labor, the Communist Party of Hungary, can hold out against their oppressors only by exerting every ounce of their strength, only with the greatest sacrifice of their forces and by constantly rallying their broken lines. And now the foreign bourgeoisie has joined in the raging war of extermination carried on by the Hungarian bourgeoisie against our Party. The British and the Italian bourgeoisie are agitating to support Austrian reaction in its infamous intention to deliver Comrade Bela Kun, the champion of the Hungarian proletarian dictatorship, the leader of our party, into the hands of his murderers. The Communist Party of Hungary is too weak to withstand this vehement attack. In Hungary itself we have to fight against hundreds of enemies, and our strength does not suffice to ward off the danger which threatens Comrade Kun. The bourgeoisie of all countries, foaming with hatred, are bent on venting their spite against Comrade Bela Kun, because he fought in the front ranks of the party which—in the year 1919—was the first after our Russian brothers to hoist the flag of Communism in Central Europe. The bourgeoisie cannot forgive him for this, and this is the crime for which he is to be murdered.

"Help, brothers! If Comrade Bela [illegible]

Fights Collaboration

The reformists of the General Council of the British Trade Union Congress are planning to expel A. J. Cook, militant Secretary of the British Miners' Federation, because he attacked the Mond class collaboration scheme. A complete cable story of the current session of the General Council will be found on page 3.

LEWIS SEIZES LOCALS' FUNDS

Machine Moves to Grab Union Treasuries

(Special To The DAILY WORKER.)

PITTSBURGH, Pa., June 26.—According to a report from Bellaire, Ohio, received by the National Miners' Convention Arrangements Committee, the reactionary Lewis officials in Ohio are now trying to deprive local unions, which have refused to follow the traitors, of the small funds left in their treasuries and which they need for their urgent running expenses.

The report states that the reactionaries have seized the funds of the Lansing local union, the Duncanwood local and the Big Run, Bellaire, local. They have also locked up the halls of several local unions and are trying to get possession of them through court action.

New Step of Betrayal.

This is the latest terroristic measure of the Lewis clique in its effort to stem the revolt of the miners against the treacherous policies which have wrecked the U. M. W. A.

The repudiated reactionaries have tried to intimidate the progressive rank and file by mass expulsions, by the strike-breaking measure of cutting off relief, by enlisting the aid of the police and state troopers to break up meetings. Now they are going one step further in their campaign of terrorism and treachery.

This new terrorism of the reactionaries, which incidentally would increase the funds under their control enabling them to draw a little longer their high salaries and swollen "expenses," will not halt the militant rank and file. It will only intensify their determination to rid themselves of the corrupt clique and to build a union which will unite the miners throughout the industry in one fighting front against the coal barons.

Big-Hearted John D. Gives Crumbs to Poor

The generosity of John D. Rockefeller, Jr., knows no bounds. The man who has starved thousands of miners' children in West Virginia and Colorado and whose officials killed Colorado strikers when occasion arose, has just donated $72,000 for "bettering" conditions that contribute to juvenile delinquency and ill health in the Columbus Hill Section and in Harlem.

HOUSTON FARCE OPENS IN PRAYER

Convention to Begin at 9:30 P. M.

(Special To The DAILY WORKER.)

HOUSTON, June 26.—Everything has been settled here in the preliminaries to the democratic convention except the unimportant little detail as to how to distinguish the democratic party from the republican. No one obviously has thought this worth worrying about and it is expected that the mere key-note formalities of putting the democratic donkey through its braying antics against the republican elephant will this year be as mild as possible.

Same Tailor.

Even ordinary observers recognize the make of the same Wall Street tailor in the suit now worn by the donkey and that sported by the elephant at Kansas City two weeks ago. Also everyone now admits that the same straddling of doubtful questions and the same avoidance of real issues

(Continued on Page Two)

EX-GOVERNOR IS PAID BY TRUST

C. H. Brough, Tool of Power Interests

WASHINGTON, June 26. — Former Gov. Charles H. Brough is director of power trust publicity in Arkansas, it was revealed before the federal trade commission today.

By this disclosure the government of the state of Arkansas is directly linked with the power interests despite the fact that former governor Brough did not become head of the publicity until three years ago, several years after he had completed his term of office.

Brough, who is head of the information bureau of the Arkansas power trust, receives a salary of $6,000 a year, Rex L. Brown, secretary and treasurer of the bureau testified. The former governor makes about 250 speeches a year in behalf of the trust, Brown said.

Brown also admitted that the power interests have "aided" financially an Arkansas publication called the Dixie Magazine. Since 1926 a total of $8.719 has been paid to this magazine, which prints power trust propaganda. In addition, 300 subscriptions have been taken for mailing throughout the state.

Forced by revelations of the active cooperation given by the schools of the country in foisting power trust propaganda on school children to take some action, organized education is planning to conduct a so-called investigation of its own. A resolution for such an investigation will be introduced at the National Educational Association convention at Minneapolis next week.

MARINES TO STAY IN CHINA—WILBUR

Ships Also to Remain to "Protect Property"

WASHINGTON, June 26. — The United States government has no intention of withdrawing the 3,900 marines now on Chinese soil and the ships of the Asiatic fleet in Chinese waters, Secretary of the Navy Wilbur declared today.

They will remain for an indefinite period "for the protection of American nationals and properties," he [illegible]

U. T. W. PLANNING STRIKE SELLOUT

"Fake Pact Won't Get Men Back," Mill Committees Say

By GILBERT GREEN

While the Superior Court was hearing the appeals of William Murdoch and Fred Beal, the two leading figures in the strike of the New Bedford Textile Workers Union of the T. M. C., the mill owners are holding conferences with the reactionary leadership of the New Bedford United Textile Workers Union of the A. F. of L. on the "labor extension plan.' These conferences very well illustrate the bank- [illegible] leaders, and prove to the blindest workers the character of the "class collaboration" policies of Batty Binns, Riviere, Campos, and Manning.

The chairman of this conference was Charles Mitchell of the Citizens' Mediation Committee. He said, "It is the duty of the employee to cooperate with the [illegible]

Details of the discussion that took place at these conferences prove clearly the contention of the leaders of the Textile Mills Committee that the Textile Council officialdom is anxiously awaiting the opportunity to betray the 28,000 strikers whom they purport to represent. The T. M. C. heads declare that these petty politicians do not even represent the sentiments of their own several thousand members. "Even the members of the [illegible]

Corbishley, from Prison, Calls Upon Miners to Maintain Great Struggle

GERRY ALLARD IN INTERVIEW WITH UNION MILITANT

Has Not Seen Children for Long Time

(Special to The DAILY WORKER.)

BELLVILLE, June 26. — Neither prison walls nor the persecution of the police system of the capitalist class has been able to dim the enthusiasm nor deaden the confidence of Henry Corbishley, militant Illinois miner, imprisoned for his union activities.

Gerry Allard, young Illinois mine leader gives below the report of his recent interview with Corbishley:

* * *

By GERRY ALLARD.

Along the shores of the mighty Mississippi, situated in a high, rocky, mountainous district, the gray, dismal walls of the southern Illinois penitentiary is visible. As we approached the prison we noted that the fortress is well protected with an army of guards. We enter the prison through its heavy casted steeled doors; we are swallowed in an institution that holds in subjection some 1900 prisoners.

Among those that are confined in this dungeon of isolation are the various kinds of so-called social outcasts, criminals, burglars, thiefs, rapers, murderers, counterfeiters, and the like. All of these have originated from the "lower" class of society, presumably from the working class. The Harry Sinclairs, Daughertys, Denbys, Falls and other plunderers are not here.

This institution was erected for the benefit of the proletariat whose standard of living did not permit them to continue at large!

Class War Prisoners.

Among the inmates in this prison are the bodies of three militant, class conscious miners who fought for the preservation of a militant union and for the extermination of the corrupt and treacherous misleaders of their union.

Of these, Henry Corbishley, the leader of the Illinois rank and file miners, is one.

We waited anxiously for word from the prison warden for several minutes; the question of whether or not we were going to see our Comrade seemed very problematical from the manner that the officials were acting. After much waiting we finally were permitted to see Corbishley, although a limit of time was fixed for reasons best known to the keeper.

The form of Corbishley was now visible. As we approached with the keen pleasure of seeing our comrade once more, he extended a firm hand to us. His blue eyes shone like steel just as ever. His face, with determined jaws, had not lost its courage; yet slight grey streaks in his hair were becoming visible.

Ask About Children.

He asked about his children. His babies he had not seen for a long time. How about his little wife, Grace. We assured him that they were getting quite well and that they were being taken care of by the many comrades, brothers, and sympathizers.

Corbishley, showed great interest in the miners' struggle. He spoke lengthly on the great fight and gave us many suggestions that were very constructive. He was greatly concerned because he was unable to assist in the gigantic fight that his brothers were carrying on on the outside. He spoke with hope that we were doing all we could to have the doors opened for his liberation, and he seemed to understand that the movement for which he had fought was advancing thruout the country, a little step further day by day.

Spirit of Corbishley

Yes, the spirit of Corbishley and his colleagues has manifesting itself through, the great National Conference of April 1, at Pittsburgh, the many district conventions, sub-district conventions; the struggles on the picket lines and the heroism in the mine camps. Corbishley and the other class war prisoners speak in the struggles of the miners to erect on the ruins of the old, corrupted union of Lewis an organization which under the control of the rank and file will advance the miners to a new plane of life.

Name Hoover Lackeys to Make N.Y. Campaign

WASHINGTON, June 26.—William H. Hill, Binghampton, N. Y., mentioned for the post as eastern manager of secretary Hoover's campaign, today was named chairman of the New York State Campaign Committee.

George K. Norris, Amsterdam, N. Y., state chairman, announced the following as members of the committee which will be augmented as the campaign progresses: Allen Fox, New York, secretary; Herbert Strauss, New York, treasurer; and associate members: Rep. Bertrand H. Snell, Potsdam; Edwin H. Machold, Watertown; Richard W. Lawrence, New York; ex-senator M. Calder, Brooklyn; Alderman Ruth Pratt, New York; and Florence Wardwell, [illegible] Center.

MINE EXPLOSION BRINGS UNTOLD TRAGEDY IN ITS WAKE

(*Special to The DAILY WORKER.*)

LAUREL POINT, W. Va., June 26.—The full extent of the tragedy which occurred as a result of the explosion in the shaft of the non-union National Coal Company mine near here early Thursday morning is now coming to light. Six were killed outright. Six others were so seriously injured that they may not survive, according to reports received at the headquarters of the National Miners' Relief Committee. Even this is not the worst of the tragedy.

Leo. S. Stanley, 32, was the father of six children. The widow of Harry Brock, 49, will have to be the breadwinner for her eight children until they grow old enough to enter the coal pits—the only job available in this little mining town. Curtiss Stevenson, 23, died in a local hospital a few hours after he was taken out of the mine, overcome by the deadly fumes. Hugh Ankrom, 22, W. G. Henderson, 34, and Steve Herrick, 48, are the other martyrs of open-shopdom.

The miners declare that the explosion occurred in number five butt, where cutting machines are operated in close quarters and the atmosphere over-charged with coal dust while there is little ventilation. The Davis-Elkins interests, owners of the mine have neglected safety precautions and are being bitterly criticized by the miners for not having rock-dusted the diggings.

Almost 300 other coal diggers lost their lives in non-union mines during the past month. In the case of the Mather, Pa. disaster after protesting that the Mather mine had been "thoroughly" rock-ducted a short time before the blast which took 197 lives, the operators were forced to admit that coal dust was responsible for the explosion.

Need is Acute.

Thousands of miners in the unorganized fields are striking now, determined to keep out of the pits until their working conditions can be controlled through a strong union. This new disaster has strengthened their fighting morale, although many strike communities are living through actual starvation.

"Appeals for bread are received daily by Alfred Wagenknecht, relief director of the National Miners' Relief Committee. He urges that all sympathizers send as much as possible to relief headquarters, 611 Penn Avenue, Pittsburgh, Pa., to save the striking miners from starvation and help them fight the onslaught of the operators' drive for open-shopdom."

District One Miners Face New Attacks

(*Continued from Page One*)

expel the locals of which they are members. Cappellini also threatens expulsion of all local unions which went on record to pay dues to the newly elected officials. It is also understood that Cappellini asked Lewis, the International president to place Local No. 1703 of Pittston which is known as one of the militant locals, on the delinquent list, which means that the local will automatically be dropped out of the union. The newly elected officials established their offices in Brooks Building, Scranton.

Moleski Elected

Adam Moleski was elected to succeed Frank McGarry as president of the Local No. 1703, Colliery No. 6, of the Penn. Coal Co. in Pittston. Moleski is one of the defendants framed up with Bonito and Mendola in the Agati case.

On Sunday, June 24, a mass meeting was held in Pittston by the newly elected officials in District No. 1, at which all the officials and Wm. J. Brennan spoke. In their speeches they confined themselves to Cappellini, and pleaded for support of the public against Cappellini. McGarry in his speech made a bluff that he is willing to close every colliery in District No. 1, if necessary, to force the coal companies to equalize the work of the collieries.

Unequal Work

At present, some of the collieries are working every day while others are either working a few days a week or are shut down completely. Among those completely shut down is Colliery No. 6, Penn. Coal Co. at Pittston.

Wm. J. Brennan in his speech declared that Lewis had made a mistake by not granting a special convention to investigate the conditions in District No. 1, and to eliminate company influence in the union. He also stated that he is not afraid that "his" membership will be taken, as he is fighting for the real United Mine Workers of America. The meeting was attended by 1,500 miners.

The newly elected officials were not clear in their speeches as to their next move. They are still trying to get Lewis to step into the situation. This of course is treason and the rank and file under the leadership of the Save-the-Union movement is demanding that the miners of District No. 1 break all relations not only with Cappellini but with Lewis as well, and prepare to join with the miners in other districts for the purpose of building a new union, to send delegates to the National Miners Convention which will take place September 9 to 16, in Pittsburgh.

Conference July 1

For this purpose the Save-the-Union forces of District No. 1 will hold a mass conference on Sunday, July 1st at 2 p. m. at the Italian Hall, 206 Oliver Street, Luzerne. It is generally expected that this will be one of the biggest and most representative gatherings of the Save and Build the Union movement in this district. John Watt, chairman of the Committee for Arrangements of the National Miners Conference has been invited to address the conference.

The miners of this district must build their own forces in their fight against the Lewis machine and also against the treacherous Brennan-Harris-McGarry gang which wants an independent union which in reality will be a company union.

BELA KUN DEFIES CAPITALIST COURT

Exposes Plan to Attack Soviet Union

(*Continued from Page One*)

Kun is extradited, his death is certain! Hungarian Labor—though it has already recovered from its great loss of blood and has once more taken up the class fight—is not strong enough to wrest the axe from the hand of the Hungarian executioner. For this reason you must prevent the extradiction of Comrade Bela Kun' International Labor must do its utmost to keep Comrade Bela Kun out of the hands of his would-be executioners!

"We appeal to you for help!

"Take over for us a section of the front we are holding! The extradition the murder of Comrade Bela Kun would mean the triumph of the raging thirst for vengeance of the bloody Hungarian counter-revolution, the victory of international reaction, a further repulse, and renewed weakening of Hungarian Labor.

"Do not permit Hungarian counts, priests, bankers and manufacturers to triumph!

"Uphold the right of sanctuary of the Hungarian revolutionaries!

"Protect Comrade Bela Kun, the plucky fighter for international revolution!

—"The Central Committee of the Communist Party of Hungary.

Tammany Convention Begins With Prayer

(*Continued from page one*)

will characterize the democratic platform as marked the republican blurb.

Everyone concedes that it is Al Smith on the first vote. Secondly, it is clear that the democrats will follow the republicans in the vaudeville stunt of casting up into the air a "farmers" candidate for vice-president, probably Joe Robinson of Arkansas, in the confidence that the real farmers will believe that it is their new agricultural Messiah. The subterfuge and deception which is being planned by the democrats on the farm issue is, if possible, even worse, because more indirect, than that practiced by the republicans.

The platform will speak of prohibition enforcement but will hold out a ray of hope for the wets; and the bootlegger whose industry is today the fourth or fifth largest in the country will, of course, take only delight in the arrangement.

No Leadership.

And against this background of planning and manipulation stands out in the boldest relief the same glaring fact which likewise marked the dull, dry and dreary republican convention, the fact that the "democracy" will accept the dictatorship of Wall Street in naming a candidate who has in this convention far more secret enemies than friends.

But Wall Street, which openly supports both Hoover and Smith, it is pointed out, needs just such small, pliable servants to do its bidding. The convention opened this afternoon at 2 p. m. with a prayyer and immediately adjourned to 9:30 p. m. when the dirty work will begin.

Sues Fascist Leader

Rosika charges that Marvin issued libelous statements about her to women's clubs. Marvin led the efforts of the bosses to suppress The DAILY WORKER.

CENTRALIA CASE VERDICT PUT OFF

Board to "Reconsider" Evidence

(*Continued from Page One*)

was paid $5,000 by the lumber interests for his services.

Joseph Taylor, representing the Tacoma Central Labor Council, and W. J. Finn, of the Spokane Council, reported that the labor movements in their respective cities have unanimously adopted resolutions urging freedom for the men and that they have been sent by their councils to ask for an unconditional pardon. The Seattle Central Labor Council sent a telegram making a similar request.

Visit Prisoners.

When the parole board, in an effort to silence the protests, promised to render a decision within a "reasonable time," it was emphatically stated by the delegates present that the time had come for a definite decision by the board for or against. It was pointed out that years of effort have been put on the case to present evidence to convince the board of the innocence of these men, that the families have lived in suspense all these years and that all parties interested were entitled to a definite statement from the board not later than July 1.

The families of the prisoners were present throughout the proceedings. Following the parole board hearing the delegates and families visited the eight prisoners. Long years of imprisonment have not crushed their spirit or their devotion to the working class. They expressed great hope that they would soon be freed. The I. L. D. is mobilizing its full strength in the fight to win freedom for these courageous working class fighters.

FORM HUGE AIR CONCERN

ST. LOUIS, June 26. — A new factor in aviation industry was disclosed today with the announcement by Thomas N. Dysart of Knight, Dysart, and Gamble of the formation of the National Aviation Corporation with an authorized capital of $11,750,000.

U.T.W. PLANS MILL STRIKE SELL-OUT

"Fake Pact Won't Start Mills," T. M. C. Says

(*Continued from Page One*)

United Textile Workers will stay out on strike under our leadership if any attempt is made to betray the demands of the strikers," Mill Committee spokesman say.

Presents Scheme

Mr. Barnes, a mill owner and head of the Barnes Textile Service, presented the plan to the conference. The plan, simmered down, is nothing more nor less than a speed-up and efficiency plan to be installed at the expense of the workers in order to increase production. This plan is an attempt to make the workers do "the greatest amount of work in the least amount of time," and is properly called by the press the "multiple loom system." It is the same attempt as is being made today in the coal industry with the agreement of Lewis, "to throw out the excess labor in the industry."

This can be clearly seen by the following discussion that took place at the conference. Mr. Batty asked Mr. Barnes, "If more machines were assigned per operator, there would be a flat layoff, would there not?" Mr. Barnes answered to the affirmative. Mr. Batty then asked, "If there were too much production, there would be another glut of the market," which in other words means greater unemployment, and Mr. Barnes' answer again proved the intent of the plan, "There are economic conditions that cannot always be controlled," and so very nicely dodged the issue.

Mr. Batty, apparently trying to show his "opposition" to this plan, tried to prove to the operators that it would be much better for the industry if the weaker concerns dropped out. It was quite apparent, that all this was for the sake of the reporters, as Mr. Batty and the other reactionaries cannot at the present time openly endorse this plan. However, Mr. Ross of the Mule Spinners Union, not being so adept at diplomacy, let the cat out of the bag when he pointed out the "only objection" of the "labor representatives."

Mr. Ross said, "It is not fair to bring up the question of 'labor extension' at this time. People are out on the streets, and they will not take kindly to an innovation now. Get them back into the mills first, and then come along with this proposition. While the mills are idle, no new proposition, either theoretical or practical could be taken too kindly by the employees. This matter can be taken up only when the mills are running, and there is a better feeling among the employees." It is in this fashion that the position of the reactionaries was so bluntly split.

This has only made the workers become more militant. Batty's overtures to the picket lines, is very plainly recognized as an attempt to win back the confidence of the workers, in order to make the betrayal successful. More and more workers are joining the New Bedford Textile Workers Union, the picket lines are growing, the mass meetings are getting larger and larger, all going to prove that the workers have been betrayed once too often. They can very well distinguish between a leadership that goes to jail for them, and the leadership that bargains over the green table.

At the end of the conference a unanimous vote of thanks was extended Mr. Barnes for presenting his plan.

KILLS SON AND SELF

NACOGDOCHES, Texas, June 26.—John Flowers, 67, today shot and killed his son, J. W. Flowers, 33, a cripple, and then cut his own throat with a knife, inflicting fatal injuries, on a farm 16 miles west of here.

Just preceding the tragedy, the son had refused to "go west" with his father, it was stated. The coroner rendered a verdict of murder and suicide.

Baumes Law Sent 109 to Jail for Life

OSSINING, N. Y., June 26. — Under the Baumes Laws, 109 men, many of them in their early twenties, have received life sentences in the last 25 months Raymond F. C. Keib, Commissioner of Correction, said today.

Of these 109 men, over fifty have been sentenced to life imprisonment on the most petty crimes. One of those sentenced stole a nickel from a woman's purse. It happened to be his fourth offense, and as a result he has to spend the rest of his life in Sing Sing. Another was convicted on the simon-pure technicality of having opened a door to a room that was not his. Fourth offense. He got life imprisonment.

The Baumes Laws, including the one prescribing a life term for any prisoner convicted of four or more "felonies," went into operation July 1 1926. Commissioner Keib made a survey and gathered statistics of life prisoners committed under the Baumes fourth-offender penalty from that date until June 1 of this year.

NEWARK BARBERS OUT ON STRIKE

Strikebreaking Trick by Newark Ledger

NEWARK, N. J., June 26.—More than 450 barbers struck yesterday because the bosses refused to accept the agreement settled upon last year, for this year. The agreement the striking barbers wish to renew provides for working from 8 a. m. to 8 p. m. from Monday to Friday inclusive, and from 8 a. m. to 9 p. m. on Saturdays.

A drive for organization is being conducted simultaneously with the strike for the renewal of the agreement. Adolf Rosenbaum, general organizer of the Barbers' International, of the American Federation of Labor, is the organizer of the strike here.

An attempt to break the strike has been quickly initiated by the Newark Ledger, which did not hesitate to declare that the wives of the striking barbers were urging them to accept the dictates of the employers. The strikers are in a high, militant spirit and are being well supported, it is known. Picketing is being carried on at many barber shops throughout the city.

A strike meeting is being called for tonight at the headquarters of the Journeymen Barbers' International Union, Local 877, at 220 Plane St. Further plans for the strike will be discussed there.

CLERK KILLS SELF

AUBURN, N. Y., June 26.—The body of C. D. Robbins, 35 clerk in the Moravia post office, was found hanging in his garage early today. Coroner Park, upon examination of the body, gave a verdict of suicide. No reason was advanced for Robbin's act.

UNION "LEADERS" BETRAY TRACTION STRIKE IN CONN.

Call Off Walkout at Last Moment

NEW HAVEN, Conn., June 26. — Within 24 hours of the scheduled strike of 2,500 union street car men against the Connecticut Co., union officials called off the walkout. The strike would have tied up all trolleys in central and western Connecticut. President W. O. Mahon, who helped betray the New York subway strike, is in the state.

The Connecticut Co., open shop New Haven railroad subsidiary, had amassed a formidable army of strike-breakers, special police, lawyers and spies to break up the strike. Through the New Haven railroad, which also controls bus lines through the section, rail and bus schedules had been devised to supply transportation needs.

Manufacturers rallied behind the Mfrs. Assn. of Connecticut and made a census of all employes who had experience in transportation work. These were offered to the Connecticut Co. to break the strike just as they were to the New Haven during the 1922 railway carmen's strike.

The proposed strike arose from demands of union car men for 75 cents an hour instead of 62 cents on two-men cars; 96 cents instead of 69 cents on one-man cars; 90 cents instead of 72 cents on busses. The union also demands official recognition, rather than parleys between the company and an employes' committee, the 8-hour day and representation on the company's discipline board.

Connecticut Co. workers have the "privilege," the company states, of appealing fines and other penalties to the president and "even" to the board of directors. Only one appeal, however, has ever been made to the board and none at all to the president during the past year.

$1.50 IS A DAY'S WAGE IN TENNESSEE

Building Trades Workers Toil Ten Hours; Many Are Jobless

DURHAM, N. C., June 26 (FP).—Driving through the backwoods towns of central Tennessee, a southern organizer found the cheapest labor conditions in many miles of travel. Building trades workers, the high-pay men of union cities, had to work 10 hours in backwoods Tennessee to make as much as union mechanics make in one hour in New York, Chicago or St. Louis.

Alfred Hoffmann, the organizer, was surveying the region for the American Federation of Full Fashioned Hosiery Workers. Some knitting mills have been moving south, where wages are lower.

Hoffmann told of a visit to Smithville, Tenn., a county seat of 1,000 surrounded by timber land. The union had word that a northern hosiery company was planning to put a mill there, if the citizens subscribed a certain amount of stock.

"Not a factory in miles," said the organizer, describing the setting of this prospective industrial community. "The only signs of industrial life as I approached the town were a few lumber wagons, creaking over the road between the trees. Barefoot women by the road indicated the poverty of the community." Entering Smithville, he found the town in ruins. A fire had burned the courthouse, the warehouse and the business block.

A merchant, whittling on a stick in front of his charred store, took Hoffmann for a hosiery company representative, and greeted him hopefully. The town needed the mill, he said, though the citizens could no longer put up their share of the stock. But labor was still cheap. "You can get all the help you want at $1.50 a day," he said. Bricklayers were getting only $2 and carpenters worked for $1.50 for a 10-hour day.

Unemployment curses this part of Tennessee and central Kentucky. At every filling station by the road bunches of young and middle aged men were hanging about, with nothing to do. Nothing, that is, except occasional work on the farms at 75 cents a day, supplying their own meals.

In eastern Tennessee there is a brisker life, with factories, though unemployment prevails there also in lesser degree. Chattanooga has strong unions in many of the city crafts and the general higher wage level is reflected in the textile industry where no union is recognized.

The work is long in all southern mills, but it grew longer in one town Hoffman visited. He happened to arrive Saturday noon and was "spotted." Immediately the superintendent notified the knitters that they must work on their half holiday. It would not do to give them a chance to listen to the organizer.

British Trade Union Reformists Endorse Class Collaboration at the Meeting

GENERAL COUNCIL MAY EXPEL COOK FOR OPPOSITION

Cook Attacks Mond Plan at Session

(Special Cable to DAILY WORKER.)

LONDON, June 26.—The most important questions concerning the British labor movement will come up at the meeting of the General Council of the British Trade Union Congress this week. The discussion of the future of Mond's "class collaboration" scheme is scheduled to come up for discussion today.

A. J. Cook, secretary of the British Miners' Federation, has brought up a motion demanding the immediate discontinuance of all negotiations. The vote against continuance of the negotiations was seven, while thirty-two members of the council voted to carry on the negotiations for the class collaboration scheme.

On Thursday the Council will meet with the E[illegible]utive of the Miners' [illegible]s the accusation of "in-union to [illegible] which have been made [illegible]ok because he published a [illegible] attacking the Mond scheme.

The demand for the removal of Cook from the General Council is being supported by the reactionary Scottish Executive which has nominated James Welsh.

The conference of Welsh miners opened yesterday. Jack Horner, Communist leader, has been proposed as chairman.

Prague Reformists Plan Attack on Communists in Cooperative Union

(Special Cable to DAILY WORKER.)

PRAGUE, June 26.—The reformists in the Cooperative Union are making plans for the expulsion of all Communist members of the Executive Committee. The unity in the Cooperative Union is endangered by this new move on the part of the reformists.

Worker Delegates to Militant German Reunion

Untergau Hamm westf.
Wir sind Kumpels
Westfalen
der Zechen
Sachsen, de Wendel.

The workers shown in the picture are delegates from the Hamm sub-district of the German Communist Party to the huge demonstration recently held under the auspices of the Party in Berlin. They are employes from the "Saxon" and "De Wendel" trusts. Hamm is an industrial junction town in Westphalia.

PRAGUE RED DAY DESPITE POLICE

4,000 Worker-Athletes at Sports Meet

(Special Cable to DAILY WORKER.)

PRAGUE, June 26.—The Prague police officially announced that it will outlaw all Red Day celebrations which are being planned by the Communist Party of Czechoslovakia. The edict is alleged to be based on the Austrian law of 1867 providing for the preservation of public order.

Red Day will be held in spite of the police order, it was announced.

The Red Sport celebrations were heavily attended yesterday. More than four thousand worker-athletes participated while the events were witnessed by 15,000 spectators.

FELAND VISITS EAST NICARAGUA

Airplane Base Arouses Peons

MANAGUA, June 26. — Successes of the Nicaraguan army of independence under General Augusto Sandino have caused General Logan Leland, commanding the United States marine corps in Nicaragua, to visit the east coast of the country. General Leland is traveling via the Panama Canal. With him are Admiral D. F. Sellers, commanding the special squadron.

The recent establishment of a large airplane base on the east coast is reported to be causing widespread resentment among the Nicaraguan peons who believe that it portends a resumption of the marine offensive against the forces of General Sandino after the rainy season.

ANTWERP STRIKE TIES UP BELGIAN FREIGHT TRAFFIC

Cabinet Fails to Reach Decision

BRUSSELS, Belgium, June 26. — The Belgian cabinet went into special session yesterday for consideration of the situation arising from the strike of ten thousand longshoremen and stevedores at Antwerp. No decision had been reached by them at a late hour yesterday.

* * *

ANTWERP, Belgium, June 26. — With every symptom of drawing in the seamen in the near future, the strike of ten thousand harbor workers continued here yesterday.

Virtually the entire traffic of the port, the largest in Belgium, is tied up by the strike. At least fifty vessels are lying at anchor in the Scheldt unable to load or discharge cargo, while it is estimated that more than 2,500 freight cars are paralyzed on the tracks in or outside the city yards, awaiting discharge.

The greatest enthusiasm prevails among the men, their leaders state, and there is complete confidence that the owners will be forced to accede to the demands of the men.

The strike began when the dockers loading the British Red Star liner, Belgenland, walked out owing to a refusal of a small increase. They were immediately followed by the other harbor workers.

ORDER MUELLER TO TAKE ACTION

BERLIN, June 26.—Issuing a curt expression of his desires that amounts to a command, foreign minister Stresemann yesterday announced that he wishes Herman Mueller, social democratic chancellor designate to end delay and form a coalition cabinet immediately.

The foreign minister further declared his opposition to the scheme to revive the Weimar coalition.

Mueller intimated that he will follow the foreign minister's instructions to the letter.

Give Raises to Better Paid Court Employes

One hundred and twenty-eight employes of the Supreme Court in Brooklyn have been granted salary increases, effective Jan. 1, 1929, by the Brooklyn Supreme Court Justices.

The increases are confined entirely to the better-paid employes. Sixteen secretaries have been raised from $5,000 to $6,000 a year; 12 court reporters, from $4,200 to $5,000; 60 clerks, one group from $3,000 to $3,250, another group from $4,000 to $4,500; and two confidential attendants, from $4,250 to $4,500.

No increases were given to the 88 court attendants, who receive from $2,700 to $3,000 a year.

Where Students Died for U. S. Air Imperialism

Frank Manznerzó and Stephen Milo took a plane from an airplane training school hangar recently and attempted to fly. The wreck of the plane which crashed at the Pine Valley Golf Club, at Clementon, N. J., is shown in the picture.

KELLOGG "PEACE" STARTS SQUABBLE

Treaty Called Blind to Aid Armament

PARIS, June 26.—Quibbling continues here over the wording of the latest note with which Secretary of State Kellogg is attempting to secure French assent to his multilateral peace treaties. While declaring that the note clarifies a number of points, French officials state that it does not make sufficiently clear the relations between the proposed compact and the League of Nations.

Kellogg, however, maintains that the league covenant does not force nations to go to war, it merely permits them, and hence there is no conflict between the league and the proposed treaty.

Reports from Berlin indicate that German circles, on the other hand, are hailing the treaty which they understand will give an opportunity for all nations to increase their armaments under the cover of peace moves. The catholic centrist organ Germania is especially loud in its praises.

Japan Likes It.

TOKIO, June 26.—A spokesman for the foreign office yesterday announced that the Japanese government sees itself in complete accord with the Kellogg peace proposals.

B. & O. TELEGRAPHERS RAISED

WASHINGTON, June 26. — Telegraphers on the Baltimore and Ohio railroad have forced the company to pay an additional 3½ cents an hour and an increase of 5 per cent for monthly workers.

TRY TO DYNAMITE MEXICAN TRAIN

Reactionaries in New R. R. Plot

MEXICO CITY, June 26.—A second disaster was narrowly averted today at the scene of the dynamiting of a railway passenger train in Queretaro, yesterday, when seven persons were killed, one an American.

The train was bound from Mexico City to the United States. The engineer, having been advised of yesterday's outrage was proceding slowly three kilometres south of Bernal when several sticks of dynamite were seen on the tracks. They were removed and the train continued without accident. Counter-revolutionists are alleged to have placed the charge.

DONETZ PLOTTER ADMITS, DENIES, RE-ADMITS GUILT

Was Economic Council Member

MOSCOW, U. S. S. R., June 26.—During yesterday's session of the trial of the technicians accused of counter-revolutionary activities in the Donetz coal fields, the accused engineer Skarutto was examined.

Skarutto was the assistant director of the directorium of the supreme economic council for the Donetz-basin. At the same time, he was a member of the Moscow group of sabotagers.

The engineer at first denied but later admitted his guilt. Yesterday he again denied his guilt tho under cross-examination he admitted belonging to the Moscow organization where he was an organizer.

He also maintained direct connections with former mine owners and received money regularly. Skarutto cloaked his sabotage as a member of the Supreme Economic Council.

Two days ago Skarutto made a detailed statement in writing admitting his guilt which he yesterday withdrew, pretending that the details were invented. The facts, however, are too detailed to have been invented.

To Increase Sugar Output of U. S. S. R.

MOSCOW, U. S. S. R., June 26. — The production of sugar will amount to about 2.25 million tons by the end of the 5 years' industrial plan, according to the estimate of the Supreme Council of National Economy of the USSR. It is planned to enlarge 38 works that are in operation, to put 14 idle works into operation and start the construction of 13 new ones.

University of Penna. Fires a Teacher

By SOL AUERBACH.

SOME are still naive enough to believe that the freedom of speech theoretically guaranteed by the Constitution of the United States, that scrap-heap of worn out ideals, is still existent in this country. That belief is the central hobby of liberals who think that they can attain reformist ends by insisting on their civil liberties. Those of us who know better from experiences in strikes and radical activities, are not at all surprised when radicals are put in jail or expelled from unions or bourgeois institutions. It is in the run of things.

I was until a few days ago an instructor in the University of Pennsylvania, one of the most reactionary universities in this country. In a very polite and genteel way I was asked to leave the teaching of the precious young Americans to safer and more staid professors. In the ethics of a university I had committed a crime. This is the story of my crime.

Visited U. S. S. R.

Last summer I visited the Soviet Union as a member of the American Student Delegation. On April 6 I spoke at a public meeting in Philadelphia, arranged by the Student Delegation, on "The Educational System and the Student in Soviet Russia." Ten days later I was called to a meeting of the professors of the Philosophy Department. They were very polite and considerate. They asked me if I had spoken at this meeting on Soviet Russia. They wanted to know if I did not think that leaflets printed in red ink would not give the impression that it was a Communist meeting. I wanted to know if the professors thought that leaflets printed in green ink would be appropriate advertisement for a ku klux klan meeting. They remarked that an avowed Communist and agitator had spoken on the same platform as I did. They were very curious about my political views—was I connected with any active propaganda or revolutionary organization? How far would I go in my support of the Soviet Union, etc. (My views were already well known to them.) Throut the whole meeting it was very evident that some higher authorities had ordered this trial, for they continually referred to and quoted from a list of typewritten charges. One of the professors wishing to assert his good faith and give evidence of his impartiality repeated again and again: "Auerbach, I want you to understand that we are not responsible for this; but you are in trouble and we want to help you out." This same professor later said to one of the instructors of the department that they had come to the meeting hoping to fight for me, but that I had struck by my principles and they would do nothing for me. Keep this in mind in view of later developments [illegible] point of the conference came when one of the professors quoted from the "charges" a letter that had been sent to me thru special delivery. I had received this letter a few hours before the Soviet Union meeting on April 6 from Richard Hill, of Lincoln University, a member of the Student Delegation, who was scheduled to speak at the same meeting. In this letter he was sorry that he could not speak since "he had been advised that the meeting was not being held under the auspices of the delegation but under other auspices under which he did not care to speak." The University had a copy of this letter. I did not think that the espionage system had gone this far. Later I wrote a letter to Hill asking him to explain but he only referred me to William Johnson, president of Lincoln University who, he said, had advised him. I wrote to President Johnson on April 26 asking him to explain. I did not expect him to reply and he did not. Since then I have heard from neither of them. I suppose that Hill was forced to write this letter by Johnson if he wanted to get his diploma and then a copy of the letter was sent to the U. of P. Universities, unite to save the world from Communism!

"Shut Up or Get Out."

TO get back to the polite conference with my professors. They thought that my interest in "outside activities" was unhealthy for the University and the morals of the students. The head of the department thought that it would interfere with my teaching. He thought that a teacher should be interested in nothing but detached research, should not allow the practical problems of today to interfere with his philosophy. I pointed out to them that I had in no way neglected my university duties. (In fact, I had been recommended for my work both as a student and a teacher.) But they thought it "incompatible that a teacher should take a public stand on an important issue and at the same time retain the critical state of mind necessary for research and teaching." A teacher must be intellectually secluded. I asked them if they meant that I should shut up or get out. They said yes. I told them that I would not shut up since I thought that what I had to say about the Soviet Union was valuable, especially in view of the public ignorance on that subject and the lies that are broadcasted in the capitalist press. They told me not to be hasty, to think it over. They gave me another week to decide altho I did not need it.

"Activities."

It, however, gave me a chance to write a letter to Professor Singer, head of the philosophy department, which summed up most of our conversation. In that letter I insisted on my right to express myself publicly and that whatever other activities I was interested in did not fall under the jurisdiction of the university. I pointed out that there are other men on our department who were very active in the religious, business and professional world and who "seem to arouse no doubt as to their capacity to attain that intellectual seclusion. . . ." That there were professors all over the country who were active in public matters. I also said:

"It seems to me that instructors in philosophy should be encouraged to interest themselves in social problems (even practical ones) for the sake of a more complete, vital and comprehensive instruction in a course like ethics, and a more interested and concerned attitude towards the problems of philosophy. Especially do the most vital issues of today such as imperialism, industrial conflict and general social disorganization call for an unflinching criticism of existing social institutions and for the training for a critical attitude in the young men who attend universities.

"As the matter stands I cannot help but feel that I am being dismissed because of my point of view and my opinions."

The following is the answer I received from Professor Singer:

"My dear Mr. Auerbach:

The sentiments of your letter of April 28 are such as from the first we had understood yours to be. We should have been glad had you come to share our view, that other studies might better serve your end, as other students ours. But on this we can insist no further. In the end we are responsible for the future of the department, and can do no better than follow our best judgment in the matter of personnel.

In not recommending your reappointment, do not believe us to have withdrawn our personal interest in your future. When you quite feel like it, I should be glad to talk over some aspects of that problem if it is one with you.

Very sincerely yours,
(Signed) Edgar A. Singer, Jr."

I was fired.

About a week later Lewis S. Gannett, of The Nation, came to Philadelphia to interview Professor Singer. Singer refused to answer questions and avoided all issues. He gave a written statement to Gannett saying that "Mr. Singer had informed Mr Gannett that any formal statement of the reasons for a decision must be made from the administrative office."

Some students had learned about it and tried to get Professor Singer's side of the matter. He told them to go to the administration. The administration told them to go to Professor Singer. They went to one of the local papers and gave them the story. A reporter came to interview me. For two days all the local papers carried the story on the front page.

On the second day Prof. Singer issued a statement saying that I had been dismissed because of my irregularity in meeting classes.

PERFUME FOR PACKING HOUSE WORKERS; BUT STINKING CONDITIONS ARE LEFT UNCHANGED

(By a Worker Correspondent)

KANSAS CITY, Mo. (By mail).—It is a known fact that packing house employes are forced to toil in most foul smelling places and that this stench remains on them after work, causing much vexation to people whom they may chance to go near. But at least this has been remedied at least in Kansas City.

No more will sensitive ladies turn away disgustedly when a tired packing-house slave sits down beside her in a street car. Nor will paunchy business men have their stomachs upset because of the obnoxious scent of packing house slaves going to and from work.

All this has been solved here. An energetic woman, awake to the opportunities to make money under this capitalist system, solved this problem for Kansas City. Each evening she sets up a stand near one of the large plants and sells strong-smelling perfumes. "Only ten cents a bottle, better grades (stronger-smelling) fifteen cents, two for a quarter," she yells. "Just try it," she says as she squirts a spray of the sweet-smelling water on the workers who pass.

Now if someone will only think of a way to kill the bad odor that permeates the air for a mile or two around the packing house district the Kansas City Chamber of Commerce can boast of the sweetest smelling packing house district and packing house workers in the world. This would do more toward placing Kansas City on the map than a dozen republican conventions.

—ROY STEPHENS.

Philadelphia Hosiery Strikers Are Militant, Factory Correspondent Writes

BUT OFFICIALS FAIL TO START MASS PICKETING

Refuse to Bring Out Scabs From Mills

(By a Worker Correspondent)

PHILADELPHIA, Pa. (By mail).—The rank and file of the workers is still militantly carrying on the hosiery strike in the Ajax and Emmet mills. The Federal mills are filled with scabs due to the lack of effort on the part of the hosiery workers' officials attempting to organize the scabs. Picketing goes on, but there are so few pickets that if one were not acquainted with the situation one could not realize that a strike was taking place. Some days there are a few pickets at the Ajax mill and other days there none at all.

Bosses Gleeful.

Very recently the boss declared to a worker that he was almost ready to open his plant in Phoenixville and did not expect union interference. The Ajax mill is so filled with scabs that the bosses' tools, the police are no longer necessary in front of the mill. Mass picketing would have prevented the mill from operating but the workers have not yet learned how to force those, who, by the workers' hard earned toil, were paid to lead them to carry the strike to a successful end.

Why weren't the scabs organized? Why was there no mass picketing at the Federal and Ajax mills? The injunction the court issued was against picketing in front of the mills and not against mass picketing and organizing the unorganized. Why were the splendid militant pickets at the Ajax mill at the beginning of the strike replaced by a small group of pickets who were less militant?

Yet even now the strike is not hopeless, but the union officials must co-operate with the workers and not with the bosses as they have done until now.

The boss does not want to see the scabs organized, to see mass picketing and to see the hosiery workers fight against the lowering of their standard of living. He doesn't like to see the workers strike against the breaking up of the union. The hosiery workers must take a definite stand against their "leaders" co-operating with the workers' enemy, the boss.

Gangster Politician.

At a recent conference of the hosiery mill owners, the Philadelphia district attorney, John Monaghan, gangster politician, was elected president of the Wm. Brown hosiery manufacturers. He will be very effective and ever ready to serve his class by issuing injunctions against the striking hosiery workers and by continuously prosecuting them. Will the leaders of the striking hosiery workers ask the rank-and-file to co-operate with this labor hater in the coming election?

If the workers stop and think they will remember the sort of co-operation they received from the police tools of the bosses, whom district attorney Monaghan represents, when they were on the picket line. They were arrested. An injunction against picketing was issued. That is the bosses' form of co-operating with the strikers. The workers should discuss these problems confronting them. Their slogan should be: "Organize the unorganized, mass and effective picketing, solidarity of the workers against the bosses, against capitalist ownership of the mills, against unemployment and for a co-operative society of workers and farmers.

At this moment a grievance committee is on the verge of calling a strike at one of the biggest mills in Philadelphia for having a better contract this year.

—W. C. P.

Philadelphia Will Hold Y. W. L. Excursion

PHILADELPHIA, Pa., June 26.—An excursion for the benefit of the Young Worker, central organ of the Young Workers (Communist) League of America, will take place Saturday, July 7. Boats will leave the Chestnut Street Pier at 10 a. m. and 2 p. m. Tickets are 50 cents; children, 25 cents. Tickets must be bought in advance from the Young Worker, 1214 Spring Garden St. Otherwise the proceeds will not go to the Young Worker.

CHANGE NARCOTIC SERVICE.

WASHINGTON, June 26.—A general reorganization of the federal narcotic service was announced today by Col. L. G. Nutt, head of the unit. Ralph Oyler, agent in charge at New York, was transferred to Kansas City and George Cunningham, in charge at Knoxville, was given the New York assignment. Eight other important shifts were made.

German Munitions Workers Fight for "Amnesty"

The picture shows the delegation of workers from the Krupp armament works, the largest manufacturers of war supplies and wars, in Europe, and one of the largest in the world. These men, and other workers' delegations recently petitioned the Reichstag for amnesty for class war prisoners.

SPEED-UP REIGNS AT DELAVAL COMPANY

(Continued from Page One)

tion the rate was increased from 1500 to 2500 pieces per day, but the pay went up to only 33 cents.

We work on the bonus system. Anyone who does not want to work on the bonus system is not hired. It means that they set a high rate, and then offer 25 per cent more pay for exceeding the rate. But the rates are constantly being increased. And the machines are always being improved to produce more and hire less men.

Many are fooled by the company and work hard to make the bonus. But they will learn that even with the bonus they cannot earn a decent living.

The yearly wage report of one man, I learned from him, was only $1100 including the bonus and very hard work.

Another man, now on the police force, quit because he could not average $5 per day. He was thought to be earning big wages.

Other workers buy stock in the company. They get a few dollars dividends and think they will soon be rich. But some of us are waking up. We have seen how the company lays off men over 45 years of age because they can no longer produce the work so quickly.

Only three months ago a 60 year old inspector making 65 cents per hour was laid off without notice. A twenty year old boy took his place for 48 cents per hour. The inspector had worked fifteen years for this company.

While health conditions are generally fair, two departments are very bad. In one, men work in a perpetual cloud of dust. A friend of mine got consumption and died from working in that dust. In another place the men have to breathe acid fumes all day.

When we are hired we are given a physical examination. Then we get one every six months. In this way they eliminate any worker to whom they may have to give compensation. My friend who died of consumption was one of those laid off without compensation.

Some of us are waking up, I repeat. We know that we need a union. Not a craft union, but an industrial union which will include every worker in the plant. And we also know that The DAILY WORKER and the Workers (Communist) Party, which publishes it, are our friends. We know that The DAILY WORKER will print the letters of workers who want to tell about the conditions in their shops, and will see to it that those who work in the shop read the letters.

We are going to write more of this place. De Laval workers must have a union. Read The DAILY WORKER for an understanding of what we must do to put an end to these rotten wages and conditions.

—A WORKER AT DE LAVAL.

THOUSANDS ARE UNEMPLOYED IN PHILADELPHIA

Bosses Fire Workers on Least Pretext

(By a Worker Correspondent)

PHILA., Pa. (By mail). — Unemployment increases weekly in this city. In addition to the worsening of conditions and increase of those unemployed, the number of workers on part time schedule, which in Philadelphia usually means two days a week, is also increasing at a rapid rate.

$12 Per Week.

And those who are fortunate (?) enough to retain their jobs find themselves faced with wage cut after wage cut. Recently some of the "philanthropic" owners of department stores, such as Gimbels, put into effect a large wage-cut among the sales girls, wages coming down in many cases from $18 to $12 per week.

Furthermore, the bosses in all factories seek all possible pretexts, no matter how slight, to discharge their employes, because orders for products are coming in slowly or not at all, and in many cases the bosses refuse to make any products for stock, manufacturing for orders only.

How bad conditions are for the workers can easily be discovered by going out to any residential district. Inquiries at the corner groceries will reveal that workers are purchasing in very small quantities, and only the barest necessities, such as a loaf of bread, often half a loaf if the grocer is willing to cut it, coffee, sugar, potatoes.

Signs of "Prosperity."

A walk thru any "business" street of the working class quarters of the city, and these so-called business streets traverse all working class residential areas, shows innumerable signs as follows: "Bankruptcy Sale," "To Be Sold by Sheriff," "Constable Sale," "Going Out of Business," etc.

Even in the central business section of Philadelphia, many stores have found it necessary to close down, so small have their receipts become due to economic depression.

Hard times have hit the petit-bourgeoisie hard thru the inability of workers to purchase merchandise on meager wages or no wages at all.

A great deal of talk is heard to the effect that since this is a presidential year there is therefore the depression. This is pure hokum by which no intelligent worker is fooled, for conditions in Philadelphia have been bad for over two years.

Others say, "ah, after the elections, then prosperity!" More of the usual bunk. Intelligent workers know what the matter is and are telling others. They propose in this presidential year to vote for Foster, thereby proving that they have gotten down to the root of the economic problems that beset every worker.

C. RABIN.—

RAISE FOR ELECTRICIANS.

BEVERLY, Mass., June 26.—Electrical workers here have won a wage increase of 10 cents an hour. The new scale is $1.25.

"The Ladder" to Discontinue Free Performances This Week

THIS is final week of free performances of "The Ladder" at the Cort Theatre. Beginning Wednesday, July 11, following a week's rehearsal of a new version of the Davis play, which deals with reincarnation, the production will go back to regular scale of box office prices.

For the final free performances, "The Ladder" tickets will be distributed at the Cort Theatre 8 o'clock evenings and 2 p. m. for matinees—first come, first served.

"The Ladder," is rather unique in Broadway theatrical history. Beginning at the Mansfield Theatre, October 21, 1926, the play has had a varied experience. It has played more than 650 times in various theatres. Since last November, Edgar B. Davis, sponsor, has given away all seats free for each performance. As he is a wealthy oil man, the million dollars he has spent in keeping the show going, probably means little to him. So here is the final opportunity to see the play gratis. Carroll McComas plays the leading feminine role.

LON CHANEY.

In the chief role of "Laugh, Clown, Laugh," filmed from the David Belasco stage success, showing at Loew's State Theatre this week.

A RUSSIAN ACTRESS TAKES TO THE SCREEN

Appearing with Ivan Moskvin, the supreme Russian artist of the Moskow Art players in "The Station Master," a Sovkino production now showing at Cameo Theatre, is Malinoyskaya, an actress well-known to the Russian stage but new to the screen. It is impressive to see this Russian artist, inexperienced in cinema technique, create a sincere illusion through her effortless art. When Malinoyskaya wishes to present an atmosphere of genuine youth, she does not, like our own Lillian Gish, depend upon American sentimentalism which usually becomes over-emphatic and thereby destroys the element of truth.

Malinoyskaya, directed by Ivan Moskvin, whose art has brought to the screen all the finest achievement of artistic naturalism, reached to his supervision with all the beauty of sincere feeling and honest emotion. Similarly to Moskvin, she illuminates her role in Pushkin's famous story "The Station Master" with the careful attention to detail and we feel at all times that her approach to her playing is subjective.

SEASON OF LIGHT OPERA BEGINS TONIGHT

The first of a series of light operas and dances sponsored by the Convivial Club of this city will be held this evening at the Cameo Palace, Surf and Stillwell Avenues, Coney Island. Emma R. Steiner, conductor of the American Opera Association is guest conductor of the forty minute musical piece, "The Man From Paris," which will be a special feature.

Augustus Post, Mary McGill and Marion Greene head the group of opera personalities who will appear in the leading roles. The organization also includes a large number of singers and dancers.

Railroad Brakeman Sues for Injuries

WHITE PLAINS, N. Y., June 26.—A jury was selected today for the trial of a $50,000 damage action by James Helms, 42, of Maybrook, N. Y., against the New York, New Haven, and Hartford Railroad. Trial was adjourned until tomorrow. Helms alleges that while employed as a brakeman for the railroad on June 27, 1927, he was thrown from a box-car roof and suffered permanent injuries to his spine which have made him unable to continue working. The car's brakes were faulty.

ATTACK SOUTHERN MOULDERS

BRIDGEPORT, Ala., (FP), June 26.—The open shop drive will exterminate moulders unions in the south unless labor elsewhere helps financially, according to J. C. Henson of Local 165, authorized to receive donations for the union at RFD 1, Box 111, Bridgeport, Ala.

URGES PLUMBERS TO VOTE AGAINST LOCAL 1 FAKERS

Must Watch Misleaders in Welfare Club

(By a Worker Correspondent)

The election for all officers of the Brooklyn Plumbers' Local No. 1 will take place at the end of this month.

There is great dissatisfaction with the present officers of the local. This is due to the great unemployment in the trade. The speed-up system and other evils in the trade are responsible for the dissatisfaction.

The officials of Local 1, who posed as "progressives," did nothing to improve these evils. The dissatisfaction of the rank-and-file of the local lead to the organization of the Welfare Club of Local 1. Many of the members of the Welfare Club are honest workers who really want to fight for real and honest trade unionism. Some of the members of the club are trying to use it for their own personal use. The plumbers of Local 1 should be on guard against the latter element. The club is very favorable to the plumbers' helpers.

The progressives of Local 1 have put up a full slate for the coming elections. Vote for the progressives and for real trade unionism.

The present officials of Local 1 have betrayed us long enough. It is time they were given the gate. You can do it by casting a vote against them on June 30.

—GATTI.

NEW-TRUST STIRS GERMANY

BERLIN, June 26.—A considerable flurry has been caused in German steel circles by a report from New York that leading American steel interests have formed a trust, known as the Steel Export Association of America, for the purpose of lowering quotations in European markets. The Frankfurter Zeitung looks upon the move as an effort to capture the world's steel market.

2,500 TAXI MEN FIRED IN DRIVE OF BIG FLEETERS

Bosses Maintain Secret Blacklist

One thousand more taxi drivers were yesterday fired in what has been learned is a drive by the Greater City Taxi Owners' Association, a recently formed bosses' organization, to force out thousands of workers from the industry and to control the trade. This brings the total of drivers who have lost their jobs since Saturday to 2,500. In every instance discharges are without warning, the only reason given being failure on the part of drivers to bring in the required minimum of "bookings."

Maintain Blacklist

At the same time information was secured from reliable sources that the officials of the Greater City Taxi Owners are maintaining a well organized and systematic blacklist which is compiled in cooperation with insurance companies who are working together with the taxi bosses to secure control of the industry.

Equally reliable information has been secured that a further move is planned to reduce the present 40 per cent commission for which the cabmen operate to 35 per cent, as an additional means of forcing out thousands of drivers. Under the present rate of 40 per cent commission, the drivers are forced to cruise twelve, fifteen and seventeen hours per day in order to make the minimum $10 "bookings" from which their earnings of $4 per day is insufficient to give them a living wage.

55,000 Taxi Drivers

There are 55,000 taxi drivers in the industry all of whom work under these unbearable conditions for open shop bosses subject to immediate discharge for any real or imagined reason and subject also to the most brutal discrimination from the police.

The Yellow Taxi Corporation, the largest single operating company in the industry, which is said to have 3,500 men in its employ, is the chief power in the Greater City Taxi Owners' Association and has likewise been one of the prime movers in the program of discharges which is being carried out. The aim is said to be an attempt to secure complete domination of the industry through forcing out twenty thousand men, a temporary reduction in rates and finally an increase in the percentage when the men have been eliminated.

The Yellow Taxi Corporation is controlled by the Morgan interests and some of its officers are known to be closely connected with the Tammany Hall administration. This reason is given by many drivers to account for the simultaneous drive which is going on by the police to forfeit drivers' licenses. The drivers are under complete police control.

Jack Dalton, president of the Taxi Owners' Association is also the vice-president and general manager of the Jefferson Auto Mutual Casualty Corporation, an employers' insurance guarantees to its members. This protective organization which furnishes insurance guarantees to its members. This company, it was learned, is closely connected with some o the large insurance underwriters and with their aid as well as with the cooperation of its own members has built up an extensive blacklist system which operates against the so-called "careless" drivers, a name given to those whom the bosses for one reason or another wish to eliminate.

Secret Blacklist

According to reliable information, Dalton recently sent out a secret communication to his members advising them that he has a "preferred chauffeurs list" which is available for any fleet owner.

Another large taxi firm or "fleeter" as they are called which is said to be cooperating in these moves and which is said to have discharged a number of men recently, is Maloney and Nichols, frequently referred to by drivers as "the biggest hounds in the business," because of its fearful speed up and driving of the workers. Another firm is the Moose Taxi Corporation of 45th St. and 11th Ave. A large number of Brooklyn firms are also said to be carrying on the campaign.

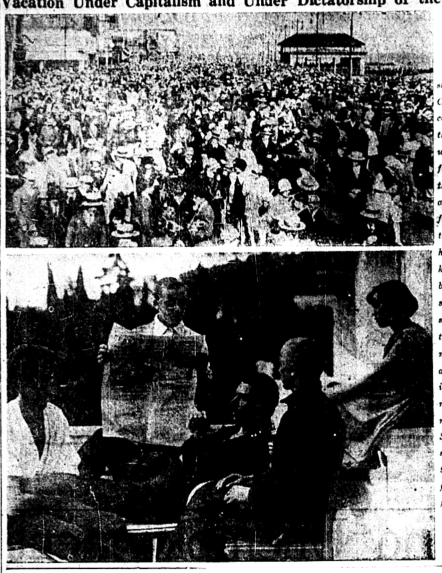
NANKING SEEKING U. S. RECOGNITION

WASHINGTON, June 25.—Representatives of the Nanking government in the United States are negotiating with the state department for the recognition of their government, it has been learned from authoritative sources.

The hostile attitude which the Nanking government has maintained toward the Soviet Union and the wholesale execution of Chinese workers and peasants indicate that the Nanking regime has definitely embarked on an internal and foreign policy which meets with the complete approval of the state department.

The Nanking government is represented by Dr. C. C. Wu, one of the most conservative members of the re- [illegible]

Vacation Under Capitalism and Under Dictatorship of the Proletariat



The upper photo shows a scene at Coney Island typical of hundreds of the United States, where workers are forced to snatch their vacations (if any) in hectic fashion and submit to being fleeced by hotels and shopkeepers. The photo below shows in striking contrast a summer resort in the Crimea, formerly the palace of an aristocrat. This is only one of the many resorts and rest homes where Soviet workers spen pleasant vacations of from two to four weeks with full pay.

SYRACUSEWORKER DIES IN ACCIDENT

Terrinoni Was Active in Workers Party

SYRACUSE, N. Y., June 26.—Manual Terrinoni, member of the Workers (Communist) Party of this city and active for a long time in the labor movement both in the United States and Italy, died at his home yesterday at 515 Burnet Ave., from injuries received in an automobile accident.

Terrinoni was a member of the socialist party in Italy in 1918. He left that organization after its betrayal of the working class cause, and, coming to the United States, joined the Workers (Communist) Party of America.

Terrinoni helped to organize the Anti-Fascist League in Syracuse. He fought consistently up to the time of his death against all attempts to plant fascism in America, and as a member of the Workers (Communist) Party, against capitalist oppression in general.

The comrades here mourn his death and extend to his family their most heartfelt sympathy for the comrade who died in the ranks.

FUR UNION MASS MEET TOMORROW

July Raises and "Bloc" To Be Discussed

Thousands of leaflets were distributed among the workers in the fur trade yesterday announcing the calling of a mass membership meeting by the Joint Board of the Furriers' Union, for tomorrow evening, immediately after work, in Webster Hall, 11th St. and Third Ave.

Ben Gold to Report.

All workers, whether registered or unregistered are called to participate in the membership meeting. Ben Gold, manager of the Joint Board, will deliver a report on the general situation after which there will be a general discussion by the members from the floor.

The appeal which calls the attention of the workers to the problem of "July raises" says that they are the latest development of the organized opposition in the right wing union will be the subjects talked about by Gold and the membership at the meeting.

Due to the campaign of destruction carried on by the socialist agents of the American Federation of Labor officialdom, the July raises were sold out to the bosses last year, the leaflet states. It then calls for action to secure a July raise his season for every furrier in the industry. The wage raise in July is a custom developed by the Joint Board when it was powerful under the left wing leadership.

EDMONTON UNIONS GET RAISE.

EDMONTON, Alta., June 26.—Edmonton teamsters have won a 50 cents a day wage increase after a two weeks' strike. Time and a half will be paid after 6 p. m. on Sundays and holidays and after 1 p. m. on Saturdays.

Workers' Calendar

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

• • •

Martins Ferry Picnic.

MARTINS FERRY, Ohio.—The Young Workers Club of Martins Ferry, Ohio, has arranged a picnic and dance to be held at the Volt's Farm here on July 8, from 10 a. m. thruout the day and night. All those wishing to attend should meet at the Hungarian Hall, Main and Central Sts. There will be refreshments, games, speakers, etc. Transportation to Volt's Farm is free.

• • •

Philadelphia Y. W. L. Excursion.

PHILADELPHIA, Pa.—An excursion for the benefit of the Young Worker, central organ of the Young Workers (Communist) League of America, will take place Saturday, July 7. Boats will leave the Chestnut St. pier at 10 a. m. and 2 p. m. Tickets are 50 cents, children, 25 cents. Tickets must be bought in advance from the Young Worker, at 1214 Spring Garden St. Otherwise the proceeds will not go to the Young Worker.

• • •

Milwaukee Party Picnic.

MILWAUKEE, Wis. — The second summer picnic of the Milwaukee Workers (Communist) Party and Freiheit Workers' Club will take place July 8, at the Pleasant Valley Park, Woodlawn Ave., West Allis, Wisconsin

• • •

San Francisco Picnic.

SAN FRANCISCO, Cal.—The branches of the International Labor Defense of San Francisco, Alameda, and Contra Costa counties will hold a picnic at East Shore Park, near Richmond, on July 4.

• • •

Paperhangers of Boston.

BOSTON.—The Paperhangers' Union, local 258, will inaugurate a campaign for new members to extend over a period of 3 months, June, July and August. The initiation fee has been reduced from $100 to $25. The local calls upon all organized paperhangers of the city and vicinity to join the union and help to organize the non-union workers. The local union meets at the district council headquarters, corner Washington and Dover Sts., Boston.

• • •

Pittsburgh District Picnic.

PITTSBURGH, Pa.—The third annual picnic of the Workers (Communist) Party, District 5 has been postponed from July 4 to July 8. It will be held at Nicholson Farm, Swissvale, Pa.

• • •

Philadelphia Miner's Relief.

PHILADELPHIA, Pa. — Philadelphia Miners' Relief Conference here has arranged a picnic for July 29 at Maple Grove Park.

• • •

St. Louis Picnic.

ST. LOUIS. — The Young Workers (Communist) League will give a picnic and dance at Triangle Park, 4100 South Broadway, on July 4. Dancing, refreshment, games and athletic concerts have been planned.

• • •

Highland Park, Ill.

The Workers Party of Highland Park, Ill., will hold a picnic for Miners' Relief on Sunday, July 8, at Zahnle Grove. Refreshments, games, dancing will feature.

Seven Are Killed in Mexican Train Crash

MEXICO CITY, June 25.—The American engineer on the National Railways line train and six passengers were killed, and thirty passengers injured when the train was dynamited between Bernal and Quereyaro Sunday, according to reports received here today. The bombing of the train was attributed to rebels.

The American, Andrew Robinson, had lived in Mexico 35 years and was the only American locomotive engineer in the National Railway's service.

ELECTROCUTED IN PLANT

SHARON, Pa., June 25. — While making a test of an auto transformer late yesterday at Westinghouse Electric and Manufacturing Co. plant here, Homer L. Bailey, 23, was electrocuted when he came in contact with 440 volts of electricity.

YOUTH TRAINING SCHOOL TO OPEN

Celebration Planned for July 2 at Holmes Park

WESTMINSTER, Mass., June 26.—Final arrangements have been made to open the New England Young Workers Summer Training School on July 2. The school will be located in this city, near Gardener, Mass. Sixty students have enrolled to receive a working class training course this year. They come from the most important industrial centers of New England and New York.

Students were admitted from Allston, Boston, Fitchburg, Gardener, Maynard, New Bedford, Norwood, Roxbury, Lanesville, Lowell, Peabody, Quincy, Weymouth and Worcester, Massachusetts. There were also several enrollments from Concord, Enfield, Newport, Troy and Wilton, New Hampshire; from Providence and Foster, Rhode Island; from Longcove, Maine; from several cities in Vermont and New York.

The school curriculum includes a study of the conditions of the workers and working youth of the United States; the problems and tasks of the youth movement; public speaking; and current event discussions. There will also be both physical and intellectual recreation such as participation in different sports, and library hours.

A mass meeting to celebrate the opening of the 1928-29 season will be held in Holmes Park on July 2 at 8 p. m. All have been invited to attend.

MORGAN SUES FOR A LOST FORTUNE

But What Is $32,000,000 Between Bankers

Injunction proceedings to restrain the competition of the $250,000,000 Dodge Bros.-Chrysler Corporation were successful yesterday on the part of the Morgan interests who three years ago were beaten by Dillon, Read and Company in the bidding for the Dodge Bros. Company then on the market. The injunction was granted late yesterday by Supreme Court Justice Lydon pending a hearing before Supreme Court Justice Mullan this morning.

Shareholders under direction of the J. P. Morgan banking interests claim that the proposed exchange of stock between the merging companies will deprive them of their property.

Charges are made that the Dillon, Read financiers made $32,000,000 on the deal. Smarting under this loss of what the Morgan banks thought would be their own revenue, the biggest banking house in the world has resorted to litigation which has extended over three years.

GAMBLERS ARRAIGNED

Three men who were indicted last week for operating a baseball pool in Albany were arraigned yesterday before Federal Judge Coleman. They were continued in $1,000 bail, with trial set for July. The men are J. J. Kelley, Matthew F. Dugan and Sam Cohen, all of Albany.

ZARITSKY MAKES PIECE WORK MOVE FOR N. Y. UNION

Left Wing in Call to Save Organization

Step by step the president of the International Cloth Hat Cap and Millinery Workers Union, moves toward forcing on the entire membership of the union the degradation known as piece-work, despite the overwhelming opposition of the workers. Following close upon the heels of his action in calling off the Chicago strike against piece-work, despite the overwhelming the trade journal of the employers in which he again openly declares himself as favoring this method of work to that of week-work.

In a long statement issued by the left wing in the capmakers union, and distributed in circular form to the workers in the market, the capmakers are warned of an impending attack of the New York employers who with the aid of Zaritsky's helping hand will come out with the demand for the 44-hour week and the sweatshop system of piece-work.

With the headline "Zaritsky Is Wrecking Our Union," the leaflet calls the attention of the workers to the systematic series of betrayals engineered by the right wing officialdom of the union. It is pointed out that Zaritsky in launching his policy of wholesale surrender to the bosses, violated the decisions of the International union convention which called for a fight against piece-work, the enforcement of the 40-hour week and ending of all factionalism in the organization.

In order to more efficiently foist upon the members the slavery methods of piece-work and longer hours, Zaritsky several months ago began an organized campaign to oust from union leadership and membership all those progressive enough to oppose his traitorous policy, it is explained. The Milliners Local 43 with a membership of 4,000 was dissolved; the leaders of the Chicago anti-piece-work strike were removed from all positions of leadership, the strike was called off, a dual union is being built to destroy the militant Boston organization and now an attempt is being made to dissolve the powerful Blockers Local 42. The leaflet concludes by calling the members of the union to rally behind a drive which will forestall the coming attack of the New York bosses, by organizing a movement to drive from power the reactionary clique now in control.

NO END SEEN TO TAMMANY GRAFT

Seven More Payroll Padders Suspended

Seven more suspensions yesterday brought the total to 48 in the assortment of padded payroll operators, ash contract manipulators and other grafters in the $200,000,000 Tammany street cleaning scandal.

At the same time it became known that additional "higher-ups" in the graft scandal had been uncovered although Commissioner James A. Higgins before whom the hearings are taking place again refused to make the names public. Higgins is believed to be planning a continuation of his four weeks whitewashing "probe" in which his outstanding aim is to shield his Tammany fellow.

Higgins adopted his usual procedure by declaring that the evidence discovered will be turned over to the district attorney, Charles J. Dodd of Kings County some time during the present week.

One of those suspended yesterday was Richard Walsh, foreman of Stable D. The other six were connected with graft in snow removal payrolls last winter, it was said.

Driver Pinned By Truck As Brakes Fail to Hold

PITTSBURGH, Pa., June 25.—The condition of Charles Clowes, 60, employed at the Tarentum Reduction plant, who was pinned beneath a truck there, was reported to be critical today. The accident occurred yesterday when the brakes of the truck, driven by Clowes down a steep grade in Western St., Tarentum, failed to hold.

The truck overturned when Clowes swerved to avoid a building at 6th St. The injured man charges that he had asked to have new brakes placed on the truck for the last three months, but that he had been continually put off by the owners of the plant.

"Efficiency Experts" Drive Paper Workers

FITCHBURG, Mass., June 26.—Workers in the plant of the Fitchburg Paper Co. are being made to feel the pressure of the speed-up system. The bosses at the paper mill recently installed a crew of so-called efficiency experts, who began to drive the workers at an inhumane rate. Sunday work was instituted. Workers in the plant are thoroly aroused and may soon take action.

Policeman, Jilted as Too Old, Kills Girl

Patrolman Alexander Hall, 49, of 447 West 44th St., yesterday shot and killed Hilda Fenn, 24, of the same address, because she had broken her marriage engagement with him, saying that he was too old for her.

Hall followed Miss Fenn last night while she was walking with her sister, and pursued the girl on a porch and fired three bullets into her back. He had punched the muzzle of his weapon so roughly against the girl's shoulders that she fell forward on her face. Then he whistled for a taxicab and as he was being driven away pumped one more slug from his service pistol into his own head. The cab driver, James Fleming, kept on to Roosevelt Hospital, where the policeman died.

MINERS' RELIEF DRIVE CONTINUES

To Hold Mass Collection This Week End

Concerts for miners' relief, house to house collections, distribution of special literature, shop collections all week, various relief stations set up by sympathetic workers' organizations in every section of the city, this are the program for the final windup of National Miners' Relief Week to be followed by the Mass Collection Days of Saturday and Sunday.

Hard Month Ahead.

A mistaken belief is current that in the summer the suffering of the miners and their families is not so acute. However, weather which for New York workers is a signal for outings and picnics means that whatever little food is on hand in the barracks and tents of the mine camps, cannot be kept at all due to lack of ice; the food decays rapidly and the added danger of ptomaine poisoning is ever present. The danger of disease is also heightened by poor sewage disposal. Infants suffer with prickly heat. No powders or lotions are to be had.

Appeal For Aid.

The National Miners' Relief Committee, under whose auspices the drive is being conducted, calls on all workers to volunteer their services during the Mass Collection Days. A complete list of stations may be obtained at 799 Broadway, Room 236, and any required information may be obtained by telephoning the committee at Stuyvesant 8881.

Boston Stage Workers Demand an Increase

BOSTON, Mass., June 26.—Boston theatrical stage workers, members of the Stage Employes' Union 11, have demanded an increase in wages and betterment of working conditions. An agreement with the bosses ends Sept. 1.

TO HOLD PARTY ELECTION RALLY AT CHICAGO FAIR

To Show Pictures of Foster in Strike

CHICAGO, June 26.—An affair with the Workers (Communist) Party election drive will be given here next Saturday, June 30, at 8 p. m. at the Workers Hall, 2021 W. Division St., near Robey St.

An interesting program by the Workers Mandolin Orchestra, the Pioneers, and the Russian Singing Society is promised. The Russian dancers of Pullman will also participate. Pictures of the candidate for president, William Z. Foster, in action in the steel strike will be shown, together with pictures of the coal strike.

UTILITIES TRY TO DODGE BLAME

WASHINGTON, June 2[illegible].—A move by power trust propagandists to "get out from under" in their four-year campaign of censoring and rewriting the school text books of the land was disclosed in documents in the Federal Trade Commission files today.

A letter from J. B. Sheridan of St. Louis, who directed "surveys" of textbooks throughout the country, attempted to show that the utility propagandists were doing the same work that the National Association of Railway and Utility Commissioners sought to do.

The copy taken by commission investigators from Sheridan's files, however, was addressed to Bernard J. Mullaney, director of the Illinois propaganda committee and right-hand man to Samuel Insull, millionaire Chicago controller of the traction system of the city. It bore a note stating that copies had been sent to the 26 other propaganda committees and to Carl D. Jackson, chairman of the National Electric Light Association's committee on "cooperation with educational institutions." It also disclosed the huge network extending all over the country to propagandize the schools in its favor.

HOLD TEACHERS' PAY.

CUDAHY, Wis.—Thirty teachers in Cudahy had their pay checks held back last week by action of the president of the school board, who charged that the teachers were sympathetic to a school superintendent dismissed last November.

☭ ☒ WORKERS (COMMUNIST) PARTY

For the Party of the Class Struggle!
For the Workers! Against the Capitalists!

Defeat the Hangmen!

As an example of cold-blooded attempts at political murder, the efforts of the British foreign office, the fascist government of Italy and the Horthy government of Hungary to put the hangman's noose around the neck of Bela Kun is unsurpassed.

Embarrassed by the world-wide agitation of the workers against the foul scheme to extradict Comrade Kun to Hungary, where certain death at the hands of the Horthy dictatorship awaits him, the reactionary authorities of Austria have made several attempts to soften the agitation by declaring that nothing was involved but a probable short jail sentence for alleged "passport irregularities." Of course such pretenses are only diplomatic lies. Not a mere few days in the hands of the Vienna police, but swift and certain death awaits the leader of the Hungarian Communist Party if the Vienna authorities succeed in quieting the international protest of the working class.

A glance behind the scenes will convince any intelligent worker that even much more than the life of Comrade Bela Kun is at stake. British imperialism which murders workers and colonial slaves as a matter of daily routine, is mixing into this affair for something more than a bloodthirsty desire to bring death to an individual. Great Britain, Italy and Hungary demand the blood of the leader of the Communist Party of Hungary because these three imperialist governments regard such a blow against the Communist Party of Hungary as a valuable step in a far-reaching plan for war.

As Comrade Kun is reported to have declared before the capitalist judges at his arraignment yesterday, the war plans of Great Britain are behind the creation of a bloc of fascist nations for a war for the destruction of the Union of Socialist Soviet Republics.

The plans for the imperialist war have advanced far. Horthy and Mussolini are the international gunmen of the British foreign office hired for the immediate assault. The presence of a leader of the revolutionary Hungarian workers in the vicinity of the Hungarian border requires no further explanation than this. For it is the duty of all workers, and especially the duty of the Communist leadership of the advance guard of our clcass, to make titanic efforts to mobilize the working class to defeat the plans of the imperialists and to defend at any sacrifice the Fatherland of the working class of the world—the Union of Socialist Soviet Republics.

The appeal of the Communist Party of Hungary, which appears in the news-columns of The DAILY WORKER today, should be heeded by every worker and every workers' organization.

Workers! Protest against the impending crime of murder of our comrade, Bela Kun!

Defeat the hangmen of imperialism!

Defend the Soviet Union against all enemies!

Jobs Is Jobs

"... those criminal conspiracies which, masquerading as political organizations, gain and keep power by the protection of criminal classes and exist by tribute exacted from the underworld, from public officers and from plundering the public with the aid of the ones they have placed in office."

Surely these words can be nothing else than a description of—Tammany Hall! Jim Reed used them just at the last moment before Wall Street's steamroller, with Al Smith at the wheel, flattened out everything for the opening of the democratic national convention.

But this is probably the last we shall hear from Reed against Smith.

The fact that Smith was spawned in Tammany Hall, an institution based upon the organizing of police-graft, contract-swindling, prostitution, drug-peddling and bootlegging, could be a terrible weapon if the financial powers behind the politicians and the capitalist press—even the republicans—were not interested in "respectable-izing" the demagogic head of the democratic party who will eat out of their hands.

But they are so interested.

Smith, spawned in the filth of Tammany Hall, will be nominated as a "reformer," because Wall Street wants him nominated, and Reed will support Smith, Tammany and all, for the same reason.

Then there will be a "unity" of the little democratic politicians of the West with the democratic servants of the big bankers of the East.

For "pigs is pigs" when the trough of political spoils comes within sight of capitalist politicians.

And jobs is jobs. Reed will be good—and get paid for it.

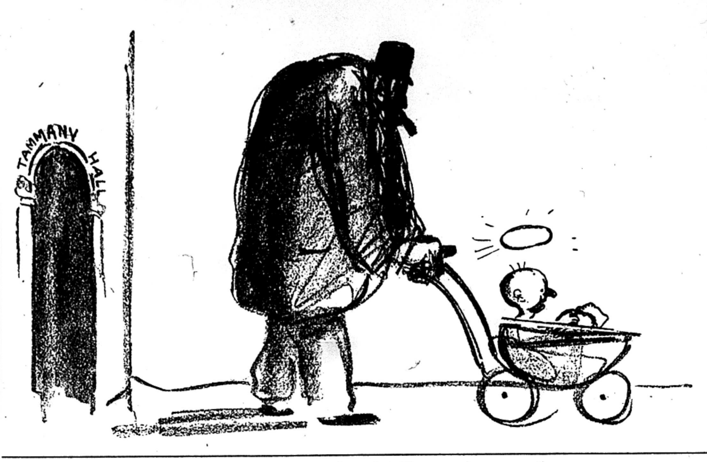
The interest of the workers is to utilize this election campaign to strengthen their own class party—the Workers (Communist) Party.

Vote Communist.

Join the Workers (Communist) Party.

THE HOLY CHILD

By Fred Ellis



A. F. of L. and Unemployment

By MARTIN ABERN

A review of reports given by organizers and leading union figures of various local unions in the May issue of the American Federationist, official organ of the American Federation of Labor, graphically indicates that the problem of unemployment is one which is affecting every stratum of the labor movement. These reports, however, further illustrate that the official labor bureaucracy has no concrete program to meet the menace of unemployment. They are given briefly by labor men from various cities and states throughout the country, and show that the problems which in one way or another are being discussed among the workers, organized and unorganized, are:

(1) Unemployment, (2) The Injunction Menace in the Labor Movement, (3) Unionization and the Counter-Menace, Company Unionism, (4) Lack of Labor Education in Trade Unions, (5) The Problem of the Replacement of Men by Women Workers, (6) A Slight Discussion on the Necessity of the 5-Day Week.

A Graphic Picture

To give a general picture of the views and reports of the labor situation throughout the country, as seen by these A. F. of L. men, the following will suffice. I have abbreviated the reports and placed them in quotas as substantially their reports:

"Lowell, Ariz.: Unemployment not serious problem. Safety first rules in shops enforced."

"Hot Springs, Ark.: Work rather slow in all trades at present."

"Venice, Calif.: Unemployment in all trades except printers. No public works undertaken to relieve situation because powers will not admit that it is serious. No changes in union scale of wages, but many cuts among the unorganized."

"Windsor, Canada: Nearly all trades have large numbers out of work. Toronto relieving unemployment through public work. Iron workers, carpenters, laborers, add to membership."

"Denver, Colo.: Considerable unemployment in Colorado among coal miners, building tradesmen, common laborers. Central bodies and local unions bombarding the senators and congressmen with resolutions favoring Shipstead-LaGuardia Anti-Injunction legislation. The Axton-Fisher Tobacco Company conducting splendid campaign in daily press for principles of American Federation of Labor. (!) Education Committee of Colorado Federation working out plans for a workers' summer school."

Factory Work Slack

"Elkhart, Ind.: Unemployment in general factory work. Union men talk against injunction and its misuse. New unions of teamsters and common laborers organized."

"Michigan City, Ind.: Unemployment in all trades."

"Muncie, Ind.: Union members instructed to include abuse of injunction in their addresses."

"Des Moines, Iowa: Unemployment in all trades. Non-union workers are hardest hit, especially those depending upon seasonal occupations. Asking city government to start public work for unemployment relief. Various companies developing company associations of various types or demanding workers sign yellow-dog contract."

"Waterloo, Iowa: Work dull among all building craftsmen, common laborers. John Deere Tractor Co. demands workers sign yellow-dog agreement. Hod carriers organized."

Railroad Company Unions

"Paducah, Ky.: Common laborers, carpenters, brick masons, cement workers, retail clerks out of work. West Kentucky Coal Co. and Illinois Central R.R. have company unions."

"Baton Rouge, La.: Only half of tradesmen working. Standard Oil men on half time. Injunction discussed."

"Portland, Me.: Unemployment all trades, especially building trades. Mass meetings discussing injunction issue throughout state. Textile and typographical unions have added to membership."

"Framingham, Mass.: Unemployment serious problem."

"Marlboro, Mass.: Unemployment in all trades. Petitions ask for injunction relief."

Building Trades Hit

"Ann Arbor, Mich.: Unemployment in all building trades."

"Lewistown, Mont.: Unemployment serious. All C. M. and St. P. Railroad shops closed. Arro Refinery closed indefinitely."

"Plattsburgh, N. Y.: Unemployment all building trades."

"Rochester, N. Y.: Unemployment among building trades, metal polishers, buffers. Taxi drivers local union disbanded."

"Durham, N. C.: Unemployment serious problem among seamless hosiery, cotton textile workers, carpenters. Greensboro and Durham C. L. U.s discussing injunctions."

"Minot, N. Dak.: Painters secured wage increase."

"Muskogee, Okla.: Slight increase in union membership."

"Tulsa, Okla.: Unemployment among carpenters and laborers."

"Elyria, Ohio: Much unemployment, women are replacing men at lower salaries."

The Injunction Menace

"Steubenville, Ohio: Unemployment all lines of work. Anti-injunction activity."

"Toledo, Ohio: Many unemployed in nearly all trades."

"Youngstown, Ohio: Much unemployment in steel industry. Subject of injunction before public at all times."

"Eastside, Ore.: Unemployment serious among building trades. Working conditions never so poor for 20 years."

"Canonsburg, Pa.: Miners striking. Injunction misuse discussed."

"Carbondale, Pa.: Unemployment in all trades. Men working at D. & H. shops must belong to company union."

"Pottsville, Pa.: Unions discussing 5-day week."

"San Juan, Porto Rico: Unemployment serious problem in all trades. Many sugar plants closed. Government employing convict laborers, aggravating unemployment crisis in island. Seven strikes since January to March."

"Friend" of Labor

"Memphis, Tenn.: Trades and Labor Council issuing synopsis regularly of labor situation. Stressing "friendship" between union labor and business. Big business man donates $1,000 for labor temple."

"Galveston, Tex.: Seamen, longshoremen, common laborers out of work."

"Marshall, Tex.: Local unions and central body campaigning against injunction."

"Orange, Tex.: Unemployment among longshoremen, carpenters, ship carpenters, caulkers, hod carriers and common laborers."

"Port Arthur, Tex.: Unemployment in all trades especially among oil field workers. 2,500 laid off last 3 weeks. Discussing evils of injunction."

"Ogden, Utah: Men out of work in all branches of industry."

"Alexandria, Va.: Unemployment all trades. Central body open meeting discussed injunctions."

"Burlington, Wash.: Unemployment in building trades."

"Milwaukee, Wis.: Auto mechanics being organized into special local union affiliated with I. A. of M. Organizer reports generally good attendance at union meetings."

In "Liberal" Wisconsin

"Wisconsin Rapids, Wis.: C. L. U. discussing injunction evil. Plant conditions ideal." (!)

"Morgantown, W. Va.: Unemployment serious. Miners, glass workers, common laborers, carpenters, barbers out of work. Special committee taking up injunction issue."

"Cheyenne, Wyo.: Local union of city fire fighters organized."

The above reports undoubtedly indicate a situation in the organized labor movement which is not isolated, but general. The reports from these various active union members and local organizers show that the A. F. of L., neither nationally or local, has any concrete, developed program to meet the needs of the labor movement on the unemployment situation. There is no advocacy of a definite program for equalization of work, a shorter work-day, increase of wages, demands upon the government, local, state and national, for unemployment wages at the expense of the government and employers

Reactionaries Without Program

Here and there we find a feeble request for public work, and even then no organized means are proposed to effect such action. There is no program indicated or even remotely suggested for the organization of the unorganized, though here and there it is hinted that unemployment and wage cuts are hitting the unorganized workers first, and finally the organized groups. Such organization as takes place is only among isolated unions, and then only in skilled or petty trades.

The reports show that the inroads of company unionism, yellow-dog contracts, etc., are heavy and sapping the vitality of the remaining trade unions. But no program for fighting the company unions inside the company unions and by a drive to organize bona fide trade unions is proposed. See concrete programs as, for example, those which are proposed by the Trade Union Educational League, and which are realizable through organized action and education are not thought of, of course.

Worried Over Injunctions

The injunction issue quite clearly is worrying every local union, and yet the only remedy suggested is to appeal to congressmen and senators to soften the injunction bill and to pass the mild Shipstead anti-injunction bill. Mass violation of the injunction through mass picketing, etc., when strikes occur, which even the fossilized Samuel Gompers stood for, if only in principal, are not offered.

Here and there it is indicated that women are replacing men at lower wages, but there is no program offered to organize the women into the trade unions along with the men and to fight for equal wages for equal work, etc.

Of labor education there is little or none, but collaboration with the employers at banquets, where the common interests of labor and capitalists are stressed, is gleefully reported.

In these reports it can be seen that the American Federation of Labor as the base for protecting the interests of the workers, for organizing vast masses of unorgaized workers in the basic industries, have almost completely disappeared.

They show that while the menace of unemployment and injunctions are being keenly realized in the ranks of the labor movement, the A. F. of L. bureaucracy is either baffled, or entirely incompetent and unwilling to do anything concretely to meet these dangers.

The American Federation of Labor now represents only the interests of a very small section of the skilled workers. The basic tasks of organizing the unorganized, where the stress of activity, of militancy, must now be laid, falls on the left wing, the Trade Union Educational League, and the vanguard of the working masses, the Communists.

HANdOuTS

Increase in the charming practice of exchanging gifts is noted among policemen. Patrolman Harry Kay, of the New Dorp, S. I., precinct, received a battery, a loud speaker and a wash basin and a faucet from ex-Patrolman Stephen J. Keiper. John Sjoholn of the same precinct received a home made radio set from the same man. It is now charged that the goods were stolen.

• • •

A cheering message to the exploited workers of the world is the following which appeared on the feature page of Victor Berger's socialist Milwaukee Leader:

"Today the styles and the vogue demand good health, excellent health, and as a consequence those same fashionable watering places are quite as much frequented, but now by a serious group of men and women who obey bathing and dietary laws in their efforts to rid themselves of rheumatism, arthritis and a general run-down condition."

• • •

Capacity of Bill Green to take his mind off the terrific struggle he is waging for the exploited bosses of America, for lighter things, is demonstrated by his printing the following poem in his American Federationist:

"LILACS

Sir Spring
Armored in green,
His purple lance upthrust,
For Beauty's sake, tilts gallantly
With winds.

LILIAN WHITE SPENCER."

• • •

Bill Kenney has made a fortune as a contractor from Tammany Hall contracts but why he should be given the honorary degree of Doctor of Laws by Niagara University for it is not clear. This is what has just happened. Al Smith, who helped get the contracts for his friend Bill and who, in return, has received thousands of dollars for his presidential campaign expenses, attended the ceremonies. Among other scholars present was Johnny Raskob, chairman of the finance committee of the labor-hating General Motors.

• • •

Who are the real friends in America of the labor destroying fascist government of Italy can be seen from the words of Prince Ludovico Spada Varalli Potenziani, Governor of Rome, who has just returned to Italy following his visit to America. He says:

"President Coolidge showed me and my staff a cordiality which astonished even the White House servants, ...who are best acquainted with his (usual) reserve and scantiness of words and gestures.

"Like everybody else in the U. S. the president wanted to hear more of Mussolini....

"Mayor Walker of New York is a real old friiend."

Donetz Conspirators Worked for Czarists' Return

(Continued From Previous Issue.)

Meanwhile, the progress of the trial during the past week has brought out more clearly the motive that prompted these experts in their work of destruction.

In the evidence brought out mainly in the cross examination of the accused themselves, two lines of conduct was observed. One destructive and the other constructive, but both having the same object, viz., to damage the economic foundation of the Soviet State and to prepare for the return of the capitalist owners.

How can constructive work be damaging? You will ask. Herein, to a large extent lies the reason why the conspiracy could go on for so long without being discovered. But that is not all. The "constructive" work was carried on in such a way that no benefits accrued to Soviet industry. Stocks of new equipment were laid in, a certain amount of preliminary development work was carried on, but this was intended to enhance the value of the property of the former owners at the expense of the Soviet Government.

The accused Samoilov put it very cleverly. He said:

"We were the skilled jockeys riding to the winning post on other people's horses."

In Pay of Czarists.

The skilled jockeys were these specialists in the pay of the former owners and the mounts are a figurative expression for Soviet socialist industry; the winning post was the Donetz-Grushev Mining Company that formerly owned the mines of that name.

Samoilov was a mine manager in the Donetz-Grushev group and in his evidence he stated that he was astonished by the large amount of new machinery that was being accumulated in the district where he worked and not being used. He commented on this to Kolganov, the chief engineer, and the latter said: "Let it lay, it will come in handy."

Gorletsky, another of the accused also said to Samoilov: "Lay in as many machines as you can. They will come in handy under other conditions. We will not be able to get as many again."

What other conditions? Samoilov makes that clear.

Samoilov is a tall, fair, dry looking individual, peering through thin steel rimmed spectacles, and like most of the other accused has dressed conspicuously like a workman in a worn leather coat, cheap trousers and big miners' boots strapped at the knee. Now peering at the judge, but mostly looking shamefacedly down at the floor, he relates a conversation that took place at a social evening arranged at the home of Kolganov several years ago. Berzovsky was asked at this gathering whether the former owners of the Donetz-Grushev mine were still concerned about them. According to Samoilov, Berzovsky answered that indeed they were; that they had organized a small group in Paris and that they were watching the work of their former employees:

"They are watching our work," he said, "and they know what each one of us is doing. If we remain loyal we shall be amply rewarded."

And Samoilov with the rest, took the offer of the reward "both here and there." Their job was to keep the places warm for the bosses.

Confirmation of the destructive work carried on by these conspirators was given by Chernoknizhnik, the chief engineer of State Mine No. 1 and he too repeated the wearying story of the deliberate spoiling of machinery, etc., which he carried out, as he says, on the orders of Berzovsky. Later he was transferred to State Mine No. 3 where he found the mine machinery in bad working order. He reported this to Samilov and the latter said: "What are you worrying about, what has it got to do with you?"

Victims Exploited.

The heart of this case was touched when Emilian Kolodub was put on the stand. A little man, with flabby skin hanging in folds from his cheeks, small twinkling eyes lit up with cunning appeared as a former mine owner but lately was working as an engineer in the same group of mines. He pretends to be very simple and ignorant. But it turns out that this very simple old man in the good old days was one of the worst exploiters. So much so, that in 1905 the miners stormed his house and burned it to the ground. The riot was of course suppressed by the Cossacks that were called out, the workers say, at Kolodub's request. He now denies that he exploited the workers so badly or that he called for the cossacks.

Krilenko asked him:

"What did you do when your house was stormed?"

"Nothing."

This was one of the occasions when the president had to ring his bell for silence in the hall.

TEXTILE STRIKE PARADE DESPITE POLICE REFUSAL

“B[illegible]'T STOP MAR[illegible] SAY MILL UNION'S LEADERS

Thousands to Turn Out Saturday

NEW BEDFORD, Mass., June 27.—The request of the New Bedford Unit of Textile Mills Committee, that a permit be granted for a parade of the 28,000 textile workers out on strike here, was flatly refused by the police yesterday. The parade is planned for Saturday.

Immediately after the refusal the strike leaders issued a statement denouncing this action and declaring that permit or no permit a parade would be held. Organization plans for the parade have already been set in motion, it was stated.

New Boss Move.

Official announcements were issued by the mill owners to the effect that they intend to "reopen" the mills on July 9th. This is generally taken to mean that the bosses will bend every effort to import a few scores of strikebreakers in order to give the impression that strikers are going back to work. Even the bosses trade journals here and in New York admit that enough people cannot be obtained to operate the mills.

Mobilize Forces.

All the machinery and resources of the union are now being mobilized to answer this attempted reopening, those in charge of the Textile Mills Committee state. "Last Monday saw picketing demonstrations of 7,000

(Continued on Page Two)

EX-COAL HEAD IN DONETZ PLOT

Proved Guilty in Big Sabotage Case

MOSCOW, U. S. S. R., June 27.—Following the examination of Skorutto, the technician accused of sabotage and counter-revolutionary activities in connection with the Don mining operations, the trial of the defendants in the Donetz conspiracy case continued yesterday with the examination of the former mine owner Rabinovitch.

At least two thousand workers crammed the great hall of prosecution to hear the testimony of the old man who had once been coal controller, holding a high place in the state planning commission.

They listened breathlessly as Rabinovitch denied his guilt in the conspiracy, while he declared that experience had taught him that the workers were absolutely loyal to the Soviet government.

No one left the crowded court room as the trial dragged on while witness after witness shattered the former mine controller's testimony, with evidence that he had not only been a participant in the counter-revolutionary activities of, but was actually the leader of the Moscow sabotage organization, maintaining secret relations with former mine owners in Paris and receiving funds from them for the purpose of bribing technicians and others in the Soviet Union.

Attempt to Wreck Train Discovered By Worker

BRIDGEPORT, Conn., June 27.—Hundreds of passengers of a New York-Boston express escaped death or serious injury by a hair's breadth today, when a track walker thwarted a deliberate attempt to wreck the train.

The arrest of three fairfield youths disclosed the attempt to derail the train. A worker, walking the tracks last Friday afternoon, it was learned, found a dozen railroad ties piled on the westbound rails about a quarter of a mile from the fairfield station.

Bela Kun In Danger

If Bela Kun (left) Hungarian Communist leader is deported to Hungary, he will undoubtedly be murdered by the fascist regime headed by the terrorist premier, Horthy (right). Only a world-wide protest of the working class can save Bela Kun.

DEMOCRATS SLAP AT NEGRO MASSES

Convention Segregates Them From Others

(Special To The DAILY WORKER.)

HOUSTON, June 27.—The party of Thomas Jefferson assembled in convention here today stripped itself quite shamelessly of the cloak of "democracy" with which it has been seeking to conceal its class-rule features and race-prejudice form when it ruled to segregate Negro visitors to the convention and to hold them apart from the white delegates and onlookers.

A section has been reserved for the Negroes at one end of the convention hall where the blue blooded southern parasites and the Morgan-controlled Tammany Hall grafters from New York will not be forced to look upon the most exploited sections of the working class.

Negro delegates here call attention to the fact that the Tammany Hall administration in New York City has sought to wall-in a whole section of Harlem to which it aims to confine the Negro workers, and that public office and the civil service is practically closed to the Negroes in "democratic" New York as in prejudiced Texas.

* * *

First Fight Over "Tolerance."

HOUSTON, June 27.—Balloting on the nomination for the presidency, which is due sometime tonight, is almost certain to result in the naming of Alfred E. Smith, Tammany Hall governor of New York State, on the first count.

The same convention which today went into an uproar over the issue of religious toleration when it was mentioned by Joseph T. Robinson of Arkansas and which led to a free for all fight when the delegations of several states refused to join in the march which followed, is the convention which calmly segregated Negro visitors and delegates off in one corner of the hall.

SAY AMUNDSEN SIGHTED ON ICE

LONDON, June 27.—While several relief expeditions continued their search of the Arctic wastes for Captain Roald Amundsen, confirmation was eagerly awaited today of the report received at Copenhagen that the noted explorer had been seen by a seal hunter on an ice-floe, southeast of Spitzbergen.

According to the report, relayed from Copenhagen by the Exchange Telegraph Company, Peter Freuchen, the Danish explorer, who is now at Murmansk, was informed of the seal hunter's story by the crew of a fishing boat which met him.

EVICT 18 MINE FAMILIES

Open Shop Coal Operator Bids for Scabs

BRADLEY, Ohio, June 27.—Eighteen more families will be evicted today from houses owned by the U. S. Coal Company, which is attempting to reopen its mines here and in Smithfield. Four new barracks, containing 52 rooms, were built by the miners to house the evicted coal diggers' families. There are about 10 children in each family, according to reports received by the National Miners' Relief Committee.

Agents for this company are distributing cards broadcast through the strike fields of Pennsylvania and Ohio, calling for "men to work in coal mines; very good opportunity to obtain steady work and make money." The advertisement describes these mines as "very good places to live and work." But large picket lines will be posted at the pits to stop any strikebreaker from entering them, local leaders declare.

Fear New Austrian Move to Extradite Bela Kun

Tom Mooney Chosen Delegate to Molders' Convention

RANK AND FILE ACTION IN SPITE OF OFFICIALDOM

Free Mooney, Billings Fight Grows

Despite bitter opposition by the officialdom to his election as one of the five delegates to be sent by local 164 to the international convention of the Molders' Union, Tom Mooney, victim of the San Francisco frame-up with Warren Billings, was chosen by a huge vote by the membership of his union to represent them. This was the information reported last night to the national office of International Labor Defense, 80 E. 11th St.

The union bureaucracy had presented a slate of candidates for delegates to the international convention and Mooney's name was not on it. From his prison cell in San Quentin penitentiary Mooney began to write to the local union of which he is still a member, urging upon the membership that they resist the attempts of the officials to tie the union to the anti-Mooney campaign.

His brother and his friends in the union worked so persistently and with such good effect in the local, that the officialdom tried a new tack by proposing to elect Mooney as an "honorary delegate," but Mooney countered this ruse with another letter exposing the bureaucrats' attempt to avoid a real vote of confidence in him by the membership.

Mooney's vote was among the highest. His imprisonment, of course, makes it impossible for him to attend the convention, but Jenkins, the first alternate and a staunch supporter of Mooney, will take his place as regular delegate.

The mass movement begun by the I. L. D. to free Mooney and Billings is meeting with the active support of workers and working-class organizations throughout the country.

PORTER TAKEN TO RHODE IS. FORT

Defies Army Czars in Statement

NEW BEDFORD, Mass., June 27.—Indicating an extremely ominous turn of events in the attempt of the army authorities to railroad to prison John Porter, comes the information that his jailers suddenly decided to ship him off to Fort Adams, Newport, Rhode Island. This was done Saturday it was learnt. Porter is the young vice-president of the mill strikers' union, and member of the Young Workers (Communist) League, who is to face a court-martial for having deserted the army.

Plan Protest.

The national campaign of protest planned to secure his freedom is getting into full swing, those in charge stated. A huge mass protest meeting of textile strikers will be held July 4th, it is stated.

While Porter was in prison here, and after contact with him had been made (he was held incommunicado for a time), it was learned that he had been compelled to work endless hours each day for seven days a week. The food was miserable.

Issues Statement.

As soon as Porter found it possible to reach the outside world by a communication he issued a statement endorsing the campaign being carried on for him by the Young Workers League and the International Labor Defense.

He also issued the following state-

(Continued on Page Two)

I Dead In Train Crash

CHICOPEE, Mass., June 27.—One man was killed and seven others injured today in a collision here when an automobile crashed into an approaching trolley car. Cornelius McCarthy of Holyoke, 65, was instantly killed in the smash-up.

Miners Set Up Tent Colony After Lewis Cuts Off Relief

Because their men-folk refused to support the strike-wrecking policies of the John L. Lewis officialdom and joined the Save-The-Union movement, these families of striking coal diggers of Avella, Pa., were cut off the relief list and refused lumber for barracks when the company evicted them from their homes. The National Miners Relief Committee furnished the tents and is saving over 800 families here from actual starvation. Fred Siders, newly elected president of District Five, is the second man standing from the left. Steve Paich, Philip Giambattista, rank and file organizers, are in the center.

PICKETS ATTEND OPENING OF MINE

No Scabs Enter Open Shop Pit

(Special To The DAILY WORKER.)

YORKVILLE, Ohio, June 27.—Large picket lines of striking miners under the leadership of the newly elected progressive officers and a score of state troopers were the only ones who responded this morning to the much heralded "resumption of operations" at four mines near here. Not even one miner applied for work.

The longest picket line marched before the mouth of the Blaine mine of the Lorain Coal and Coke Company. The other pits which were to open are the No. 4 mine of the Rail and River Coal Company in Stewarts; the Gaylord mine of the Sauters Coal Company, Martins Ferry; and the Red Bird mine of the Warner Collieries Company in Tiltonville. These mines are in the heart of the most militant strike district in the east.

Daily Demonstrations.

When coal operators tried to open another mine at Tiltonville, some weeks ago, a series of mass meetings at the tipple, daily picket lines and demonstrations crippled the attempt. Scores of men and women were arrested but later released.

Robert Matusek, progressive president of the reorganized eastern Ohio district, declares that the striking miners will continue to mass picket every pit where resumption is attempted on an open shop basis, regardless of injunctions and mass arrests.

In a letter received by Alfred Wagenknecht, relief director of the National Miners' Relief Committee, Matusek says that thousands of families are living on one meager meal a day, and many do not have even that.

Milk, even for the babies, is an undreamt of luxury. Wagenknecht urges that all sympathizers rush whatever funds they can to the Pittsburgh office, 11 Penn Avenue, to make an immediate shipment to Ohio possible. Hundreds of trucks from locals throughout Pennsylvania strike fields come to the Pittsburgh headquarters pleading for relief.

MORGAN SPEAKS UP FOR SMITH

At least twenty leading stocks in which the Morgan interests are dominant reacted favorably following statement by John J. Raskob, chairman of the Board of Directors of the General Motors Corporation, that "business big or little has nothing to fear from Governor Smith". The statement made by Raskob who is at Houston as one of the Morgan representatives to see that Smith is put over, was relayed to New York from Houston on the General Motor Company's private wires.

LEWIS THUGS KNIFE MILITANT COAL MINER

(Special To The DAILY WORKER.)

CURTISVILLE, Pa., June 27.—Because he was one of the successful progressive candidates at the local union election held here Friday, June 22, George Dillon was attacked and cut over the eye with a large knife in the hands of a Lewis supporter named "Monte" Bestwick.

The attack occurred when Dillon was returning to his home at the barracks, after the meeting at which all the contests for local offices were won by the progressives.

During the bitter fight of the elections, the machine used every method at its command in an attempt to "steamroller" the vote but the miners broke through these devices.

Gets Own Medicine.

Bestwick, tool of Frank Hefferly and Jack Hasson, the Lewis-Fagan organizers in this section, was himself beaten up when the progressives repulsed the attacks of his cohorts.

That the Lewis forces are getting desperate is evidenced by the hasty manner in which the relief of this local union was cut off. And soon as they received word of the progressive victory, which eliminated the Lewis relief "Bandit," Patsy Ammorosa, from the presidency of the local, "official" word was sent that there would be no more relief for the miners of Curtisville.

Still Fight On.

While things look black here as a result of this Lewis-Fagan action, the miners still fight desperately, realizing that they must struggle for every advance they make and this they are determined to do, despite the efforts of the machine to force them into submission.

WORKERS URGED TO CONTINUE AID

Need 'Daily' in Many Struggles

The financial aid which the workers of this country are continuing to send to The DAILY WORKER is helping materially to secure the existence of the only militant working-class newspaper in the English language. The manner in which the workers have responded to the appeals for funds, despite the widespread unemployment and low wage conditions, is proof positive of the significance of the "Daily" in the struggles of the American working-class.

A fund of $10,000 was raised within a short time when a sudden crisis threatened to shut down The DAILY WORKER completely. Since the raising of this fund and the successful passing of the crisis, class-conscious workers have continued to contribute in order to secure the existence of the "Daily" in the future. Yesterday

MORE MILLINERY PICKETS HELD

Boss Says That Zaritsky Induced Lockout

A new wave of arrests was inaugurated in the millinery manufacturing district when five pickets, members of the Millinery Hand Workers Union were arrested for picketing the shop of Theodore Klaus, 32 West 39th St., which was declared on strike Monday evening for locking out the 40 milliners, with whose union Klaus had an agreement. The union attorney succeeded in getting the trial of the girls postponed till Thursday in Jefferson Market Court.

In declaring the lockout the employer stated that he wants no dealing with the administration of Local 43, because they have no inducements to offer him. Whereas, said the boss, President Zaritsky's Local 24 has already offered him many induce-

LEWIS-FISHWICK IN NEW SELL-OUT

Hope to Force Miners Back to Work

(Special to The DAILY WORKER.)

SPRINGFIELD, Ill., June 27.—Maneuvering through officials of several local unions in Illinois, the Lewis-Fishwick machine is seeking to devise methods of escaping responsibility for its union wrecking policy and for wage reductions which it has helped put over on the miners of district 12.

The Lewis-Fishwick gang has engineered the adoption of resolutions by locals at Marion, Coulterville, Herring and Duquoin aiming at a return to work movement which will appear to come at the request of the rank and file.

A new national miners union under the control of the miners themselves is seen here as the only way to save the situation.

“DAILY” CONCERT JULY 14

Theremin to Perform at Coney Stadium

What bids fair to be the greatest musical event in the history of the revolutionary movement of this city will take place Saturday evening, July 14, when the great concert and entertainment of The DAILY WORKER will be held at Coney Island Stadium.

As this is also the anniversary of the fall of the Bastille, the concert will be a double celebration. A program of unusual elaborateness is being arranged, far surpassing anything that has hitherto been attempted in this city. Twenty-five thousand militant workers, including many from out of town, are expected to pack Coney Island Stadium on this occasion.

Prominent on the program will be Prof. Leo Theremin, the young Soviet scientist whose invention by which he draws music out of the air without the aid of a musical instrument has

SEE SENTENCE AS TRICK TO STIFLE MASS PROTESTS

Labor Defense Issues Call For Action

(Special to The DAILY WORKER.)

VIENNA, June 27.—Surrounded by heavily armed guards Bela Kun, leader of the Hungarian Soviet Republic, was returned to jail yesterday.

His sentence has been received with expressions of regret by the capitalist press which is waging a steady campaign for his extradition, which is still likely.

Only the protest of labor all over the world prevented the Austrian Seipel government from immediately effecting the extradition of Kun, it is frankly admitted here.

Fear Trick.

Even yesterday well informed circles here expressed the fear that the sentence passed on Kun is merely a ruse on the part of the Austrian government to give the worldwide protests a chance to subside in order to proceed with extradition.

Substantiation is given these rumors by the resignation of Franz Dinghofer, minister of justice, who is believed to have given up his post in order to facilitate new moves against Bela Kun.

Armed Police.

Heavily armed police continued to patrol the streets of Vienna last night as the government viewed with alarm the rising tide of mass resentment against the sentence passed on Kun.

It is intimated that the government intends to continue the tactics of veiled terrorism at the trial where police stood nine deep around the building and every man or woman entering the courtroom was searched.

Early in the course of the trial the prosecution sought to withdraw those parts of the indictment which referred to the Soviet Union.

Exposes Imperialists.

Tearing off the mask of legality in which the attack on the Soviet Union was being veiled, Bela Kun charges the Austrian authorities with placing every possible obstacle in the way of the defense, even refusing to permit its lawyers from examining the necessary files or to interview Kun himself.

Kun was continually interrupted in the course of his testimony by the president.

Asked why he entered Austria with a false passport, the Hungarian Communist leader declared that his life would not have been safe had he lived in Vienna under his own name.

Court Alarmed.

Thoroughly alarmed, the court finally forbade Kun to say anything more.

On further examination experts admitted that Kun's letters had been translated. Material read by the prosecution proved to be nothing but Hungarian Communist Party matter and there were none of the sensations which the government had hoped for.

In his closing speech, however, the prosecutor declared that the Hungarian Communist Party is illegal and that therefore its members were guilty of secret association.

Bela Kun commenced his closing speech but was immediately stopped by the president.

At ten o'clock at night the court announced that Kun would receive three months solitary confinement, with one foodless day every month.

Two Miners Crushed to Death in Fall of Slate and Coal at Open Shop Pit

RULES VIOLATED IN ABSENCE OF PIT COMMITTEES

Over 300 Deaths During Past Month

(Special to The DAILY WORKER.)

UNIONTOWN, Pa., June 27.—Harold Dayton, 37, was instantly killed by a slate and coal fall in the Allison mine of the W. J. Rainey Co. mine here yesterday. This mine is operating open-shop.

Stephen Sukovic, father of five children, was also caught under a fall of coal in the non-union Loyalhanna mine in Carrnbrook, Pa., and died soon afterwards.

Since these mines opened on a non-union basis without the protection of pit committees of miners a number of accidents and deaths have taken place.

Miners in West Virginia and Western Pennsylvania are fighting for a union which will be able to enforce measures to safeguard their lives and improve working conditions. Coal diggers in Pennsylvania and Ohio are fighting to save their union conditions and a living wage.

MURPHY, LABOR BETRAYER, DEAD

Led Gas-Workers Into Thompson's Hands

CHICAGO, Ill., June 27. — "Big Tim" Murphy, long identified as gangster and labor-baiter with the corrupt Sullivan and Thompson administrations in this city, was shot last night by members of an enemy gang on the lawn in front of his $25,000 cottage. He was forty-two years old, and had served as right-hand man to almost every political boss that ever controlled Chicago in the last 20 years.

As head of the street cleaners and gas workers union, Murphy participated in two of the blackest labor-frame-ups on record. When Thompson, at present mayor of Chicago, was trying to seize power for himself and defeat the Sullivan gang, then political bosses of the city, he went about it by getting control of all the job-contracts of the city, and placing lackies of his in the various unions. Murphy was made president of the Gas Workers Union. As such he received a salary of over $100 a week from the workers, while at the same time he was betraying them into the hands of the Thompson gang. All through his notorious career, while he lead an underworld gang, he was aided by the corrupt officials to betray the workers of the city.

Porter is Transferred To Rhode Island Fort

(Continued from Page One)

ment on the question of his desertion from the [illegible]

"I deserted the United States Army because I discovered that it was against the working class and was controlled by the capitalists.

"I now regret that I did not remain in the army to win over my fellow soldiers for the working class. For a working class army fighting for the freedom of the workers I am ready to give my life."

Ambulance Probe Aids I.R.T. Bosses

Protection of big corporations rather than of victims of ambulance chasers — generally poor workers—comes to light as the real aim of the campaign against ambulance chasing with the announcement that negligence claims against the Interborough Rapid Transit Co. have decreased 20 per cent since the Bar Association's investigation began.

James L. Quackenbush, general counsel for the company, testified before Supreme Court Justice Isidor Wasservogel yesterday that there have been 600 fewer negligence suits filed against the I. R. T. during the last half year. This means the saving of thousands of dollars to the company.

CONTINUE AIDING 'DAILY' IS CALL

Ask Workers to Secure Paper's Existence

(Continued from Page One)

$125 was contributed by H. Kretchmer, formerly a member of the Freiheit staff, where he wrote under the pseudonym of Lilliput. Kretchmer also promised to send in another $125 within a few weeks.

Must Continue Aid.

The DAILY WORKER wishes to thank all those who have helped to keep it alive during the past few weeks. But this aid must not cease. Hard times are ahead of us and in order to prevent the recurrence of financial crises and to enable the "Daily" to grow into an even more effective weapon of the workers, regular contributions from both individual workers and workingclass organizations are absolutely essential.

Workers, keep up your support! The DAILY WORKER is your paper. Build it into an even more powerful representative of your interests.

List of Contributors.

The following is an additional list of militant workers who have helped to keep The DAILY WORKER alive: Henry Renne, Philadelphia, $1.50; Louis Fisher, Galion, Ohio, $5; Leon Calvert, Maywood, Ill., $1; Oscar Friedland, Detroit, Mich., $1; Alex Drazinsky, Gary, Ind., $5; Walter P. Sukut, Chicago, $.25; Frank Kimiec, Milwaukee, Wisc., $1; Square Deal Grocery, Ontario, Calif., $1; Labino Martinez, Tampa, Fla., $2; M. Koster, Chicago, $4; Chas. Cassell, Kalamazoo, Mich., $1; Finnish Workers Party, Eureka, Calif., $10; Yetta Barshefsky, Jacksonville, Fla., $.50; Aaron Wieselman, Jacksonville, $1; Rosaline Fross, Jacksonville, $.50; Abe Wieselman, Jacksonville, $1; L. Berinhout, Jacksonville, $1; B. Berlin, Jacksonville, $.25; Vinikaw, Jacksonville, $.25; J. Coleman, Jacksonville, $1; C. Berlin, Jacksonville, $.25; Berkowitz, Jacksonville, $.25; Zum Brunnen Brothers, Hasty, Minn., $10; Fort Bragg, Calif., Comrades, $30; Street Nucleus 4, San Francisco, $15; G. Dimitroff, So. Bend, Ind., $1; St. Nucleus 4, W. P., San Francisco, $21.87; Elsie Pultur, collected, Boston, Mass., $1.55; Margaret Stresow, Central Islip, N. Y., $5; Cora P. Wilson, collected, San Jose, Calif., $5; Fairport Finnish Workers, Fairport Harbor, Ohio, $15; J. Mihordin, Pittsburgh, Pa., $1; M. Spolar, Pittsburgh, $1; L. Filitch, Pittsburgh, $1; A. Razpar, Pittsburgh, $.50; A. Horvat, Pittsburgh, $.50; L. Stepich, Pittsburgh, $.50; M. Satosek, Pittsburgh, $.25; F. Vrguka, Pittsburgh, $.25; R. Cerpite, Pittsburgh, $.50; T. Peter, Pittsburgh, $.50; A. Karpolic, Pittsburgh, $.50; J. A. Warusin, Pittsburgh, $.25; P. Hanas, Pittsburgh, $.50; Harry Kaplan, New York City, $2.50; August Dhaeret, New York, $.50; Rose Dahout, New York, $.50; J. Kruck, New York, $1; Rudolph Rawski, New York, $.50; August Dhauret, Jr., New York, $.50; Mathew Milovich, New York, $.50; Louid Dimarco, New York, $.50; H. Swasko, New York, $1; M. Liptzun, New York, $.50; George Galecky, New York, $3; Mike Enalut, New York, $3; Harry Karsun, New York, 2; R. Long, New York, $2; Baldo Vincend, New York, $1; A. W. Steckel, Tiffin, $1; C. M. Smith, Cos Cob, $3; F. Lagelbauer, St. Paul, Minn., $1; Louis Sobo, Chicago, $.50; Reuen Fanas, Chicago, $.50; Henry Felcki, Chicago, $.25; Joseph Berlolau, Chicago, $.50; Louis Getto, Chicago, $.50; Louis Barme, Chicago, $.50; Domakos Nagy, Chicago, $.50; Lazar Berta, Chicago, $1; Mand Geo. Jambo, Chicago, $1.25; M. R. Drikejnzo, Chicago, $1.25; E. M. Lett, New York, $1; Albert Gerling, Madrid, $2.50; Pursi Toveruudella, T. Ranttila, Allanwater, $5; Geo. Lucas, San Francisco, $1; Walter P. Sukut, Chicago, $.25; Katherine Wynne, Chicago, $2; Int'l Labor Day Federation, San Francisco, $10; R. Ornberg, Hall Quarry, $1; Finnish Comrade Club, Fort Bragg, $19.35; O. W. Finnestad, Portland, $4; Section 4, Unit 2, Boston, $5; E. Chinewich, Ravennah, $7.75; Mary Feldman, Bronx, $1; Central & North Eastern Branch W. P., Baltimore, $5; Russian Branch of Benefit Aid Soc., Plymouth, $4; John Larson, Alagnak, $1; Israel Barsky, Conneaut, $; S. H. Rabsosk, Conneaut, $1; A. Oddie, Brockton, $1; E. Grossenbacher, Philadelphia, $1; Panasik, Endicott, $23.15; C. H. Mayer, Bloomington, $5; Frank Peterson, Stanford, $2; Jessie Henderson, Boston, $5; John Barkovic, Pittsburgh, 10; Steve Merges, Pittsburgh, $2.20; Finnish Branch, Cotati Farm Club, Cotati, $6.65.

CONN. TRACTION WORKERS AGAIN VOTE FOR STRIKE

Last Ballot Betrayed By Mahon

NEW HAVEN, Conn., June 27.—The 2,500 organized street car workers in New Haven, Hartford, Stamford, Bridgeport and other Connecticut cities today began to take a second vote for a general strike against the Connecticut Co., subsidiary of the New Haven R.R. Great dissatisfaction was voiced among the workers with the action of W. O. Mahon, president of the Amalgamated Union in calling off the walkout.

The sentiment among the workers indicates an overwhelming desire for a walkout. The Central men demand 75 cents an hour instead of 62 cents on two man cars; an increase from 69 cents to 90 on one man cars; and from 72 cents to 90 on busses. The six day week, eight hour day, and official recognition of the union are also demanded.

The action of Mahon in calling off the strike added to the long list of the labor betrayals by the reactionary officials of the Amalgamated.

Manufacturers of Connecticut have formed a united front with the traction bosses by offering to supply strikebreakers from among their employees.

KLAN IN ELECTION STEAL, IS CHARGE

Indiana Organization Used Trickery

INDIANAPOLIS, June 27. — The hand of the Ku Klux Klan is once more revealed directing large-scale corruption and graft in Indiana. This time Archibald Hall, who was defeated for the republican nomination for Congress by Representative Ralph E. Updike, Klan candidate, charges the use of all sorts of ballot trickery to steal the election.

Hall's charges will be submitted to the new country grand jury next week, according to William Remy, county prosecutor. This will be the fifth investigation of the activities of the Indiana Ku Klux Klan, which has been in control of the state machinery, with representation in the United States senate through Senator James E. Watson.

Workers International Relief Aids Strikers and Their Families

The group of textile strikers (above), a fraction of the 28,000 who are entering the eleventh week of their strike in New Bedford, were photographed in front of the headquarters of the Workers International Relief. The relief organization has been caring for the needs of hundreds of the strikers since the strike began.

TRY TO BAN MILL STRIKERS PARADE

Will March Saturday in Spite of Ban, is Defy

(Continued from Page One)

workers; the days of the attempted reopenings will find tens of thousands before the mill gates," they concluded.

After the picketing this morning two mass meetings were held on open lots at the North and South End of the town. They were attended by several thousands, and showed the greatest enthusiasm.

Fighting Spirit.

The fighting spirit shown by the strikers during this and last week, which was marked by police attacks on the picket lines and the imprisonment of the two union leaders Murdoch and Beal, indicate that the call for a parade on Saturday will result in a vast outpouring of scores of thousands of strikers and sympathizers.

A demonstration of such great power and strength is obviously just what the politician hirelings of the mill barons want to avoid, the T. M. C. statement says.

Philadelphia Plumbers Helpers Meet Tonight

PHILADELPHIA, June 27. — A meeting of the Plumbers and Steam Fitters' Helpers Union of Philadelphia which was recently organized, will be held Thursday evening at Freelets Hall, 531 N. 7th St. at 8 P. M.

Due to bad weather, the last meeting of the organization was poorly attended but it is expected that tonight's meeting will draw the usual good crowd.

Daily Worker Concert To Be Held July 14

(Continued from Page One)

been hailed as one of the great discoveries of the century. Theremin has performed before distinguished scientists and musicians thruout the country, all of whom have acclaimed him with great enthusiasm and declared that his invention will revolutionize the science of art of music in the future.

Theremin's appearance at the Coney Island Stadium July 14 will be his first popular concert in this city. For the first time great masses of workers will have the opportunity of hearing this unique musical performance by one of Soviet Russia's most distinguished scientists.

TECHNICIANS SAIL FOR SOVIET UNION

Group Returns After 5 Months in U. S.

Two Russian engineers and six workers sailed yesterday on the "Berengaria" after a five months' study of the Canadian and American paper industries. Upon return to the Soviet Union all of these men will be employed in the $16,000,000 Volga paper mill, to be completed this year, which is the largest in the U. S. S. R. and one of the most modern in Europe.

Another engineer will remain here for some time in connection with additional orders to be placed for American paper mill equipment. This is the third group of Soviet workers and technicians sent here to acquire first hand knowledge of American production methods.

The Volga paper mill, which will start partial operation this summer, is designed to produce annually 50,000 metric tons of newsprint and 25,000 tons of other paper. The new factory will supply a large part of the requirements of the U. S. S. R. for newsprint which heretofore has been mainly imported from abroad.

The three engineers in the group are V. M. Klopov, B. V. Lopatin and E. A. Kajatz. The workers are V. Novikov, G. Veresov, P. Grigoriev, A. Price, A. Vasiliev and I. Tumanov.

BELA KUN STILL FACING DANGER OF EXTRADITION

See Sentence as Trick to Halt Protest

(Continued from Page One)

The time spent in prison will be deducted from his sentence.

Ilona Brauer, accused of aiding Kun, will receive one month in jail. She has already spent that much time in prison and it is expected she will be released at once.

George Mayerhoffer was acquitted.

I. L. D. Appeal.

Urging the intensification of the protest campaign for the liberation of Bela Kun, Hungarian revolutionary leader who is threatened with extradition and death at his trial which is now going on in Vienna, the national office of the International Labor Defense today issued an appeal to the American labor movement and the working class.

"Bela Kun, the leader of the Hungarian working class revolutionary movement, is on trial for his life" reads the appeal. "The Austrian government of the reactionary Seipel whose hands are already red with the blood of the Vienna workers which he shed last July, will do all in its power to extradite Bela Kun to Horthy's Hungary where immediate deat[h] awaits him at the hands of t[he] fascists.

Loyalty to Class.

"Bela Kun's 'crime' consists in his unswerving loyalty to the cause of the working class. For us this is not a 'crime' but the highest virtue of a labor leader. It is our sacred duty to mobilize our maximum power to prevent this hideous assassination. Only immediate pressure exerted on the Austrian government will effect the liberation of Bela Kun. Every workers' organization must immediately forward its protest to Vienna! Meetings and demonstrations must be arranged everywhere. Our voices must be united in an irresistible demand for the release of Bela Kun and the full right of asylum for all political emigrants! Act quickly!"

MINE WOMEN PROVE HEROIC AS MEN

Diary of Miner's Wife Reveals Militant Part They Play

By MARY JANIS.

PITTSBURGH, Pa., June 27. — Thousands of women have marched in Pennsylvania, Ohio, West Virginia, and the middle western bituminous coal fields, since their men-folk went on strike 14 months ago. They have marched on the picket line and in every skirmish that has taken place since the century's bitterest industrial battle opened.

Mothering striking miners, and living in constant fear of arrest, eviction, and every other method of terror that company directed law and order can muster while doing it, is a job for real women. These women glory in their chance to help their men fight for better living conditions. In spite of her heavy daily routine, made doubly difficult by the strike, Mrs. Louis Carboni, of Bentleyville, has found time to keep a daily record of strike events in her town. Excerpts from her diary tell a story of militant participation in strike activity by the women of Bentleyville. Part of her record kept in pencil on odd bits of papers.

The first entry on this section of the dairy reads: "We had a mass picket line, women, children, and men, and we marched to the mine. Just as we came to the mule barn, the yellow dogs and the state dogs started on to us all and we had to scatter in all directions to save our lives. This day we had five men beaten. They clubbed brother Martin Vilentick very bad as he is still in bed, and other ones on the arms, hands and legs and anywhere they could get them. They threw tear bombs at us on this day and they took one of our sisters, Flora Masanovic, to jail. She did not do anything. But the other sisters went right after and wanted her out. (The woman was released on bail.)

The presence of the striking coal diggers' women on the picket line is a gesture of protest against all of the unsung sacrifices made by the women since the gruelling industrial struggle started on April 1, 1927. Consider Mrs. Charlie Sanders of Curtisville, who was compelled to give up her beautifully enamelled and nickeled stove which she had bought from a Pittsburgh credit furniture house. Only $50 out of a total of several hundred which was paid on the other furniture acquired with the stove, remained to be paid.

"Now I've got to go into the back yard to cook my man some coffee," Mrs. Sanders mourns.

Or there is Mrs. Jim Smith, of Mollenaur, whose washing machine was hauled away one day when, impoverished by the strike, she had found it impossible to keep her payments up to date. For a miner's wife, who must work hard at best, such losses may assume the proportions of life tragedies.

Mrs. Carboni's diary continues: "Tuesday, April 17. Our women called a special meeting (of the ladies' auxiliary of the local union) and called all the sisters together of which there were anywhere from 200 to 300. We said we did not want men to come along with us. So after the meeting I said let's go ladies with the babies in our arms and see if they will do us as they do the men. So we went and we did not get half way until they struck an old lady, 63 years old on the head with a bomb (tear gas bomb) and caused a very deep cut and they threw about two or three dozen tear bombs at the crowd and told us if we did not keep away from the picket line we will get what is coming to us. So we told them that we are taxpayers and we will fight for our rights and we did. We took our wounded old lady to the burgess but he was not home so we went to the doctor. We started out that morning and did not finish until ten o'clock at night. We saw the burgess."

"... as we go marching, marching,
we battle too for men,
For they are women's children and
we mother them again."

Big Opening of the New Dining Room

Our Equipment:

A Tremendous Dining Room, Which Can Accommodate 1,000 Guests

This Dining Room is the most beautiful of its kind in the entire state of New York. The spacious verandas overlooking the lake and the surrounding chain of mountains, presenting an extraordinary view.

A Separate Dining Room for Children

In order that the children may not disturb the adults and vice versa, the Camp has established a separate Dining Room for children.

A Modern Comfort Station

A large, light, modern comfort station, which can compare with the best in the city.

Hot and Cold Shower Baths

What is a vacation-place without hot water and hot and cold shower baths? The Camp is now equipped for the comfort of the campers with the newest innovations for washing and bathing.

Boats

Row-boating to your heart's content.

A Department Store

A Department Store has been opened which is furnished with all necessities.

A Casino Near the Lake

The Casino which was built last year has proven to be too small and we have been forced to double its size. There is now enough room to dance and to present various performances. It will also be a desirable place for lectures and discussions which are always interesting and informative.

A Boardwalk

A boardwalk for your pleasure at all times.

UNITY CAMP

The
Modern Comfort Station
and Shower Baths
Are Already Completed

SATURDAY EVE.
June 30th

Children's Colony

All registration for the Children's Colony must be in

Monday, July 2nd

If you want your children to come to the Unity Children's Colony, register them immediately.

Busses leave from 1800 Seventh Ave. every Friday at 6:30 p. m. and Saturday at 1:30 p. m.

DIRECTIONS:
BY BUS—From 110th St. and Seventh Ave. direct to the Camp.
BY TRAIN—From Grand Central or 125th St. to Wingdale and there our machines will meet you and take you to the Camp.

FOR REGISTRATION:
Apply at main office,
1800 Seventh Ave., cor. 110 St.
Telephone: Monument 0111.

When you arrive at Wingdale
Phone:
WINGDALE 10 F 12.

British Labor Reformists to Continue "Peace" Conference With Lord Mond

TRADES UNION "LEADERS" VOTE FOR SELL-OUT

Class Collaboration Endorsed

LONDON, June 27.—Continuing the discussion of A. J. Cook's motion to end the conferences on industrial peace between the leaders of the Trade Union Congress and a group of employers headed by Lord Mond, the General Council of Trade Union Congress has put itself definitely on record for class collaboration by defeating the Cook resolution.

The capitalist press here is jubilant over the open endorsement of class collaboration which is implied in the refusal to end the industrial peace conferences.

At the same time the acceptance by the general council of the industrial committee of labor's report is causing intense resentment among British unionists and corresponding satisfaction to the employers' groups. The report calls for the establishment of national industrial council, one of whose functions will be to investigate any strike reported to there before it is declared. The council will consist of representatives from the national federation of employers' associations and the federation of British industries, together with the general council of the Trades Union Congress.

AXTELL CAP IN HAND AT HOUSTON

Silas B. Axtell, ambulance chaser and enemy of the Soviet Union will be among those with hat in hand, begging for a handout at the democratic convention at Houston.

Axtell, together with Capt. George Williams of the Neptune Association, will ask the Tammany-controlled convention for the extension of the right of franchise to all seamen. It is not known how many minutes he will be granted before being bowed out.

NINE WORKERS KILLED

SAN SALVADOR, June 27.—Nine workers were killed and several severely injured when a railway car carrying employees of a railroad in Guatemala was derailed and fell into a ravine.

At the Graves of Karl Liebknecht and Rosa Luxemberg

The picture shows a delegation of Swiss workers standing at attention beside the graves of Karl Liebknecht and Rosa Luxemburg in Berlin. The procession which marched to the graves of the two murdered revolutionary leaders included delegations from France, Great Britain, Austria and China.

CHAMPION OF SLAVE COURT AIDS HOOVER

WASHINGTON, June 27 (FP).—Former Gov. Henry J. Allen of Kansas, founder and exponent of the Kansas Industrial Court—known to organized labor from coast to coast as the "slave court" of compulsory determination of wages—has been made publicity director of Herbert Hoover's campaign for the presidency of the United States.

This is to be a battle of publicity. Hoover is perhaps the most effective advertising expert in the country. He will, from the nature of his experience and talent, keep a directing hand on the publicity machinery. In other words, he will have Henry J. Allen as one of his closest advisers and confidants.

Just before Hoover and National Chairman Work selected Allen for this key-job in the campaign, three big republican politicians were in conference with the nominee for the presidency. They were Sen. Edge of New Jersey who speaks for Standard Oil and the anti-union manufacturers and bankers of his state; Sen. Gillett of Massachusetts, who speaks for the anti-union manufacturers, railroads and bankers of New England, and especially of Massachusetts, and Bascom Slemp, millionaire non-union coal operator of Virginia.

Some years ago, when Gov. Allen was employing the Kansas state militia to break a coal strike in that state by actually digging coal, it was estimated that the state paid about $200 per ton to produce the small amount of fuel which was loaded at the mines. As a result of the operation of his industrial court law, trade union officers were sent to jail or prison.

"Doctor" Gets 30 Years For Death of Patient

WASHINGTON, June 27.—"Dr." Louis W. Hoffman, self-styled physiotherapist, late yesterday was sentenced to 30 years imprisonment by Justice Siddons in district supreme court, for the death of Eleanore M. Lehman, 26-year-old typist.

Hoffman recently entered a plea of guilty of second degree murder. The Lehman girl died from a broken neck on an operating table in his office on March 3 while supposedly undergoing an "adjustment" for a headache. It was contended by the prosecution that Hoffman had deliberately broken the girl's neck in an effort to conceal an attempted criminal operation.

University of Penna. Fires a Teacher

By SOL AUERBACH.

(Continued From Previous Issue.)

II.

THERE are many workers who still have faith in the "higher learning" and "impartiality" of the universities. They naively believe that no matter how rotten the rest of the system is the universities are alright and that somehow higher education will solve their problems. But the universities are only some of the many prostitutes that are kept by the same capitalists who exploit and reap profits. Take the University of Pennsylvania as an example and see how it works.

The department of philosophy receives its orders from the administration. And the administration receives its orders from the Board of Trustees. On the board there are the biggest capitalists in Philadelphia—presidents and vice-presidents of the Reading R. R., the Pennsylvania R. R., the General Electric company, the largest banks in the city, Senator Pepper their messenger-boy to congress. The reason that the U. of P. puts such big financial guns on their board is that these men contribute large funds to the endowment fund. An institution like the U. of P. lives by contributions from rich men. Do you think that these men will allow their university to degenerate? Do you think that they will allow a man on their teaching staff to talk favorably about the Soviet Union? Not on your life. They would be fools if they did. To let the workers whom they exploit in their mills, railroads, transportation [illegible], by mortgaging and fin[illegible] know the truth about the Soviet Union, the ideals and aims of the international Communist movement would be like suicide. It would mean the early death of capitalist society. So as soon as they hear of anyone on their teaching staff who misbehaves, who will not turn out students to order to fill pigeonholes in the capitalist desk, who insists on telling about the only workers' and peasants' government, who persists in telling of some of the realities of the present social system they will complain to the administration, the administration will talk to the department and the "poor" department will have to do the dirty work. "By no means will we allow," say the capitalists, "the wheels of our perfect university machine to become rusty or be put out of commission by the steel bar of [illegible] who, crazy fanat[illegible] [illegible] what they should [illegible]

A university is a class institution, and its aims and ideals are those of capitalist society. That institution will not be allowed to foster any critical elements.

Just at this time capitalist society has been good enough to throw up some more evidence that runs perfectly according to form. In the investigation of the Federal Trade Commission into the activities of a committee which represents $17,500,000,000 worth of privately owned public utilities it is found that about fifty educators in institutions of higher learning are participating in spreading propaganda against public ownership and for private ownership of public utilities. These professors in the pay of the corporations and under the cloak of academic learning and impartiality, in a very convincing and professional style, write textbooks and learned researches spreading propaganda for the capitalists.

"Gifts."

Ruggles, dean of the School of Commerce of Ohio State University, received $15,000 annually from the National Electric Light Association. The Harvard School of Business Administration gets an annual subsidy of $30,000 from the same organization "to produce an adequate textbook on public utilities corporations, it being obvious that such literature bearing the imprint of Harvard University would be quite generally adopted by other institutions." Professor Richard T. Ely's Institute of Research in Land Economics and Public Utilities gets an annual gift of $25,000. Iowa and Illinois high school textbooks are [illegible] prepared by the Utilities Corporation.

And at our own U. of P., Theodore Grayson, dean of the night school and extension school, and until recently assistant professor of finance has been receiving $250 per lecture from the N. E. L. A. and his own course at the university is partly subsidized by the association. When this came out in the press the U. of P. said nothing about it. He was on the side of the capitalists, I against them. Assistant professor Grayson was promoted to a professorship and I was promoted out. Just exactly what was to be expected.

BUT the University of Pennsylvania could not afford to be frank about it since they had to save their face and at least leave some semblance of academic freedom. So the university used the department of philosophy as a carpet to hide the rough floor of the actual facts. There are two tender designs on the carpet to please the eye and divert the mind. The first design that the Public was invited to gaze upon was that bit of academic thoroughness, "it is incompatible for a teacher to take a stand, etc. . . ." Curiously enough, the professor who formulated this as the policy of the department at the last moment's notice was a little too frank. Whether he realized it or not he had formulated the only conditions under which a university could exist in the present society. For a university, class institution that it is, can not actually do research work in social problems nor interest its students in matters that are embarrassing to the bosses. It either must abdicate entirely or become an intellectual hermitage.

The "Floor Design."

The second pretty little design on the carpet about irregularities in meeting my classes as the reason for my dismissal is so falsely colored and so evidently an unfortunate afterthought that I will say no more about it.

We are, however, interested in the basic floor design—the design under the carpet. The simplest reality that comes out of the matter is that there is no freedom of speech at the U. of P.—which is not news to many of us. The greater one is that the university must remain a class institution, financed by the capitalists, as long as our present system of society exists. As such, the financial masters are also the moral and educational masters. Students must be continuously guarded and the faculty must always report to the confessional cage of finance. The process of education must be a twofold one: first the process of doping. The fumes of bourgeois impartiality close the eyes of the students to the most important issues of today. The second stage is comparatively simple—it is easy to fill a doped brain.

Organize, Slaves!

I sympathize with those faculty men who are conscious of the conditions and must suffer them. There is one way out: organization. Why don't you form a union?

Students should take their lesson from [illegible] of the Soviet Union [illegible] where the students [illegible] in the revolutionary [illegible] world.

[illegible] University of Penn. [illegible] a mistake by putting me on [illegible] and the Philadelphia press made a similar mistake in giving two days publicity to a Communist.

NEW EFFORT TO SUPPRESS ORGAN OF COMMUNISTS

Machado Asks Mexico to Suppress Machete

MEXICO CITY, June 27. — Sidelights on the plan of persecution of workers which the Machado government of Cuba is known to have planned against the Cuban workers is reflected here in the demand of the Cuban government that the Mexican authorities take steps to suppress El Machete, the organ of the Mexican Communist Party. The demands have been made through the Cuban embassy in Mexico City and are based on the statement that the paper is encouraging unrest among Cuban workers.

The action of Cuban government follows the announcement that president Machado had conferred with secret agents and members of the Cuban police force with a view to beginning a campaign of imprisonment against leading Cuban workers.

The Cuban government has also asked the suppression of Cuba Libre which recently carried an attack against the policies of the Machado government.

FASCIST KILLER PRATES OF PEACE

I. L. D. Calls for Fight on Mussolini Terror

The speech delivered recently by Mussolini before a gathering of fascist capitalists, in which he declared that the class struggle is disappearing and urged complete collaboration between the workers and the bosses is denounced by the New York Section of the International Labor Defense in a statement issued last night by Rose Baron, secretary of the section. The statement follows:

"Mussolini's arrogance and his contempt and hatred for the workers were never better displayed than in the soothing words which he poured into the ears of the fascist capitalists at their first national congress.

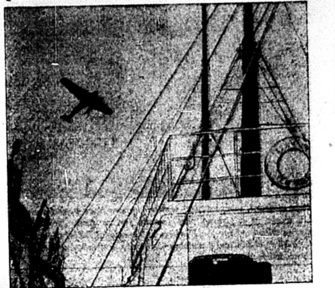
"'We are witnessing the eclipse of class struggles,' purred this murderer of thousands of Italian workers and peasants. Mussolini has only recently illustrated what he means by the eclipse of class struggles. Thirty-seven leaders of the Italian Communist Party have been sentenced to long years of unspeakable torture in the filthy dungeons of this black-shirted apostle of peace. Thousands of other militant workers are rotting in the hell-holes of the fascist paradise.

"With the trade unions destroyed and their militant leaders imprisoned, murdered or hunted into exile, with the Italian working class driven into virtual slavery, with the slightest vestige of protest relentlessly stifled and with his hands dripping with the blood of Matteotti, Sozzi and hundreds of other leaders of the workers, this mad monster talks of 'the eclipse of class struggles.'

"Mussolini does not rule in Italy alone. He is here in the United States where he has recently opened a military school and where his agents are persecuting anti-fascist workers. He owes his power, fed on the blood of the Italian working class, to the direct aid of the United States government.

"Only the workers will wage a militant struggle against fascism. And the workers of New York, the stronghold of American capitalism, which helped to establish Mussolini's rule, must join with the workers of the world in fighting against this monstrosity. Down with government by murder! Demand the release of all the victims of the fascist terror!"

Imperialism At Sea; "Friendshp" Greets Vessel



A day out from Southampton, the airplane, "Friendship," in which Amelia Earhart carried on the plans of U. S. imperialism by once more proving that the Atlantic is passable by airplane, circled over the ship "America." A photograph snapped on the "America" is shown here.

NEW BLOW AIMED AT LEWIS' CROWD

District 7 Miners Aid Soft Coal Diggers

(Special To The DAILY WORKER.)

HAZLETON, Pa., June 27.—Miners of Local Union 250 of Lattimer upon hearing that officials of District 7 are driving away delegates of striking miners sent by District 2 to collect funds went on record at a local meeting to invite a representative of District 2 to report on the exact situation.

Killinger, one of the delegates who has been working here, was invited. Local 250 is to pay his fare and he will address this and many other local unions in District 7.

Many local unions in District 7 have refused to pay the assessment to Lewis, and now as the delegates of the soft coal fields arrived, it is generally expected that relief will be forwarded direct to the rank and file of the soft coal from the rank and file of District 7.

Nick Sieba, who is a candidate for district president on the Save the Union platform, won the first victory when he was elected as president of Local 250 in Lattimer. Lattimer maintains the tradition of the struggle of 1897 when 17 miners were massacred by state troopers headed by Sheriff Martin. Lattimer gave birth to the union in District 7, years back, and today she is leading the fight against the treacherous Kennedy-Mattey-Lewis machine and the coal operators.

BOSTON REJECTS SIGMAN MEASURE

Dress Union Vote Down Yellow Dog Pact

BOSTON, Mass., June 27.—A membership meeting of the Dressmaker Local 46 again made an official decision, which showed that it intends to fight the union wrecking clique of the International Sigman-Schlesinger and Co. and its agents in the Boston local by overwhelmingly rejecting for the second time the Sigman measure of "Yellow Dog Contracts." This measure, passed at the fake cloakmakers' convention, demands that all those running for offices sign a statement that they are not Communists or left wingers.

The attempt of the Sigman agents to force thru this measure was done by slyly maneuvering this question into the minutes of the executive board, and then calling for a vote on the local minutes. A demand was raised by the membership that this clause be expunged from the minutes. The Sigman officials refused to allow this. The minutes as a whole were then rejected by an almost unanimous vote.

A week or two ago a meeting of all the executive committees of Boston cloak and dressmakers' locals, although composed wholely of right wingers, and called together to discuss organization work, declared by a large majority sentiment that it was no use talking organization work as long as the militant left wingers were not permitted to take part in leading the drive. Vice President Amdur at that time refused to permit this question to come to a vote, fearing a defeat.

At the next meeting of the Joint Board, comprising all locals, a letter was received from the Sigman headquarters in New York ordering the use of the yellow dog contracts. This though not acted on was incorporated in the Joint Board minutes. It was these minutes which were defeated at the recent membership meeting of the dressmakers' local. It is believed that the other locals will take similar action.

NEW TERRORISM HITS ARGENTINE WORKING CLASS

Police Seize Several in Raids

BUENOS AYRES, June 27.—The general persecution of progressive and militant workers, ushered in two nights ago when Buenos Ayres police raided the headquarters of the Bakers Union where they allege they "found" a bomb was in full swing yesterday, with at least ten men known to be under arrest.

Workers' organizations and homes as well as private houses are being ransacked by the police in their latest efford to paralyze the labor movement in the Argentine thru the arrest of the militant leaders.

The pretext given for the continued raids is the search for evidence which will clear up the explosion of a bomb at the Italian consulate on May 23.

At the time hundreds of workers were jailed and examined by the police in the hope of extorting incriminating evidence from some of them. The authorities were afterwards forced to liberate all arrested men as no grounds for prosecution could be discovered in any of the cases.

It is believed that the present wave of persecution is connnected with the numerous strikes which have broken out in the country within the last six months, especially among the harbor workers whose strikes tied up the ports of Rosario, Santa Fe and Bahia Blanca successively.

MORE MILLINERY PICKETS HELD

Boss Says That Zaritsky Induced Lockout

(Continued from Page One)

ments to break the Local 43 contract and sign one with them. Zaritsky had recently dissolved Local 43 with a membership of 4,000 because of its progressive leadership.

The first steps in the attack of this boss was in his dismissals of several workers. A demand by the union for their reinstatement led to the lockout of the entire staff of 40 girls.

At the shop meeting to which the girls immediately went they unanimously voted to go out on strike till the boss comes to terms. This decision was immediately followed by organized picket demonstrations, leading to the heretofore mentioned arrests.

Hand Workers' Affair.

The social club of the Millinery Hand Workers' Union announces that the tickets for their projected boat ride and banquet at Camp Nitgadaiget, are being sold fast.

In addition to the union members who are rapidly buying tickets, workers from other trades are buying them. The affair gives promise to be one of the most successful ever arranged by the organization. The steamer Benjamin Odell will take the whole party from the pier at Battery Park on Sunday morning at 8 o'clock, to a big banquet at the camp. After spending several hours there the party will go back to New York by daiget are being sold fast.

Woman Mine Correspondent Describes Treacherous Tactics of Lewis Machine

FAGAN TALKS BUT CAN'T FOOL MANY MEN IN RENTON

Fire Any 50 Men at All Is Order

(By a Worker Correspondent)

RENTON, Pa.,(By Mail).—I would like the readers of the "DAILY WORKER" to know what is happening in Renton, Pa. A few months ago I asked and answered questions I read in the Miners' Journal in a long letter to its editor. I never read anything in the Journal that didn't condemn the Save-the-Union Committee. Since I noticed that all of the articles contained lies I decided it was about time the editor was answered. So I did it.

Embarrassing Questions

The first thing I asked him was how the Pittsburgh Coal Co. could be so foolish as to pay the Save-the-Union Committee to get the miners out 100 per cent on strike and then pay state police to arrest the speakers, beat them up and send around stool-pigeons among the miners asking them not to listen to the Save-the-Union. Why do the operators go to the same expense by repeating the story at Export, Pa., and at White Valley, Pa?

But the Lewis machine did not want to answer these questions and others useless to put down here. I asked the editor to be kind enough to answer them, no matter what his answer might be. It seemed that my letter was too hot for that rusty Lewis machine. All they did was write an answer by mail that it was too bad I allowed myself to be mislead by the "strike-breakers".

On June 13, 1928, Pat Fagen came to Renton to hold a meeting. We knew nothing of the meeting until some of our men were notified by the state police and the chief of deputies. At about 1:30 P. M. chief of deputies Anderson and general J. S. Clark arrived at the union hall in a car. Then came Fagen and T. Robertson and Hefferly, after whom followed two state policemen on horses. Then men who were at this meeting were all of the Lewis machine. There was one big truck with nine men; the other trucks may have had a few more but there were only four of the Renton men there. This didn't bother Fagen who made out he was speaking to all the Renton men.

No Hall For Traitors

The best part of it all was that the men could not get into the hall. They asked me for the key to open it, but I didn't have it. They asked the janitor for it, but he was too wise to give it up. He told Fagen that when our district representative would come to town he would open the hall but not for a bunch like that. So the meeting was held outside.

Two Conventions

This Lewis gang spoke of the two conventions, the Save-the-Union one on April and the Lewis one on May 28. I was a delegate from the Ladies Auxiliary to both of these conventions. From the minute the latter convention opened to the minute it was closed nothing was said about anything except the Lewis machine. They steam-rollered the convention so, that the rank-and-file couldn't put in a word for itself. At the May 28 convention the reactionaries had the day. However, at the April 1st convention every delegate was given the floor to express his opinion without being thrown out or told to sit down. At this Save-the-Union convention no blue-sky delegates, as at the Lewis convention, were present. If we had any stool-pigeons there they would learn something that would do them good.

As this Fagen group in Renton went on speaking they had lots to say about our good leaders Pat Tooey and J. Watt. Fagen said that Fannie Toohey was "poisoning" the children's minds, teaching them not to believe in "God". He tried to put her in bad by saying she was most probably not the legal wife of Pat Toohey, that such kind of people believe in free love only. There's a strong man of Fagen's in Renton who has been believing in free love for some time now. But that's alright since he is a stool-pigeon.

We have a progressive union here in Renton that is very strong and also a Ladies Auxiliary which is likewise progressive. Each of these organizations are doing good work.

We must fight for our rights and follow our new leaders and not let the Lewis machine divide us any more. We must fight for better conditions, but we will never get them from the Lewis machine.

We brother and sister miners must stand together solidly for the Save-the-Union and save the strike. This is our only chance. This fight as well belongs to the non-union brothers as to us. We must all get on the picket line, organize ourselves and fight for better conditions.

OKLA. STEREOTYPERS GAIN

OKLAHOMA CITY, June 27. — Newspaper stereotypers raised wages to $45 for day work and $46.50 for night work. The old scale was $43.50 and $46.

Strikers Bring in Own Relief At New Bedford

New Bedford, where 30,000 textile workers have been on strike for eleven weeks, is a fishing port famous for its fleet. Above strikers returning with food for the Workers International Relief after a fishing trip. Fish is cheap and furnishes the needy, but militant strikers, with much-needed food.

Two Workers Injured When Derrick Falls

PITTSBURGH, Pa., June 27.—The condition of J. E. Goddard, 30, of Butler St. here, who suffered severe bruises and several fractured fingers when a derrick collapsed in Grand St. yesterday, was reported serious by the Mercy Hospital today. The derrick was hoisting stone in construction of new steps on the Allegheny County Court House when it broke.

Joseph Chicok, 40, of Lilac St., is also in Mercy Hospital because of injuries suffered when the derrick fell. Many pedestrians narrowly escaped injury.

FLIER KILLED IN CRASH

RIVERSIDE, Cal., June 27.—L. S. Draper, 22, of Portland, Me., was instantly killed near March Field here today while making a solo flight. The plane plunged to earth with the motor going at full speed. The exact cause of the accident has not been determined.

TRAIN KILLS BOY

ERIE, Pa., June 27.—Roy Covey, 14, eldest of a family of eight children, was killed today by a Nickel Plate train at Lawrence Park, when trapped on a small bridge while he was picking coal.

LYNCHINGS IN DEMOCRAT TEXAS GO UNPUNISHED

Negro is Murdered at Convention Door

By WILLIAM PICKENS

Houston stages a lynching as a sort of "semi-final" to the democratic national convention. This is certainly bad advertising for Texas, the South and the whole democratic party. The officials of Texas seem sensitive because of that bad advertising: in other words, it is not so much the lynching as it is the inopportuneness of the affair, that angers the officials. They would like to punish this particular set of lynchers for not showing better taste.

The feeling is somewhat like this: "If these fellows just had to lynch a Negro, why in thunder couldn't they wait until after the convention was over, and maybe until after the election in November? Or why couldn't the lynching have taken place somewhere else, not in the very city where the convention crowds are even now assembling?"

Any lynchers so bone-headed as that ought to be punished.

Earlier Lynching Unpunished

That is just where the leadership of the South fails: it cannot see that the only way to insure against an inopportune lynching, is to prevent all lynchings at all times and in all places. For example, just one month before this Houston lynching, a Negro was lynched in a little town known as Center, Texas.

If some of those who had lynched "Buddy" Evins on May 21 in Center were now serving in the Texas penitentiary, then these eight men in Houston would never have dared to commit another such crime.

If the law had been enforced and the criminals punished in the former affair, those tempted to commit this crime would have hesitated. No criminal would expect to "get away" with anything in Houston that he could not even get away with in Center.

Usually Self-Defense

Note that: Both in Center and in Houston the Negroes were charged with killing some white man, and that nobody has yet proved that the Negro did not kill merely in self-defense in both instances.

Everybody who knows anything about "race relations," knows that when a man of the helpless and hopeless minority people kills a man of the dominant people, nine cases out of ten it is a pure animal act of self-defense on the part of the man of the weaker race.

But whatever the crime, the only way to avoid the embarrassment of inconvenient lynchings, is to abolish lynching altogether and everywhere.

To Punish Lynchers?

We would respectfully insinuate that if the governor of the State of Texas had taken as effective action against the Center lynchers as they threaten to take against the Houston lynchers, there would have been no Houston lynchers.

While glad to publish the views of Mr. Pickens, the editor is of the opinion that the Negro masses cannot depend on suggestions that "the governor and the state of Texas" do something or other. We are of the opinion that the remedy lies in what the Negro masses will do. They can find allies only in the militant section of the Labor movement, which fights for the abolition of race division in the labor movement, and the action of the workers, black and white against the ruling class. Negroes cannot wait for freedom until the slave owners become abolitionists.—Editor.

100 MINERS MAKE BIG RELIEF TRIP THROUGHOUT OHIO

House to House Drive in Ohio Towns

(Special to The DAILY WORKER.)

PITTSBURGH, Pa., June 27.—Sleeping in open trucks and autos, and eating only occasional "hot-dog" sandwiches, more than 100 miners in groups of five and ten are touring Ohio as the vanguard of an army of miner-solicitors which is conducting house-to-house and store to store collections in every city in Ohio.

The mass solicitors movement is the result of a meeting held by relief committees from 26 local unions in the eastern Ohio mining field with Alfred Wagenknecht, director of the National Miners' Relief Committee. The new relief is under the direction of a miners' executive committee headed by Jack Bell of Yorkville, Ohio. James Vall, of Dillonvale, is secretary. Miners' youth organizations and organized groups of miners' wives have promised to swell the ranks of the relief army. Groups of volunteers have already been dispatched to Akron, Canton, Cincinnati, Cleveland, Dayton, Youngstown, Toledo, and other cities.

Two truckloads of food and $403 in cash was the immediate response of Canton workers. One of the Canton solicitors tells of an unemployed worker attracted to the miners by the unusual appearance of their pit clothes. The child had been sent to the grocery for a pint of milk. She contributed two cents, the change from the dime given her for the purchase.

A letter received by the office of the National Miners' Relief Committee from James B. White, captain of the Cincinnati group, pictures the hardships faced by the miners on the road.

Miner Writes.

"Arrived in Cincinnati this morning, broke. We sure had some trip, traveled a lot. I have met the relief committee here in Cincinnati and the mayor said he wouldn't let us solicit in Chillicothe and Portsmouth. Said he'd see all the children die before he'd let us solicit. The mayor in New Boston and the one in Irontown were sure good to us. They gave us the run of the town, but it was too bad we couldn't do anything because the town is very poor.

"We ran out of money so we had to sleep out in the truck and the machine and lived only on sandwiches until we arrived in Cincinnati.

DRAMA

"The Bells" Revived by East Side Stock Company

The East Side Stock Company, a new group of players, opened its summer season at 22 East 54th street last Saturday night with "The Bells". This new organization has installed special price of 35 and 50 cents for the present run. A new play will be given each week during the limited summer engagement. Later productions will include "Married for Money", "Frou-Frou", "Robert Macaire", "Camille", and East Lynne". The cast is headed by Byron McGrath, Lisa Remboy, Howard Claney, Emily Floyd, Marion Crowne, Lydia Cortese, Helen Grayson, Walter Ellsberg, Karol Remboy and Herbert Ratner.

"The Play Goes On," from a story by James A. Creelman, will be Conrad Veidt's next picture for Universal. Dr. Paul Fejos will direct. Veidt's most recent work was in "The Man Who Laughs," now at the Central.

Three features will go into production this week at the Metro studios. They are: "The Devil's Mask," starring John Gilbert; "A Single Man," co-starring Lew Cody and Aileen Pringle, and "Morgan's Last Raid," a frontier feature starring Tim McCoy.

Metro has purchased the screen rights to "Trader Horn," the best seller by Alfred Aloysius Horn and Etheledra Lewis.

Ludwig Berger is to make three more pictures for Paramount. This German director recently completed "The Woman From Moscow," in which Pola Negri and Norman Kerry are starred. Later on he is to direct one picture with Emil Jannings.

The Sovkino film at the Cameo Theatre, "The Station Master," has been doing fine business, and will be held over another week, along with the 97-dollar film, "The Suicide of an Hollywood Extra."

"The End of St. Petersburg," the other Sovkino classic, now showing at the Hammerstein Theatre, is also doing well—in fact the film is drawing a crowded house at each performance. This seems to be a Russian film season on Broadway.

The Jim Tully film, "Beggars of Life," is nearing completion at the Paramount studio in Hollywood. The company is headed by Wallace Beery, Richard Arlen and Louise Brooks.

BILLIE BURKE

Starred in Harrison Owen's comedy "The Happy Husband", now in its second month at the Empire Theatre.

"King's X," the play by Bruce Gould and Beatrice Blackmar, will be Jed Harris' second production of the season and will start an out-of-town engagement at Long Branch, Monday night. Ruth Gordon has the leading role and the cast includes Roger Pryor, Phyllis Povah, Osgood Perkins, Elizabeth Patterson and George Mac-Farlane. "King's X" will be brought into New York ea in September following the presentation of "The Front Page," the Ben Hecht-Charles MacArthur play, in August.

Edward Clark is preparing for his forthcoming production called "Relations." The comedy recently closed a run of nine weeks at the Vine Street Theatre, Hollywood. Edward Clark is the Author of "De Luxe Annie," and "Cinders."

The Columbia Theatre will continue playing Mutual burlesque shows at that theatre for the next five years. The Mutual now has forty-eight traveling companies and a circuit of forty-six theatres located in the larger cities.

Horace Liveright has signed Seymour Felix to do the dances for "The Dagger and the Rose," his forthcoming production which opens in Atlantic City, September 3. Seldon Bennett, Florence Earle, Ruth Tester have been engaged for important roles in this musical version of "The Firebrand."

HILLMAN BETRAYS WORKERS IN NEW UNION-BOSS PACT

Workers Denied All; Satisfies Bosses

The officialdom of the Amalgamated Clothing Workers Union have finally completed their betrayal of the mens' clothing workers in the New York market and have signed an agreement with the employers association which grants them the slave-driving system of piece work, the calling of a stoppage for the benefit of the bosses association and other points.

Complete Sell-Out

In return for all this the "field marshalls of labor strategy," president Sydney Hillman and his satellites, have blessed the tailors with an unemployment insurance fund a la Beckerman, which will be contributed to by the employers, and "distributed" by the graft machine in control of the New York Joint Board. Hillman also agreed not to ask for the 40-hour five-day week.

At a joint meeting of all the executive boards of New York locals, together with the delegates of the Joint Board, the agreement brought to them by Hillman, who came from the meeting with the bosses, was passed after not a single word of discussion. The meeting was attended by several scores of Hillman's functionaries. It was plain to even the staunchest followers of Hillman that the union leaders had given the bosses everything and had gotten nothing in return. When a vote was called for, there were several scattered "ayes," several isolated "nayes," while the great majority remained silent.

The officialdom of the once militant but now corrupted Amalgamated are calling approximately 400 shops out on a stoppage for the benefit of the bosses association, and for the further intrenchment of the union administrative machine. The stoppage affects the shops of the independent manufacturers, their contractors, and also those who are termed by the association as their own recalcitrant members. By stopping work in the independent shops and their contractors, the officialdom hopes to force them into membership in the association. By halting production in the factories of the "recalcitrant" bosses, the union chiefs intend to whip them into line to compel them to pay up their back debts to the employers organization, which is not strong enough to use pressure on its own members.

A Gentlemen's Agreement

The granting of piece work to the employers was accomplished without incorporating it into the agreement proper. It is an arrangement called by the bosses and Hillman a "gentlemen's agreement."

This new contract opens to the graft ring encircling the union apparatus wide vistas of golden opportunities for bribery. Piece work was not granted to the contractors, in general. But the contractors working for members of the association will get piece work. The query heard on every side is, "what can prevent the grafting officials from giving piece work privileges to any contractor?" "All that is necessary is for the officials to declare that this contractor is working for a large manufacturer," the outraged workers declare in answer.

Harlem Restaurant Will Donate to Mine Relief

The Health Food Restaurant of 1600 Madison Avenue, Harlem, will donate 35 per cent of its receipts on June 28th and June 29th to the relief of the striking miners and their families. The money will be turned over to the Harlem Committee for Miners Relief, affiliated with the National Miners Relief Committee.

Tammany Grafters in Full Glory at Houston Meet

Left to right: George W. Olvany, leader of Tammany Hall; Senator King, of Utah; Senator Robinson, of Arkansas, and James Eagan, secretary of Tammany Hall. An unusual view which shows types of amiability, craft and brutality which make up the politicians of the capitalist parties.

TAMMANY HALL IN $20,000,000 GRAFT

Twenty millions of dollars worth of city supplies which may or may not have been purchased but which in any case the taxpayers directly, and the workers ultimately, paid for and for which no books or records can be found — this is the picture uncovered by further probing into the $20,000,000 Tammany, street cleaning graft scandal.

Testimony before Commissioner of Accounts James A. Higgins who has been doing his best to sidetrack the revelations which seem to ooze forth in spite of him, disclosed that probably $20,000,000 worth of supplies have passed through the Department of Street Cleaning Warehouse in Brooklyn without any record of the specific goods being kept by the various Tammany officials in charge.

Automobiles to brooms, street cleaning machines to machine oil are the range of articles on the list which covers a period of twelve years. The chief clerk in charge, is Walter E. Roessler, who draws officially $2,455 a year for this "tremendous" task of accounting.

Although records are supposed to have been made in the general ledger at the main office, this has not been done in ten years, it was shown.

1,500 "VETERANS" JOBLESS IN PHILA

PHILADELPHIA, Pa., June 27.—Approximately 1,500 men who fought for American imperialism, at present living in this city, are out of work, and many of them are without food or shelter, it was learned yesterday.

These 1,500 men, only a small fraction of the unemployed workers of Philadelphia, are the "grand veterans" of the World War, the war with Spain, the Boxer uprising in China and the rebellion in the Philippine Islands.

Many of the men tell of being thrown out of their homes for being unable to pay their rent, and others tell of being sadly in need of food almost continually. Their service records, many say, are handicaps to them in obtaining employment.

So far, however, nothing has been done to relieve the intensity of their plight. Many of those who entered applications for jobs are still walking the streets of Philadelphia, while waiting for word to come from the jingoist organization. Families are still being evicted from their homes for failure to pay rent. And despite the fact that these men, who were tricked to the trenches during the war, are skilled workers in various trades, the seriousness of their situation remains unremedied.

PLUMBERS WIN RAISE

TORONTO, June 27. — Organized plumbers compromised their wage demand and will be paid an additional 5 cents an hour.

Workers' Calendar

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

• • •

Martins Ferry Picnic.

MARTINS FERRY, Ohio.—The Young Workers Club of Martins Ferry, Ohio, has arganged a picnic and dance to be held at the Volt's Farm here on July 8, from 10 a. m. thruout the day and night. All those wishing to attend should meet at the Hungarian Hall, Main and Central Sts. There will be refreshments, games, speakers, etc. Transportation to Volt's Farm is free.

• • •

Philadelphia Y. W. L. Excursion.

PHILADELPHIA, Pa.—An excursion for the benefit of the Young Worker, central organ of the Young Workers (Communist) League of America, will take place Saturday, July 7. Boats will leave the Chestnut St. pier at 10 a. m. and 2 p. m. Tickets are 50 cents; children, 25 cents. Tickets must be bought in advance from the Young Worker, at 1214 Spring Garden St. Otherwise the proceeds will not go to the Young Worker.

• • •

Milwaukee Party Picnic.

MILWAUKEE, Wis. — The second summer picnic of the Milwaukee Workers (Communist) Party and Freiheit Workers' Club will take place July 8, at the Pleasant Valley Park, Woodlawn Ave., West Allis, Wisconsin.

• • •

San Francisco Picnic.

SAN FRANCISCO, Cal.—The branches of the International Labor Defense of San Francisco, Alameda, and Contra Costa counties will hold a picnic at East Shore Park, near Richmond, on July 4.

• • •

Paperhangers of Boston.

BOSTON.—The Paperhangers' Union, local 258, will inaugurate a campaign for new members to extend over a period of 3 months, June, July and August. The initiation fee has been reduced from $100 to $25. The local calls upon all organized paperhangers of the city and vicinity to join the union and help to organize the non-union workers. The local union meets at the district council headquarters, corner Washington and Dover Sts., Boston.

• • •

Pittsburgh District Picnic.

PITTSBURGH, Pa.—The third annual picnic of the Workers (Communist) Party, District 5 has been postponed from July 4 to July 8. It will be held at Nicholson Farm, Swissvale, Pa.

• • •

Philadelphia Miner's Relief.

PHILADELPHIA, Pa. — Philadelphia Miners' Relief Conference here has arranged a picnic for July 29 at Maple Grove Park.

• • •

St. Louis Picnic.

ST. LOUIS. — The Young Workers (Communist) League will give a picnic and dance at Triangle Park, 4100 South Broadway, on July 4. Dancing, refreshment, games and athletic concerts have been planned.

• • •

Highland Park, Ill.

The Workers Party of Highland Park, Ill., will hold a picnic for Miners' Relief on Sunday, July 8, at Zahnle Grove. Refreshments, games, dancing.

• • •

Paterson I. L. D.

The Paterson Branch of the International Labor Defense will conduct a lecture by Max Schachtman on "Bleeding China." This lecture will be given at the Associated Hall, 201 Market St., Paterson, N. J., on Friday, June 29th, at 8 p. m.

TRAIN CRASH IN MASS.

SOMERVILLE, Mass., June 27.—Jumping the rails near Union Square this afternoon, two new locomotives of the Boston and Maine Railroad smashed against a concrete wall, dragged three freight cars with them and blocked the line of the Fitchburg Division. Thirty-four freight cars kept the rails. The train crews were bruised when they jumped or were thrown to safety. Two hundred feet of rails were ripped up.

BISCUIT COMPANY WORKERS SLAVE

(By a Worker Correspondent)

With the greatest interest I have read in your paper some articles exposing the conditions under which the workers of the National Biscuit Company are employed. I worked there for several years myself, and I can tell you that every word some of my fellow-workers have written is true. It's very consoling to know that we workers of the National Biscuit Company have at last begun to think how we can in some way get some protection against the oppression of our palm beach suit bosses and against the speed-up system which lays us off one or two days a week. There is no doubt that a workers' organization is the only power which can help us to obtain human working conditions, better wages and more protection for those of us who get sick.

If a worker gets sick in the National Biscuit Co. he very often loses his job. If he stays home two days he is sure of losing his job. Two months ago, two workers were discharged by the company because they were sick, and I remember that at the time they were hired—about five years ago—they were very strong and healthy. They gave their health up so that the company might build more plants; at the end of those five years they find themselves out of work because of blood infection! The doctor also told them that their condition was caused by bad blood due to overfatigue and lack of plenty of food. This is one of many such accurrences. If we had a strong union here which would fight for our rights as workers, these two and many others would not now be out of work. The company would not only not have discharged them, but would have paid them compensation during their illness.

—T.

JAPAN PLANS NEW INTERVENTION

SHANGHAI, June 27. — Belief that the Japanese government is intentionally fostering new anti-Japanese disturbances in China in order to have a pretext for intervention gains ground here daily as Japanese nationals continue to flout the anger of the Chinese crowds with every fresh arrival of troops.

The legation guard at Peking has been increased by 1,500 soldiers which is considered indicative by foreign opinion here.

Japanese troop trains of eighteen cars in length are no curiosity in China today and there is every reason for believing that the Japanese intend to extend their conquests beyond Tsinan in the immediate future.

BROACH SET FOR ELECTION STEAL IN LOCAL THREE

Workers Expose "Little Caesar"

Further evidence substantiating the charge that officials of Electrical Union 3 are planning an open election steal this Saturday when the union votes on its officers, was offered yesterday in quarters close to the administration of the union. These sources who for the time being do not care to be quoted, pointed out that at the union meeting held last Thursday at Central Opera House, H. H. Broach, International vice president, openly admitted the plan to steal the local elections.

Broach hinted that there is more than one way of stealing the elections, when at the last union meeting he said, "There is more than one way of killing a cat." In addition he strongly mphasized the fact that if he has anything to do with it there will be no change in the administration after the coming elections.

"By taking this stand on elections," it was declared, "Broach places himself in the class of Major George Berry, renegade president of the Printing Pressmens' Union, who has completely ruled out elections and is using the union merely for his own business purposes as a newspaper publisher."

"Broach has told the membership that it will require at least three more years to clean up New York. There are at least 20,000 unorganized electrical workers. In local 3 there are only 6,000 electrical workers, less than one-third of the workers employed in the electrical industry of the city. Not a finger has been moved nor a word spoken by International Vice-President Broach or the union officials in relation to the organization of the unorganized thousands of utility and alteration electrical workers.

"At a meeting held some months ago Broach stated that only 'two Communists and one half baked nut' were being excluded. At the last meeting these figures suddenly jumped to 85 members. Such deceptive statements by Broach do not erase the fact that more than 300 members are being excluded from union meetings. And yet our benevolent Mr. Broach speaks of cleaning up New York and obtaining better working conditions for the membership.

"At the last meeting of the local a resolution calling for the expenditure of more than $10,000 for the purchase of new automobiles for the Business Agents was placed before the membership. This at a time when unemployment and suffering of the workers is great. The purchase of new automobiles for the Business Agents is given precedence over the institution of relief measures for the unemployed members. What has Broach's machine in the local done to deserve reelection?"

Anthracite Sub-District Stages Picnic Saturday

The first picnic of the year in the Anthracite Subdistrict of the Workers (Communist) Party will be held June 30, Saturday, at Avondale Hill, Plymouth Township.

Dancing from noon 'til midnight, good music, games, in one word: a good time for everybody at the picnic; the proceeds will go to the Party organization fund. Admission is only 25 cents. Direction: Take W. Nanticoke bus at Plymouth, get off at Avondale mine; ask the committee for further direction.

TO DEMAND JULY RAISE AT FUR MEET

A mass membership meeting called by the Joint Board of the Furriers Union will be held tonight at Webster Hall, 11th St. and Third Ave., immediately after work.

Ben Gold, manager of the Joint Board will open the meeting with a report of the general trade situation, on the questions of the Progressive Bloc in the Joint Council, and on a campaign to secure the July wage raises for every fur worker in the trade.

"Last season," a leaflet calling the meeting declares, "the right wing Joint Council succeeded in selling out the fur workers to the bosses, who took advantage of this by dispensing not only with July raises but with all union conditions." This year plans must be formulated so that every worker in the trade will compel the recognition of the custom our militancy has established, namely, the granting of the July raises."

RAISE FOR OHIO PAINTERS

HAMILTON, Ohio, June 27. — A wage increase of 12½ cents an hour has been won by the Painters' Union.

CAPMAKERS WILL HOLD ANTI-PIECE WORK MEETING

To Demonstrate Against Zaritsky

All members of the Capmakers Union have been called to a mass meeting tomorrow evening, to protest against the organized and deliberate policy of President Max Zaritsky to foist the sweat shops system of piece work upon the New York membership. The meeting will be held in Manhattan Lyceum, 66 East 4th St. immediately after work.

The meeting will be a demonstration of protest against Zaritsky's destruction of the entire organization, by the expulsion and the dissolution of locals whose leadership is opposed to his policy of granting piece work to the bosses and the return of the 44-hour week, instead of the present 40.

In a statement issued by the left wing members of the union, it is pointed out that it was first necessary for the right wing to get rid of all militant elements who struggle against Zaritsky's continual surrender to the employers of the workers gains.

First Zaritsky removed the leadership of the Chicago strike against piece work, and then he called off this strike in spite of the fact that the season is now beginning. Holding out for a short period would have seen the capitulation of the bosses in the desire to avoid the loss of another season, the statement says. Zaritsky therefore tried to break the struggle by removing the progressive leaders, and now he calls off the strike outright.

Mr. Raskob Booms the "Smith Market"

Alfred E. Smith as president would give the country a constructive business administration. Business, big or little, has nothing to fear from Governor Smith. There is no occasion for business timidity during a presidential campaign. Business has outgrown the feeling that there is something to fear in campaign years. It is on too big a scale for that.—John J. Raskob.

Mr. Raskob is that prophet of the Stock Exchange whose word to a newspaper sent the prices of all leading stocks soaring. Raskob is chairman of the finance committee of General Motors and one of the monarchs of American finance-capital.

The whole life of Raskob is given to the organization and financing of huge concerns for the efficient exploitation of labor. Of supreme interest to him is the matter of forcing the hardest possible conditions of labor upon the hundreds of thousands of workers employed by the giant General Motors corporation and other concerns in which he and his associates are interested. Especially at this moment his corporations are concerned in the greatest possible lengthening of the working day. This is one effect of the universal spread of high machine development. When in all leading industrial countries the number of workers employed is decreasing in relation to the amount of investment in tremendous modern machine plants, the capitalists' greed for surplus value can be met only by increasing the length of the working day, intensifying exploitation and worsening conditions. Of most vital concern to Mr. Raskob at this time is the complete barring of all labor organization in automobile and steel manufacture and coal production.

Mr. Raskob is no fool. He knows that in the immediate years ahead there will be big and restless movements for the organization of huge mass unions in the automobile, steel and machine trades, and that the great mass union of the mine workers is now in process of being born. Raskob knows that right ahead will be strikes as big and even more important than the great steel strike of 1919-20 and the railroad and coal strikes of 1922.

Raskob knows, because he is no fool, that the full power of the central government and of the state governments will be required by himself and his fellow finance-capitalists, to crush the coming strikes, to attack and destroy the more vital labor movement that will grow out of the overthrow of such men as John Lewis, for instance, and the building of new, militant unions in the coal industry, the steel industry, etc.

* * *

Mr. John J. Raskob is interested in politics, because he is no fool, because no "syndicalist" illusions of "unimportance" of the state power have trickled through to his splendid offices. He knows that the state power is the decisive power in all class struggles.

Mr. Raskob is officially a republican. But that does not matter. He is one of those industrial-financial kings compelling the democratic national convention at Houston to nominate Alfred E. Smith for president (just as the same powers compelled the nomination of Hoover at Kansas City).

Raskob, living in Wall Street, knows that Smith has been advertised as somewhat "pro-labor" and "liberal," and that such names stick in the gullet of his Wall Street associates.

So Mr. Raskob tips them off again. "Big business has nothing to fear from Governor Smith." This means that Smith will obediently serve his masters, such as Raskob, in using the full power of the government, the army and the navy if needed, to crush the coming strikes, the most powerful executive office in the world to back up all legislation and court injunctions to devastate the trade unions. Mr. Raskob knows that a decision by the board of the General Motors, supported by the interlocking directorates of the big banks and the Steel Trust, would be instantly reflected in diplomatic notes of Smith's secretary of state and in orders of Smith's war department that would send United States armies marching in China, or Argentine, or to the borders of the Soviet Union.

* * *

Big business has nothing to fear from Al Smith, any more than from Hoover.

But the working class of America has everything to dread in the actions of Al Smith as president of the United States. The farmers have that to fear in the rule of Mr. Raskob through his servant, Al Smith, which they had to fear in the rule of the country by Mr. Raskob (with Morgan, Rockefeller, Mellon, etc.) through Coolidge—ruin, bankruptcy, expropriation. Even the "little business" referred to by Raskob can expect nothing but extinction at the hands of the trusts.

* * *

The Wall Street vultures represented by Raskob have something to fear only from one party. It is the party that is already furnishing all of the organized vitality that is behind the movements among the trade unions and unorganized workers for the big struggles which Mr. Raskob is afraid of. It is the revolutionary party of the working class, which is utilizing this election to rally the workers against capitalism—the Workers (Communist) Party.

Mr. Raskob is no fool, and he knows where there is danger to the rule of his class.

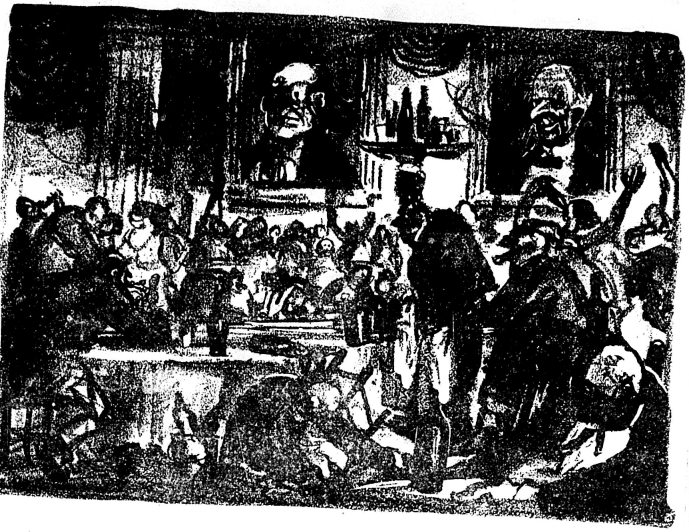
Many thousands of workers and exploited farmers will also learn it in the big red campaign of the Communist Party.

Vote Communist.

Join the Workers (Communist) Party.

THE PROHIBITION CAUCUS AT HOUSTON

By Fred Ellis



Holds Its Last Session.

A Crimson Day in Red Berlin

By LENWICK TONG.

The 27th of May was a bright and beautiful Whitsuntide Sunday on which the powerful, militant and well organized Red Front Fighters had their demonstration.

This was the fourth annual affair since their organization. But this year the demonstration has greater significance.

In the first place, the war danger has accentuated. A demonstration of this kind to show the strength of the workers certainly would make the capitalistic imperialists reckon many times before they dare to plan a war on Soviet Russia.

In the second place, before the election the German reactionaries did their worst to suppress this organization. But the high courts did not dare such an open act of repression against such a powerful organization.

In the third place, this demonstration was held right after the election which had showed a sweeping victory for the Communist Party. In many districts the Communist Party has shown an increase of over 50 per cent. Even in the most bourgeois territories the Communist element has increased more than that of any other party. Consequently, the Communist Party stands today second in Berlin and is the fourth party in Germany.

In this fourth demonstration the Lustgarten (The pleasure garden of the former German Emperors) was the place for concentration. The right of way was given to the demonstrators and all traffic to this square had been suspended by the police. As we have travelled in other capitalistic countries witnessing the arbitrary and oppressive measures of the police in suppressing any and all legal but radical meetings we wonder why the police in Berlin are so "different." But the reason is not far to seek, the Red Front Fighters organization is too powerful to be ignored.

* * *

Long before the time scheduled for the demonstrators to march in the immense throng had already overflowed the Lustgarden. Women and children had on their holiday clothes. Many wore red capes and dresses. Everybody was decorated with a red flower in his or her botton-hole.

The square is bounded on one side by the former imperial castle, at its right is the Dom or the Cathedral, on its left is a canal and opposite is an art museum. Covering the length of the Dom was a big red banner with the following slogan: "Comrades, The Red Front Enters the Communist Party." While that strung across the imperial castle was inscribed: "We swear that we are ready to defend the Soviet Union," and the same banner continued: "Each Factory is a Fortress of the Red Front."

On the museum steps stood a male choir of two or three hundred strong, while trucks with car-loads of young pioneers were parked alongside the cannal.

Promptly at 2:30 p. m. bands appeared from all the avenues leading to the square. Armies of Red Front Fighters were marching in to their appointed places. These armies were gathered from all parts of Germany or at least divisions were sent. They had been parading or marching thru the city since 6 o'clock in the morning. But all were in good spirits and showed no sign of weariness.

Aside from numerous red flags they carried there were many banners and placards with slogans of the following nature: "The Only Way to Victory is Over the Barricades," "We Will Revenge The Murder of Voikoff," "War Against War," etc.

Of course the square was entirely too small to accommodate the 500,000 people, 100,000 being Red Front Fighters and the rest being onlookers. Therefore people were overflowing the avenues.

* * *

The bugle soon announced the opening of the program. The choir sang the most stirring revolutionary songs. Although in the open, the strong voices were carried even to the most remote sections. Then speakers rose up at various quarters speaking to different groups. The shouting of "Hoch, Hoch, Hoch," or "Rote Front, Rote Front" were echoed and re-echoed everywhere.

At the end of the speech the speaker would read the pledge and his audience would follow and repeat each line. "This pledge or oath is certainly inspiring, herewith is the translation:

"Never to forget that world imperialism is preparing the war against Soviet Russia.

"Never to forget that the destiny of the working class of the whole world is bound up with Soviet Russia.

"Never to forget the experience and the suffering of the working class in the imperialist World War.

"Never to forget the 4th of August, 1914 and the betrayal of the reformists.

"Always and forever to fulfill my revolutionary duty to the working class and socialism.

"Always and forever remain a soldier of the revolution.

"Always and forever in all proletarian mass organizations in industries and factories to be a pioneer of the irreconcilable class war.

"On the front and in the army of imperialism to work only for the revolution.

"To lead the revolutionary fight for the destruction of class rule of the German bourgeoisie.

"To defend the Chinese Revolution and the Russian Soviet Union by any and every means.

"I swear:

"Always and forever to fight for Soviet Russia and for the world revolution."

* * *

The uniform of the Red Front Fighters is made of gray cloth. Some who came from South Germany, so I was told, wore khaki. The First Aid Squad was clad in white, as were the sport squads.

To show the popularity of the Red Front Fighters we only need to relate an incident: 75,000 of them jammed into the city of Berlin from various parts and they were accommodated and well cared for by their fellow-workers; while some time ago the Steel Helmet or fascist organization had a demonstration and they gathered about 16,000 people to come to Berlin, but no quarters were found for them. Besides, the Red Front Fighters individually or in group go around the city freely and always are warmly welcomed by workers, but when the Steel Helmets go around they are hissed and booed and often have to get police protection for their loafing about or demonstration.

In a word, the police had to be set in action to protect the Steel Helmets from the population.

Four Years Old.

The Red Front was organized in 1924. Ever since it has developed by leaps and bounds. Now there are 200,000 members in the organization besides the 50,000 Red Youth Front 30,000 Red Women Front and 20,000 Pioneers.

They are all in uniform and under one organization.

About 25 per cent of the Red Front belong to the Communist Party, while the rest are mostly workers of non-political connections, although some belong to the Social Democratic Party.

Any one with red blood in him would join this active and progressive organization, but, of course, when a disloyal member is found out he is kicked out.

Anyway, the Red Front is absolutely under the Communist direction and in case of an imperialist war it would be the "Storm Troops" of the proletariat. Moreover, 200,000 strong is no guage of the strength of the Red Front, for, only those above 21 can join the organization, while those under that age would belong to the Red Youth.

The social-democratic leaders would sell out when the crisis comes, but many of the workers in that organization will come over to the Communists. To illustrate, the Communist Party in Germany may not have members up to the mark of 150,000 but according to the return of the election about three and a half millions voted for the Communist ticket.

Again, the actual number of the Red Front in Berlin has shown a decrease this year due to the strict discipline and the time required of them. The policy is to make every one active and weed out all dead timber. Despite this the voting on the Communist ticket even in Berlin has increased more than any other party.

In Key Industries.

The strength of the Red Front is firmly established in the key industries, such as the chemical, steel and metal, including the harbor workers.

In the agrarian district of East Prussia since the attempt of the reactionary to suppress this organization 1,800 new members have been recruited from there.

* * *

Again, to estimate the real strength of the Red Front we must not overlook its superb morale. Compare it with the Steel Helmet which is nothing but a mercenary horde of the capitalists. Even the well trained and equipped soldiers of the imperialists would go into the battle fields for no other purpose than to earn their bread and butter. The Red Front Fighters are an army of class conscious hard working men. If they fight they are fighting for a cause. They fight to loosen their own chains and to free their fellow workers under oppression elsewhere. Therefore when they take that oath as quoted above they fully realize its meaning and when they sang "The International" with the following words they surely cannot fail to grasp the significance:

"Arise! ye prisoners of starvation!
"Arise! ye wretched of the earth:
For justice thunders condemnation,
A better world's in birth!" etc.

In the Red Youth Front annual conference a couple of days before this demonstration we witnessed similar revolutionary display and atmosphere. It is certainly an inspiration without proceeding further into that home of the proletariat—Moscow. Anything comparable to this outside of Russia would be the mass demonstration in China when the revolution was in the hands of the proletariat and under Soviet advice.

Although all the capitalistic countries now are getting more and more reactionary and fascistic, the workers are becoming more and more class conscious, better united and organized. We certainly cannot presume that the German ruling class is merciful and tolerant. Force is the only argument that the ruling class can understand.

Let workers of other capitalistic countries organize as well as those of Germany. The most die-hard imperialistic cliques in America, France, Japan, Italy, Poland, etc. would be just as "tolerant" as that in Berlin by permitting such open revolutionary meetings and demonstrations—if they have to be.

WORLD TRUST GRIPS CHEMICAL INDUSTRY

Byy LELAND OLDS.
(Federated Press.)

A capitalist chemical colossus bestriding the world is revealed as successor to the pre-war international munitions ring in the report of Chairman Alfred Mond to the first annual general meeting of the Imperial Chemical Industries, Ltd.

The Imperial Chemical Industries has interests in Canada, Australia, New Zealand, China, Japan, the United States and on the European continent. It is rapidly expanding. In 1927 it acquired more than 99 per cent of the capital stock of Brunner Mond, Nobel Industries, United Alkali and British Dyestuffs together with practical ownership of Cassel Cyanide, Union Acid and several other important chemical companies.

"I. C. I.," said Mond, "now has complete controlling interests in 40 manufacturing and trading concerns and a large measure of control over more than 30 other companies. The principal constituent companies have always worked in relations of complete harmony with several foreign companies, notably with Solvays, Allied Chemicals and DuPonts. With foreign concerns interests must touch at many points and it is only natural that all should desire to reach understandings on such matters as exchange of technical information and prevention of uneconomic production."

Imperial Chemical has investments in DuPonts, General Motors and Allied Chemical. Recently the alliance has been strengthened by the establishment of the Finance Co. of Britain & America, Ltd., with capital stock held equally by Mond's combine and the Chase National Bank of New York. Its purpose, according to Mond, is to supply credit, reorganize and develop industries in any part of the world except Russia.

HANdOuTS

The lyric cry of recognition that rises to the lips of one apologist for capitalism when he beholds another brother of the ilk quivered upon the pages of the New York Times when Evans Clark, star "economist" of the Times, rose on his hind legs and crowed for all the world to hear that George Bernard Shaw's new book, "The Intelligent Woman's Guide to Socialism," is a "monumental" work.

In addition to tooting the kazo for George, whose whiskers are the pride of the Second International, Mr. Clark also tried to take Karl Marx down a few pegs. Marx may have been right as far as British capitalism is concerned, Clark chortles, but he was all wrong about the land of the brave and home of the free where the bosses are cooperating to keep prices as low and wages as high as possible. And to prove that Marx was wrong this ex-socialist proceeds to pervert him. Which really proves that Mr. Evans Clark has an acute, un-Marxian nose for whiffing the direction from which his pay-check comes.

* * *

Our prosperous contemporary, the Wall Street Journal, announces that a 10 per cent cut has been made in the prices of Firestone Tires. This should be hailed with a rousing cheer by the proletariat. No worker now need let his Hispana-Suizas, or Rolls-Royce fall into decay for lack of a few dollars.

* * *

Frank G. Gannon, superintendent of Street-Cleaning now on trial for graft in New York, managed to save $111,588 in 3 years on a salary of $3,800 a year. When asked to explain this phenomenon, Gannon answered "A little birdie gave it to me." Which means of course, that Gannon, while playing golf with the business men of the city, arranged the graft between shots.

* * *

GEMS OF LEARNING

Fred C. W. Parker, in the Kiwanis Magazine: "Shelley, I believe, once said, 'Hell is a city like ......' If Shelley were referring to our convention city he would revise his statement and say, 'Heaven is a city like Seattle'." Not if he worked in the sawmills.

William J. Smith, Business man: "I'll tell you what has been my most valuable idea. In learning to be grateful for what I have, I learned the most important lesson of my life. People are usually fighting to gain material things, and when they learn to be satisfied with what life has given them they begin to be happy." If life has given you yellow jaundice and pyorrhea be satisfied with it. Don't ask for more!

An Appeal to Those Who Toil

By PAUL REISS

Comrades! Workers!

There is little to be added to the things already said and written through the numerous appeals in The DAILY WORKER, how important it is to rush aid in the form of funds in order to keep The DAILY WORKER. Our DAILY WORKER. Your paper and my paper, the mouthpiece of the revolutionary workers that is in grave danger.

The DAILY WORKER is in danger of being destroyed and at this time not by direct force of the authorities, the enemy of the working class, but by lack of support from the workers themselves; by lack of funds to keep up the spark of the most important fighter for the worker's cause everywhere.

Time For Action.

This is not a time for beautiful nor sentimental appeals; nor is it a time for sighing and crying about how bad it is that our DAILY WORKER may have to go down. Some of the appeals have been very beautifully worded and very entertaining to those who like to listen but are not up to act. Beautiful words are good in peace time, not in time of war and danger. At such time, action counts. The hour for action is here. You are playing a tremendous part in this struggle to save The DAILY WORKER. The way to keep alive the spark of the revolutionary mouthpiece of the workers of America is not by listening to beautiful words and appeals but by action,—quick and determined.

Comrades, you must act now. This very minute. You must dig deep into your pockets and contribute the last nickle, the last penny, that you have. Contribute until it hurts—now as never before. YOU MUST! YOU WILL!

Making History

This very minute you are making history of the working class. Every minute that you lose in hesitation you are postponing that much further the gains and the victory of the workers. Altogether with united effort we shall win, save and keep our DAILY WORKER. We shall make it much stronger, much more powerful than ever before. Let The DAILY WORKER be the beacon light of the workers towards victory.

From the White Spot of the world—from Los Angeles, we the comrades are appealing to you comrades in different parts of the country and ask you to do your share.

DEA[illegible]ENTENCE FOR [illegible]UNISTS IN JA[illegible] LAW

Fascist Re[illegible] Fears Growing Influence

TOKIO, June 28.—A new "peace preservation law" approved today by the Privy Council will make liable to capital punishment any person who seeks to change the "fundamental constitution of Japan." The law is admittedly directed against the Communist Party and other left wing workers' organizations.

The legislation is the culmination of a series of laws and police raids directed against militant sections of the working class. Since the gains made by left wing workers and peasants in the last national elections, the government has used every means in its efforts to curb the growing radicalization of the masses.

The new law also provides for a minimum punishment of ten years imprisonment for all persons joining "secret societies" aiming at the destruction of private property.

Thousands of workers were arrested and jailed in the recent "red raids." A number of left wing newspapers and organizations were suppressed.

• • •

TOKIO, June 28.—Reinforced with cabinet's ten votes, the privy council is expected to pass the measure, which the opposition has been delaying for a number of days, making

(Continued on Page Three)

YOUNG WORKERS HOLD CONFERENCE

Communist League of District 5 Meets

PITTSBURGH, Pa., June 28.—A special district "Build the Young Workers League" conference was held here on Sunday, June 24, 1928, in the Labor Lyceum, 35 Miller St.

There were 44 delegates at this conference, representing almost all the units of the Young Workers League in the district. The majority of the delegates were young miners representing many units in the mining camps of Western Pennsylvania. During the 14 months of struggle against the coal operators and their agents the Lewis administration, the young miners were fighting in the front ranks. At present they are rallying to the banners of the Young Workers (Communist) League in all parts of the district.

Representatives of the National Executive Committee of the Young Workers League yesterday reported on the miners strike and the role of the Young Workers League.

Party and League

A report on the Party and League relations was made by the District Organizer of the Workers Party, A. Jakira, in which he emphasized the necessity of maintaining the correct relations with the party which is the leader of the workers in their struggles.

The main report to the conference was made by District Organizer of the Young Workers League Dave Mates on the necessity of building the League in the district and deeply rooting the Young Workers League among the young miners and steel workers in western Pennsylvania.

SHIP LEAVES TO SEEK AMUNDSEN

OSLO, Norway, June 28.—Another relief expedition was scheduled to leave for Spitzbergen tonight from Aslesund to aid the search for Raold Amundsen, Norwegian explorer, and his five companions who were lost on a flight to rescue the members of the Nobile Arctic expedition. The ice ship Veslekari, chartered for the trip, will be in command of Captain John Olsen, an experienced Arctic man.

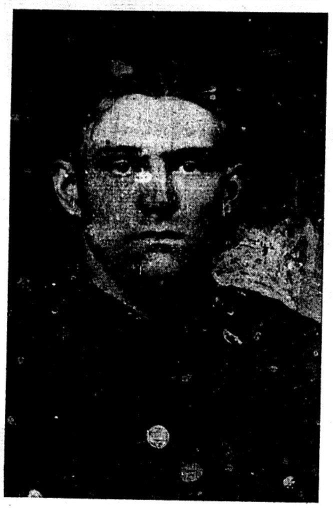
Major Grant and two Norwegian fliers will be aboard the Veslekari with a contingent of planes, and will make flights over North East Land and Spitzbergen after the ship has established a base.

The campaign to raise funds for the expedition is going ahead enthusiastically. More than 70,000 kroner were collected today.

BUILD GIANT ZEPPELIN.

FRIEDERICHSHAFEN, June 28.—A giant new Zeppelin is completing construction here. The Maybach motors, using gas fuel, have been increased by 100 horsepower, but such speed prevents the motors from working as smoothly. The engineers expect to overcome this deficiency, however. Trial flight will be made late in July.

Young Worker in Toils of U. S. Militarists



John Porter, organizer of the Young Workers League and vice-president of the New Bedford Textile Union, who may be sentenced to a life-term in jail if the United States militarists have their way. He is now in Fort Adams jail, Newport, R. I., awaiting court martial for deserting the army. Only the mass protest of the workers can force his release.

CROUCH WILL VISIT PORTER IN HIS CELL

NEW BEDFORD, Mass., June 28.—John Porter, young textile strike leader who deserted the U. S. Army because it is against the working class, and then joined the Young Communist League, is still being held in the prison of Fort Adams, Newport, Rhode Island, to face court martial.

Paul Crouch, the Communist ex-soldier who was sentenced to a 40-year term for trying to organize a Communist League in the army post at Hawaii, started out yesterday for Fort Adams with Porter's attorney to pay Porter a visit, it was learned yesterday.

The International Labor Defense the Young Workers (Communist) League, as well as the New Bedford Textile Union, of which Porter is vice-president, have been trying to obtain his release, but have been unsuccessful till now. The attorneys for the I. L. D. are trying to force the case into the civil courts.

This is because it is feared that a brutal sentence may be passed by the army czars sitting in court martial. They have full power to throw him into jail for even a life term.

A.F.L. COMPLETES POLITICAL DEAL

Green and Morrison At Houston

HOUSTON, June 28.—The prearranged program by which officials of the American Federation of Labor carried out its political betrayal of organized labor took form here today when Wm. Green, president and Frank Morrison, secretary of the Federation appeared before the platform committee of the democratic party.

Most significant of the demands was one for federal control of the coal industry which is taken to mean that the A. F. of L. is ready openly to abandon all struggle in the mining districts.

"Labor wants the five-day week," Morrison declared, "as soon as social and economic conditions would permit." This qualification it is pointed out brings the demand well within the limits to which even Andrew Mellon, notorious open-shop coal operator, and secretary of the treasury, can go.

Green went even a step further in what is seen as its increasingly open support of trustified industry when he appealed for modification of the Sherman anti-trust law. In addition Green and Morrison sought a plan calling for 2.75 per cent beer, an issue which is seen as a move to strengthen the position of Al Smith.

MAINTAIN DONETZ PLOTTER'S GUILT

Rabinowitch Fails to Shake Witnesses

(Special to the Daily Worker)

MOSCOW, U.S.S.A., June 28.—Huge crowds of workers, cramming the court of justice where the trial of the technicians accused of counter-revolutionary activities in the Donetz basin is in progress, yesterday heard the former coal controller Rabinovitch try and fail to shake the evidence that witnesses had brought against him.

All the witnesses again and again repeated that Rabinovitch had been a member of the sabotagers organization.

Following the examination, the report of the technical experts was read.

Tomorrow's session of the court will be held in camera.

Dry Raiders Seize New Jersey Coal Tar Plant

Property valued at $1,500,000, the entire plant of the Atlantic Coal Tar Distillates Company, of Elizabeth. N. J., was seized Monday by Prohibition agents, it was revealed yesterday. It is alleged that the company was operating an illicit distilling plant.

The seizure was announced by Colonel Arthur JJ. Hanlon, New Jersey prohibition administrator, acting under orders from Washington. He led the raiding party of 19 men, who entered the plant during working hours ordered all the employees to quit the premises and settled down to retain possession.

So far as was learned, no arrests have been made.

SEE EFFORT TO EXTRADITE BELA KUN TO HUNGARY

Reactionary Press Yelps For His Murder

(Special Cable to DAILY WORKER.)

VIENNA, June 28.—Continuing to lament that Bela Kun, Hungarian Communist leader, sentenced two days ago by the Austrian "socialist" government, received only a three month jail term, the capitalist press here is attempting to re-open the whole question in the hope that Kun may yet be extradited at the bidding of the Horthy government.

The capitalist press is indulging in the most savage expressions of regret that Kun was not sentenced to a longer term, the organ of the Pan-Germans, the party of which Dinghoffer, who feigned to oppose the extradition of Kun, is a member, going so far as to regret that Bela Kun was not murdered.

The Communist press here sees in the continued press campaign an attempt to re-open the whole extradition question.

OHIO MINERS IN DRIVE ON SCABS

Lewis Shuts Off All Relief

(Special to The DAILY WORKER.)

GLOUCESTER, Ohio, June 27.—A shipment of scabs from the south brought into Hocking Valley by the Sunday Creek Coal Company in an attempt to open three of its mines was stopped and turned back by a mass picket line of determined coal diggers. The strikers and their women folk paraded the roads from railway station to the tipples day and night during the past weeks, thus defeating the operators' att pt to resume work at the mines on an open shop basis.

Continues Treachery

Oral Daugherty, deposed president of this district of the United Mine Workers of America, has claimed a large following in his "back to work" movement in this part of Ohio. Daugherty advocated return to work "for whatever you can get" or "starve to death" as the alternative. He is openly supported by business men's organizations. However, in spite of the wide publicity the general press is giving his propaganda and the admitted support from the business men, mass picket lines prove that Daugherty has few if any adherents in his home district. He does not even claim a following anywhere else, although his propaganda is spread broadcast.

Picket Eastern Ohio Mines

A similar attempt to open four mines in eastern Ohio Tuesday, June 26, was also met with defeat. Four picket lines and state troopers were present, but not one applicant for a job made an appearance.

In eastern Ohio no relief at all is distributed by the union. The National Miners Relief Committee alone is saving thousands of families from literal starvation. In Hocking Valley, however, families of six, seven or more receive only from $1 to $1.25 a week.

Urgent Appeal

Alfred Wagenknecht, relief director, has sent telegrams to relief committees in the large cities, asking that all funds on hand be sent to the national relief headquarters, 611 Penn Avenue, Pittsburgh, to permit another carload to go forward to Ohio immediately.

AID MINE RELIEF.

On Saturday, June 30th, there will be an entertainment organized by the Spanish Workers' Club at 55 W. 113th Street. All proceeds of the affair will go to the Miners' Relief. The entrance is absolutely free. All are invited.

TEXTILE WORKERS TO HOLD DEMONSTRATION DESPITE POLICE EDICT

Mill Barons' Police Still Refuse to Permit Demonstration in Spite of Protests

Textile Mill Committee Plans Campaign to Meet New Boss Offensive

(Special to the DAILY WORKER)

NEW BEDFORD, Mass., June 28.—Isaac Sherr, a New York attorney sent here by the International Labor Defense, has begun a fight for the immediate release of William T. Murdoch and Fred E. Beal, leaders of the striking textile workers here who are in jail for leading picket demonstrations at the mill gates. Murdoch is imprisoned under a 90 day sentence, and Beal, 30 days.

• • •

NEW BEDFORD, Mass., June 28.—Thousands of textile strikers are expected to turn out for the giant mill workers' demonstration Saturday in spite of the fact that the police still refuse to grant the New Bedford Textile Mill Committee a permit. The Committee has announced that the workers are overwhelmingly in favor of the demonstration in spite of the police edict.

On the picket lines this morning and at the gatherings of workers later in the North and South End halls, the chief topic of conversation was the so-called reopening of the mills, blared forth by the local press here as scheduled for July 9. This loudly heralded gesture of the mill owners is correctly estimated by the workers themselves as a ruse and an empty boast.

"We are the ones who closed the mills, and not the bosses; and we alone can open the mills," is the sentiment among the strikers. At the mass meetings held daily by the strikers when they come back from day's picketing and also held in the afternoons, the leaders of the union tell the strikers that it is to be expected that a few scores of scabs from out-of-town may be imported in order to create the illusion that the employers succeeded in getting workers back to work. This will give the bosses' newspapers a chance to fill the air with a smoke screen that the strike is ending. Therefore the strike leaders call upon the strikers to meet the challenge of the employers on July 9.

• • •

Harry Ehrlich, on tour for Workers International Relief in New England, reports that workers in New England are beginning to realize that the New Bedford strike is of vital importance not only to the workers in New Bedford but for all the workers in the textile industry.

The workers in Lawrence, Lowell, Nashau, Concord and other textile centers in New England have organized relief sections of W. I. R. Tag days, house to house collections, picnics, are now on the order of the day to help out the New Bedford strikers.

It is interesting to note, Ehrlich reports, the anti-strike activities by those who profess to be leaders of labor. The A. F. T. O., and the U. T. W., now in a holy alliance, have secured the aid of the politician and police departments in various cities, in an effort to stem the relief that is pouring into the W. I. R. relief offices, which is taking the leading part in relief work for the New Bedford strikers.

To Be At 'Daily' Affair

Prof. Leo Theremin, distinguished U. S. S. R. scientist and inventor, who will perform on his new invention, by which he draws music out of the air, at the great DAILY WORKER concert at Coney Island Stadium July 14.

Prof. Theremin Will Star at the "Daily" Concert

Music in the modern manner will be the order of the day at the great concert and entertainment, to be held July 14 at the Coney Island Stadium. In addition to Prof. Leo Theremin, who will exhibit his famous invention that enables music to be drawn out of the air, Volpe's Orchestra of 50 musicians will play futuristic jazz in a way that will make it hard for the 25,000 workers, who are expected to pack the Coney Stadium, to sit still.

The announcement that Theremin will be on the program has aroused widespread interest among the workers of this city. Prof. Theremin, who arrived in this country only a few

MINERS ASK MOND TALKS SUSPENDED

Reject Collaboration with Employers

LONDON, June 28.—The Miners Conference of South Wales has resolved to suspend the so-called "industrial peace" negotiations between members of the general council of the Trades Union Congress and a group of employers headed by Lord Mond.

Resolution has been handed to the South Wales miners' delegation in the Trades Union Congress which has been instructed to vote against continuance of the negotiations.

The general council of the Trades Union Congress has accepted the proposal to form a permanent industrial committee of workers and employers. In September, the Trades Union Congress will be asked to ratify this acceptance.

GOVERNOR WILL NOT PARDON MOONEY

Only Hope Is Nation-Wide Protest by the Working Class

Following closely upon the heels of the agitational campaign for the freedom of Mooney and Billings from life imprisonment, begun by the International Labor Defense, comes the report from Sacramento, Califronia, that Governor Young will not consider issuing a pardon to the two victims of the frame-up system.

This action, it is pointed out here, is a thorough vindication of the position taken by International Labor Defense which is urging that no reliance be put upon the courts and governors who are part and parcel of the enemies of Mooney and Billings, but that all efforts be put into organizing a working class protest movement throughout the world which will exert sufficient pressure to force the release of the two labor fighters.

Already, as a result of agitation organized by the I. L. D., a number of labor organizations and labor papers have taken a renewed stand for Mooney's and Billings' freedom. Only a few days ago, the Milwaukee (Wisc.) Federated Trades Council upon a motion by Jac. Friedrick of the Machinists' Union, adopted without a dissenting vote a motion for the release of Mooney and Billings. At the same time it recorded itself in favor of the freedom of the Centralia I. W. W. who have now been imprisoned for nine years in Walla Walla., Wash. prison.

As a part of its campaign, the Labor Defender, the official organ of the International Labor Defense, has given over its July issue to a special Mooney-Billings number. The story of the entire frame-up case a letter from Tom Mooney and photographs of the figures and incidents in the fight are features in this issue.

DEMOCRATS DODGE ALL REAL ISSUES

Tammany Tiger Goes Bone Dry

(Special To The DAILY WORKER.)

HOUSTON, June 28.—Politics as it is played on a national scale by performers who have neither principle nor conviction to maintain was illustrated here in the recommendation to the democratic convention by its platform committee of a prohibition enforcement plank which completely repudiates the position of its assured candidate for president, Al Smith.

And Al Smith will swallow the plank, dry as it is in one gulp—and will unquestionably claim that he likes it, except in the East where he will do the trick with a slight wink of one Tammany eye.

Gone is the boasted states rights issue. In its place is a quibble about amendment if the "consciousness of mankind" demands it.

Dubious Farm Plank.

Other planks recommended are one equally dubious on farm relief which amid an onslaught of verbiage promises precisely nothing. In addition considerable is said about the corruption of the republican party which is apparently to be the main issue of the coming campaign. In other respects also the platform will follow the obscure and straddling model set up by the republicans at Kansas City two weeks ago. A good platform from the capitalist point of view, it has been said, should be like a many-colored stained glass window: whoever gazes through it should

(Continued on Page Two)

ZINOVIEV BACK IN PARTY, RUMOR

Kameneff, 36 Others Readmitted, Report

BERLIN, June 28.—It is reported here in the conservative press that the Praesidium of the All Union Communist Party has voted to take back into the party Zinoviev, Kameneff and thirty-six other former members of the opposition.

Zinoviev, Kameneff and the others acknowledged their errors and completely repudiated Trotskyism, the report states.

No verification of the report has yet been received.

Discover Huge Deposit Of Feldspar On Farm

ALSTEAD, N. H., June 28.—An enormous slab of feldspar, 100,000 feet square, said to be large enough to meet the requirements of America for a generation, has been discovered on a farm here. The deposit is adjacent to feldspar and mica mines which are among the largest in the world.

The announcement, which dismisses a fear that this country's supply of fluxing agents for glass, tiles, pottery, brick, etc., might be approaching depletion, was made today by the industrial development department of the Boston and Maine Railroad, after a report by Charles E. Locke of the Massachusetts Institute of Technology.

JOINT DEFENSE JAMBOREE JULY 7

Thousands Expected At Gala Affair

The great picnic and jamboree of the Joint Defense Committee of Cloakmakers and Furriers, which will be held Saturday, July 7, in Starlight Park, is expected to attract thousands of workers. Present plans indicate that this will be one of the greatest working class celebrations of the year.

An elaborate program of entertainment is being arranged, which will last thruout the day and well into the evening. Sports of all kinds, swimming and dancing are included. In order to enable all militant workers to attend this affair, The DAILY WORKER has decided to postpone its picnic in Pleasant Bay Park, which was originally scheduled to take place July 8. It will be held about the middle of August.

FIND BARGE WORKER'S BODY.

MT. VERNON, N. Y., June 28.—The body of John Scott, 26, of 68 Lawrence St., Brooklyn, today was recovered from the waters of Eastchester Creek here.

Sweeping Injunction Bars Iron Workers Union from Picketing Open Shop

STRONG LOBBY IN INDIANA KEPT UP BY POWER TRUST

Schools, Newspapers Use Propaganda

WASHINGTON, June 28.—A powerful lobby was maintained before the Indiana State Legislature to oppose legislation unfavorable to the public utilities corporations of that state, John Mellett, of Indianapolis testified before the Federal Trade Commission's power trust inquiry today.

Mellett's testimony concerned the period from 1920 to 1927, when he was executive secretary of the Indiana Public Utilities Association and director of the Utilities information Bureau. He resigned these posts last year.

Albert Stump, Democratic nominee for United States Senator in Indiana, was paid about $1,300 in 1921 and 1922 for making speeches on public utilities subjects, according to Mellett's testimony.

Mellett testified that 30,000 to 35,000 column inches of information published in his "Hoosier Utility," a weekly bulletin, has been reprinted in Indiana newspapers. The "clip sheet" was sent to all newspapers of the state, high schools, women's clubs and libraries.

In addition to the bulletin the utilities association issued six "school bulletins" annually to about 300 high schools. In 1925, 21,790 of these pamphlets were distributed. School principals were sent copies and asked whether they could use them in their classes, and usually responded in the affirmative.

WASHINGTON, June 28.—Thirteen thousand school children in Kansas are being taught from a textbook which power propagandists compiled and distributed, and which a leading educator riddled with criticism, the Federal Trade Commission learned today.

H. Lee Jones, director of the Information Bureau of the Kansas Public Service Companies, testified in the commission's investigation of the Power Trust that only "immaterial" changes had been made in the book after the criticism. The record showed that the statements the educator challenged were not changed. Seventy five percent of the book—"The story of our public utilities"—is "an exact reproduction" of text material prepared by the Illinois propaganda committee, Jones testified.

Jones submitted the book manuscript three years ago to Dr. P. F. Walker, dean of the school of engineering of the university of Kansas. Walker was paid $40 for examining and criticizing it. Correspondence showed he did not know it was to be used in schools.

Gas

A section of the book teaching the children about natural gas, the one not taken from the Illinois committees publications, began with this statement:

"One of the duties of the Bureau of Mines is to publish information showing how efficiency in the production and utilization of fuels may be increased and waste prevented. In accordance with that duty this manual has been prepared for distribution to those who use natural gas in their homes".

The pamphlet then quoted the late Joseph A. Holmes, first director of the bureau.

"The impression is given that the pamphlet is a Bureau of Mines Publication", Dean Walker noted in his report. The bureau is a federal agency, under the Department of Commerce.

And Profits

A discussion of the relative efficiency of an electric motor and a steam engine, in the same book, made an unfair comparison and gave "an erroneous impression", Walker reported. Depreciation was confused with maintenance in one section, essaying to teach the children about utility financing, according to Walker.

The book also taught that utilities "make no profits in the sense that most businesses do".

DISABLED MINER THROWN ON SCRAP HEAP BY CAPITALISM

By W. J. WHITE

(Special to The DAILY WORKER.)

PITTSBURGH, June 28.—Martin Kasper was hurt in the mine of the Indiana and Jefferson Coal Co., at Iselin, Pennsylvania. His foot was broken and crushed by a fall of slate in the mine. This happened in August, 1925. After being out of work for two months the Compensation Agent L. S. Kishbaugh, 910 U. S. National Bank Building, Johnstown, Pa., sent Kasper to a company doctor by the name of Griffiths, who was to pass on the injury, and if he said Kasper was fit to go to work then he was to return to work.

Sent to Hospital

Dr. Griffiths sent Kasper to the hospital at Indiana, Pa., where his foot was examined by a certain Dr. Moore, who on examining the X-ray of the foot told Kasper he was to lay off work for at least seven or eight months. In spite of this fact Kasper was ordered back to work by the company doctor after he had been out of work for two weeks.

Kasper, who was in no condition to work, came to Pittsburgh to see the Polish Consul at 249 N. Craig St. The Consul sent Kasper to a doctor Landon who upon examination reported on December 3, 1925, that Kasper was not fit to go to work, and that he must have monetary support until he was able to find an easy job.

Finally, Kasper, after many months of weary waiting, secured a lawyer to take his case on the 17th of Oct., 1927, but the only result of this hearing was that the compensation board was sustained by the courts and now after nearly three years, this worker in the prime of life is in the county home at Mayfair, Pa. He paid the lawyer $45, the doctors $15, and the Polish Consul $2.90 for postage out of a compensation of $234.

Kasper is a permanent cripple and can not work, nor can he get the necessary money to have an operation performed on his broken foot. In his present state he is on the capitalist scrap heap for the rest of his life, and the coal companies are freed from taking care of him. The International Labor Defense is taking his case up with a lawyer, but the chances are very slim that he will ever get any more compensation. In the rush for profits he is merely tossed aside.

SOVIET WOMEN SEND GREETINGS

Kate Gitlow Brings the Message to U. S.

(Greetings from the Women Workers and Peasants of the City of Moscow and Moscow Province to the working class women of America. The greetings are sent with Kate Gitlow.)

The working women of Moscow, the Red proletarian capital of the Union of Socialist Soviet Republics, send their greetings to their dear comrades, the working women of capitalist America.

Availing ourselves of the opportunity we wish to convey to you thru the comrade departing for America that we to-day, free builders of the first Soviet country, always remember you are caught in the shackles of the capitalist order.

"Land of Gold"

They say of America that it is a land of gold. Yet we know that this gold represents the blood and sweat of millions of toilers, and we know that this gold is concentrated in the hands of a small clique of parasite exploiters wallowing in luxury and enjoying all the pleasures of life while the overwhelming masses of worker-producers have been dispossessed of the fruits of their toil and committed to a miserable existence. We know that in your country there are 2 millions of unemployed, and that the burden of oppression rests heaviest of all on the proletarian women.

We call upon you to rally round your Communist Party in order that you very effectively raise the banner of struggle against the capitalist class. For our part we pledge to the proletariat of America all our help and support.

We deem it appropriate to relate to you the great success we have achieved within the space of ten years of our Revolution. We, the women workers, actively assist in the building of our Socialist state, in the development of our industry since we are the owners of our country. We are socializing agricultural life, consolidating small and weak patches of land into great electrified communities using powerful equipment.

In Union Work

We take a prominent part in the councils of workers and peasants and thousands from our ranks have assumed leadership and are occupying most responsible governmental positions. You will find us in the midst of trade union work, of cooperatives, and other social organizations, functioning as equal members of one working class family. We devote a great deal of our energy to the organization and maintenance of kindergardens, working homes and various institutions devoted to the care of babies and children. The number of such institutions grows yearly providing additional accommodations for thousands of babies and children. No country in the world, including America, can compare with us in the matter of caring for our mothers and their children.

Yet what we have accomplished is only the beginning. Our achievements are bound to multiply in as much as our national wealth becomes greater and the wounds inflicted upon us by the world war and civil war heal completely. At present we still have tremendous difficulties. However, we realize that while we are surrounded by countries where the capitalists and landowners have intrenched themselves, there is one country where a proletariat is at the helm.

Face Tasks

Great is our land with its hundred and fifty million people. There are regions within our territory where there are no railroads, where camels, dogs or even reindeer are our means of communication and where ther is almost absolute illiteracy. We are faced with a task of raising the cultural level of many of our nationalities whose backwardness is due to the oppression they suffered during the regime of the monarchy, but we face our task cheerfully believing that we will surmount our difficulties providing the international capitalism, our deadly enemy, should not be permitted to interfere with us. To this you have to see. The proletariat of America must defend the Union of Socialist Soviet Republics from attacks. Appealing to you to help us in this we know that you watch with interest the progress we are making and that you rejoice at every improvement we bring about.

Long live the international solidarity of the working class.

International solidarity—here is our banner:

The Communist International—there is our leader.

Long live the American proletariat men and women.

Forward to attack capitalism.

(Signed)

Women Workers and Peasants of the City of Moscow and the Moscow Province.

May 5, 1928.

Children of Textile Strikers Aid Parents in Fighting Mill Bosses

The children of the striking New Bedford textile workers know from their own sufferings the significance of the heroic struggle their parents are waging. Photo shows a group of workers' children picketing outside the Nonquitt Mill in New Bedford.

DEMOCRATS DODGE ALL REAL ISSUES

Tammany Tiger Goes Bone Dry

(Continued from Page One)

be able to see whatever color he likes.

* * *

HOUSTON, June 28.—The nomination of Al Smith, Tammany governor of New York, is all but settled on the first ballot. It is also fairly certain that Joseph Robinson, democratic whip, from Arkansas will be his running mate.

The appearance of the American Federation of Labor so-called nonpartisan political campaign committee, headed by William Green, president, and Frank Morrison, secretary, with its terms of surrender of the workers' interests to the democratic party, reminded the Tammany delegates that in New York one of the supporting pillars of its graft organization is the labor officialdom. Accordingly the members of the platform committee listened to Green and Morrison for about twenty minutes after which they retired to formulate a "labor" plank no doubt as remarkable as the one on prohibition.

Ohio Grafters Freed

TOLEDO, O., June 28.—Seven men, headed by Guy Huston, president of the Chicago Joint Stock Land Bank, charged with using the mails to defraud, are free of charges today following action of Federal Judge John M. Killits yesterday when he ordered the indictments returned by the grand jury June 7, 1927, to be squashed.

LIVELY MUSIC AT THE DAILY AFFAIR JULY 14

(Continued from Page One)

months ago from Soviet Russia, has been the sensation of the musical and scientific world. By means of his new invention, music of the greatest beauty can be drawn out of the air without the aid of a musical instrument. Theremin literally plays on air, the different tones being produced by different movements of his hands thru the air.

Prof. Theremin's previous appearances in this city have always been at exclusive, high-priced concerts before small audiences generally composed of musicians and scientists. At the great concert July 14 this distinguished product of the only workers' republic in the world will for the first time perform before a working class audience. Theremin is only one of the many famous artists who will take part in the program.

The affair will be a double celebration since it will also observe the anniversary of the fall of the Bastille, which marked the opening of the French Revolution. The concert will thus offer an opportunity for the revolutionists of today to join hands with the revolutionists of a former day.

SOCIALISTS PAY LOW WAGES

MILWAUKEE, June 28.—A hearing on a new county wage scale for county employees was again put off by county authorities last week. Tho this county is controlled by socialists and so-called progressives, the wages of public employees is low, and open shop contracting firms are hired for public building.

MELLON NAMED IN TRUST SUIT

Behind Aluminum Co.'s Activities, Charge

BOSTON, June 28.—Naming Andrew J. Mellon, Secretary of the Treasury, as a participant in the policies of the Aluminum Company of America, the Baush Machine Tool Company of Springfield today had on file in Federal Court a suit for $9,000,000 against that firm and its officers. Secretary Mellon was mentioned in the declaration of the plaintiff, but was not made a defendant in the action.

The Springfield Company alleged a conspiracy to create an aluminum monopoly. The company claims damages of $3,000,000, but sued under the statutory three-fold damage provision.

The bill of the Baush Company stated that although Mellon resigned as a director of the defendant company in 1920, he continued to participate in its policies and management and had been a "dominating factor therein."

NANKING TRANSFERS MAIL.

NANKING, June 28.—Instructions that the Peking office of the director general and the co-director general of posts must be removed to Nanking have been received by them from the Chinese ministry of communications. This is in line with the policy of the Nanking regime to favor Nanking as the capital instead of Peking.

NOTED ACTOR DEAD.

ATLANTIC HIGHLANDS, N. J., June 28.—Robert B. Mantell, noted Shakespearean actor, died shortly after noon today at his country home, "Brucewood" here.

DECISION HITS AT STRIKE AGAINST OPEN SHOP FIRM

May Force Union to Pay Damages

A sweeping injunction forbidding the Architectural Iron, Bronze and Structural Workers Union from picketing the open-shop German Iron Works, 59 David St., Long Island, was granted yesterday by Justice Burt J. Humphries of the Kings County Supreme Court.

Justice Humphries' decision practically outlaws the strike which the union has been conducting since Jan. 27 against the German Iron Works. The strike was called when the company, which previously had been union, decided to turn open shop. Previous to becoming open-shop, the Garman company laid off about half of its 30 workers. The rest went on strike, at the call of the union, and have since been waging a militant struggle for union conditions.

In addition to granting the injunction, a new blow at the union is seen in Justice Humphries' decision that a referee be appointed to consider the damages involved in the strike. The union is planning to appeal the injunction.

Anthracite Sub-District Stages Picnic Saturday

The first picnic of the year in Anthracite Subdistrict of the W ers (Communist) Party will be June 30, Saturday, at Avondale H Plymouth Township.

Dancing from noon 'til midnight, good music, games, in one word: a good time for everybody at the picnic; the proceeds will go to Party organization fund. Admission is only 25 cents. Direction: Take W. Nanticoke bus at Plymouth, get off at Avondale mine; ask the committee for further direction.

MAN, 74, INJURED.

LOS ANGELES, June 28.—Until today, Williams Burness, 74, had never operated an automobile. Today he was fatally injured at the steering wheel, in an effort to save his two granddaughters, Marjorie Warner, 5, and Jean, 8.

CHURCH LINKED WITH POWER TRUST

Ministers Aid Magnates' Propaganda Campaign in the South

WASHINGTON, (FP) June 28.—Earle Hodges, former newspaper man and secretary of state of Arkansas, organized the Ministerial Alliance of Little Rock, at a dinner-bill cost of $66.15, as one of his endless activities for the electric and gas utilities in his state. Every clergyman in Arkansas knew and liked him, and most of them were friendly to the utility companies, according to his own testimony before the Federal Trade Commission in Washington on June 26.

So closely did Hodges tie up the church leaders, the teachers, editors and business men to the power trust chariot, in the years 1922-1925 when he was director of the Arkansas Public Service Information Bureau, that he was taken to New York in 1925 by the H. L. Doherty branch of the power combine.

Rex I. Brown, secretary-treasurer of the Arkansas bureau, testified that he had loaned to the "Dixie Magazine," which was to become the official organ of the State Chamber of Commerce, a total of $3,600 together with subscriptions and advertising amounting to $5,000 more, since 1926. The magazine reprinted a great many bits of propaganda in favor of private utilities and against public ownership. When Brown tried to evade the question put him by Chief Counsel Healy for the Commission as to whether this money was not paid to control the magazine and use it in his propaganda campaign, Healy pinned him down with evidence from his own files.

Big Opening of the New Dining Room

Our Equipment:

A Tremendous Dining Room, Which Can Accommodate 1,000 Guests

This Dining Room is the most beautiful of its kind in the entire state of New York. The spacious verandas overlooking the lake and the surrounding chain of mountains, presenting an extraordinary view.

A Separate Dining Room for Children

In order that the children may not disturb the adults and vice versa, the Camp has established a separate Dining Room for children.

A Modern Comfort Station

A large, light, modern comfort station, which can compare with the best in the city.

Hot and Cold Shower Baths

What is a vacation-place without hot water and hot and cold shower baths? The Camp is now equipped for the comfort of the campers with the newest innovations for washing and bathing.

Boats

Row-boating to your heart's content

A Department Store

A Department Store has been opened which is furnished with all necessities.

A Casino Near the Lake

The Casino which was built last year has proven to be too small and we have been forced to double its size. There is now enough room to dance and to present various performances. It will also be a desirable place for lectures and discussions which are always interesting and informative.

A Boardwalk

A boardwalk for your pleasure at all times.

UNITY CAMP

The Modern Comfort Station and Shower Baths
Are Already Completed

SATURDAY EVE. June 30th

Children's Colony

All registration for the Children's Colony must be in

Monday, July 2nd

If you want your children to come to the Unity Children's Colony, register them immediately.

Busses leave from 1800 Seventh Ave. every Friday at 6:30 p. m. and Saturday at 1:30 p. m.

DIRECTIONS:
BY BUS—From 110th St. and Seventh Ave. direct to the Camp.
BY TRAIN—From Grand Central or 125th St. to Wingdale and there our machines will meet you and take you to the Camp.

FOR REGISTRATION:
Apply at main office.
1800 Seventh Ave., cor. 110 St.
Telephone: Monument 0111.

When you arrive at Wingdale
Phone:
WINGDALE 10 F 12.

Japanese Government Plans Death Penalty for Communist Party Leaders

CABINET VOTES TO MAKE BILL'S PASSAGE SURE

Wave of Persecution Is Expected

(Continued from Page One)

leadership in the Japanese Communist Party a crime punishable with the death penalty. The measure, however, is aimed not only at Communists, but at all militant workers.

No opposition has been expressed by privy council members, or in the press, concerning the increased harshness of the penalty but the measure has been resisted by elements which oppose legislation by edict. Repeated appeals by the government, which has pointed out the "urgency of the case," have failed to break the opposition.

With the addition of the cabinet's votes, it is expected that the edict will be passed within 48 hours.

A great wave of persecution is expected to follow the passing of the death penalty bill and the government is reported to be making preparations for nationwide raids on labor and fraternal organizations of every type.

The present laws make activity in the labor movement punishable by not less than five years imprisonment.

SOCIALIST FORMS [illegible]MP COALITION

German Alliance Goes On Rocks

BERLIN, June 28.—President von Hindenburg yesterday afternoon gave official approval to the new coalition cabinet formed by Chancellor Herman Mueller, social democratic leader. It will begin to function at once.

Earlier in the day Mueller notified President von Hindenburgh that he was able to form only a provisional cabinet which probably will have to be reorganized in the autumn.

Negotiations for the grand coalition cabinet were shattered when President von Hindenburg and Dr. Gustav Stresemann vetoed former Chancellor Wirth's candidacy for the vice chancellorship.

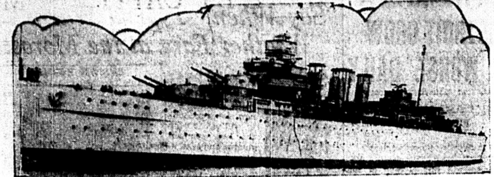
Gordon Will Read Poems Over WEVD on Wed.

David Gordon, member of the district committee of the Young Workers (Communist) League of New York, and recently released from the New York City Reformatory at New Hampton Farms for a poem that appeared last year in the new magazine of The DAILY WORKER, will read from his own work over the radio from Station WEVD on Tuesday, at 10:40 p.m. The reading is held under the auspices of the Rebel Poets, of which Henry Reich, Jr., a frequent contributor of verse to The DAILY WORKER, is secretary.

PLAN ANTHRACITE PICNIC

WILKES-BARRE, Pa.—The first annual picnic of the Workers (Communist) Party will be held this Saturday, June 30, at 2 p.m., at Avondale Hill, Plymouth Township. Direction: Take W. Nanticoke bus, get off at the Avondale colliery, ask the committee for further direction.

British Imperialism Floats Another Giant Armored Cruiser



The Kellogg multilateral peace treaties seem a boon to the British imperialists who see in them the chance to go on arming faster and faster while keeping up appearances of peace. The latest addition to Britain's "peace plans" is the cruiser Cumberland, one of the swiftest war machines in the world.

START HARTFORD PETITION DRIVE

Organizations Support Communist Campaign

HARTFORD, Conn., June 28.—With the holding of a conference of delegates from sympathetic organizations here the other night the campaign for petitions to put the Workers (Communist) Party on the ballot in this city is now definitely in swing.

Twenty-nine delegates, representing nine workers' organizations, attended the conference. It was reported that a number of other organizations have expressed a desire to cooperate in the campaign.

Charles Mitchell, acting district organizer, explained the critical situation of the American labor movement and pointed out the necessity for united action to put the workers' candidates on the ballot. It was decided to appoint a visiting committee to visit the various working class organizations of the city who were not represented at the conference. An executive committee of 13 was elected, with a management committee of three, instructed to immediately organize the campaign to secure signatures.

The Workers (Communist) Party and the Young Workers (Communist) League of District 15 have issued an appeal to all workers' organizations in the state, urging them to aid the campaign to put the Workers Party o nthe ballot.

URGE SUPPORT OF GREEK STRIKERS

Red Labor Int'l Hits At Reformists

MOSCOW, U.S.S.R., June 28.—With reference to the Greek general strike the Executive Committee of the Red International of Trade Unions has issued an appeal to the workers of the world.

The appeal points out the strike is in defense of elementary political and organizational rights of the workers.

The role of the reformists in attempting to end the strike by compromise is indicated and flayed by the appeal.

The statement concludes with a strong appeal to the international working class to support the Greek workers in their stake.

Count Karolyi, Once Premier of Hungary Is Declared Pauper

BUDAPEST, June 28. — Count Michael Karolyi, one time premier and reactionary dictator of Hungary, and once estimated to be the richest man in the Balkans, was informed by telegraph today that the present monarchist regime at Hungary had declared him a pauper and admitted to the privileges of the poor law.

At the same time the court rejected Karolyi's request for the resumption of his suit to recover vast estates which the Horthy terrorist government confiscated upon Karolyi's fall and flight from Hungary.

Karolyi, whose government was as reactionary as Horthy's regime is at the present time, is now living in a furnished room in Paris. The slave-driving whip has merely been transferred from his hands to Horthy's.

200 STARVE IN SERB PRISONS

Arrested Peasants Join Hunger Strike

AGRAM, Jugoslovia, June 28.—Two hundred of the 400 persons arrested in connection with the political disturbance in this district were on hunger strike yesterday. The disturbances resulted from the assassination of the Croatian Peasant Deputies Paul Raditch and George Basaritch at Belgrade.

After having forcibly suppressed the disturbances among the peasants in Croatia and the open street fighting in Agram, the Jugoslav parliament is preparing to ratify the treaty of Nettuno, according to a dispatch from Belgrade yesterday. Widespread resentment is created thruout Jagoslavia by this move.

Philadelphia Pioneers To Send Representative Into Anthracite Region

PHILADELPHIA, Pa., June 28.—The District Executive Committee of the Young Pioneers of this city, at its last plenum session decided to send a representative of the Young Pioneers into the anthracite region in order to organize and develop the Pioneer movement.

Since such a project means that money for expenses must be raised it calls upon every class-conscious worker to help by contributions. This should be sent to E. Carroll at 1214 Spring Garden St., Philadelphia, Pa

DETROIT AIDING MINE STRIKERS

Over $800 Raised in Single Week

DETROIT, Mich., June 28.—The Miners' Relief Conference of this city received a telegram Thursday from the National Miners' Relief Committee asking that all available funds be rushed with all speed, as the national committee was in desperate need. The Detroit committee had sent their last remittance of $400 a few days before and not enough time had elapsed since that time to collect more funds.

However, due to the tireless activity of the workers in the city, money was soon raised. The same night an Italian worker brought in $100, the net proceeds of a recent picnic held under the auspices of the Italian Fraction of the Workers (Communist) Party. The Detroit Miners Relief Conference sent $200 to the National Committee.

It did not stop here. Continued activity on the part of the various language fractions of the Workers (Communist) Party made possible an additional remittance of $200 on Monday morning.

Pittsburgh Mine Relief Issues Call For Aid

PITTSBURGH, Pa., June 28.—The National Miners Relief Committee of this city and its Women's Section will hold a big house to house collection on July 1 in the Pittsburgh District for the relief of starving miners, their wives and children.

The committees were arranged to bring over 200 miners and their wives to the city to assist in this campaign. It calls upon all sympathizers and workers in the Pittsburgh District to place themselves at the disposal of the committee by coming to the Labor Lyceum, 35 Miller St., on July 1. All workers are requested to be there not later than 9 o'clock in the morning.

"SOCIALISTS" IN FIGHT ON PORTO RICAN FREEDOM

Iglesias, Labor Faker, Fights Independence

SAN JUANA, June 28.—Porto Rico's "socialist" party, led by Santiago Iglesias, secretary of the Pan-American Federation of Labor and friend of vested American interests, declared emphatically against projects of independence for the island, in its annual convention at Arecibo. A resolution proposing independence with or without an American protectorate was defeated. A motion protesting against the "colonial status" of Porto Rico, and demanding a greater degree of insular sovereignty than is now permitted by the United States, was ruled out of order.

Right-wing influences triumphed in the direction of compromise with the left bourgeois party, the "pure republicans," when the convention voted, 103 to 13, to authorize further negotiations with that party for another electoral coalition. By 87 to 45 the delegates rejected a resolution forbidding the territorial committee to alter the name or emblem of the Socialist party.

Iglesias was re-elected president of the party and chairman of its territorial committee, and was renominated as senator-at-large in the island legislature, where he has been a "socialist" member for the past 10 years. Rivera Martinez, vice-president of the party, was nominated for resident commissioner in congress. All members of the official body of the party are members of the A. F. of L.

SHOT IN TAXICAB.

James Feliccia, 38, of Brooklyn, was shot four times while riding in a taxicab in Brooklyn, early today and died soon afterwards in a hospital, without having recovered consciousness.

NEW SCHOOL HEAD NAMED.

CHICAGO, June 28.—William J. Bogan was elected superintendent of the Chicago public schools today to succeed William McAndrew, whose term expired while he was on "trial" before the board of education. Bogan was elected to a four year term at a salary of $15,000 a year.

Bankers Love Him Now

Elias Plutarco Calles, shown in the picture, is negotiating a new loan agreement with Wall Street bankers and their agent, Dwight W. Morrow, now. Plans are under way for Mexico to begin payments on her national debt much of which will go to the United States. Calles aided the American interests in neutralizing the oil legislation.

Protest Lynching Of Negro at Meeting

A meeting in protest against the lynching of a Negro Worker in front of the convention hall in Houston and against the Tammany convention now being held in the same city will be held on corners 138th St. and 7th Ave. tomorrow evening.

CALLES PLANNING NEW LOAN PACT WITH WALL ST.

Hundreds Idle as Mills Shut Down

MEXICO CITY, June 28.—Following reports that hundreds of workers have been thrown out of work as the result of a shut down of textile mills in Vera Cruz, Orizaba and other industrial centers, announcement that the Mexican government is contemplating a new agreement with the international committee of bankers on Mexico which will load the Mexican peon for decades with financial burdens is causing general discussion here. With the conclusion of the projected agreement, it is intimated that Mexico will begin making payments on its foreign debts.

American interests, in whose hands is control of the debt, are reported to be willing to realize an agreement, even tho it is only for the present, on the basis of intensive oil operations for which Calles' action on the oil legislation has cleared the way and in which American capital is largely interested.

It is further rumored that Ambassador Morrow is now in the United States in part to give a favorable report to the Lamont loan commission. Morrow is a former co-partner of Lamont's in J. P. Morgan and Co.

Ruling Strips 60,000 Cab Drivers of Compensation, Taxi Correspondent Says

MEN LEARN WHEN "CONTRACT" IS NOT A CONTRACT

Strong Union Is Vital Need of Chauffeurs

(By a Worker Correspondent)

Due to a ruling made by referee Lane of the workmen's compensation board, upwards of 60,000 taxicab drivers in Greater New York find themselves denied any chance of collecting compensation under the New York state compensation act which is supposed to cover all workers.

Injured at Work.

The decision handed down on June 22 covers the case of David Price, a taxicab driver who was injured while in the employ of the P. A. W. corporation on April 25. He was disabled for two weeks.

While the company did not deny the truth of Price's claim, it nevertheless disclaimed any responsibility by contending that Price was not an employe, but had "hired" the taxi which he drove for them. A "contract" in the form of a card bearing the following wording was introduced into the evidence by the defendant company:

"The undersigned hereby rents from the .... (name of company), a taxicab designated on daily trip card, and agrees to pay a rental sum equal to 60% of the total receipts as appears from the meter readings on each shift.

"It is further agreed and understood that undersigned shall be responsible for any accidents due to his negligence, damage to cab or loss of same. Signed .... (driver's name), address, witness and witness' signature."

Deny Claim.

The referee, Mr. Lane, ruled that by signing such a "contract," Price became an individual contractor, who had agreed to work on a percentage basis of 40% of the gross receipts and, since he was not an employe within the meaning of the workmen's compensation act, his claim for compensation for injuries was denied.

The form of "contract" mentioned above is used by all fleet owners who are members of the Greater City Taxi Owners' Association, in which are found most of the fleet operators, and represents a clever attempt on their part to evade all responsibility in case of injury or death suffered by one of their drivers. All drivers are compelled to sign such an "agreement" before they can go to work.

With one exception, namely, the Independent Taxi Owners' Association, whose members do pay wages to their drivers, chauffeurs work for 40% of the bookings.

Even if an injured driver should sue and succeed in obtaining an judgment from the court, he would find it practically impossible to collect anything. The reason is that cabs are usually purchased on the installment plan and belong to the finance company until the last payment is made. By that time, which may be something like one year or 18 months from the date of purchase, the car, which meantime has been operated both day and night, has been reduced to a load of junk. Therefore there is usually nothing of value to levy upon and the injured driver or his dependents find that the judgment is simply a "scrap of paper."

Competition Keen.

Drivers who want to keep their jobs are expected to book not less than sixty dollars on the day line and not less than ninety dollars on the night line. Since competition is very keen, drivers are compelled to take many chances, thus exposing themselves to the possibility of having accidents. Now, in view of referee Lane's ruling they are denied any chance of collecting damages under the workmen's compensation act, in case of injury or death.

Such a ruling, affecting an industry containing over 60,000 licensed drivers, is possible only because of the entirely disorganized state in which these men find themselves.

There is a remedy within reach. If the drivers would combine their strength into a powerful union and try to affiliate with the American Federation of Labor, they could easily compel these greedy fleet owners to pay full compensation in case of injury or the death of a driver, besides improving conditions thruout the industry.

An effort to build such an organization will doubtless be received with enthusiasm by the drivers, especially in view of referee Lane's most recent decision in favor of the bosses.

—DRIVER.

Latest Militarist Flight to Hop Across Pacific

The Tail Wind, shown in the picture, huge plane in which Capt. C. B. Collyer and John H. Mears will attempt to encircle the globe in 23 days, is shown in the picture. The American officers aspire to blaze a trail for other army fliers across the Pacific ocean.

UNITY COOPERATIVE GROWTH WAS RAPID

By A. ROVNER.

It is the second year since the Unity Cooperative has been located in its own home in the White Rocky Mountain region near Wingdale, N. Y. At the time the Cooperative purchased this camp it had a membership of only a few hundred workers. It has previously experimented by running a camp on a rented plot near the Mohegan Colony at Peekskill, N. Y.

The organization realized that in order to draw more members and in order to be able to serve the workers in a more efficient manner, it would become imperative to get a permanent location were the best accommodations could be provided for a workers' vacation institution. For this purpose the present site of 245 acres was purchased. It has been recognized by every expert to be an ideal location for a workers' camp.

Enthusiasm.

The enthusiasm of the members made it possible to get the necessary funds to pay the initial installments and get the camp going for the first season. It was, however, out of the question to provide this camp from the very start with all the required improvements.

The organization has, thanks to the new location and to the confidence it has won by the efficient manner in which the camp was run the first season, increased its membership considerably. When the last summer season was over the organization had a net gain of a few hundred additional members and over $12,000 profit in the camp. This increase in membership has stimulated the organization to take one more step in its forward march and in the fall of last year the Unity Cooperative purchased a 9-story building at 110th St. and 7th Ave., facing Central Park. This building was converted into a cooperative home where there are over 250 members of the organization accommodated in the 224 rooms the house contains.

Success of Camp.

The success of the camp for the first year and the successful purchase of the cooperative house encouraged the organization to go into an extensive program of improvements in the Unity Cooperative Camp. After a thoro study of all necessary improvements it was decided to build a large dining room with accommodations for 1,200 people, modern comfort stations with cold and hot showers, a large department store on the premises, an enlarged casino and a boardwalk on the lake. This building program is at present being successfully concluded at a cost of over $65,000 and the Unity Cooperative organization may pride itself in saying that its camp is at present an ideal place to provide an excellent vacation for workers.

Masses of Workers.

The Unity Cooperative has from the very beginning of its history carried in mind the importance of utilizing the gathering of large masses of workers for the carrying on of mass educational activity. For this purpose an educational program has been mapped out and during the last season when there were over 4,600 workers in the camp at various times a series of lectures, discussions and entertainments of an educational character were carried out. It is the intention of the organization to expand this work considerably during this summer. Every phase of the struggle of the workers, the history of the cooperative movement; its principles and practice will be taken up by competent lecturers in the camp. There is besides this issued a Daily Bulletin and a weekly paper. There is also being carried on an elaborate program of entertainments consisting of musical programs, dramatic plays, etc. During this season the camp is starting a new venture, a colony for workers' children for those from 5 to 9 years of age. A set of experienced counsellors will take charge of this colony in order to give the children a good vacation, imbue them thru play and song with an esteem for work and love for the workers' cause. There is also located in Unity Camp the WIR camp which will accommodate over one hundred workers' children. The Unity camp has made it possible to run this institution by renting the plot gratis and by charging for food and accommodation the bare costs with no profit whatsoever.

Large Attendance.

It is expected that the attendance in Unity Camp will be much larger this summer since the newly provided accommodations make it so much more attractive and the enlarged attendance will in its turn give additional strength to the organization and impetus for new undertakings in the field of cooperation. The success of the Unity Cooperative and of its summer camp along with the success of Nitgedaiget, the summer camp of the United Workers' Cooperative, the pioneer cooperative organization amongst the Jewish workers, will stimulate as it has already done in some cases, the workers of every other city to take up the problem of building a cooperative movement in this country.

Ideal Summer Resort.

The completion of the dining room and other buildings is being celebrated this Saturday, June 30th, with an appropriate program at the camp and many hundred visitors are expected for this occasion. Representatives of all workers' cooperative organizations will be present when the doors of the new building are thrown open to the workers who will enjoy this spacious palace and the grandeur of the views opening from its large porches to the mountain regions and Lake Ellis at the foot of the hill.

The workers will far more enjoy this ideal summer place since it has been made possible by the united efforts of the workers and for the workers.

Labor Defense to Hold Annual Picnic July 21

The annual picnic of the New York Section of the International Labor Defense, 799 Broadway, will be held Saturday, July 21, at Pleasant Bay Park.

An elaborate program of entertainment is being prepared for the occasion, including any unusual feature numbers. All the proceeds of the affair will go for the defense of militant workers now being attacked by the capitalist courts.

Take the

DAILY WORKER

With You on Your

Vacation

Keep in touch with the struggles of the workers while you are away on your vacation. This summer the Election Campaign will be in full swing. The DAILY WORKER will carry up-to-the-minute news concerning the campaign of the Workers (Communist) Party in the various states.

Daily cable news service from the World Congress of the Communist International which opens soon in Moscow.

CONDITIONS IN DETROIT GROW WORSE DAILY

Progressive Union Flourishes

(By a Worker Correspondent.)

DETROIT, Mich. (By Mail).—Enclosed you will find a copy of the Auto Workers News. It tells about the rotten conditions in this so-called "prosperous" city, and where most of the bunk comes from, the capitalists, manufacturers and slave drivers who advertise Detroit all over the world.

I am a born Detroiter, always lived here and conditions are getting rottener from day to day as I see it. I will say that organization of the workers to fight imperialism is the only sure remedy and the sooner the better.

Am a daily reader of your paper and it should be in the hands of every worker to fight this menace.

—E. B.

Editor's Note: The Auto Workers News mentioned by the Worker Correspondent who wrote the above letter is issued by the United Automobile, Aircraft and Vehicle Workers of America, Local 127. The correspondent points out the following interesting story from the "News":

In one of the biggest departments of the River Rouge Plant, production was running smoothly. In fact, more production was being turned out by this particular superintendent than by any of the others. Nevertheless, an efficiency expert one day walked over to him and told him to fire fifteen men. "Which fifteen men?" asked the head of the department. "Oh, any fifteen will do." "And the reason?" asked the superintendent? "You don't have to give any reasons," was the reply. "Well, even if I don't give the men a reason, I want to know why just the same," insisted the speaker.

"Very well, then, I'll tell you," said the efficiency expert. "You are too friendly with the men. We have noticed that when you go through the department no one is afraid of you. No one is more on the alert, more uneasy and trying to work harder than before. It is different in the other departments. Any one can tell when the superintendents are passing through. The men are all uneasy and trying to goad themselves to the maximum effort. All the men think the heads of their departments are sons — —s."

"Are you not satisfied with the production record here?" asked the superintendent. "That part is quite O K," was the reply.

The superintendent then stated, "Henry Ford may be able to make what he wants out of other men but he is not going to make a son — — out of me. I quit."

Something like the above story could be told about executives in the Fisher Body, Pontiac plant, and in other plants of the automobile industry. It illustrates the labor policy of this industry. Manufacturers don't want leaders, they want slave-drivers. They don't want workers to have any spirit of independence and self-respect, they want obedient, docile slaves. Are the manufacturers going to get what they want? That is entirely up to the workers. The only reply to further enslavement is organization. Build up the Auto Workers' Union.

"Say When" Typical Warm Weather Fare at the Morosco

Alison Skipworth

A typical summer musical comedy called "Say When" has opened at the Morosco Theatre. Lack of real competition among the new shows probably will aid it over the lean summer months and send it home a winner. That does not mean that the play is of great importance or even unusually interesting. It is a warm weather entertainment and must be judged on that basis.

The play is a musical version of the play "Love-in-a-Mist" by Amelie Rives and Gilbert Emery in which Madge Kennedy appeared several seasons ago. The book of the present opus is by one Calvin Brown and is presented by Carl Reed and Elizabeth Marbury.

Among the many songs is one written by New York's butterfly, Mayor Jimmie Walker. It is called "Cheerio" and while not the worst of the evening almost reaches that stage. Some of the songs sponsored by other song writers are not so bad. Especially "Love Boat" and "Little White Lies."

The real hit of the show is Cora La Redd, who certainly knows how to sing and dance. On several occasions she stopped the show with her stepping and wiggling.

The role which Madge Kennedy portrayed in the play goes to a newcomer, Dorothy Fitzgibbons, who struggles along to secure the interest of the audience.

Alison Skipworth is one of the real life-savers of the production. Whenever the play become unusually dull she manages to appear and pep things up for a while.

The production suffers from a lack of comedy, also from loose direction.

For an evening's pastime the show can be recommended, as no great amount of mental energy is necessary to enjoy the unimportant and harmless theatre it presents. —S. P.

"The Great Fire in the Opera House," another new play by Georg Kaiser, translated by Winifred Katzin, has been acquired by Charles Hopkins for production next season. Another Kaiser play, "The Phantom Lover," was recently announced for Broadway showing next season.

"Elmer Gantry" opened in Cleveland, Ohio, last Sunday night, for the official censors gave Patrick Kearney's dramatization of the famous Sinclair novel an O K. There is nothing objectionable in the play, according to the prudes. Joseph E. Shea is the producer, and the show is due on Broadway soon.

EVELYN KERMAN

In "Here's Howe!" the musical comedy current at the Broadhurst Theatre.

"VOLPONE" AND "STRANGE INTERLUDE" TO MAKE MANY CAST CHANGES

The cast changes of the Theatre Guild productions of "Volpone" and "Strange Interlude" are as follows: Alan Josslyn has replaced McKay Morris as Leone in "Volpone." In the same play Ruth Chorpenning is playing the role of Canina, formerly played by Helen Westley. Douglass Montgomery will take over the role of Mosca, played by Alfred Lunt. Claude Rains will play the title role of Volpone, created by Dudley Digges. Phyllis Connard supplants Margalo Gillmore as Colomba.

In "Strange Interlude" Judith Anderson replaces Lynn Fontanne tomorrow. Richard Barbee will have Earl Larimore's role and Warburton Gamble succeeds Glenn Anders. The departing players in both companies go on vacation, with the exception of Miss Westley, who remains in "Strange Interlude."

Constance Talmadge will play the role of Mrs. Cheney opposite John Barrymore in the film of "The Last of Mrs. Cheney." Ernst Lubitsch will direct the Lonsdale comedy.

"Sins of the Father," instead of "The Man Who Never Missed," is the title for Emil Jannings' next production. The picture is based on Mildred Gram's story, "The Feeder." Mr. Jannings will be seen as a veteran vaudeville trouper.

TO SELL DAILY WORKER NOW AT ALUMINUM PLANT

Collect Aid For Paper At Picnic

(By a Worker Correspondent)

ARNOLD, Pa., (By Mail).—I want to inform you that The DAILY WORKER will be sold instead of being given away free of charge, in front of the plant of the United States Aluminum Co. at New Kensington, Pa.

I also want to let you know that there was a hat collection at the picnic of the Workers (Communist) Party nucleus at the Fabian's Farm which amounted to $20.25. This was turned over for the benefit of The DAILY WORKER. This was done altho the conditions for the picnic were not the best on account of unemployment in the factories and crisis in the mining industry.

Even if conditions are not the rosiest we will try to hold another picnic in the near future so that we can again help our militant organ, The DAILY WORKER which helps us so much in the class struggle.

—S. E. C.

Barrere Little Symphony to Give Longer Season

GEORGE BARRERE, flute virtuoso and conductor, sent out an announcement that his Little Symphony Orchestra and the Barrere Ensemble of Wind Instruments will become permanent feature next season, filling engagements during the musical season from Oct. 1 to May 1. The Little Symphony will give a longer series of New York concerts next winter than in past years, and Mr. Barrere will also make several appearances in New York as solo flute player.

For twenty-three years Mr. Barrere was associated with the New York Symphony Orchestra as first flute. Walter Damrosch brought him to this country from France in 1905. The Barrere Ensemble was founded in 1910. Four years later Mr. Barrere assembled and became conductor of the first Little Symphony Orchestra in America. Its personnel was made up entirely of members of the New York Symphony and it limited its engagement to periods when the larger organization was not giving concerts.

CAPMAKERS FIGHT TO SAVE UNION ON ALL FRONTS

Defend Union in Many Cities

Events in the past week show that the newly launched campaign of the Zaritsky machine in the International Cloth Hat, Cap and Millinery Workers Union to smash the organization is meeting with a resistance so widespread and simultaneous, as to give conclusive proof that the union's membership will successfully defend the life of its union.

Fight Zaritsky Policies.

The Zaritsky policy of expulsion of all opponents of his plan to inaugurate piece work is being fought on all fronts.

All members of the Capmakers' Union have been called to a mass meeting here tonight, in order to protest against the Zaritsky policy of wrecking the organization by expulsions, removals, the dissolution of large and flourishing locals, and the bringing back of piece work and the 44 hour week. The meeting will be held immediately after work, at Manhattan Lyceum, 66 E. 4th St.

A committee from the Millinery Local 43, whose 4,000 members Zaritsky has expelled, will appear to address the meeting. M. Miller will also be one of the speakers as well as the leader of the New York left wing movement in the union. Miller is manager of the Boston Capmakers Local 7, which is facing a bitter fight [illegible] the dual union established by the right wing.

* * *

Local 24 Clique Calls Meet.

In face of the growing drive of the union officials to carry out the wish of Zaritsky and the bosses by installing the piece-work system and restoring the 44 instead of the 40 hour week, the clique rulers of Local 24 have called a local meeting for tonight. They find no room on the order of business for the burning problems of the workers. The chief point to be taken up will be the election of a "finance committee."

The left wing in this local yesterday issued a statement calling upon the members of the local to come to the meeting en masse. The members can then force upon the administration a discussion of the vital problems before them, such as calling a halt to the disruption of the organization now being engineered by the rulers of the organization.

* * *

Chicago Mass Meet.

CHICAGO, June 28.—A mass meeting of all Chicago cap and millinery workers will be held today in the Capitol Building to protest against the disruptive policy of the clique controlled general executive board and in particular the betrayal it engineered by calling off the strike of the Chicago capmakers when the season was about to begin. The bosses would have been compelled to settle rather than take a chance of losing the coming season.

At this meeting Gladys Schechter, the leader of the supposedly dissolved Millinery Local 43 of New York, and M. Golden, manager of the Blockers Local 42 will speak. Zaritsky is also theatening this local with the loss of its charter.

The workers here are enraged at the second step in selling out and breaking their struggle, taken by Zaritsky. First he removed the militant leadership of the bitter struggle against piece-work because they were determined to win. And now he openly makes a statement that the strike is broken, calling it off.

Councils Plan Tea Party and Concert for Miners

As part of miners' relief activities during this week, set apart as National Miners Relief Week, Council No. 12 and the Cloakmakers' Council of the Bronx, United Councils of Workingclass Women, will run a Tea Party and Concert on Friday evening, June 29th, at the Workers Club, 1472 Boston Road, the Bronx. The proceeds are to be given to the National Miners Relief Committee at 799 Broadway.

All Bronx workers have been asked to support the striking miners in their fight for a living wage by attending in mass. For workers not residing in the vicinity of 1472 Boston Road, a concert will be held the same evening at 1400 Bronx Park East, under the auspices of Workmens Circle No. 548. Violin and piano soloists will render choice selections and several vocal artists will contribute to the evening's entertainment.

WORKERS CALENDAR

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

* * *

Martins Ferry Picnic.

MARTINS FERRY, Ohio.—The Young Workers Club of Martins Ferry, Ohio, has arranged a picnic and dance to be held at the Volt's Farm here on July 8, from 10 a. m. thruout the day and night. All those wishing to attend should meet at the Hungarian Hall, Main and Central Sts. There will be refreshments, games, speakers, etc. Transportation to Volt's Farm is free.

* * *

Philadelphia Y. W. L. Excursion.

PHILADELPHIA, Pa.—An excursion for the benefit of the Young Worker, central organ of the Young Workers (Communist) League of America, will take place Saturday, July 7. Boats will leave the Chestnut St. pier at 10 a. m. and 2 p. m. Tickets are 50 cents; children, 25 cents. Tickets must be bought in advance from the Young Worker, at 1214 Spring Garden St. Otherwise the proceeds will not go to the Young Worker.

* * *

Milwaukee Party Picnic.

MILWAUKEE, Wis. — The second summer picnic of the Milwaukee Workers (Communist) Party and Freiheit Workers' Club will take place July 8, at the Pleasant Valley Park, Woodlawn Ave., West Allis, Wisconsin.

San Francisco Picnic.

SAN FRANCISCO, Cal.—The branches of the International Labor Defense of San Francisco, Alameda, and Contra Costa counties will hold a picnic at East Shore Park, near Richmond, on July 4.

* * *

Pittsburgh District Picnic.

PITTSBURGH, Pa.—The third annual picnic of the Workers (Communist) Party, District 5 has been postponed from July 4 to July 8. It will be held at Nicholson Farm, Swissvale, Pa.

Philadelphia Miner's Relief.

PHILADELPHIA, Pa. — Philadelphia Miners' Relief Conference here has arranged a picnic for July 29 at Maple Grove Park.

* * *

St. Louis Picnic.

ST. LOUIS. — The Young Workers (Communist) League will give a picnic and dance at Triangle Park, 4100 South Broadway, on July 4. Dancing, refreshment, games and athletic concerts have been planned.

* * *

Highland Park, Ill.

The Workers Party of Highland Park, Ill., will hold a picnic for Miners' Relief on Sunday, July 8, at Zahnle Grove. Refreshments, games, dancing.

* * *

Paterson I. L. D.

The Paterson Branch of the International Labor Defense will conduct a lecture by Max Schachtman on "Bleeding China." This lecture will be given at the Associated Hall, 201 Market St., Paterson, N. J., on Friday, June 29th, at 8 p. m.

2,500 FURRIERS AT BIG UNION MEET

Disregarding the stifling heat, 2,500 furriers crowded Webster Hall where they stubbornly remained in their seats to hear discussions of the problem of rebuilding their once powerful organization and securing for themselves the July raises by a new and organized offensive against the bosses and their agents in the scab union.

Worker after worker arose with accounts of the severe exploitation endured since the American Federation of Labor and their Socialist and gangster leutenants wrecked the organization about a year ago. Others told how, under left wing leadership, the bosses had been compelled to obey the union and grant the customary July wage raises, but since the union was wrecked, not only were no raises granted last July but conditions were reduced to the slavery point.

Ben Gold, manager of the union, told the workers that only through renewed struggle could the July raises this year be secured, a struggle both against the bosses as well as against the scab union now torn apart by splits within. Gold referred to the recent open breach effected in the right wing ranks by the Progressive Bloc in the Joint Council.

"This is the strategic moment," said he, "because the Joint Board has already passed its most critical and trying period.

At the end of his speech which received prolonged and enthusiastic applause, the whole assemblage rose to pass unanimously the following resolution:

Whereas, the manufacturers with the assistance of the Federation-Council Scab Agency have destroyed the union, wiped out union conditions and slashed our wages, and

Whereas, the fur workers had been getting July increases every year except last July when the bosses' agency sold out the increases and the union conditions, and

Be it therefore resolved, that we, the fur workers, assembled at Webster Hall, on Wednesday, June 27th, 1928, hereby direct the Joint Board immediately to mobilize all of the forces in our union in order to wrest from the manufacturers July increases for every worker in the fur trade.

BOYS SLAVE IN STATE QUARRY

OKLAHOMA CITY, June 28.—Hundreds of boys are employed under slave conditions in the rock quarry and crusher operated by the Granite state reformatory, it has been revealed.

The rock dust injures the health of the boys and causes tuberculosis.

TEACHERS' SALARIES LOW

Salaries paid to elementary teachers in cities of 100,000 population and over range from a low minimum of $950 annually to a high maximum of $3,504 annually, according the United States Bureau of Education.

ZARITSKY HAS CAPMAKER FIRED

Union Heads Begin to Break Boston Local

BOSTON, June 28.—The war of destruction led by Zaritsky, president of the International Cloth Hat, Cap and Millinery Workers Union, against the strong Capmakers Local 7 here, has begun in all its viciousness, as the first of the employers began carrying out Zaritsky's request to discharge those workers not willing to drop membership in Local 7, and register in the dual local he established. They are Jacobs Cap Co. and the Hahns Cap Co.

Jacob Miller, left wing manager of the Boston local was ordered out of a shop where workers were dismissed by the bosses, Zaritsky's lieutenant Herschkowitz, and a few Boston right wingers. Six workers from the shop of Hahns were also discharged, and when they did not leave the shop fast enough they were threatened with a beating by Zaritsky's agents there.

These employers enthusiastically carried out Zaritsky's lockout order, while frankly declaring that Zaritsky's dual union is far better for him. "Little Sigman" Zaritsky's agents are already acting as scab agents for the bosses, providing scabs to take the place of those dismissed for loyalty to the union.

The membership of the union is enraged over these union-wrecking tactics of the right wing. A leaflet issued by the office of Local 7 during the lunch hour called upon the workers to resist with all their power the attempt to destroy the organization whose militant policy brought gain after gain in their working standards in the shops. The circular declared on strike the two shops discharging the workers, and called the membership of the union to carry on picket demonstrations at the factories.

TAMMANY MAN IS FORCED ON TRIAL

Nearly two months of so-called probing into the depths of the Tammany street cleaning scandal in Brooklyn has thus far yielded only a forced trial of one man, Frank C. Gannon, suspended president of the borough department, who went before the court yesterday.

Gannon appeared in Adams Street Court to answer charges in connection with the dumping deal of the Remsen Sand Company in which he is a partner. The case was adjourned until 10:30 o'clock this morning.

Through his brother-in-law, Edward Yunker, Gannon entered into a contract with the Brooklyn Ash Removal Company permitting that concern to dump ashes on his own land, for a consideration. Other more serious charges will be passed against him, it was indicated.

In Tuesday's hearing it was revealed that $20,000,000 of city supplies has passed through the Brooklyn warehouse without an accounting or record. How much of this was graft can only be surmised.

LEFT WING CALLS TAILORS TO FIGHT HILLMAN SELLOUT

Scores Stoppages For Bosses' Benefit

A leaflet issued by the left wing in the Amalgamated Clothing Workers' Union, in answer to the sell-out Hillman put over when he signed the new agreement with the bosses several days ago, has been circulated in the clothing manufacturing district. The contents of this leaflet echoes the wrath of the membership of the union expressed everywhere against a leadership that gave the bosses every one of their demands and got nothing in return.

The circular discusses mainly the stoppage called by the leaders of the graft machine in the market here for the bosses' benefit. It follows in part:

"We are called by our officials to stop from work today. Every worker will ask, why? What for? In whose interests is this stoppage being called? The only answer to this question is that this stoppage is a stoppage in the interests of the bosses; to enforce their demand of piece-work upon the workers; more profits for the bosses; a graft fund for the officials, and more misery for the workers. This is the result of negotiations for a new agreement with the employers, which were going on for the last few weeks. The bosses came to these conferences with demands that would increase their profits and still more enslave the underpaid starving clothing workers, thru the establishment of the piece-work system.

"In this demand, the employers have the full support of those who are supposed to represent the interests of the workers at this conference. The Hillman-Beckerman clique has granted this demand to the employers without considering of what we, the workers, would demand at this time.

"Hillman and Beckerman "faithfully" pledged that: 'No piece work will be granted to the contractors.' But the contractors are also demanding a pound of flesh from us. There can be no doubt in anybody's mind that our officials will grant piece work also to them, against the wishes and the will of the greatest majority of the members.

"Sisters and brothers! Our conditions at this time are deplorable. The Hillman-Beckerman clique has brot the clothing workers of this city to a desperate condition.

"This last criminal act on the part of these leaders will undermine our very existence, it tends to destroy our union of which we, the workers, will be the sufferers. The Hillman-Schlosberg-Beckerman clique has mobilized all forces of reaction in support of the employers to crush us. They are calling this stoppage in order to strengthen the bosses' association."

Are you a
"DAILY WORKER"
worker daily?

Second Worker Dies of Fumes in Factory Tank

Anthony Zimba of Monroe Ave. and 21st St., Kenilworth, N. J., one of the three men overcome by fumes while rescuing a fellow worker from a tank in the refinery at the Protexol Corporation plant, Kenilworth, Tuesday, died at Elizabeth General Hospital yesterday. George Beiswinger, another victim, died several hours after he was taken out of the tank.

PLAN BIG PICNIC IN KANSAS CITY

Will Stress Freedom of Mooney and Billings

KANSAS CITY, Kansas, June 28.—The International Labor Defense of Kansas City has arranged a huge Labor Picnic to be held at the City Park on July 4. Festivities will begin at 10 o'clock in tthe morning and continue thruout the day until midnight.

The picnic will serve as a rallying point for all those residing in the vicinity in the campaign now being carried on by labor groups thruout the country to free Tom Mooney and Warren K. Billings, now in prison more than twelve years on a trumped-up charge. Nationally known speakers have been announced to address the assemblage.

In addition to the speeches, there will be wrestling and boxing exhibitions. Homer Wright, Kansas City heavyweight wrestling champion, will meet Chicago Strong Boy, heavyweight champion of Chicago. In the boxing match Jimmy Savage will meet Sam Corbett. There will also be dancing, sports, racing, and many other competitive games, Prizes and refreshments will be given out in abundance.

NAKED SWIMMERS PARDONED

FREEPORT, L. I., June 28.—A nervous woman complained to the police late yesterday when thirteen high school students went swimming without suits just outside the city limits. They explained to Police Judge Neu that they were cooling off after their annual flag rush. He suspended sentence.

PITTSBURGH, Pa., June 28.—Mary Gallegher, 70, of 5417 Kentucky St., died in the homeopathic hospital last night from pneumonia induced by internal injuries suffered on May 12, when she fell down a flight of stairs in her home, according to a coroner's report.

CABMEN LOSE OUT ON COMPENSATION IN NEW YORK CITY

"Contractors," Says Tammany Referee

Over 55,000 taxicab drivers in Greater New York are affected by the ruling just handed down by Referee Lane of the Workmens' Compensation Board in which the Tammany-controlled referee held that taxi drivers, unlike other workers, are not entitled to compensation for their injuries, that in fact a taxi driver is not a worker at all but a sort of commission merchant and must take his own chances as to injury.

Part of Plan.

The decision which came as another step in the program of concentration and control which is being planned by the big fleeters in the industry, and with whom the Tammany Hall city administration and its police force are cooperating, was made in the case of David Price, a driver who was injured on April 25, while in the employ of the P. A. W. Corporation.

The company made no denial of the character and the extent of Price's injuries but offered in evidence a contract form which it and other concerns are forcing drivers to sign and under which the chauffeurs declare that they are "renting" the cabs from the fleeters.

The referee ruled that by this agreement the worker had become an "individual contractor," and as such was not entitled to compensation.

Considerable agitation has been caused among the taxi drivers at what they claim is obviously a "framed-up" ruling on the part of the Tammany controlled labor department. Drivers point out the fact that the N. A. W. Corporation is a member of the Greater City Taxi Owners' Association in which the Yellow Taxicab Corporation is the dominant power and that this large bosses' association has openly launched a drive to force out 20,000 taxi chauffeurs from the industry.

It has also been shown that the association maintains an extensive blacklist which it sends out to its members, an act which is supposed to be against the law. Nearly three hundred thousand drivers are said to have already been forced out of the industry through the activities of these fleeters.

It has also been charged that the "Taxi Weekly," a trade paper, which pretends to serve the taxi drivers is connected indirectly with the Yellow Taxicab Corporation. Drivers point out that H. A. Innes Brown, editor of the paper, has consistently failed to carry news favorable to the "Yellow," an instance in point being the recent New Jersey taxi drivers' strike which occurred in the plant of a subsidiary of the New York firm.

Amusement Co. is Sued For Death of Young Man

MILWAUKEE, Wis., June 28.—A suit for $5,000 damages was instituted in circuit court here today for Ralph S. Drews, 23, who was thrown from his seat on a roller coaster in State Fair Park and who died from the injuries.

The action is filed by his mother, Mrs. Elizabeth Watkins.

At the time of the accident, the State Fair Amusement Company, in an attempt to escape the suit, filed a statement that Drews had stood up in his seat.

CHICAGO YOUTH PLANS BIG MEET

CHICAGO, Ill., June 28.—The District Executive Committee of the Young Workers (Communist) League of Chicago has set aside July 22 as the day for an organizational conference on shop nuclei. This will be one of the largest organizational conferences ever held in District 8. All comrades in the district working in large factories will attend. Also the leading functionaries of the units will be present. The meeting will be addressed by a representative of the National Committee of the Young Workers (Communist) League.

The experience of the organization in the field of factory work will be gone into in detail with the view of crystalizing it into strong nuclei organizations.

"Religious Tolerance" from Jefferson to Al Smith

Thomas Jefferson "rejoiced in the provision of the constitution that declares no religious test shall ever be required as a 'qualification for office or trust in the United States.'" said Senator Robinson. And this was the signal for a wild demonstration in behalf of a presidential candidate belonging to the church which built the greatest clerical tyranny in all history.

What did Jefferson mean in his denunciation of religious qualifications for public office?

Jefferson's position was taken in opposition to all efforts to fasten a church hierarchy upon the then young and revolutionary republic. Jefferson was against the religious "qualification for office or trust" because he wanted neither the Roman Catholic church, the church of England, nor the various Puritan churches (then burning witches in New England) to fasten upon the young nation a union of church and state.

The Roman Catholic church, even more than any other church, historically symbolizes exactly the opposite of Jefferson's view. It built its great power upon the union of church and state. It forced upon every people that came under its sway the iron law, which it has enforced throughout centuries by military force, that the Roman catholic religion shall be the first "qualification for office or trust." There is no single nation where the Roman catholic church ever was dominant, in which it has not spilt blood in warfare, using all force and violence at its command to enforce catholicism as the compulsory state religion. In Spain, for instance, the Roman catholic church to this day holds on to this power, with the ruthless violence of the state dictatorship to back it up. In Mexico within the past few months the church put through a bloody attempt at counter-revolution which if it had been successful would never have stopped willingly with less than the restoration of the privileges of state religion.

In no country in the world has the Roman catholic church willingly given up the law requiring lip service to its faith as a "qualification for office or trust."

Historically, traditionally and actually, the catholic church is for the compulsory enforcement of all the religious "qualifications" that were once enforced by Torquemada through the rack and thumbscrew and the stake of the Inquisition. Wherever it now enjoys less than this, it has been driven or kept out of those privileges by force.

But wherever the catholic church has not had or has lost the privileges of state religion—the catholic church is for "toleration" such as that so eloquently pleaded for by the supporters of Tammany at Houston.

Of course no sane person can take seriously the idea that if Smith is elected, Rome will rule America. No; more than half the gold in the world is in the United States; the United States bankers are ruling the pope. The pope is even now on his knees in Wall Street, receiving loans. No, the explanation is entirely different from that given by the half-witted Senator Heflin. As we have said before, the real "pope" who will and does command Al Smith is not in Rome, but in the banks of New York.

Just what is the role of the Catholic church in American politics today? It is peddling itself to the United States capitalist government as a sort of "service company" for use in helping to subjugate Latin America for United States imperialism.

The Catholic church wants to be "tolerated" in the United States, and, more important, to be used by the United States as an instrument for political intrigue among "inferior" nations which United States capitalists want to rule.

But in the weaker nations which it wants to help subjugate for United States bankers, it wants to start with "tolerance," backed up with American bayonets, and wind up with as much of its old privilege of plunder and tyranny as it can enjoy under the bayonets of United States marines, while collaborating for mutual benefit with the ruling class of the "great Protestant nation" of the North.

Wants Campaign Corner

To the Editor of The DAILY WORKER:

Now that we are entering into an interesting political campaign, I want to recommend the creation of a "Campaign Corner" in The DAILY WORKER, to appear daily.

In this "Campaign Corner," should be discussed every important issue in the current campaign.

In this "Campaign Corner," experiences should be related by the active participants in the campaign. Questions should be asked by those interested, and answered by those who know. Objections commonly raised should be stated, and how those objections were and are to be overcome should be explained.

In this "Campaign Corner," The DAILY WORKER readers should give as well as receive historic facts, appropriate to the present campaign. National, state and local data should be made available to all of us for further constructive use.

In this "Campaign Corner" should be discussed the methods of approach to the workers in the various localities, of various nationalities, and to the various races. Also, to the farmers.

In this "Campaign Corner" should be found biographical sketches of our candidates and leaders. We should also give pen-sketches of our political and class-opponents so that we may see who they actually are, and whom they truly represent.

To this "Campaign Corner," our Workers (Communist) Party candidates, leaders, writers and functionaries should contribute, as well as all the worker-correspondents.

Through such "Campaign Corner" we are all certain to learn. Then knowing what and how—to teach.

And last, but postively not least this will serve to increase the circulation of The DAILY WORKER.

Comradely yours,

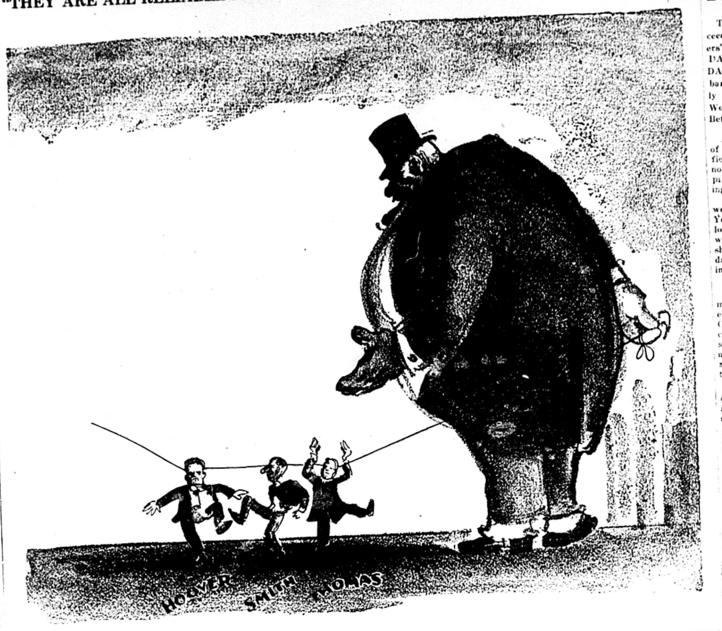
—MAX KITZES, New York

* * *

EDITOR'S NOTE—All right. Send in your work to the "Campaign Corner."

"THEY ARE ALL RELIABLE MEN"

By Fred Ellis



Students And Miners' Struggle

By P. FRANKFELD.

The miners' strike is now in its 15th month. The miners have been battling against great odds. The great sacrifices that the miners have been making for American labor* has evoked a real feeling of solidarity on the part of great masses of workers not directly concerned in the strike. Not only has the working class generally responded to the call and need of the miners—but also all sections of the working class. The working class youth, the working women, Negro workers, and the children of the workers as well.

We expect much from the workers. The workers instinctively feel the pulse of the struggle, the workers know what a prolonged strike means. Therefore when workers in New York City respond liberally to the various relief appeals that are made, it is an expression of class solidarity, a sign of recognition of the mutual interests of the working class as a whole.

Students, however, are a bit different. Students, as a class, are petty-bourgeois. Not that we do not recognize various strata among the students. There are students whose parents are proletarians. There are students who work part time. There are students whose parents are small business men. And still others whose parents are big capitalists.

Student Ideology.

But students as a class have a special ideology. They are isolated from the class struggle. Their training in capitalist institutions of learning distorts their views of society. Their very presence in those "institutions of higher learning" is proof that they are eager to rise above the ranks of the working class into the ranks of the professional classes (teachers, doctors, lawyers, dentists, technicians, engineers, etc.). It is a well known fact, and even sadly admitted today by various professors that the sole purpose of most students going to college is to be in a position of making an easy livelihood. Education in America is on a mass scale, like everything else, and the students that go thru the mill of education are imbued with anti-working class spirit and outlook.

We have the example of the students in the Colorado colleges participating in the slaughter of the striking miners there. These students were part of the National Guard. We have the example of students playing the role of strikebreakers. The C. M. T. C. is recruited to a large extent from the students.

It is, therefore, of special interest to us to know of the reactions of the students to the great miners' strike now in progress and how they responded to the call of the miners for relief.

Influence of League.

We have only given one side of the picture concerning students. That side is a very black one indeed. However, one can see the influence of the Young Workers (Communist) League members in any universities and colleges. We must not be blind to nor underestimate the importance of the Communist struggle against all forms of militarism in a place like City College. No doubt, in spite of all the walls of bleak learning which college authorities attempt to create between the students and the working class the fact that there are a large number of working sudents, the fact that a section of the students have sprung from proletarian homes, brings them in contact with the class struggle, and we find that even in the rich man's college, Yale, a group of students do participate in picketing of an open shop neckwear factory.

In New York City we have a Youth Conference for Miners' Relief. The overwhelming majority of the 50 odd youth organizations which are affiliated are working class in character. There are, however, about a dozen student groups affiliated with it. What have these groups done for the striking miners? How much have they contributed? What has been the response of the students generally to the agitation for relief?

This the article will attempt to answer. The scope of this article will naturally be limited to the experiences in New York only. Whether or not this is a general or local phenomenon, this students relief, cannot be answered here.

Some Students Help Workers.

For general propaganda, meetings were arranged in many high schools and colleges. Sometimes the meetings were highly successful, sometimes very poorly attended. We have had the experience that the first time we send around a speaker on the miners' strike the attendance is usually good. That is, about 75 to 100 or over attend the meeting. In places where we have had speakers more than once, we find that the second time the response is not so very good. This observation is based on experience in City College, Hunter College, and one or two high schools. However, the interesting fact is that when we proceed to hold our second tag day there the response in money is much better than the first time.

Teacher Sees No Struggle.

On the meetings that were held: When Tony Minerich was in New York we sent him to several places to speak. The response was favorable. Sabatini was toured thru several colleges. In the last month, however, we succeeded in arranging meetings in City College again, in Hunter College, in Morris High School, in Hunter College Annex on 32nd St., etc. In Morris High School and in Hunter College Annex, the meeting were very well attended, and in Morris High School the lecture took on the character of a debate because a certain teacher tried to tell the students that there was no class struggle and no classes. When the speaker got thru answering the insipid arguments of that senile pedagogue there was a storm of applause from all the students present. Everywhere, the coal strike was shown to be a part of the class struggle generally, and the students that were spoken to listened most attentively to the recital of the entire strike from its very beginning.

In a high school, New Utrecht, a petition was gotten up, the Miners' Relief Committee demanding official recognition on the part of the principal, and also the right to hold a tag day. Over 800 students signed this petition. In various colleges, City College Evening Session, Hunter, etc., leaflets were issued on the strike. These leaflets were put into every student's hand. The leaflets gave a clear exposition of the facts on the coal strike. In most instances, these leaflets were very well received by the students.

Student Contributions.

Money was raised in two ways by the student groups. One was the arrangement of affairs; and two, the holding of special college and high school tag days. Hunter College, the main building committee, arranged an affair and made $54.63. In tag day collections in Hunter, $37.21 was taken in by the main building group. In the 32nd St. Annex, $53.78 was collected, and in the Brooklyn Annex, $6.52. In City College a tag day netted $23.50. In New Utrecht High School, $16.22. In New York University, the University Daily News gave the miners' strike some excellent publicity. And when a tag day was held in the Washington Square Branch one hour's collecting totaled $107.87. That tag day was broken up by the police. In George Washington High School $23.78 was collected. A Teachers' College group sent in $121. Barnard College club has turned in to date $48.61 in general collections, and over $90 in tickets, etc. Union Theological Seminary turned in $7 for miners' relief. Over $600 was collected by student organizations for miners' relief.

Must Win Students.

The miners' struggle has found a certain response among the students. They have shown a real live interest in the miners' fight. Of course, there is no use hiding the fact that the elements responsible for most of the work in the colleges, high schools, and universities of New York have been the members of the Young Workers (Communist) League. A step forward as far as clarifying the students on the issue of the miners' strike has been accomplished. The bourgeois ideology in the high schools and colleges must be ruthlessly combatted, and the students, as much as possible, must be made into class conscious fighters in the ranks of the working class.

Communists Face Important Election Tasks

By SIDNEY BLOOMFIELD

During a strike the workers are interested in the issues of the immediate struggle. Communist activities receive recognition because the workers comprehend that only the communists advance the true interests of the working-class. The masses are interested in the broader aspects of the struggle during election campaigns because they are confronted with an incessant capitalist campaign propaganda coming from every avenue of information during this period.

The masses are becoming more responsive to revolutionary agitation. We must be as active and thorough in the election campaign as we are in strikes, with the understanding that the smallest details of the campaign must receive our attention. A Bolshevik is ever alert to seize upon the minutest detail, the most common routine task, in order to give it political content and use it as a means of advancing the main struggle of the workers. Communists must regard parliamentary campaign work of equal importance to a strike. The election campaign must find every Communist zealously at work.

Getting Signatures

Heretofore one of our major tasks, getting signatures of voters in order to place our candidates on the ballot, a formality which must be complied with and without which the proper kind of campaign is not always possible, has been left in the hands of a few comrades in each district, or some paid worker was detailed to carry out the task. This 'uncommunist procedure has tended to isolate our membership from the masses, and the party has in the past been unable to get on the ballot in many states where a little effort would accomplish the task. In some instances our Party was compromised in the eyes of the workers because of this carelessness.

Procuring signatures on the petition is a very important political job and the whole Party must be mobilized for this work. Obtaining signatures should become a competitive task, one that will create interest and enthusiasm amongst the comrades. When a Bolshevik can boast of having been in jail or on the picket line, he can only boast of being half a Bolshevik. We must have American Bolsheviks who can boast that they have helped in getting signatures and otherwise participated in the struggles of the American working-class, one of the most important of which is the election campaigns.

A Job Worth While

Getting signatures is a rich and colorful experience and not the menial task that shirkers pretend it to be. Most workers and middle-class elements will sign their names to our petitions if properly approached. The most reticent comrade will become a hustler after a little experience. Uninitiated comrades may be sent out in pairs until they can do the work alone. It is well to give literature, copies of the Daily Worker, etc., to those signing the petition.

In going about this work one learns, through conversation with the workers, their conditions, their problems, their struggles and their wishes. One observes the attitude and reactions of the workers toward certain problems, and at the same time becomes an active propagandist in the course of the discussions with those who manifest ignorance of or opposition to the revolutionary movement. In short, this activity draws our comrades into the pulsating life of the American working-class, and that is a big achievement.

Lenin's View

Lenin considered this phase of parliamentary activity of vital importance to the revolutionary movement when he gave our leftists along with the leftists of England, Germany and Italy the following bit of advice in 1920:

"The Communists of Western Europe and America must learn to create a new parliamentarism, entirely distinct from the usual opportunist, office-seeking form. This new parliamentarism must be used by the Communist Party to set forth its program: it must be used by the real proletarian, who, in co-operation with the unorganized and very much ignored poor, should go from house to house of the workers, from hut to hut of the agricultural proletariat and isolated peasantry, carrying and distributing leaflets.

"The Communist should penetrate into the humblest taverns, should find his way into the unions, societies, and chance gatherings of the common people and talk with them, not learnedly, nor too much after the parliamentary fashion. He should not for a moment think of a 'place' in parliament; his only object should be everywhere to awaken the minds of the people, to attract the masses, to trip the bourgeoisie up on their own words, utilizing the apparatus created by them, the election contests arranged by them, the appeals to the whole people issued by them, to preach Bolshevism to the masses.

"Under the rule of the bourgeoisie this is possible only during an election campaign—not counting, of course, the occasion of great strikes, when a similar apparatus of general agitation may be utilized (Lenin speaks of parliamentary campaigns and strikes in the same sentence and considers them both of equal importance; S. B.), as we utilized it, still more intensely. It is exceedingly difficult to do this in Western Europe and America, but it can and must be done, for without labor the problem of Communism can in no way be solved."

HANdOuTS

Twenty-five per cent of the proceeds of the barber shop in the Workers' Center last week went to The DAILY WORKER. It's time The DAILY WORKER trimmed these barbers. They've trimmed practically everybody in District 12 of the Workers Party. (Note to printer: Better kill it.)

* * *

Attempt of the board of education of Newcomerstown, Conn., to limit the field of instruction for its teachers is noted in its resolution just passed prohibiting teachers and pupils having dates during the school year.

A slight misconception of what workers enjoy on the part of a New York newspaper is noted in the following sentence relative to subway workers: "Men willingly give up sunshine and fresh air to work in the dark, dank underground." Not willingly. Only after starvation.

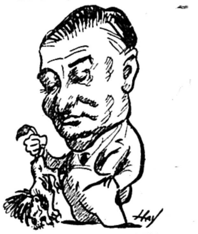
* * *

An example of how to spend your money after you've spent a lifetime exploiting workers is set by Frances Clyne of Manhattan. She has secured an entire room in the Anderson galleries, which usually displays a dozen or more pictures, to hang a single canvas. The picture is a portrait of herself.

The press is quite sympathetic to George Hicks, 60, who was uninjured although he was run over by three subway trains. He laid down flat. But why have pity on him. He was just as comfortable underneath the trains as he would have been inside.

* * *

U. S. By-Product



Picture shows the mayor of Chicago, William Hale Thompson, one of the powers now at war with Great Britain. The most recent casualty in the conflict is the rooster shown above which has long been suspected of Pro-British sympathies due to his habit of hanging around the British consulate and crowing when the Union Jack is unfurled. Many people think Big Bill is a clown. He's not. He's a respectable business man getting rich rapidly from the official taxes levied by the city and the unofficial taxes levied on the bootlegging industry.

NEW BEDFORD MILL STRIKERS TO PARADE TODAY

ADDED CHARGES PLANNED TO JAIL PORTER 99 YEARS

Forced to Shovel Coal 10 Hours a Day

(Special To The DAILY WORKER)

NEW BEDFORD, Mass., June 29.—In addition to the charge of desertion from the U. S. army, which the young vice president of the Textile Mills Committee, John Porter, is facing, it is now learned that the army authorities are planning to weave around him a net of numerous other charges by which they hope to sentence this militant worker to the maximum penalty of 99 years' imprisonment. These charges are: participation in a strike, activity on the picket lines, and civil arrests in connection with these activities.

Others Jailed.

While civil strike leaders are also being jailed for similar activities here, mere participation in a strike while under army jurisdiction, is punishable by a life term in prison as a maximum sentence.

More facts are being brought out to show with what premeditated viciousness the mill owners planned to get rid of Porter. This was done in so open a manner that patrolmen on the picket line threatened Porter three times that the federal authorities would be notified of the fact that he was a deserter, if he didn't quit strike activities.

Porter in prison, with a life term staring him in the face, answers this with the same militancy as was his answer to the demand of police that he quit strike activities, according to Paul Crouch, who visited him yes-

(Continued on Page Two)

MINERS' RELIEF TAG DAY TODAY

Workers in Different Trades to Participate

Thousands of New York workers will gather at half a hundred stations thruout the city this morning and armed with collection boxes, red flowers, wearing a relief appeal on their sleeves, will spread out thruout the length and breadth of the city to solicit aid from the millions of people of New York for the striking miners and their families. Tomorrow the scene will be repeated, with special concentration on the nearby beaches and summer resorts.

The miners' strike, about to enter its sixteenth month, finds the embattled miners as determined to win for themselves a militant union as they were when the strike began.

All Trades Help.

This solidarity of labor is well demonstrated by the number and variety of trades in which the mine relief soliciters are engaged. Among them are furriers, garment makers, millinery workers, window cleaners traction workers, and women employed in unorganized shops and factories, such as Schrafft's and the National Biscuit Co.,—the latter mobilized by the New York Working Women's Federation of New York.

From the northernmost point in the Bronx to the tip of Brooklyn at Coney Island, and extending far out into Queens County, miners' relief stations are established. Downtown Manhattan has 13, Harlem has 8 there are 12 in the Bronx, 5 in Brownsville, 3 in Williamsburg, 4 in lower Brooklyn, 1 each in Coney Island and Brighton Beach, and 3 in Queens County. The mobilization is expected to gather at least five thousand volunteers, workers young and old men, women and children.

Party Members Needed For Work on Tuesday

All Party members are asked to report for important work at the Workers' Center, 26-28 Union Square, on Tuesday, July 3, at 10:30 a. m.

—J. BALLAM.

Wall St. Names Lackeys

Wall Street has found Al Smith, head of Tammany graft ring, reliable. It has put him over as democratic candidate for the presidency. The democratic convention has selected Joseph Robinson (right) at Smith's running mate in its bid for the farm vote.

Joe Robinson, "Dry," to Run with Al, "Wet"

(Special to The DAILY WORKER.)

HOUSTON, June 29.—Joseph T. Robinson, senator from Arkansas, democratic whip in the senate since 1922, was today nominated by the Houston convention as vice-presidential running mate to Al Smith, who was named fourteen hours earlier in a cut and dried program exceeded for its deadly control only by that staged at Kansas City two weeks ago.

Nothing here failed to take place as expected, from the staged public statements of endorsement by Wall Street spokesmen to the switching of the Ohio delegation vote in support of Smith. Both facts happened on schedule. It was known that the Morgan interests had passed out the word to name Smith, that Smith would exert his influence to secure Robinson

Same Methods.

In the naming of Robinson, today, the same calculated and methodical program was carried out. Robinson fully answers the demands of the democratic politicians. He is a protestant, a point which will be used to offset Smith's catholicism. He is a bone dry—for publication, of course, just as Smith, in spite of the hypocrisy and camouflage of the str[illegible] forcement plank in the platfo[illegible] remain a partial wet—for publi[illegible] Robinson is also a "farm" spok[illegible] as these have come to be known since the republicans put over Curtis in an equally camouflaged betrayal of the farmers' interests.

* * *

Platform of Camouflage.

HOUSTON, June 29.—The platform adopted by the democratic party convention is seen here to be a near masterpiece of evasion and camouflage couched in language which yet gives the appearance of calling forth real battle.

CLOAK CHAIRMEN MEET IS PLANNED

The local committee of the National Organization Committee will hold a business meeting Monday to prepare the order of business for the coming full conference of the Shop Chairmen's and Delegates' Council, which will be held Monday, July 9. This was the announcement issued yesterday from the headquarters of the N. O. C., 16 W. 21st St. The local committee will meet at these offices immediately after work.

The Shop Chairmen's Council is a permanent institution established at an all day conference of shop representatives in Webster Hall recently, and is fast becoming the moving force behind the drive of the workers in the ladies' garment industry to rebuild their union over the heads of the Sigman gang.

* * *

Call Workers to Picket.

All active cloak and dressmakers are called by the Joint Board Cloakmakers' Union to come to the picket lines thrown around the shops declared on strike by the Joint Board. They are Shapiro & Sons, 35th St. and Broadway; and the Classy Cloak Company, 39th St. and Eighth Ave. Both these firms are strike-bound because of their attempt to carry out the orders of the Sigman-Schlesinger clique by discharging workers who refused to register with the right wing union. The Classy firm locked out a whole shop of 40 workers.

Reveal Donetz Plotters Served as Spies of Imperialists

CONSPIRED WITH FOREIGN POWERS AGAINST U.S.S.R.

Find Lenin Predicted Situation Years Ago

MOSCOW, U. S. S. R., June 29.—The final examination of traitorous engineers involved in the huge criminal sabotage plot in the Don Basin today revealed that in addition to their sabotage activities, certain engineers had supplied foreign institutions hostile to the Soviet Union with information concerning the military strength and positions of the USSR Government.

The examination of those accused in the conspiracy ended yesterday. The court questioned the defendants on their relations with foreign institutions in closed session. The technicians Budny, Matov, Sushtchevski, Shadlun, and Skorutto admitted that they were members of the sabotagers organization and that they had supplied not only economic information to the white guardist former owners of the mines, but also information concerning the military strength and positions of the Soviet troops.

They also said that they had been fully prepared to cooperate with the anti-Soviet foreign group in case the latter organized a new military offensive against the Soviet Union.

Prosecutor Krylenko, in his speech for the prosecution, reminded the court of Lenin's statement concern-

NOTED CONDUCTOR AT GREAT CONCERT

Volpe's Orchestra to Perform July 14

Music-loving workers will be treated to an unusual symphony concert at the great concert and entertainment to be held at Coney Island Stadium July 14. Arno Volpe's Symphony Orchestra of 50 musicians will render several of the most famous numbers in the symphonic repertoire as part of a program that will include many notable artists.

Volpe is one of the leading American orchestra conductors. He was the founder and first conductor of the stadium concerts and last year acted as guest conductor at these concerts. He is therefore already well known to thousands of workers.

Plans for the great July 14 concert have not yet been completely worked out, but present indications point to its being the greatest proletarian musical event that has ever been staged in this country. Among the other artists on the program will be Prof. Leo Theremin, the young Soviet scientist and inventor, whose discovery of a method of drawing the most beautiful music out of the air without the aid of musical instruments has been the sensation of the musical and scientific world for the past few months.

Twenty-five thousand of New York's militants are expected to pack Coney Island Stadium for this remarkable concert.

Communist Candidates For Congress in Coming Election Campaign

From left to right above are Melach Epstein, editor of the Freiheit, Workers (Communist) Party candidate for congress from the 12th congressional district in New York City; James P. Cannon, secretary of the International labor Defense, congressional candidates 20th district, and Ben Gold, head of the Furriers' Joint Board, candidate 23rd Congressional District.

SPEED PLANS FOR BIG N.Y.C. ELECTION DRIVE

Plans for placing the candidates of the Workers (Communist) Party on the ballot in the city and state and for mobilizing the Party membership and sympathizers, were discussed at an enthusiastic election conference, which was attended by 75 delegates from language bureaus and industrial groups of the Workers Party, including section organizers, campaign managers, agitprop directors, delegates from the Negro committee, the women's department and the Young Workers League.

Plans were discussed which promise to lay the foundation for a widespread, intensive drive for support of the Communist program and candidates such as New York has not yet seen.

To Start Signature Drive.

The conference was addressed by Bert Miller, organization secretary of District 2, who spoke on the program of the Party, and Rebecca Grecht, state campaign manager, who reported on the signature drive and the problems of organization.

It was decided to begin the signature campaign immediately. The services of sympathizers will be enlisted in every section. Various headquarters will be established in each assembly district where candidates have been nominated, from which the drive will be conducted.

All Sections of Workingclass.

Special emphasis was laid on the need of reaching workers in shops, the mobilization of all left wing forces for the campaign in the unions and unorganized factories, and the problem of reaching the workers in language, fraternal and other labor bodies. The decision to organize campaign committees in every industry and in all language organizations met with hearty support.

In this year's election campaign, the Party proposes to carry on intensive propaganda among the Negro workers in Harlem and Brooklyn. The importance of this task and the broad possibilities for activity were

Daily Worker Agents

All DAILY WORKER agents of District 2 are asked to report at the business office of the "Daily," 26-28 Union Square, Wednesday evening at 8 p. m., in reference to the July 14 concert at Coney Island Stadium.

TROOPS OF FENG, CHIANG TO CLASH

Report Army Revolts in Hankow

SHANGHAI, June 29.—Armed clashes between the troops of Chiang Kai-shek and those operating under Feng Yu-hsian are expected to break out at any moment, according to dispatches received here from Peking.

The main body of Feng's army is north of Hokien but a section is in control of the Laufang railroad and it is for possession of this road that hostilities are expected to ensue.

The Kuomintang is alleged to have promised Feng the Control of Peking should it fall to the Nanking troops and those of Feng, and the latter has for some time been preparing to assert his side of the understanding, it is reported.

* * *

Hankow Army Revolts.

SHANGHAI, June 29.—Dispatches rushed here from Hankow report that the army under Chen Cien is in revolt against the Hankow government and that the fall of government is imminent. No further details could be obtained.

REPORT FIGHTING IN CROATIA TOWN

BELGRADE, June 29. — Street fighting, in which several persons have been injured, is reported to have broken out between Serbians and Croatians in Sebenico, according to a dispatch from Zara yesterday.

The fighting began when Croats, who were demonstrating against the shooting of Raditch, leader of the Croatian Peasant Party, passed thru the main thoroughfare of the town.

Sebenico is a port on the coast of Croatia. Feeling against both the Serbs and the Italians is reported to run high in the city.

BANKERS AGAIN ENDORSE SMITH

Schwab Gives Indirect Approval

No political party would dare to oppose big business, Charles M. Schwab, chairman of the board of directors of the Bethlehem Steel Company, declared yesterday in an address before the opening session of the Bolt Nut and Rivet Manufacturers' Association. "I'd like to see the political party that attacks business because it is prosperous," Schwab warned.

Approves Smith.

His remarks were taken as an expression of confidence in the eminent safety for big business of Al Smith on the eve of whose nomination for the presidency by the democratic party Schwab spoke. "I am a republican and will probably vote the republican ticket," Schwab said by way of further elaboration, "but I am not afraid that politics is going to hurt business."

Schwab also urged a "czar" for the manufacturers such as now is maintained in the motion picture industry and in baseball.

The banker and steel magnate's declaration on the safety of Al. Smith is the second which has been offered in the past two days. The first endorsement was by John J. Raskob, chairman of the board of the General Motors Company and personal friend of Smith. Stocks in Wall Street sky-rocketed following Raskob's announcement.

It is considered significant that the General Motors Company with which Raskob is connected is a Morgan controlled concern and that the Schwab's Bethlehem Steel Company has just combined with the Morgan-directed United States Steel Company.

These facts are taken to prove the oft repeated charge that Al Smith is Morgan's man.

FUR SHOP STRUCK FOR JULY RAISE

Transforming into action the instructions given to the Joint Board of the Furriers' Union by the fur workers at the recent mass meeting to launch a campaign to obtain July wage raises for the furriers, Ben Gold, manager of the union, announced that the first strike for this purpose was declared yesterday morning.

Work in the fur factory of Fiel & Ellowitz, 145 W. 28th St., was halted when the 15 workers in the shop went out on strike after they had presented a list with the raise demanded alongside each name.

The workers, upon leaving the factory, immediately began to picket the shop. They were soon joined by many other workers in the market, who were enthusiastic at the prompt action of the Joint Board, whose action, they said, shows that the union considers resolutions passed by the members as no mere mouthing of words.

POLICE THREATEN ATTACK ON MASS DEMONSTRATION

Polish Workers Sign Up With Mill Committee

NEW BEDFORD, Mass., June 29.—Mayor Ashley answered the committee of the New Bedford Textile Workers' Union of the Textile Mills Committee, who came for a reversal of the decision of the police not to grant a parade permit to the strikers for tomorrow, with a categoric refusal. He declared that anyone trying to parade will be arrested.

Strike leaders immediately countered with a call to the workers to come to the parade. The strikers will march permit or no permit, they said.

Police are preparing all their forces to break up the demonstration of tens of thousands of textile strikers and their sympathizers.

* * *

NEW BEDFORD, Mass., June 29.—The Textile Mills Committee representatives yesterday appeared before the City Council with a demand that the decision of the police chief not to grant a permit for the parade planned for Saturday be reversed. In spite of the City Council's refusal to do so, the Committee announced later that plans for the parade were going ahead.

Coming to the Board of Aldermen and the City Council with an official letter from the union, a committee led by Eli Keller was informed that its request has been placed on file! At the City Council meeting Keller was not even permitted to speak in spite of being the representative of tens of thousands of the city's population. After coming out of the building the committee declared that it will hold the parade even if the appeal to the mayor which is planned for tomorrow will be fruitless, as is expected. This course of action was later confirmed at the union headquarters by Organizer Rubenstein.

Polish Workers Join.

The largest meeting of Polish strikers yet held in New Bedford,

JAIL NORWEGIAN COMMUNIST HEAD

Many Workers Arrested for Aiding Strikers

OSLO, Norway, June 29.—A leading member of the Norwegian Communist Party, Christiansen, has been arrested here in connection with the printers' and building workers' strike. The arrest was made under the law which prohibits strikes, passed recently by the Norwegian parliament. The law also imposes penalties on persons helping strikers.

Further arrests are expected as a result of the stringent execution of the law. A number of persons have already been fined up to 500 crowns for aiding the strikers.

Trade union members, who have been lending support to the strike by regular contributions of a crown monthly, are to be penalized. At the present time such subscriptions are being collected for the striking printers and building workers.

VILNA DEMANDS HANDED POLAND

KOENIGSBERG, East Prussia, June 29.—The Lithuanian government has handed the Polish delegation in Kovno a security pact demanding recognition of the Lithuanian frontiers as they existed in 1920, according to a dispatch from Kovno.

The Lithuanian frontiers as sketched in the demands include Vilna.

The reply of the Polish government is expected within forty-eight hours.

WHERE DEATH COMES AFTER SPEED-UP

Heavy Death Toll Among 625,000 Workers in Auto Industry

By ROBERT W. DUNN.
(Federated Press.)

DETROIT, Mich., June 29.—Despite "safety first" campaigns, safety managers and the oceans of propaganda against accidents put out by such employers' bodies as the National safety council, accidents continue to increase in the industry that makes our Packards, Chevrolets, Studebakers and Model T Fords. Hazards to workers' life and health increase as mass production intensifies its drive for the 625,000 workers directly employed by the automobile companies and by motor parts and accessory manufacturing concerns. This is the conclusion of a study on "Safety and Production" recently completed by the American Engineering Council.

More Speed, More Accidents.

In auto factories studied by the council, in its survey of some 40 industries, accident figures had increased more than four per cent in four years in the face of all current safety drives and propaganda. But far more significant is the discovery that the increase in the severity of accidents in these auto plants was 22 per cent during the same period, and greater than the increase in production itself. The survey covered four specimen plants embracing 15,000 workers.

Commenting on these and similar arresting figures for certain other

(Continued on Page Two)

Chicago Labor Union Officials Are Exposed in a Million Dollar Graft Ring

JOIN WITH GLASS MANUFACTURER IN HOLDUP OF TRADE

Get $500 to $5,000 From Hundreds of Firms

(Special To The DAILY WORKER.)

CHICAGO, June 29.—A million dollar a year union official and employer graft combination was disclosed here yesterday when the federal grand jury indicted two glass manufacturers and three officials of the Chicago Glaziers' Union in a conspiracy to control the industry.

The graft deal which extended over the entire glass manufacturing and distributing trade in Chicago and vicinity involved primarily Charles Pheiffer, president of the union, Timothy Rice, business agent, and Frank C. Harris, one of the directors of the organization. How many others are implicated has not yet been disclosed.

On the employers' side the principal figures are George H. Myers, millionaire president of the George H. Myers Glass Company and an officer of the Illinois Glass Dealers' Association, Benjamin Beris, who is also president of the American Glass Company.

High Finance.

While charged with conspiracy to violate the Sherman Anti-trust law, these union officials and employers are known to have participated in much more direct manipulations than is indicated by the charge.

Over a score of manufacturers were compelled to pay annual lump sums each of from $500 to $5,000 yearly for "strike insurance" and premiums on being permitted to manufacture their articles. In other cases a bonus of $25 was exacted from each dealer on every cabinet or similar article produced.

In addition over fifty wholesale dealers in kitchen and bathroom supplies, and scores of members of the Illinois Glass Dealers' Association were compelled to pay a corresponding tribute. Over a million dollars a year is believed to have been the yield to the ring.

The refusal to install the products prescribed by the ring or the failure to pay tribute or "strike insurance" was met with the immediate calling of a strike by the union officials. This method usually brought a stubborn employer to terms.

At the same time the workers in the trade are known to receive little or no protection against discrimination by the bosses. They are gangster-controlled and in many instances work far below the union scale.

The exposures among the officials of the Chicago unions are expected to follow. It is known that corruption here as in other large cities, especially among the building trades unions, is rife.

BIG PROGRAM AT DEFENSE AFFAIR

Workers of All Trades to Attend Carnival

The huge sports carnival and jamboree of the Joint Defense in Starlight Park next Saturday will be a demonstration of solidarity on the part of the militant workers of New York with their comrades among the cloakmakers, furriers and dressmakers who have been framed up by the bosses in co-operation with the right wing.

Workers of all trades will gather to view exhibitions by hundreds of the leading workingclass athletes of the city. The program includes a parade of all the athletes, boxing, wrestling, gymnastics, pyramids, a moonlight swimming contest, fancy diving, soccer games and music by the Hungarian Symphony Orchestra.

The organizations that will take part will include the Scandinavian Workers' Athletic Club, the Greek-American Athletic Club, the Workers' Gymnastic and Sports Alliance, the Metropolitan Women's Soccer League, the Bronx Workers' Gymnastic Club and the Young Pioneers.

The admission will be 50 cents and all the proceeds will go for the defense of the nine needle trades workers who have been sentenced to serve from two and a half to five years for strike activity.

Children of the Poor Make the Best of the Sweltering Heat

Photo shows a group of poor children in the city making the best of the sweltering summer heat. The Children of the poor cannot go to the country to escape the heat; thousands are forced to share the few playgrounds provided by the city.

HIGH DEATH RATE IN AUTO INDUSTRY

Toll Heavy Because Of Speed-Up

(*Continued from page one*)

big scale industries, the council says:

"Apparently the increased seriousness of accidents during the last few years has been the direct result of the increased intensity of industrial activity during that period. There are, however, forces inherent in mechanization itself and in the consequent speeding up of industry which have a direct tendency to increase the seriousness of accidents."

Earlier government figures place the average annual accident rate in the auto industry as 315 for every 10,000 workers. This means that about one worker in 30 is injured, at least to the extent of causing recorded temporary disability, every year. This figure includes about three deaths, 40 permanent disabilities and 272 temporary disabilities for every 10,000 workers annually. In addition there are the almost daily minor injuries, small cuts and bruises that are patched up in company first aid stations and hospitals.

A student who worked in the Chrysler plant last summer found that despite all safety rules, "the number of minor accidents such as splinters, scratches, bumps, etc., is alarmingly large. Even those experienced in their speeded work grow careless or suffer because of a defect in material or equipment." This student estimated that there is at least one cut per worker per day and that the dangers of infection are very great because of the materials they are required to handle.

Employers are interested in accident prevention purely from the standpoint of production. As the safety director of the General Motors Co. puts it: "Our increased production has paid for all our safety work and it has done a lot more—it is about time we got at it. Otherwise we will have more stringent laws."

The labor movement, in other words, might secure legislation that would raise the compensation rates, thus interfering with profits. The employers' safety movement, though often saturated with humanitarian phrases, is basically an outgrowth of labor's struggle for compensation measures. It is sustained in the fear that labor may become more powerful and secure more legislation harmful to company profits.

Workers in many Detroit plants complain that accidents are due to speed-up methods employed which render caution and care almost impossible. It is also observed that the largest percentage of accidents occur in the last hour, or hours, of work, thus indicating the influence of the long working day—or working night—on the accident rate.

Fiesta For Mine Relief Planned By Spanish Club

The recently organized Pro-Miners' Relief Committee of the Spanish Workers Club of New York City has arranged a tea-party for Saturday evening. The party will be held at the club rooms, 55 West 113th St. Workers and their wives have been invited to attend this fiesta, which according to all present indications will be a "boomerang."

Although no charge will be made at the door, all those attending have been urged to donate whatever they can to the cause of the striking miners, which is also the cause of the entire American working class.

Jefferson City Shoe Workers Go on Strike

JEFFERSON CITY, Mo., June 29.—The strike at the Tweedie Footwear Corporation factory here was in full swing last night when the striking workers issued a statement to the effect that they would continue their struggle until the company agrees to meet their demands.

The workers went out on strike when a new clock system was installed at the local factory last week. When they learned that the new system would reduce their wages from $2 to $6 each week, a storm of protest arose. At a meeting held the same evening, the workers voted unanimously to demand the reinstallation of the former system. When their demand was refused the next morning, they went on strike.

The same day a statement appeared in the Daily Capital News, the Jefferson City business-controlled paper, signed by W. R. Tweedie, vice-president of the corporation, asking every "loyal employe to return to work." This failed to have any effect on the determination and morale of the striking workers.

The next day the following notice appeared, occupying a quarter page in the paper: "Factory jobs open; an opportunity for those who want good steady jobs making shoes at good prices. Inexperienced and experienced apply now at Tweedie Footwear Corporation." It was signed by W. Wheeler, superintendent of the plant.

MORE CHARGES AGAINST PORTER

Forced to Shovel Coal 10 Hours a Day

(*Continued from Page One*)

terday in his cell at Fort Adams prison, Newport, R. I. Crouch reports that Porter reiterates his stand in admitting his desertion, though he regrets not having stayed in the army to convince other soldiers that the army was the greatest enemy of the working class.

Confiscate Check.

Porter is a member of the Young Workers (Communist) League, and a check sent him by the Boston district of the League for organization work was confiscated by the army czars.

Isaac Shorr, retained for Porter's defense by the International Labor Defense is preparing the case for when he comes before the court martial scheduled for next week. Porter's jailers refuse to give the check either to him, or back to the League. It is believed that they intend to use it as evidence in the trial.

Crouch reports that conditions in the prison are extremely bad, but are many times worse for Porter. He is compelled to work 10 hours a day for seven days a week shoveling coal.

The mother, sister and sweetheart of Porter visited him in his cell in prison yesterday. Though they came from New Bedford especially for this purpose, they were permitted to see him for only ten minutes with an officer standing watch over them.

CHILD LABOR IN N. Y.

Nearly 54,000 boys and girls under 16 years of age were released from full-time school attendance in New York State and were granted employment certificates during the year ending August, 1926, according to figures recently compiled by the New York Child-Labor Committee in co-operation with the State Education Department.

TEXTILE STRIKERS TO MARCH TODAY

Will Parade in Spite of Police Threats

(*Continued on Page Two*)

was held last night by the Textile Mills Committee in the union headquarters. More than five hundred Polish workers attended. Thruout the entire duration of the meeting, and especially after it was adjourned scores of Polish strikers swarmed around the committee signing up new members of the Textile Workers Union of the Textile Mill Committee. Despite the special Polish organizers imported by the A. F. of L. union they have never as yet succeeded in holding so large a meeting. M. Pelczar spoke in Polish after the Textile Mill Committee leaders and addressed the meeting.

Police Sargeant McCarthy yesterday morning tried to halt the effectiveness with which the picketing is now being done. After the lines from the North and South End had converged, strikers began forming in double file, to start a picket march to other mills. This attempt of the police failed, however, when the workers continued to march. The police are seeking to stop the marchers by declaring the picket lines a "parade."

A. Gensalves, one of the picket leaders ordered to break up the "parade" was arrested later on a special warrant issued against him. This is the fourth time he has been placed under charges of "peace disturbance."

OUTWIT POLICE; HOLD MILL MEET IN FALL RIVER

Paid Hall Closed, 3,000 Meet on Open Lot

FALL RIVER, Mass., June 29.—Despite elaborate preparations by the police force here to prevent the Textile Mills Committee from holding a mass meeting of the textile workers, a successful meeting attended by about 3,000 workers was held yesterday under the joint auspices of the Textile Mill Committee and the American Civil Liberties Union.

The meeting was held on an open lot after the owner of the largest hall in town, the Casino, had refused to open his doors to the assembled workers because of police intimidation, despite the fact that a contract for the hall had been signed and was in the possession of the sponsors of the meeting.

Led by James Ried, organizer of the T. M. C. here, and by representatives of the American Civil Liberties Union, the thousands of workers were led from the hall to the lot that had been prepared beforehand, thus catching the police completely off their guard.

After an introductory speech by the Civil Liberties Union speaker, Rev. Smith O. Baxter gave a talk in which he declared the meeting a free speech fight and turned it over to the Mills Committee chairman, Ried. Albert Weisbord, head of the National T. M. C., a Portuguese speaker and Ried then conducted the meeting to a successful conclusion before the city authorities had time to decide to break it up.

Every mention by the speakers of the necessity of the Fall River workers to begin a struggle to regain the wage cuts they had suffered, by joining the general strike of the New Bedford workers was met with the greatest enthusiasm.

Toward the end of the meeting hundreds attending the meeting surged forward to stand in line and wait till they were signed up as members of the Textile Mills Committee unit.

The union leaders announced that another mass meeting would be held in the same lot, which can accommodate 7,000, on Monday.

Form Textile Research Institute For U. S. S. R.

WASHINGTON, June 29.—An institute for textile research has been established in the Soviet Union, according to information made public by the Soviet Information Bureau here.

All state colleges will place their laboratories at the disposal of the Institute during the time special research laboratories are built for them. Every phase of cloth making, from vegetable, animal and chemical fibres down to the manufactured piece of clothing, will be investigated and improved on by the institute.

ARREST ALLEGED SPY.

BERLIN, June 29.—Captain Lembourn, a Danish army officer alleged to be a French military spy, has been arrested at the Danish border and brought to Berlin for examination.

KILL 31 MEXICO REACTIONARIES

Federals Rout Counter-Revolutionaries

MEXICO CITY, June 29.—Twenty-six counter-revolutionists have been killed and an unknown number wounded in fighting which took place between government and counter-revolutionary forces at Mulita in the state of Guanajuato. The battle lasted three hours.

Five of the counter-revolutionists were captured and executed by a drumhead court martial immediately.

The federal troops are reported to be pursuing the counter-revolutionary fugitives. No federal casualties are reported.

Big Opening of the New Dining Room

Our Equipment:

A Tremendous Dining Room, Which Can Accommodate 1,000 Guests
This Dining Room is the most beautiful of its kind in the entire state of New York. The spacious verandas overlooking the lake and the surrounding chain of mountains, presenting an extraordinary view.

A Separate Dining Room for Children
In order that the children may not disturb the adults and vice versa, the Camp has established a separate Dining Room for children.

A Modern Comfort Station
A large, light, modern comfort station, which can compare with the best in the city.

Hot and Cold Shower Baths
What is a vacation-place without hot water and hot and cold shower baths? The Camp is now equipped for the comfort of the campers with the newest innovations for washing and bathing.

Boats
Row-boating to your heart's content!

A Department Store
A Department Store has been opened which is furnished with all necessities.

A Casino Near the Lake
The Casino which was built last year has proven to be too small and we have been forced to double its size. There is now enough room to dance and to present various performances. It will also be a desirable place for lectures and discussions which are always interesting and informative.

A Boardwalk
A boardwalk for your pleasure at all times.

UNITY CAMP

NOBLE ART OF EXPLOITING CHILDREN

Textile Barons Perfect Technique of Sweating Child Slaves

Child labor has its problems, too, for the efficient, up-to-the-minute mill superintendent. Just how to make the kids produce has engaged the study of one cotton mill manager who, veiled under the initials, K. C. L., gives the benefits of his researches into speeding up juvenile workers to readers of Textile World, standard trade paper. In an article entitled, Management of Operatives, he suggests:

"It requires a great deal of diplomacy on the part of the spinning room overseer to bring all his help up to the same standards of efficiency, due to the fact that most of them are children. Children do not respond to the requirements of systematic work as readily as grown-ups; and as they have a will of their own and want to set their own standard they are not so easy to train to obey orders.

"They have to be constantly watched or they will go from bad to worse in order to make more time for play or rest. The overseer should never give up until he gets them to where they will give him a good day's work with a minimum of trouble."

Turkish Government Tries 7 Charged with Spreading Communist Leafleats

FIVE MEN AND TWO WOMEN FACE HOSTILE COURT

Allege Torture Used in Jail

CONSTANTINOPLE, June 29.—Trial of seven alleged Communists, two of them women, has been begun here by the Angora government. The seven workers are accused of participating in May Day activities which were harshly restricted by the Turkish police.

Attempts of the state to prove that the workers took part in the disturbances in January in connection with the unrest among tobacco workers have failed. The government, however, charges that the present defendants were among those who chalked "Long Live Lenin!" on the walls of the state tobacco warehouse, and distributed Communist literature to the tobacco workers.

The Turkish press, and smaller papers in other languages, are engaged in spreading wild accounts of the seven workers now on trial. The Angora government has shown itself savage in its repression of Turkish workers, especially in the tobacco industry and it is expected that every effort will be made to give the seven [illegible]kers long jail terms.

[illegible] is alleged that they have been [illegible]red to obtain confessions.

NAME CANDIDATES IN NEW YORK CITY

Workers Party to Wage Intensive Drive

(Continued from Page One)

clearly outlined by Richard B. Moore, Workers Party candidate for congress in the 21st district and leader of the Negro militants.

Women Workers.

How to reach the women workers and the working class housewives was also considered. It was pointed out that the Workers (Communist) Party is the only party fighting their battles in the city and state, as well as nationally and that they must be mobilized in support of the Communist election campaign. Definite plans for this work are being prepared, according to the report made by Ray Ragozin, secretary of the Women's Department of District 2.

Industrial and foreign language conferences and section membership rallies to mobilize the widest possible support for the campaign will be held in the near future, it is announced.

* * *

New York City Candidates.

The following candidates have been chosen as standard bearers of the Workers (Communist) Party in New York City, the campaign committee announces:

Manhattan: 4th Assembly District, Elias Wattenberg; 6th Assembly District, Boris Lifshitz; 8th Assembly District Louis Hendin; 12th Congressional District, Malech Epstein; 14th Congressional District, Alexander Trachtenberg; 14th Senatorial District, Bert Miller.

Harlem: 14th Assembly District, Charles Musil; 17th Assembly District, Albert Moreau; 18th Assembly District, Abraham Markoff; 21st Assembly District, Edward Welsh; 18th Senatorial District, Nicholas Napoli; 20th Congressional District, James P. Cannon; 21st Congressional District, Richard B. Moore.

Bronx: 3rd Assembly District, Philip Frankfeld; 4th Assembly District, Charles Zimmerman; 5th Assembly District, Rebecca Grecht; 6th Assembly District, Sam Nessin; 7th Assembly District, George Primoff; 22nd Senatorial District, Joseph Boruchowitz; 23rd Congressional District, Ben Gold.

Brooklyn.

Brooklyn (Williamsburg, Brownsville and Boro Park): 6th Assembly District, Peter Midolla; 13th Assembly District, Anton Bimba; 14th Assembly District, Herbert Zam; 22nd Assembly District, Sam Liptzin; 23rd Assembly District, Ray Ragozin; 9th Assembly District, Alexander H. Chalupski; 7th Senatorial District, David Benjamin; 10th Congressional District, Bertram D. Wolfe.

Queens: Boro President, George Powers; 1st Assembly District, Abe Harfield; 2nd Congressional District, Paul Crouch.

Residential Sections.

The headquarters of residential sections are Section 1, Downtown Manhattan, 60 St. Marks Place; Section 4, Harlem, 43 East 103rd St.; Section 5, Bronx, 2075 Clinton Ave.; Section 6, Williamsburg, 29 Graham Ave.; Section 7, Boro Park, 764 40th St.; Section 8, Brownsville, 154 Watkins St.

A greater number of local candidates is being put out by the Workers Party than in any previous election. Candidates for the 1st Assembly and 22nd Congressional Districts [illegible] the Bronx are being considered.

Two Killed As Imperialist Plane Goes Into Nose Dive

Victims of the latest disaster which air militarism has caused in the United States, Irva C. Miller, and Alvin La Forge, pilot were killed when their plane crashed in a sudden nose dive near the Rockaway air station at Queens, New York City.

APPEAL SENTENCE OF ITALIAN COMMUNISTS

MILAN, June 29.—The counsels for the defense in the trial of the leaders of the Italian Communist Party have entered an appeal against the verdict of the special court at Rome, and have applied to the supreme military court and the court quashing judgments.

The appeal is substantiated by numerous formal errors, and by the fact that legal rights have been exceeded.

The law upon which the special court is based does not permit of an appeal so that the counsels for the defense are not demanding a revision of judgment, but simply the quashing of the verdict. It is stated that Mussolini himself will deal with the question.

Of the 18 peasants and agricultural laborers arrested in Latium, 120 are still being kept imprisoned. They are accused of having destroyed the vineyards of fascist owners, and of taking part in the reorganization of the peasants' league, affiliated to the Italian Trade Union Federation. Several of those arrested have been tortured.

In Rome the journalist Giuseppe Amoretti, former editor of the "Unita," as also Anna Bessonne, have been arrested on the charge of reorganizing the Communist Party in Latium. Amoretti was severely ill-treated by the police. His family is entirely without news of him, and extremely anxious over his fate.

DONETZ PLOTTERS SERVED AS SPIES

(Continued from Page One)

ing the Donetz Basin. "He (Lenin), once said that the Donetz Basin was the basis of the socialist reconstruction in the Soviet Union, and pointed out that this would be made the center of attack, therefore, by counter-revolutionary organizations," Krylenko said. "This statement, anticipating the recent sabotage conspiracy, again proved the far-sightedness of Lenin."

He then went on to declare that the accused were not Russian intellectuals, as the capitalist press tries to paint them, but capitalist agents, and demanded stern punishment for the conspirators, who by their traitorous acts had aimed an attack against the entire Soviet Union.

The court was adjourned until evening, when Prosecutor Krylenko was to close up the case.

MORROW PLANS WALL ST. LOAN

WASHINGTON, June 29.—Dwight W. Morrow was requested to confer with New York bankers by Secretary Kellogg yesterday prior to the former's departure shortly to Mexico City as American ambassador.

It is rumored that the bankers through Morrow plan to float a new Mexican loan, although details of the conference were not disclosed.

22 Dead, 75 Injured In Railroad Wreck

LONDON, June 29.—Twenty-two persons were killed shortly after midnight today when a heavily crowded excursion train and a freight train collided just outside of the Darlington Station. Six of the victims were killed instantly. The others died in various hospitals after the crash.

Many of the excursionists were women and children.

Seventy-five injured persons were in hospitals today. Many of them are so seriously hurt that it is believed they will die.

"POTEMKIN" RETURNS TO CAMEO THEATRE TODAY

The Sovkino master film "Potemkin," which plays a return engagement at the Cameo Theatre commencing this noon, has been revived in Berlin where the censors have lifted the ban altogether and they are permitting it to play in its original version of nine reels. It has created another sensation in this new form and from present indications will exceed its former box office popularity. The Film Arts Guild is requesting the Amkino office here to try to obtain a nine reel version for later presentation at the Cameo Theatre.

On the same program with "Potemkin" the Cameo is presenting Emil Jannings in "The Last Laugh" and Charlie Chaplin in "Shoulder Arms."

STUDENTS OUT OF COLOMBIAN JAIL

BOGATA, June 29.—Growing pressure of mass protest has forced the authorities here to liberate a number of students who were arrested recently when police attempted to break up a meeting at which the Venezuelan student, Gonzalo Carnevalli, was speaking.

The action of the police in arresting the students has been widely pointed to here as an indication that the government intends to carry out its policy of persecution which is embodied in a number of anti-labor measures now before the chamber.

Carnevalli was discussing conditions in Venezuela at the time the police interrupted the meeting. He urged that the dictator, Gomez, be overthrown.

The mayor of Bogota has advised Carnevalli that he will not be permitted to make further speeches in Colombia.

URGES FIGHT TO SAVE BELA KUN

Labor Defense Warns of Danger

Warning that the sentencing of Bela Kun to three months in jail may be only another ruse designed to facilitate his extradition to fascist Hungary, the New York section of the International Labor Defense, in a statement issued last night, calls upon all workers not to cease their agitation for his immediate release.

The statement, signed by Rose Baron, secretary of the section says: "The sentencing of Bela Kun, leader of the Hungarian proletarian revolution, to three months in prison, of which he has one month to serve, must not become the signal for the cessation of agitation for his immediate release. The workers who have been tricked so often by the 'justice' of the capitalist courts must not allow themselves to be the victims of any new ruse that will leave the way open for extraditing Kun to fascist Hungary where his murder is certain."

WORKMEN'S FURNITURE FIRE INSURANCE SOCIETY
(Incorporated)
—Established 1872.—
Main Office:
New York and Vicinity.

Office hours: From 9 A. M. until 6 P. M. Saturday until 1 P. M.; Monday until 9 P. M. at 227 East 84th Street. Tel: Regent 4391.

DEMAND ALSATIAN AUTONOMISTS BE FREED FROM JAIL

Communists Appeal as Poincaré Fumes

PARIS, June 29.—While President Poincare whipped himself into a fury of futile indignation and the conservative benches roared and shouted in a "union sacre" of sound with the radical deputies who have made a temporary alliance with them, the Communists yesterday continued to demand the release of the imprisoned Alsatian autonomist deputies, Rosse and Ricklin.

For minutes at a time it was impossible for an individual speaker to make himself heard above the tumult, altho the government finally succeeded in announcing that it would take no action while the affair was before the courts.

The Communist fraction time and again asserted that the government action in imprisoning deputies while they were serving in the chamber is illegal.

The "socialists" made a play for popular support by sustaining the Communists in this protest.

Leaders of the radical party have announced that a satisfactory agreement has been reached with the government which will enable it to vote with the Poincare administration on all important questions. Terms of the agreement were not made public. The radical leaders, however, are eagerly stating that the agreement is of a temporary nature.

Tortures Workers

Mustapha Kemal, president of the Angora government is shown in the picture. His government is now trying seven workers, two of them women, charged with Communist activties. One of the heinous crimes of which they are accused is writing "Long Live Lenin!" on the walls of the state tobacco warehouse. The prisoners are reported to have been tortured in jail.

VENIZELOS MAKES MOVE TO REGAIN CABINET CONTROL

Conservatives Believe He Will Crush Strike

ATHENS, June 29.—A new move to regain the political power which he lost when he went into virtual exile in Crete in 1925 has been made by Eleutherios Venizelos, former Greek premier, in forcing the withdrawal of support from the cabinet by the "Liberal" Party.

The possibility of Venizelos being called to form a new cabinet within the next few days is widely discussed in the press thruout the country. There is growing sentiment for him among conservative elements who believe that he will take a strong stand in suppressing the general strike which continues to tie up industry in

Cut Lasters' Pay Six and One-Half Cents Per Pair, Correspondent Writes

COMPANY UNION DOES BOSSES' DIRTY BUSINESS

Workers Refuse to Accept Cut

(By a Worker Correspondent.)

The I. Miller Shoe Co. has been systematically cutting the wages of its workers by many schemes.

1. It lays off workers and takes them back at less money.

2. It fires workers and puts on others at less money than it paid before.

3. It continually forces the workers to work on a piece work basis with readjustment of the scale.

4. It forces direct wage cuts on the workers with and without excuses.

In all of its attempts to get greater profits from its workers it has the support of its tools or servants, the officials of the company union. This week we had another sample of how the company union fights for us.

A meeting of two hundred lasters took place Monday night under the chairmanship of one of the company union officials who told the lasters to swallow this brazen steal.

A six and one-half cent cut on every pair of shoes for which the company will supply shoes to the lasters with the tacks pulled.

The two hundred lasters were indignant and refused this cut. They demanded to see the boss himself. Mr. Charlie Miller then came. Mr Miller gave no reasons for this cut but promised if they would take it he would give them steady work till winter.

The lasters replied that it would be impossible to make a living wage with this cut. They have to loose a great deal of time in waiting for work even with this present system.

Charlie Miller and his company union tools don't care about the workers earning a decent wage. All he wants is more profits for the company.

Next week I will have a letter showing the profits that I. Miller Sons, Inc., has made the last few years and the enormous profits it has made from the workers so far this year.

Railway Worker, 70. Killed by Engine

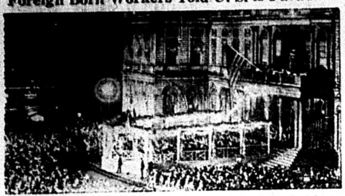
BAYONNE, N. J., June 29.—John D. Preston, 70, of 112 Broadway, a worker on the Jersey Central Railroad, was killed here yesterday by a passenger train. He had been in the employ of the railroad for thirty years.

He leaves three sons and three daughters.

The New Plays

"GEORGE WHITE'S SCANDALS" will have its premier at the Apollo Theatre beginning Monday night. The book of the new production is by William K. Wells and George White, with most of the music by De Sylva, Brown and Henderson. Principals in the cast include Willie and Eugene Howard, Ann Pennington, Tom Patricola, Frances Wilson and Harry Richman.

Foreign Born Workers Told U. S. is Paradise



The scores of unemployed workers who spend the day and night on the benches in City Hall Park were kept out of sight by able-bodied police while hundreds of foreign born workers heard numerous politicians extol the benefits of life in the United States where every worker enjoys the liberty to starve. The meeting is part of the campaign by which the American capitalists are attempting to convince the foreign born workers that jailing, lynching, and murder are privileges while unemployment is an exclusive luxury of the working class.

MINERS' RELIEF BODY REPORTS

(Special To The DAILY WORKER.)

PITTSBURGH, June 29.—The National Miners' Relief Committee has issued a call for renewed and additional activity in the collection of funds for miners' relief which says in part:

"We cannot impress upon you too strongly the need for your steady application to relief work at this time. Many friends think that they only need to assist once or twice and that then their duty is done.

"Yet more than fifty mining camps above the number we give relief to have asked, begged, appealed to us, for a little flour for bread for the children. We could not help because of lack of funds. It is hard for us to deny them assistance, yet what can we do—unless you and your friends make steady remittances and resolve to remain loyal to the striking miners until the very last day of the struggle?

"Children are going hungry day after day. Ever more evictions—and in the last few weeks we have moved dozens of miners' families into tumbledown houses, barns, woodsheds, and have bought and erected tents whenever possible.

"We have defense cases in great number—miners arrested for picketing, for walking down a public highway, for trying to hold meetings.

"Crowds of miners' committees besiege our offices hoping to get a little food relief for their camps. They return day after day upon our promise that as soon as a little more money comes in we will help them a bit.

"The appeals of these miners for aid to appease the hunger of their wives and children must be met. You, our sympathizers and friends in all cities must do your very best to remain active, to become more active in the relief campaign. We must have money! Collect funds in the best way you can—but please do something to send us money—quick —very quick."

CHURCH ATTACKS ORGANIZATION OF MINE CHILDREN

Tries to Keep Them Ignorant with Lies

(By a Worker Correspondent)

BENTLEYVILLE, Pa. (By Mail). —I wish to write a few lines for The DAILY WORKER about local labor haters.

Organize Children

At the beginning of 1928 the striking miners, of whom I am one, realized the necessity of organizing the children. Our slogan was that we will organize the children in spite of all obstacles. We did organize them because we saw that we have to teach the youngsters to be on the side of labor and not with the capitalists.

Thus the Young Pioneers started with a membership of 300 or more. This marked the rise to "action" of labor-fakers, stool-pigeons, etc., of the bosses and of Lewis. The spies spread lies about the children's clubs, stating that they were taught not to go to school and church. They poisoned the minds of many parents who afterwards did not send their children to the meetings where they would learn something which would be of benefit to them as workers in the future. They would learn never to be tools of the capitalists, but would, on the contrary, smash all attempts of the capitalist class to oppress the workers. Had the older folks such an opportunity as their children have now, they would not be in the present great coal strike of life and death.

These narrow minded stoolpigeons should have been taught this and perhaps they would be on the side of the strikers and not be committing such horrible acts. The religious movement, catholic and protestant alike, forgot one another's creed, allied themselves with the bosses, Lewis and his henchman, to crush in the bud all movements for organization.

Father Skrak

The leader of this movement was Father Skrak of the catholic church. I would not want to have a father like that. The reason for this I will show shortly.

He included in his gospel direct attacks against those who want to do something for the labor movement. He criticized the Save-the-Union Committee and the miners who send their children to Communist meetings. He warned his church lambs not to send any of their boys or girls to these meetings. He stated before the U. S. Senate that the children are being taught not to go to church (not to bring a last cent for the weekly collection, he means) nor attend school. He seems to know everything, yet he was never at any Communist meeting.

One Pioneer, 13 years of age, told him what she thought of him. He accused her of being sent by the superintendent. I asked myself whether he was a man and came to the conclusion he was not.

It happened that some time before this a scab priest in our town received scab coal from the company for preaching their propaganda. The striking miners gave him 50 tons of coal because they thought he was with them. After all these sacrifices they were disappointed. He repaid them bitterly. He launched attacks against us, expelled strikers' children from school for which they supplied coal.

He calls himself a union man but I don't call it unionism when he had 70 per cent scabs in his school who were warmed by the union coal while the expelled children were freezing and starving throughout the winter.

There is one woman whom we call Sister Cockeye who brings him lies of our meetings, all of which he believes. She was expelled from the Women's Auxiliary because she tried to break up the organization. She went around from house to house and told the women not to go to the meeting and that when she would become the head of a new organization she would repay them. Thus far she has failed to corrupt the organization.

There are many other traitors among us. We must get rid of them. We must block all their moves. We must smash every attack on our strike and proceed to victory.

A Striker.

TO ARREST ALL STUDENTS WHO PUT UP POSTERS

Anti-Training Camp Bills Stir Police

(By a Student Correspondent)

WASHINGTON, D. C. (By Mail). —"Schools to Ignore Anti-War Posters," states a large headline in a recent issue of the Washington Sunday "Star," commenting upon the recent display of Anti-CMTC posters on the walls of Washington high schools. The "Post," the "Herald," and other local newspapers state in one breath that Mr. Stephen E. Kramer, in charge of military training of the local schools, says that "they want us to get excited, and personally, I don't think we will." In the same article it says that the superintendent of the local police, Major Hesse, issued orders to the entire police force, saying that "placards signed 'Young Workers (Communist) League of America,' expressing opposition to the citizens' military training camps, have recently been found posted on the corridors of business high school and elsewhere. Be on the lookout for any one placing these posters, and, if possible, arrest the person or persons responsible therefore and present the facts to the prosecuting officers at police court."

The local war-mongers surely place themselves in a ridiculous position, when in their pretension to "ignore the plastering of the Anti-CMTC leaflets," the newspapers are stirred to announcements such as "Arrest of Communists Ordered by Major Hesse;" "Attack Training Camps;" "Communist Poster Stirs Police Chief." Poor Major Hesse! His legs must have shaken badly when he read those posters, exposing to the youth of Washington the true role of the CMTC as the bosses' tool to prepare cannon fodder for the coming big scrap between Wall Street and another outfit of parasites or for the contemplated attack upon the only Workers' Republic, the Soviet Union. Moreover, we are somewhat inclined to doubt the tranquility of Mr. Allan Davis, principal of business high school, and Dr. Franklin W. Ballou, superintendent of the local public schools, at the sudden sight of such enlightening posters. As a matter of fact, they have not yet recovered from the shock of seeing these stars.

Nevertheless, we are sure that Major Hesse's hysterical order to the Washington police won't dampen in the least the militant spirit with which these young workers and students convey the truth to the high school students about the capitalists' preparations for imperialist wars. We are sure that many students, after reading these posters, will NOT go to the CMTC, but will join us in unmasking the CMTC to show the true function of this institution—to train loyal soldiers, loyal to the parasites of humanity.

DRAMA

"Patience" Is Fairly Well Sung by the Play Arts Guild

WHEN professionals, in the sense that they make their whole living on or about the stage, sing the opening chorus of "Patience" the first two lines run:

"Twenty lovesick maidens we—
Maidens all against our will."

Mary Bokee

But the group of actors' daughters, college English teachers and students, editors of little reviews, etc., from Baltimore, calling themselves "The Play Arts Guild" evidently have mamas, and these ladies have told them to be good. So they sing it (sing it very well) now at the Theatre Masque:

"Twenty lovesick maidens we—
Lovesick all against our will. . . ."

And that is, as it were, a keynote speech of the Play Arts presentation. The chorus singing is excellent, but the play is all flattened out, reduced to its essential proprieties, which, considering the prevailing taste on Broadway, is going some.

The more enduring parts of Gilbert and Sullivan, the flashing knife work with which the gas bags of aestheticism are laid open, are preserved. Donald Kirkley as Bunthorne and Edmund Leonard as Grosvenor make one wish that these two and Gilbert could have collaborated to do something about Joseph Hergesheimer. Kirkley, especially, is a nimble and earnest poet with his feet. The noble lords of England appear as affected jackasses.

JUDITH ANDERSON

This talented actress will take up the role of Nina Leeds tonight in "Strange Interlude," Eugene O'Neill's forceful play at the John Golden Theatre.

The thunderous heavy dragoons, parading down into the side aisle and making a glorious patch of color have such good voices that you forget they handle their sabres in a most unmartial manner. Somebody should tell a few of them that in the return sabre, the point is inserted in the scabbard without three or four unnecessary jabs at the opening.

Mary Bokee, as Patience, despite the fact (if it be a fact) stated in the program, that her experience is confined to the Play Arts Guild productions, manages to make up in startling resemblance to a movie actress. In this part, it adds a touch of exoticism, however, and is certainly not to be condemned. Patience and Lady Jane, done by Gertrude M. Gossman (previous experience not stated by the program) get the most out of their foolery. Probably they will not have to teach school for a living. The very pretty Lovesick Maidens chorus is not a little stiff and careful of its feet. It is swathed in more drapery than is usually needed in a chorus, and its movements are too much patterned after the dragoon drill. But it sings well, and that, I suppose, is the main thing.

It is a good show, because the people on the stage give honest and able attention to the beautiful and humorous lyrics of Messrs. Gilbert and Sullivan. But it is not as good a performance as others have done.

—V. S.

DETROIT MEET TO PROTEST AGAINST WAR PREPARATION

Fascist Activities Will Be Sounded July 7

DETROIT, Mich., June 29.—A United Committee of the Workers (Communist) Party of Detroit, the Balkan Central Committee, the Anti-Fascist Alliance of America and the International Labor Defense have arranged a mass protest meeting against the growing war danger in the Balkans to be held on July 7, 8 p. m. at the Workers Home, 1343 E. Ferry Ave.

A statement issued yesterday by the United Committee follows:

"The reactionary Fascist Government of Italy and Yugo Slavia are playing a desperate game which is likely to plunge Europe in another World War far more deadly and terrible than the last imperialist holocaust.

"Italy and Yugoslavia are playing the leading roles on the surface, but behind the scenes are England and America, the imperialist giants fighting for a united front against the Soviet Union, and France manipulating for advantages in setting up her sys[illegible] of war alliances in the Balkans. [illegible] this struggle, if it develops into w[illegible] will not long be a war of Italy a[illegible] Yugoslavia. The "great powers" w[illegible]ke a hand in this war, just as [illegible]n the last, but it will be the [illegible] and peasants of these "great [illegible] who will have to do the fight[illegible]ainst their brother workers from other countries and leave their lifeblood on the field of battle.

"The United Committee calls upon all workers, Italian, Jugo Slav, American and all other nationalities, to attend this mass meeting on July 7 and to vigorously protest and fight against the criminal war preparations of international Fascism."

FEAR AMUNDSEN PARTY IS DEAD

Will Continue Search for Lost Explorer

LONDON, June 29.—With five ships searching for the missing members of the Nobile expedition and the lost Amundsen relief party, three more are expected to join the hunt within a few days. They are the Norwegian ice breaker Veslekari, the steamship Hobby and the French warcraft Luxembourg.

Advices from King's Bay and Virgo Bay, Spitzbergen, said that no trace has been found of the missing men.

Weather conditions have improved off the Northern coast of Spitzbergen and Northeast land and it is expected that Major Maddelena and Major Penzo will soon hop off in their Italian seaplanes to search for the lost men. Fears are growing both here and at King's Bay that the nine miss- members of the Nobile expedition [illegible] the Amundsen party have lost [illegible] lives. However, the search for [illegible]em will continue indefinitely.

Machine Kills Worker in Fiske Rubber Plant

CHICOPEE, Mass., June 29. —lecsub Prokub, 39, an employee of the Fiske Rubber Company, was killed today when his head was caught and drawn between the rolls of a cooling machine. Other workers called by his cries stopped the machinery but it was too late to save him.

WORKERS CALENDAR

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

* * *

Kansas City Picnic.

KANSAS CITY.—The International Labor Defense of Kansas City has arranged a labor picnic to be held at the City Park on July 4. The keynote of the affair will be the struggle to free Mooney and Billings. There will be speeches, refreshments, athletic exhibitions, and sports for all.

* * *

Y. W. L. Fete.

An open air garden festival and concert will be given by the Young Workers League of Harlem on Saturday, June 30, at 8 p. m. at 143 E. 103rd St.

* * *

Open Air Meetings—Week of June 25.

Topic: The Miners' Struggle, Miners' Relief, Role of the Capitalist State in that Struggle.

STRIKE ANSWERS SPEED-UP ORDER

Weavers Go Out When Demands Are Refused

PITTSFIELD, Mass., June 29.—An attempt made by the Hossac Worsted Mills in North Adams to speed up the weavers by ordering them to operate two course goods looms each instead of one fine and one coarse goods loom, resulted in a strike of the weavers when the employers refused to raise wages to 10 cents a yard.

After a committee of the striking workers had gone in to the management with their demands and had been refused, a meeting held soon after unanimously decided to stay out on strike till their demands were met.

ACTOR DEAD IN VIENNA.

VIENNA, June 29.—Leo Dietrichstein, well known American actor and producer, is dead here today at the age of 66. He died suddenly last night in Auersperg sanitarium of heart disease.

CHICAGO PLANS BIG PICNIC AND CAMPAIGN RALLY

Ben Gitlow Will Be the Principal Speaker

CHICAGO, Ill., June 29.—The campaign rally and picnic arranged by the Workers (Communist) Party of Chicago promises, according to the sales of tickets so far recorded, to be the biggest affair of the season. A monster demonstration on the grounds will precede the meeting, with Ben Gitlow, Workers (Communist) Party candidate for vice-president, as principal speaker.

The campaign rally, however, will not interfere with the festivities of the picnic. South Slavic workers are preparing a barbecue with dozens of fresh lambs roasted on the fire while all those present wait for their share Branches of the Labor Sports Union have prepared a sports meet that will feature boxing, jumping, and other exercises. One of the best bands in the Windy City has been procured to supply the dance music.

The program will begin at noon Refreshments of all sorts will key the workers up so that they may be insured of a perfect day.

Lindbergh Is Given Post on Labor-Baiting Pennsylvania Railroad

PHILADELPHIA, June 29.—Appointment of Col. Charles A. Lindbergh as consulting engineer to the Pennsylvania Railroad in connection with the road's plans for air mail transportation, was formally announced today by General W. W. Atterbury.

Col. Lindbergh accepted the appointment effective July 1. He will serve in an advisory and consulting capacity in the development of the Pennsylvania Railroad's part in the coast to coast air mail line to be operated by the Transcontinental Air Transport Company of which he is chairman of the technical committee.

GITLOW TO TALK AT BUFFALO MEETING

BUFFALO, June 29.—Ben Gitlow, vice presidential candidate of the Workers (Communist) Party, will be the principal speaker at an election banquet to be held here Saturday at 8 p. m. at 605 Main Street, 3rd floor, the local party headquarters.

The banquet will mark the beginning of the intensive election drive which the Party intends to carry on in northern New York State. In addition to speeches, an elaborate entertainment has been arranged for the banquet.

CROPS IMPROVING IN SOVIET UNION

27 Per Cent Above the Average in Spring

M. G. Gurevitch, acting chairman of the Board of Directors of the Amtorg Trading Corporation, yesterday announced the receipt of the following cable from the Commissariat for Trade in Moscow:

"According to data of the Central Statistical Board of the U. S. S. R. the condition of crops in the Soviet Union as of June 15 shows considerable improvement. It is estimated that the crop will be greater than the average and also greater than last year's crop. The condition of all crops on June 15 is estimated at 17 per cent above the average. The spring crop reports are especially favorable, the crops being estimated at 27 per cent above the average. The winter crops are estimated at one per cent below the average."

BUILD NEW CO-OP RESTAURANT HERE

Workers Center Houses New Lunch Room

A completely new and spacious Cooperative Restaurant is now being built by the Proletcos at 26-28 Union Square (Workers Center Building).

The present Cooperative Restaurant at 30 Union Square which is much smaller in size will serve as an annex to the new place. The front space of the present restaurant will be occupied by the Workers Book Shop, whereas the rear of the present place where the kitchen and food counter are now located will be remodeled to allow more space for consumers. A small luncheon room which will be a feature of the new restaurant will be built on a gallery in that corner.

The kitchen and food counter which will be located in the main restaurant, 26-28 Union Square, will be built along the most modern and sanitary lines. The present congestion at the counter will be entirely eliminated.

the Cooperative Restaurant, themselves, as to whether the remodeled place shall be completed at the shortest time possible. The Proletcos has issued bonds to finance this considerable undertaking. The bonds bear six per cent interest from the day they are bought to the day they are surrendered.

OPEN AIR MEET STARTS ELECTION DRIVE IN READING

Hundreds of Workers Attend

READING, Pa., June 29.—The local organizations of the Workers (Communist) Party opened the 1928 election campaign with an open air mass meeting last night at Mulberry and Marriott Streets.

Hundreds of workers from Reading and vicinity made the meeting a success.

Herbert Benjamin, district organizer of the Philadelphia district of the Workers (Communist) Party, was the main speaker. A collection was made after his speech and many DAILY WORKERS were sold.

Paper-Power Merger Controls $550,000,000

The creation of the International Paper and Power Company will bring into one organization properties whose securities have a combined market value of over $550,000,000, of which 55 per cent represents segregated power and utility properties.

These facts were cited in the letter mailed last night to stockholders of the International Paper Company by the board of directors, setting forth the plan and agreement dated June 28, 1928, for the reorganization of the company.

☒ WORKERS (COMMUNIST) PARTY

For the Party of the Class Struggle!
For the Workers! Against the Capitalists!

Grover Cleveland, Woodrow Wilson and Al Smith

Alfred E. Smith is the democratic candidate.

The New York World, which offered in 1920 to support Herbert Hoover on *either* ticket, tried in this campaign to make itself the outstanding spokesman for the nomination of Smith on the democratic ticket.

The World says:

> "In the nomination of Governor Smith the democratic party is making its third attempt since the Civil War to transform itself from an asylum for lost and discredited causes into a responsible and liberal instrumentality of government. . . . We are witnessing now the attempt of the democracy to do again in 1928 under Alfred E. Smith what it did in 1884 under Cleveland and in 1912 under Woodrow Wilson.
>
> "Three bad causes have three times wrecked the party in the last seventy years: slavery, populism and prohibition. Three leaders have fought to save the party: Cleveland, Wilson and Smith."

From the point of view of the highest ranks of the capitalist class, there is much meaning in these words.

The capitalist class of this country throughout its history has enjoyed peculiar advantages. Economic and historical conditions have, since 1865 given the American bourgeoisie a remarkable degree of immunity from political opposition to its interests. In its youth the American capitalist class arose and crushed in war its rival, the land-owning aristocracy of the South which had shared political control since the birth of the republic. Its leadership in doing this was the republican party which remains the classic party of the capitalist class.

While the republican party championed the big capitalist cause in the trustification of industry, the democratic party became, in some cases, "an asylum for the lost and discredited causes" of the petty capitalists, city and rural, ruined by the trustification of industry and the growth of the power of the banks.

Such resistance to the capitalist monopolization as was crystallized in political form tended to be drawn into the democratic party, which, of course, never really represented but always betrayed the cause of the farmers as well as that of the future-less petty bourgeoisie. When economic conditions swelled the opposition, there was always a superficial demagogue, typified by Bryan, to mislead this opposition to defeat. But in other cases a straight-cut representative of big business succeeded in corralling the varied elements of the democratic party behind him and at the same time became the choice of the big monopolists for the presidency. These are the cases named by The World, when Grover Cleveland and Woodrow Wilson were nominated and elected.

If there is any disposition to doubt this, we can cite the fact that precisely four times the democratic campaign fund has been larger than the republican campaign fund: in 1884 and in 1892, in which years Cleveland was elected, and in 1912 and 1916 when Wilson was elected. Of course it is possible also to say that Alton B. Parker in 1904 and John W. Davis in 1924 were Wall Street's men, but the point is that they were not the choice of Wall Street for *election*.

The clear-cut capitalist cause has not failed to elect its first choice in a national election since 1854.

Capitalism made no mistake in throwing its support to Cleveland, who used the federal troops against the working class in the Chicago Pullman strike in 1894, nor in throwing its support to Wilson, who showed himself a "responsible instrumentality of government" for Wall Street by putting the United States into the world war for "democracy."

What The World wishes to say is that American finance-capital has yet another time come to the right conditions in which to throw its support to a democratic candidate. The World really means that for the fifth time in American history the democratic campaign fund will be larger than the republican campaign fund.

It is true, as John J. Raskob says, that finance-capital "has nothing to fear" in the election of Smith.

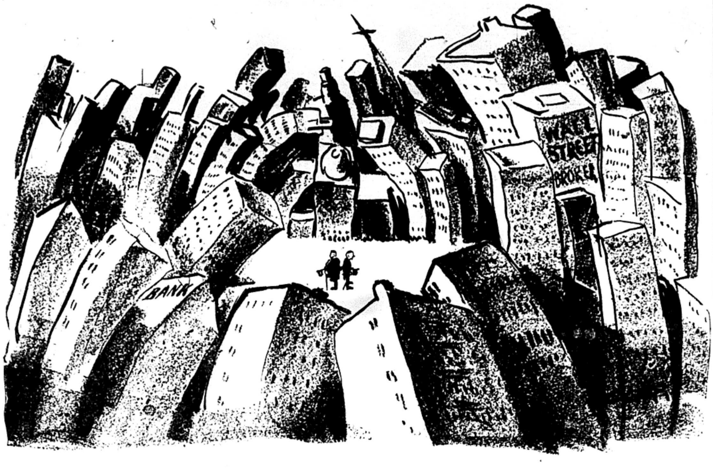
But it is not so certain that Wall Street will prefer Smith to Hoover.

Is Smith another Grover Cleveland, another Woodrow Wilson? It may be that he is merely another Alton B. Parker or John W. Davis. Smith is certainly the choice of Wall Street for the nomination—but it may be that Hoover is the choice, even above Smith, for the *election*.

We will do the best we can to examine the campaign funds.

Meantime, workers and exploited farmers, serve your cause. Workers, build your own class party—the Workers (Communist) Party. Vote Communist, and join the Workers (Communist) Party.

WALL STREET GREETS ITS CANDIDATES! By Fred Ellis



Taxi Drivers Have Vicious Grind

Declaring that the present drive by the Greater City Taxi Owners' Association to force out 20,000 taxicab men from the industry is largely motivated by the Yellow Taxi Corporation, Morgan-controlled and largest firm in the business, cab drivers yesterday pointed out that the Yellow Taxi Corporation provides lowest paying hack job in the city. Its men receive 40 per cent of the bookings if they work 6 days. If they work 5 days they get 35 per cent, if they work 4 days only 33 1-3 per cent. Drivers working for the independents get a flat commission of 40 per cent.

Four years ago the Brotherhood of Taxi Chauffeurs, an independent union, organized all drivers working for the Mogul Checker Fleet owners. The Yellow Taxi drivers were left alone. Before the strike the drivers were getting 33 1-3 per cent and after the strike, which lasted 7 days effecting 7,000 drivers, and due to their victory the men raised it to 40 per cent. About four months thereafter the union broke up, due to inefficiency and lack of organizational experience on the part of the organizers.

Neither the Brotherhood of Taxi Chauffeurs nor the International Brotherhood of Teamsters, Chauffeurs and Stablemen Helpers' Union, has ever made a serious attempt to organize the drivers of the Yellow Taxi Corporation in spite of the fact that the men have been waiting for some one to take the lead.

At the Bretton Hall Hotel stand of the Yellows, 14 out of 17 drivers answering a DAILY WORKER reporter wanted to know when a union was going to be formed.

Chauffeurs along Eighth Ave. and 45th Street and along Sixth Ave., in the midst of the theatre district, interviewed between 10 and 11 o'clock p. m. who stated that they are working for the open shop "Yellows" and the independent fleet owners, 70 out of 95 drivers wanted to be organized into a union.

Union Sentiment.

At 60th Street and First Ave., where the Yellows have a double garage, one chauffeur, with the company six years, said, "Well, it's about time the organizers did come down here. Conditions are terrible. Men are not making a living. It's getting worse and worse."

At the hackstand on 4th Ave. and 32nd St., Brooklyn, a driver who was broke in by the "Yellows" five years ago said, "When the company broke me in to drive, I was told that I would be making my fifty 'bucks' a week. I have been driving their 'Loads of Iron' around the streets for 5 years now, and the best I could average on the night shift is $30 per week, working six and seven days weekly and 12 and 14 hours a night."

One driver working for Benny Engle, of 327 Delancey Street, said, "I have been working for this man for the past three weeks. He is known as one of the biggest 'hounds' in the industry. I must bring in $15 a night or better and if I don't it means that I have to look for another job.

"Last week I was about to pull in to the garage with $13.65, when I met one of the drivers who had just turned his cab in. He had booked $11. It meant that he was given the 'air.' I turned my cab around and started out working again. By three-thirty I managed to get another dollar and putting the other 35 cents of my tips on the meter I had my 3 pounds ($15). I pulled in and the night boss took my bookings with a smile and a pat on my back. What a smile and what a pat on the back I would have gotten if I would have fallen below the average."

Kate Gitlow Brings Greeting of Soviet Women

By TILLIE LITTINSKY.

Very, very inspiring, and by far exceeding the expectation of the most sanguine among us, was the banquet tendered to Kate Gitlow by the United Council of Working Class Women on her return from the Union of Socialist Soviet Republics.

The affair took place on Saturday night at the Manhattan Lyceum New York.

To see the spacious hall crowded to capacity, and seats all taken and a goodly throng standing about the walls and in the doorway, was enough to strike joy into the hearts of all militant workers devoted to the working class movement, and to make our enemies feel bluer than blue Monday. Faces were beaming; hearts were throbbing joyously and the jubilant spirit was so high that it was with difficulty that the toastmaster, Ray Ragozin, managed to control the merry-makers and to make them listen to the representatives of various organizations, who came to greet Kate Gitlow and the women's movement she represents on this occasion.

Comrade Lilienstein, as chairman, briefly introduced Ray Ragozin as the toastmaster. She, in turn, welcomed Kate Gitlow in the name of the United Council of Working Class Women, pointing out to "Mother" Gitlow that, far from slacking down in her absence, the councils had expanded, grown and thrived and expect to keep right on with the good work.

Comrade Nessin, in the name of the Workers (Communist) Party, greeted Kate Gitlow and promised the Women's Movement the support and aid of the party in their work of organizing the unorganized women and intensifying the work within their own ranks.

Mania Pearlman, in the name of the Joint Board; Rose Baron, spokesman of the International Labor Defense and Mrs. Burroughs, in the name of the Associated Negro Women, tendered greetings to Comrade Gitlow.

Mrs. Campbell, in the name of the Negro Labor Congress, stressed the need of solidarity of all workers, irrespective of race, color or creed. A Grossfield, in the name of the Nonpartisan Workers Children Schools; Comrade Fishman, of the United Co-operative Colony, and Sylvia Blecher the militant young leader of the Millinery Hand Workers Union, Local 43, paid due respect to Kate Gitlow as pioneer worker in the Woman Movement.

Last, and best, came Kate Gitlow, to whom the hitherto incontrollable crowd listened breathlessly. She said the trip to the Union of Socialist Soviet Republics had rejuvenated her and given her courage and energy for further work.

"The Bolsheviki have done a thorough job," said she.

The 140,000,000 people are devoted to "Our Party," as they alude to the Communist Party, whose leadership is generally accepted.

Unlike America, the Union of Socialist Soviet Republics properly acknowledges the right of its women for equality in all things for which they are especially trained through clubs, schools and delegate conferences. The Soviet Government takes care of mother and child and through proper instruction teaches working women how to care for themselves and their children. Working women serve on important committees in factories, co-operatives, soviets and all other activities in the Soviet Union.

Comrade Gitlow stressed that for all the splendidly constructive work in the Union of Socialist Soviet Republics there are still many hardships to overcome, the prime danger being the possibility of an armed attack of world capitalist governments on the Soviet Union. However, the people of the Union of Socialist Soviet Republics are well prepared and will stand firm in the defense of their newly won freedom (real freedom), such as is unknown here in our land of the free. She was greeted with a wild ovation before and after her speech.

Comrade Ragozin then read a greeting which the Moscow women sent our women through Kate Gitlow. This greeting called upon American working women to show their solidarity with their class in Russia by opposing any attack against the Soviet Union by the capitalists. This greeting was enthusiastically received by the women present.

Symphony Concerts for Workers Feature in Moscow

SYMPHONY music in Moscow continues to be provided by the two fundamental concert organizations: the Concert Bureau of the Academic Theatres, (formerly the Russian Philharmony), and Persimfans, (First Symphony Ensemble).

The Concert Bureau mainly organizes concerts by musicians from aboard. Among the foreign guests should be mentioned the German conductor Scherchen, who recently gave an excellent programme of both Russian and Western modern composers, like Starvinsky, Myaskovsky, Krzenek and others. Another foreign guest was the conductor Scheinflug, who presented the compositions of Schubert, Beethoven and Tchaikovsky.

As to chamber music, among the concerts organized by the Bureau, mention should be made of interesting concerts given by Barer, Sofronitsky and Iturbie.

The activities of Persimfans the past season led along a new field, special work consisting in the organization of symphony concerts in the working class districts of Moscow, for which purpose a subsidy was granted by the Soviet government which enabled the organization of some thirty popular concerts for working class audiences.

"Conductorless" Orchestras.

In its regular concert activity, Persimfans continues to make use of solo players in combination with collective "conductorless" playing. Regular symphony concerts were given during the current season from the works of Beethoven, Tchaikovsky, Glasunov and Balakirev. An interesting and refreshing novelty was furnished by the celebration concerts last season organized by Persimfans, introducing the work of the young Leningrad composer I. Schillinger who endeavors to reflect in the form of symphony the whole complexity of post-revolutionary life.

The Association of Modern Music, an organization of musical radicalism, has introduced a great number of novelties, among which the central role was played by another Leningrad composer, the young and highly talented Shostakovitch. This composer some time ago produced a most profound symphony dedicated to the October Revolution. Mention should also be made of the work of the Moscow composer Roslavetz, who produced a Cantata in 5 parts for choir soloists and orchestra.

Among operatic productions produced in Moscow special mention should be made of two, the production of the "Heroic Apotheosis" in the Grand Theatre and of "Flengo" in the Experimental Theatre. Both of these were produced the past season.

Chamber Music Popular.

In regard to chamber music, mention ought to be made of the concerts given in the Home of Scientists, and in the State Academy of Art Research. Among concerts of this kind, special concerts were given by the Moscow Conservatory and Stradivarius string quartets, the Lieder Abende given by Mme. O. Bogoslavskaya and the piano concerts by S. E. Feinberg.

In conclusion, it would not be amiss to say a word or two on the concerts of western European music organized by VOX. One of the recent musical evenings organized by VOX introduced a Moscow audience to Danish music, which has almost been entirely unrepresented in the U. S. S. R. The value of such musical evenings is self-evident as they contribute considerably to the broadening of the musical outlook of the audiences.

Dwight Morrow, Kellogg Confer

WASHINGTON, June 29. — Dwight W. Morrow, Ambassador to Mexico and former partner in J. P. Morgan & Co., conferred with Secretary of State Kellogg today. He will again confer with Kellogg tomorrow and is expected to leave for Mexico City Saturday.

Among the questions discussed was the Mexican financial situation.

HANdOuTS

This is the time of the year when thousands of bright young boys and girls, trembling upon the Threshold of Life, bid farewell to Old High School and Dear Old College and sally forth to do or die for god and capitalism. But they might spare us the speeches.

• • •

Society Note: Morris Hillquit, well-known corporation lawyer, has left for a trip to Europe. He will study business conditions in France, Germany and Austria.

• • •

A waiter picketing the Isaac Geller's Delicatessen and Restaurant at 1446 St. Nicholas Ave. was arrested for talking to a patron. Under capitalism a worker's mouth is of very little value to him. He's not allowed to talk and he hasn't the price to eat.

• • •

Socialist Party activities on behalf of the American working class as reported in a current issue of the "New Leader:"

> Births and marriages seem to be occupying the attention of the members these days. Following the birth of a girl to Frank and Kate Brodsky, Jack Afros led Flora Lewinger to the altar. Not to be outdone, Jacke Wolfe followed in the footsteps of Jack Afros, by taking unto himself Lillian Cohen as his lawfully wedded wife.
>
> Now along comes Joe Co one of the organizers of the bra and startles the placidity of the mosphere with the announcem that his wife, Lee, the forme M. Nagier, had borne him a ter. The members are no ing the question, "Who and next?"

• • •

H. Thaw, Fireman

America is the land of the free—at least for rich murderers. Abo is a picture of Harry K. Thaw, who was irritated with Stanford Whit several years ago and killed him Thaw is now touring Europe. Thaw failed to treat the British immigration authorities with the consideration one shows a jury if one is a murderer. He bid too low and the authorities refused to let him enter the country. The jury declared Thaw insane. In the above picture Thaw is shown as an honorary member of the Rouss Volunteer Fire Company, of Winchester, Va., wearing a red shirt and carrying a horn under his arm, leading the fire brigade in the Shenandoah Apple Blossom Festival at Winchester. This would indicate the jury was right.

Police Seize Distillery In Garden City Home

GARDEN CITY, N. Y., June 29.—County police and federal prohibition agents early today seized what they declared was a distillery worth between $75,000 and $100,000 in an eight-room house at 16 Lloyd Ave. here and arrested four men.

The men arrested said they were James Armenaki, who, police say, owned the house; Joseph Faollio, 127 Delancey St., Manhattan; Frank Triente, 167 Mott St., Manhattan; Joseph Rosa, 358 Broome St., Manhattan.

The men were taken to the Merrick police station where charges of violating the Volstead Act, operat of an unlicensed still and conspi were lodged against [illegible] charges of manufac [illegible] legally and of conspi [illegible] against the other thre

POLICE CLUB, ARREST NEW BEDFORD MILL STRIKERS

CONFIRM ZINOVIEV READMISSION TO ALL UNION PARTY

Admit All Errors; Give Up Fractional Work

(Special Cable to the Daily Worker).

MOSCOW, July 1.—The Praesidium of the Central Control Commission of the Communist Party of the Soviet Union has decided to readmit to the party Zinoviev, Kameneff, Yevdomikoff and thirty-five other members of the former opposition because they signed statements recognizing the fundamental errors of their former position, abandoned the Trotskyist platform, gave up their fractional activity and promised to completely subordinate themselves to the decisions of the Communist Party of the Soviet Union and the Communist International.

Their former membership in the party will be reckoned and note made of the interruption of their membership since their expulsion.

In addition to Zinoviev, Kameneff and Yevdomikoff, those readmitted to party membership are: Avdeyev, [illegible], Bakayev, Belais, Belenki, [illegible], Waintraub, Gertik, Hessen, [illegible], Yelkovitch, Savarakina, [illegible], Kuklin, Lashevitch, Levin, [illegible], Lyalina, Matveyev, [illegible], Minitschev, Nikolaiev, Pin[illegible], Prigoshin, Rabkin, Ravitsch, So[illegible], Solovyev, Federev, Furtichev, [illegible]konov, Sharov and Shepsheleva.

WOLL ATTACKS U. S. S. R. TOUR

Denounces Comintern, Workers Party

WASHINGTON, July 1.—In accordance with their policy of bitter [illegible] to the Union of Socialist Soviet Republics, Matthew Woll, [illegible] for the bureaucracy of the American Federation of Labor, has [illegible] the tour of Soviet Russia [illegible] educators as "a propaganda device." This was disclosed [illegible] in a correspondence made [illegible] by Woll, acting president of [illegible] Civic Federation and [illegible] of the A. F. of L. [illegible] Tennessee Federation, which [illegible] the tour, asked Woll, as [illegible] of the International Labor [illegible] America, to give publicity [illegible] on the tour. Woll's attack [illegible] was directed as a re[illegible] the Tennessee Federation. There are two hundred trade union [illegible] comprising the Labor [illegible].

[illegible] W. C. Birthright, of the [illegible] Federation, described to [illegible] in a letter to J. B. Matthew, [illegible] of the members of the tour, as [illegible] learned professor and a [illegible] on the bible in Scarritt College. Matthew's plan is to send [illegible] on the tour as the par[illegible] through Russia.

[illegible] to Birthright, Woll said: "[illegible] be advised that the American [illegible] of Labor had defin[illegible] the present Russian re[illegible] has condemned it in no [illegible] terms. The Russian government [illegible] expressed through the [illegible] International has sought [illegible] years the overthrow of the [illegible] government and as a con[illegible] to this, the over[illegible] of the American Federation [illegible].

"[illegible] is no distinction between [illegible] (Workers) Party, [illegible] International and the So[illegible]. They are one and the [illegible], it has been the experience [illegible] American labor movement [illegible] no real insight can be obtained [illegible] the workings of the Soviets [illegible] existing there, because [illegible] in which such delegations [illegible] investigators are received [illegible]. They are shown [illegible] best to show them [illegible] access to many [illegible] conditions would not [illegible] shedding of light."

[illegible] SPEAKS AT [illegible]ORE MEET

[illegible] are actively pre[illegible] national election cam[illegible] which will be held in that [illegible] with Robert Minor, [illegible] DAILY WORKER and [illegible] on the Com[illegible] New York State, as [illegible].

[illegible] be held in the Work[illegible] on the 4th of [illegible] about 11 a. m. It [illegible] the entire left-wing [illegible].

[illegible] the speaking there [illegible].

Addresses Militants

Albert Weisbord, organizer of the Passaic strike, addressed thousands of New Bedford textile workers after their demonstration had been broken up by a police attack. Thousands heard Weisbord, though he spoke in an open lot in a heavy rain.

TEXAS DELEGATES REPORT ON PARTY NOMINATION MEET

Lauderdale Enthusiastic About Convention

BRECKENRIDGE, Texas, July 1.—The delegates from Texas to the National Nominating Convention of the Workers (Communist) Party held recently in New York, delivered a verbal and written report to the Oklahoma and Texas sub-district of the Party. The written report, signed by E. H. Landerdale and Harry Lawrence is quoted in full and says:

My report on the Workers (Communist) Party Nominating Convention was delayed since it took me some four days to reach home after adjournment and my crop required immediate attention upon arrival home.

The convention was held as announced on the 25-26-27 of May of this year in the city of New York. Delegates attended from 39 states and the District of Columbia. Fraternal delegates attended from some of the South

ELECT OBREGON IN MEXICO POLL

Communist Party Calls Him Careerist

MEXICO CITY, July 1 (UP).—The Mexican national elections, at which General Alvaro Obregon, former president, and friend of president Calles, was the sole presidential candidate, passed quietly throughout the country today with a fairly heavy vote, according to reports received at the capital this evening.

Obregon will assume office December 1.

• • •

MEXICO CITY, July 1. — The hollow formality of the Mexican presidential election was gone thru today with General Alvaro Obregon as the sole candidate. Fearing election disturbances, the entire Mexican army was ordered on active duty, and all the courts kept open.

Obregon had the support of the American interests with investments in Mexico, as well as the middle classes and part of the upper class. His attitude towards the lauded Church interests has steadily bended to become more conciliatory.

In reference to the Obregon candidacy, the Mexican Communist Party issued the following statement: "Obregonism at one time represented the united front against clericalism, landlordism and imperialism, but the recent split reveals that for Obregon the united front only exists in his own person. He has called on the peasants, the middle classes and part of the upper classes to aid him. The Obregon group has no sincere desire to destroy the false labor leadership of the CROM and strengthen the labor movement, but to destroy a strong rival political clique which interferes only with their own ambitions. Many of the Obregonistas even wish to destroy the labor movement, reduce salaries and abolish the social gains of the revolution.

A break is developing between the Obregon group and the Mexican Labor Party. The Communist Party of Mexico has as a result taken a position of opposition to the Mexican labor misleadership, lead by Morones. The Party has termed the conflict between Obregon and the CROM a "sordid struggle between two political factions called Obregonism and Laborism."

Currency in circulation, as of April 1, 1928, amounted to 1,613,300,000 rubles, of which State Bank notes were [illegible],300,000 rubles, treasury notes [illegible],000,000 rubles, silver coin 163,[illegible] rubles, and bronze and copper [illegible] rubles.

Missouri Miners Enraged Over Shooting by Scabs

MANY INJURED IN ATTEMPT TO OPEN COAL PIT

Operators Try to Set Up 1917 Scale

(Special to the Daily Worker)

PITTSBURGH, Kan., July 1.—Miners of the Minden Mines, Mo. fields are enraged over the murderous assault made upon a picket line here Friday when armed scabs and gunmen fired into the crowd, wounding a number of coal diggers. Whole mine districts here have taken on the appearance of armed conflict.

• • •

MINDEN MINES, Mo., July 1.—Serious injuries to miners and scabs resulted here from a clash which followed the attempt by the Western Coal and Mining Company to force open its pits at the 1917 scale. A picket line of striking miners of District 14 here was fired upon by armed scabs when the company imported strikebreakers from Oklahoma.

At Western 23 Mine the company planned to pitch tents for its scabs on

GREAT MUSIC AT STADIUM CONCERT

Theremin, Orchestra of 50 to Perform

Thousands of New York workers will have the first opportunity to enjoy a demonstration of one of the most remarkable inventions of our day, when ~~Professor~~ Leo Theremin of the Soviet Union will extract from the air what are admittedly the most beautiful musical sounds ever heard. This and other great features will be presented at a concert to be held in Coney Island Stadium, July 14.

Volpe and his orchestra of 50, one of the leading musical institutions in the country, will also be on the program of the concert.

The stadium's seating capacity of about 25,000 is expected to be filled at this concert which will be the most elaborate proletarian event ever arranged in America.

CREW ESCAPES DEATH.

NEWPORT, R. I., July 1 (U.P.).—The captain and 15 members of the crew of the fishing schooner Eugenia had a narrow escape from death when the vessel foundered on the rocks near Beaver Tail Light here early today, sinking within 20 minutes.

WASHINGTON, July 1 (U.P.).—Lieut. Lowell Harding, noted pilot, was injured here today when his airplane took a nose dive into the Potomac River. William P. Cassidy, who was with Harding, also was injured.

Red Candidates for Congress From New York City

At left is Bertram D. Wolfe, Workers (Communist) Party candidate for congress from the 10th congressional district in Brooklyn; Paul Crouch, Workers Party candidate from the 2nd congressional district in Queens, is shown at the right.

STEEL TRUST ORDERS NEW MINE WAGE CUT

UNIONTOWN, Pa., July 1. — A wholesale wage cut which will in some cases bring the pay level of non-union miners to that of pre-war times was announced yesterday by H. C. Frick Coke Company, a subsidiary of the United States Coal Company. Reductions of 10, 12 and in some cases of 15 per cent were announced for all grades with the exception of pit coal diggers who have already been cut to below $3.00 for a nine-hour day average.

The cut affects about 35,000 men in Fayette and Westmoreland Counties and will become operative if the miners do not in the meantime walk out on strike on July 11.

Machine drivers under the new scale would receive a 10 per cent slash. Drivers, cagers, blasters, tracklayers will receive a similar reduction. Outside laborers will be reduced to about $3.50 per day and mine laborers to $3.05.

Definite information has been secured that other operators in the Connellsville region will follow the lead of the U. S. Steel Corporation.

CARNIVAL TO AID FRAME-UP VICTIMS

All roads will lead to Starlight Park next Saturday where the great Joint Defense Sports Carnival will be held. Thousands of workers, representing every trade and every nationality will gather there to [illegible] the greatest proletarian sp[illegible]tacle ever held in this [illegible]

But the sports carniv[illegible] Defense will not be [illegible] ment event. It [illegible] stration of soli[illegible] New York's [illegible] their needle [illegible] have been [illegible] smashing [illegible] collabor[illegible]

WAGE INCREASE WAITED 4 YEARS

Stereotypers Learn of Tammany Tactics

Forced after over four years of stalling and deliberate tactics of evasion to meet the issue, a Tammany arbitration board, it was learned yesterday, is about ready to hand down its decision granting a wage increase to members of the stereotypers union of New York City.

Under the decision which will be announced shortly the workers receive a wage increase of $5.50 per week and other increases are said to be in prospect. It is understood, however, that the decision which is not retroactive, is made public only after the employers, who are chiefly newspaper publishers, have become certain that they can soon begin steps for a general wage slash. In any event the workers lose four years of increases which they now declare they could easily have won through a strike.

Democrat Women Drys To Vote For Hoover

WASHINGTON, July 1 (U.P.).—The women of democracy "will bolt their party rather than vote for Gov. Smith," and they will support Herbert Hoover in an active campaign, Mrs. William Atherton Du Puy, Liberty Press representative for women [illegible] groups at the Houston convention, declared in a statement here tonight.

BEGINNI[illegible], JULY 9

Daily Worker

will appear in its "new dress" with pages in full standard size, eight columns to the page instead of the seven columns as heretofore.

Complete telegraph service direct to its office from all countries of the world, including the Union of Socialist Soviet Republics, has been secured.

The opportunity to establish the workers' revolutionary daily paper on a more economical basis with great saving in cost of publication and great improvements in quality, is given by the splendid response of the militant workers and sympathizers in the crisis which threatened the life of the Daily Worker.

New Address: 26-28 Union Square, New York.

The Daily Worker is confident of the continued support of the militant workers.

BREAK PARADE; SLUG, TRAMPLE ON MARCHERS

Thousands Hear Weisbord at Giant Mass Meet After Demonstration Despite Rain

29 Parade Leaders Jailed; Are Charged With "Inciting to Riot"

NEW BEDFORD, Mass., July 1.—Twenty-nine strikers were arrested, many men and women were clubbed by police and trampled, banners and even flags were torn from the hands of carriers when the heavily augmented New Bedford police force broke up the parade of over six thousand textile strikers marching under the leadership of the Textile Mills Committee, in defiance of a police refusal of permit.

The divisions of marchers coming up from the North End had gone about five blocks, and that from the South End had marched about two blocks, when large truckloads of police, their numbers heavily increased by prohibition agents and others, jumped out and began the clubbings and arrests.

Charge Picket Lines.

Many more thousands of strikers and sympathizers were densely crowding the sidewalks, waiting to get into line when the police assault on the strikers began.

The two lines of the parade, starting from the two far ends of the city, began promptly on schedule time, 2 o'clock and were to meet and jointly go to the final destination. Several policemen walked before the two marching lines and kept the space in front open for the parade, giving the impression to the numerous thousands on the sidewalks that a permit had been granted.

The thunder of cheers that greeted the passing parade was transformed into hoots and jeers when the police leaped from the many big Mack trucks and began to charge the lines of the men, women and children marchers, after the order to halt had been defied by Eli Keller and Jack Rubenstein, leaders of the two lines.

Weisbord Speaks.

Huge mass meetings, addressed by Albert Weisbord, leader of the National Textile Mill Committee and the

HORTHY FASCISTS ARREST THIRTY IN WAVE OF TERROR

Arrests Follow Bela Kun Trial

(By Cable To DAILY WORKER.)

BUDAPEST, July 1.—Thirty arrests were today made here in a police dragnet of the Horthy Fascist dictatorship in "conspiracy" which the police claim to have discovered in connection with the Bela Kun trial and activities in Vienna.

The Horthy police are concealing the names of the persons arrested and no information of charges against them can be obtained. In the meantime arrests in the provinces are taking place.

• • •

VIENNA, July 1.—The lawyer for Bela Kun on trial here refrained from appealing against the sentence so that the sentence is now valid. It expires on July 27th.

SEAMEN READY FOR NEW UNION

Worker Writes About Child Labor

(By a Worker Correspondent)

Ninety-six per cent of the American seamen are unorganized because the corrupt officialdom of the International Seamens Union will not organize them. There is a crying need, in every seaman's opinion, for a new union to combat the grasping shipowners as well as the bureaucratic officials and their recently exposed ambulance-chasing attorney.

Child Labor

The shipowners are gloating over the profits they are making out of child labor this summer. Approximately 54,000 children under 16 years of age were forced from their schools during the year ending August, 1927, in order that they might enter the slave market of the shipowner's as cheap labor. These figures were re-

(Continued on Page Four)

MINE GRIEVANCE BOARD EXPOSED

Coal Diggers Exposed of Betrayals

(Special to The DAILY WORKER.)

HAZELTON, June 30.—The conciliation board, which consists of coal operators and union officials, is meeting here to settle many grievances brought up by the miners against the coal companies. The conciliation board, in a majority of cases, are upholding the position of the company, actually burying the grievance of the miners, or sending them to Umpire O'Neil in Washington, who is "impartial" and knows how to serve the coal operators.

Many Grievances

There are many grievances that miners bring up which indicate that the bosses are on the offensive. Here is the list of grievances from District No. 7:

Bratticemand and Roadman, Lattimer Colliery vs. Pardee Bros. & Co., Inc. In re: Hourly rate.

Certain miners, Lattimer Colliery vs. Pardee Bros. & Co., Inc. In re: Rock Hole rate.

Certain patcher, No. 4 Oneida Col-

PLAN PITTSBURGH ELECTION DRIVE

Put Forward Communist Ticket in Virginia

By A. JAKIRA
(Organizer, Pittsburgh District.)

The struggle of the miners, the question of organizing the unorganized, the election campaign and the Labor Party, the rapid growth of the Workers (Communist) Party in District No. 5—these were the main problems considered by the District Plenum held in Pittsburgh several days ago. A number of representatives from the various nuclei were present in addition to the members of the District Committee, department heads and members of the District Bureau of the Young Workers League.

The work of the Plenum will be followed up by a series of eight sub-district conferences to be held in various parts of the district on July 15. These conferences will consider the actions of the Plenum and will devote special attention to organization problems. Sub-district executive com-

GITLOW TO BE AT CHICAGO PICNIC

New Step in Election Drive in Illinois

Benjamin Gitlow, Communist candidate for the vice-presidency of the United States, will be the principal speaker at a picnic in Chernauskas Grove, Chicago on the afternoon of the 4th of July.

The picnic will mark a step in the intensive election drive which the party is carrying on in the Chicago district. In addition to Gitlow, Max Bedacht and a number of other party leaders will speak.

WHO KNOWS THE HEART AND COURAGE OF THESE MINERS—AND THEIR WOMEN FOLK!

By BARBARA RAND.

IMPERIAL, Pa., July 1.—In a hovel built of clay and odd pieces of lumber, several hundred feet from the dirt road leading to the Inland Coal Company mine, over a swampy foot path covered with boards, James Crawford, a striking miner, is dying. In a corner of the dark, dingy shack, the coal digger is gasping out his last breath. The doctor says there's no hope.

Charlotte Crawford, his wife[illegible] prematurely grey, a wizened little French woman, nurses him and mourns her five absent children. She tells a familiar story of the coal country, where operators, police and courts cooperate to fashion the hideous weave of the miners' existence. Months of striking, only the food sent in by the National Miners' Relief Committee to ward off starvation and always several children's mouths to feed; two of the children have died.

Lose Belongings.

Some months ago, Constable John Cheseborough came to their little hut on the side of the swamp and arrested Crawford. Then he came and took away two hogs, 12 rabbits, their few chickens and pigeons. These were never returned. The same day, all five children, from two year old Mary up, were taken away to county institutions. The mine woman has not seen them since.

Crawford was charged with vagrancy. C. B. Burns, hated company squire, promised to release him if he went back to scab.

"No one can make a scab of me," was the answer. He was held in jail twenty days.

When he came out Crawford was taken down sick. The worry about the children, how they were being taken care of, his own lack of food, had their effect. His wife drove herself nearly mad trying to get her children back.

Constable Cheseborough and Squire Burns were the only "authorities" in Imperial; she got no information from them. Ther[illegible] money to go to the county [illegible]

Appeals For Help

When Crawford's illness became alarming, the little coal woman walked the miles to the distribution camp of the National Miners' Relief Committee. Isabel Henderson went to the house to help. Dr. Broadhurst was called in. The other miners' families scrimped so the Crawfords could have a little more milk and bread. Help came late.

Meanwhile the strike toll is mounting. Hunger and the struggle are marking their trails of agony. Still there is determination to fight on even after fifteen months of untold hardship. Who knows the heart and courage of these miners—and their women folks?

Illinois Mine Leader Calls for Renewed Struggle Against Coal Barons

DAN SLINGER IN APPEAL AGAINST LEWIS MACHINE

Urges Mobilization for New Union

BELLEVILLE, Ill., July 1.—A picture of the conditions in the Illinois mine fields which have resulted from the treacherous policies of the Lewis-Fishwick machine and a call to all coal diggers to continue the struggle against the operators was yesterday issued by Dan H. Slinger, newly elected secretary-treasurer of District 12 Mine Workers. Slinger, who was chosen to office when the rank and file ousted the corrupt Fishwick machine last month, calls for the formation of a labor party as one means of combating the attack of the bosses. George Voyzey was elected president of the district. The call follows:

Call to Struggle

Brothers, the time has arrived when every miner should take his place in the struggle now going on in the coal mining industry of this country.

The miners of the State of Illinois have never been in a more serious position than at the present time. Wherever mines are opening up machines are being installed, and as a consequence only one-fourth of the miners are able to obtain a job. And too often we find that these few work only one or two days a week. We see as a consequence thousands of miners driven from their homes to seek employment in some other industry.

No Jobs

But often after looking for a job for months they are forced to return to their homes without finding employment. When asked the reason for their return the answer is that the other industries have unemployment, too.

What then is the answer to this problem? For many months the Save-The-Union Committee has been pointing out to the miners that to throw 200,000 coal miners out of the industry only helped to solve the problem for the coal operators, and meant only starvation for these 200,000 miners, or else taking the job for less wages. This condition is just what the coal operators and other employers of labor want, in order to keep the men who have the job from revolting against the terrible conditions. We propose the following as a remedy:

Less Hours

First, a six-hour day; second, a five-day week; third, a tonnage rate on the loading machine; fourth, a restriction on the amount or number of tons each man shall load; fifth, against temporary agreements; for a national strike and a national agreement; seventh, for the organization of the unorganized, and to fight against all wage cuts.

The miners must resist all attempts to lower their standard of living, and should receive the support of all the organized workers, because this is their fight, too. If the miners lose, then just as surely will the rest of the organized labor movement lose.

We are not opposed to the use of machinery by the operators, but we do say that the coal miners who are going to operate them must be the ones to receive the benefit. The machine must not be allowed to enslave thousands of miners in order that a few coal operators may reap a larger profit.

Lewis-Fishwick Treachery

Mr. Fishwick says that something must be done; he asks that the policy committee of the national organization be called together for the purpose of releasing the officials from the national policy. He makes the statement in his official organ, the "Illinois Miner," that this policy all at once has grown inadequate. In plain English, he means their policy has failed. Yet we find him in the special convention held in Peoria in 1927 telling the delegates what a wonderful document this policy was. A winning policy, he termed it, because, he said, Jack Walker won with it in 1910. Time means nothing to Fishwick.

Many rank and file miners arose and protested on the convention floor against this losing policy, but to no avail. Fishwick and his lieutenants carried out their policies and they have brought ruin and disaster to the once powerful and militant United Mine Workers of America.

They have revoked charters and thrown thousands of miners out of the organization because they dared to voice their protest against the losing policy. The press reports carry a story that local unions around Herrin are passing resolutions asking Mr. Lewis to grant the Illinois miners' officials the right to revise the policy, a revision downwards, which means that the Peabody Coal Company's full-page advertisement advising a reduction in [illegible] will be put into effect.

[illegible] and file miners say that this [illegible] being passed by the local [illegible] a counterpart of the one which was passed by the meeting held at the American Annex in St. Louis by the officers and scale committee of Illinois. Does any sane person believe that a reduction in wages will help the Illinois miners? This can not and will not help, because where coal mines are operated non-union the operator simply cuts the wages by posting a notice. The question arises: Will the miners allow these betrayers still to lead them? We believe not. We have faith in the fighting spirit of the rank and file of the United Mine Workers of America.

Will the sufferings and hardships, the giving of life itself by the Ohio and Pennsylvania miners, have been in vain? Must miners, their wives and children be beaten, slugged, thrown in jails, murdered again and again, before the workers learn that they must organize into a great labor party on the political field?

The hope of the miners' future lies in ridding their union of these betrayers, the Lewises, Fishwicks, Cappellinis and all of their ilk. The simplest and easiest way is to stop sending dues and assessments to them. Begin preparing now for the National Convention called by the rank and file to take place in Pittsburgh, September 9, 1928.

Capitalism Provides Workers' Children With Sewers in Which to Swim

Above children of New York workers swimming in the polluted Hudson River, where boats dump their oil and garbage. Under capitalism, the children of workers in large cities are compelled to resort [illegible] sewers like these to seek relief from the burning pavements.

POLICE ATTACK TEXTILE PARADE

Trample on Women and Children

(Continued from Page One)

local strike leaders were held on big open lots at the city's ends before formation for the parade took place.

Twenty-one of the arrests were made in the assault on the South End line. At the North End, Jack Rubinstein's reply that the strikers intend to retain their constitutional rights led to his immediate arrest and the arrest of John Pelcazar, Ellen Dawson, Louis Katsicas, his daughter Bessie, Andrew Bourassa and two others.

Appeal For Aid.

Although considerable bail was raised from strike sympathizers, the leaders of the union and the International Labor Defense sent out an immediate appeal which brought in enough to release all those arrested before night. Despite the offer to put up sufficient bail bonds, the police delayed the strikers' release for several hours.

All those arrested are facing the charge of inciting to riot, assaulting policemen, and disturbing the peace.

After the parade had been broken up thousands packed the two lots on the North and South Ends in a heavy rain to listen to Albert Weisbord deliver a slashing attack on the police terror.

Many Join Committee.

Unusually large numbers of the members of the American Federation of Textile Operatives are joining the Mill Committees it was also shown. The thousands attending the mass meetings expressed the greatest enthusiasm yet exhibited at any time during the strike, which enters its twelfth week.

Huge Picket Line

The largest picket lines that have as yet appeared at the mills during the strike, are expected to come out for duty Monday morning. This is due, not only to the tremendous fighting spirit generated by the attack on the parade, but also to the fact that the mill owners have threatened to reopen their mills Monday, July 9. Literally tens of thousands are expected to jam the cotton manufacturing district.

DECREASE IN AUTO ACCIDENTS.

WASHINGTON, July 1.—A slight decrease in May and June automobile accidents from the corresponding period last year was reported today by the department of commerce. During the four weeks ending June 16 there were 498 fatalities in 77 of the largest cities as compared with 506 last year.

Photograph Taken at National Nominating Convention Are Ready

The National Election Campaign Committee of the Workers (Communist) Party has secured limited number of photographs of the nominating convention held in Mecca Temple New York City, and of the banquet which was held during the course of the convention.

It is expected that there will be a rush to secure copies of the photograph of the first national nominating convention ever held by the Workers (Communist) Party. Each picture sells for one dollar. Two dollars forwarded to the national office of the Workers (Communist) Party, 4 East 125th Street, New York City will bring a copy of each picture to your door.

TO "PROBE" POWER TRUST LOBBYIST

Widespread Propaganda Campaign Carried on

WASHINGTON, July 1. (United Press).—John N. Cadby, of Milwaukee, secretary of the Wisconsin utilities Association, will testify Monday at the opening of the last week of the Federal Trade Commission's utilities investigation prior to its recess for the summer.

The commission will question Cadby regarding activities of his bureau in influencing public opinion against municipal ownership of power projects.

Investigators for the commission already have examined correspondence from Cadby's files and this data will be used as a basis for questioning him.

On Tuesday, A. F. Herwig of Milwaukee, director of the Wisconsin Public Utilities Information Bureau will be questioned by commission investigators on activities of his organization. Later in the week Frank O. Cuppey, Lafayette, Indiana, utilities executive, will be asked to tell of his organization's activities.

At last week's hearings, Indiana publicity bureau files disclosed that Cuppy was paid for lobbying in Indianapolis, state capital, and he is to be asked for an explanation of what he did with the money he received.

The commission plans to recess until September after this week, when it's investigation into other state utilities publicity bureaus will be resumed.

SUM UP CHARGES IN DONETZ PLOT

Evidence Shows Huge Conspiracy

(Special Cable to The Daily Worker)

MOSCOW, July 1.—The irrefutable existence of a giant counter-revolutionary sabotage organization, the object of which was the complete ruin of the Soviet Union coal industry in the Donetz Basin was proved by evidence submitted at the Donetz trial, according to Prosecutor Krylenko. The organization was connected abroad with the former Czarist owners of the mines and with official foreign institutions, Krylenko declared.

The accused, the prosecutor charged, were not only guilty of sabotage and espionage, but planned to create disorder in the rear, if the Soviet Union were attacked by the imperialistic powers.

After summing up the evidence against the members of the sabotage organization, Krylenko demanded death sentences for Beresovsky, Kalganov, Boyarinov, Budny, Sushtchevski, Adrei Kolodub, Vassilyev, Alexander Nekrassov, Matov, Bartanovski, Kasarinov, Boyarshinov, Gorletzki Shadlum, Kusma, Bashkin, Meshkov Yussevitch, Krishanovski, Skorutto and Rabinovitsh.

He demanded terms of imprisonment for Imenitoff, Kelnin, Samoilov, Ivan Krassov and Ehilian Kolodub. The indictment against the German, Meier, was dropped because he had been falsely accused by Bashkin.

Krylenko demanded the condemnation of the German, Badstieber, with probation and a sentence of six months for the German technician, Otto.

POISON AGAINST LABOR IS SPREAD BY INSULL TRUST

Mysterious Payments Made by Magnates

By LAWRENCE TODD
(Federated Press)

WASHINGTON (FP), July 1.—Why did a public utilities lobbyist, W. C. Frazee, of Rushville, home village of Sen. Jim Watson, draw $5,270.60 for his "services and expenses" at the 60-day session of the Indiana legislature of 1923? Why did the Indiana Utilities Assn., state branch of Sam Insull's nationwide system of propaganda and lobbying activities, pay Frazee $3,286 for the session of 1925, and $3,500 for the session of 1927?

That is one of the many mysteries presented to the Federal Trade Commission June 28 when John Mellett, former university instructor and newspaper man, for 7 years director of the power trust propaganda in Indiana, was on the stand. Mellett could not explain why Frazee, Jim Watson's townsman, was so expensive. He said he never saw an itemized bill for these services and expenses. Mellett gave up his job last September.

Mysterious Payments

Then there was a mysterious payment of $2,500, during last year's session, to Frank O. Cuppy, to whom Mellett afterward paid in cash an additional $1,000 as "salary." This was strange, Chief Counsel Healy for the Commission pointed out, as Cuppy was on regular salary as secretary-manager of the LaFayette Telephone Co. and of the Indiana Telephone Assn. He registered at the state-house as a lobbyist.

Albert Stump, Tom Taggart's Democratic nominee for U. S. senator in 1926 and again this year, was employed by Mellett's bureau in 1921 and 1922 to deliver speeches in the state. He talked before Rotary and other "service" clubs on patriotism and the utilities. The first season, when he was merely tried out, he was paid $165.69, but in 1922 he drew $1,161.51. He was not advertised as a hired man of the power trust, but as a "patriotic orator."

Insull Propaganda

In a pamphlet circulated in Indiana high schools, and called "The Half-Century Miracle," Mellett's bureau employed the standard Insull school-propaganda arguments for private ownership and non-interference. But there was inserted an argument against strikes—evidently at the instance of the anti-union management of the traction company in Indianapolis.

Anti-Labor Poison

"When street railway transportation was suspended by strikes in Boston, Denver, and Chicago, merchant trade fell off 50 per cent, and multitudes of working people, besides those on strike, lost wages because they could not get to work on time or at all. In the summer of 1919, telephone service in Christian, Shelby and Montgomery counties, Illinois, was suspended by a strike of operators."

This poison against organized labor was offered to 210 high-schools and was accepted by 64. A speech by Sam Insull and one by Harry M. Daugherty were mailed to 1,000 utility executives, politicians and newspapers. For this work Mellett first [illegible]t $5,000 and later $6,000 a year.

Rasputin's Daughter Suing Yousoupoff

PARIS, July 1.—Madame Soloviev, daughter of the Russian Monk Rasputin, confidential adviser to the Russian Royal Family, has brought suit for 25,000,000 francs damages against Prince Yousoupoff for the assassination of the monk, and against Grand Duke Dimitri, who was in Yousoupoff's home when the assassination occurred.

Whether the case will be heard is extremely doubtful, following assertions by Yousoupoff and his followers that the murder was of a purely political character. Moreover, as the parties involved are under the protection of the League of Nations, having rejected the nationality of the Soviet Republic and not having assumed French nationality, the jurisdiction of the French courts in this respect is a subject of debate in the corridors of the Palais De Justice.

Mme. Soloviev admits the excessive drinking habits of the priest, but naively adds that he did it because he knew he was condemned and that the fatal hour was approaching. She attributes to Prince Yousoupoff a sinister design for overthrowing the czar, placing the Grand Duke Dimitri on the throne, and himself becoming the power behind the new ruler.

MOSCOW, (By Mail).—The Krasnodar plant of northern Caucasus will use peat as fuel and will be completed in October, 1930.

MINERS WOUNDED BY ARMED SCABS

Operators Try to Set Up 1917 Scale

(Continued from Page One)

company property in order to start their mines. Yesterday morning a car of five miners heading for the shaft was stopped by the pickets several hundred feet from the entrance. The scabs, who were heavily armed, started firing into the picketing lines. Two strikers were immediately wounded. Eagleton was shot through the neck and another, Stahota, was shot through the eye. The five in the automobile were taken out and severely beaten, it is reported. Several are not expected to live.

Scab Agreements

The sheriff of Barton County, Missouri, and the district officials arrived just after the shooting. The strip pit miners are working in the district, under individual agreements and are turning out enough coal to supply the company. This separation of the mining forces by the betrayal of the Lewis officials is slowly strangling the strike in spite of the heroic effort of the rank and file to hold their own against the effort to introduce the 1917 scale.

Seven Hour Day in U. S. S. R. Textile Industry Is Called Blow to Reformists

ALL UNION PARTY POINTS TO GAINS IN TEXTILE MILLS

Realize 7-Hour Day on National Scale

MOSCOW, (By Mail).—A decision of the Central Committee of the Communist Party of the Soviet Union has been published in Moscow press on the first results of the seven-hour day in the textile industry. The decision summarises the experience of about 3 or 4 months in this greatest enterprise of the Soviet Government in the textile industry and maps out a series of measures with the object of facilitating the further extension of the 7-hour day in other enterprises.

"We will remember — says the 'Pravda'—the attitude of the bourgeois press to this Soviet undertaking. We also remember the attitude of the Social Democratic press. The Manifesto of the Central Executive Committe of the Soviet Government proclaiming the 7-hour day was a powerful blow for the bourgeoisie fighting against us and against the proletariat of their respective countries.

"It was also a blow for the Social Democrats who conceal the bourgeois attack on the 8-hour day and malignantly slander the U. S. S. R. It was a blow to the Trotskyists who lost their faith in the potentialities of the proletariat. But at the same time it was a cause for the greatest enthusiasm of the workers of all countries.

"The bourgeoisie, the Social Democrats, and those who side with them were at first joking over the slogan. They maintained that this was nothing but a sheer declaration to the effect that at one time something will happen, something will commence, etc. Later they were forced to adopt the tactics of silence, to give the impression that nothing has happened.

"The capitalists and Social Democrats, however, will not succeed in keeping this from the workers! The truth will be known to all of them! All will find out that this tremendous social-political, cultural and economic socialist measure, the 7-hour day, is being realized in the U. S. S. R. on a national scale."

LABOR DEFENDER, JULY ISSUE, OUT

Has Articles on Mooney Frame-Up

With this month showing a record circulation for its almost three years of existence, the July number of the Labor Defender, official organ of the International Labor Defense, has just come off the press filled with attractive and interesting features in the form of articles and photographs which have earned for it the name of the "pictorial review of the class struggle."

Among the features in the July issue of this popular labor magazine, which is a special Mooney-Billings number, are:

A full size portrait of Tom Mooney on the cover, together with articles by Walt Carmon and Max Shachtman which give the history of the case which has stirred the labor movement of this country and elsewhere for twelve years. The articles are well illustrated and are accompanied by a full page spread of photos, one of which is a hitherto unpublished picture of Mooney as he looks today and an unusual scene from the interior of San Quentin prison where he is confined.

Grace Hutchins, right on the grounds in New Bedford, writes a moving story of the strike which is now assuming greater proportions and significance, and Barbara Rand writes the story of the frame-up of Frank Erbot, the West Virginia miner whose case has just been decided by a kept judge and jury in Wheeling.

Art Shields, the well known labor correspondent, who is now in the South, writes an interesting sketch of "Hard Times in Old Virginia." Manuel Gomez reminds the reader of the need for an "Independence Day" on July 4th for the oppressed peoples who are under Uncle Sam's golden heel—and another for the workers of the United States.

Other features include Tom O'Flaherty's "Recollections of Bill Haywood"; Carl Brannin's story of the fight for the Centralia I. W. W.; Stephen Kennedy's article on the anniversary of the July uprising in Vienna; and Nicola Napoli on the Italian Communist trials.

TRADE MARKS IN SOVIET.

Foreign manufacturers may obtain patents for trade marks in the U. S. S. R. if they are permitted to do business on the territory of the U. S. S. R. or if the laws of the applicant's country permit registration of trade marks for citizens of the U. S. S. R. This rule extends to citizens of the United States whose laws permit registration of trade marks for applicants from the Soviet Union. The term of registration is fixed by the applicant. The filing fee is 10 rubles and registration fee 5 rubles per year. During the past three years 1779 trade marks, including 891 of foreign firms, have been registered.

Seek Wall Street Aid

The Kuomintang reactionaries who have proved themselves worthy tools of the imperialists by the wholesale murder of Chinese workers and peasants and by raiding the Soviet Union consulates in China, are seeking the recognition of the Nanking regime by Wall Street Government in Washington. C. C. Wu (above), Nanking's representative here has held a number of conferences with Secretary of State Kellogg.

MINE GRIEVANCE BOARD EXPOSED

Coal Diggers Exposed of Betrayals

(Continued from Page One)

liery, vs. Coxe Bros. & Co., Inc. In re: Refusal to permit work.

Certain blacksmith, Jeddo Colliery No. 4, vs. Jeddo-Highland Coal Co. In re: Change of rate.

Certain machinist, Lansford No. 6 Colliery, vs. L. C. & N. Co. In re: Rate.

Shortage of Pay

Certain miners, Lattimer Colliery, vs. Pardee Bros. & Co. In re: Shortage in pay.

Certain miner, Lattimer Colliery, vs. Pardee Bros. & Co. In re: Payment for Rock Hole.

Certain miner, No. 9 Slope, Candlemas Colliery, vs. Haddock Mining Co. In re: Yardage for heading.

Certain miners, Lansford No. 6 Colliery, vs. L. C. & N. Co. In re: Rate.

The conciliation board is a form of arbitration bureaucracy in the union. Instead of fighting for the miners, taking up ther grievances to the conciliation board and trying to show to the miners that they are doing something for them, the officials are actually betraying the miners and escaping struggles directed against the coal companies.

Progressive Leadership

The save the union movement is giving leadership to the rank and file by exposing the conciliation board and taking up the grievances by fighting against any attempt on the part of the coal companies to lower the wages, cutting down the prices on piece work, or any other means by which the companies are attempting to cut down the wages and worsen working conditions.

Miners, on the whole, regard the conciliation board as a graveyard for their grievances; 90 per cent of their grievances are always lost. In the 10 per cent which nominally are "won," only minor grievances are included.

SPORTS PROGRAM AT DETROIT PICNIC

Games, Races at July 4th Outing

DETROIT, July 1.—Through the courtesy of the Detroit Labor Sports Union, sports will be the big attraction at the Workers Party picnic to be held on the 4th of July at Rochester and Sixteen Mile Road.

The program as arranged by the Detroit Labor Sports Union consists of a soccer game between two of the best workers' soccer teams of Detroit, a baseball game between the Yemans A. C. and the Finnish Young Workers baseball teams. These two baseball teams have played many times in the last two years, with the Finns coming out the winners in most of the games.

Besides the soccer and the baseball game there will be a tug-of-war between the South-Slavs and the tug-of-war team of the party. There will also be running races for boys, girls and children.

All those that are interested in sports in the militant labor movement as a whole should not fail to be present at this picnic. A good time is promised to all.

U. S. S. R. HEALTH WORK.

Health work in the U. S. S. R., which was at its lowest ebb during the years of civil war has made considerable progress during the recent years. Coupled with the general improvement in living conditions the health measures taken by the state have resulted in a much lower rate than in 1913. New hospitals, day nurseries, dispensaries and free medical service have been introduced to an extent never before known in Russia.

URGE SUPPORT OF SILK WORKERS ON STRIKE IN CHINA

Red Labor Int'l Sets Aside Fortnight

MOSCOW (By Mail).—An appeal urging aid for the 55,000 silk workers in Shanghai who are striking for better working conditions and against the recent wage cuts has been issued by the Women Workers International Committee of the Red International of Labor Unions. The appeal says, in part:

"Once more 55,000 workers of the silk spinning mills in Shanghai, of whom 50,000 are women, are out on strike. You know the hellish conditions of their labor. In the hot, damp, close air of the silk mills adult workers work as many as from 12 to 16 hours per day, and 5-year-old children work 12 hours a day.

"The miserly wages are still more decreased by the fraudulent fines, which at times swallow up the whole day's wage of the worker.

Beat Children

"The administration and the factory police systematically beat up the women and children. Not infrequently matters go as far as murder, which remains unpunished.

"The insolent employers, with the help of the treacherous Kuomintang government, are once more attempting to deprive the women workers of their first achievements. The workers replied to this by the present strike. They are starving, but they fight.

"Comrades! women workers! help your Chinese sisters in their heroic struggle. Raise your voice against the unheard of exploitation of the Chinese women workers and their children, against the bloody persecution of the Chinese proletariat.

Urge Collections

"Prepare for the fortnight of help for the Chinese proletariat, which is being organized by the R. I. L. U. from the 17th to the 31st of July.

"Prepare for mass collections in aid of the women and men workers of China.

"The governments of Japan, England, the United States, France and Italy are sending warships and troops to China. Fight against imperialist intervention against the workers and peasants of China.

"Down with imperialist intervention in China!

"Down with the Kuomintang government—the executioner of the workers and peasants.

"Long live international proletarian support for the proletariat of China!

"Long live the coming victory of the Chinese workers and peasants!

"All to the aid of the Chinese proletariat in her heroic struggle."

WOMEN WORKERS' INTERNATIONAL TRADE UNION COMMITTEE RILU.

SOVIET MANGANESE.

The Chiatury manganese deposits in the Georgian Republic are the most important in the world. Other valuable deposits in Soviet Russia are found at Nikopol (Ukraine) and in the Urals. The reserves are estimated at from 220 to 250 million tons of ore.

TREASURY REPORT.

WASHINGTON, July 1. — The United States Treasury closed the fiscal year, June 30, with a surplus of $398,000,000, Secretary Mellon announced today.

DRAMATIST DROWNS.

PARIS, July 1 (U.P.).—Avery Hapwood, the American playwright, was drowned at St. Juan Les Pins at 8 p. m. tonight while bathing with a party of friends.

Drill Huge New Oil Wells in the Soviet Union

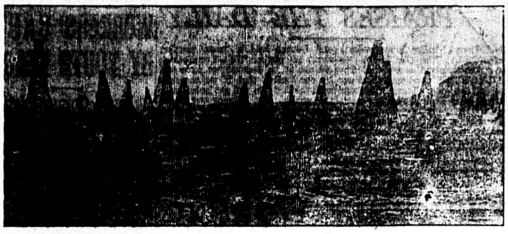

Photo shows a group of oil wells recently constructed by the Soviet government near Baku, in the Caucasus. Oil workers in the Soviet Union work only 7 hours a day, receiving 2 weeks vacation each year with full pay. Such products of capitalism as Doheny or Sinclair, oil grafters, do not exist in the Soviet oil fields.

WAGES LOWER IN ALL INDUSTRIES

Unemployment Shows Increase

WASHINGTON (FP) July 1.—The level of employment in manufacturing industries in May, 1928, was 4.7 per cent lower than in May, 1927, and payroll totals were 5.8 per cent lower, says the U. S. Bureau of Labor Statistics. Only the vehicle group, of 12 groups of industries studied, showed increased employment (2.4 per cent) in this 12-month period. Its gain was due to the upward trend of employment in the automobile plants.

Pronounced decreases in employment were shown in the miscellaneous group, and in the chemical, stone, clay, glass, textile, leather, lumber and iron groups. There were gains of 15.7 per cent for agricultural implements, 14.2 per cent for automobiles and 3.5 per cent in machine tools, as against employment losses of 26.3 per cent in shipbuilding, 15.9 per cent in sugar refining, 15.6 per cent in petroleum refining, 13.8 per cent in brick, 13 per cent in carriages and wagons, and about 12 per cent in the cotton goods, cast-iron pipe and the piano industries. The East North Central geographical district was the only one of the eight in the country that showed an employment gain in May, 1928, over May, 1927.

Per capita earnings for workers in 54 industries, combined, were 1.1 per cent lower, for Bay, 1928, than a year earlier. Decreases in earnings per capita in May, 1928, over April, 1928, were shown in 20 of the 54 industries.

Outstanding among these 20 were the millinery, women's clothing, shipbuilding, rubber tire, and petroleum refining industries. Wage cuts averaging 10.1 per cent and affecting 2,983 employes were reported for May from 25 establishments in 10 industries. Wage increases in 33 establishments in 14 industries affected 1,978 workers and averaged 7 per cent.

Discover New Mineral Deposits in U. S. S. R.

MOSCOW, (By Mail).—Deposits of blue lithographic stone have been discovered 12 miles from the city of Ashkabad, the capital of the Turkoman Republics. Tests have shown that the stone is higher in quality than either the Caucasian or German lithographic stone.

BALLOON RACE.

DETROIT, Mich., July 1 (U.P.).—Twelve balloons were believed still aloft late today in the Gordon Bennett International Cup Race which started here Saturday. Fair weather and a brisk wind was driving the bags eastward, apparently somewhere over southern Pennsylvania. Five balloons were reported today, three from Weirton, W. Va., and two from Steubenville, Ohio.

BAR GERMAN FILM.

The German film, "The City Without Jews," based upon a story by Hugo Bettauer, will not be permitted to be exhibited in New York State, following an order issued by the New York State Board of Censors. The picture was declared "objectionable" by the censors on account of its theme. The film had been previously passed in Chicago, without deletion.

NEW CLASHES AT TSINAN-FU, REPORT

Japanese Forces Arrest Twelve Chinese

PEKING, July 1.—A number of clashes between Japanese troops, and members of the Nanking forces are reported to have occurred at Tsinan-Fu in the past few days. One Japanese and one Chinese soldier are reported to have been killed. The wounded included a Nanking brigade commander. A dozen arrests of Chinese have been made by the Japanese military authorities.

Serious clashes between Japanese troops and the Nanking forces have occurred frequently since May, when Nanking troops took the city. Casualities have been estimated at thousands.

SOVIET COAL RESERVES.

MOSCOW (By Mail).—Total coal reserves in the U. S. S. R. are 474,673,000,000 metric tons.

SHANGHAI WAR LORDS CLOSE UP DOCKERS UNION

Imperialists Arrest Communist Leader

SHANGHAI, July 1—The municip police of the international settleme at Shanghai has arrested Chinese students, men and girls, alleging that a illegal printing office and Communi literature have been found in the dwellings. The head of the Chines garrison at Shanghai demands the extradition of the arrested to the Chines authorities.

The authorities of the internation settlement have delivered over to th Chinese authorities the Communis Tschang-Mei-Pu, charged to have le the insurrection in February in T Jang, in the province of Shantung.

The authorities have called up th premises of the dock workers' trad union in Putun (the Chinese quarte of Shanghai, on the right bank of t Wanpu river), alleging that "revolutionary" literature has been found i the houses of many of the arreste Communists, and stating that this ha been distributed to the trade unio The secretary of the trade union ha been arrested.

* * *

SHANGHAI, July 1.—The Toh agency reports from the province o Shantung that Red Lances, dissatisfied with the enormous taxes impose by Feng Ju Hsiang, have attacked th taxation office, destroyed it completely, and killed twenty officials.

SEEK AIR MAIL PLANE.

ST. LOUIS, June 29.—The Robertson Aircraft Corporation today instituted a search for Leslie Smith, air mail pilot 12 hours overdu here from Houston, Texas, with pictures of the democratic national convention. Smith left Little Rock Ark., at 7:10 p. m. last night and w scheduled to arrive here at 10 p. m.

PARTY PLANNING ELECTION DRIVE IN PITTSBURGH

Put Forward Communist Ticket in Virginia

(Continued from Page One)

mittees will be elected at each of these conferences to carry on the work in their respective sub-districts.

Election Campaign

The entire district is at present being mobilized for the campaign for signatures in order to place the Workers (Communist) Party Presidential candidates on the ballot in Pennsylvania. The nomination petitions are in the hands of the nuclei secretaries, and it is expected that many more signatures will be secured than is required by the election laws of Pennsylvania.

The Workers (Communist) Party will nominate no candidates for Congress or State Legislature, but will support the candidates of the Labor Party. The Labor Party of five counties in Western Pennsylvania and Cambria County in Central Pennsylvania have nominated full tickets.

Plan Organization

The Plenum also considered at length the situation in West Virginia, where the Workers (Communist) Party will be on the ballot for the first time in the history of the party. The district committee is planning to launch an organization campaign in that state and to lay the foundation for the organization of the unorganized there.

Many other problems, such as the work among the women workers, the relations of the party to the Young Workers League, the situation in the Trade Union movement in this country—were given serious consideration.

The Plenum undoubtedly marks a step forward in the development of the party in this district. All units and members are determined to double their energies in order to make it possible to put the Plenum decisions into practice. It is the aim of the district to increase its membership to fifteen hundred before the November elections take place.

COMMUNISTS OF TEXAS CAMPAIGN

Lauderdale Reports on Nominating Meet

(Continued from Page One)

American Republics, Central America and the Islands of the Gulf of Mexico. The absence of lawyers, preachers, real estate agents, small merchants and doctors was in striking contrast to socialist conventions your delegates has attended in the past. The personnel of the delegation was strikingly working class and represented miners, leather and garment workers, building and needle trades workers, farmers and furriers and other workers. A large delegation of Negoes attended and participated actively in the proceedings.

General Agreement.

Immediately upon convening the convention got down to business. Committees were elected on program, platform, rules and ways and means; while the Committees were deliberating delegates were called on to report. Since delegates were present from Maine to California and from Florida to Washington a very good picture of industrial American was presented. No factional division was noticeable, the several hundred delegates were as one in the adoption of the platform in all fundamentals.

Our party leaders know well how to drop differences when decisions are made, they are able and well worthy the confidence of every comrade as well as the entire working class. The party functionaries, The DAILY WORKER Staff and the National Office force are working overtime and often without pay in building the Communist movement of this country; in appreciation it is not too much to urge and urge again increased contributions to the party and especially greater support for the party press.

Huge Success.

The popularity of the presidential and vice-presidential candidates, Wm. Z. Foster and Benj. Gitlow, was very marked as evidenced by the enthusiasm that greeted their nomination.

All in all the convention was a huge success, after nearly ten years of struggle and party growth we have [illegible] legal existence and we may look for a steady increase in membership if we do our best to build the party. The kindness and consideration accorded the out of town delegates by the New York Comrades shall ever be a pleasant memory.

NEW WALL ST. ENVOY

WASHINGTON, June 29. — As American Minister at San Salvador [illegible] Jefferson Caffery, who [illegible] been appointed Minister at [illegible] President Coolidge, it is believed here, intends to send as his [illegible] a member of the foreign service with a record of successful experience in Latin America to his [illegible]. No experienced outsider will be [illegible] for this post. Warren Robbins of New York is believed to be slated for promotion from [illegible] of the Embassy at Rome [illegible] at San Salvador.

WORKERS CALENDAR

All announcements for this column must reach The DAILY WORKER several days before the event in question to make the announcement effective. Many announcements arrive at the office too late for publication owing to the additional time needed for the delivery of the paper.

• • •

Kansas City Picnic.

KANSAS CITY. — The International Labor Defense of Kansas City has arranged a labor picnic to be held at the City Park on July 4. The keynote of the affair will be the struggle to free Mooney and Billings. There will be speeches, refreshments, athletic exhibitions, and sports for all.

• • •

Pittsburgh Miners' Relief.

PITTSBURGH, Pa.—The National Miners' Relief Committee of this city will hold a Pennsylvania Miners' Relief Picnic on July 4 at the Eldora Amusement Park, near Charleroi and Mononghehala City.

BRITISH FRIENDS OF USSR IN MEET

LONDON (By Mail).—At the recent national congress of the Society of Friends of the USSR in Great Britain, there were 223 delegates representing all local branches of the society.

The Congress received a report of the national Committee of the Society. According to the report the members of the British delegation of the USSR have spoken at more than a thousand meetings since their return. The report of the delegation entitled "Soviet Russia of Today," has been distributed in 20,000 copies.

Show Film of Russian Revolution in Chicago

No event in the history of the world has started such a mass of contradictory stories as the revolution in Russia. Every faction in every nation has distorted the facts to suit its own purpose.

Now, for the first time, an authentic, unbiased documental motion picture history of the event has come to the screen. It is called, suitably enough, "The Russian Revolution" and will open for a limited engagement at the Playhouse, 410 South Michigan Boulevard, beginning Sunday, June 1.

"The Russian Revolution" is an intense, vivid drama of the events leading up to and including the overthrow of the Czar and the establishment first of the Kerensky, then the Lenin-Trotzky government. It is an account of human suffering in oppression, of a people driven mad by imperialism, who sacrificed their own lives for generations to come. Every scene in the film is authentic and was photographed during the stormy days of the revolution.

FASCIST PLANE FORCED DOWN.

MITCHEL FIELD, N. J., July 1.——The Bellanca sesqui-plane Roma, in which Capt. Cesare Sabelli and Roger Q. Williams were attempting to make a 24-hour test flight, landed at Mitchel Field at 12:15 a. m. today after having been in the air since 8:20 a. m. yesterday. The flyers were forced down because of weather conditions. It was the last test flight which will be necessary before the plane's proposed hop to Rome, Williams said.

WISCONSIN IS ACTIVE IN BIG ELECTION DRIVE

Concert, Mass Meeting at Milwaukee Friday

MILWAUKEE, July 1.—The opening of the Workers (Communist) Party presidential campaign in Milwaukee will be marked by a great concert and mass meeting to be held next Friday evening at the Bahn Fret Hall, 1120 North Ave. Max Bedacht Committee of the party, M. Schuchter, president of the United Workers' Co-operative Society and D. Sklar secretary of the Wisconsin campaign committee will speak at this meeting.

In the concert the Freiheit Band the Freiheit Singing Society and the violinist Max Plavnick will take part.

At the picnic arranged jointly by the Workers' Party and the Freiheit Workers on July 8 at the Pleasant Valley Park Bedacht will also speak. All preparations are being made to assure the complete success of the picnic. The admission is 25 cents and includes admission to the dance pavillion.

FUR STRIKE FOR PAY RAISE WON

After a strike of less than two days, the left wing Joint Board of the Furriers' Union compelled the firm of Fiel & Ellowitz, 145 W. 28th St., to come to terms and grant a wage raise averaging more than $6 each to the 15 workers employed in the shop.

Far more significance than that ordinarily deserved by a single strike is to be attached to the quick victory of the Joint Board here because this is the first shop to be tied up by a strike for a July wage raise since the A. F. of L. attack that ended in the destruction of unionism in the trade more than a year ago.

The victory of the union in this shop climaxes an astounding series of developments that have taken place among the fur workers in the past few weeks. The renewed offensive of the furriers against the A. F. of L. union wreckers and their socialist agents in the effort to upbuild a single union has gained great momentum in the last few weeks.

• • •

Party Members Needed For Work on Tuesday.

All Party members are asked to report for important work at the Workers' Center, 26-28 Union Square, on Tuesday, July 3, at 10:30 a. m.—J. BALLAM, Acting District Organizer, District 2.

• • •

7F 81 Meet.

An educational meeting of Unit 7F 81 will be held Tuesday, July 3rd, at 60 St. Marks Place. Pasternak will speak on "Our New Orientation Toward the Trade Unions." Sympathizers invited.

• • •

July 4 Leaflets.

July 4 leaflets are now on hand at the district office at $2.00 per thousand.

• • •

2C 3F.

Unit 2C 3F (formerly 2E, FD3), meets in future at 108 East 14th St.,

CEMENT WORKERS FACE DISEASES

Dust and Poison Bring Lung Attacks

WASHINGTON (FP) July 1.—Three years' study of the health of workers in a dusty cement plant, by the U. S. Public Health Service, has been summed up in a report showing that workers exposed to the calcium dusts generated in cement making are doomed to "an abnormal number of attacks of disease of the upper respiratory tract, especially colds, acute bronchitis, diseases of the pharynx and tonsils, and also influenza, or grippe."

The sickness rate for these diseases, among the workers in the plant, was shown to be 60 per cent higher than for men in comparatively non-dusty departments of the concern. Limestone dust appeared to be somewhat more harmful than cement dust.

top floor. Next meeting today at 6 p. m. Discussion on "Platforms of All Parties."

• • •

Bronx Speakers Class.

Section 5 of the Workers (Communist) Party will hold the first session of a class in preparation for out-of-door speakers today at 7:45 p. m. The class will be held every Monday night throughout the summer season, at 2075 Clinton Ave. All comrades enrolled in the Bronx sections of the Workers (Communist) Party and the Young Workers (Communist) League who are qualified for the class are urged to join. No fees will be charged. Larry Blake will be the instructor.

Labor and Fraternal Organizations

An outing will be held on Saturday, July 21, at 12 noon, at Pleasant Bay Park, Bronx, under the auspices of the New York Section, International Labor Defense. Take Bronx Park Subway or "L" to 177th St., then take Unionport car to end of line. Free busses to park.

Treasury Surplus for Year Is $1,000,000,000

WASHINGTON, July 1 — The surplus for the year in the United States Treasury is estimated to be $405,000,000, according to a statement given out by Andrew W. Mellon. The debt reduction will amount to close to $1,000,000,000, he indicated adding that the state of the treasury's finances were "excellent."

YOUNG WORKERS TO HOLD PICNIC IN ST. LOUIS, MO.

Mine Strikers To Be Admitted Free

ST. LOUIS, July 1.—All striking miners, their families and friends, will be admitted free to the picnic, dance and celebration which is being given by the Young Workers Communist League on July Fourth at Triangle Park, 4100 South Broadway Str., St. Louis, Missouri. This free admittance is given the miners in appreciation of their heroic strike and to show the League's working class solidarity.

Prizes, free dancing and atheltic events are some of the features of this first League picnic held for the young workers of St. Louis and nearby towns. A good time is assured everyone attending. There will be fun for young and old alike.

TRAIN INJURY FATAL.

Edwin Woolley, 23, of 3335 158th St., Flushing, Queens, was fatally injured today when he fell under a moving westbound Long Island railroad train at the Broadway Station, Flushing. He died later in Flushing Hospital.

The Democratic "Labor" Plank

The democratic party has always had a "labor plank." Its first labor plank was—chattel slavery.

After its defeat at the polls in 1860 on that "labor plank," the democratic party favored secession from the Union and civil war for the preservation of slavery.

After its military defeat in 1865, the democratic party's "labor plank" became peonage—the nearest possible approach to the restoration of slavery.

If the foregoing relates most specifically to Negro labor and the South it is nevertheless in keeping with the whole attitude of the democratic party toward the working class as a whole, black and white, of city and farm. The democratic party is traditionally the party of slavery.

• • •

If it were only a matter of historical association about a name, these facts would be of little importance. But the democratic party of Al Smith is as truly a party of slave labor as was the democratic party of John C. Calhoun and Jefferson Davis. Adapted to historical conditions, it is now (just as it is in the republican party) a party of wage slavery, the open shop, strikebreaking by military force, and the imperialist conquest of weaker nations for the exploitation of colonial slaves.

Because Woodrow Wilson's second administration marked the tremendous acceleration of United States imperialism, requiring intensive corruption of the American labor bureaucracy, this vulture-parasitism feeding upon the American trade unions has created the myth that the democratic party performs some puny service to the organized portion of the working class—or rather to the higher-skilled labor aristocracy.

The democratic party has on several previous occasions had "labor planks" which attempted to capitalize on this myth. But the labor plank of the present campaign is the most cruel joke in the whole history of this traditional party of slavery.

It is an open secret that William Green, president of the American Federation of Labor, now engaged in the most extensive campaign of gutting the trade unions in alliance with the open shop employers "against the reds," had a big part in devising this vicious (anti-) labor plank of the democratic party.

The most outstanding point in this "labor" plank is the pledge of the democratic party to enact legislation for a federal anti-strike law intended to rob the trade unions of any rights of action in labor disputes they may yet theoretically possess and to establish a dictatorship of the federal executive over the trade unions. This is called an anti-injunction provision!

This portion of the democratic party's labor plank is a promise to put into law the infamous anti-labor project which Green hatched in conspiracy with a committee of the American Bar Association and others high in the councils of the open-shop manufacturers and which has come to be known as the "bar association" project. It reads:

> "The expressed purpose of representatives of capital, labor and the bar to devise a plan for the elimination of the present evils with respect to injunctions must be supported and legislation designed to accomplish these ends formulated and passed."

Note: "Representatives of capital" and "the bar."

This is the only portion of the plank which promises "legislation." On other points the plank "favors the principle of collective bargaining" and thinks "labor should choose its own representatives," etc., but no legislation is promised and it means nothing more than that Green is invited to drag as much as possible of the working class to support the bosses political party with no promises given.

• • •

There has scarcely ever been a fouler piece of political treachery than this collaboration of Bill Green with the Tammany servants of the open shop manufacturers.

Other labor skates, for example John L. Lewis, are calling upon the working class to support the republican candidate of the open shop capitalists, Herbert Hoover. But in this campaign undoubtedly the "labor face" is to be painted under Al Smith's brown derby by the dominant trade union misleaders.

• • •

For those workers who have the intelligence to understand that a federal anti-strike law is the nearest thing to a "labor plank" that a capitalist party can offer, the treachery of the A. F. of L. bureaucracy will not be hard to discern. But this is only an eye-opener of the crudest sort. What the American working class must learn is that under no circumstances is it possible for a capitalist political party to do anything whatever for the working class, irrespective of the camouflaged "labor planks" which may be adopted.

The only political party which can offer anything to the working class is the class party of the working class itself. Just as the republican party, the classic party of capitalism, had the historic mission of putting the capitalist class into power as the ruling class, so now the only party which can claim to be the class party of the workers must be a party whose purpose is to put the working class into power as the ruling class.

There is only one such party. It is the Workers (Communist) Party.

Vote Communist.

Communist Press and Literature

By V. I. LENIN.

THE socialist proletariat must consider the basic principles of the literature of the Workers Party in order to develop these principles and express them in their most complete form. These principles are in contrast with bourgeois customs, with the commercialized bourgeois press, with the individualism of the ambitious adventurers of bourgeois literature and their "splendid freedom," and with the scramble for profits.

What do these principles consist in? Not only in the fact that the literature of the proletariat must no longer be a means of enriching groups or individuals but still more that it ought not to bear an individual character nor be independent of proletarian control. No more "non-party" writers; no more literary super-men!

Literary activity should be a part of the whole work of the proletariat. It should be a cog in the great machine which will be put into motion by the whole vanguard of the working class. Literature should become one part of the work of the party, organized, thought out, unified, and revolutionary.

"All comparisons limp," says a German proverb. It is so of my comparison of literature with a cog in the machine of the movement. There will be no lack of hysterical intellectuals to yelp in distress at this conception, which, according to them, will debase, will destroy, will "burocratize" and mechanicalize the free "struggle of minds," free criticism, free "literary endeavor," etc. Their laments are nothing but an expression of bourgeois intellectual individualism.

• • •

Obviously, literature is the last thing to be treated mechanically; it cannot easily be graded by, or submit to, the decisions of the majority. In this matter, one ought undoubtedly to allow a great deal of scope for individual initiative, for personal inclination, for inspiration and imagination, in form and content.

All this is indisputable but it proves only one thing; that the literary side of the Party's work cannot be mechanically identified with the other side of proletarian activity.

This by no means destroys the truth—incomprehensible and strange as it may seem to intellectuals and bourgeois democrats—that literary work ought to be most strictly bound to the rest of the socialist work of the party. Writers ought to enter the party without making any stipulations. Publishing establishments, bookshops, reading rooms, libraries, everything to do with literature ought to be placed under the control of the party.

The organized socialist proletariat ought to supervise and control all this work; it should infuse into it the vital spirit of the workers, and in this sphere, should throw off the outlook of the mercenary bourgeoisie, who see in the writer only the man who sells his writings to earn his living, and in the reader simply a customer who brings in money.

Naturally we do not imagine that this change in literature can be brought about at one swoop, especially in this Russian literature, which has so long been crippled by an "Asiatic" censorship, and corrupted by a Europeanized bourgeoisie. We are far from expecting any panacea whatever in the shape of decisions and resolutions settling the whole thing in an arbitrary manner. That is not the point. What concerns us is that our class-conscious proletariat should understand that here is a new problem that has to be faced frankly, and everything possible done to solve it.

After having delivered ourselves from the chains of censorship, we do not want to be the captives of bourgeois commerce and its relationships. We want to create a press that is freed not only from police control, but also from the influence of capital and from private ambitions, and above all freed from anarchist-bourgeois individualism.

These last words will be an object of derision to many of the reading public. "Good heavens!" some burning apostle of "intellectual freedom" will doubtless exclaim. "Good heavens! You want to submit to the masses so subtle and so personal a thing as literary workmanship. You want workmen to decide, by the majority of votes, high questions of philosophy, science, and taste. That is the way you suppress the spirit's freedom to work, which is essentially what is for and what is against the Party we have the program of the Party as a criterion, its tactical resolutions, its statutes, and finally the experiences of International Socialism, the whole experience of the voluntary associations of the proletariat.

Our Party is becoming a party of the masses; we are in an epoch of rapid transition towards an open legal organization, and at this period many useless people (from a Marxist point of view) and perhaps a few who are Christians or mystics as well, join us. But, we have a strong digestion; we are Marxists hard as adamant. We shall assimilate all the confusionist elements.

Furthermore, may we inform our friends, the bourgeois individualists, that their talk about "absolute liberty" is nothing less than pure hypocrisy.

In a society which maintains itself by the power of capital, and where the mass of the workers lack the necessities of life, there is no real liberty. Are you free in relation to your bourgeois individualists, are you free in relation to your bourgeois public, which demands from you pornography and prostitution as a supplement to "sacred dramatic art"?

Absolute freedom is a bourgeois or anarchist fiction (for anarchism is a bourgeois theory the wrong way round). The freedom of the bourgeois writer, or artist, or actress, is a mask of independence concealing a real dependence on the money of parasites and souteneurs.

We Marxists tear aside this hypocrisy and unmask their false standards, not to arrive at a literature "above class" (that will only be possible in a socialist society, in a society without classes), but to oppose this so-called free literature which is really allied with the bourgeois a literature bound openly to the proletariat.

This will be a literature truly free, because corruption and ambition will have no place there, and socialist ideals and sympathy with the oppressed will continually bring into it new forces and new groupings.

This will be a free literature, for it will not depend on the blase heroine nor the ten thousand bored and fattened high-brows, but on the millions and millions of workers who are the pick of the country, its power and its future.

This will be a free literature, which will enrich itself with the latest creations of revolutionary thought, with the experience and living work of the socialist proletariat.

Get down to the job, then, comrades! We have before us a great and difficult problem; we must create a rich literature, narrowly and indissolubly bound to the socialist workers' movement.

It is only after this work that socialist literature will deserve the name; it is only then that it will be capable of carrying out its tasks; it is only then that even within the framework of bourgeois society, it will be able to free itself from bourgeois bondage and bind itself to the movement of the truly revolutionary class.

Young Communists Pledge Defense of Soviet Union

By I. AMDUR.

The Eighth Congress of the All-Union Young Communist League opened here May 6. The Bolshoi (Big) Theatre was crowded with delegates and guests. The delegates, of whom there are about 900, represented a gathering of the most active of the youth of the League organizations from every quarter of the vast country. Here were White Russians and Great Russians, Caucasians and Armenians, Tartars, Uzbekistans, Siberians and representatives from the German Volga Republic. Here could be seen young Kirghizian girls from Central Asia who have still not yet quite freed themselves from the superstitions and religious traditions of the extremely backward people of their far country away in the Asiatic steppes. One young girl in particular, I noted, looked around somewhat timidly at this huge congregation of singing, joyous youth, and it was perhaps only now, sitting in the Red Capitol and surrounded by this happy, gay spirit of the young Communists, that she realized to what heights the revolution placed her and her womenfolk who, until but a short few years ago, lived in the most wretched conditions of semi-slavery.

Even today, the position of the Kirghizian women and of the women generally in the Far Eastern portions of the Union are none too enviable—ten years is a very, very short time in which to combat successfully the century-old traditions and superstitions of an almost, in some respects, primitive people—but they are no longer treated like so many cattle and beasts of burden, and their election to the village soviets and other official bodies is slowly bringing about a tremendous change in their ideological make-up, that will place the rising generation of girls on a totally different social level after some years.

Came 4,000 Miles to Congress.

And this young Kirghizian girl, who in all probability has never ventured further than the boundaries of her village in the steppes, had come over a distance of some 4,000 miles in order to attend the congress and to relate to these wonderfully enthusiastic young workers of the work that the Communist youth are doing in her far-away republic; of how the spirit of revolution has permeated the Kirghizian youth and of the hard and difficult battle that they are putting up against old customs and traditions; of their struggle in agitating the parents to permit children to attend the schools which are being established with each year; of the struggle for the introduction in the household of the elements of hygiene.

A storm of cheering announced the opening of the congress by Chaplin (general secretary) who briefly marshalled the most important of the problems that the congress discussed, the role of the youth in rationalization; the position of the League in the village and its work in the cooporizing and communalizing of the rural economy; the problem of developing and increasing the strata of young worker specialists (engineers, technicians), and here the shadow of the Donetz economic counter-revolution arose before one; and finally, the question of the day, the problem of preparing the youth for the defense of the republic. The threat of war was a very actual one and its realization was imminent. The latest move of Downing Street (Birkenhead's trip to Germany) in the forming of an Anglo-French-German anti-Soviet bloc is fraught with the possibilities of plunging the world into another blood-bath. The League must prepare its forces and lead the way for the youth in military preparation.

Youth Receives Honors.

The entire house rose to its feet and the roof was almost lifted when Commander Unschlicht (member Presidium Revolutionary War Tribune) on behalf of the Central Executive Committee of the Soviet government, presented the Order of the Red Banner to the League in recognition of the great services rendered by young Communists during the years of intervention, civil war, and in honor of the thousands of its brave young members who fought and fell in defense of the first Workers' Republic.

Replying, Comrade Chaplin in a ringing voice pledged that the League, which has always, in the hour of need, given its whole-hearted support to the Party and to the government, as in the civil war, during the struggle against counter-revolution, during the inner-Party discussion, in the present period of socialist construction—will be prepared, when the moment comes, to throw itself into the front ranks for the defense of the revolution.

The entire assembly rose to its feet and the International was sung as it has rarely been sung before.

The congress met at a moment when the hovering war-cloud was nearer than it has ever been, and if it bursts it will find that the youth of the Soviet Union are sprung from the same steeled stock that scattered and smashed the enemies of the toilers during 1917-21.

Miners Laud Daily Worker

Appreciation of the part played by The DAILY WORKER in the great mine struggle was voiced in a letter received from a Renton, Pa. coal digger who declares the miners will fight on until a new union is established His letter follows:

"Dear Editor:

"I am a striking miner and I will take this opportunity to express my gratitude as well as that of my fellow strikers for the splendid support given by The DAILY WORKER in behalf of the miners' cause.

"Here at Renton the men say that it is the best paper that they have ever read.

"The state cossacks (mine police) call us "Red Neck" and hundreds of other names that they don't even know the meaning of. But although we have been on strike for 15 months we don't intend to go back until the new miners' union is established in every mining camp in the country.

"For a Complete Victory.—B. [illegible]"

HANdOuTS

Gems of Learning

Nathan Straus: "The rise of Alfred E. Smith from a lowly East Side home to the governorship of the Empire State is a dramatic illustration of the possibilities in American life." Give any boy a brown derby, a strong, hand-shaking right and a corrupt and powerful machine like Tammany and he ought to make the grade in American politics.

Bernarr MacFadden, Editor of the Graphic:—"Make your body strong with wholesome food and outdoor exercise. Breathe in the air to the fullest capacity of your lungs. Give God's sunshine a chance to vitalize your body." This is O. K. for Rotarians and bank bandits, but try and do it on a worker's salary.

C. Augustus Lindbergh, tool of the Imperialists: "It is time the public started landsliding. It surprises me they didn't start sooner." All of us.

Louis Behr, Jewish student winner of the Kenneth Sterling Day trophy for "Christian character" at University of Wisconsin: "If I have the personal requisites for the Kenneth Sterling Day award—if I have a sound moral character—it is because my parents and my religion have taught me the wisdom of not having an immoral character. If I have the power in any way to influence the life of the student body, it is because the student body is inherently good." He ought also to have been awarded one slice of meatless bologna for being a champion f. thead.

Flaming Youth

"Oh Ma! Quick! Look at the picture! What in the world have they slipped under the hat?"

"That's John Coolidge. He has just graduated from Amherst College."

"How did he do it?"

"Adolph, there are some things in life that science cannot explain."

"Well, what does his old man do?"

"Everybody. When anybody on Wall Street wants a drink of water or a change of linen he gets it for him."

"What do they teach a student at college?"

"How to keep the workers down."

"Do they learn fast?"

"Some of them. But unfortunately the most receptive part of the average student's head is his mouth."

"Well I think they ought to teach them where to buy hats."

• • •

The German Red Aid sent amongst other things a collection of Honoré Daumier's political caricatures to a political prisoner Max Schulz in prison in Luettringhausen. This comrade then wrote that he had been refused these pictures by the authorities. Sure enough a few days afterwards the authorities themselves returned the cartoons with the remark that "all the things sent were unfitted for the prisoners, in particular, however, the cartoons of Daumier!"

• • •

Don't Shoot!

The man in the picture, who dresses so well and knows so little he ought to be a mayor, is Sir John Buchanan Jardine. People who have the habit of making scurrilous remarks have referred to him as the "Jimmy Walker of England." The two most important things he does in life are help spend a big proportion of the national income on horse racing and entertain the workers by appearing in the above masquerade costume. Among the comodities used to establish the above trick effect are a gray top hat, neck-tie and umbrella. After the workers revolution in England the light gray umbrella shown above will be replaced with a dark brown shovel.

HUGE PICKET LINES IN NEW BEDFORD

SANDINO WRITES FRIEND OF FIGHT WITH U.S. TROOPS

Beats Invaders After Temporary Defeat

TEGUCIGALPA, Honduras (By [illegible]).—Writing to Dr. Froylan Turcios, his representative in Honduras, General Augusto C. Sandino tells of an encounter with U. S. marines near [illegible] in which Sandino defeated a detachment led by Capt. Williams on May 14, 1928.

The letter in part follows:

"El Chipote, May 15, 1928.

"Don Froylan Turcios,

"Tegucigalpa, Honduras.

"Dear Friend:

"I have the pleasure to communicate to you the success achieved by our army against the invaders.

"After reconnoitering along the [illegible] coast, one of our cavalry [illegible] under the command of Gen. [illegible] M. J. Ruano, ambushed a column of American pirates who were coming from Jinotega to Puerto de [illegible]. The fight took place on the [illegible] of this month in a place called [illegible], 20 kilometers east of Jinotega.

"Our cavalry was encamped on the road leading from Jinotega to Bocay, in a place called La Chuscada, where it was necessary for the beasts of [illegible] to cross. I was informed of the movement of the enemy, and without losing any time I ordered the cavalry of Gen. Giron to march to [illegible] with the object of impeding the advance of the American pirates. But when we came to the place known as Los Cedros, General Giron was informed by one of our peasant [illegible] of the proximity of the [illegible]. Immediately General Giron [illegible] the forces under command to prepare for attack, and the first shots were fired by our advance guard. There ensued a bitter struggle. Our [illegible] were ably employed by our [illegible]. The response of the enemy was formidable. We were forced to retreat in spite of all we were able to do, and the enemy took the [illegible] over which we were fighting.

"The next day, four o'clock in the afternoon, we surrounded the Americans, and with the force of the right, the Fighters for Independence of Nicaragua impetuously threw themselves upon the Yankees, it being this time impossible to withstand the attack of our brave soldiers. We captured the position and the Yankees were forced to flee shamefully, leaving the camp strewn with dead, and among them the first and second in command. The American rifles, ammunition, horses and provisions were taken for our use."

FINE BALLET FOR STADIUM CONCERT

Theremin, Arno Volpe to Perform

One of the finest ballets in the country has been secured for the [illegible] concert and entertainment to be held Saturday, July 14, in Coney Island Stadium.

The dancing of the ballet is expected to prove one of the leading features at this unusual concert, which, from present indications, will surpass any proletarian musical event ever held in this country.

The star number on a program of great variety will, of course, be Prof. Leo Theremin, the great scientist and inventor of the Soviet Union, whose latest invention by which he draws music out of the air without the aid

K.K.K. INVITES AL SMITH TO SPEAK

May Address 25,000 Klansmen

Al Smith, the Democratic candidate for President, has been invited by the New York Klan to address a meeting of 25,000 klansmen, to be held on July 4. The Ku Klux Klan, [illegible] its solidarity with Smith and [illegible], and wishing to assure him of its good will, promises him nothing will happen "incompatible with the dignity due you as Governor of the State and candidate for the high office of President of the United States." The invitation further goes on to reassure Governor Smith that the invitation is extended because "of the sincere desire of the leaders and members of the Ku Klux Klan to know you more [illegible]."

The lynching of a Negro in Texas [illegible] of the democratic convention has evidently won new admirers for Smith. Governor Smith has not accepted the invitation.

Miners, Caught in Flood, Face Death; Escape

MT. CARMEL, Pa., July 2 (U.P.).—Forty-nine men imprisoned in the Locust Springs Colliery of the Philadelphia and Reading Coal and Iron Company at Locust Gap, near here, when a dam burst and flooded the shaft, were rescued today.

* * *

Open-Shop Mine Flood

MT. CARMEL, Pa., July 2.—Non-union miners of the scab Philadelphia and Reading Coal and Iron Mining Company at Locust Gap narrowly escaped death from drowning when a poorly constructed dam burst and flooded the mine shaft. Forty-nine miners are said to have been in the shaft at the time the dam burst. Warning that the dam was poorly constructed and a danger to those working in the vicinity has frequently been given, but nothing was done by the authorities.

James Carey of Girardsville, one of the miners, required medical attention.

Inevitable Happens

The dam burst, as was predicted, and sent a wall of water rushing into the fifth level, where the 49 men

INTERVIEW MILL CITY POLICE HEAD

Evades Questions Put to Him by Crouch

By PAUL CROUCH

NEW BEDFORD, Mass., July 1.—With an evasiveness that nevertheless clearly showed that police measures will become more brutal to the striking textile workers here as the sharpness of the struggle becomes more pronounced, Chief of Police McLeod answered the questions put to him by the Daily Worker correspondent.

Q. "Do the police contemplate any change in regulation, governing picketing in connection with the attempt

(Continued on Page Three)

TROOPERS FIGHT SINGING MINERS

Scabs Must Not Be Disturbed

(Special to The DAILY WORKER)

ROSSITER, Pa., July 2.—Striking miners who were barred from singing hymns and holding services in the Magyar Presbyterian Church because it "disturbed" the scabs who work in the mine directly behind the church, were routed by mounted state troopers when they attempted to hold open air services. Nevertheless, they will congregate again next Sunday, they say.

The miners came together beyond the Indiana county line, where, they insist, Judge J. N. Langham's recently issued injunction does not apply. The troopers rode over the line into Jefferson County regardless, and Pastor Phillips hastily sent to Brookville for legal advice. The advice came, the services were opened and the troopers rode into the congregation trampling women and children.

MEXICO FEDERAL TROOPS KILL 26

Counter Revolutionaries In Queretaro Battle

MEXICO CITY, July 2.—Twenty-six counter-revolutionaries of a force of 200 were killed in a five hours' fight with federal soldiers near Queretaro, a dispatch to the excelsior said today.

The battle between the counter-revolutionaries occurred while Alvaro Obregon was being "elected" president of Mexico without opposition. Numerous other clashes occurred thruout the country.

$7,000,000 Maine Power Plan Backed By Insull

AUGUSTA, Me., July 2.—Formal announcement of the projected construction of a $7,000,000 hydro-electric development on the upper Kennebec River was made today. The development, which will be the largest of its kind in New England, will include a 60,000 horse-power station with a ninety foot dam. It will be completed in the spring of 1931.

At a meeting last week directors of the company voted to proceed with the project, and financial support has been extended by Martin J. Insull, president of the Middle Western Utilities Company, and labor-baiting controller of the entire traction interests of the state of Illinois.

N. Y. COMMUNISTS TO OPEN ELECTION DRIVE ON JULY 4th

Communist Candidates to Speak at Rallies

Candidates of the Workers (Communist) Party running in New York City for assembly, congress and state senate, and Robert Minor, candidate for U. S. Senate, will speak at 12 open air demonstrations against United States imperialism throughout the city on Wednesday night, July 4. This will be the first public appearance of the local and state standard bearers of the party in this year's election campaign. In connection with this opening shot in the Workers' Party election campaign, District 2, Workers Party, issued the following statement:

"It is significant that July 4 has been chosen as the day on which to open the Communist election rallies. On July 4, 1776, the American masses broke away from the oppressive rule of the British bourgeoisie, under promises of freedom and liberty for themselves, only to fall under the yoke of their own bourgeoisie. On July 4, of this year, the militant workers of New York City will demonstrate against the powerful giant of U. S. imperialism, against the increasing oppression and exploitation to which they are subjected by American capitalism.

The political conventions which have just been held have shown that the capitalist parties are merely the tools of American imperialism. Only the Workers (Communist) Party carries on the struggle against imperialism, against war, against the bitter attacks upon the American working class. Its election program is a program of struggle against the brutal rule of Wall Street at home and abroad.

The standard bearers of the Workers (Communist) Party in every section of the city will bring to the workers of New York the call of the party for the fight against imperialism, against Wall Street and its political puppets, against the socialist party which in today following in the footsteps of the capitalist parties.

Demonstrations will take place in the following sections, with the candidates as principal speakers:

Rutgers Square: Speakers, Melech

Important Meeting of 'Daily' Agents Thursday

An important meeting of all section, subsection and unit DAILY WORKER agents of District 2 will be held Thursday evening at 8 o'clock at 26-28 Union Square. The meeting is being called for the purpose of discussing plans for the great concert that is being arranged for Saturday, July 14, in Coney Island Stadium.

An appeal has been issued to all DAILY WORKER agents by Harry Fox, campaign director of the "Daily," to give this undertaking their utmost support.

They did Not Fear Police Brutality, New Bedford Pickets!

Textile strikers picketed the mills in New Bedford last Saturday in spite of rumors that the police would attempt to smash the demonstration. The officers made their charge; swinging their clubs and slugging the men, and kicking many of the women as they fell to the ground. Twenty-nine workers were arrested by the mill-owners' police.

OBREGON ABJECTLY BOWS TO WALL ST.

WASHINGTON, July 2.—General Obregon, the newly elected President of Mexico, is planning a tour of the United States before he takes office and will meet the newly elected President of the United States in the late fall. This is believed to indicate the complete capitulation of the new Mexican government to American imperialism. The surrender of Calles and Obregon has been arranged through the agency of Dwight W. Morrow, former partner in J. P. Morgan & Co.

* * *

MEXICO CITY, July 2.—Serious clashes, which began during the election of Alvaro Obregon as President of Mexico on Sunday, were still continuing in various parts of the country. Ten persons were reported killed in a pistol battle at Panuco between police and partisans of Marquez, a candidate for the Chamber of Deputies.

Fights occurred throughout Mexico City. The polls throughout the city and the Federal District were guarded by police and soldiers with drawn guns and fixed bayonets.

Obregon is reported to be sworn to a path of reconciliation with the clerical elements of Mexico. He is regarded by American business interests in Mexico as being of the "safe and sane" reactionary type. Mexican Catholics at present in exile in the United States expressed confidence yesterday in the settlement of the return of their property by Obregon, and expressed themselves as expecting many concessions. Obregon was called a careerist and anti-labor man by the Communist party of Mexico.

Heflin Speaks For Klan

PROVIDENCE, R. I., July 2.—Senator Thomas Heflin of Alabama addressed a crowd of 8,000 at Grand Field, Georgiaville, Ku Klux Klan rendesvous, yesterday. Heflin spoke under the auspices of the Roger Williams Klan, and the audience included many klansmen in full regalia.

CANADIAN RUBBER WORKERS STRIKE

Walk-Out of 1000 Effects Many Departments

MONTREAL, Quebec, July 2.—A strike involving nearly 1,000 workers of the Dominion Rubber Company here is on line in full swing at the Papineau factory of the company.

Among the departments affected are the following: The cutting, shoe quarter, lathe, bootmakers, packing, carton, shipping and mill rooms.

The spirit of the strikers is excellent and their enthusiasm is high, it is reported. There is a marked silence concerning the strike on the part of the company officials.

Need Help at Workers Center This Morning

All comrades are asked to come to the Workers Center, 26-28 Union Square, this morning at 10:30 a. m., for special work. Two open autos are wanted at the same time.

JOHN J. BALLAM,
Acting District Organizer.

Watch for the

Daily Worker

on Monday, July 9,

when it will appear for the first time in its "new dress" and in the standard 8-column pages.

Direct cable news from all countries of the world—Soviet Russia included—by wire in our own office is just one feature of the many improvements after moving into our new editorial office at 26-28 Union Square, New York.

Will you get a new reader for The Daily Worker?

New address: 26- 28 Union Square, New York.

New telephone: Stuyvesant 1696.

3 WOMEN CLOAK PICKETS JAILED

To Serve 3 Days Charge of Disorderly Conduct

Three women cloakmakers, arrested yesterday morning with four others while participating in a picketing demonstration called by the Joint Board, Cloakmakers Union, were sentenced to serve three days in jail by Magistrate McGrath when they came up for trial on charges of disorderly conduct later. The other four, men, charged with violating a minor city ordinance, were dismissed.

These workers had answered the call of the Joint Board to picket the cloak manufacturers, Shapiro and Sons, Broadway and 39th St. A strike has been in effect here since the employers had decided to obey the demand of the Sigman Union that all workers refusing to register with the right wing be dismissed. The discharge of a left wing cutter was immediately answered by a strike call from the Joint Board.

The jailed workers are: Ida Klien, Fania Shapiro and Clara Fox. Morris Senamon, Louis Strauss and Morris

(Continued on Page Two)

CALL VENIZELOS AFTER BIG STRIKE

Greek Fascist in Fear of Revolt

ATHENS, Greece, July 2.—President Conduriotis has decided to invite Eleutherios Venizelos, former premier of Greece to form a cabinet. This request was made when the president was faced with the resignation of the Zaimas ministry.

Although in "retirement" for several years, Venezelos has been called in as a result of the tobacco strike which took on the form of a revolt against the government.

Reports that the so-called "strong man of Greece" would shortly return to power in the government have been frequent during the last few months, especially since the great strike.

Work Visits Coolidge; To Offer Resignation

SUPERIOR, Wis., (UP) July 2.—Secretary of the Interior Work, recently selected chairman of the Republican National Committee, arrived here today enroute to Cedar Island Lodge, the summer White House, to submit his resignation from the cabinet to President Coolidge.

Asked specifically about his resignation, Secretary Work said "I have it in my pocket."

Detroit Women Plan Tag Day for Miners' Relief

DETROIT, Mich., July 2.—The Detroit Federation of Workingclass Women will hold a tag day for the relief of the striking miners on July 7.

All women in Detroit have been requested to volunteer to help in this tag day. Those who volunteer to work should meet at the headquarters of the Workers Educational Association at 1967 Grand River Ave., 2nd floor. The activities for the day will begin at 10 a. m.

29 ARRESTED AT PARADE WILL BE TRIED JULY 13th

Police Terror Sharpens Big Textile Struggle

(Staff Correspondent of The DAILY WORKER.)

NEW BEDFORD, Mass., July 2.—The case of the 29 strikers arrested in the parade Saturday afternoon were postponed until July 13 after a hearing beginning at 9 o'clock in the morning in the local courthouse was completed.

All strikers pleaded not guilty to the charge filed against them. Twenty-five of the arrested are charged with inciting to riot and many others, particularly the most active strikers, have additional counts to face.

The International Labor Defense is providing attorneys and bail bonds necessary for the strikers' legal defense.

* * *

Huge Picket Line.

NEW BEDFORD, Mass., July 2.—The greatest picketing demonstration that has as yet been seen in this city took place this morning. Many thousands of textile strikers completely blocked passage in the streets where the mills are located, demonstrating that the police attack on Saturday's parade had sharpened and not blunted the militancy of the 28,000 on strike here.

Jack Rubinstein, union organizer and leader of picket lines in the Passaic textile strike of 1926, declares that picketing here has now assumed the size and enthusiasm of the demonstrations seen in Passaic at the climax of that struggle.

One of the mills which has been most anxious to resume operations, the Nonquitt Mill, opened its north gates this morning. An invitation for the strikers to come back was completely disregarded. The few overseers and foremen that have been working here, were brought to the plant in an automobile that dashed into the mills yards at the rate of thirty-five miles an hour.

Expect Bigger Lines.

Despite the tremendous size of the picket lines this morning the leaders of the Textile Mills Committee predict that the response to the picketing call for next Monday will be much greater. Monday, July 9 is the date set by the mill owners for their intended reopening.

The courthouse here this morning was entirely surrounded by large details of police, who refused permission to enter to all but those whose cases were to be heard, or to court functionaries.

Twenty-five of the 29 arrested yesterday are charged with "inciting to riot," and parading without a permit. The average bail for all those under arrest is $600 each. Manuel Silva and Manuel Machade have an additional charge of "disturbing the peace," and were compelled to furnish $900 before they were freed. Virginia Zidre also has an additional charge of assaulting a policeman.

WAITERS STRIKE IN 3 RESTAURANTS

Demand Increase and Shorter Hours

Waiters and waitresses of the Truefood Vegetarian Restaurants Inc., went on strike this morning in protest against the treatment given to the workers at all of the corporation's three restaurants, located at 110 West 40th St., 153 West 44th St. and at corners of 7th Ave. and 38th St.

The strike was called by Local 1 of the Waiters' and Waitresses Union. The demands, as announced this morning at the office of the union, call for higher wages, better treatment at the hands of the company officials, and shorter hours.

In a statement made public later in the day, the union urged all workers to stop patronizing the restaurants until the demands of the striking workers were granted.

2 Passenger Ship Lines Will Be Sold By Govt.

WASHINGTON, July 2 (UP).—Sale of the United States Lines, including the Leviathan, queen of the American Merchant Marine, and the American Merchant Lines, two government-owned passenger services, was approved today by the Ship Sales Committee of the U. S. Shipping Board.

The plan of sale, which would practically take the government out of the shipping business, was not disclosed

Socialist Party Organ, 'Milwauke Leader', Boosts Traction Company Union

BERGER'S PAPER PRINTS PUBLICITY OF ELECTRIC CO.

Also Aids Open-Shop "Welfare" Schemes

MILWAUKEE, July 2.—The Milwaukee Leader, "socialist" newspaper owned by Victor Berger, is shown to be openly co-operating with the traction company union of this city by a recently printed caption and news item.

The second page of the Leader of June 27 contains a picture of a boy wearing a motorman's cap and carrying packages under his arm. "Off to Electric Co. Picnic" is the line over the picture and underneath the following caption:

"That faraway look in the conductor's eye as you gave him the transfer today may have been the payments on the piano, but more likely it was the picnic of the Electric Co. employes at Waukesha Beach.

"Those unable to picnic today will have their chance to relax, dance and eat ice cream cones on the second day of the picnic tomorrow.

"Above is Henry Winsewski, six, 914 Greenbush St., loaded with lunch and all set for anything Waukesha Beach may have to offer."

Following this is a news item giving details of the picnic with the information that "committees of the Employes Mutual Benefit Assn. of the company are in charge of the outing." The Employes Mutual Benefit Assn. is the company union established by the Electric Co. after it broke up the union of the conductors and motormen several years ago.

The Milwaukee Leader is also boosting the fake welfare undertakings of the International Harvester Co. and other open-shop companies of this city.

BIG LEFT WING MEET IN BOSTON

Weisbord, Hyman Speak At Rally Thursday

BOSTON, July 2.—The rapidly developing offensive of the needle trades workers in every section of that industry is assuming nation-wide proportions, necessitating the immediate rallying of all left wing and progressive forces. To this end the Trade Union Educational League, Boston district announced that a meeting of progressive workers of all trades will be held Thursday, July 5, immediately after work in the Scenic Auditorium, 12 Berkley St.

Particular attention will be paid at this meeting to the recently instituted attempt of the right wing Zaritsky gang to destroy the well organized Cap and Millinery Workers Union of Boston. The situation in the cloakmakers' union and in the furriers union will also be reported on.

Louis Hyman, manager of the New York Joint Board of the Cloakmakers Union, Albert Weisbord, who is now a directing force in the great New Bedford textile struggle, will be the principal speakers at the meeting. J. Miller and A. Ager of the Boston Capmakers Union will also address the meeting.

Zionists Near Fist Fight at Annual Meet

PITTSBURGH, July 2.—Delegates at the 31st annual convention of the Zionist Organization of America were today making desperate and somewhat ludicrous efforts to pour oil on the troubled waters of American Zionism and give the appearance of harmony to the convention despite the bitter fastional struggle that is now on.

Near fist fights marked the opening of the convention yesterday, which started the ball of hokum rolling by electing Louis Lipsky, president of the organization and the center of the internal struggle, as honorary chairman of the convention.

Today's little clowning act consisted of a "harmony" luncheon at which Lipsky was toastmaster and Dr. Stephen S. Wise, chief leader of the "opposition," was the guest of honor.

The convention opened against a background of odorous revelations by a committee of leading Zionists to the effect that the present administration had indulged in considerable juggling of funds.

In his opening address to the convention Lipsky praised the imperialistic activities of Great Britain in Palestine.

CHILDREN'S CAMP TO OPEN MONDAY

Workers Int'l Relief Appeals For Funds

The first group of 100 children leaves next Monday for the Workers International Relief Children's Camp at Wingdale, New York. They will depart by bus from the Unity Coöperative House, 1800 Seventh Ave. at 9 a. m.

The camp opens later than the original date planned in order that additional improvements may be installed. Everything for the comfort and well-being of the children while at camp has been provided.

Funds are badly needed at this time to insure the proper upkeep of this camp for the children of workers There are many cases of children whose medical examinations disclose absolute need of a full summer vacation in the out-of-doors.

With little money available for thir purpose, the W. I. R. is calling upon its friends to send immediate donations to provide for these cases. Organizations and individuals who would like to undertake full or part expenses of one or more of these children should communicate with the W. I. R. headquarters, Room 604, 1 Union Square, phone Algonquin 8048.

Registrations for the second period of the camp, which begins July 16 should be sent in at once, it is announced.

Biedenkapp to Talk At 'Daily' Picnic in Boston

BOSTON, July 2.—Fred G. Biedenkapp, national secretary of the Workers' International Relief, will be the chief speaker at the DAILY WORKER picnic to be held here Wednesday, July 4.

An elaborate program of entertainment has been arranged for this picnic, which is expected to attract several thousand militant workers of Boston and vicinity.

NEWS AGENCIES IN WISCONSIN TOOLS OF POWER TRUST

2 Wisconsin University Professors 'Aided'

WASHINGTON, July 2. — The United Press, as well as the Associated Press, acted as agents for the distribution of power trust propaganda in Wisconsin, a letter from A. F. Herwig, director of the publicity bureau of the Wiscocnsin trust, reveals. The letter, written to Bernard J. Mullaney, of the Illinois publicity bureau, was entered as evidence during the testimony of Herwig today before the federal trade commission.

Herwig testified concerning the three-fold propaganda campaign of the Wisconsin power interests, including distribution of publicity to newspapers, public speaking and work in the schools. In line with the work in the schools he "co-operated" with two professors of the "liberal" University of Wisconsin in the preparation of textbooks favorable to the utilities interests. The two professors whom Herwig so obligingly aided are Prof. Martin J. Glaesser and Prof. Frank B. Woy. Asked whether any power company helped to finance either of the two books, the publicity director of the power companies expressed complete ignorance on the subject.

Supply Speakers.

Herwig stated that utility speakers are regularly supplied to schools, clubs and other groups in the state.

Herwig's letter to Mullaney declared that practically "every daily newspaper in the state uses some of the stories from the clip sheet. When we have information requiring immediate publication we send it throughout the state through the United Press and the Associated Press."

TEXTILE YOUTH TO HOLD PARLEY

Big Conference to Be Held in New Bedford

An important Youth Conference will take place in New Bedford July 21. This conference will be composed of young textile workers' delegates from all important textile centers of New England. The conference will discuss the conditions of the young workers (long hours, low wages, speed-up, lack of organization), all of which are vital problems effecting the young workers.

The reports from different textile cities and towns indicate that the conference will be a success. Already Lowell, Lawrence, Nashua, Newport and Troy have elected delegates to this conference.

The conference will prepare definite plans for the organization of the unorganized young workers and for the improvement of their working conditions, as can be seen by the problems that will be taken up and acted upon, as equal pay for equal work, minimum wage for young workers, no speed-up, etc.

Important centers have already sent in credentials. All young textile workers are urged to organize textile clubs or mill committees, and to send in credentials to 5 Lowell St., Boston, care of Nat Kay.

Boss Threatens Black-List of Seaman

I am quartermaster on a coast-wise steamship between New York and Galveston, Texas. By the mate' orders we are entitled to one day off each trip in N. Y. my freedom on May Day and only

On April 23 I asked the mate for told him that it was important that I have that special day off. He said, "I'll see about it." This with him usually means "yes." But on the thirtieth of April he asked me if the third or fourth wouldn't suit me just as well. I said no and he demanded the reason for it. I therefore tried to explain to him what May Day means to the workers of the world over, thinking that he would understand and let me off.

But the mate said, "Don't savvy Communism." He started to bawl me out for belonging to the "Young Workers Communist League." Here are a few of his phrases: "I am ashamed of you, a young American boy belonging to an organization like that. What's wrong with our president? The best thing you can do is to resign right away, etc., or it may cost you your job." Then he flatly refused to let me off to attend the May Day demonstration.

It happened that I was on the watch from 8 A. M. to 4 P. M., so rather than lose my job I said no more for I would only be late for the march up to the Garden and had just enough time to witness my first May Day celebration.

Would Not Leave League.

I "turned to" on May First and at noon the mate called my buddie, who bunked with me, to his office and questioned him as to myself in general, my character, what I say on deck, etc. My buddie stood up for me, but it did no good. The mate called me up and started on me again. (My buddie, I'm sorry to say, is only a sympathizer.) I tried to tell him of the social injustice in this world, but he wouldn't listen.

He insisted that I was a trouble-maker, but he afterwards admitted that I made no trouble up-to-date. His final argument was, "If you don't resign, I'll have to fire you." So I politely told him I wouldn't leave the League for any job. "Well," he said, "the shipping master has heard of you and said I must get rid of you. The best thing you can do is to go up and try to straighten it out with him if you want to keep your job.

Not so much for my job, but because I knew the shipping master was misinformed, I went up to him. I walked into his office, introduced myself and my mission. I told him I understood I was to be fired by his orders, so said the mate. "No," he said, "I told the mate that if he must fire you for that reason I would black-list you from the company." Then I explained to him what I had been doing aboard ship. I was and am trying to get them to think about Communism in a social and organized way.

Threatens Black-list

The ship master could see no harm in that. But what about my wanting to get a day off to attend a meeting of this Party. He was sure that the Southern Pacific would never stand for that. I could see by our conversation that followed the uselessness of further arguments so I asked him how the matter stood about me and my job.

"If the mate fires you for being a Bolshevik, I'll have to black-list you. As far as keeping a man out of work, I don't want to do that but we can't keep a trouble maker aboard our ships." I returned to the mate and told him what took place in the ship master's office, and emphasized about who wanted the firing done.

"That's it," he said, "the mate is always the goat. Alright, go back to work providing you promise not to talk of this thing to anyone on board and not to bring any literature on the ship. I promised; but I had no intentions of keeping it, and I don't. I work more in the dark now and am careful that he does not hear me say anything but am also careful that I am promised he does not hear of it.

It is hardly necessary for me to add to this that on the ships that sail under the "Morgan Line" flag conditions are just as bad as on ships of other lines. Bum food, bad stuffy quarters, long hours and low wages with lots of abuse from our officers. The last is thrown in for good measure, so that we may have the freedom of living a real 'dog's' life. Only a dog is luckier; he doesn't have to work while we must. I like to work a reasonable amount of time, if I profit by it in other ways than getting wages, let's say providing I can get half decent food to eat.

The people wonder why a sailor doesn't act human when he gets ashore. I don't know the reason they think so and neither do my mates.

J. E. C.

U. S. Imperialism Prepares to Overawe Chinese Workers

The marines (above) were landed from the United States cruisers, Pittsburgh and Isabel. Their twofold purpose in parading with arms thru the streets of Shanghai is to overawe the masses of Chinese workers and to back the designs of the Nanking murderers.

MINER BURNED IN COKE OVEN

Falls When Roof of Furnace Caves In

(Special To The DAILY WORKER.)

UNIONTOWN, Pa., July 2.—The roof of a coke-oven at the non-union Phillips mine near here collapsed, and Elmer E. Wilson, 40-year-old miner fell into the oven. The miner died a horrible death a few hours later in the Uniontown Hospital.

The coal diggers in the coke fields are working under conditions even more dangerous than those in the bituminous and anthracite mines. Wages, which are usually paid in script or company-coined money and exchangeable only at company-owned stores, are among the lowest paid miners anywhere. There are no pit committees, as in union mines, to demand safety measures to protect the lives of the workers.

Most of the mining towns in the coke fields are entirely company owned. For those who do not work in these towns, merely to walk thru the streets is an offense. Coal and iron police, licensed by the state, but hired and paid by the company, are on hand to see that nobody attempts to organize the men.

According to reports brought to the headquarters of the National Miners' Relief Committee by coal diggers from the various mining camps, the cokeworkers are nevertheless secretly organizing themselves.

NEW PLAN HITS POOR CONSUMER

Brooklyn Union Gas Co. to Increase Rates

If the proposed rates of the Brooklyn Union Gas Company go into effect, the workers of Brooklyn will be forced to pay more for their gas than in any other large city in the U. S according to Dr. E. M. Bemis, statistician and economist.

At the hearing before the Public Service Commission he asserted that by increasing the initial charge, the poorer consumers, more than two thirds of the company's customers would have to bear the brunt of the increase. When one of the consumers arose at the hearing to protest against the increase he was promptly silenced by the chairman, and his statements were ordered out of the stenographic report.

Bursting Dam Perils 49 Non-Union Miners

(*Continued from Page One*)

were working.

Hearing the rush of the water, the men had barely time to reach a travelway, crawl into safety holes and make their way to the No. 1 level, where they were rescued.

The dam had been weakened by the heavy rains of the past few days.

3 WOMEN CLOAK PICKETS JAILED

To Serve 3 Days Charge of Disorderly Conduct

(*Continued from Page One*)

Ostrolits were dismissed. Another and bigger picket demonstration is planned by the union for today, according to an appeal issued to the members to report there for picket duty.

• • •

The Joint Board announced that an open forum will be held this afternoon in Bryant Hall at 2 p. m. All cloakmakers are invited to come to participate in the discussion of the present situation in the trade.

J. Kern, chairman of the local section of the National Organization Committee, will preside and open the discussion.

• • •

The local section of the National Organization Committee, at a meeting held last night in the headquarters of the New York Joint Board, were completing plans for the forthcoming conference of shop delegates, which is scheduled to take place next Monday, July 9.

This will be the second shop delegates conference since the Webster Hall conference decreed that these conferences become a permanent institution. Its executive body, elected at the last conference, is now serving as the local section of the N. O. C.

BALLET AT BIG CONEY CONCERT

To Hear Theremin For First Time

(*Continued from Page One*)

of an instrument, has caused a tremendous sensation in the musical and scientific world and has, in the space of a few months, made his name known to millions of people in every part of the globe.

Many other famous artists will appear at this unusual concert. One of them will be Arno Volpe, founder and first conductor of the stadium concerts, who will conduct a symphony orchestra of 50 musicians in a program of well-known selections. At least 25,000 militant workers of this city are preparing to attend this great concert.

NOBILE RESCUERS LOST BY NEGLECT EXPERTS CHARGE

Governments Failed to Heed Soviet Experts

MOSCOW, July 2 (U.P.).—A wholly unconfirmed report was received here today that the Russian ice-breaker Krassin had rescued Captain Einar-Paal Lundborg and five of the crew of the lost dirigible Italia from an ice floe off North East Land.

• • •

MOSCOW, July 2.—Because the advice of the Soviet Union aircraft experts was ignored by the various nations which sent out rescue planes and ships for the lost Nobile crew, the twelve steamers, thirteen airplanes and 1,500 men engaged have not accomplished their purpose., Sege Kamenev, inspector general of the Red Army, is alleged to have stated yesterday.

Because the Soviet experts' appeal for co-operation was ignored, Captain Roald Amundsen, five companions and a Swedish plane have been lost, Kameneff believes.

Lack of desire for co-ordinated work was shown when the Soviet government's ice-breaker, Maligin, was not informed of a change of position of the Nobile crew. Furthermore, a man of Amundsen's exploring experience should not be flying, but should head a department for uniting the efforts of the rescue work, Kameneff asserts.

ITALIAN FLIERS OFF.

ROME, July 2.—Weather permitting, Major Rturo Ferrarin and Major Carlo De Prete are expected to hop off tonight from Rome on their non-stop flight to Buenos Aires, carrying the bid of Italian Imperialism to South America. If they accomplish this 6,000 mile flight it will mean so much more prestige for Mussolini's blackshirt government.

Soviet Trade Union Council Sends 100,000 Roubles to Help Chinese Workers

GIVE FUNDS TO HELP MILITANT LABOR STRUGGLE

Nanking Planning New Terror Campaign

MOSCOW, U. S. S. R., July 2.—Announcement has been made that the Council of Trade Unions of the Soviet Union has donated 100,000 roubles for the relief of the Chinese workers.

This contribution which it is emphasized has been made by a trade union body within the Soviet Union the message accompanying the donation declares, will strengthen the bonds between the free workers and peasants of the U. S. S. R. and their fellow workers in China, who are struggling to free themselves from the yoke of the warlords, imperialists and native capitalists.

The money will be used for the relief of trade union members who have suffered under the terrorism of successive warlords and for strengthening the trade union organizations.

The contribution is considered especially opportune at this time when the Nanking government is preparing to undertake a new campaign against trade unions and other labor organizations thruout the country.

U.S.S.R. EXECUTES SMUGGLERS AIDES

BATUM, Georgia, July 2.—Four customs officials, it was announced by the Georgian Secret Service, have been shot for systematic collaboration with smugglers. The officials, in the service of the Soviet government, included the head of the Batum Customs House.

The Soviet government is energetic in its search for the elements within its own house who aid the enemies of the U. S. S. R. in their campaign of sabotage and illegal buying and selling. Smugglers, bringing their products across the Black Sea, help in importing illegal goods, in this way counteracting the economic program of the Union.

THE NECESSITY OF A BIBLIOGRAPHY SYSTEM

Notes to the Party Press.

1. A good bibliography in the press has three fundamental tasks: firstly, teaching Party members to read, secondly, polemical advocacy of the policy of the Party and Leninism for the outside world, thirdly, complete and prompt information of the Party on the ideologies existing in the various classes and Parties. Therefore, it is not only a fundamental condition for any kind of propaganda, but over and above this an important auxiliary means in the matter of determining the course of the policy of the Party.

2. Up till now, bibliography in any newspaper or periodical of the Communist Parties has not attained this end. The main defects are: (a) Lack of regularity in publication; (b) casual selection of discussion literature; (c) erroneous selection and inadequate guidance of reviewers; (d) erroneous character and non-Marxist method of the reviews themselves.

3. Regularity is the fundamental condition for the creation of good bibliography. It should appear regularly on definite days (for instance Sunday) and should be given a definite place in the newspaper. It should always keep to a certain number of spheres (social democratic, trade union, fascist, syndicalist, etc., literature, colonial policy, militarism, Soviet Union, etc.). Especially Party periodicals of the CPSU and social democratic and trade union periodicals should be continually followed and studied.

4. System in the selection of books which are to be discussed is another fundamental condition. Good bibliography should be up-to-date, namely, on the one hand it should deal promptly with important new publications, and on the other hand, it should indicate and criticize very fully literature (also older literature) in connection with important events and incidents. It should, as far as this is possible, discuss the various books in connection with similar publications appertaining to the same sphere. Entire literary or ideological tendencies should be singled out and analyzed.

5. Selection of reviewers is a third fundamental condition for good bibliography in the Party press. Criticism of books should not be entrusted to comrades not in touch with the practical work of the Party, for the mere reason that they are "experts," but above all to comrades who are active Party workers, for they are the people to know what can be useful or not to the Party in the book [illegible]. Nor should one entrust [illegible] work to comrades who discuss [illegible] in a mechanical manner. Here [illegible] should be pointed out that by asking comrades to review a book one [illegible] helps them to come out of [illegible] of torpor to do ideological [illegible]

6. Regular GUIDANCE of REVIEWERS by the editor can be [illegible] about by discussions by regular correspondence, criticism and instruction (publication of hints "what should a good review be like" as a supplement to the discussion number, also a letter giving the main viewpoints). Nor should one be afraid to return reviews and criticisms several times for further elaboration. Such regular collaboration could be successfully developed by the introduction of lump sum fees. It is essential that the agitprop departments should exercise regular control over the reviewing of books.

7. THE CHARACTER OF THE REVIEWS AND CRITICISMS THEMSELVES is of course the main point for every good bibliography. A review should NOT be:

(a) A mere enumeration of chapters and incidents.

(b) An academic discussion between "experts."

(c) A mere opportunity for the reviewer to show his importance by "running down" the book.

(d) An opportunity to air his views on other matters.

Good criticism must always bear in mind the three tasks of a bibliography in the Party press; information, polemics, instruction how to read. Therefore, it must be written from the standpoint of the Party and with the responsibility which this implies. It must indicate in what way the book reviewed can be useful for Party work, it must give useful quotations. Above all it must be as brief and concrete as possible.

8. WHAT SHOULD BE THE CONTENTS OF A GOOD REVIEW?

(a) A survey of the state of affairs and literature in the respective sphere.

(b) Statement of the contents and of the main ideas of the book in question.

(c) Criticism and polemics.

(d) The book's usefulness for the Party.

(e) Who should read the book.

(f) What book can be considered as a supplement, an argument against or a substitute.

9. MARXISM-LENINISM is the viewpoint from which a review must be written. Therefore, it is essential: firstly, to define in every criticism or review the basic standpoint of Marx and Engels (if possible by carefully selected quotations), secondly, to apply the method of historical materialism in the discussion itself. It is not enough to criticize the theoretical errors of the respective ideology—this ideology itself must be explained on the basis of the material facts of the class struggle.

MOSCOW, July 2.—The average number of workers employed in large scale state industry in the Soviet Union during the first half of 1927-28 was 2,103,000, an increase of 5.5 per cent over the corresponding period of 1926-27.

TAMMANY PLANS BIG SLUSH FUND

Smith Calls Big Conference Here

Preliminary plans by which the democratic machine now dominated nationally by Tammany Hall, hopes to secure the necessary slush fund to put over its candidate, Al Smith, will be outlined this week when the democratic national committee meets with Smith in a series of conferences.

These conferences, which will be held in New York City, will, it is understood, bring together some of the representatives of big business who are to provide the necessary cash for the campaign. In addition the major politicians of the party and of big business will discuss the task of how best to iron out the wrinkles caused by the bone dry plank adopted at Houston last week, how to appease the protestant vote and how to deceive the labor masses.

On Wednesday Smith will make two public appearances, addressing 15,000 new citizens who will be forced to listen to him at the city hall and speaking at the annual fourth of July meeting of the Tammany society.

INTERVIEW MILL CITY POLICE HEAD

Evades Questions Put to Him by Crouch

(Continued from Page One)

of the mill owners to open the mills on July 9?"

A. "We will make arrangements to meet the occasion to the best of our ability."

Q. "You stated that the reason for refusing a parade permit was that the reason given for it was that it is to be a demonstration. What would your reply have been if Keller had given another reason, such as, 'a parade in honor of the strikers' bravery.'"

A. If it were to be like what we have had in the past few weeks I felt fully justified in refusing a permit, and did refuse.

Q. Does the chief refer to the picket lines by "the past few weeks?"

A. Yes, you can put that down.

Questioned about the Porter case, he stated that they suspected him of being a deserter but had no evidence. After the last arrest the police asked the War Department and in three hours received an answer in the affirmative.

When asked about Porter's statement to the effect that he had been threatened 3 times by the police that he would be turned over to the army authorities if he did not quit the strike, the chief did not deny this but answered, "I don't know."

When seen later, the textile strike leaders declared that they knew the police were marshalling all forces to interfere and halt the picketing, declaring at the same time however that these attempts were doomed to miserable failure.

Society for Cultural Relations in the USSR

An All-Union Society for Cultural Relations with Foreign Countries has been established in the U. S. S. R. for the purpose of bringing about closer contact between cultural and scientific organizations of the U. S. S. R. and those of other countries. The Society, of which O. D. Kameneva is the president, has headquarters at Malaia Nikitskaia No. 6, Moscow, U. S. S. R. The Society maintains a Service Bureau for foreign visitors at the above address.

The American Society for Cultural Relations with Russia (U.S.S.R.), a correspondent of the Soviet organization is located at 49 East 25th Street.

CHIANG RUSHES TO PEKING AS CLASHES LOOM

Chang Tso-lin's Son New Dictator

SHANGHAI, China, July 2.—Chiang Kai-shek, southern warlord, and leader of the Kuomintang armies in their advance on Peking, has rushed to that city to be on hand should Feng Yu-hsiang, tentative ally of the Nanking government, attempt to seize power immediately. Clashes between the armies of the two warlords are expected hourly.

• • •

SHANGHAI, July 2.—It was reported today that young Chang Hsueh-liang has succeeded to the dictatorship of his father, the late Chang Tso-lin. Experts here believe that young Chang will follow closely in the dead war lord's footsteps. He has represented Chang Tso-lin both on the battlefields and at political conferences many times.

Like his father, young Chang has strong anti-Communist tendencies. At the same time he could protect his own interests if the nationalists asked him to join with them.

SLUG DEPORTED CUBAN WORKERS

HAVANA, July 2.—Charged with spreading Communist propaganda, for which they were being deported from Cuban territory, two workers aboard the military transport Maximo Gomez were severely injured yesterday as the result of a struggle with their jailors.

The boat is reported to have been lying at her wharf when the ship's authorities attempted to terrorize the deported workers. The men put up a fight altho they were overpowered by numbers of the crew whom the officials called to their assistance.

Both of the workers were injured, one of them critically, from blows over the head with a club.

The men were deported as part of the campaign of terror which the Machado government is practising against the Cuban workers.

Try to Patch Peace in World Oil War

BERLIN, July 2 (FP).—On the eve of the apparent collapse of the negotiations of the Vacuum Oil Company of London it was understood here today there still is an eleventh hour possibility of preserving peace in oil circles by prolongation of the Vacuum's option to purchase the Medway's interests.

The option originally was granted in New York in March, pending the Vacuum Company's eventually unsuccessful attempts to persuade Moscow to modify the contracts for the delivery of Russian oil to the Medway Company.

Training Them For the Imperialist Blood Party

Soldiers of the Seventy-first regiment, New York National Guard, are shown in the picture on their way to camp at Peekskill, N. Y. It is young workers like these that the Young Workers (Communist) League is making more and more conscious of their origin in, and duty towards, their own class, the working class.

MAY SEND MILITIA IN KENOSHA STSIKE

(By a Worker Correspondent)

KENOSHA, Wis. (By Mail).—The class nature of the much lauded "progressive" government of Wisconsin is coming out in bolder relief as local officials of the "better city" of Kenosha are speeding towards Madison, the capital, to petition Governor Zimmerman to send militia to perform strike-breaking activities against the young locked-out knitters and toppers of the Allen-A.

Hot Foot for Troops

On Thursday, June 21, the Kenosha News came out editorially with an appeal for troops. A day later, chief of police Logan, district attorney Powell, city manager Osborn, sheriff Wattles and councilman H. E. Barden, all notorious tools of the Allen-A Co., Nash Motors, Simmons and American Brass, were on their way to the state capital to ask for help in maintaining their open shop "law and order" based on the most miserable wages and exploitation of the workers of Kenosha.

Refuse Mass Picketing

On the other hand the reactionary leadership of Budenz, Steele and Co., who have persistently refused to extend the strike by calling out the rest of the un-skilled Allen-A workers, in the mill across the street from the full fashioned department, and who have failed miserably in organizing all day picketing and instead allowed the strikers only an occasional half-hour of picketing, have prattled constantly about the police as "friends" of the workers, and have fostered illusions about the government. They confined their attacks against the city manager form of government in vogue here and have painted in glowing terms the "aldermanic" form of government in vogue in most large cities of the country.
